1  Getting Started

Install Software First
Install the software from the Kodak EasyShare software CD before connecting the camera (or camera dock) to the computer. Failure to do so may cause the software to load incorrectly.
See the Quick Start Guide or Installing the Software, page 57.

Need This User Guide in Larger Print?
1  Go to www.kodak.com/go/cx6330support.
2  Choose your language.
3  Navigate to the CX6330 - Manuals section.
4  Click View as PDF to open the User's Guide.
5  On a Windows-based computer or Mac OS 8.6 or 9.x:
   ☐  From the File menu, select Print.
   ☐  In the Print window, select Fit to Page.
6  On Mac OS X:
   ☐  From the File menu, select Page Setup.
   ☐  Change Scale to 200%.
7  Print as usual.
Chapter 1

What Can I Do With My Camera?

**Capture Still Pictures**—Use Auto mode to enjoy point-and-shoot operation. Use Sport, Night, Landscape, and Close-up modes to expand your capabilities.

**Capture Videos with Sound**—Capture videos as QuickTime movies.

**Review**—Display, protect, and delete pictures and videos; tag for albums.

**Share**—Share pictures (print, email, save as Favorites) and videos (email, save as Favorites).

**Set Up**—Customize your camera functions (see page 51).

What Can I Do With My Pictures and Videos?

Install the software from the Kodak EasyShare software CD, then:

**Transfer**—Transfer pictures and videos to your computer.

**Share**—Print pictures, order prints online, email pictures and videos.

**Print**—Print pictures directly to your home printer or Kodak EasyShare printer dock 6000. Order prints online from Ofoto, a Kodak Company (www.ofoto.com). Or purchase an optional Kodak multimedia card (MMC) or a secure digital (SD) card and:

- Automatically print to any printer with an MMC/SD slot
- Make prints at an MMC/SD-capable Kodak picture maker kiosk www.kodak.com/go/picturemaker
- Take the card to your local photo retailer for professional printing

**Organize**—Use Favorites to organize and retrieve pictures on a computer.

**Edit**—Add special effects to your pictures, make a custom slide show, fix red-eye, crop, rotate, and much more.

For details, click the Help button in the Kodak EasyShare software. Some Mac operating systems may support limited Kodak EasyShare software features.
Chapter 1

Package Contents

1 Camera
2 Custom dock insert (for camera dock 6000 or printer dock 6000)
3 Kodak Max digital camera batteries (2 AA, non-rechargeable)
4 USB cable
5 Audio/Video cable (for viewing pictures and videos on television)

Not shown: User’s Guide, Quick Start Guide, wrist strap, Kodak EasyShare software CD. (In some countries, the User’s Guide is provided on a CD. Contents may change without notice.)
Chapter 1

**Loading the Batteries**

Two AA batteries (non-rechargeable) are included with your camera.

1. Turn the Mode dial to Off.
2. On the bottom of the camera, slide the battery door and lift to open.
3. Insert the AA batteries as shown.
4. Close the battery door.

**IMPORTANT BATTERY INFORMATION**

For acceptable battery life and to make sure your camera operates dependably, do not use alkaline batteries.

If you purchased an optional Kodak CRV3 lithium battery, insert it as shown.

If you purchased the Kodak EasyShare camera dock 6000, see page 66 for details on installing the included Kodak EasyShare Ni-MH rechargeable battery.

See page 97 for the other types of batteries you can use in your camera.
Chapter 1

Attaching the Wrist Strap

1. Thread the short loop of the wrist strap through the wrist strap post.
2. Thread the long loop through the short loop.
3. Pull until secure.
Chapter 1

Turning On the Camera

Turn the Mode dial from Off to any other position.

The ready light blinks green while the camera performs a self-check, then glows green when the camera is ready to take pictures (or videos, if the mode dial is set to 🎥). In Still and Video modes, status icons appear on the camera screen. See Checking Camera Status, page 8.

Changing the Display

<table>
<thead>
<tr>
<th>If you want to</th>
<th>Then do this</th>
</tr>
</thead>
<tbody>
<tr>
<td>Turn the camera screen on (enter Liveview) or off.</td>
<td>Press the OK button.</td>
</tr>
<tr>
<td>Change the Liveview setting so that it is on whenever the camera is on.</td>
<td>See Turning On Liveview in Still Modes, page 53.</td>
</tr>
<tr>
<td>Redisplay the status icons.</td>
<td>Press 🔄.</td>
</tr>
<tr>
<td>Turn off the camera.</td>
<td>Turn the Mode dial to Off. The camera completes operations that are in process.</td>
</tr>
</tbody>
</table>
Chapter 1

Setting the Date and Time

Setting the Date & Time, First Time
The Date and Time have been reset message appears the first time you turn on the camera or if the battery is removed for an extended time.

1. SET DATE & TIME is highlighted. Press the OK button.
   (Select Cancel to set the date and time at a later time.)

   The Date & Time screen appears.

2. Go to step 4 below, Setting the Date & Time, Anytime.

Setting the Date & Time, Anytime

1. Turn on the camera. Press the Menu button.

2. Press \rightarrow to highlight Setup Menu, then press the OK button.

3. Press \rightarrow to highlight Date & Time, then press the OK button.
   The date format is YYYY/MM/DD. The time is displayed in a 24-hour format.

4. Press \rightarrow to adjust the date and time. Press \rightarrow to advance to the next setting.

5. When finished, press the OK button.

6. Press the Menu button to exit the menu.
   The setting remains until you change it.

NOTE: Depending on your computer operating system, Kodak EasyShare software may let your computer update the camera clock when you connect the camera. See the EasyShare software Help for details.
Checking Camera Status

The icons that appear on the camera screen indicate the active camera and picture settings. See page 9 for a list of the icons.

To check the current camera settings:

1. Turn the Mode dial from the Off position.
2. If 1 is displayed in the status area, press the Flash/Status button to display additional settings.
3. Press  to redisplay the status information at any time.

Turn the Mode dial from the Off position. Press the Flash/Status button.

The current camera status icons are displayed in the bottom half of the Flash screen.
**Chapter 1**

**Camera Screen Icons**

These icons appear on your camera screen when the settings are active.

<table>

</table>

* For Capture mode descriptions, see page 14.
Inserting an MMC/SD Card

Your camera has 16 MB of internal memory. However, optional MMC/SD cards provide removable, reusable storage for pictures and videos.

WARNING: The card can only be inserted one way; forcing it may damage the camera or card. Do not insert or remove a card when the green ready light is blinking; doing so may damage your pictures, card, or camera.

To insert an MMC/SD card:

1. Turn off the camera.
2. Open the card door until it clicks.
3. Orient the card as shown on the card door.
4. Push the card into the slot to seat the connector.
5. Close the door.

To remove the card, push it in, then release it. When the card is partially ejected, pull it out.

See page 95 for storage capacities. Purchase MMC/SD cards at a dealer of Kodak products or www.kodak.com/go/cx6330accessories.
Chapter 1

Choosing Internal Memory or MMC/SD Card

The camera offers two options for storing pictures and videos:

**Internal Memory** — Store pictures and videos in 16 MB internal memory.

**MMC/SD Card** — Store pictures and videos on a card. The number/length of pictures/videos depends on the size of the card. Purchase accessories at a dealer of Kodak products or www.kodak.com/go/cx6330accessories. For storage capacities, see page 95.

Managing Your Storage Location Setting

1. Turn on the camera.
2. Press the Menu button.
3. Press \( \uparrow / \downarrow \) to highlight Image Storage \( \text{게} \), then press the OK button.
4. Press \( \uparrow / \downarrow \) to highlight an option, then press the OK button:
   - **AUTO (default)** — the camera uses the card if one is in the camera. If not, the camera uses internal memory.
   - **INTERNAL MEMORY** — the camera always uses internal memory, even if a card is installed.

5. Highlight Continue, then press the OK button again.

   *The setting remains until you change it and applies to all camera functions.*

6. Press the Menu button to exit the menu.
Chapter 1

Checking Your Storage Setting

In **Still and Video modes**, the storage location icon that appears in the status area indicates the camera’s storage location. To check the location, either:

- Turn the Mode dial from the Off position, or
- In any capture mode, press .

![Storage location icon]

- Memory Card
- Internal Memory

Checking a Picture or Video’s Location

In **Review mode**, the storage location icon that appears with a picture indicates the location of the picture or video.

![Picture/video location]

- Picture or video is stored on a card
- Picture or video is stored in internal memory

Press the Review button.
Taking Pictures

The camera is ready to take pictures anytime it is on—even if you are in Review, Share, or Setup. (In Video mode, the camera captures video.) Before you take a picture, make sure the storage location is set the way you want it (see page 11).

Take a Picture

1. Turn the Mode dial to the mode you want to use. See page 14 for a description of the picture-taking modes.

   The camera screen displays the mode name and description. To interrupt the description, press any button.

2. Use the viewfinder or camera screen to frame your subject. (Press the OK button to turn Liveview on. See page 15.)

3. Press the Shutter button halfway to set the exposure and focus.

4. When the ready light glows green, continue pressing the Shutter button completely down to take the picture.

   When the ready light blinks green, the picture is being saved; you can still take pictures. If the ready light is red, wait until it turns green.

See Flash Settings in Each Mode, page 20.
### Chapter 2

**Picture-Taking Modes**

For the best possible pictures, choose the mode that suits your conditions.

<table>
<thead>
<tr>
<th>Use this mode</th>
<th>For</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Auto" /></td>
<td>General picture-taking. Automatically sets exposure, focus, and flash.</td>
</tr>
<tr>
<td><img src="image" alt="Sport" /></td>
<td>Subjects that are in motion. Shutter speed is fast.</td>
</tr>
<tr>
<td><img src="image" alt="Night" /></td>
<td>Night scenes or low-light conditions. Place the camera on a flat, steady surface or use a tripod. Due to slow shutter speeds, advise people to stay still for a few seconds after flash fires.</td>
</tr>
<tr>
<td><img src="image" alt="Landscape" /></td>
<td>Distant subjects. Flash does not fire unless you turn it on. Auto focus framing marks (page 16) are not available in Landscape.</td>
</tr>
<tr>
<td><img src="image" alt="Close-up" /></td>
<td>Close subjects 5.1-27.6 in. (13-70 cm) from the lens in Wide Angle; 8.7-27.6 in. (22-70 cm) in Telephoto. Use available light instead of flash if possible. Use the camera screen to frame the subject.</td>
</tr>
<tr>
<td><img src="image" alt="Video" /></td>
<td>Capture video with sound. See Taking Videos, page 31.</td>
</tr>
</tbody>
</table>
Chapter 2

Liveview—Framing with the Camera Screen

When you turn on Liveview, the camera screen displays a live image of what the lens sees. Use the camera screen to frame your subject.

IMPORTANT: Liveview quickly depletes battery power; use it sparingly.

1. Turn the Mode dial to any On position.
2. Press the OK button to turn on Liveview.
3. Frame your subject in the camera screen.
   To use the auto focus framing marks, see page 16.
4. Press the Shutter button half-way and hold to set the exposure and focus, then press the rest of the way down to take the picture.
5. To turn off Liveview, press the OK button.

NOTE: If Quality is set to Best (3:2), the Liveview image is displayed at a 3:2 aspect ratio, as shown, with a black bar at the top of the screen.

To change the Liveview setting so that it is on whenever the camera is on, see page 53.
Chapter 2

Using the Auto Focus Framing Marks

In Liveview, the framing marks indicate the area of your scene that the camera is focusing on. For the best possible pictures, the camera attempts to focus on foreground subjects, even if the subjects are not centered in the scene.

1. Press the OK button to turn on Liveview.
2. Press the Shutter button half-way and bold.
3. The framing marks are displayed. When they turn red, focus is accomplished.

While the Shutter Button is Pressed Half-way:

<table>
<thead>
<tr>
<th>Framing marks</th>
<th>Center focus</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Center wide focus</td>
</tr>
<tr>
<td></td>
<td>Side focus</td>
</tr>
<tr>
<td></td>
<td>Center and side focus</td>
</tr>
<tr>
<td></td>
<td>Left and right focus</td>
</tr>
</tbody>
</table>

4. Press the Shutter button the rest of the way down to take the picture.
5. If the camera is not focusing on the desired subject (or if the framing marks disappear), release your finger, recompose the scene, and repeat Steps 2 and 3.

NOTE: Framing marks appear only when Liveview is on.
Framing marks do not appear in Landscape mode.
Chapter 2

Quickview—Reviewing the Picture Just Taken

After you take a picture, the camera screen displays a Quickview of that picture for approximately 5 seconds. While the picture is displayed, you can:

- **Review** it: If you take no action, the picture is saved.
- **Share** it: Press the Share button to tag the picture for print, email, or as a Favorite (see page 47).
- **Delete** it: Press the Delete button while the picture and [ ] are displayed. Follow the prompts to delete the picture.

**NOTE:** Only the final picture of a burst series (see page 22) is displayed during Quickview. If you select Delete, all pictures in the burst series are deleted. To delete selectively, do so in Review (see page 39).

You can turn the Quickview feature on or off (see page 52).
Using the Optical Zoom

Use Optical Zoom to get up to 3X closer to your subject. Optical zoom is effective when the lens is no closer than 23.6 in. (60 cm) to the subject. When you turn on the camera, the lens extends to the Wide Angle position.

1. Use the viewfinder or camera screen to frame your subject.
2. Press Telephoto (T) to zoom in. Press Wide Angle (W) to zoom out. The lens extends or retracts. The viewfinder or camera screen displays the zoomed image.
3. Press the Shutter button half-way and hold to set the exposure and focus, then press the rest of the way down to take the picture.

NOTE: The lens retracts when the camera is turned off.

Using the Advanced Digital Zoom

Use Advanced Digital Zoom to get an additional 3.3X magnification beyond Optical Zoom. Combined zoom settings are from 3.3X to 10X in 0.3 increments. You must turn Liveview on to activate Advanced Digital Zoom.

IMPORTANT: You may notice a decrease in printed image quality when using Digital Zoom.

1. Press the OK button to turn on Liveview.
2. Press the Telephoto (T) button to the Optical Zoom limit. Release the button, then press it again. The camera screen displays the zoomed image and the magnification
   10.0X.
3. Press the Shutter button half-way and hold to set the exposure and focus, then the rest of the way down to take the picture.

NOTE: You can change the way the digital zoom is turned on. See page 54.
Chapter 2

Using the Flash

Use the flash when you take pictures at night, indoors, or outdoors in heavy shadows. You can change the flash setting in any Still mode; the default flash setting is restored when you exit the mode or turn off the camera.

<table>
<thead>
<tr>
<th>Flash Setting</th>
<th>Flash Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wide Angle</td>
<td>2-11.8 ft (0.6-3.6 m)</td>
</tr>
<tr>
<td>Telephoto</td>
<td>2-6.9 ft (0.6-2.1 m)</td>
</tr>
</tbody>
</table>

Turning On the Flash

Press the button repeatedly to scroll through the flash options. The active flash icon is displayed in the camera screen status area (page 8).

- **Auto Flash**—flash fires when the lighting conditions require it.
- **Off**—flash never fires.
- **Fill**—flash fires every time you take a picture, regardless of the lighting conditions.
- **Red-eye**—flash fires once so the subject’s eyes become accustomed to the flash, then fires again when the picture is taken. (If the lighting conditions require flash but do not require Red-eye reduction, the flash may fire only once.)
Chapter 2

Flash Settings in Each Mode
For the best possible pictures, flash settings are pre-set for each capture mode.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

* When you change to Red-eye in these modes, it remains until you change it or turn off the camera.
Putting Yourself in the Picture

The Self Timer creates a 10-second delay between the time you press the Shutter button and the time the picture is taken.

1. Place the camera on a flat surface or use a tripod.
2. In any Still mode, press the Self Timer button. The Self Timer icon 🕒 appears in the status area.
3. Compose the scene. Then press the Shutter button half-way and bold to set the exposure and focus, then press the rest of the way down. Move so that you are in the scene.

The Self Timer light blinks slowly for 8 seconds (then quickly for 2 seconds) before the picture is taken.

The Self Timer turns off after you take the picture or if you change modes.

To cancel the Self Timer before the picture is taken, press the Self Timer button. (The Self Timer setting remains active.)

To turn off the Self Timer, press the Self Timer button twice.
Chapter 2

Taking a Burst Series of Pictures

Burst lets you to take up to 4 pictures in quick succession (approximately 3 frames per second). Burst is ideal for capturing sporting events or objects in motion. Flash and Self Timer are disabled when you use Burst.

Turn On Burst

In any Still mode, press the Self Timer/Burst button twice. The Burst icon 📸 appears in the status area.

NOTE: The setting remains until you change it or turn off the camera.

Take the Pictures

1. Press the Shutter button half-way and hold to set the auto-focus and exposure for all the pictures in the sequence.

2. Press the Shutter button the rest of the way down and hold it to take the pictures.

   The camera takes up to 4 pictures in quick succession. It stops taking pictures when the Shutter button is released, when 4 pictures are taken, or when there is no more storage space.

   Exposure, focus, white balance, and orientation are set for the first picture and applied to all 4 pictures.
Press the Menu button to access optional picture-taking settings. Not all menu options are available in all modes.

<table>
<thead>
<tr>

</tbody>
</table>
Settings Exposure Compensation

Use Exposure Compensation to control how much light enters the camera. This setting is useful for taking pictures in high-contrast scenes, or for retaking pictures when you are not satisfied with the brightness.

Adjust the exposure by plus or minus 2 steps in 1/2-step increments.

1. In any Still mode, press the Menu button.
2. Press \(\uparrow/\downarrow\) to highlight Exposure Compensation \(\mathbb{K}\), then press the OK button.
3. Press \(\uparrow/\downarrow\) to select the Exposure Compensation setting.
   - If pictures are too light, decrease the value.
   - If pictures are too dark, increase the value.
4. Press the OK button to accept the change.
5. Press the Menu button to exit the menu.
6. Use the camera screen to frame your subject. Press the Shutter button \textit{half-way and hold} to set the focus, then \textit{press the rest of the way down} to take the picture.

This setting remains until you change the Mode dial or turn off the camera.
Chapter 2

Setting Picture Quality

Use the Quality setting to select a picture resolution.

1 In any Still mode, press the Menu button.

2 Press  to highlight Quality ★, then press the OK button.

3 Highlight an option:
   
   **Best ★★★ (3.1 MP)**—for printing up to 11 x 14 in. (28 x 36 cm); pictures are highest resolution and largest file size. ★★★ appears in the status area.

   **Best (3:2) ★★ (2.8 MP)**—for printing up to 11 x 14 in. (28 x 36 cm); ideal for printing to the Kodak EasyShare printer dock 6000 and other printing solutions (see page 62); optimal setting for 4 x 6 in. (10 x 15 cm) prints. ★★★ appears in the status area.

   **Better ★ (2.1 MP)**—for printing up to 8 x 10 in. (20 x 25 cm); pictures are medium resolution with smaller file size. ★ appears in the status area.

   **Good ★ (1.1 MP)**—for emailing, Internet, or screen display; pictures are lowest resolution and smallest file size. ★ appears in the status area.

4 Press the OK button.

5 Press the Menu button to exit the menu.

*This setting remains until you change it.*
Chapter 2

Setting Color Mode

Use Color Mode to choose color tones.

NOTE: Once a picture is taken, its color mode cannot be changed on the camera.

1. In any Still mode, press the Menu button.
2. Press ▲/▼ to highlight Color Mode, then press the OK button.
3. Press ▲/▼ to highlight an option, then press the OK button.
   - Color (default)—for color pictures.
   - Black & White—for black and white pictures.
   - Sepia—for pictures with a reddish-brown, antique look.
4. Press the Menu button to exit the menu.

This setting remains until you change the Mode dial or turn off the camera.
Chapter 2

Pre-tagging for Album Names

Use the Set Album (Still) feature to pre-select album names before you take pictures. Then, all the pictures you take are tagged with those album names.

First—On Your Computer

Use Kodak EasyShare software, V 3.0 or higher, to create album names on your computer. Then copy up to 32 album names to the camera's address book the next time you connect the camera to the computer. See Kodak EasyShare software Help for details.

Second—On Your Camera

1. In any Still mode, press the Menu button.
2. Press ▲/▼ to highlight Album , then press the OK button.
3. Press ▲/▼ to highlight an album name, then press the OK button. Repeat to add pictures to more than one album. Selected albums are noted with a check mark.
4. To remove a selection, highlight an album name and press the OK button. To remove all album selections, select Clear All.
5. Highlight Exit, then press the OK button. Your selections are saved. If you turn on Liveview, your album selection is displayed on the screen. A plus (+) after the album name means more than one album is selected.
6. Press the Menu button to exit the menu.
Third—Transfer to Your Computer
When you transfer the tagged pictures to your computer, the Kodak EasyShare software opens and categorizes your pictures in the appropriate album folder. See the Kodak EasyShare software Help for details.

Placing the Date on Pictures
Use the Date Stamp setting to imprint the date on your pictures.
1. Make sure the camera clock is set to the correct date (page 7).
2. In any Still mode, press the Menu button.
3. Press \(\uparrow/\downarrow\) to highlight Date Stamp \(\downarrow\) then press the OK button.
4. Press \(\uparrow/\downarrow\) to highlight an option, then press the OK button.
5. Press the Menu button to exit the menu.

The current date is printed in the bottom right corner of new pictures. This setting remains until you change it.
Chapter 2

Setting the Orientation Sensor

If you rotate the camera to take a picture (for example, a portrait shot), the Orientation Sensor reorients the picture so that it is displayed correct side up. The Orientation Sensor is turned on as the default. You can turn it off so that pictures are not rotated.

NOTE: When your subject is above or below you (such as pictures of an object in the sky, on the ground, or when pointing down at small objects on a table), turn off the Orientation Sensor so that pictures are not rotated unnecessarily.

1. In any Still mode, press the Menu button.
2. Press \( \uparrow \downarrow \) to highlight Orientation Sensor, then press the OK button.

3. Press \( \uparrow \downarrow \) to highlight On or Off, then press the OK button.
4. Press the Menu button to exit the menu.

This setting remains until you change it.
3 Taking Videos

Use Video mode 🎥 to take videos or to customize video-taking settings. Before taking a video, make sure your storage location is set the way you want it (see page 11).

NOTE: Flash is not available in Video mode. Change Optical Zoom before (but not during) video recording. Sound is captured by the microphone, but is played back only when the video is transferred to a computer or when the camera is connected to a television (see page 44).

Taking a Video

1. Turn the Mode dial to Video 🎥.
   A live image, camera status, and the recording time available appear on the camera screen.
2. Use the viewfinder or camera screen to frame your subject.
3. To begin recording, press the Shutter button completely down and release within 2 seconds.
   The Ready light blinks green, REC appears on the camera screen, and the Self Timer/Video light stays on.
4. To stop recording, press the Shutter button again.

Recording stops if storage is full. See page 95 for storage capacities.

NOTE: If you prefer, press the Shutter button completely down and hold it for more than 2 seconds to begin recording. To stop recording, release the Shutter button.
Quickview—Reviewing the Video Just Taken

After you take a video, the camera screen displays the first frame of the video for approximately 5 seconds. While the frame is displayed, you can:

- **Play it**: Press the OK button. Press OK again to pause the video. If the camera is connected to a television (see page 55), press ▲/▼ to adjust the volume.
- **Share it**: Press the Share button to tag the video for email or as a Favorite (see page 47).
- **Delete it**: Press the Delete button while the video and ▪ are displayed. Follow the prompts to delete the video.

You can turn off the Quickview feature (see page 52). When Quickview is turned off, the video is not displayed on the camera screen after you take it.
Chapter 3

Using the Optical Zoom

Use Optical Zoom to get up to 3X closer to your subject. Optical zoom is effective when the lens is no closer than 23.6 in. (60 cm) to the subject. When you turn on the camera, the lens extends to the Wide Angle position.

NOTE: You can change Optical Zoom before (but not during) video recording.

1. Use the viewfinder or camera screen to frame your subject.
2. Press Telephoto (T) to zoom in. Press Wide Angle (W) to zoom out.
   *The lens extends or retracts. The viewfinder or camera screen displays the zoomed image.*
3. Press the Shutter button to take the video.

Changing Optional Video Settings

In Video mode, press the Menu button to access optional video-taking settings.

<table>
<thead>
<tr>
<th>Menu Option</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Image Storage</td>
<td>11</td>
</tr>
<tr>
<td>Album</td>
<td>34</td>
</tr>
<tr>
<td>Setup Menu</td>
<td>51</td>
</tr>
</tbody>
</table>
Pre-tagging for Album Names

Use the Set Album (Video) feature to pre-select album names before you take videos. Then, all the videos you take are tagged with those album names.

First—On Your Computer

Use Kodak EasyShare software, V 3.0 or higher, to create album names on your computer. Then copy up to 32 album names to the camera’s address book the next time you connect the camera to the computer. See Kodak EasyShare software Help for details.

Second—On Your Camera

1. In Video mode, press the Menu button.
2. Highlight Album ( ), then press the OK button.
3. Press ◀/▶ to highlight an album name, then press the OK button. Repeat to add videos to more than one album. Selected albums are noted with a check mark.
4. To remove a selection, highlight an album name and press the OK button. To remove all album selections, select Clear All.
5. Highlight Exit, then press the OK button.
6. Your selections are saved. If you turn on Liveview, your album selection is displayed on the screen. A plus (+) after the album name means more than one album is selected.

Third—Transfer to Your Computer

When you transfer the tagged videos to your computer, the Kodak EasyShare software opens and categorizes your videos in the appropriate album folder. See the Kodak EasyShare software Help for details.
Chapter 3

Putting Yourself in the Video

The Self Timer creates a 10-second delay between the time you press the Shutter button and the time video recording begins.

1. Place the camera on a flat surface or use a tripod.
2. Turn the Mode dial to Video , then press the Self Timer button.
3. Press \( \uparrow \downarrow \) to highlight a Video Length option, then press the OK button:
   - Unlimited — records until you stop recording or until storage is full.
   - Seconds — records for the specified time or until storage is full.
   NOTE: If the current storage location does not have adequate space, some video length options are not displayed. (See page 95 for video storage capacities.)
4. Compose the scene, then press the Shutter button completely down. Move so that you are in the scene.

   The Self Timer/Video light blinks slowly for 8 seconds (then quickly for 2 seconds) before the video begins recording. It then stays on while recording.

   To cancel the Self Timer before the video is taken, press the Self Timer button. (The Self Timer setting remains active.)

   To turn off the Self Timer, press the Self Timer button twice.
4 Reviewing Pictures and Videos

Press the Review button to view and work with your pictures and videos. To save battery power, place your camera in the optional Kodak EasyShare camera dock 6000 to review pictures and videos (see page 63).

Remember, press the Shutter button to take a picture anytime—even in Review.

Viewing Single Pictures and Videos

1 Press the Review button.

The camera screen displays the last picture or video taken.

The icons displayed with each picture indicate the applied features. See Camera Screen Icons, page 9.

2 Press << >> to scroll backward or forward through pictures and videos. (For fast scrolling, press and hold << >>.) Fast-scrolling images appear in the center of the screen.

3 Press the Review button to exit Review.

NOTE: Pictures taken at the Best (3:2) quality setting are displayed at a 3:2 aspect ratio, as shown, with a black bar at the top of the screen.
Chapter 4

Viewing Multiple Pictures and Videos

1. Press the Review button.
2. Press 

   NOTE: You can also press the Menu button, highlight 
   then press the OK button.

   Thumbnails of nine pictures and videos
   are displayed at once.

3. Press \ to display the previous or next row of thumbnails.
4. Press \ to scroll through the thumbnails one at a time.
   The selected picture is highlighted in yellow.
5. Press the OK button to display a single view of the selected picture.

Playing a Video

1. Press the Review button.
2. Press \ to locate a video (or highlight one in multiple view).
3. To play or pause a video, press the OK button.
   NOTE: You can also press the Menu button, highlight 
   then press the OK button.
4. If the camera is connected to a television (see page 55), press \ to
   adjust the volume.
5. To rewind a video, press \ during playback. To replay the video, press the
   OK button.
6. To go to the previous or next picture or video, press \.
Chapter 4

Deleting Pictures and Videos

1. Press the Review button.
2. Press ▲/▼ to locate a picture or video (or highlight one in multiple view), then press the Delete button.

3. Press ▲/▼ to highlight an option, then press the OK button:
   - PICTURE or VIDEO—deletes the displayed picture or video.
   - EXIT—exits the Delete screen.
   - ALL—deletes all pictures and videos from your current storage location.

4. To delete other pictures and videos, press ▲/▼.
5. To exit delete, highlight Exit then press the OK button; or just press the Delete button again.

NOTE: You cannot delete protected pictures and videos in this manner. Remove protection before deleting (see page 41).
Changing Optional Review Settings

In Review mode, press the Menu button to access optional review settings.

<table>
<thead>
<tr>
<th>Magnify (pictures) (page 40)</th>
<th>Copy (page 45)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Play (videos) (page 38)</td>

<tr>
<td>Album (page 41)</td>
<td>Setup Menu (page 51)</td>
</tr>
<tr>
<td>Slide Show (page 43)</td>
<td></td>
</tr>
</tbody>
</table>

Magnifying Pictures

1 Press the Review button, then locate a picture.

2 To magnify at 2X, press the OK button. To magnify at 4X, press the OK button again.
   NOTE: You can also press the Menu button, highlight magnifying glass icon, then press the OK button.
   The picture is magnified. The magnification value is displayed.

3 Press ▼/▲ to see different parts of the picture.

4 Press the OK button to redisplay the picture at the IX (original) size.

5 Press ◄/► to locate a different picture, or press the Review button to exit Review mode.
Chapter 4

Protecting Pictures and Videos From Deletion

1. Press the Review button, then locate the picture or video to protect.
2. Press the Menu button.
3. Press \( \text{ to highlight Protect } \), then press the OK button.

The picture or video is protected and cannot be deleted. The Protect icon appears with the protected picture or video.

4. To remove protection, press the OK button again.
5. Press the Menu button to exit the menu.

⚠️ CAUTION: Formatting internal memory or MMC/SD card deletes all (including protected) pictures, videos, and email addresses.

Tagging Pictures/Videos for Albums

Use the Album feature in Review mode to tag the pictures and videos in your camera with album names.

First—On Your Computer

Use Kodak EasyShare software, V 3.0 or higher, to create album names on your computer, then copy up to 32 album names to the camera’s internal memory. See Kodak EasyShare software Help for details.
Chapter 4

Second—On Your Camera

1. Press the Review button.
2. Locate a picture, then press the Menu button.
3. Press $\uparrow / \downarrow$ to highlight Album $\text{\textregistered}$, then press the OK button.
4. Press $\uparrow / \downarrow$ to highlight an album folder, then press the OK button.

To add other pictures to the same album, press $\leftarrow / \rightarrow$ to scroll through the pictures. When the picture you want is displayed, press the OK button.

To add the pictures to more than one album, repeat step 4 for each album.

*The album name appears with the picture. A plus (+) after the album name means the picture was added to more than one album.*

5. To remove a selection, highlight an album name and press the OK button.
6. Press $\uparrow / \downarrow$ to highlight Exit, then press the OK button.
    
    *Your selections are saved.*
7. Press the Menu button to return to Review mode.

Third—Transfer to Your Computer

When you transfer the tagged pictures and videos to your computer, the Kodak EasyShare software opens and categorizes your pictures and videos in the appropriate album folder. See Kodak EasyShare software Help for details.
Chapter 4

Running a Slide Show

Use the Slide Show to display your pictures and videos on the camera screen. To run a slide show on a television or on any external device, see page 44. To save battery power, use an optional Kodak AC adapter, 3-volt (see page 99).

Starting the Slide Show

1. Press the Review button, then press the Menu button.
2. Press \( \uparrow / \downarrow \) to highlight Slide Show, then press the OK button.
3. Press \( \uparrow / \downarrow \) to highlight Begin Show, then press the OK button.

Each picture and video is displayed once, in the order in which you took them. Then the camera returns to the Menu screen.
4. To cancel the Slide Show, press the OK button.

Changing the Slide Show Display Interval

The default interval setting displays each picture for 5 seconds. You can increase the display interval to up to 60 seconds.

1. On the Slide Show menu, press \( \uparrow / \downarrow \) to highlight Interval, then press the OK button.
2. Select a display interval.
   To scroll through the seconds quickly, press and hold \( \uparrow / \downarrow \).
3. Press the OK button.

The interval setting remains until you change it.
Running a Continuous Slide Show Loop

When you turn on Loop, the slide show is continuously repeated.

1. On the Slide Show menu, press \(\text{\textarrowup} / \text{\textarrowdown}\) to highlight Loop, then press the OK button.

2. Press \(\text{\textarrowup} / \text{\textarrowdown}\) to highlight On, then press the OK button.

When you start a slide show, it repeats until you cancel it by pressing the OK button or until battery power is exhausted. The Loop setting remains until you change it.

Displaying Pictures and Videos on a Television

You can display pictures and videos on a television, computer monitor, or any device equipped with a video input. (Image quality on a television screen may not be as good as on a computer monitor or when printed.)

NOTE: Ensure that the Video Out setting (NTSC or PAL) is correct (see page 55).

1. Connect the audio/video cable (included) from the camera video-out port to the television video-in port (yellow) and audio-in port (white). (Refer to your television user’s guide for details.)

   The camera screen turns off; the television screen acts as the camera display.

2. Review pictures and videos on the television screen.

NOTE: The slide show stops if you connect or disconnect the cable while the slide show is running.
Chapter 4

Copying Pictures and Videos

You can copy pictures and videos from a card to internal memory or from internal memory to a card.

Before you copy, make sure that:
- A card is inserted in the camera.
- The camera’s picture storage location is set to the location from which you are copying. See Choosing Internal Memory or MMC/SD Card, page 11.

Copy pictures or videos:
1. Press the Review button, then press the Menu button.
2. Press ▲▼ to highlight Copy, then press the OK button.
3. Press ▲▼ to highlight an option:
   - PICTURE or VIDEO—copies the current picture or video.
   - EXIT—returns to the Review menu.
   - ALL—copies all pictures and videos from your selected storage location to the other location.
4. Press the OK button.

A progress bar monitors the copy process until complete. (For information on picture numbering, see page 96.)

NOTE:
- Pictures and videos are copied, not moved. To remove pictures and videos from the original location after they are copied, delete them (see page 39).
- Tags that you applied for print, email, and Favorites are not copied.
  Protection settings are not copied. To apply protection to a picture or video, see page 41.
Chapter 4

Displaying Video Date
To display the capture date and time before the video starts:
1. Press the Review button, then press the Menu button.
2. Press \( \uparrow / \downarrow \) to highlight Video Date Display, then press the OK button.
3. Press \( \uparrow / \downarrow \) to highlight an option, then press the OK button.
4. Press the Menu button to exit the menu.

The capture date and time appear during video playback on the camera. This setting remains until you change it.

Viewing Picture/Video Information
1. Press the Review button, then press the Menu button.
2. Press \( \uparrow / \downarrow \) to highlight Picture Info or Video Info, then press the OK button.

Information about the picture or video is displayed.
3. To view information on the next or previous picture or video, press \( \leftrightarrow \). Press the Menu button to exit the menu.
5 Sharing Pictures and Videos

The Share button lets you “tag” your pictures and videos. When they are transferred to your computer, you can share:

<table>
<thead>
<tr>
<th>Tagged Pictures</th>
<th>Tagged Videos</th>
</tr>
</thead>
<tbody>
<tr>
<td>By print</td>
<td>By email</td>
</tr>
<tr>
<td>By email</td>
<td>As Favorites</td>
</tr>
<tr>
<td>As Favorites, for easy organization on your computer</td>
<td></td>
</tr>
</tbody>
</table>

When Can I Tag My Pictures and Videos?

Press the Share button to tag pictures and videos:
- Any time (the last picture taken and the Share menu are displayed).
- Just after you take them, during Quickview (see page 17 and page 32).
- After pressing the Review button (see page 41).

NOTE: Tags remain until removed. If a tagged picture or video is copied, the tag is not copied. In a burst series, only the last picture is tagged during Quickview.
Chapter 5

Tagging Pictures for Printing

1. Press the Share button. Press ▼ to locate a picture.
2. Press ▼ to highlight Print , then press the OK button.*
3. Press ▼ to select the number of copies (0-99). Zero removes the tag for that picture.
   The Print icon ☮ appears in the status area. The default quantity is one. (To change the default, see page 52.)
4. Optional: You can apply a print quantity to other pictures. Press ▼ to locate a picture. Keep the print quantity as is, or press ▼ to change it. Repeat this step until the desired print quantity is applied to the pictures.
5. Press the OK button. Then press the Share button to exit the menu.

* To tag all pictures in the storage location, highlight Print All , press the OK button, then indicate the number of copies as described above. Print All is not available in Quickview.

To remove the print tagging for all pictures in the storage location, highlight Cancel Prints, then press the OK button. Cancel Prints is not available in Quickview.

Printing Tagged Pictures

When you transfer the tagged pictures to your computer, the Kodak EasyShare software print screen opens. For details on printing, click the Help button in the Kodak EasyShare software.

For more information on printing from your computer or card, see page 62.

NOTE: For the best 4 x 6 prints, set the camera to the Best (3:2) print quality setting. See page 25.
Chapter 5

Tagging Pictures and Videos for Emailing

First—On Your Computer
Use Kodak EasyShare software to create an email address book on your computer. Then, copy up to 32 email addresses to the camera’s internal memory.

Second—Tag On Your Camera

1. Press the Share button. Press \( \leftarrow / \rightarrow \) to locate a picture.
2. Press \( \downarrow / \uparrow \) to highlight Email \( \rightarrow \), then press the OK button.
3. Press \( \downarrow / \uparrow \) to highlight an email address, then press the OK button.

To tag other pictures with the same address, press \( \leftarrow / \rightarrow \) to scroll through the pictures. When the picture you want is displayed, press OK.

To send the pictures to more than one address, repeat step 3 for each address.

Selected addresses are checked.

4. To remove a selection, highlight a checked address and press the OK button. To remove all email selections, highlight Clear All.
5. Press \( \downarrow / \uparrow \) to highlight Exit, then press the OK button.

Your selections are saved. The email icon \( \boldsymbol{\rightarrow} \) appears in the status area.

6. Press the Share button to exit the menu.

Third—Transfer and Email

When you transfer the tagged pictures and videos to your computer, the email screen opens and lets you send the pictures and videos to the addresses you specified. For details, click the Help button in the Kodak EasyShare software.
Tagging Pictures and Videos as Favorites

1. Press the Share button. Press \( \downarrow/\uparrow \) to locate a picture.
2. Press \( \downarrow/\uparrow \) to highlight Favorite \( \heartsuit \), then press the OK button. 
   *The Favorite icon \( \heartsuit \) appears in the status area.*
3. To remove the tag, press the OK button again.
4. Press the Share button to exit the menu.

Using Favorites On Your Computer

When you transfer Favorite pictures and videos to your computer, you can use Kodak EasyShare software to retrieve, organize, and label them by subject, date, event, or any category you choose.

For details, click the Help button in the Kodak EasyShare software.

Need Help?

Click the Help button in the Kodak EasyShare software for details on creating address books, and printing, emailing, and organizing tagged pictures on your computer.
6 Customizing Your Camera Settings

Use Setup to customize camera settings according to your preferences.

To Access Setup Mode/Menus

1. In any Capture mode (or in Review), press the Menu button.
2. Press  to highlight Setup Menu , then press the OK button.

Setup Menus

<table>
<thead>
<tr>
<th></th>
<th>Return to previous menu</th>
<th></th>
<th>Date &amp; Time Set (page 7)</th>
</tr>
</thead>
<tbody>
<tr>
<td>🔄</td>
<td>Default Print Quantity (page 52)</td>
<td>📦</td>
<td>Video Out (page 55)</td>
</tr>
<tr>
<td>🔍</td>
<td>Quickview (page 52)</td>
<td>📚</td>
<td>Language (page 55)</td>
</tr>
<tr>
<td>🎥</td>
<td>Liveview (page 53)</td>
<td>📁</td>
<td>Format (page 56)</td>
</tr>
<tr>
<td>📈</td>
<td>Advanced Digital Zoom (page 54)</td>
<td>🔴</td>
<td>About (page 56)</td>
</tr>
</tbody>
</table>
Changing the Default Print Quantity

The Default Print Quantity setting determines the value that is displayed on the Share Print screen (page 48). The default value is 1.

1. Press the Menu button.
2. Press \( \uparrow/\downarrow \) to highlight Setup Menu \( \equiv \), then press the OK button.
3. Press \( \uparrow/\downarrow \) to highlight Default Print Quantity \( \equiv \), then press the OK button.
4. Press \( \uparrow/\downarrow \) to select the new default quantity, then press the OK button.
5. Press the Menu button to exit the menu.

This setting remains until you change it.

Turning Off Quickview

After you take a picture or video, Quickview displays it on the camera screen for approximately 5 seconds (see page 17 and page 32). To save battery power, turn off Quickview.

1. Press the Menu button.
2. Press \( \uparrow/\downarrow \) to highlight Setup Menu \( \equiv \), then press the OK button.
3. Press \( \uparrow/\downarrow \) to highlight Quickview \( \equiv \), then press the OK button.
4. Press \( \uparrow/\downarrow \) to highlight Off, then press the OK button.
5. Press the Menu button to exit the menu.

The picture is not displayed on the camera screen after you take it. To see the picture or video, press the Review button. This setting remains until you change it.
Chapter 6

Turning On Liveview in Still Modes

The Liveview feature lets you use the camera screen as a viewfinder (see page 15). The default setting is Liveview Off.

IMPORTANT: Liveview quickly depletes battery power; use it sparingly.

To change the Liveview default to On:

1. Press the Menu button.
2. Press \( \uparrow/\downarrow \) to highlight Setup Menu, then press the OK button.
3. Press \( \uparrow/\downarrow \) to highlight Liveview, then press the OK button.

4. Press \( \uparrow/\downarrow \) to highlight On, then press the OK button.

Liveview is now On by default. The camera screen is on whenever the camera is on (in Still or Video mode). You can still press the OK button to turn Liveview off and on.

5. Press the Menu button to exit the menu.

This setting remains until you change it.
Chapter 6

Changing Advanced Digital Zoom

You can customize the way the Advanced Digital Zoom turns on.

1. Press the Menu button.
2. Press \( \rightarrow / \leftarrow \) to highlight Setup Menu \( \equiv \), then press the OK button.
3. Press \( \rightarrow / \leftarrow \) to highlight Advanced Digital Zoom \( \equiv \), then press the OK button.
4. Press \( \rightarrow / \leftarrow \) to highlight an option:
   - **Continuous**—digital zoom automatically turns on after the Telephoto button is pressed to the optical zoom limit and held.
   - **Pause (default)**—digital zoom turns on after the Telephoto button is pressed to the optical zoom limit, released, then is pressed again.
   - **None**—disables digital zoom.
5. Press the Menu button to exit the menu.

NOTE: Advanced Digital Zoom cannot be activated unless Liveview is on.
Chapter 6

Setting Video Out

Video Out is a regional setting that lets you connect to a television or other external device (see page 55).

1. Press the Menu button.
2. Press $\uparrow/\downarrow$ to highlight Setup Menu $\Rightarrow$, then press the OK button.
3. Press $\uparrow/\downarrow$ to highlight Video Out $\Rightarrow$, then press the OK button.
4. Press $\uparrow/\downarrow$ to highlight an option:
   - NTSC (default)—used in most countries except those in Europe and China. North America and Japan use NTSC.
   - PAL—used in Europe and China.
5. Press the OK button to accept the change.
6. Press the Menu button to exit the menu.

This setting remains until you change it.

Selecting a Language

You can display menus and screen messages in different languages.

1. Press the Menu button.
2. Press $\uparrow/\downarrow$ to highlight Setup Menu $\Rightarrow$, then press the OK button.
3. Press $\uparrow/\downarrow$ to highlight Language $\Rightarrow$, then press the OK button.
4. Highlight an option, then press the OK button.
5. Press the Menu button to exit the menu.

Text is displayed in the selected language. This setting remains until you change it.
Chapter 6

Formatting Internal Memory or MMC/SD Card

**CAUTION:** Formatting erases all pictures and videos, including those that are protected. Removing a card during formatting may damage the card.

1. Press the Menu button.
2. Press \(\uparrow/\downarrow\) to highlight Setup Menu \(\square\), then press the OK button.
3. Press \(\uparrow/\downarrow\) to highlight Format \(\square\), then press the OK button.

4. Press \(\uparrow/\downarrow\) to highlight an option:
   - **MEMORY CARD**—deletes everything on the card; formats the card.
   - **CANCEL**—exits without making a change.
   - **INTERNAL MEMORY**—deletes everything in internal memory including email addresses and album names; formats the internal memory.

5. Press the OK button.
6. Highlight Continue Format, then press the OK button.

When the formatting is complete, the Setup menu appears.

Viewing Camera Information

1. Press the Menu button.
2. Press \(\uparrow/\downarrow\) to highlight Setup Menu \(\square\), then press the OK button.
3. Press \(\uparrow/\downarrow\) to highlight About \(\square\), then press the OK button.

The camera model and the current firmware version appear.

4. Press the Menu button to exit the menu.
7 Installing the Software

NOTE: To install software on computers running Windows 2000, Windows XP Pro, or Mac OS X, you need administrator privileges. See your computer user's guide.

Windows System Requirements
- Personal computer running Windows 98, 98SE, ME, 2000, or XP OS
- 233 MHz processor or greater (300 MHz recommended for Windows 2000 and XP)
- 64 MB of available RAM (128 MB recommended)
- 100 MB of available hard disk space
- CD-ROM drive
- Built-in USB port
- Color monitor with a minimum resolution of 800 x 600 pixels; High Color (16-bit) or True Color (24-bit) recommended
- Internet access for online printing and emailing
Chapter 7

**Mac OS X System Requirements**
- Macintosh computer with a G3 or G4 processor
- Mac OS 10.1.2, minimum
- 128 MB of available RAM
- 200 MB of available hard disk space
- CD-ROM drive
- Built-in USB port
- Color monitor with a minimum resolution of 800 x 600 pixels; thousands or millions of colors recommended
- Internet access for online printing and emailing

**Mac OS 8.6 and 9.x System Requirements**
- PowerPC-based Macintosh computer
- Mac OS 8.6 or 9.x
- 64 MB of available RAM
- 200 MB of available hard disk space
- CD-ROM drive
- Built-in USB port
- Color monitor with a minimum resolution of 800 x 600 pixels; thousands or millions of colors recommended
- Internet access for online printing and emailing

NOTE: Mac OS 8.6 and 9.x do not support the Share button functions. Mac OS X is recommended for full functionality.
Chapter 7

Install the Software

For information on the software applications included on the Kodak EasyShare software CD, click the Help button in the Kodak EasyShare software.

⚠️ CAUTION:
Install Kodak EasyShare software before connecting the camera or optional dock to the computer. Failure to do so may cause the software to load incorrectly.

1. Before you begin, close all software applications that are open on your computer (including anti-virus software).
2. Place the Kodak EasyShare software CD into the CD-ROM drive.
3. Load the software:
   - Windows-based computer—if the install window does not appear, choose Run from the Start menu and type d:\setup.exe where d is the drive letter that contains the CD.
   - Mac OS 8.6 or 9.x—on the install window, click Continue.
   - Mac OS X—double-click the CD icon on the desktop, then click the Install icon.
Follow the on-screen instructions to install the software.

- **Windows-based computers**—select Typical to automatically install the most commonly used applications. Select Custom to choose the applications you wish to install.
- **Mac OS 8.6 or 9.x**—select Easy to automatically install the most commonly used applications.
- **Mac OS X**—follow the on-screen instructions.

**NOTE:** When prompted, take a few minutes to electronically register your camera and software. This lets you receive information regarding software updates and registers some of the products included with the camera. You must be connected to your Internet service provider to register electronically.

To register later, see [www.kodak.com/go/register](http://www.kodak.com/go/register).

If prompted, restart the computer. If you turned off anti-virus software, turn it back on. See the anti-virus software manual for details.
Connecting Camera to Computer

**CAUTION:**
Install Kodak EasyShare software before connecting the camera or optional dock to the computer. Failure to do so may cause the software to load incorrectly.

You can transfer pictures and videos from the camera to the computer using:
- The (included) USB cable.
- The (optional) Kodak EasyShare camera dock 6000. See page 63 for connecting with the camera dock.
- The (optional) Kodak EasyShare printer dock 6000. Purchase these and other accessories at a dealer of Kodak products or www.kodak.com/go/cx6330accessories.

**Transferring Pictures With the USB Cable**

1. Turn off the camera.
2. Plug the labeled end of the USB cable into the labeled USB port on your computer. See your computer user’s guide for details.
3. Plug the other end of the USB cable into the labeled USB port on the camera.
4. Turn on the camera.

*Kodak EasyShare software opens on your computer. The software prompts you through the transfer process.*
Chapter 8

NOTE: Visit www.kodak.com/go/howto for an online tutorial on connecting. You can also use a Kodak multi-card reader or Kodak SD multimedia card reader-writer to transfer your pictures.

Printing Pictures From Your Computer

For details on printing pictures from your computer, click the Help button in the Kodak EasyShare software.

Ordering Prints Online

Kodak EasyShare print service (provided by Ofoto www.ofoto.com) is one of the many online print services offered in the Kodak EasyShare software. You can easily:

- Upload your pictures.
- Edit, enhance, and add borders to your pictures.
- Store pictures, and share them with family and friends.
- Order high-quality prints, photo greeting cards, frames, and albums—and have them delivered to your door.

Printing From an Optional MMC/SD Card

- Automatically print tagged pictures when you insert your card into a printer with an MMC/SD slot. See your printer user’s guide for details.
- Make prints at an MMC/SD-capable Kodak picture maker. (Contact a location prior to visiting. See www.kodak.com/go/picturemaker.)
- Take the card to your local photo retailer for professional printing.

Print With or Without a Computer

Dock your camera to the Kodak EasyShare printer dock 6000 and print directly—with or without a computer. Purchase this and other accessories at a dealer of Kodak products or www.kodak.com/go/cx6330accessories.
Using the Camera Dock 6000

The Kodak EasyShare camera dock 6000:
- Makes it easy to transfer pictures and videos to the computer.
- Charges the included Kodak EasyShare Ni-MH rechargeable battery pack.
  (Install the battery pack in the camera for charging.)
- Supplies power to the camera.

You can purchase a camera dock at a dealer of Kodak products or at www.kodak.com/go/cx6330accessories.

Camera Dock 6000 Package Contents

1. Camera dock 6000 (with universal insert installed)
2. 5-volt AC power adapter
   *Your AC adapter may differ from the one pictured.*
3. Kodak EasyShare Ni-MH rechargeable battery pack
4. Quick Start Guide (not shown)

⚠️ CAUTION: Do not use the 5-volt AC power adapter to power your camera without the dock. It is not compatible with your camera alone.
Installing the Custom Camera Insert

A universal insert is pre-installed in the camera dock. It allows all Kodak EasyShare CX/DX6000 series and LS600 series cameras to use the camera dock.

A custom insert is included with your camera. It provides a perfect fit for the Kodak EasyShare CX6330 zoom digital camera.

Remove the Universal Insert

1. Place your thumbs against the front of the universal insert. Press in and lift.
2. Lift the side edge of the insert, then remove the insert from the dock.
3. Save the universal insert as a spare.

Install the Custom Insert

1. Position the custom insert so that the cutout lines up with the camera dock connector.
2. Fit the insert into the groove in the dock. Snap it into place.

To order a custom insert, visit www.kodak.com/go/cx6330accessories.
Chapter 9

Connecting the Camera Dock 6000

After the Kodak EasyShare software is loaded (see page 57), connect the camera dock to your computer and to a power outlet. You need:

- The USB cable included with your camera
- The 5-volt AC adapter included with the camera dock

IMPORTANT: Make sure your camera is NOT in the camera dock when you are connecting to power and the computer.

1. Plug the labeled end of the USB cable into the labeled USB port on your computer. See your computer user’s guide for details.
2. Plug the other end of the USB cable into the square USB connector on the back of the camera dock.
3. Plug the AC adapter into the round power connector on the back of the camera dock and into a power outlet.

Your AC adapter may differ from the one pictured or may have additional plugs. Use the plug that accommodates your type of power outlet.

**CAUTION:**

Use only the 5-volt AC adapter included with the camera dock 6000. Other adapters may cause damage to your camera, camera dock, or AC adapter.

Leave the camera dock connected so it’s always ready to transfer pictures and videos.
Chapter 9

Installing the Rechargeable Battery

You received (2) Kodak Max digital camera batteries (AA) with your camera. To take full advantage of your camera dock 6000, replace the AA batteries with the Kodak EasyShare Ni-MH rechargeable battery pack that is packaged with the camera dock.

1. Open the battery door on the bottom of the camera.
2. Install the Ni-MH rechargeable battery pack as illustrated.
3. Close the battery door.

**CAUTION:** The battery pack can only be inserted into the camera in the orientation shown. If the Battery Pack does not easily install, reposition it and try again. DO NOT FORCE IT. Doing so can damage your camera.

**IMPORTANT:** The battery pack is not charged when you receive it. See page 68 for charging instructions.
Docking the Camera

To charge the battery or to transfer pictures and videos from the camera to the computer:

1. Flip down the camera dock foot.
   *The camera dock now sits at the proper angle for viewing the camera screen.*

2. Turn off the camera.
   NOTE: If a USB cable is plugged into the camera itself, unplug it.

3. Match the connector and alignment pins on the camera dock to the camera. Push down until the camera is securely seated.
   *The Transfer light glows green when the camera is seated.*

   If a rechargeable battery is in the camera, the first battery charging light glows green.

   *The camera is now powered by the camera dock instead of the camera batteries.*

NOTE: If the Kodak EasyShare Ni-MH rechargeable battery pack requires charging, charging begins (see page 68).
Chapter 9

Charging the Battery

1. Make sure the Kodak EasyShare Ni-MH rechargeable battery pack is installed in the camera (see page 66).
2. Turn off the camera and place it in the camera dock (see page 67).

If the battery requires charging, charging begins after a brief battery check.

- Full charging takes about 2.5 hours.
- Charging stops if you turn on the camera. If the camera is left in the camera dock with the power on, charging resumes when the camera enters auto power-off (see page 99).
- Charging is suspended during picture transfer.

### Charging Lights Status

<table>
<thead>
<tr>
<th>Charging Lights</th>
<th>Cause</th>
</tr>
</thead>
<tbody>
<tr>
<td>Green lights</td>
<td>Camera is properly docked. Battery is either being checked or is less than half charged.</td>
</tr>
<tr>
<td></td>
<td>Battery is more than half charged.</td>
</tr>
<tr>
<td></td>
<td>Battery is fully charged.</td>
</tr>
<tr>
<td>Red light (blinking)</td>
<td>Battery is not properly installed (see page 66).</td>
</tr>
<tr>
<td></td>
<td>Battery or connector pin is damaged.</td>
</tr>
<tr>
<td></td>
<td>Camera and battery have been exposed to extreme temperatures. Slowly return to room temperature.</td>
</tr>
<tr>
<td>No lights</td>
<td>Camera is not properly seated in the camera dock. AC adapter is not connected. Correct battery is not installed (see page 66).</td>
</tr>
</tbody>
</table>
Chapter 9

Transferring Pictures With the Dock

After the Kodak EasyShare software is loaded on your computer (see page 57), you can transfer pictures and videos from your camera to your computer.

1. Turn off the camera and place it in the camera dock.
2. Push the Transfer button. The Transfer light blinks green while the pictures and videos are transferring. Messages about the transfer status appear on the camera screen. Kodak EasyShare software automatically opens on your computer.

NOTE: After transferring, the camera dock resumes charging as necessary.

</tr>
</tbody>
</table>

Need Help Using the Software?

For details on transferring, organizing, printing, emailing, and editing your pictures, click the Help button in the Kodak EasyShare software.
Chapter 9

Reviewing Pictures and Videos

When the camera is in the dock, the camera is powered by the dock, not the camera batteries. Save battery power by using the dock to review pictures and videos on the camera screen.

1. Turn on the camera and place it in the camera dock.
2. Press the Review button to display the last picture or video taken. See Chapter 4, Reviewing Pictures and Videos, for details.

You can perform any camera function with the camera in the dock (e.g., taking pictures, checking or changing settings).

Earlier Cameras and Docks

Your Kodak EasyShare camera dock 6000 requires a Kodak EasyShare CX/DX6000 or LS600 series digital camera. Earlier camera models (Kodak EasyShare 4000 series and previous) require the original Kodak EasyShare camera dock or camera dock II.
10 Troubleshooting

When you have questions about your camera or camera dock 6000, start here. Additional technical information is available in the ReadMe file located on the Kodak EasyShare software CD. For updates to Troubleshooting information, see www.kodak.com/go/cx6330support.

Software Help
Click the Help button in the Kodak EasyShare software.

Telephone Customer Support
If you have questions concerning the operation of the software or camera, you may speak with a customer support representative.

Before You Call
☑ Have the camera or camera dock connected to your computer.
☑ Be at your computer.
☑ Have the following information available:
  Operating system __________________________________________
  Processor speed (MHz)_____________________________________
  Computer model __________________________________________
  Amount of memory (MB)_____________________________________
  Exact error message you received_______________________________
  Version of Kodak EasyShare software CD________________________
  Camera serial number______________________________________

Upgrading Your Software and Firmware

Download the latest versions of the software included on the Kodak EasyShare software CD and the camera firmware (the software that runs on the camera). See www.kodak.com/go/cx6330downloads.

Tips, Safety, Maintenance

- Always follow basic safety precautions. Refer to the “Important Safety Instructions” booklet packed with your camera.
- Do not allow chemicals, such as suntan lotion, to come into contact with the painted surface of the camera.
- If the camera has been subjected to inclement weather or you suspect water has gotten inside the camera, turn off the camera and remove the batteries and card. Allow all components to air-dry for at least 24 hours before using the camera again. If this does not resolve the problem, contact customer support (page 88).
- Blow gently on the lens or camera screen to remove dust and dirt. Wipe gently with a soft, lint-free cloth or an untreated lens-cleaning tissue. Do not use cleaning solutions unless they are designed specifically for camera lenses. Do not wipe the camera lens or camera screen with chemically treated eyeglass lens tissue. It may scratch the lens.
- Wipe the outside of the camera with a clean, dry cloth. Never use harsh or abrasive cleaners or organic solvents on the camera or any of its parts.
- Service agreements are available in some countries. Contact a dealer of Kodak products for more information.
- For rechargeable battery disposal information, visit the Rechargeable Battery Recycling Corporation Web site at www.rbrc.com.
- For digital camera disposal or recycling information, contact your local authorities. In the US, visit the Electronics Industry Alliance Web site at www.eiae.org or the Kodak Web site at www.kodak.com/go/cx6330support.

</tr>
</tbody>
</table>
Chapter 12

Locating Pictures and Videos on a Card

Pictures stored on MMC/SD Cards use a standard (DCF-Digital Camera Format) agreed upon by many camera manufacturers. This lets you use the cards in different cameras. If you use a card reader to retrieve your files, the following description of the card file structure may be helpful.

MISC folder—contains the order files created when you use the Share feature to tag files for printing, emailing, and as favorites; also contains the address book and album names copied from computer.

SYSTEM folder—created and used while updating camera firmware.

DCIM folder—root level folder, contains the 100K6330 folder. Each time you turn on the camera or insert a different card, any empty folders within the DCIM folder are removed.

100K6330 subfolder—initially contains all pictures and videos on the card.

Picture Naming Conventions

- Pictures are named 100_nnnn.JPG, and are numbered in the order in which they are taken. The first picture is named 100_0001.JPG; the highest number allowed is 100_9999.JPG.
- When a card contains a picture named 100_9999.JPG in the \DCIM\100K6330 folder, subsequent pictures appear in a new folder (\DCIM\101K6330), beginning with picture 101_0001.JPG.
- Even if you transfer pictures to the computer or delete pictures from the camera, the camera continues to use consecutive numbers for all subsequent pictures. For example, if the last picture taken was 100_0007.JPG and you delete it, the next picture you take is named 100_0008.JPG.
- When you insert a different card into your camera, the next picture number is defined by incrementing the higher of the last picture taken by the camera, or the highest existing picture number in the folder.
Chapter 12

If you use the card in a camera other than the Kodak EasyShare CX6330 zoom digital camera, and that camera manufacturer adheres to this file structure standard, the DCIM folder contains a folder named by that camera. For more information, refer to the documentation that accompanied that camera.

**Burst Pictures**

When a burst series is initiated, a letter “B” replaces the underscore in the file name. When a burst series is initiated or ended, the second digit to the left of the decimal is incremented by 1.

<table>
<thead>
<tr>

**Using the Batteries**

- **Replacement Types**—your camera can use the following battery types:
  - 1, Kodak CRV3 lithium battery *
  - 1, Kodak EasyShare Ni-MH rechargeable battery pack* (rechargeable in the Kodak EasyShare camera dock 6000 and printer dock 6000)
  - 2, Kodak Max digital camera batteries (AA)*
  - 2, 1.2 volt AA nickel metal hydride (Ni-MH) batteries, rechargeable *
  - 2, 1.5 volt AA lithium batteries
* Purchase these batteries on our Web site at [www.kodak.com/go/cx6330accessories](http://www.kodak.com/go/cx6330accessories).

- For acceptable battery life, and to make sure your camera operates dependably, **we do not recommend or support alkaline batteries**.
Chapter 12

To lengthen battery life, limit the following activities:

- Using Liveview (using the camera screen as the viewfinder, see page 15)
- Reviewing your pictures on the camera screen (see page 37)
- Excessive use of the flash

Dirt on the battery contacts can affect battery life. Wipe the contacts with a clean, dry cloth before loading batteries in the camera.

Battery life depends significantly on battery age, usage conditions, and type. Digital cameras are demanding on batteries. Not all batteries perform well under these challenging conditions.

Battery performance is reduced at temperatures below 41° F (5° C). Carry spare batteries when using your camera in cold weather; and keep them warm. Do not discard cold batteries that do not work; when they return to room temperature, they may be usable.

Do not allow batteries to touch metal objects, including coins. Otherwise, a battery may short circuit, discharge energy, become hot, or leak.

Expected Battery Life

</tr>
</tbody>
</table>

Optional AC Adapter

You can purchase an optional Kodak 3-volt AC adapter to power your camera. Use it to save battery power when reviewing and transferring pictures.

1. Connect the AC adapter to the DC-In port.
2. Connect the other end of the AC adapter to an electrical outlet.

Purchase batteries and AC adapters at www.kodak.com/go/cx6330accessories.

⚠️ CAUTION:
Do not use the optional 3-volt AC adapter with the Kodak EasyShare camera dock 6000. It is NOT compatible.
Chapter 12

FCC Compliance and Advisory

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed or used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: 1) reorient or relocate the receiving antenna; 2) increase the separation between the equipment and the receiver; 3) connect the equipment to an outlet on a circuit different from that to which the receiver is connected; 4) consult the dealer or an experienced radio/TV technician for additional suggestions.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Where shielded interface cables have been provided with the product or specified additional components or accessories elsewhere defined to be used with the installation of the product, they must be used in order to ensure compliance with FCC regulation.

Canadian DOC Statement

DOC Class B Compliance—This Class B digital apparatus complies with Canadian ICES-003.

Observation des normes-Class B—Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
