5. Multiple exposure button/
   Focus point selector button
6. Auto bracketing button
7. Set button/Flash auto adjustment select button/
   Exposure compensation button
8. Auto exposure lock button
   AEL Exposure metering button
3. Before You Start

1. Charging batteries

Li-Ion battery pack for camera

To charge your Mamiya 645DF+ Li-Ion battery pack:

1. Connect the charger to a power outlet using the included 12 V power supply with the appropriate international adapter.

2. Place the battery firmly in the charger.
   When properly connected, the LED indicates the status of the battery:

<table>
<thead>
<tr>
<th>LED Color</th>
<th>LED Status</th>
<th>Comment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Red</td>
<td>Steady</td>
<td>Charging</td>
</tr>
<tr>
<td>Green</td>
<td>Steady</td>
<td>Fully charged</td>
</tr>
<tr>
<td>Red</td>
<td>Flashing</td>
<td>Error / No connection</td>
</tr>
</tbody>
</table>

Charging is complete when the green LED is steady.
Battery for Credo digital back

To charge your Leaf Credo battery:

1. Connect the Credo digital back battery charger to a power outlet.
2. Insert the battery in the charger and charge each battery (approximately 2.5 to 3 hours).

2. Inserting batteries

Li-Ion battery pack for camera

1. Ensure the drive dial is set to L (off).
2. Turn the camera upside down, lift the battery case lock lever and turn it counter clockwise.
3. Pull out the AA battery holder.
4. Insert a charged Li-Ion battery pack into the camera's battery compartment and lock it by turning the battery case lock lever clockwise.
Battery for Credo digital back

1. Open the battery compartment cover and slide the battery into the battery bay in the bottom of the digital back.
2. Close and lock the battery compartment cover.

3. Setting battery type

In order to utilize the Li-Ion battery in your 645DF/645DF+ camera, you need to set your camera’s Custom Function 04 Battery Type to 2.

To set the battery type, you must initiate one of the Custom Function (CF) banks, then set the battery type.
Initiating CF — Bank A, B or C [00]
1. Turn on the camera body, and set the mode dial to CF.
2. Using the front dial, scroll to CF function 00.
3. Using the rear dial, select bank A, B or C.
In order to use Custom Function 04, you must initiate at least one of the banks.
Setting Battery Type [04]

1. Using the front dial, scroll to Custom Function 04.
2. Using the rear dial, select 0, 1 or 2.
   - 0 = Standard AA alkaline batteries
   - 1 = AA NiMh / NiCD batteries
   - 2 = Li-Ion Rechargeable battery

On Leaf Credo digital backs this custom function can be set from within the digital back menu system when the back is connected to the camera: Camera settings > 645DF > Active Custom Set > A > Setup Custom A > Battery type.
3. Attach and remove a lens

Remove the front body cap, just like you would remove a lens, by pushing the lens release button A backward and then turn the front body cap counter clockwise and lift out.

Line up the lens mount alignment mark B with mark C on the camera to fit the lens in place, then rotate it in the direction of the arrow until it clicks into place.
4. Mounting the Leaf Credo Back

1. Remove the back cover from the camera.

2. Unlock the back by sliding the back lock away from the camera.

3. While holding down the back release button, remove the sensor cover plate from the back.

4. Place the bottom part of the back in the lower locking mechanism on the back of the camera body.
5. While holding down the back release button, push the back and camera body together firmly.

6. Release the back release button.

7. Slide the back lock to the locked position (towards the camera).

Note: Your back should always be protected by its sensor cover plate when it is not attached to the camera.
5. Getting Started

1. Turn on the camera
Switch the drive dial to "S".
Choose your preferred exposure mode using the exposure mode dial.

2. Insert a formatted CF card
A CF card can formatted in either your Credo back or computer.
3. Turn on the digital back
Press and briefly hold the on/off button on the Leaf Credo back. The system is ready to shoot when you hear the beep and you see the home page on the screen.
6. Using the Soft Buttons

**Home Button**
Returns to the main menu screen

**Browse Button**
Tap takes you to browse view from any screen

**Back Button**
Takes you back to the previous screen

**Dynamic Menu**
Displays additional options if available for the screen being viewed
7. Navigating the Back Menu

**Camera Settings:**
- Format CF card
- Live View
- 645DF/Camera

**ISO Selection**

**White balance:**
- Auto
- Daylight
- Tungsten
- Fluorescent
- Flash
- Custom WB

**Settings:**
- Digital back settings
- Brightness
- Power management
- Date/time
- Language
- Storage
- Firmware

**Remaining exposures**

**Battery Level**
8. Setting Up the Digital Back

Configure the following:

- Interface language

- Date and Time
9. Taking a Shot

Press the release button to start shooting.
10. Browsing Images

- Tap browse soft button to access images.
- Swipe bottom to see other images.

- Single tap to select an image.
- Double tap on image to view in 100%.
- Zoom scaling from 6% to 400% by swiping on the right margin area.
• Pan across image using bottom or left area.

• Side zoom control.
• Tap screen to wake up back.
11. Evaluating your Shot

• Tap small histogram.

• View detailed histogram.

• Tap over-exposure warnings.
  Tap Dynamic soft button for more options.
• Check sharpness with zoom.

• Set white balance:
  1. Tap on screen to access full-screen image.
  2. Tap Dynamic menu soft button.
  3. Tap WB icon.
  4. Use picker to select neutral balance.

• Tap Exposure information.
12. Editing your Images

- Browse your images.

- Delete an image by tapping the Dynamic button and tapping trash icon.

A long tap on a thumbnail enables multiple selection.
• Rate your images. Tap Dynamic soft button for rating menu.

• Tap stars to rate images.
13. Changing the Focusing Screen

1. Remove the lens

2. Pull the focusing screen release lever \textbf{A} forward, as illustrated, with the tweezers to release the focusing screen.

3. Remove the focusing screen from the focusing screen frame by grasping the tab on the edge of the screen with the tweezers as illustrated.

* Do not touch the mirror or allow it to be damaged in any way.
4. When installing the screen, pinch the protruding part of the screen using the screen holder, and put the screen on the screen frame.

5. Push the screen frame up using the tweezers until hearing a clicking sound. The screen is now properly installed.
   * Never press down on other parts as this will affect the focus function.

Caution

- Since the focusing screen’s surfaces are soft and easily damaged, handle them carefully.
- Never touch the surface with bare fingers. Should dust settle on it, merely blow it away by using a blower.
- If the focusing screen needs cleaning, send it to the nearest authorized Mamiya service center. Do not attempt to clean the surface of the focusing screen, as it is very delicate.
14. Custom Camera Functions

- C-00 – Select user configuration: A, B, C
- C-01 – TV/AV/Exp step: 1/3, 1/2 or 1 EV
- C-02 – Aperture setting after lens change
- C-03 – Time to sleep mode (def. 15 sec)
- C-04 – Battery type (Alkaline, NiMh/NiCD or Li-Ion)
- C-05 – Auto Bracketing steps (3, 5 or 7)
- C-06 – Front/Rear dial function in Manual mode
- C-07 – Disable rear dial in P mode
- C-08 – Dial function direction
- C-09 – AEL & AFL button exchange
- C-10 – Shutter half-press function
- C-11 – AEL function lock/unlock mode
- C-12 – AFL lock mode setting
- C-13 – One push function M-Mode
- C-14 – AF beam setting
- C-15 – Flash sync. timing
- C-16 – Beep
- C-17 – Choose shutter function (P, Av or Tv mode)
- C-18 – Shutter function in Manual mode
- C-19 – AF Speed
- C-20 – AF Fine Tune
- C-98 – Lens Firmware version
- C-99 – Camera body firmware version
Words and letters on the camera’s LCD are abbreviated due to limitations of space and available letters

15. Installing Software

Install Capture One

Capture One is supplied on a CD or you can download it from http://www.mamiyaleaf.com/downloads.asp
Leaf Limited Warranty

Warranty Coverage
Leaf warrants the digital camera back against defects in materials and workmanship for a period of one (1) year from the date of original retail purchase. Should you discover a defect, Leaf will, as its option, repair or exchange the Leaf product at no charge to you provided that you notify Leaf during the warranty period.

Obtaining Warranty Service
In the event that you believe the Leaf product requires service, please call your Leaf product specialist first. Often a Leaf product specialist can resolve technical issues over the phone, thereby avoiding a return. If service is required, your Leaf product specialist will provide an approval for that action. To find your local Leaf representative go to: www.mamiyaleaf.com

Exclusions and Limitations
This warranty does not apply if the Leaf product has been damaged by accident, installation, shipment, abuse, misuse, misapplication, neglect, fire, water, lightning, or other acts of nature; by failure to follow supplied instructions; or by modification or repair by unauthorized personnel. Leaf shall not be liable for any indirect damages, including, without limitation, lost profits, damage to other property caused by any defect in the Leaf digital back, damages based upon inconvenience, loss of use of the Leaf digital back, loss of time, commercial use, incidental and/or consequential damages for the breach of any expressed or implied warranty, including damage to property and, to the extent permitted by law, damages for personal injury, even if Leaf has been advised of the possibility of such Damages.

The Leaf product may contain refurbished parts. Leaf warrants the refurbished parts in Leaf products for a period of one year from the date of original retail purchase.

THIS WARRANTY IS IN LIEU OF ALL WARRANTIES, WHETHER ORAL OR WRITTEN, EXPRESSED OR IMPLIED. ALL EXPRESSED OR IMPLIED WARRANTIES FOR THIS LEAF DIGITAL BACK, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE, ARE LIMITED TO THE WARRANTY PERIOD. NO WARRANTIES, EXPRESSED OR IMPLIED, WILL APPLY AFTER THE WARRANTY PERIOD.
