Attach strap

1. Push small loop through strap holes.

2. Pull wide end of strap through small loop.
Load batteries

This camera uses two 3V CR2 batteries.

**CAUTION:** *DO NOT mix old or new batteries. DO NOT mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.*

1. Open the battery compartment door.

2. Insert batteries as shown.
Load film pack

1. Unlock and open the film compartment door.

2. Insert the film pack.
   - Hold the film pack by the edges. Do not press on the center of the film pack. Insert the film pack so that the yellow mark on the film pack aligns with the corresponding mark inside the film compartment.
   - Close the film compartment door.
3 Press the Power button 📷. The camera lens extends; the flash/function light blinks once. The status LCD shows a dash.

4 Press the Shutter button 📷 to eject the film cover. When the film cover has been ejected, you are ready to take pictures.

CAUTION: DO NOT pull on the film cover.

The film counter on the status LCD shows 10.
### Remove empty film pack

When the film counter shows open film compartment door and remove the empty film pack.

**CAUTION:** *DO NOT* open film compartment door with film remaining in film pack.

Take photo

1 Press the Power button \(\text{\textsuperscript{\textcircled{1}}\textsuperscript{\textcircled{1}}}\).

The camera lens extends; the flash/function light blinks once.
The status LCD shows the number of photos remaining in the film pack.

2 Aim.

Stand between 2.5 feet and 10 feet from your subject. Frame your subject in the viewfinder.
3 Press the Shutter button to take the picture.

The photo ejects automatically.

**CAUTION:** *DO NOT pull on the photo.*

- For **vertical** pictures, hold camera as shown.

- For **horizontal** pictures, hold camera as shown with flash on top.
Take distance photo

Press the distance button 📘 to adjust lens for pictures beyond 10 ft.

The distance symbol appears in the status LCD.
Tips

If image is too dark, press the Lighten/Darken button once. The Lighten symbol (☉) appears in the status LCD.

If image is too light, press the Lighten/Darken button twice. The Darken symbol (☉) appears in the status LCD.
If image is too dark due to back lighting, press the Fill Flash button. The Fill Flash symbol (§) appears in the status LCD.
Precautions

- **DO NOT** pull film from camera.

- **DO NOT** lay camera down on extended lens. Camera will turn off and lens will retract after 5 minutes.
### Precautions

- **DO NOT** cut film.

- **DO NOT** bend or fold developing film.
Precautions

Caution: This camera is battery operated. To avoid electrical shock, do not expose to or immerse in water or other fluids, disassemble, or operate if dropped or damaged. Contact a Polaroid Service Center for repair information.

Film Caution: This process uses a caustic paste. Avoid contacting skin, eyes or mouth with the paste and keep it away from children and animals. If you get some paste on your skin, wipe it off immediately and wash with water to avoid an alkali burn. If eye or mouth contact occurs, quickly wash the area with plenty of water and see a doctor. Do not cut or take apart photos. Keep discarded materials away from children, animals, clothing, and furniture.
One-year Limited Warranty

Polaroid will, at our option, repair or replace any camera found defective in manufacture within the warranty period. The warranty period is determined by the date of camera purchase. Keep the receipt as proof of purchase. Otherwise, the warranty period is determined by the date of manufacture. To take advantage of the warranty, the camera must be returned to, and repaired by, one of the Polaroid Service Centers. This warranty does not apply to damage caused by accident, misuse or tampering, and excludes all consequential damages except in jurisdictions not allowing such exclusions or limitations.

For customer service or to register your mio visit us online at www.polaroid.com/mio or call 1-800-343-5000 from anywhere in the U.S.A.
