1 About the camera

The camera is designed to be connected to a smartphone via Wi-Fi. You can transfer images to a smartphone on the spot just after shooting.

Check the supplied items

- Rechargeable battery pack NP-BN (1)
- Micro USB cable (1)
- Wrist strap (1)
- Smartphone attachment (1)
- Quick Start Guide (this manual) (1)
- Reference Guide (1)

2 Charging the battery

Charge the battery before using the camera. To charge, use the micro USB cable (supplied) to connect the camera to a computer.

- Turn off the power when the battery is being charged.
- If you do not have a computer, use the AC adapter AC-UD10 or AC-UD11 (both sold separately). The AC-UD11 (sold separately) may not be available in some countries/regions.

3 Inserting a memory card

Insert a microSD memory card or “Memory Stick Micro” (M2) media before shooting.

4 Installing "PlayMemories Mobile"

Install “PlayMemories Mobile” to the smartphone before using the camera. If “PlayMemories Mobile” is already installed, update it to the latest version.

- Android
  Search for “PlayMemories Mobile” from Google Play and install it.

- iPhone
  Search for “PlayMemories Mobile” from App Store and install it.

5 Connecting the camera and a smartphone via Wi-Fi

The connection method varies depending on the type of smartphone. Confirm your smartphone type and connect via Wi-Fi.

- Android
  Touch the (N mark) of the smartphone against the N Mark of the camera.
  Powered on: Continue to touch (1-2 seconds) without moving until “PlayMemories Mobile” starts up.
  Powered off: Keep the camera and a smartphone touching until the lens of the camera extends.

- iPhone
  Touch the (N mark) of the smartphone against the N Mark of the camera.
  Powered on: Continue to touch (1-2 seconds) without moving until “PlayMemories Mobile” starts up.
  Powered off: Keep the camera and a smartphone touching until the lens of the camera extends.
Connecting the camera and a smartphone via Wi-Fi (continued)

1. Turn on the power of the camera.
2. On the smartphone, select [Settings], then select [Wi-Fi].
3. Select the SSID, as printed on the inside of the camera’s battery cover or on the cover of this manual.
4. Input the password, as printed on the same label (first time only).
5. Confirm the connection to the SSID of the camera.
6. Go back to the Home screen, then start “PlayMemories Mobile”.

Why doesn’t the camera charge?
- Turn the power off.

Why the power lamp is flashing red?
- Memory card is not inserted correctly. Insert it in the correct direction.

How can I correct the date/time?
- When Wi-Fi connection between the camera and the smartphone is made, the date/time on the camera is automatically set to that of the smartphone.
- You can make changes on the settings screen of “PlayMemories Mobile”.

How can I return to the default setting?
- Turn on the power of the camera, then press the RESET button.
- If an NFC-enabled smartphone is close to the camera, the power may turn on accidentally. This is not a malfunction. Why does an image not transfer to my smartphone after shooting?
- Movies are recorded on a memory card, but are not transferred automatically.

I’ve forgotten the password. Where can I find out what it is?
- The password and SSID are printed on the inside of the battery cover or on the cover of this manual.

Why has the power of the camera turned on unexpectedly?
- If an NFC-enabled smartphone is close to the camera, the power may turn on accidentally. This is not a malfunction.

Why does an image not transfer to my smartphone after shooting?
- Movies are recorded on a memory card, but are not transferred automatically.

The display screen for the application is subject to change without notice by future upgrades.

The Help Guide is an online manual. Refer to the Help Guide when you would like to know further details, settings and operations of “PlayMemories Mobile”, and precautions.
