Operating Instructions
This manual explains how to use the new model “Sony’s Guide/Troubleshooting” compared to the
previous model, and also those for new functions.

1 Prepare the battery pack

1. Insert the battery pack.

2. Lift out the inlet plug and connect to the wall outlet (wall socket).

2 Turn the camera on/set the clock

1. Select a mode.

2. Press the POWER button.

3. Set the clock by touching the buttons on the screen.

4. Operate the touch panel

4. Select a mode.

1. Press (on-screen key to display the touch panel buttons.

2. Touch the buttons on the screen lightly with your finger.

3. To turn off the power

Press the POWER button again.

To change the date and time

Select (Clock Set) in the menu (page 73) and perform the procedure in step 1 above → “User’s Guide/Troubleshooting” (page 25).

To turn off the power

Press the POWER button again.

Changing the language setting

If you are using a travel converter, be careful not to touch the lens or the LCD screen, and not to apply
force to it. Avoid the steps to prevent the camera from damage by being dropped, etc.

Do not use an electronic transformer (travel converter), as this may cause a malfunction.

To use your camera abroad → Power sources

You can use your camera, the supplied battery charger, and the AC-LSK AC Adaptor (not supplied)
in any country or region where the power supply is within 100 V to 240 V AC, 50/60 Hz.

Notes

1. The LCD screen is manufactured using extremely high-precision technology so over 99.99% of the
cells are functional. This is not a malfunction.

2. If in the CHARGE lamp is lit and the battery charger is unattended long time, it generates some
heat. This is not a malfunction.

When charging is finished, disconnect the battery charger from the wall outlet (wall socket), and remove the
battery pack, do not hold the camera with the battery slot facing down when the battery eject
lever is out.

1. Never remove the battery/“Memory Stick Duo” or turn off
the camera in once.

2. Select a mode.

1. Press (on-screen key to display the touch panel buttons.

2. Touch the buttons on the screen lightly with your finger.

3. To turn off the power

Press the POWER button again.

On the touch panel buttons

1. Turn the access lamp, press it lightly with your finger or the supplied stylus.

2. Do not press the touch panel with any pointed object other than the supplied stylus.

3. Do not press against the LCD screen more than necessary.

To remove a “Memory Stick Duo”

Open access lamp. Open the battery/“Memory Stick Duo” cover, then push the “Memory Stick Duo” in once.

When the access lamp is lit

Never remove the battery/“Memory Stick Duo” or turn off the power. The data may be corrupted.
