Safety and use ...........................................

We recommend that you read this chapter carefully before using your phone. The manufacturer disclaims any liability for damage, which may result as a consequence of improper use or use contrary to the instructions contained herein.

● TRAFFIC SAFETY:

Given that studies show that using a phone while driving a vehicle constitutes a real risk, even when the hands-free kit is used (car kit, headset...), drivers are requested to refrain from using their phone when the vehicle is not parked.

When driving, do not use your phone and headset to listen to music or to the radio. Using a headset can be dangerous and forbidden in some areas.

When switched on, your phone emits electromagnetic waves that can interfere with the vehicle’s electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem:

- Do not place your phone on top of the dashboard or within an airbag deployment area;
- Check with your car dealer or the car manufacturer to make sure that the dashboard is adequately shielded from phone RF energy.

PROTECT YOUR HEARING

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your phone near your ear while the loudspeaker is in use.
• CONDITIONS OF USE:
You are advised to switch off the phone from time to time to optimise its performance.
Switch the phone off before boarding an aircraft.
Switch the phone off when you are in health care facilities, except in designated areas. As with many other types of equipment now in regular use, phones can interfere with other electrical or electronic devices, or equipment using radio frequency.
Switch the phone off when you are near gas or flammable liquids. Strictly obey all signs and instructions posted in a fuel depot, petrol station, or chemical plant, or in any potentially explosive atmosphere.
When the phone is switched on, it should be kept at least 15 cm from any medical device such as a pacemaker, a hearing aid, or an insulin pump, etc.. In particular when using the phone, you should hold it against the ear on the opposite side to the device, if any.
To avoid hearing impairment, pick up the call before holding your phone to your ear. Also move the phone away from your ear while using the "hands-free" mode because the amplified volume might cause hearing damage.
Do not let children use the phone and/or play with the phone and accessories without supervision.
If your phone has a removable cover, note that your phone may contain substances that could create an allergic reaction.
If your phone is a unibody device, the back cover and battery are not removable. If you disassemble your phone the warranty will not apply. Disassembling the phone may damage the battery, and may cause leakage of substances that could create an allergic reaction.
Always handle your phone with care and keep it in a clean and dust-free place.
Do not allow your phone to be exposed to adverse weather or environmental conditions (moisture, humidity, rain, infiltration of liquids, dust, sea air, etc.). The manufacturer's recommended operating temperature range is 0°C (32°F) to +40°C (104°F).
At over 40°C (104°F) the legibility of the phone's display may be impaired, though this is temporary and not serious.
Do not open, dismantle, or attempt to repair your phone yourself.
Do not drop, throw, or bend your phone.
Do not use the phone if the glass screen is damaged, cracked, or broken to avoid any injury.
Do not paint it.
Use only batteries, battery chargers, and accessories which are recommended by TCL Communication Ltd. and its affiliates and are compatible with your phone model. TCL Communication Ltd. and its affiliates disclaim any liability for damage caused by the use of other chargers or batteries.

Remember to make backup copies or keep a written record of all important information stored on your phone.

Some people may suffer epileptic seizures or blackouts when exposed to flashing lights, or when playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout. If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult your doctor before playing video games on your phone or enabling a flashing-lights feature on your phone.

Parents should monitor their children's use of video games or other features that incorporate flashing lights on the phones. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. To limit the likelihood of such symptoms, please take the following safety precautions:

- Do not play or use a flashing-lights feature if you are tired or need sleep;
- Take a minimum of a 15-minute break hourly;
- Play in a room in which all lights are on;
- Play at the farthest distance possible from the screen;
- If your hands, wrists, or arms become tired or sore while playing, stop and rest for several hours before playing again;
- If you continue to have sore hands, wrists, or arms during or after playing, stop the game and see a doctor.

When you play games on your phone, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow the instructions to avoid problems such as tendinitis, carpal tunnel syndrome, or other musculoskeletal disorders.
• PRIVACY:
Please note that you must respect the laws and regulations in force in your jurisdiction or other jurisdiction(s) where you will use your phone regarding taking photographs and recording sounds with your phone. Pursuant to such laws and regulations, it may be strictly forbidden to take photographs and/or to record the voices of other people or any of their personal attributes, and reproduce or distribute them, as this may be considered to be an invasion of privacy. It is the user’s sole responsibility to ensure that prior authorisation has been obtained, if necessary, in order to record private or confidential conversations or take a photograph of another person; the manufacturer, the seller or vendor of your phone (including the operator) disclaim any liability which may result from improper use of the phone.

• BATTERY:
Following air regulation, the battery of your product is not charged. Please charge it first.

For a non-unibody device:
Observe the following precautions:
- Do not attempt to open the battery (due to the risk of toxic fumes and burns);
- Do not puncture, disassemble, or cause a short circuit in a battery;

- Do not burn or dispose of a used battery in household rubbish or store it at temperatures above 60°C (140°F).

Batteries must be disposed of in accordance with locally applicable environmental regulations. Only use the battery for the purpose for which it was designed. Never use damaged batteries or those not recommended by TCL Communication Ltd. and/or its affiliates.

For a unibody device:
Observe the following precautions:
- Do not attempt to open the back cover;
- Do not attempt to eject, replace, or open battery;
- Do not puncture the back cover of your phone;
- Do not burn or dispose of your phone in household rubbish or store it at temperature above 60°C (140°F). Phone and battery as a unibody device must be disposed of in accordance with locally applicable environmental regulations.

This symbol on your phone, the battery, and the accessories means that these products must be taken to collection points at the end of their life:
- Municipal waste disposal centres with specific bins for these items of equipment;
- Collection bins at points of sale.
They will then be recycled, preventing substances being disposed of in the environment, so that their components can be reused.

In European Union countries:
These collection points are accessible free of charge.
All products with this sign must be brought to these collection points.

In non-European Union jurisdictions:
Items of equipment with this symbol are not to be thrown into ordinary bins if your jurisdiction or your region has suitable recycling and collection facilities; instead they are to be taken to collection points for them to be recycled.

CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

- CHARGERS:
Mains powered chargers will operate within the temperature range of: 0°C (32°F) to 40°C (104°F).
The chargers designed for your phone meet the standard for safety of information technology equipment and office equipment use. They are also compliant with the ecodesign directive 2009/125/EC. Due to different applicable electrical specifications, a charger you purchased in one jurisdiction may not work in another jurisdiction. They should be used for this purpose only.
This device is compatible with the charger, which complies with the following standards relating to the Common Mobile Phone Charger:
- EN301 489-34 V2.1.1 Final Draft (2017-04)
- EN 62684:2018
Radio waves

Proof of compliance with international standards (ICNIRP) or with European Directive 2014/53/EU (RED) is required of all phone models before they can be put on the market. The protection of the health and safety for the user and any other person is an essential requirement of these standards or this directive.

THIS DEVICE MEETS INTERNATIONAL GUIDELINES FOR EXPOSURE TO RADIO WAVES.

Your phone is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) recommended by international guidelines. The guidelines were developed by an independent scientific organisation (ICNIRP) and include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg.

Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the ICNIRP guidelines for this device model are:

<table>
<thead>
<tr>
<th></th>
<th>GSM 1800 + WLAN 2.4G</th>
<th>1.44 W/kg</th>
</tr>
</thead>
<tbody>
<tr>
<td>Head SAR</td>
<td>Body-worn SAR</td>
<td>1.60 W/kg</td>
</tr>
</tbody>
</table>

During use, the actual SAR values for this phone are usually well below the values stated above. This is because, for purposes of system efficiency and to minimise interference on the network, the operating power of your phone is automatically decreased when full power is not needed for the call. The lower the power output of the phone, the lower its SAR value.

Body-worn SAR testing has been carried out at a separation distance of 5 mm. To meet RF exposure guidelines during body-worn operation, the phone should be positioned at least this distance away from the body.

If you are not using an approved accessory ensure that whatever product is used is free of any metal and that it positions the phone the indicated distance away from the body.
Organisations such as the World Health Organisation and the US Food and Drug Administration have stated that if people are concerned and want to reduce their exposure they could use a hands-free device to keep the phone away from the head and body during phone calls, or reduce the amount of time spent on the phone. For more information, you can go to www.alcatelmobile.com.

Additional information about electromagnetic fields and public health are available on the following site: http://www.who.int/peh-emf.

Your phone is equipped with a built-in antenna. For optimal operation, you should avoid touching it or degrading it.

As mobile devices offer a range of functions, they can be used in positions other than against your ear. In such circumstances the phone will be compliant with the guidelines when used with a headset or USB data cable. If you are using another accessory ensure that whatever product is used is free of any metal and that it positions the phone at least 5 mm away from the body.

Please note by using the device some of your personal data may be shared with the main device. It is under your own responsibility to protect your own personal data, not to share with it with any unauthorised devices or third party devices connected to yours. For products with Wi-Fi features, only connect to trusted Wi-Fi networks. Also when using your product as a hotspot (where available), ensure your network security. These precautions will help prevent unauthorised access to your phone. Your product can store personal information in various locations including a SIM card, memory card, and built-in memory. Be sure to remove or clear all personal information before you recycle, return, or give away your product. Choose your apps and updates carefully, and install from trusted sources only. Some apps can impact your product’s performance and/or have access to private information including account details, call data, location details, and network resources.

Note that any data shared with TCL Communication Ltd. is stored in accordance with applicable data protection legislation. For these purposes TCL Communication Ltd. implements and maintains appropriate technical and organisational measures to protect all personal data, for example, against unauthorised or unlawful processing and accidental loss or destruction of or damage to such personal data whereby the measures shall provide a level of security that is appropriate having regard to
- The technical possibilities available;
- The costs for implementing the measures;
- The risks involved with the processing of the personal data, and;
- The sensitivity of the personal data processed.
You can access, review, and edit your personal information at any time by logging into your user account, visiting your user profile or by contacting us directly. Should you require us to edit or delete your personal data, we may ask you to provide us with evidence of your identity before we can act on your request.

You have purchased a product which uses the open source (http:/opensource.org/) programmes mtd, msdosfs, netfilter/iptables and initrd in object code and other open source programs licensed under the GNU General Public Licence and Apache Licence.

We will provide you with a complete copy of the corresponding source codes upon request within a period of three years from the distribution of the product by TCL Communication Ltd.

You may download the source codes from http://sourceforge.net/projects/alcatel/files/. The provision of the source code is free of charge from the internet.

We hereby point out that the end user warranty for infringement IPR is solely limited to the EU/EEA/Switzerland.

If and to the extent that the Product is exported, taken with, or used by end customer or end user outside the EU/EEA/Switzerland any responsibility, warranty or indemnification of manufacturer and its suppliers in regard to the Product expires (including any indemnification in regard to infringement IPR).

**General information............................**

- **Internet address:** www.alcatelmobile.com
- **Hotline:** See the "SERVICES" leaflet that came with your phone or go to our website.
- **Manufacturer:** TCL Communication Ltd.
- **Address:** 5/F, Building 22E, 22 Science Park East Avenue, Hong Kong Science Park, Shatin, NT, Hong Kong
- **Electronic labeling path:** Touch Settings > Regulatory & safety or press *#07#, you can find more information about labelling (1).

On our website, you will find our FAQ (Frequently Asked Questions) section. You can also contact us by email to ask any questions you may have.

This radio equipment operates with the following frequency bands and maximum radio-frequency power:

- **GSM 850/900:** 33.5 dBm

(1) May not be available in all countries.

(1) It depends on countries.
GSM 1800/1900: 30.5 dBm
UMTS B1/2/5/8 (2100/1900/850/900): 23.5 dBm
LTE 1/3/7/8/20/28(2100/1800/2600/900/800/700): 23 dBm
Bluetooth 2.4GHz band: 7 dBm
802.11 b/g/n 2.4GHz band: 17 dBm;

- **Regulatory information**

Hereby, TCL Communication Ltd. declares that the radio equipment type **Alcatel 5024D** is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address: http://www.alcatelmobile.com/EU_doc.

- **Additional information**

The description of accessories and components, including software, which allow the radio equipment to operate as intended, can be obtained in the full text of the EU declaration of conformity at the following internet address: http://www.alcatelmobile.com/EU_doc.

**Protection against theft**

Your phone is identified by an IMEI (phone serial number) shown on the packaging label and in the phone’s memory. We recommend that you note the number the first time you use your phone by entering *#06# and keep it in a safe place. It may be requested by the police or your operator if your phone is stolen. This number allows your phone to be blocked preventing a third person from using it, even with a different SIM card.

**Disclaimer**

There may be certain differences between the user manual description and the phone's operation, depending on the software release of your phone or specific operator services.

TCL Communication Ltd. shall not be held legally responsible for such differences, if any, nor for their potential consequences, which responsibility shall be borne by the operator exclusively. This phone may contain materials, including applications and software in executable or source code form, which is submitted by third parties for inclusion in this phone ("Third Party Materials"). All Third Party Materials in this phone are provided "as is", without warranty of any kind, whether express or implied. The purchaser undertakes

(1) Contact your network operator to check service availability.
that TCL Communication Ltd. has complied with all quality obligations incumbent upon it as a manufacturer of mobile devices and phones in complying with Intellectual Property rights. TCL Communication Ltd. will at no stage be responsible for the inability or failure of the Third Party Materials to operate on this phone or in interaction with any other device. To the maximum extent permitted by law, TCL Communication Ltd. disclaims all liability for any claims, demands, suits or actions, and more specifically – but not limited to – tort law actions, under any theory of liability, arising out of the use, by whatever means, or attempts to use, such Third Party Materials. Moreover, the present Third Party Materials, which are provided free of charge by TCL Communication Ltd., may be subject to paid updates and upgrades in the future; TCL Communication Ltd. waives any responsibility regarding such additional costs, which shall be borne exclusively by the purchaser. TCL Communication Ltd. shall not be held responsible for the lack of availability of any application, as its availability depends on the country and the operator of the purchaser. TCL Communication Ltd. reserves the right at any time to add or remove Third Party Materials from its phones without prior notice; in no event shall TCL Communication Ltd. be held responsible by the purchaser for any consequences of such removal.
Back button
- Touch to go back to the previous screen, or close a dialog box, options menu, the Notification panel, etc.

Home button
- From any application or screen, touch to return to the Home screen.
- Long press to turn on Google Assistant. You can get help such as getting directions and restaurant information based on the content detected on the screen.

Recent Apps button
- Touch to open a card view of applications you've worked with recently.

Power key
- Press: Lock the screen/Light up the screen.
- Press and hold: Show the popup menu to select from Restart/Power off/Aeroplane mode.
- Press and hold the Power key and Volume down key to take a screenshot.
- Press and hold the Power key for at least 10 seconds to force reboot.

Volume keys
- In call mode, adjusts the call volume.
- In Music/Video/Streaming mode, adjusts the media volume.
- In general mode, adjusts the ringtone volume.
- Mutes the ringtone of an incoming call.
- In camera preview mode, press Volume up or down key to take a photo.
1.2 Getting started

1.2.1 Setting up

1. Inserting or removing the microSD card.
2. Inserting or removing the SIM card.

Your phone only supports nano-SIM cards. Do not attempt to insert other SIM types like mini and micro cards; otherwise, this may cause damage to your phone.

Charging the battery

You are advised to fully charge the battery (🔋). Charging status is indicated by a percentage displayed on screen. The percentage increases as the phone is charged.

To reduce power consumption and energy waste when the battery is fully charged, disconnect your charger from the plug; switch off Wi-Fi, GPS, Bluetooth or background-running applications when not in use; reduce the backlight time, etc.

1.2.2 Powering on your phone

Long press the Power key until the phone powers on, unlock your phone (Swipe, PIN, Password or Pattern) if necessary and confirm. The Home screen is displayed.

If you do not know your PIN code or forget it, contact your network operator. Be sure to keep your PIN code safe.
1.2.3 Powering off your phone
Press and hold the Power key until options appear, then select Power off.

1.3 Home screen
You can bring all the items (applications, shortcuts, folders and widgets) you love or use most frequently to your Home screen for quick access. Swipe up on the Home screen.

1 Status bar
- Status/Notification indicators
- Touch and drag down to open the Notification panel.

2 Google Search bar
- Touch ② to enter text search screen
- Touch ③ to enter voice search screen

3 Favorite tray applications
- Enter the application.
- Long press to view App info.

4 Reversible screen
The phone supports the reversible function. From the Home screen, swipe up and then touch Settings > Display > Auto-rotate screen to enable the function.

1.3.1 Using the touchscreen
Touch
To access an application, touch it with your finger.

Long press
To enter the available options for an item, long press the item. For example, select a contact in Contacts, long press this contact, an option list will appear.

Drag
Long press an item and drag it to another location.
Slide/Swipe
Slide the screen to scroll up and down the applications, images, and web pages. You can slide the screen horizontally too.

Flick
Similar to swiping, flicking is a lighter and quicker stroke.

Pinch/Spread
Place two fingers on the screen surface and draw them apart or together to scale an element on the screen. The phone also supports one finger zooming in Camera and Photos. Double touch the screen to zoom in/out.

Rotate
Automatically change the screen orientation from portrait to landscape by turning the phone sideways to have a better screen view.

1.3.2 Status bar
From the Status bar, you can view both phone status (on the right side) and notification information (on the left side).

Drag down the status bar to view notifications and drag again to enter the Quick settings panel.
Touch and drag up to close it. When there are notifications, you can touch them to access notifications.

Notification panel
When there are notifications, touch and drag down the Status bar to open the Notification panel to read more detailed information.

Clear all notifications (ongoing notifications will remain)

Quick Settings panel
Touch and drag down the notification panel to open the Quick Settings panel. You can enable or disable functions or change modes by touching the icons.
1.3.3 Locking and unlocking your screen

To protect your phone and privacy, you can lock the phone with a pattern, PIN, or password, etc.

To create a screen unlock pattern
• From the Home screen, swipe up and then touch Settings > Security & location > Screen lock.
• Set your own pattern.

To lock phone screen
Press the Power key once to lock the screen.

To unlock the phone screen
Press the Power key once to light up the screen, slide to draw the unlock pattern you have created or enter your PIN, or password, etc.

If you have chosen Swipe as the screen lock, you can press the Power key to light up the screen, then swipe up to unlock the screen.

1.3.4 Personalising your Home screen

Add
You can long press a folder, an application or a widget and drag the item to your preferred Home screen.
Reposition
Long press an item and drag it to the desired position and then release. You can move items both on the Home screen and the Favourite tray. Hold the icon on the left or right edge of the screen to drag the item to another Home screen.

Remove
Long press an item and drag it up to the top of the Remove icon, then release.

Create folders
To improve the organisation of shortcuts or applications on the Home screen and the Favourite tray, you can add them to a folder by stacking one item on top of another. To rename a folder, open it and touch the folder’s title bar to input the new name.

Wallpaper customisation
Long press an empty area on the Home screen, then touch Wallpapers to customise wallpaper.

1.3.5 Widgets and recently used applications
Consult widgets
Long press the empty area on the Home screen, then touch Widgets to display all widgets.

Touch the selected widget and slide it to move to your preferred screen.

Consult recently used applications
To consult recently used applications, touch the Recent Apps button. Touch a thumbnail in the window to open the application.

Touch one thumbnail and slide it left or touch X to close an application.

Touch at the bottom of the screen to close all the running applications.
1.3.6 Volume adjustment

Using the volume key

Press the Volume key to adjust the volume. To activate the vibrate mode, press the Volume down key until the phone vibrates.

Using the settings menu

From the Home screen, swipe up to open the App drawer, then touch Settings > Audio profiles > Volumes > to set the volume for media, ringtones, alarms, Notification, etc.

2 Text input

2.1 Using the onscreen keyboard

Onscreen keyboard settings

Go to Settings > System > Languages & input > Virtual keyboard, touch the keyboard you want to set up and a series of settings will become available.

Adjust the onscreen keyboard orientation

Turn the phone sideways or upright to adjust the onscreen keyboard orientation. You can adjust it by changing the settings (Touch Settings > Display > Auto-rotate screen).
2.1.1 Gboard

1. Enter text or numbers.
2. Press to select symbols.
3. Switch between "abc/ABC" mode; Long press to switch to "abc/ABC" mode.
4. Switch to symbol and numeric keyboard.
5. Press to show input options.

2.2 Text editing

You can edit the texts you entered.

- Long press or double tap within the texts you want to edit.
- Drag the tabs to change the selected texts.
- The following options will show: **CUT, COPY, SHARE** and **SELECT ALL**.

You can also insert new texts if preferred

- Touch where you want to type, or long press a blank space, the cursor will blink and the tab will show. Drag the tab to move the cursor.
- If you have cut or copied any text, touch the tab to show **PASTE** which allows you to paste any text you have previously copied.
3 Call, Call log and Contacts...

3.1 Call ..........................................................

3.1.1 Making a call

To make a call, touch ☎️ in the Favourites tray.

1 Call log

2 Contacts

3 View the contact’s detailed information. You can also edit, delete, share the contact, or send a message to the contact.

4 Show the dial pad

5 Call the previewed number.

Enter the desired number from the dial pad and touch ☎️ to place the call or select a contact from CONTACTS or CALL LOG by sliding or touching tabs, then touch ☎️ to make the call.

The number you entered can be saved to Contacts by touching the Create new contact icon 📞 or the Add to a contact icon 📞.

If you make a mistake, you can delete the incorrect digits by touching ×.

To hang up a call, touch ✕.
International call
To dial an international call, long press \( \text{①} \) to enter “+”, then enter the international country prefix followed by the full phone number and touch \( \text{⑦} \).

Emergency call
If your phone has network coverage, dial the emergency number and touch \( \text{⑦} \) to make an emergency call. This works even without a SIM card and without typing the PIN code.

3.1.2 Answering or rejecting a call
When you receive a call, a call window will be presented on top of the screen. Touch **DECLINE** to dismiss a call or **ANSWER** to answer a call. Touch the call window to open the Phone call screen.

On the Phone call screen:
- Touch \( \text{⑦} \) or swipe up to answer the call;
- Swipe down to reject the call;
- Touch \( \text{⑦} \) to reject the call by sending a preset message.

3.1.3 Calling your voicemail
Your voicemail is provided by your network to avoid missing calls. It works like an answering machine that you can consult at any time.

To access your voicemail, long press \( \text{⑦} \).

If you receive a voicemail, \( \text{⑦} \) appears on the Status bar. Open the Notification panel and touch **New voicemail**.
3.1.4 During a call
To adjust the volume during a call, press the Volume key.

End the current call.

Touch once to activate the speaker during the current call. Touch this icon again to deactivate the speaker.

Touch once to mute the current call. Touch this icon again to unmute the call.

Display the dial pad.

Touch to activate call recording during the current call.

Touch to add another call.

To avoid accidental operation of the touchscreen during a call, the screen will be locked automatically when you put the phone close to your ear; and it will be unlocked when the phone is taken away from your ear.

3.1.5 Managing multiple calls
With this phone you can handle multiple calls at the same time.

Swap calls
When you accept two calls, touch the contact name or number to switch between two lines. The current call will be put on hold and you are able to join the other call.

3.1.6 Call settings
Touch from the Call screen, then touch Settings to set phone and contacts.
3.2 Call log

You can access your call log by touching  from the Call screen to view missed calls, outgoing calls and incoming calls.

Touch to view information or further operations, you can launch a new call, send a message to the contact or number, or view detailed information of the call.

3.3 Contacts

Contacts enables quick and easy access to the contact you want to reach.

You can view and create contacts on your phone and synchronise them with your Gmail contacts or other applications on the web or on your phone.

3.3.1 Consult your Contacts

To access to your contacts, swipe up from the Home screen and touch  

1 Touch to search contacts
2 Display the contacts list option menu
3 Open the Quick contact panel
Long press to select contact(s) to delete or share

4 Add new contact

Deleted contacts will also be removed from other applications on the phone or web the next time you synchronise your phone.

### 3.3.2 Adding a contact

Touch in the contact list to create a new contact.

You are required to enter the contact's name and other contact information. By scrolling up and down the screen, you can move from one field to another.

- When finished, touch **SAVE** to save

### 3.3.3 Editing your contacts

To edit contact information, touch in the contact details screen.

When finished, touch **SAVE** to save.

### 3.3.4 Use Quick contact for Android

Touch a contact to open Quick contact for Android. You can then touch or the number to make a call. To send a message, touch .

(1) Only phone contacts and account contacts can be added to Favourites.
The icons available on the Quick contact panel depend on the information you have for the contact and the applications and accounts on your phone.

### 3.3.5 Importing, exporting and sharing contacts

This phone enables you to import or export contacts between your phone, SIM card and phone storage.

From the Contacts screen, touch 

Touch **Settings > Import/Export contacts**, then select to import/export contacts from/to your accounts, SIM card, Phone, internal storage, micro SD card, etc.

You can share a single contact or contacts with others by sending the contact’s vCard to them via Bluetooth, Gmail, etc.

Touch the contact you want to share, touch ☰ and **Share** from the contact details screen. Select the number you want to share, and then select the application to perform this action.

### 3.3.6 Displaying contacts

You can configure which list of contacts, for each account, you want to display in the Contacts list.

Touch 

Touch **Setting > Contacts to display** from contacts list screen, then you can choose which contacts to display.

Touch 

Touch **Settings > Sort by** to sort the list by touching **First name** or **Surname**, as well as viewing contact names by touching **First name first** or **Surname first**.

### 3.3.7 Merging/Separating contacts

To avoid duplication, you can add any new contact information to existing contacts in a single action.

Touch the contact which you want to add information to, touch ☰ to enter the edit contact screen, touch ☰ again and touch **Link**.
At this time, you are required to select the contact whose information you want to merge with the first contact. The information from the second contact is added to the first one, and the second contact will no longer be displayed in the Contacts list.

To separate contact information, touch the contact whose information you want to separate, touch to enter the edit contact screen, then touch again and touch View linked contacts, Touch SEPARATE to confirm.

3.3.8 Synchronising contacts in multiple accounts

Contacts, data or other information can be synchronised from multiple accounts, depending on the applications installed on your phone.

To add an account, touch from the contacts list and touch Settings > Accounts, or from the Home screen, swipe up and then touch Settings > Accounts > Add account.

You are required to select the kind of account you are adding, like Google, Exchange, etc.

As with other account setups, you need to enter detailed information, like username, password, etc.

You can remove an account and all associated information from the phone. Touch the account you want to delete > Touch > Select Remove account > Confirm.

Auto-sync

On the Accounts screen, touch Automatically sync data, when activated, all changes to information on the phone or online will be automatically synchronised with each other.
4 Messaging

4.1 Write a new message

You can create, edit and receive SMS and MMS with this phone.

To access Messaging, touch 

On the message list screen, touch 

Sending a text message

To add recipients, enter the name or phone number of the recipient in the To bar. Touch the Type message bar to enter the text of the message. When finished, touch to send the text message.

Specific letters (accented) will also increase the size of the SMS. This may cause multiple SMS to be sent to your recipient.

Sending a multimedia message

MMS enables you to send video clips, images, photos, animations and sounds to other compatible mobiles and email addresses.

An SMS will be converted to MMS automatically when media files (image, video, audio, etc.) are attached or subject or email addresses are added.

To send a multimedia message, enter the recipient's phone number in the To bar. Touch the Type message bar to enter the text of the message.

Touch to attach a picture, video, audio, etc.

When finished, touch to send the multimedia message.
4.2 Manage messages
When receiving a message, will appear on the Status bar as a notification. Drag down the Status bar to open the Notification panel. Touch the new message to open and read it. You can also access the Messaging application and touch the message to open it.

Messages are displayed as a conversation.
Touch a message to enter the message composing screen:

- Touch to call the number;

To adjust message settings, touch and select on the message list screen.

5 Calendar, Clock, and Calculator

5.1 Calendar
You can use Calendar to keep track of important meetings, appointments, etc.

To view the calendar and create events, Swipe up from the Home screen, then touch Calendar.

5.1.1 Multimode view
You can display the Calendar by Schedule, Day, 3-day, Week, or Month, touch to select.

5.1.2 To create new events
You can add new events from any Calendar view.
- Touch .
- Fill in all required information for this new event. If it is a whole-day event, you can select All-day.
- Invite guests to the event. Enter the email addresses of the guests you want to invite with commas to separate. The guests will receive an invitation from Calendar and Email.
• When finished, touch **Save** from the top of the screen.

To quickly create an event from the Week view screens, touch an empty spot to select a target area which will then turn ✅, then touch the icon to create the new event.

### 5.1.3 To delete or edit an event

To delete or edit an event, touch the event to enter its details screen. Touch ✍️ to edit the event, or touch ❌ and then touch **Delete** to delete.

### 5.1.4 Event reminder

If a reminder is set for an event, the upcoming event icon ⌁ will appear on the Status bar as a notification when the reminder time arrives.

Touch and drag down the Status bar to open the Notification panel and touch an event name to view the Calendar notification list.

Touch the **Back** button to keep the reminders pending in the Status bar and the Notification panel.

### 5.2 Clock

Your mobile phone has a built-in clock.

To view the current time, swipe up from the Home screen, then touch **Clock**.

#### 5.2.1 World clock

To view the world clock, touch ☀️ on the Time screen.

Touch ☀️ to add a time zone.

#### 5.2.2 Alarm

From the Time screen, touch ☑️ to enter the **Alarm** screen.

Turn on ☑️ to enable the alarm.

Touch ☑️ to add a new alarm:

Touch a currently existing alarm to enter the alarm editing screen.

Touch ☑️ to delete the selected alarm.
5.2.3 Countdown
From the Time screen, touch ☐ to enter the Timer screen.
• Enter the time. The time should be typed in second, minute and hour number sequence.
• Touch ☐ to start the countdown.

5.2.4 Stopwatch
From the Time screen, touch ☐ to enter the Stopwatch screen.
• Touch ☐ to start the Stopwatch.
• Touch Lap to show a list of records according to the updated time.
• Touch ☐ to halt the total and lap times. These will only restart after ☐ is touched.
• Touch Reset to delete the record.
• Touch Share to share.

5.2.5 Adjust Clock settings
Touch ☐ and then touch Settings to access Clock and Alarms settings.
5.3 Calculator ...........................................

There are two panels available: Basic panel and Advanced panel.

To switch between panels, select one of the following two ways:

- Swipe the basic calculation screen to the left to open the scientific calculation.
- Turn the phone to the landscape orientation from the basic panel to open the scientific calculation. This option is only available if Settings > Display > Auto-rotate screen is on.

Touch \( \times \) to delete digits one by one, or long press \( \times \) to delete all at once.

6 Getting connected ....................... 6

To connect to the internet with this phone, you can use GPRS/EDGE/3G/4G networks or Wi-Fi, whichever is most convenient.

6.1 Connecting to the internet

6.1.1 GPRS/EDGE/3G/4G

The first time you turn on your phone with your SIM card inserted, it will automatically configure your network service: 4G/3G/2G auto.

If the network is not connected, you can turn on mobile data in Settings > Network & Internet > Data usage.

To check the network connection you are using, touch Settings > Network & Internet > Mobile network > Access Point Names or Network operators.

To create a new access point

A new GPRS/EDGE/3G/4G network connection can be added to your phone with the following steps:

- Touch Settings > Network & Internet > Mobile network > Access Point Names.
- Touch \( + \) and enter the required APN information.
When finished, touch ✘ and then Save.

To enable data roaming
- Touch Settings > Network & Internet > Mobile network > Data roaming.
- When data roaming is disabled, you can still perform data exchange with a Wi-Fi connection (refer to "6.1.2 Wi-Fi").

To set preferred network mode
- Touch Settings > Network & Internet > Mobile network > Preferred network type.

6.1.2 Wi-Fi
You can connect to the internet when your phone is within range of a wireless network. Wi-Fi can be used on your phone even without a SIM card inserted.

To turn Wi-Fi on and connect to a wireless network
- Touch Settings > Network & Internet > Wi-Fi.
- Turn on Wi-Fi.
- Once Wi-Fi is turned on, detected Wi-Fi networks are listed.

- Touch a Wi-Fi network to connect to it. If the network you selected is secured, you are required to enter a password or other credentials (you may contact the network operator for details). When finished, touch CONNECT.

To enable notification when a new network is detected
When Wi-Fi is on and the network notification is activated, the Wi-Fi icon will appear on the Status bar whenever the phone detects an available wireless network within range. The following steps activate the notification function when Wi-Fi is on:
- Touch Settings > Network & Internet > Wi-Fi > Wi-Fi preferences.
- Turn on Open network notification.

To add a Wi-Fi network
When Wi-Fi is on, you may add new Wi-Fi networks according to your preference.
- Touch Settings > Network & Internet > Wi-Fi.
- Touch Add network.
- Enter the name of the network and any required network information.
- Touch SAVE.
To forget a Wi-Fi network

The following steps prevent automatic connections to networks which you no longer wish to use.

- Turn on Wi-Fi, if it’s not already on.
- On the Wi-Fi screen, touch the name of the saved network.
- Touch **FORGET** in the dialog that opens.

### 6.2 Connecting to a Bluetooth device (1)

Bluetooth is a short-range wireless communication technology that you can use to exchange data, or connect to other Bluetooth devices for various uses.

#### To turn on Bluetooth

- Touch **Settings > Connected devices > Connection preferences > Bluetooth**.
- Turn on **Bluetooth**.

Your device name and other available devices will appear on screen.

#### To rename your device

- Touch **Settings > Connected devices > Connection preferences > Bluetooth**.
- Touch **Device name**.
- Enter a name, and touch **RENAME** to confirm.

#### To pair/connect your phone with a Bluetooth device

To exchange data with another device, you need to turn Bluetooth on and pair your phone with the Bluetooth device with which you want to exchange data.

- Touch **Settings > Connected devices > Connection preferences > Bluetooth**.
- Touch **+ Pair new device**.
- Touch a Bluetooth device you want to pair your phone with in the list.
- If the pairing is successful, your phone will be connected to the device.

#### To disconnect/unpair from a Bluetooth device

- Touch **beside the device you want to unpair**.
- Touch **FORGET** to confirm.

---

(1) You are recommended to use alcatel Bluetooth headsets, which have been tested and proved compatible with your phone. You can go to [www.alcatelmobile.com](http://www.alcatelmobile.com) for more information about the alcatel Bluetooth headset.
6.3 Connecting to a computer via USB
With a USB cable, you can transfer media files and other files between your phone and a computer.

To connect your phone to the computer
Use the USB cable that came with your phone to connect the phone to a USB port on your computer. You will receive a notification that the USB is connected.

Touch Settings > Connected devices > USB and touch Charge only, then, in the next dialogue, choose the way in which you want to transfer files. By default, Charge this device is selected.

Before using MTP, make sure that the driver (Windows Media Player 11 or higher version) has been installed.

6.4 Sharing your phone's mobile data connection
You can share your phone's mobile data connection with a single computer via a USB cable (USB tethering) or with up to four devices at once via Bluetooth (Bluetooth tethering) or Wi-Fi (mobile hotspot).

The functions below may incur additional network charges from your network operator. Extra fees may also be charged in roaming areas.

6.5 Connecting to virtual private networks
Virtual private networks (VPNs) allow you to connect to the resources inside a secured local network from outside that network. VPNs are commonly deployed by corporations, schools, and other institutions so that their users can access local network resources when not inside that network, or when connected to a wireless network.
To add a VPN
• Touch Settings > Network & Internet > VPN and then touch +.
• On the screen that opens, follow your network administrator's instructions to configure each component of the VPN settings.
• Touch SAVE.

The VPN is added to the list on the VPN settings screen.

Before adding a VPN, you should set a screen lock for your phone.

To connect/disconnect to/from VPN
To connect to a VPN:
• Touch Settings > Network & Internet > VPN.
• The VPNs you have added are listed. Touch the VPN you want to connect with.
• In the dialog that opens, enter any requested credentials and touch CONNECT.

To disconnect from a VPN:
• Touch the VPN you want to disconnect from. In the dialog that opens, touch DISCONNECT.

To edit/delete a VPN
To edit a VPN:
• Touch Settings > Network & Internet > VPN.
• The VPNs you have added are listed. Touch the icon next to the VPN you want to edit.
• After editing, touch SAVE.

To delete a VPN:
• Touch the icon next to the selected VPN, then touch FORGET to delete it.
7 Multimedia applications

7.1 Camera

Your mobile phone is fitted with a camera for taking photos and videos. Before using the camera, make sure that you remove the protective lens cover to avoid it affecting your picture quality.

To take a photo or video, swipe up from the Home screen and then touch Camera.

1. Switch between front/back camera
2. Flash mode
   Touch to turn on/off the camera flash.
3. Pinch/spread two fingers together/apart to zoom out/in
4. View the photos or videos you have taken
5. Take a photo

To take a photo

The screen acts as the viewfinder. First, position the object or landscape in the viewfinder and touch to capture. The photo will be automatically saved.
To take a video

Touch the right part of this icon to change the camera mode to video, then touch the left part of this icon to start video recording. You can also touch the left part of this icon to take a picture during video recording.

Touch to pause video recording and touch to continue. Touch to stop recording. The video will be automatically saved.

Further operations when viewing a picture/video you have taken

- Slide left or right to view the photos or videos you have taken.
- Touch , then Gmail/Bluetooth/MMS/etc. to share the photo or video.
- Touch to return to Camera.

7.1.1 Modes and settings

Slide it right or left from the screen to switch between modes.

- **Auto**
  
  Auto is the default mode for Camera.
- **Manual**
- **Burst**
- **Panorama**
  
  Touch to turn on panorama function. Touch the shutter button to start taking panoramic photo and move the phone steadily along the direction indicated by the onscreen line. Once the slots are filled, the photo will be automatically saved. If the slots are not fully filled, touch the shutter button again to save the photo.
- **Filter**
  
  Touch to preview the viewfinder with live filter applied. Touch any filter to apply filter and return to the previous screen.
- **Qr code**
- **Night-Shot**
Settings

- **Camera sound**
  Turn on 🎧 to enable the sound of camera while taking photos.

- **Save location**
  Turn on 🌐 to tag photos and videos with your location. This option is available when the GPS location service is enabled.

7.2 Photos ..............................................

Photos acts as a media player for you to view photos and play videos. In addition, a set of further operations to pictures and videos are available for your choice.

To view the photos you have taken, swipe up from the Home screen, then touch Photos > Camera.

To view a picture/play a video
Pictures and videos are displayed by types in the Photos.
Working with pictures

You can work with pictures by rotating or cropping them, sharing them with friends, setting them as a contact photo or wallpaper, etc.

Find the picture you want to work on, and touch the picture in the full-screen picture view. Touch 🔄 to share the picture, or 📐 to edit the picture. Touch 🗑️ to delete this picture and touch 📐 to select Use as to set the picture as Contact photo or Wallpaper.

Touch 📐 in the full-screen picture view to edit a picture through Editor (Default) or other editors.

Set effects such as West, Palma, Metro, Eiffel, etc.
Crop, Straighten or Rotate the picture.
Adjust the picture colour.

Batch operation

The Photos provides a multi-select function, so that you can work with pictures/videos in batches.

On Camera screen in the Google Photos, touch 📐 and touch Select items to activate batch operation mode (you can also long press one picture), then touch videos/pictures you want to work with. Touch 🗑️ to delete selected files. Touch 🔄 to share selected files.
8 Others

8.1 FM Radio

Your phone is equipped with a radio (1) with RDS (2) functionality. You can use the application as a traditional radio with saved channels or with visual information related to the radio program displayed if you turn to stations that offer Visual Radio service.

To listen to a radio programme, swipe up from the Home screen, then touch FM Radio.

1 Touch to open and view the saved channels list.
2 Touch to add the current station to favorites.
3 Touch to increase 0.1MHz. Long press to search and go to the nearest higher frequency channel.
4 Touch to go to next saved channel.
5 Touch to enable/disable the loudspeaker.
6 Touch to decrease 0.1MHz. Long press to search and go to the nearest lower frequency channel.
7 Touch to go to previous saved channel.
8 Touch to play/stop.
9 Touch to record audio

(1) The quality of the radio depends on the coverage of the radio station in that particular area.
(2) Depending on your network operator and market.
To listen to the radio you must insert headphones. Headphones act as radio antenna.

Available options:

- **Save channels**
  Touch ★ to add the current station to favorites. It will displayed if the current channel has been saved.

- **Scan channels**
  Touch 📻 to enter into Radio Stations, then touch 🔄 and select Refresh to search for all available channels at your local area.

- **Enter frequency**
  Enter the frequency manually to turn to the channel.

---

### 8.2 Support Centre

Support Centre helps you to learn more about Hot FAQs, operation instructions, troubleshooting, etc. You can also feedback your comments to us through it.

### 8.3 Other applications (1)

The previous applications in this section are preinstalled on your phone. To read a brief introduction of the preinstalled 3rd party applications, refer to the leaflet provided with the phone. To download and install more 3rd party applications, use the Google Play Store application.

---

(1) Application availability depends on country and operator.
9 Google applications ............

Google apps are preinstalled on your phone to improve work efficiency and help you enjoy life.

This manual briefly introduces the apps. For detailed features and user guides, refer to related websites or the introduction provided in the apps.

You are recommended to register with a Google account to enjoy all the functions.

9.1 Chrome
A web browser with which you can surf the internet.
Your bookmarks, browsing history, and settings across all devices with the browser installed can be synchronised with your Google account.

9.2 Gmail
As Google's web-based email service, Gmail is configured when you first set up your phone. With this application, you can send and receive emails, manage emails by labels, archive emails, etc. Emails can be automatically synchronised with your Gmail account.

9.3 Maps
Google Maps offers satellite imagery, street maps, 360° panoramic views of streets, real-time traffic conditions, and route planning for traveling by foot, car, or public transportation. By using this application, you can get your own location, search for a place, and get suggested route planning for your trips.

9.4 YouTube
YouTube is an online video-sharing application where users can upload, view, and share videos. Available content includes video clips, TV clips, music videos, and other content such as video blogging, short original videos, and educational videos. It supports a streaming function that allows you to start watching videos almost as soon as they begin downloading from the internet.

9.5 Play Store
Serves as the official app store for the Android operating system, allowing users to browse and download applications and games. Applications are either free of charge or at a cost.

In Play Store, search for the app you need, download it and then follow the installation guide to install the app. You can also uninstall, update an app, and manage your downloads.
9.6 Play Music

A music streaming service and online music locker operated by Google.

You can upload and listen to a large number of songs for free. In addition to offering music streaming for internet-connected devices, the Google Play Music app allows music to be stored and listened to offline. Songs purchased through Play Music are automatically added to the user's account.

9.7 Drive

A file storage and synchronisation service created by Google, which allows users to store files in the cloud, share and edit files.

Files in Drive are kept secure and can be accessed from any device by logging in to your Google account. Files or folders can be shared privately with other Google account users.

9.8 Duo

A video chat mobile app.

With phone numbers verified, users can easily video call people from their contact list.

10 Settings

To go to Settings, swipe up from the Home screen, then touch Settings.

10.1 Network & Internet

10.1.1 Wi-Fi

Using Wi-Fi, you can access the internet without using your SIM card whenever you are in range of a wireless network. The only thing you have to do is to enter the Wi-Fi screen and configure an access point to connect your phone to the wireless network.

For detailed instructions on using Wi-Fi, refer to "6.1.2 Wi-Fi".

10.1.2 Mobile network

You can set Roaming, Preferred network type, Access Point Names, and Network operators in this menu.

10.1.3 Hotspot & tethering

This function allows you to share your phone's mobile data connection via USB or as a portable Wi-Fi access point (refer to "6.4 Sharing your phone's mobile data connection").
10.1.4 SIM cards
Touch to choose SIM 1 or SIM 2 for connecting to the network, making calls and sending SMS messages.

10.1.5 VPN
For more information on VPN, refer to "6.5 Connecting to virtual private networks".

10.1.6 Aeroplane mode
Turn on Aeroplane mode to simultaneously disable all wireless connections including Wi-Fi, Bluetooth and more.

10.1.7 Data usage

Data saver
By enabling Data saver, you can reduce data usage by preventing some apps from sending or receiving data in the background.

Mobile data
If you do not need to transmit data on mobile networks, turn off Mobile data to avoid incurring significant charges for data use on local operator mobile networks, particularly if you do not have a mobile data agreement.

Data usage is measured by your phone, and your operator may count differently.

10.2 Display
In this menu, you can adjust your screen brightness, wallpaper, sleep time, font size, etc.

To rotate screen contents when device is rotated, touch Auto-rotate screen.

10.3 Security & location
Touch to set device security such as Screen lock, Lock screen preferences, Face lock, Encryption & credentials, SIM card lock, and Device admin apps, etc.

10.3.1 Screen lock
Touch to set your screen unlock method. For example, you can unlock your phone by sliding the screen, entering a password, or drawing a pattern, etc.

10.3.2 Fingerprint
Touch the fingerprint sensor to unlock your phone, visit private content, or sign in to apps.
10.3.3  Face Lock
Touch to set face key to unlock your device.

10.4  Battery
Touch any category in the battery management screen to view its power consumption.

10.5  Bluetooth
Bluetooth allows your phone to exchange data (videos, images, music, etc.) within a small range with another Bluetooth supported device (phone, computer, printer, headset, car kit, etc.).

For more information on Bluetooth, refer to "6.1 Connecting to the internet".

10.6  Storage
Use these settings to monitor the total and available space on your phone and microSD card.

10.7  Apps & notifications
Touch to view details about the applications installed on your phone, to manage their data usage or force them to stop.

In the Notifications menu, you can configure whether to block the notifications from this app, hide sensitive content, etc.

In the App Permissions menu of an application, you can grant permissions for the app, such as allowing the app to access your Camera, Contacts, Location, etc.

10.8  Audio profiles
Touch to adjust call and notification ringtones, music, and other audio settings.

10.9  Accounts
Touch to add, remove, and manage your email and other supported accounts. You can also use these settings to control how and whether all applications send, receive, and synchronise data on their own schedules, and whether all applications can synchronise user data automatically.

Touch Add account to add an account for the selected app.

10.10  Google
Touch to configure your Google account and services settings.
10.11  Accessibility
Use the Accessibility settings to configure any accessibility plug-ins you have installed on your phone.

10.12  Scheduled power on/off
Turn on the switches to enable scheduled power on/off, and preset your power on/off time and repeat mode.

10.13  System

10.13.1 Language & input
Touch to configure language settings, the on-screen keyboard, voice input settings, pointer speed, etc.

10.13.2 Date & time
Use Date & time settings to customise your preferences for how date and time are displayed.

10.13.3 Backup
Turn on ☑ to back up your phone’s settings and other application data to Google servers. If you replace your phone, the settings and data you’ve backed up will be restored onto the new phone when you sign in with your Google account. If you mark this option, a wide variety of settings and data are backed up, including your Wi-Fi passwords, bookmarks, a list of the applications you’ve installed, the words you’ve added to the dictionary used by the onscreen keyboard, and most of the settings that you configure in the Settings application. If you unmark this option, you stop backing up your settings, and any existing backups are deleted from Google servers.

10.13.4 Developer options
To enable this function, go to Settings > System > About phone, then touch Build number 7 times. Now Developer options is available. The developer options screen contains settings that are useful for developing Android applications.

10.13.5 Reset options
Touch to reset Wi-Fi, mobile & Bluetooth, Reset app preferences, or Erase all data.
11 Making the most of your phone

11.1 FOTA Upgrade

Use the FOTA (Firmware Over The Air) Upgrade tool to update your phone's software. To access System update, swipe up on the Home screen and select Settings > System > System update.

If you want to update the system, touch CHECK FOR UPDATES NOW and when that's finished, your phone will have the latest version of the software. Turn on data connection or Wi-Fi before searching for updates. Settings for auto-check frequency are also available once you restart the phone. If you have chosen auto-check, when the system discovers the new version, a dialog will pop up where you can choose to download the update or ignore. A notification will also appear in the Status bar.

During FOTA downloading or updating, to avoid errors in locating the correct update packages, do not change your default storage location.
12 Accessories

Standard accessories

1. Charger
2. Quick Start Guide
3. Product safety information leaflet
4. LCD sticker
5. Battery

- Accessories depend on countries.
- Only use the alcatel batteries, chargers, and accessories included along with your device.

13 Warranty

Your phone is warranted against any defect or malfunctioning which may occur in conditions of normal use during the warranty period of twelve (12) months \(^{(1)}\) from the date of purchase as shown on your original invoice.

Batteries \(^{(2)}\) and accessories sold with your phone are also warranted against any defect which may occur during the first six (6) months \(^{(1)}\) from the date of purchase as shown on your original invoice.

In case of any defect of your phone which prevents you from normal use thereof, you must immediately inform your vendor and present your phone with your proof of purchase.

\(^{(1)}\) The warranty period may vary depending on your country.

\(^{(2)}\) The life of a rechargeable phone battery in terms of conversation time, standby time and total service life, will depend on the conditions of use and network configuration. Batteries being considered expendable supplies, the specifications state that you should obtain optimal performance for your phone during the first six months after purchase and for approximately 200 more recharges.
If the defect is confirmed, your phone or part thereof will be either replaced or repaired, as appropriate. Repaired phone and accessories are entitled to a one (1) month warranty for the same defect. Repair or replacement may be carried out using reconditioned components offering equivalent functionality.

This warranty covers the cost of parts and labor but excludes any other costs.

This warranty shall not apply to defects to your phone and/or accessory due to (without any limitation):

- Non-compliance with the instructions for use or installation, or with technical and safety standards applicable in the geographical area where your phone is used;
- Connection to any equipment not supplied or not recommended by TCL Communication Ltd.;
- Modification or repair performed by individuals not authorised by TCL Communication Ltd. or its affiliates or your vendor;
- Modification, adjustment or alteration of software or hardware performed by individuals not authorised by TCL Communication Ltd.;
- Inclement weather, lightning, fire, humidity, infiltration of liquids or foods, chemical products, download of files, crash, high voltage, corrosion, oxidation...

Your phone will not be repaired in cases where labels or serial numbers (IMEI) have been removed or altered. There are no express warranties, whether written, oral or implied, other than this printed limited warranty or the mandatory warranty provided by your country or jurisdiction.

In no event shall TCL Communication Ltd. or any of its affiliates be liable for indirect, incidental or consequential damages of any nature whatsoever, including but not limited to commercial or financial loss or damage, loss of data or loss of image to the full extent those damages can be disclaimed by law.

Some countries/states do not allow the exclusion or limitation of indirect, incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.
14 Troubleshooting

Before contacting the service center, here are some instructions to help you troubleshoot your device:

- For optimal operation, fully charge the battery.
- To improve the phone’s performance, remove unnecessary files or apps on your phone.
- Update your phone's software via the Updates application. Or you can touch Settings > System > System update. to update software.
- Reset your phone via Erase all data (factory reset). Touch Settings > System > Reset options > Erase all data (factory reset). Another method is to hold down the Power key and the Volume up key at the same time when your phone is powered off. All your phone data will be lost permanently. It is strongly advised to fully back up your phone data before resetting.

and carry out the following checks:

My phone can't be switched on or is frozen

- When the phone can't be switched on, charge for at least 20 minutes to ensure the minimum battery power needed. Then switch it on again.

- When the phone falls into a loop during power on animation and the user interface can't be accessed, press and hold the Power key to reset. This eliminates any abnormal OS booting issues caused by third party applications.
- If neither method is effective, reset the phone by pressing the Power key and the Volume up key at the same time, selecting a language, and then selecting Wipe data/Factory reset. Press the Volume key to select, and press the Power key to confirm each selection.

My phone has not responded for several minutes

- If your phone doesn't respond, turn off your phone by pressing and holding the Power key until it turns off and then restart it again.
- If your phone has a removable battery, remove the battery and reinsert it, then restart the phone.
- If it still doesn't work, reset the phone.

My phone turns off by itself

- Check that your screen is locked when you are not using your phone, and make sure that the Power key is not accidentally pressed while the screen is unlocked.
- Check the battery charge level.
- If it still doesn't work, reset the phone or update software.
My phone can't charge properly

- Make sure that you are using the Alcatel charger that comes with the phone.
- If your phone has a removable battery, make sure that your battery is inserted properly and clean the battery contact if it's dirty. It must be inserted before plugging in the charger.
- Make sure that your battery is not completely discharged; if the battery power has been empty for a long time, it may take around 20 minutes to display the battery charging indicator on the screen.
- Make sure that charging is carried out under normal conditions (0°C (32°F) to 40°C (104°F)).
- When abroad, check that the voltage input is compatible.

My phone can't connect to the internet

- Make sure that the internet access service of your SIM card is available.
- Check your phone's internet connection settings.
- Make sure that you are in a place with network coverage.
- Try connecting at a later time or another location.

Invalid SIM card

- Make sure that the SIM card has been correctly inserted.
- Make sure that the chip on your SIM card is not damaged.
- Make sure that the service of your SIM card is available.

My phone can't make outgoing calls

- Make sure that you have dialled a valid number and have touched Call.
- For international calls, check the country and area codes.
- Make sure that your phone is connected to a network, and the network is not overloaded or unavailable.
- Check your subscription status with your operator (credit, SIM card valid, etc.).
- Make sure that you have not barred outgoing calls.
• Make sure that your phone is not in aeroplane mode.

**My phone can't receive incoming calls**
• Make sure that your phone is switched on and connected to a network (check for overloaded or unavailable network).
• Check your subscription status with your operator (credit, SIM card valid, etc.).
• Make sure that you have not forwarded incoming calls.
• Make sure that you have not barred certain calls.
• Make sure that your phone is not in aeroplane mode.

**The caller's name/number doesn't appear when a call is received**
• Check that you have subscribed to this service with your operator.
• Your caller may have concealed his name or number.

**I can't find my contacts**
• Make sure that your SIM card is not broken.
• Make sure that your SIM card is inserted properly.
• Import all contacts stored in SIM card to phone.

**The sound quality of the calls is poor**
• Adjust the volume during a call by pressing the Volume key.
• Check the network strength. Move to a location with stronger signal strength.
• Make sure that the receiver, connector and speaker on your phone are clean.

**I can't use the features described in the manual**
• Check with your operator to make sure that your subscription includes this service.
• Make sure that this feature doesn't require an Alcatel accessory.

**When I select a number from my contacts, the number can't be dialled**
• Make sure that you have correctly recorded the number in your file.
• Make sure that you have selected the country code when calling an international number.

**I can't add a contact**
• Make sure that your SIM card contacts are not full; delete some files or save the files to the phone.

**My callers can't leave messages on my voicemail**
• Contact your network operator to check service availability.

**I can't access my voicemail**
• Make sure that your operator's voicemail number is correctly entered in "Voicemail number".
• Try later if the network is busy.
I can't send and receive MMS
• Check your phone storage as it might be full.
• Contact your network operator to check service availability and MMS parameters.
• Verify the server centre number or your MMS profile with your operator.
• The server centre may be swamped. Try again later.

SIM card PIN locked
• Contact your network operator to obtain the PUK (Personal Unblocking Key) code.

I can't connect my phone to my computer
• Check to make sure the USB port is not broken. If it’s not working, try another USB port on your computer.
• Make sure USB drivers are properly installed.
• If you are using a Windows computer, make sure it supports MTP mode. If you are using a Mac, make sure to install Android File Transfer from www.android.com/filetransfer/.

I can't download new files
• Make sure that there is sufficient phone storage space for your download.
• Select the microSD card as the location to store downloaded files.
• Check your subscription status with your operator.

The phone can't be detected by others via Bluetooth
• Make sure that Bluetooth is turned on and your phone is visible to other users.
• Make sure that the two phones are within Bluetooth's detection range.

The battery drains too fast
• Make sure that you follow the complete charge time (minimum 150 minutes).
• After a partial charge, the battery level indicator may not be exact. Wait for at least 20 minutes after removing the charger to obtain an exact indication.
• Adjust the brightness of screen as appropriate.
• Extend the email auto-check interval for as long as possible.
• Update news and weather information on manual demand, or increase their auto-check interval.
• Exit background-running applications if they are not being used for extended periods of time.
• Turn off Bluetooth, Wi-Fi, or GPS when not in use.

The phone becomes warm following prolonged calls, game playing, internet surfing or running other complex applications
• This heating is a normal consequence of the CPU handling excessive data. Ending the above actions will make your phone return to normal temperature.
After a factory data reset is performed, I can't use my phone without entering Google account credentials
• After a reset is performed, you must enter the original Google account credentials that were used on this phone.
• If you don’t remember your Google account credentials, complete Google account recovery procedures.
• If you still cannot access your phone, apply to the authorised repair centre, but remember that it will not be regarded as warranty case.

I forget some passwords/codes/keys on phone
• Perform a factory data reset.
• If you still cannot access your phone, apply to the authorised repair centre, but remember that it will not be regarded as a warranty case.

15 Specifications ......................

Processor:
SC9863A

Platform:
Android P

Memory:
32GB ROM + 3GB RAM

Dimensions (LxWxT):
147.8 x 70.7 x 8.6mm

Weight:
146g

Display:
5.5 inch touchscreen with HD+ 18:9 (720x1440)

Network:
GSM: 850/900/1800/1900
UMTS: B1/2/5/8 (2100/1900/850/900)
LTE 1/3/7/8/20/28(2100/1800/2600/900/800/700):
23 dBm
Band frequency and data speed are operator dependent.

**GPS:**
A-GPS

**Connectivity:**
- Bluetooth BT4.2
- Wi-Fi 802.11b/g/n (2.4GHz)
- 3.5 mm audio jack
- micro-USB

**Camera:**
- Up to 13 megapixel back camera by SW
- Up to 5 megapixel front camera by SW

**Audio supported formats:**

**Battery** *(1):*
Capacity: 3060 mAh

**Expansion Slot:**
microSD™ memory card
(Availability of microSD card depends on market)

**Special Features:**
- GPS
- G-sensor
- Proximity Sensor
- Light Sensor

**Note:** Specifications are subject to change without prior notice.

*(1)* The original battery has undergone rigorous safety inspections to meet qualification standards, the use of non-original batteries may be dangerous.
