The quality of the radio depends on the coverage of the radio stations in that particular area.
Safety and use information

This equipment may emit very low levels of radio frequency energy and is classified as a Class B digital device in accordance with the Canadian ICES-003 standard. The energy levels of this equipment are well below the Canadian Interference-Causing Equipment Regulations.

to

• Modification or repair performed by individuals not authorized by TCT Mobile or its affiliates.

When replacing the cover please note that your cell phone may contain substances that are harmful to the environment. To avoid hearing impairment, answer the call before holding your cell phone near your ear.

Switch your cell phone off when you are near gas or flammable liquids. Strictly obey all frequency bands in your area. As with many other types of equipment now in regular use, cell phones can cause interference if they are not used properly. You are advised to switch off your cell phone from time to time to optimize its performance and to reduce possible interference.

You are advised to fully charge your battery for optimal performance of your cell phone. Before contacting the after-sales department, you are advised to verify the following instructions:

Before alternating the batteries, people are advised to follow the instructions below:

You are advised to switch off the cell phone from time to time to optimize its performance.

Checking the battery charge level

When your phone is charging, the battery charge level icon will be displayed on the screen.

Troubleshooting

Your cell phone has a low level of autonomy

If you only use the battery for a few minutes at a time, you may run out of battery power quickly. Most of your phones have a feature called battery life indicator. This will show you the percentage of charge remaining.

BATTERY AND ACCESSORIES

Before removing the battery of your cell phone, please make sure the cell phone is turned off.

Alcatel Mobile Phones Limited Warranty

TCT Mobile North America Ltd warrants to the original retail purchaser of this wireless device, that should this product or part thereof be found to be defective in material or workmanship that results in failure to perform in accordance with the product specifications within the first (1) year from the date of purchase, then TCT Mobile North America Ltd or its authorized service center will repair or replace (at the option of TCT Mobile North America Ltd) your defective wireless device, at no charge, for parts and labor directly related to the defect.

Battery, power adaptors and other accessories sold as an item but not sold as an original item, are also warranted against defective, and warranty that results in failure to perform within the first (1) year from the date of purchase, then TCT Mobile North America Ltd or its authorized service center will repair or replace (at the option of TCT Mobile North America Ltd) your defective wireless device, at no charge for parts and labor directly related to the defect.

The limited warranty for your wireless device will be voided if any of the following occurs:

Non-compliance with the instructions for use or installation, or technical and safety standards applicable in the geographical area where the equipment is used, or any equipment not supplied or not recommended by TCT Mobile.
