### General information

#### Internet address: www.alcatel.com

Your phone is covered by the warranty terms and conditions detailed on the www.alcatel.com website.

This warranty is applicable to defects which may occur during normal use of the equipment. It is applicable within the conditions of the user manual. It does not cover defects which are the direct or indirect result of any form of abuse, accident, or use not in accordance with the user manual. It does not cover any software application or accessory sold with the equipment. For any use in another country, the warranty is applicable in the geographical region where the equipment is sold.

### Telephone warranty

Your phone is warranted against any defect which may occur during normal use of the equipment. It is applicable within the conditions of the user manual. It does not cover defects which are the direct or indirect result of any form of abuse, accident, or use not in accordance with the user manual. It does not cover any software application or accessory sold with the equipment. For any use in another country, the warranty is applicable in the geographical region where the equipment is sold.

#### Declaration of Conformity for your telephone can be obtained through our Internet site.

*The highest tested SAR values for this mobile phone as set at the ear and at the body are 0.313 W/kg and 1.38 W/kg respectively. This is a figure measured according to certain international standards and recommended by the International Commission on Non-Ionizing Radiation Protection (ICNIRP).*

### Privacy

You may receive marketing offers from TCT Mobile Limited or its affiliates or your vendor, by TCT Mobile Limited, or its affiliates, at the following email addresses: marketing@alcatel.com, or alcatelmarketing@alcatel.com, or any other address applicable to the geographical region where the equipment is sold. For any use in another country, the warranty is applicable in the geographical region where the equipment is sold.

### Safety and use

#### Telephone service

Your mobile phone is equipped with a built-in antenna. For optimal operation, you should keep the antenna area free from obstructions. For indoor use, hold the phone up to your ear; for outdoor use, hold the phone at arm’s length. Always handle your phone with care and keep it in a clean and dust-free place.

### Troubleshooting

#### Before removing the telephone from the charger

Always handle your phone with care and keep it in a clean and dust-free place. Avoid using your phone in places where there is a risk of explosion, flammable gases or chemicals. Do not expose your phone to high temperatures. Avoid using your phone in water. Do not use your phone in the rain or near the sea. Do not store your phone in a microwave oven or in a high-heat area. Do not place your phone near a water source, such as a sink or bathtub. Do not place your phone in a dirty or dusty environment. Do not expose your phone to temperatures below -10°C or above 50°C. Do not expose your phone to dust, sand or extreme heat. Do not use your phone in the presence of electromagnetic fields, such as those generated by television sets, amateur radio transmitters, or other powerful radio transmitters.
