For more information on how to use the phone, please go to www.alcatelonetouch.com. Moreover, on the website, you can also find answers to frequently asked questions, upgrade the software via PC suite, and so much more.
Introduction

TCT Mobile Limited would like to thank you for purchasing this mobile phone.

Home screen

• Convenient at-a-glance view of Widget applications
• Menu shortcuts for quick access

Power media applications

• Music & Radio
• Video
• Webcam

The 2.0 Megapixel camera is a good companion for PC instant messaging.

Bluetooth

With Bluetooth 3.0 supporting A2DP profiles, enjoy handsfree conversations.

Apps

Apps store is an online software store, where you can download and install applications and games to your phone.

</table>
This product meets applicable national SAR limits of 2.0 W/kg. The specific maximum SAR values can be found on page 10 of this user guide.

When carrying the product or using it while worn on your body, either use an approved accessory such as a holster or otherwise maintain a distance of 1.5 cm from the body to ensure compliance with RF exposure requirements. Note that the product may be transmitting even if you are not making a phone call.
Safety and use............................

We recommend that you read this chapter carefully before using your phone. The manufacturer disclaims any liability for damage, which may result as a consequence of improper use or use contrary to the instructions contained herein.

• TRAFFIC SAFETY:
  Given that studies show that using a mobile phone while driving a vehicle constitutes a real risk, even when the hands-free kit is used (car kit, headset...), drivers are requested to refrain from using their mobile when the vehicle is not parked.
  When driving, do not use your phone and headphone to listen to music or to the radio. Using a headphone can be dangerous and forbidden in some areas.
  When switched on, your phone emits electromagnetic waves that can interfere with the vehicle’s electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem:
  - do not place your phone on top of the dashboard or within an airbag deployment area,
  - check with your car dealer or the car manufacturer to make sure that the dashboard is adequately shielded from mobile phone RF energy.

• CONDITIONS OF USE:
  You are advised to switch off the telephone from time to time to optimise its performance.
  Switch the phone off before boarding an aircraft.
  Switch the phone off when you are in health care facilities, except in designated areas. As with many other types of equipment now in regular use, mobile telephones can interfere with other electrical or electronic devices, or equipment using radio frequency.
  Switch the phone off when you are near gas or flammable liquids. Strictly obey all signs and instructions posted in a fuel depot, petrol station, or chemical plant, or in any potentially explosive atmosphere.
  When the phone is switched on, it should be kept at least 15 cm from any medical device such as a pacemaker, a hearing aid or insulin pump, etc. In particular when using the phone, you should hold it against the ear on the opposite side to the device, if any.
  To avoid hearing impairment, pick up the call before holding your phone to your ear. Also move the handset away from your ear while using the “hands-free” mode because the amplified volume might cause hearing damage.
  Do not let children use the phone and/or play with the telephone and accessories without supervision.
  When replacing the cover please note that your phone may contain substances that could create an allergic reaction.
  Always handle your phone with care and keep it in a clean and dust-free place.
  Do not allow your phone to be exposed to adverse weather or environmental conditions (moisture, humidity, rain, infiltration of liquids, dust, sea air, etc). The manufacturer’s recommended operating temperature range is -10°C to +55°C.

At over 55°C the legibility of the phone’s display may be impaired, though this is temporary and not serious.
Emergency call numbers may not be reachable on all cellular networks. You should never rely only on your phone for emergency calls.
Do not open, dismantle or attempt to repair your mobile phone yourself.
Do not drop, throw or bend your mobile phone.
Do not use the phone if the glass made screen, is damaged, cracked or broken to avoid any injury.
Do not paint it.
Use only batteries, battery chargers, and accessories which are recommended by TCT Mobile Limited and its affiliates and are compatible with your phone model (see Accessories List, page 89). TCT Mobile Limited and its affiliates disclaim any liability for damage caused by the use of other chargers or batteries.
Remember to make back-up copies or keep a written record of all important information stored in your phone.
Some people may suffer epileptic seizures or blackouts when exposed to flashing lights, or when playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout. If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult your doctor before playing video games on your phone or enabling a flashing-lights feature on your phone.
Parents should monitor their children’s use of video games or other features that incorporate flashing lights on the phones. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. To limit the likelihood of such symptoms, please take the following safety precautions:
  - Do not play or use a flashing-lights feature if you are tired or need sleep.
  - Take a minimum of a 15-minute break hourly.
  - Play in a room in which all lights are on.
  - Play at the farthest distance possible from the screen.
  - If you have a pacemaker, a hearing aid or insulin pump, etc. In particular when using the phone, you should hold it against the ear on the opposite side to the device, if any.
  - If your hands, wrists, or arms become tired or sore while playing, stop and rest for several hours before playing again.
  - If you continue to have sore hands, wrists, or arms during or after playing, stop the game and see a doctor.

When you play games on your phone, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow the instructions to avoid problems such as tendinitis, carpal tunnel syndrome, or other musculoskeletal disorders.

PROTECT YOUR HEARING
To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.
• PRIVACY:
Please note that you must respect the laws and regulations in force in your jurisdiction or other jurisdiction(s) where you will use your mobile phone regarding taking photographs and recording sounds with your mobile telephone. Pursuant to such laws and regulations, it may be strictly forbidden to take photographs and/or to record the voices of other people or any of their personal attributes, and duplicate or distribute them, as this may be considered to be an invasion of privacy. It is the user's sole responsibility to ensure that prior authorisation be obtained, if necessary, in order to record private or confidential conversations or take a photograph of another person; the manufacturer, the seller or vendor of your mobile phone (including the operator) disclaim any liability which may result from the improper use of the mobile phone.

• BATTERY:
Before removing the battery from your phone, please make sure that the phone is switched off. Observe the following precautions for battery use:
- Do not attempt to open the battery (due to the risk of toxic fumes and burns).
- Do not puncture, disassemble or cause a short-circuit in a battery.
- Do not burn or dispose of a used battery in household rubbish or store it at temperatures above 60°C.
Batteries must be disposed of in accordance with locally applicable environmental regulations. Only use the battery for the purpose for which it was designed. Never use damaged batteries or those not recommended by TCT Mobile Limited and/or its affiliates.

This symbol on your telephone, the battery and the accessories means that these phones must be taken to collection points at the end of their life:
- Municipal waste disposal centres with specific bins for these items of equipment
- Collection bins at points of sale.
They will then be recycled, preventing substances being disposed of in the environment, so that their components can be reused.

In European Union countries:
These collection points are accessible free of charge.
All phones with this sign must be brought to these collection points.
In non European Union jurisdictions:
Items of equipment with this symbol are not to be thrown into ordinary bins if your jurisdiction or your region has suitable recycling and collection facilities; instead they are to be taken to collection points for them to be recycled.

CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE.
DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

• CHARGERS
Mains powered chargers will operate within the temperature range of: 0°C to 40°C.
The chargers designed for your mobile phone meet with the standard for safety of information technology equipment and office equipment use. They are also compliant to the ecodesign directive 2009/125/EC. Due to different applicable electrical specifications, a charger you purchased in one jurisdiction may not work in another jurisdiction. They should be used for this purpose only.

• RADIO WAVES:
Proof of compliance with international standards (ICNIRP) or with European Directive 1999/5/EC (R&TTE) is required of all mobile phone models before they can be put on the market. The protection of the health and safety for the user and any other person is an essential requirement of these standards or this directive.

THIS DEVICE MEETS INTERNATIONAL GUIDELINES FOR EXPOSURE TO RADIO WAVES
Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) recommended by international guidelines. The guidelines were developed by an independent scientific organization (ICNIRP) and include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.
The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg.
Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the ICNIRP guidelines for this device model are:

<table>
<thead>
<tr>
<th>one touch 815:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Maximum SAR for this model and conditions under which it was recorded.</td>
</tr>
<tr>
<td>Head SAR</td>
</tr>
<tr>
<td>Body-worn SAR</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>one touch 815D:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Maximum SAR for this model and conditions under which it was recorded.</td>
</tr>
<tr>
<td>Head SAR</td>
</tr>
<tr>
<td>Body-worn SAR</td>
</tr>
</tbody>
</table>

During use, the actual SAR values for this device are usually well below the values stated above. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the lower its SAR value.

Body-worn SAR testing has been carried out at a separation distance of 1.5 cm. To meet RF exposure guidelines during body-worn operation, the device should be positioned at least this distance away from the body. If you are not using an approved accessory ensure that whatever product is used is free of any metal and that it positions the phone the indicated distance away from the body.

Organizations such as the World Health Organization and the US Food and Drug Administration have stated that if people are concerned and want to reduce their exposure they could use a hands-free device to keep the phone away from the head and body during phone calls, or reduce the amount of time spent on the phone.

For more information you can go to www.alcatelonetouch.com
Additional information about electromagnetic fields and public health are available on the following site: http://www.who.int/peh-emf.

Your telephone is equipped with a built-in antenna. For optimal operation, you should avoid touching it or degrading it.

As mobile devices offer a range of functions, they can be used in positions other than against your ear. In such circumstances the device will be compliant with the guidelines when used with headset or USB data cable. If you are using another accessory ensure that whatever product is used is free of any metal and that it positions the phone at least 1.5 cm away from the body.

**General Information**

- **Internet address:** www.alcatelonetouch.com
- **Hot Line Number:** see "TCT Mobile Services" leaflet or go to our Internet site.
- **Address:** Room 1910-12A, Tower 3, China HK City, 33 Canton Road, Tsimshatsui, Kowloon, Hong Kong

On our Internet site, you will find our FAQ (Frequently Asked Questions) section. You can also contact us by e-mail to ask any questions you may have.

An electronic version of this user guide is available in English and other languages according to availability on our server: www.alcatelonetouch.com

Your telephone is a transceiver that operates on GSM in quad-band (850/900/1800/1900 MHz) or UMTS in dual-band (900/2100 MHz).

Your telephone is a transceiver that operates on GSM in quad-band (850/900/1800/1900 MHz) or UMTS in dual-band (900/2100 MHz).

This equipment is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. The entire copy of the Declaration of Conformity for your telephone can be obtained through our website: www.alcatelonetouch.com.
Protection against theft

Your telephone is identified by an IMEI (phone serial number) shown on the packaging label and in the phone’s memory. We recommend that you note the number the first time you use your telephone by entering * # 0 6 # and keep it in a safe place. It may be requested by the police or your operator if your telephone is stolen. This number allows your mobile telephone to be blocked preventing a third person from using it, even with a different SIM card.

Disclaimer

There may be certain differences between the user manual description and the phone’s operation, depending on the software release of your telephone or specific operator services.

TCT Mobile shall not be held legally responsible for such differences, if any, nor for their potential consequences, which responsibility shall be borne by the operator exclusively.

The following approvals and notices apply in specific regions as noted.

one touch 815:

Contact your network operator to check service availability.
Getting started

1.1 Set-up

Removing or installing the back cover

Inserting or removing the SIM card

You must insert your SIM card to make phone calls. Please power off your phone and remove battery before inserting or removing the SIM card.

Place the SIM card with the chip facing downwards and slide it into its housing. Make sure that it is correctly inserted. To remove the card, press and slide it out.

Check with your network operator to make sure that your SIM card is 3V or 1.8V compatible. The old 5 Volt cards can no longer be used. Please contact your operator.

---

Removing or installing the back cover

---

Inserting or removing the SIM card

---

Check with your network operator to make sure that your SIM card is 3V or 1.8V compatible. The old 5 Volt cards can no longer be used. Please contact your operator.
Installing or removing the battery

Insert and click the battery into place, then close the telephone cover. Unclip the cover, then remove the battery.

Charging the battery

Connect the battery charger to your phone and mains socket respectively.
- LED light will be on when it is charging, and be off when battery is fully charged.
- Charging may take about 20 minutes to start if the battery is flat.
- Be careful not to force the plug into the socket.
- Make sure the battery is correctly inserted before connecting the charger.
- The mains socket must be near to the phone and easily accessible (avoid electric extension cables).

- When using your telephone for the first time, charge the battery fully (approximately 3 hours). You are advised to fully charge the battery ( ).

To reduce power consumption and energy waste, when battery is fully charged, disconnect your charger from the plug; switch off Wi-Fi, Bluetooth or background-running applications when not in use; reduce the backlight time, etc.

1.2 Power on your phone

Hold down the key until the telephone powers on, type in your PIN code if necessary and then confirm with the key. The Home screen is displayed.

If you do not know your PIN code or if you have forgotten it, contact your network operator. Do not leave your PIN code with your telephone. Store this information in a safe place when not in use.

If Broadcast SMS are displayed, use the key to browse through them or press the to return to the Home screen.

While the phone is searching for a network, "Searching/Emergency" will be displayed.

1.3 Power off your phone

Hold down the key from the Home screen.
2 Your mobile

2.1 Keys and connectors

- Press to go left/right/up/down
- Press to confirm an option
- Press and hold to enter Music player

Left softkey
- Access main menu
- Send key
- Pick up/Send a call
- Press: Enter Call log
- Press and hold: Enter Fake call

Right softkey
- Access contacts
- Press: End a call
  Return to the Home screen
- Press and hold: Power on/off
- Vibration alert

- Press and hold: Access your voicemail
- Press to input capitalized characters
- Press once: Input a top-half character
- Press twice: Lock the keyboard in top-half key input mode
- Press and hold: Input top-half characters only until key is released

Fn+ B: Access Bluetooth
Fn+ M: Access Music
Fn + P: Access Profiles
Fn + J: Access Java applications
2.2 Status bar icons (1)

In one touch 815:

- **Battery charge level.**
- **Vibrate alert:** your phone vibrates, but does not ring or beep with the exception of the alarm (see page 64).
- **Bluetooth status** (Activated).
- **Bluetooth status** (Connected to an audio device).
- **Java status** (Activated).
- **Headset connected.**
- **Call forwarding activated:** your calls are forwarded (see page 42).
- **Alarm or appointments programmed** (see page 75, 78).
- **Level of network reception.**
- **Voicemail message arrived.**
- **Missed calls.**
- **Call in progress.**
- **Stopwatch is active.**
- **Radio is on.**

(1) The icons and illustrations in this guide are provided for informational purposes only.
Email unread.

Wap messages (1).

Roaming.

SD card scanning completed.

Line switching (1): indicates the selected line.

GPRS connection status (Activated).

GPRS connecting.

EDGE connecting.

EDGE attached.

2.3 Home screen

Status bar

Wallpaper

Widget bar

(1) Depending on your network operator.
### 2.3.1 Widget bar

Widgets are convenient shortcuts for quick access from the Home screen.

You can customize widget bar by "Settings/Phone settings/Widget bar".

To add/remove a widget, select "Edit widgets" and use ○ key to On/Off, and then confirm by pressing "Save".

To reorder widgets, select "Reorder widgets" and choose one item by pressing ○ key, scroll up or down to the required position, place it by pressing ○ key, and then confirm by selecting "Done" with Right softkey.

You aren’t allowed to add more than five widgets. Two widgets cannot be removed: Messages, Calls.

### 2.3.2 Change wallpaper

You can select a folder to choose one image as favourite wallpaper by selecting "Options/Set as/Wallpaper".

### 3 Making a call

#### 3.1 Placing a call

Dial the desired number then press the send key to place the call. The number you entered can be saved to Contacts by selecting "Save". If you make a mistake, you may press Right softkey or Delete key to delete the incorrect digits.

To hang up the call, press the key.

#### Making an emergency call

If your phone has network coverage, dial emergency number and press the send key to make an emergency call. This works even without a SIM card and without typing the PIN code.

#### 3.2 Calling your voicemail (1)

Your voicemail is provided by your network to avoid missing calls. It works like an answering machine that you can consult at any time. To access your voicemail, hold down the key.

If the access number for your operator’s voicemail service does not work, dial the number that you were given. To change this number at a later date, refer to "Voicemail" (see page 42).

To use your voicemail service from abroad, contact your network operator before leaving.

(1) Contact your network operator to check service availability.
3.3 Receiving a call

When you receive an incoming call, press the send key to talk and then hang up using the —— key.

If the icon is displayed, the vibrator is activated and there is no ringtone. If the icon is displayed, the phone neither rings nor vibrates.

The caller’s number is displayed if it is transmitted by the network (contact your network operator to check service availability).

Muting the ringtone

To mute ringtone of current incoming call, press Right softkey once.

Rejecting a call

Press the —— key once, or reject it by SMS (Options\Reject call with SMS).

3.4 During a call (1)

During a call, following options are available:

• Mute (Turn the Mute function on/off during a call)
• Hold (Hold the current call)
• End single call (End the current call)
• New call (Hold the current call and dial another number)
• Contacts (Enter Contacts)
• Call Log (Enter Call Log) call log
• Messages (Enter Message)
• Sound recorder (record your current call)
• DTMF (Enable/Disable sending DTMF during the call)
• Switch audio path (Switch current audio path)

You can use H-free function by pressing Navigation key during a call. You may also adjust sound level by using Volume key directly during a call.

Move the handset away from your ear while using the "H-free" option because the amplified volume might cause hearing damage.

You can switch the audio speech from handset to Bluetooth device when connected.

Handling two calls

• Answering a second call (ensure that "Call waiting" is activated, see page 42).
• To call a second party during a call, you can select "Options\New call".

3.5 Conference calls (1)

Your phone allows you to talk to several people at the same time (up to five). If you are on a double call, press "Options" and select "Conference". If a third call comes in, answer it by pressing the send key and speak with your new caller.

This caller becomes a member of the conference if you press "Options" and select "Conference call". Pressing —— disconnects the current call.

(1) Contact your network operator to check service availability.
4 Menu arrange..........................

It is designed to vary according to your preference.

Change the order

Access the main menu, focus on the main menu item you want to move, select "Options\Select to move", and tick "√" will be shown on the item you selected, then release it to your favourite destination.

Show/Hide

Access the main menu, select "Options\Add and remove menu", and select the left check box of the selected menu once to show/hide, and then select "Done" to save the operation.

5 Messages..........................

You can create, edit and receive SMS, MMS with this mobile phone.

MMS enables you to send video clips, images, photos, animations and sounds to other compatible mobiles and e-mail addresses.

The MMS function can only be used if the service is provided by your operator, and if your contract includes the MMS option and if all the parameters for MMS have been entered (see page 33).

5.1 Access

You may access this menu using the following options:

• Access from the main menu by selecting "Messages".
• Select 📬 from widget bar, and then enter the sub-menu you require.

5.2 Conversational On (Off) mode

In conversational on mode, you can view chat history in chronological order. In conversational off mode, you may have access to the following folders: Write msg, Inbox, Draft, Outbox, Sent, Archive, Broadcast SMS, Voicemail, Empty folder, Templates, Settings. Conversational view mode is set as default. You may switch to conventional mode by selecting "Options\Settings\Switch view mode". The following instructions are based on conversational mode.
5.3 Write message

You can select "Messages\Write new SMS/MMS" from the main menu or access from widget to write text/multimedia message. For dual SIM model, you can type a message and select to send it to a recipient in either the SIM1 or SIM2 directory (1). One or more recipients can be added from contact list and you can remove a recipient by pressing Delete key. Press "Contacts" through key to multi-select recipients from Contacts.

An SMS will be converted to MMS automatically when images, videos, audio, slides or attachments are inserted; Subject, CC/BCC/email address is added; or the message contains more than 8 pages of text.

Timer send

Schedule a SMS/MMS to be sent out at predefined time ("Options\Timer send").

An SMS message of more than a certain number of characters (the number of characters depends on your language) will be charged as several SMS. An MMS message containing photos and/or sounds may also be billed as more than one message. Specific letters (accent) will increase the size of the SMS, this may cause multiple SMS to be sent to your recipient.

5.4 Available options

5.4.1 Delete

To delete a thread (containing all chat history), select "Options\Delete", and then confirm with key.

5.4.2 Delete all

You can delete all threads with this option.

5.4.3 Search

To search for a thread, you may input the initial of a contact name. Subsequent letters may be added to refine the search.

5.4.4 Alerts

WAP alerts

Store WAP push messages.

Setting messages

Store provisioning messages.

Broadcast SMS

Store received Broadcast SMS.

Voicemail

View and edit the voicemail number.

5.4.5 Settings

5.4.5.1 Text message

SIM

• You can set profile, validity period, message type, sent on/off, reply path, preferred bearer etc.

Memory status

• Show memory used on the phone and SIM card.

Save sent message

• Save all your sent messages.

Pref. storage

• Select default message storage, SIM or phone.

Alphabet management

• Enables the definition of SMS data coding for management SMS sending.

(1) one touch 815D only.
Your phone has an email client with the settings pre-defined for a few popular email services like – GoogleMail, Yahoo, AOL, etc. Besides this, you can set up other POP3 or IMAP4 email accounts that you may be using.

6.1 Access

You may access this menu using the following options:

• Access from the main menu by selecting "Email".

6.2 Email account set-up

Pre-defined email service
If you own an email account of predefined services, you can install it to your phone by selecting the service (GoogleMail, yahoo, etc.), entering the Email address and password, and then confirming with "OK".

New email service
To set up a new email account other than the predefined email services, select "Other Email accounts".

You are required to enter your Email address, select protocol (POP3 or IMAP4) and data account, then enter your incoming server address, outgoing server address, username, password and account name, finally confirm with "Done".

(1) Consult your email service provider for more information about protocol.
6.3 Write email
Select "Email\Options\Create email" to enter write email interface. You can add a recipient by entering their Email address from the enter bar or by just adding it from Contacts.

6.4 Inbox
Folder of all received Emails.

6.5 Outbox
Folder of all unsent Emails.

6.6 Sent
Folder of all sent Emails.

6.7 Drafts
Folder of all draft Emails.

6.8 Available options
View
Select to enter the menu.

Refresh
To connect the email server in order to receive/send mails.

Create email
To create a new email.

Email accounts
To edit the detailed configuration information of the selected account.

Delete
To delete the current selected account.

New account
To create a new email account.

Signature
To attach your signature when sending emails.

Selecte storage
Select email to store in phone or SD card.
7 Contacts

7.1 Consulting your contacts
You can access to this function by selecting "Contacts" from the main menu.

For dual SIM model, the available in this menu (1).

Contacts stored both in phone and SIM card
Contacts stored in phone
Contacts stored in SIM card

**Auto redial**

You can activate or deactivate the automatic callback of your party for calls that do not get through the first time.
9.1.2 **Music playing mode**

![Image of music playing mode]

- Previous song (press key)
- Play/pause (press key)
- Next song (press key)
- Back (press the right softkey)

To adjust the volume, use the volume key.

9.1.3 **Settings**

Access by pressing the Left softkey for following options:

- **Player settings**
  - Enable you to switch among **Shuffle**, **Repeat**, **Sound effects**.

- **Audio settings**
  - Audio play speed and display style can be set as you want.

9.2 **Images**

A library links to the images (stored in "**My images**") in phone or SD card to be shown in list, slide, multi-mark, set as wallpaper, power on/off display and incoming call image or sent by MMS, Email, Bluetooth.

Press an image once to view it in full screen.

9.3 **Videos**

Contains all video clips (stored in "**My videos**") in phone or SD card and enables you to play, send, set as power on/off display, delete, rename, sort, etc.
9.4 FM Radio

Your phone is equipped with a radio with RDS functionality. You can use the application as a traditional radio with saved channels or with parallel visual information related to the radio program on the display if you tune to stations that offer Visual Radio service. You can listen to it while running other applications.

To use it, you must plug in your headset, which works as an antenna connected with your phone.

Available options:

- **Channel list**: Open the list of saved stations.
- **Save channel**: Save the current tuned station to the "Channel list".
- **Enter frequency**: Enter the frequency manually.
- **Auto search**: Start auto search and stations will be automatically saved to "Channel list".
- **Settings**: Use key to manage such settings: Loudspeaker, Audio quality, Record storage, RDS.
- **Record**: Record the radio: files will be automatically saved to "File list".

10. Internet

10.1 Web

Web not only gives you the full Web experience where you stay in touch with your friends, obtain information, do your online banking etc., but also saves time by using compressed web pages.

10.2 Wap

10.2.1 Homepage

Launch the Wap browser with the preset homepage.

10.2.2 Bookmarks

Access your favourite sites.

10.2.3 Go to URL

Enter the URL of Wap site.

10.2.4 Open file

Open web pages stored on your phone.

10.2.5 Last wap address

Last visited URL.

10.2.6 Recent pages

Pages which you recently browsed.

---

(1) Depending on your network operator. May cause additional network charges for data flow to provide this service. Extra fees might also be charged in roaming states.

(2) The quality of the radio depends on the coverage of the radio station in that particular area.

(3) Depending on your network operator and market.
10.2.7 Offline pages
Pages available for offline viewing.

10.2.8 Service inbox
Store Wap push messages.

10.2.9 Settings
Customise your browser preferences.

10.3 News ..............................................................
It is a huge time saver providing news updates from a website in a simple form.

Once subscribed to a channel, it gives you the ability to track and manage all your favourite RSS content on your mobile phone at anytime, anywhere!

Available options:
- **Update** Refresh the content of a channel.
- **Create channel** Create a new channel with name and URL.
- **Delete** Delete the channel.
- **Edit** Edit the name or URL of a channel.
- **Update all** Refresh all channels.

**Enable/Disable auto-update**
Activate auto-update or not.

**Enable/Disable all auto-update**
Activate auto-update or not to all channels.

**Settings**
Select a regular interval to retrieve updates automatically, set to show images or not, as well as a Wap account to connect to.

**Send**
Share a channel with your friend by sending it by SMS, MMS or Email.

10.4 Weather ............................................................
Your phone is equipped with a weather function for consulting up to 3-day forecasts of favourite cities.

To access the function, you can press "Menu" through Left softkey to access the main menu and select the ☂.

Select "AccuWeather.com" to access online website, which may charge extra fee.

Available options:
- **More information** Search more weather information online.
- **Forecast** Display 3-day weather forecast.
- **Update** Refresh weather information.
- **My cities** List all my cities, you can add new city, set default city, delete the selected city, etc. via "My cities\Options".
- **Settings** Set unit, update mode and network.
### mTweet

Twitter is a social networking and microblogging service that has gained notability and popularity worldwide. This feature enables phone users to exchange news updates and ideas with a community in the form of messages or posts. Posts are displayed on the author's profile page and delivered to the author's subscribers or followers.

To open an account online, please go to: http://m.twitter.com.

---

### Apps

Apps store is an online software store, where you can download and install applications and games to your phone.

You can access this function by selecting "Apps" from the main menu.

#### 11.1 Locate the item you want to download

The Apps store home page offers several ways to find applications. It showcases different kinds of applications in **Featured** and **Categories**.

- **Featured**: This shows pictures of recommended applications. You can select one to view its details.
- **Categories**: This arranges applications under Feature, New, App and Game headings. Select a category to choose the application you require.

Also, you can press the Search tab, enter the name of an application, and then press Go to find the result.
11.2 Download, install and manage applications

- Navigate to the item you want to download and select it to enter the details screen from which you can read its overall rating or comments, view developer’s information, etc.

- To download an application, you can press Options\Download or press Download from the application details screen.

- You can check the status of any application that is currently being downloaded using the Download tab. This enables you to delete, pause or resume downloading.

- When downloading has finished, you can manage your application using the Manager tab. You can select an application, and then press Options\Run to install it or Options\Delete to delete it.

Be particularly cautious with applications that can access many functions or a significant amount of your data. You are responsible for the results of using this item on your phone.

11.3 Update and settings

In the Apps store home page, you can press Options\Update to check for and install any updates for your applications. You can also press Options\Setting to automatically check for updates at either weekly or monthly intervals.

12 Facebook

Facebook is a social utility that connects people with friends and others who work, study and live around them. It provides a number of features with which users may interact: Wall, a space on every user’s profile page that allows friends to post messages for the user to see; Pokes, which allow users to send a virtual "poke" to each other, etc.

To get a Facebook account, please visit http://m.facebook.com.

You can access this menu from the main menu by selecting "Facebook".

You can also press key on the keypad to enter the Facebook page.

Before accessing Facebook page, you must log in by selecting "Facebook update status" bar in home screen, then input your facebook account and password.

12.1 News feed

To access this feature, select "Facebook\News Feed" from the main menu screen.

This menu enables users to view a constantly updated list of their Facebook friends’ activity, profile changes, upcoming events, birthdays, conversations taking place between the walls of their friends, etc.

This menu displays the following tabs when accessed:

- **News Feed**: Displays latest news or status update of your Facebook friends.

- **Favourites**: Displays the News Feeds of all friends selected as favourite contacts.
12.2 Messages ....................................................... 
From this menu, you can exchange messages with your Facebook friends.
Select "Write new Facebook message" to enter the message editing screen, enter your friend's name or select one or more friends from your friends list by pressing the \[enter\] key, then enter your message text. When finished, press the \[enter\] key to send it.
Press "View" using the \[enter\] key to view all the message threads of the Facebook friends you selected.

Available options:

<table>
<thead>
<tr>
<th>View recipients</th>
<th>View recipients' profiles if there are two or more recipients.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Delete</td>
<td>Delete the current conversation thread.</td>
</tr>
<tr>
<td>Delete all</td>
<td>Delete all threads.</td>
</tr>
<tr>
<td>Refresh</td>
<td>Data refresh.</td>
</tr>
</tbody>
</table>

12.3 Friends .....................................................
You can access this function from the main menu screen by selecting "Friends".
When accessing this menu, you will see a list of all contacts.

Available options:

<table>
<thead>
<tr>
<th>Set as favourite/ Remove from favourites</th>
<th>Select (or deselect) a contact as a favourite.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Merge to local contact</td>
<td>Merge a Facebook contact with your local contact.</td>
</tr>
<tr>
<td>Copy to phone</td>
<td>Copy the selected contact.</td>
</tr>
</tbody>
</table>

12.4 Photos ....................................................... 
This menu displays photos downloaded from Facebook.
Select "Create new album" to enter a caption and description, then press \[enter\] key to finish creating the album.
Your Facebook gallery is displayed in albums. The first album will be "Fan photos" which is generated automatically and contains all photos where you have been tagged.

12.5 Events ......................................................
To access this feature, select "Facebook\Search" from the main menu screen.
This menu displays the list of all events and the list of birthdays of all Facebook friends.
12.6 Search .............................................................
To access this feature, select "Facebook\Search" from the main menu screen.
This menu enables users to search for a friend they want to connect with, or locate a page they want to view, etc.

12.7 Notification...................................................
To access this feature, select "Facebook\Notification" from the main menu screen.
This menu displays all notifications from your Facebook friends.

12.8 Settings ..........................................................
As your phone supports Facebook, you can access settings for this feature by selecting "Facebook\Settings" from the main menu screen.

Background updates
Select to set the Background updates mode for updating Facebook features.

Logout
Select to log out the facebook.

13 Entertainment ..........................

13.1 Stopwatch .....................................................
The stopwatch is a simple application for measuring time with the possibility to register several results and suspend/resume measurement.

13.2 Ebook ...........................................................
A bookshelf contains the electronic books (.txt file only). While reading the book, you may add bookmark, or reach the text by searching words, phrases (Options\Find, Options\Jump to).

Available options:

Book information  Display the detailed information (title, size and format) about the book.
Delete  Delete the current book.
Delete all  Delete all books.
Sort  Sort the books by name, type, time or size.
Global settings  Set the font, scroll mode, display format, etc.
Help  List all hotkeys.
To avoid character corruption, please ensure that the encoding format is correct (Global settings or Settings\Encoding format).

13.3 Java

13.3.1 Launch an application
Select "Java applications" to launch applications.

13.3.2 Download application
Download Java applications from ALCATEL ONE TOUCH website.

13.3.3 Java settings
The "Java" menu allows you to manage Java settings, in which you may set Java audio, backlight, vibration, network and identify how much Heap size is available.

13.3.4 Trusted certificates
View detailed information of the trusted certificates supported by your phone.

Disclaimer
Downloading or running applications will not damage or alter any software already in your mobile telephone designed to support Java™ technology. TCT Mobile Limited and its affiliates waive any responsibility and refuse to guarantee applications that are subsequently used, as well as for all applications not embedded in the handset upon purchase.

The purchaser alone bears the risk of loss, damage or defect of the handset, or of applications/software, and generally of any damage or consequence resulting from the use of the said applications/software. In the event that the said applications/software, or the subsequent setup of any function are lost due to technical reasons resulting from the handset being replaced/repai red, the mobile phone owner should repeat the operation and download or set up again. TCT Mobile Limited and its affiliates grant no guarantee and disclaim any responsibility if the operation cannot be repeated or cannot be performed without incurring some cost.
14 Camera.............................

Your mobile phone is fitted with a camera for taking photos and shooting videos that you can use in different ways:

• store them in your "My files\Memory card\My images" or "My files\Phone\My images".
• send them in a multimedia message (MMS) to a mobile phone or an email address.
• send them directly by MMS, Email, Bluetooth.
• customise your Home screen (see page 79).
• select them as incoming call image to a contact in your Contacts.
• transfer them by data cable or microSD card to your computer.

14.1 Access
Select  from the main menu to access this function.

14.2 Camera

14.2.1 Take a photo, save or delete
The screen acts as the viewfinder. Position the object or landscape in the viewfinder and press  to take the image and the images will be automatically saved. If you don’t want it, you may directly delete it.

14.2.2 Settings in framing mode
Before taking the photo, you can adjust a number of settings:
From the photo shot screen, press "Settings" through Left softkey not only to access: "Image size", "Capture mode", "Image quality", "Timer", "Night mode", "Banding", "EV", "White balance", "Color mode", but also following ones:

My images  • Go to "My files\Phone" or "My files\Memory card" to view the photos you have taken.
Storage  • You may choose saving location if microSD card is inserted.
Access video  • Access video recording mode.
Restore default  • Return all settings to default values.

14.2.3 Options available after taking the photo
Once you have taken a photo, you can send your photo by Bluetooth, MMS and Email, assign it to a contact, set as wallpaper, or go to "My images" to view it.
14.3 Video

14.3.1 Framing mode
When you enter the "Video" function, you are in Framing mode. Use the mobile screen as a viewfinder and press "Settings" for the settings of Video quality, Night mode, Record audio, Color mode, EV, Record limit and Storage, to Access camera and "My videos".

14.3.2 Recording mode
Once you have chosen your settings, you can launch the recording of your video-clip by pressing the □ key.

If you receive a call in recording mode, video recording will stop and save automatically.

14.3.3 Further operations after shooting a video
After shooting a video, you can choose to send your video by Email, MMS, Bluetooth or go to "My videos" to view it.

In the list of "My videos", press "Options" to rename the video, set as power on/off screen, etc.

15 Profiles..........................

With this menu, you may personalise ringtones for different events and environments.

15.1 General
To modify the sound settings, press "Options\Customize" and you will see the functions below using the navigation key:

Mode
You may set your phone ringtone to Ring only, Vibration only, Vib. and ring, Ascending, Silence (no sounds except for alarms, the icon will be displayed).

Ringtone
Select a melody from the list by scolling up/down.

Ringtone volume
Adjust the volume by □ key.

Message
Select a melody for a new incoming message.

Keypad
Select silence or the type of keybeep.

Power on
Select a Power on melody for your phone.

Power off
Select a Power off melody for your phone.
15.2 Vibration
All sounds are replaced by vibrations except for alarms.

15.3 Silent
This profile will turn off all ringtones, even notification sounds.

15.4 Flight mode
Voice calls, Bluetooth and messaging functions are barred. Can be used to increase standby duration.

16 My files
You will have access to all audio and visual files stored in phone or Memory card in File manager.

16.1 Phone
An entry to access all files in all folders stored in phone.

16.1.1 Ebook
A bookshelf containing the electronic books (.txt file only).

16.1.2 My audios
Choose an audio for an incoming call ringtone, a message alert beep, power on/off ringtone, incoming call ringtone, etc.

DRM: Digital Rights Management feature allows sounds and images to be played while protecting the associated copyright. DRM counter-based files and files with expired rights will not be automatically played when scrolling the list.
16.1.3 My images
You can select an image or a photo as wallpaper, power on/off screen, or assign it as incoming call image.
The images will be displayed in alphabetical order.

16.1.4 My videos
"My videos" album contains video clips recorded, received or downloaded.

16.1.5 Received
This feature stores all received files by Bluetooth.

16.2 Memory card
You can access all files stored in the Memory card here.

When a Memory card is inserted for the first time, it will be scanned and the default folders will be created.

Inserting the Memory card:
Firstly, release the Memory card holder. Then insert the Memory card with the golden contact downward. Finally, turn down the Memory holder.
16.3 Managing audios, images, videos and others

According to the item chosen, you can access some of the functions below:

**Send** (1) Send the audio/image/video/Java.

**Delete** Delete the audio/image/video selected (not applicable for embedded items).

**Set as**
- Image ➔ wallpaper, power on/off, assign it to a contact.
- Sound ➔ ringtone, message beep, power on/off, assign it to a contact.
- Video ➔ power on/off.

**Multi-mark** Mark/Unmark a tick on a file for further operation. Press Left softkey to mark all directly.

**Download** Download new items.

**Rename** Rename the audio/image/video.

**Sort** Sort the files by name, type, time and size.

**Move** Move a file from the phone memory to the SD card and vice-versa.

**Activate** DRM file option.

**Copy** Copy a file to the phone memory or the SD card.

**Delete all** Delete all the files except the embedded ones.

**Details** View details of the file.

---

16.4 Formats and compatibility (1)

- Sounds: mp3, m4a, aac, midi, wav, amr, wma
- Images: jpg, gif, wbmp, bmp
- Videos: 3gp, H.263, MPEG4 (may vary on specific product)

16.5 Memory status

Indicates how much space is used and how much is currently free on your phone and memory card (if any).

16.5.1 Phone

View available memory space.

Your phone’s memory is shared among several functions: contacts, calendar, messages, images, melodies, games and video clips.

16.5.2 Memory card

View the memory available on your memory card.

You are advised to save large files (like songs) on your memory card.

---

(1) Files marked with 📑 cannot be sent.

(1) Depending on product and market.
Visibility
Select whether you want to hide or show to all.

My phone’s name
You may change your phone name, which is visible to the others.

Available functions

Activation
Select On or Off.

Visibility
Select whether you want to hide (“off”) or show to all (“on”) your phone.

Device list
You can search new device.

My phone’s name
You may change your phone name, which is visible to the others.

Device address
You can see the address.

Always activate Bluetooth in your phone first before connecting it to a Bluetooth device. Be aware that Bluetooth activation will slightly affect battery life of your phone.

Bluetooth technology allows free wireless connections between all Bluetooth-compliant devices within short range. Please make sure that the Bluetooth headset or the Bluetooth car kit and your mobile phone are in this range and set as visible.

(1) You are recommended to use ALCATEL ONE TOUCH Bluetooth headsets, which have been tested and proved compatible with phone. You can go to www.alcatelonetouch.com for more information about ALCATEL ONE TOUCH Bluetooth headset.
**18 Wi-Fi**

Using Wi-Fi, you can connect to the Internet when your phone is within range of a wireless network. Wi-Fi can be used on phone even when no SIM card is inserted.

To access this function, press "Menu" to enter the main menu, and select or press (●) directly.

**To connect and disconnect to a wireless network**

To connect a Wi-Fi network, select one of the following two ways:

- Press "Connect"
- Select "Options\Connect"

If the network you selected is secured, you are required to enter a password or other credentials (contact network operator for details). When finished, select "Options\Done".

To disconnect a Wi-Fi network, select "Options\Disconnect".

**Available options:**

- **Add** Press to add new Wi-Fi networks of your choice when Wi-Fi is on
- **Refresh** Press to refresh all the available Wi-Fi networks
- **Wi-Fi status** Press to check the status of Wireless Local Area Networks
- **Disable Wi-Fi** Press to deactivate Wireless Local Area Networks
- **Define access point** Press to define access point

**19 Tethering**

Tethering is a method for connecting a computer or other devices to the internet via an internet-capable mobile phone. They will then be able to share your phone’s internet connection.

Access this feature by pressing "Menu" through Left softkey from the Home Screen to enter the main menu, then selecting “Tethering”.

The functions below may incur additional network charges from your network operator. Extra fees may also be charged in roaming areas.

**To share your home data connection via a USB cable**

Use the USB cable that came along with your phone to connect the phone to a USB port on your computer, and then press USB tethering.

**To share your phone’s data connection as a portable Wi-Fi hotspot**

Your phone will become a Wi-Fi hotspot when you turn it on by selecting the “Tethering\Wi-Fi hotspot\Switch\On” option.

Additionally, if you want to save power when there is no Wi-Fi client, you can select “Tethering\Wi-Fi hotspot\Switch\On\Auto turn off\On”.

**To rename or secure your portable hotspot**

When Portable Wi-Fi hotspot is activated, you can change the name of your phone’s Wi-Fi network (SSID) and secure its Wi-Fi network by using a password.

Access this feature by selecting the “Tethering\Wi-Fi hotspot\Switch\On” to set or rename the SSID and when you activate the Wi-Fi hotspot, please enter a password to secure your portable hotspot.
20 Others ..............................................

20.1 Calendar .........................................................

Once you enter this menu from the main menu, there is a monthly-view calendar for you to keep track of important meetings, appointments, etc. Days with events entered will be marked in color.

Available options:

- View: See today’s appointments.
- View all: See all the created appointments.
- Add event: Create "New voice alarm" and "Add ToDoList".
- Jump to date: Input the required date and it will be immediately highlighted.
- Go to today: Focus on today’s date.
- Settings: Set the first day of the week and the first week of the year.

20.2 Calculator .........................................................

Access this feature by selecting "Calculator" from the main menu. Enter a number, select the type of operation to be performed using the navigation keys, and enter the second number, then select "=" to display the result.

Once an operation is complete, you can select "Clear" to clear numbers and carry out a new operation.

To return to the main menu, select "Back".

To return to the Home screen, press the ___ key.

20.3 Notes .............................................................

You can create a note in text format by accessing "Notes" from the main menu.

Available options:

- Create text note: Add new text note.
- Delete: Delete note.
- Edit: Edit note.
20.4 Recorder
Accessing "Recorder" from the main menu allows you to make voice or sound recordings.

Available options:
- **New record**: Create new record.
- **Play**: Play the record.
- **Rename**: Rename a recorded file.
- **Delete**: Delete the selected voice/sound recording.
- **List**: List the recorded file.
- **Settings**: Set the record file.
- **Set as**: Set the record file as Incoming Call, Message, etc.
- **Send**: Send by MMS, Email or Bluetooth.

20.5 Tasks
Enables you to easily manage and track the progress of a task with priorities. All the tasks will be sorted by due date.

Available options:
- **View**: View current task
- **Create**: Add new task
- **Delete**: Delete the current task
- **Mark as done/Mark as not done**: Change task’s status

20.6 Alarm
Your mobile phone has a built-in alarm clock with a snooze feature. You can set up to seven separate alarms and choose whether or not the alarm should repeat.

- **Repeat**: You may select **Once** (default)/**Everyday/Work day** or **Custom** to your desire.
- **Snooze**: The alarm will repeat at regular intervals.
- **Alert type**: You may select the mode of Ringtone: **Ring only**, **Vibration only**, **Silence, Vib. and ring**.
- **Alarm beep**: You may choose one tone or FM radio as the alarm ringtone.

20.7 World clock
The World clock shows current local time and the time zone in different cities. You may view up to 3 cities at one time.

20.8 Converter
You can use the Weight and Length conversion by selecting the unit you wish to convert, then press to input the digits. Finally confirm with "OK".
21 Settings

From the main menu, select the menu icon and select the function of your choice in order to customise your telephone.

21.1 Phone settings

21.1.1 Time and date
Allows you to have settings of home city, date and time, including 12/24h format.
You can also set the daylight saving adjustment and activate auto update if needed.

21.1.2 Display
Wallpaper
The wallpaper is displayed when you switch on your telephone.
By selecting "Wallpaper" you can customise it by replacing the default image or animation displayed on your telephone.

Power On/Off
You can customise your welcome animation or image that appears when you switch on your phone.
You can also customise your ON/OFF screen with an image or animation.

Brightness
You may adjust black level with respect to LCD display by using the navigation key.

21.1.3 Languages (1)
Display language for messages. The "Auto" option selects the language according to the home network (if available).

21.1.4 Fake call
This program enables you to call yourself by simulating a caller number/name, ringtone, contact photo at a scheduled time. It helps you to politely escape from social situations at any time you wish.

21.1.5 Headset mode
Switch audio play (incoming call, message beep, alarm beep...) between Headset only and Phone and headset.

21.1.6 Keypad
Navigation keys
These keys have predefined functions, which vary from one model to another (operator services, games access, or Games & Applications...). You can customise (2) them, assigning the functions, numbers from contacts and URL you wish to each key.

Combined Fn keys
By pressing Fn key and other keys, you can access some function accordingly. Followings are default combinations:

Backlight
• Screen Allows you to reduce brightness for enhanced battery performance and to save power during periods of expected inactivity.

(1) Contact your network operator to check service availability.
(2) Depending on your network operator.
Numeric keys
By customising your keys, you can access any function directly from the Home screen.

21.1.7 Auto keylock
Set specific time for phone’s auto lock.

21.1.8 Input mode (1)
Please see chapter "Latin input mode", page 86. In addition to the specific characters table for Cyrillic, Chinese, other data input modes are also available in your telephone. This feature allows you to write short messages and add names with special characters to your contacts.

21.1.9 Default browser setting
With this option, you can select either Wap or Web as the default browser.

21.1.10 Widget bar
From Widget bar, you can quickly access the features that you use the most. When activated, pressing left/right to access application shortcuts one by one, and pressing up/down to access a list of available actions of the selected applications. You can choose to display, hide or edit the widget bar (see page 25).

21.2 Call settings
See page 42.

21.3 Security

Activate PIN
The SIM card protection code is requested each time the phone is powered on.

Change PIN
Change PIN code.

Change PIN2
A protection code for certain SIM card features (Billing/Cost/FDN, etc.) will be requested if you attempt to access it, if the code is activated. Select to update it with a new one (between 4 and 8 digits).

Activate password
It is requested each time the phone is powered on.

Change password
Change phone password, its initial one is 1234.

Fixed dialed number
Allows the phone to be "locked" so that it can only dial certain numbers, or numbers with certain prefixes. To activate this function, PIN2 code is mandatory.

(1) Depending on the language.
22 Making the most of your mobile

22.1 PC suite

You can download PC Suite for free from the website (www.alcatelonetouch.com). The PC suite includes:

• **Backup/restore**
  You can backup the important data in your mobile and restore them when needed.

• **GPRS modem**
  Use your mobile phone to connect PC to the internet.

• **Multimedia Personalization**
  Customize your mobile with images, animations and melodies.

• **Messages**
  You can compose SMS/MMS easily on your PC and transfer them to your phone.

**Supported Operating Systems**
Windows XP/Vista/Windows 7.

21.4 Network

21.4.1 Network selection

**Preferred network**
- List of networks to which you wish to be connected in order of priority.

**Select network**
- The choice of network connection is left up to the user.

**Search mode**
- Network connection can be switched between "Manual" and "Auto".

21.4.2 GPRS connection

**When needed**
- GPRS mode active depending on connection requirements.

**Always**
- GPRS mode continuously active.

21.4.3 GPRS international roaming

GPRS data services can be used while roaming overseas.

21.5 Connectivity

A set of profile settings for messaging (MMS, Email...) and Web connection.

---

(1) Depending on network availability.
22.2 ONE TOUCH Upgrade

Using ONE TOUCH Upgrade tool you can update your phone’s software from your PC.

Download ONE TOUCH Upgrade from ALCATEL ONE TOUCH website (www.alcatelonetouch.com) and install it on your PC. Launch the tool and update your phone by following the step by step instructions (refer to the User Guide provided together with the tool).

Your phone’s software will now have the latest software.

All personal information will be permanently lost following the update process. We recommend you backup your personal data using PC Suite before upgrading.

Supported Operating Systems
Windows XP/Vista/Windows 7.

22.3 Webcam (1)

You can use your phone as a webcam for instant messaging on your PC.
- Connect your phone to PC via USB cable.
- Go to “My computer” folder on your PC and find USB video device (Under Scanners & Cameras).

23 Latin input mode ............

There are two text entry methods that can be used to write messages:

- Normal: this mode allows you to type a text by choosing a letter or a sequence of characters.
- CooTek mode: this mode can perform predictive input in hardware keypad and supports multi-language input.

Keypad inputting:

- Press to input capitalized characters
- Press once: Input a top-half character
- Press twice: Lock the keyboard in top-half key input mode
- Press and hold: Input top-half characters only until key is released
- Press: Delete one by one
- Press and hold: Delete all
- Press: Enter a space
- Confirm an option
- Press and hold: Access language list
- Press: Confirm an option
- Enter the next line
- Hold down Fn key, then press SYM key to enter symbol table

(1) The using of webcam may vary according to the operating system of your PC.
Telephone warranty ........

Your phone is warranted against any defect or malfunctioning which may occur in conditions of normal use during the warranty period of twelve (12) months (1) from the date of purchase as shown on your original invoice.

Batteries (2) and accessories sold with your phone are also warranted against any defect which may occur during the first six (6) months (1) from the date of purchase as shown on your original invoice.

In case of any defect of your phone which prevents you from normal use thereof, you must immediately inform your vendor and present your phone with your proof of purchase.

If the defect is confirmed, your phone or part thereof will be either replaced or repaired, as appropriate. Repaired Phone and accessories are entitled to a one (1) month warranty for the same defect. Repair or replacement may be carried out using reconditioned components offering equivalent functionality.

This warranty covers the cost of parts and labor but excludes any other costs.

This warranty shall not apply to defects to your phone and/or accessory due to (without any limitation):
1) Non-compliance with the instructions for use or installation, or with technical and safety standards applicable in the geographical area where your phone is used,
2) Connection to any equipment not supplied or not recommended by TCT Mobile Limited,
3) Modification or repair performed by individuals not authorised by TCT Mobile Limited or its affiliates or your vendor,
4) Inclement weather, lightning, fire, humidity, infiltration of liquids or foods, chemical phones, download of files, crash, high voltage, corrosion, oxidation...

Your phone will not be repaired in case labels or serial numbers (IMEI) have been removed or altered.

There are no express warranties, whether written, oral or implied, other than this printed limited warranty or the mandatory warranty provided by your country or jurisdiction.

In no event shall TCT Mobile Limited or any of its affiliates be liable for indirect, incidental or consequential damages of any nature whatsoever, including but not limited commercial or financial loss or damage, loss of data or loss of image to the full extent those damages can be disclaimed by law.

Some countries/states do not allow the exclusion or limitation of indirect, incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

(1) The warranty period may vary depending on your country.
(2) The life of a rechargeable mobile phone battery in terms of conversation time standby time, and total service life, will depend on the conditions of use and network configuration. Batteries being considered expendable supplies, the specifications state that you should obtain optimal performance for your phone during the first six months after purchase and for approximately 200 more recharges.
25 Accessories (1) .....................

The latest generation of ALCATEL ONE TOUCH GSM mobile phones offers a built-in handsfree feature that allows you to use the telephone from a distance, placed on a table for example. For those who prefer to keep their conversations confidential, an earpiece is also available known as the headset.

Battery
USB cable
Stereo headset

Only use your telephone with ALCATEL ONE TOUCH batteries, chargers and accessories in your box.

26 Troubleshooting......................

Before contacting the service centre, you are advised to follow the instructions below:

• You are advised to fully charge (•) the battery for optimal operation.
• Avoid storing large amounts of data in your phone as this may affect its performance.
• Use User Data Format and the ONE TOUCH Upgrade tool to perform phone formatting or software upgrading, (to reset User Data format, hold down # while simultaneously pressing the power on/off key). ALL User phone data: contacts, photos, messages and files, downloaded applications like Java games will be lost permanently. It is strongly advised to fully backup the phone data and profile via PC suite before doing formatting and upgrading.

and carry out the following checks:

My phone is frozen or cannot switch on
• Check the battery contacts, remove and reinstall your battery, then turn your phone on
• Check the battery power level, charge for at least 20 minutes
• If it still does not work, please use User Data Format to reset the phone or One Touch Upgrade to upgrade software

My phone has not responded for several minutes
• Restart your phone by pressing and holding the key
• Remove the battery and re-insert it, then restart the phone
• If it still does not work, please use User Data Format to reset the phone or One Touch Upgrade to upgrade software

My phone turns off itself
• Check whether your phone is locked when not in use, and make sure you don’t accidentally turn off your phone when locking it by pressing the power key.
• Check the battery charge level
• If it still does not work, please use User Data Format to reset the phone or One Touch Upgrade to upgrade software

(1) Images for reference only.
My phone cannot charge properly
- Make sure you are using an ALCATEL ONE TOUCH battery and the charger from the box
- Make sure your battery is inserted properly and clean the battery contact if it’s dirty. It must be inserted before plugging in the charger
- Make sure that your battery is not completely discharged; if the battery power is empty for a long time, it may take around 20 minutes to display the battery charger indicator on the screen.
- Make sure charging is carried out under normal conditions (0°C to +40°C)
- When abroad, check that the voltage input is compatible

My phone cannot connect to a network or “No service” is displayed
- Try connecting in another location
- Verify the network coverage with your operator
- Check with your operator that your SIM card is valid
- Try selecting the available network(s) manually (see page 83)
- Try connecting at a later time if the network is overloaded

My phone cannot connect to the Internet
- Check that the IMEI number (press *#06#) is the same as the one printed on your warranty card or box
- Make sure that the internet access service of your SIM card is available.
- Check your phone’s Internet connecting settings
- Make sure you are in a place with network coverage
- Try connecting at a later time or another location

Invalid SIM card
- Make sure the SIM card has been correctly inserted (see page 16)
- Make sure the chip on your SIM card is not damaged or scratched
- Make sure the service of your SIM card is available

Unable to make outgoing calls
- Make sure you have dialed a valid number and press the send key
- For international calls, check the country and area codes
- Make sure your phone is connected to a network, and the network is not overloaded or unavailable
- Check your subscription status with your operator (credit, SIM card valid, etc.)
- Make sure you have not barred outgoing calls (see page 43)
- Make sure that your phone is not in flight mode

Unable to receive incoming calls
- Make sure your phone is switched on and connected to a network (check for overloaded or unavailable network)
- Check your subscription status with your operator (credit, SIM card valid, etc.)
- Make sure you have not forwarded incoming calls (see page 42)
- Make sure that you have not barred certain calls
- Make sure that your phone is not in flight mode

The caller’s name/number does not appear when a call is received
- Check that you have subscribed to this service with your operator
- Your caller has concealed his/her name or number

I cannot find my contacts
- Make sure your SIM card is not broken
- Make sure your SIM card is inserted properly
- Import all contacts stored in SIM card to phone

The sound quality of the calls is poor
- You can adjust the volume during a call by pressing the navigation key
- Check the network strength
- Make sure that the receiver, connector or speaker on your phone is clean

I am unable to use the features described in the manual
- Check with your operator to make sure that your subscription includes this service
- Make sure this feature does not require an ALCATEL ONE TOUCH accessory

When I select a number from my contacts, the number cannot be dialed
- Make sure that you have correctly recorded the number in your file
- Make sure that you have selected the country prefix when calling a foreign country

I am unable to add a contact in my contacts
- Make sure your SIM card contacts are not full; delete some files or save the files in the phone contacts (i.e. your professional or personal directories)

My callers are unable to leave messages on my voicemail
- Contact your network operator to check service availability
I cannot access my voicemail
• Make sure your operator’s voicemail number is correctly entered in "My numbers"
• Try later if the network is busy

I am unable to send and receive MMS
• Check your phone memory availability as it might be full
• Contact your network operator to check service availability and check MMS parameters (see page 33)
• Verify the server centre number or your MMS profile with your operator
• The server centre may be swamped, try again later

The flickering icon is displayed on my standby screen
• You have saved too many short messages on your SIM card; delete some of them or archive them in the phone memory

SIM card PIN locked
• Contact your network operator to obtain the PUK code (Personal Unblocking Key)

I am unable to connect my phone to my computer
• Install ALCATEL ONE TOUCH PC suite first of all
• Check that your computer meets the requirements for ALCATEL ONE TOUCH PC Suite installation
• Make sure that you’re using the right cable from the box

I am unable to download new files
• Make sure there is sufficient phone memory for your download
• Select the microSD card as the location to store downloaded files
• Check your subscription status with your operator

The phone cannot be detected by others via Bluetooth
• Make sure that Bluetooth is turned on and your phone is visible to other users (see page 71)
• Make sure that the two phones are within Bluetooth’s detection range

How to make your battery last longer
• Make sure you follow the complete charge time (minimum 3 hours)
• After a partial charge, the battery level indicator may not be exact. Wait for at least 20 minutes after removing the charger to obtain an exact indication
• Switch on the backlight upon request
• Extend the email auto-check interval for as long as possible
• Update news and weather information on manual demand, or increase their auto-check interval
• Exit background-running Java applications if they are not being used for a long time
• Deactivate Bluetooth when not in use
