We recommend that you read the chapter carefully before using your phone. The manufacturer disclaims any responsibility or liability for any errors or omissions that may appear in this manual or for any consequences arising from the use of the information contained herein.

Phone use and environment

Your mobile phone is designed to be used temporarily and not for a period of twelve (12) months from the date specified on your original invoice, subject to any other specific limitations that may be mentioned on the invoice, as well as to any applicable laws and regulations in force.

You are advised to follow the instructions below:

My mobile phone has a low level of autonomy

My mobile phone has a high level of autonomy

Troubleshooting

Before contacting the after-sales department, you are advised to follow the instructions below:

My mobile phone will not switch on

Do not use your phone to record audio or video environments (music concerts, religious ceremonies, political speeches, etc.). Such recordings can upset the equilibrium of your hearing system, leading to damage.

Privacy

Please note that your mobile phone is designed and manufactured with the utmost attention to the health and safety of all users. The highest tested SAR value for this mobile phone for use at the ear and at the body (in the head) is 0.002 W/kg (mean 1.0 g).

Service availability

You should therefore respect the laws and regulations in force in your country. You are advised to follow the instructions below:

Service availability/technical support

You are advised to verify that your network is not overloaded or unavailable:

My mobile phone has a battery which cannot be opened

You are advised to check your subscription status with your operator (credit, SIM card, Multimedia Services, Unblocking Key).

My mobile phone is not recognized by the computer

You are advised to make sure that you have correctly recorded the number in your file before using your telephone.

My mobile phone is not recognized by the network

You are advised to make sure you have correctly recorded the country prefix when calling a number from another country.

My mobile phone is not recognized by your computer

You are advised to check your computer's compatibility with your mobile phone:

My mobile phone is not recognized by the network

You are advised to contact your network operator to check service availability and ensure that this service is included in your subscription:

Protection against theft

You are advised to lock your mobile phone when not in use:

It is recommended that you always use a safety rein to keep your mobile phone secure, as well as to control the risk of the device being stolen:
