Note! All illustrations are for illustrative purposes only and may not accurately depict the actual device. The items supplied with your phone might vary depending on the software and accessories available in your region or offered by your service provider. You can obtain additional accessories from your local Doro dealer. The supplied accessories provide the best performance with your phone.

1. GET STARTED

SIM card, memory card and battery
1. Remove the battery cover.
   - Be careful not to damage your fingernails when you remove the battery cover. Do not bend or twist the battery cover excessively as it may be damaged.
2. Insert the SIM card.
   - Remove the battery if it is already installed. Locate the SIM card holder and gently slide the card in the holder. This device accepts mini SIM or 2FF SIM card.
3. Insert the SD card (optional).
   - Locate the SD card holder and gently slide the card in the holder. The device works with or without SD card installed. Compatible card type: microSD, microSDHC.
4. Replace the battery cover.
   - Replace the battery by sliding it into the battery compartment with the contacts facing upwards to the left. Replace the battery cover.

5. Charge the phone
   - CAUTION
   - Only use batteries, charger and accessories that have been approved for use with this particular model. Connecting other accessories may be dangerous and may invalidate the phone’s type approval and guarantee.
   - When the battery is running low, is displayed and a warning signal is heard.
   - Connect the mains adapter to the wall socket and to the charging socket.

2. GET TO KNOW YOUR PHONE

Turn the phone on and off
1. Press and hold the red button on the side of the phone to turn it on/off. Confirm with Yes to power off.
2. If the SIM card is valid but protected with a PIN code (Personal Identification Number) PIN is displayed. Enter the PIN code and press OK. Delete with Clear.
   - Note! If PIN and PUK codes were not provided with your SIM card, please contact your service provider.

Tip: It is recommended to remove the protective plastic film from the display to enhance the visibility.

Attempts: # shows the number of PIN attempts left. When no more attempts remain, PIN blocked is displayed. The SIM card must now be unlocked with the PUK code (Personal Unlocking Key).
1. Enter the PUK code and confirm with OK.
2. Enter a new PIN code and confirm with OK.
3. Re-enter the new PIN code and confirm with OK.

Start-up wizard
When starting the telephone for the first time, you can use the start-up wizard to set some basic settings.

Tip: You can run the start-up wizard later if you want.

Step-by-step instructions
The arrow ( ) indicates next action in step-by-step instructions. To confirm an action, press OK. To select an item, scroll or highlight the item using ( ) and then press OK.

Enter text
- Press a numerical key repeatedly until the desired digit is shown. Wait a few seconds before entering the next character.
- Press “enter” for a list of special characters. Select the desired character and press OK to enter it.
- Use ( ) to move the cursor within the text.
- Press ( ) to cycle upper case, lower case and numbers.
- Press and hold ( ) to change writing language.

Predictive text
In some languages you can use the Smart Predictive text ( ) input method which uses a dictionary to suggest words.
1. Press Menu ➔ Settings ➔ Messages ➔ Predictive text.
2. Select On to enable, or Off to disable.
3. Press OK to confirm.

Change language, time and date
The default language is determined by the SIM card.

3. CALLS

Make a call
1. Enter the phone number including the area code. Delete with Clear.
2. Press ( ( ) to dial. Press Abort to cancel the call.
3. Press ( ( ) to end the call.
   - Note! For international calls, always use + before the country code for best operation. Press ( ( ) twice for the international prefix.

Call from the phonebook
Want to open phonebook.
1. Use ( ) to scroll through the phonebook, or quick search by pressing the key corresponding to the first letter of the name.
2. Press Options ➔ Call, alternatively, press ( ( ) to dial the selected entry, or press Back to return to standby.

4. PHONEBOOK

The phonebook can store 300 entries with 3 phone numbers in each entry.

Add contact
1. Press Menu ➔ Phonebook ➔ New contact ➔ Add.
2. Enter a Name for the contact, see Enter Name. Delete with Clear.
3. Use the Home or Office, and enter the phone number(s) including the area code.
4. When done, press Save.

Make an assistance call
1. When help is needed, press and hold the assistance button for 3 seconds, or press it twice within 1 second. The assistance call begins after a delay of 5 seconds. In this time you can prevent a possible false alarm by pressing ( ( )
   - An assistance text message (SMS) is sent to all recipients. The first recipient in the list is dialed. If the call is not answered within 25 seconds, the next number is dialed. Dialling is repeated 3 times or until the call is answered, or until ( ( ) is pressed.

Call log
Received, missed, and dialled calls are saved in a combined call log. 20 calls of each type can be stored in the log. For multiple calls related to the same number, only the most recent call is saved.
1. Press ( ( )
2. Use ( ) to scroll through the call log.
   - ( ( ) ➔ Received call
   - ( ( ) ➔ Dialed call
   - ( ( ) ➔ Missed call
   - ( ( ) ➔ To dial, or Options.

ICE calls
As long as the phone is switched on, it is always possible to place an ICE call by entering the main local emergency number for your present location followed by ( ( ).

ICE (In Case of Emergency)
In the event of a trauma, it is critical to have this information as early as possible to increase the chances of survival. Add ICE contact to improve your own safety. First responders can access additional information such as medication and next of kin from your phone in case of an emergency. All fields are optional but the more information provided the better.
1. Press Menu ➔ Phonebook ➔ ICE.
2. Use ( ) to scroll the list of entries.
3. Press ( ( ) to add or edit information in each entry. Delete with Clear.
4. Press Save when done.

Settings
- Press Menu ➔ Settings ➔ Assistance.

5. ASSISTANCE BUTTON

The assistance button provides you quick and easy access to your preset help numbers should you need help. Make sure that the assistance function is activated before use. See the full manual on how to activate, how to enter recipients in the numbers list, and how to edit the text message.

Create and send picture messages
Both you and the recipient must have subscriptions that support picture messages. The settings for picture message are supplied by your service provider and can be sent to you automatically via text message.

1. Press shortcut button [8], or Menu ➔ Messages ➔ Create new ➔ SMS.
2. Write your message, see Enter text, then press To.
3. Send a recipient from Phonebook. Alternatively, select Enter number to add recipient manually and press Done.
4. Select Add to add more recipients. You can modify the recipients by selecting one and press Options ➔ Edit/Delete/ Delete all.
5. When done, press Send.

6. MESSAGES

1. Press shortcut button [9], or Menu ➔ Messages ➔ Create new ➔ MMS.
2. Write your message, see Enter text, then press To.
3. Send a recipient from Phonebook. Alternatively, select Enter number to add recipient manually and press Done.
4. Select Add to add more recipients. You can modify the recipients by selecting one and press Options ➔ Edit/Delete/ Delete all.
5. When done, press Send.

**12. SAFETY INSTRUCTIONS**

**WARNING**

- **Important:** Mobile phones use radio signals, the mobile phone network, the terrestrial network and user-programmed functions. These tools that contain chemicals are guaranteed in all circumstances. Therefore, never rely on a mobile phone for very important calls such as medical emergencies.

**Vehicles**

Radio signals can affect electronic systems in motor vehicles (for example, electronic fuel injection, ABS brakes, automatic cruise control, air bag systems) that have been incorrectly installed or are inadequately protected. Contact the manufacturer or the representative for more information about your vehicle or any additional equipment.

- **Do not keep or transport flammable liquids, gases or explosives together with the unit or its battery.**

- **For vehicles equipped with air bags:** Remember that an air bag inflating air with considerable force. Do not place objects in the area above the airbag where it might expand. Serious injuries or death may be caused if the mobile phone equipment is incorrectly installed and the airbag inflates with the phone still in it.

- **It is prohibited to use the unit in flight.** Turn off the unit before you board an aircraft. Using wireless equipment, your phone, a portable device, or any other electronic device can pose risks to air safety and interfere with telecommunications.

**Emergency calls**

- **Important:** Mobile phones use radio signals, the mobile phone network, the terrestrial network and user-programmed functions. These tools that contain chemicals are guaranteed in all circumstances. Therefore, never rely on a mobile phone for very important calls such as medical emergencies.

**13. CARE AND MAINTENANCE**

- **Important:** Mobile phones use radio signals, the mobile phone network, the terrestrial network and user-programmed functions. These tools that contain chemicals are guaranteed in all circumstances. Therefore, never rely on a mobile phone for very important calls such as medical emergencies.

**WARNING**

- **Important:** Mobile phones use radio signals, the mobile phone network, the terrestrial network and user-programmed functions. These tools that contain chemicals are guaranteed in all circumstances. Therefore, never rely on a mobile phone for very important calls such as medical emergencies.

- **14. WARRANTY**

This product is guaranteed for a period of 12 months from the date of purchase. In the unlikely event of a fault occurring during this period, please contact the place of purchase. Proof of purchase is required for any service or support needed during the guarantee period.

This guarantee will not apply to a fault caused by an accident or a similar incident or damage, liquid ingestion, negligence, abnormal usage, non-maintenance or any other circumstances on the user's part. Furthermore, this guarantee will not apply to any fault caused by a thunderstorm or any other voltage fluctuations. As a matter of precaution, we recommend disconnecting the charger during a thunderstorm.

Before returning the unit to the place of purchase, please read carefully all the guarantees. This guarantee does not apply if batteries other than DORO original batteries are used.

**Hearing aid**

This device should work with most hearing aid equipment in the market. However, full compatibility with all equipment cannot be promised.

**Specific Absorption Rate (SAR)**

This device meets applicable international safety requirements for exposure to radio waves. The highest SAR value phones, can interfere with heart pacemakers, if it is not used at a distance of 15 cm (6 in). The SAR value for the product is 0.004 W/kg measured over 10 g tissue. The SAR value of smartphone is 2.0 W/kg measured over 10 g tissue.

**Declaration of Conformity**

Doro hereby declares that Doro PhoneEasy® 609 conforms to the greatest care. Negligence may void the warranty.

- **Protect the unit from moisture.** Rain/snow/water, moisture and all types of liquid can contain substances that corrode the electronic circuits. If the unit gets wet, unplug the battery and allow the unit to dry completely before you use it.
- **Do not use or keep the unit in dusty, dirty environments.** Your mobile phone has a dustproof/waterproof design. However, do not use the unit in warm places. High temperatures can reduce the lifespan for electronic equipment, damage batteries and distort or melt certain plastics.
- **Do not keep the unit in cold places.** When the unit warms up to normal temperature, condensation can form on the inside of the unit.
- **Do not open the unit.** Do not open the unit in any other way than that which is indicated in the user manual.
- **Do not put the unit in water.** Do not expose the unit to rain or water. If it is exposed, make the unit dry in a cool, dry place.
- **Do not drop or knock the unit.** If it is dropped, slightly the outside and precision mechanism can be broken.
- **Do not use strong chemicals to clean the unit.**
- **Do not touch the camera and other accessories.** If the phone is not working as it should please contact the place of purchase or service provider. Don't forget the receipt or a copy of the invoice.
