Installation

IMPORTANT!
Turn off the phone and disconnect the charger before removing the battery cover.

Install the SIM card, memory card and the battery
The SIM and memory card holder’s are located inside the battery compartment.

1. Remove the battery cover and the battery if it is already installed.
2. Optional: Insert the memory card into the slot under the SIM card holder. Make sure that the memory card contacts are facing upwards and push the card in, until you hear a click. Take care not to scratch or bend the contacts on the card. To remove or replace the card, push the card in until you hear a click and then pull the card out.
3. Insert the SIM card by gently sliding it into the holder. Make sure that the SIM card’s contacts are facing down and that the cut off corner is pointing out. Take care not to scratch or bend the contacts on the SIM card.
4. Insert the battery by sliding it into the battery compartment with the contacts facing downwards to the right.
5. Replace the battery cover.
**IMPORTANT!**

Use only compatible memory cards with this device. Compatible card type: **microSD, microSDHC**. Incompatible cards may damage the card itself, the device and corrupt any data stored on the card. Depending on the market some phones may have a pre-installed memory card.

---

**Charging**

---

**CAUTION**

Only use batteries, chargers and accessories that have been approved for use with this particular model. Connecting other accessories may be dangerous and may invalidate the phone's type approval and guarantee.

When the battery is running low, 🌋 is displayed and a warning signal is heard. To charge the battery, connect the mains adapter to a wall socket and to the charging socket ⚪️.

When the charger is connected to the phone, 🔋 is displayed briefly, and 💓 when it is disconnected. The battery charge indicator will be animated while charging. It takes approximately 3 hours to fully charge the battery.

When charging is completed, 🌋 is displayed on the screen. If the phone is turned off when the charger is connected to the phone only the battery charge indicator will be shown on the display.

**Note!** To save power the LCD backlight goes off after a while. Press any button to illuminate the display. Full battery capacity will not be reached until the battery has been charged 3–4 times. Batteries degrade over time, which means that call time and standby time will normally decrease with regular use.

**Save energy**

When you have fully charged the battery and disconnected the charger from the device, unplug the charger from the wall outlet.
Get to know your phone

Assistive functions
The following symbols indicate information in the manual about assistive functions for:

<table>
<thead>
<tr>
<th>Seeing</th>
<th>Handling</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hearing</td>
<td>Safety</td>
</tr>
</tbody>
</table>

Turn the phone on and off
Press and hold the red button on the phone to turn it on/off. Confirm with Yes to power off.

If the SIM card is valid but protected with a PIN code (Personal Identification Number), PIN is displayed.

- Enter the PIN code and press OK ( upper left corner of keypad). Delete with Clear ( upper right corner of keypad).

Note! If PIN and PUK codes were not provided with your SIM card, please contact your service provider.

Attempts: # shows the number of PIN attempts left. When no more attempts remain, PIN blocked is displayed. The SIM card must now be unlocked with the PUK code (Personal Unblocking Key).

1. Enter the PUK code and confirm with OK.
2. Enter a new PIN code and confirm with OK.
3. Re-enter new PIN code and confirm with OK.

Start-up wizard
When starting the phone for the first time, you can use the Start-up wizard to set some basic settings.

- Press Yes to change or No if you do not want to change.

The default language is determined by the SIM card. See General, p.22 on how to change language, time and date.

Tip: You can run the Start-up wizard later if you want, see Start-up wizard, p.23.
Change the language, time and date
The default language is determined by the SIM card. See General, p.22 on how to change language, time and date.

Phone indicators
Lights on the phone will:

• Flash green when you have a new message or a missed call. After reading the new message/missed call, the flashing will stop.
• Flash red when the battery is running low and during charging.

External display
The external display shows the time, a number of status indicators, and notifications for incoming calls and events. The external display can only display characters in black and white. If the external display times out, press and hold any of the side keys +/− to turn it back on.

Navigate the phone

Standby (idle mode)
When the phone is ready to use, and you have not keyed in any characters, the phone is in standby.

• Press to return to standby mode.
• Press left selection button to access the phone Menu or right selection button Name to access your saved contacts in the phonebook.

Tip: You can always press to return to standby.

Scroll

• Use the arrow buttons ←/→ to scroll in menus.

Step-by-step instructions
The arrow (➡️) indicates next action in step-by-step instructions. To confirm an action, press OK. To select an item, scroll or highlight the item using ←/→ and then press OK.

Example:

• Press Menu ➡️ Phonebook ➡️ -New contact- ➡️ Add.
To perform the example on your Doro PhoneEasy® 624 you should do the following:

1. Press **Menu**, scroll to **Phonebook** and press **OK**.
2. Select **-New contact-** and press **Add**.

**Entering text**

**Entering text manually**

**Select character**

- Press a numerical key repeatedly until the desired character is shown. Wait a few seconds before entering the next character.

**Special characters**

1. Press **★** for a list of special characters.
2. Select the desired character with ↙/↖ and press **OK** to confirm.

**Move the cursor within text**

- Use the side keys +/− to move the cursor within the text.

**Upper case, lower case and numerals**

- Press **#** to choose between upper case, lower case and numerals. See **Input mode**, p.6.

**Change input language**

1. Press and hold **#** for a list of available languages.
2. Select language with ↙/↖ and press **OK** to confirm.

**Entering text with predictive text**

In some languages you can use the Smart ABC (eZiType™) input method which uses a dictionary to suggest words. See **Predictive text**, p.34 on how to activate predictive text.

Press each key **once**, even if the displayed character is not the one you want. The dictionary will suggest words based on the keys you have pressed. Example, to write the word “**Fred**”:

1. Press **3, 7, 3, 3**. Complete the word before looking at the suggestions.
2. Use ↙/↖ to view the suggested words.
3. Press **Select** and continue with the next word.

Alternatively, press **0** to continue with the next word.
If none of the suggested words are correct, use manual input mode.

**Input mode**
Press # to change input mode. The icon on the top left of the display indicates the input mode.

**Doro Experience® & Doro Experience® Manager**
The web-based Doro Experience Manager® ([www.doroexperience.com](http://www.doroexperience.com)) enables you to remotely manage a Doro Experience® phone from anywhere in the world.

- Remotely manage reminders and important calendar events, contacts and much more.
- Take advantage of cloud-based backup and photo sharing capabilities.

See [Doro Experience®, p.28](#) for more information and how to get started.

**Note!** You need to have Internet access to use most of the features in Doro Experience®. Depending on how you use your phone, it can use up a lot of Internet bandwidth really quickly. Before you use your phone, we strongly recommend that you contact your mobile operator about data rates. Using data services while roaming can be costly. Check with your mobile operator for data roaming rates before you use data roaming.

Call functions

Make a call
1. Enter the phone number including the area code. Delete with Clear.
2. Press \( \rightarrow \) to dial. Press Abort to cancel dialling.
3. Press \( \rightarrow \) to end the call.

Tip: For international calls, always use + before the country code for best operation. Press \( * \) twice for the international prefix +.

Call from the phonebook
1. Press Name to open the phonebook.
2. Use \( \uparrow / \downarrow \) to scroll through the phonebook, or quick search by pressing the key corresponding to the first letter of the entry, see Entering text \( \rightarrow \), p.5.
3. Press Call to dial the selected entry, or press Back to return to standby.

Receive a call
To answer an incoming call when the flip is closed, open the flip.

To answer an incoming call when you have set Open to answer to Off, see Answer mode, p.32.

1. Open the flip and press \( \rightarrow \) to answer. Alternatively press Silent to switch off the ringsignal or press \( \rightarrow \) /close the flip to reject the call directly (busy signal).
2. Press \( \rightarrow \) to end the call.

Tip: Press and hold \( +/− \) to temporarily switch off the ringsignal without opening the flip.

Volume control
Use the side buttons \( +/− \) to adjust the sound volume during a call. The volume level is indicated on the display. If you use a hearing aid or have hearing difficulties when using the telephone in a noisy environment, you can customise the phone's audio settings, see Audio setup \( \rightarrow \), p.25.

Hearing aid compatible
This telephone is hearing aid compatible. Hearing-aid compatibility is not a guarantee that a specific hearing aid will work with a specific telephone.
Mobile telephones contain radio transmitters that may interfere with hearing aid performance. This phone has been tested for use with hearing aids, for some of the wireless technologies that it uses, but there may be some newer wireless technologies that have not been tested yet for use with hearing aids. To ensure that a specific hearing aid works well with this telephone, test them together before making a purchase.

The standard for hearing aid compatibility contains two types of ratings:

- **M:** To use your hearing aid in this mode, make sure that your hearing aid is set to "M-mode" or acoustic coupling mode, and position the telephones receiver near the hearing aid’s built-in microphone. For the best results, try using the telephone in different positions relative to your hearing aid—for example, placing the receiver slightly above the ear may result in better performance for hearing aids with microphones positioned behind the ear.

- **T:** To use your hearing aid in this mode, make sure that your hearing aid is set to "T-mode" or telecoil coupling mode (not all hearing aids have this mode). For the best results, try using the telephone in different positions relative to your hearing aid—for example, placing the receiver slightly below or in front of the ear may result in better performance.

See also Audio setup®, p.25 on how you can adjust the telephones audio settings.

**Call options**
During a call the selection buttons¹ (≡) give access to additional functions.

**Options (left selection button)**

- **Hold single call/Retrieve single** to hold/retrieve the current call.
- **End single call** to end the current call (same as 📞).
- **New call** to call another number (Conference).
- **Phonebook** to search the phonebook.
- **Messages** to write or read text messages.
- **Mute** to disable the microphone.

---

¹ Selection buttons have multiple functions. The current key function is shown above the selection button on the display.
SPK on (right selection button)
The loudspeaker allows you to speak without holding the phone closely to the ear.

- **SPK on** to activate and speak clearly into the phone microphone at a maximum distance of 1 m. Use the side keys +/- to adjust the loudspeaker volume.
- **SPK off** to return to normal mode.

**Note!** Loud background noises (music, etc.) may interfere with the sound quality.

**Call waiting**
An alert tone is heard if there is an incoming call while talking.

To put the current call on hold and answer the incoming call:

- Press **Options ➔ Answer**.

**Tip:** Call waiting must be activated, see **Call setup, p.32**.

**Call information**
During a call, the outgoing or incoming phone number and the elapsed call time is displayed. If the identity of the caller is withheld, **Unknown** is displayed.

**Speed dial **
Use **A – B, 0** and **2 – 9** to speed dial an entry from standby.

- Press and hold the corresponding key. See **Speed dial **, p.31.

**Silent**
Silent is a fixed profile with Keypad tone, Message tone and Ringtone disabled, while Vibration, Tasks, Daily reminder and Alarm are unchanged.

- Press and hold shortcut button **#** to activate/deactivate Silent mode.

**Headset**
When a headset is connected, the internal microphone in the phone is automatically disconnected. If available, use the answer key on the headset to answer and end calls.
CAUTION
Using a headset at high volume may damage your hearing. Adjust the volume level carefully when using a headset.

SOS calls
As long as the phone is switched on, it is always possible to place an SOS call by entering the main local emergency number for your present location followed by 📞.

Some networks accept calls to emergency numbers without a valid SIM card. Contact your service provider for more information.

Assistance button +

IMPORTANT!
Always inform recipients in the Number list that they are listed as your assistance contacts.

CAUTION
When an assistance call is activated the phone is pre-set to handsfree/speakerphone mode. Do not hold the device near your ear when the handsfree mode is in use, because the volume may be extremely loud.

The assistance button allows easy access to contact your predefined help numbers (Number list) should you need help. The assistance function may need to be activated before use. See Assistance +, p.39 on how to activate as described or with 3 button presses, how to enter recipients in the numbers list and how to edit the text message.

- Press and hold the assistance button for 3 seconds, or press it twice within 1 second. The assistance call begins after a delay of 5 seconds. In this time you can prevent a possible false alarm by pressing 📞.
- An assistance text message (SMS) is sent to all recipients.
- The first recipient in the list is dialled. If the call is not answered within 25 seconds, the next number is dialled. Dialling is repeated 3 times or until the call is answered, or until 📞 is pressed.
- The assistance function may be configured so that the receiver of the call must press "0" (zero) to confirm, in order to stop the alarm sequence. If there is a risk that the assistance call will be answered
by a voicemail/answering service, please activate the function Confirm with "0". See Confirm with "0", p.40.

Note! Some private security companies can accept automatic calls from their clients. Always contact the security company before using their phone number.

**IMPORTANT!**

Information to the receiver of an assistance call, when Confirm with "0" is activated:

- After receiving the assistance message, each number in the Number list will be called sequentially.
- To confirm the assistance call, the receiver needs to press **0**.
- If the receiver doesn’t press **0** within 60 seconds (after answering) the call will be disconnected and the next number in the sequence will be called.
- If the receiver presses **0** within 60 seconds, the call is confirmed and no further call attempts will be made (assistance sequence interrupted).

**Phonebook**

The 👤 phonebook can store 500 entries with 3 phone numbers in each entry.

**Add contact**

1. Press **Menu ➔ Phonebook ➔ New contact- ➔ Add**.
2. Enter a 👤 **Name** for the contact, see Entering text 📝, p.5. Delete with Clear.
3. Use 🔽/🔹 to select 📱 Mobile, 🏡 Home or 📈 Office and enter the phone number(s) including the area code.
4. Select **Picture ➔ Edit** to associate a picture to the contact. This picture will be displayed when the corresponding contact is calling you and may also be visible in the phonebook, see Phonebook picture, p.25.
   - **Take picture** to use the camera to take a picture.
5. Press **Save**.

**Tip:** For international calls, always use + before the country code for best operation. Press ✎ twice for the international prefix +.

### Create ICE contact (In Case of Emergency) ✦

With additional information and medical information, first responders can access information from the victim's phone in case of emergency. In the event of a trauma, it is critical to have this information as early as possible which can increase the chances of survival. All fields are optional, but the more information provided the better. See ICE (In Case of Emergency) ✦, p.14 on how to configure your ICE information.

### Manage phonebook contacts

1. Press **Menu ➔ Phonebook**.
2. Select a contact, then press **Options**:
   - **View** to show details for the selected contact.
   - **Edit** to edit the contact. Use ↓/↑ to scroll. Delete with **Clear**. Press **Save** when done.
   - **Add** to add contact. See **Add contact**, p.12.
   - **Call** to call the contact.
   - **Top 10** to set the entry as one of the first 10 contacts listed in the phonebook. See **Top 10 ➔**, p.31.
   - **Send SMS** to create text message. See **Create and send text message (SMS)**, p.15.
   - **Send MMS** to create picture message, see **Create and send picture message (MMS)**, p.16.
   - **Delete** to delete the selected contact. Press **Yes** to confirm or **No** to abort.
   - **Delete all ➔ From SIM/From phone** to delete all phonebook contacts from the SIM card or phone memory. Enter the phone code and press **OK** to confirm. The default phone code is **1234**.
   - **Copy all ➔ From SIM** to copy all phonebook contacts from the SIM card to the phone memory. Press **Yes** to confirm or **No** to abort.
• **Copy all ➔ From phone** to copy all phonebook entries from the phone memory to the SIM card. Press **Yes** to confirm or **No** to abort.

• **Send vCard ➔ Send by SMS** to send the selected phonebook contact as a vCard via text message. Enter the phone number of the recipient. Alternatively use ←/→ to scroll through the phonebook, or quick search by pressing the key corresponding to the first letter of the entry, see **Entering text ➔**, p.5. Press **OK** to send.

• **Send vCard ➔ Send by MMS** to send the selected phonebook contact as a vCard via picture message. Write your message and press **Options** to Add subject or Add picture. Add recipients with **To** and **Send** when ready.

• **Send vCard ➔ Send by Bluetooth** to send the selected phonebook contact as a vCard via Bluetooth®. See **Bluetooth®, p.41**.

3. Press **OK** to confirm.

**Owner number**
The phone number assigned to your SIM card is saved as **Owner number** if this is allowed by the card.

To view/edit the number:

• Press **Menu ➔ Phonebook ➔ Owner number**.

**ICE (In Case of Emergency) ➔**
First responders can access additional information such as medical information from the victim's phone **ICE** in case of an emergency. In the event of a trauma, it is critical to have this information as early as possible to increase the chances of survival. All fields are optional, but the more information provided the better.

1. Press **Menu ➔ ICE**.
2. Use ←/→ to scroll the list of entries.
3. Press **Edit** to add or edit information in each entry, see **Entering text ➔**, p.5. Delete with **Clear**.

ID
• **Name:** enter your name.
• **Birth:** enter your date of birth.
• **Height:** enter your height.
• **Weight:** enter your weight.
• **Address** enter your home address.
• **Language:** enter your preferred language.
• **Insurance:** enter your insurance provider and policy number.

**Contact 1:, Contact 2: and Doctor:**

• Press **Options** to **Add** or **Delete** a contact from the phonebook, or **Save** to accept the current entry.

If possible, add your relationship to your ICE contacts in the phonebook, such as “ICE Wife Mary Smith”.

**Important info.**

• **Condition:** enter any medical conditions/medical devices (e.g. diabetic, pacemaker).
• **Allergies:** enter any known allergies (e.g. penicillin, bee stings).
• **Blood type:** enter your blood type.
• **Vaccination:** enter any relevant vaccination.
• **Medication:** enter any medication that you are treated with.
• **Other info:** enter other information (e.g. organ donor, living will, consent to treat).

4. Press **Save** when done.

---

**Messages**

You can create and send text messages (SMS), picture messages (MMS) and voice messages using the Messages menu.

**Create and send text message (SMS)**

**Note!** Before you can send any text messages, you need to save your message centre number. The number to your service centre is supplied by your service provider and is usually set on the SIM card. If not, you can enter the number yourself. See **SMS centre, p.35**.

1. Press shortcut button ( ). Alternatively press **Menu ➔ Messages**.
2. Select **Create new ➔ SMS.**

3. Write your message, see **Entering text ➔**, p.5, then press **To.**

4. Select a recipient from **Phonebook.**
   Alternatively, select **Enter number** to add a recipient manually and press **Done.**

5. Press **Add** to add more recipients.
   You can modify the recipients by selecting one, press **Options ➔** **Edit/Delete/Delete all.**

6. Press **Send** to send.

**Note!** If you choose to add multiple recipients, you will be charged for each recipient (maximum 10). For international calls, always use + before the country code for best operation. Press ✆ twice for the international prefix +.

**Create and send picture message (MMS)**

A picture message can contain text and media objects such as pictures, sound recordings and video. Both you and the recipient must have subscriptions that support picture messages. The settings for picture messages are supplied by your service provider and can be sent to you automatically via text message. If not, see **MMS settings, p.35** on how to set your MMS profile.

1. Press shortcut button (✉).
   Alternatively press **Menu ➔ Messages.**

2. Select **Create new ➔ MMS.**

3. Write your message, see **Entering text ➔**, p.5.

4. Press **Options ➔ Add picture:**
   - **My pictures** to select a file. The picture size must be less than 600kB.
   - **Take picture** to use the camera to take a picture.

   You can also **Add sound** and **Add video** using the **Options** menu.

5. Select **Add subject** and enter your subject, then press **Done.**

6. Select **To** and select recipient from **Phonebook.**
   Alternatively, select **Enter number** to add a recipient manually and press **Done.**

7. Press **Add** to add more recipients.
8. Press **Send** to send.

**Create and send a voice message**
A voice message uses the same technology as a picture message. Both you and the recipient must have subscriptions that support picture message. The settings for picture message are supplied by your service provider and can be sent to you automatically via text message. If not, see **MMS settings, p.35** on how to set your MMS profile.

1. Press shortcut button ( ). Alternatively press **Menu ➔ Messages**.
2. Select **Create new ➔ Voice message**.
3. Recording starts immediately. Press **Stop** when done and press **Yes** to save.
4. Select recipient from **Phonebook**. Alternatively, select **Enter number** to add a recipient manually and press **Done**.
5. Press **Add** to add more recipients
6. Press **Send** to send.

**Inbox, Outbox and Sent**

| ![folder] | Text message/Picture message unread |
| ![folder](✓) | Text message/Picture message sent |
| ![folder] | Text message/Picture message read |
| ![folder](✗) | Text message/Picture message unsent |

1. Press shortcut button ( ). Alternatively press **Menu ➔ Messages**.
2. Select **Inbox, Outbox or Sent**.
3. Select a message and press **Read**. Use ( ) to scroll up/down.
4. Press **Options**:
   - **View** (MMS only) to view the message.
   - **Call** to call the contact.
   - **Resend** to send again to the same receiver.
   - **Reply** to write your reply, then press **Send**. The message is sent immediately.
• **Delete** to delete. Press **Yes** to delete or **No** to return.
• **Download/Cancel download.** If the message is not downloaded yet, press **Download**.
• **Edit** to edit the message, then press **Send**.
• **Forward** to forward the message. Edit the message (if desired), then press **Send**.
• **Use number** to display all phone numbers contained in the message as well as the sender's number.
• **Use number ➔ Call** to call the selected number.
• **Use number ➔ Save** to save the number in the phonebook.
• **Use number ➔ Send SMS** to write a new text message.
• **Use number ➔ Send MMS** to write a new picture message.
• **Save objects** (MMS only) to save text and media objects such as pictures, sound recordings and video.
• **Details** (MMS only) to view details of the message.

5. Press **OK** to confirm.

---

**Call log**

Received, missed and dialled calls are saved in a combined 📞 call log. 20 calls of each type can be stored in the log. For multiple calls related to the same number, only the most recent call is saved.

**Retrieve and dial**

1. Press 📞.
   Alternatively, press **Menu ➔ Call log**.

2. Use ➙/➤ to select:
   ![Received call](received_call_icon)
   Received call
   ![Dialled call](dialled_call_icon)
   Dialled call
   ![Missed call](missed_call_icon)
   Missed call

3. Press **Options**:
   • **View** to show details for the selected call.
   • **Delete** to delete the call.
   • **Delete all** to delete all calls in the call log.
• **Save** to save the number in the phonebook.
4. Press **OK** to confirm.
5. Press **»** to dial.

## Camera

You can take 📸 photos, record 📹 videos and view your photos and videos using the 📹 Camera menu.

**Camera (take photos)**

To get sharp photos, wipe the lens clean with a dry cloth.

1. Press shortcut button 📸.
   Alternatively press **Menu ➔ Camera ➔ Camera**.
2. Press 📸 to take photo.
3. Press **Options:**
   • **Send ➔ Send by MMS** to send as picture message. See **Create and send picture message (MMS)**, p.16.
   • **Send ➔ Send by Bluetooth** to send to a Bluetooth device, see **Bluetooth®**, p.41.
   • **Delete** to delete. Press **Yes** to confirm or **No** to return.
   • **Use ➔ Wallpaper** to save as display background.
   • **Use ➔ Phonebook picture** to save as phonebook contact.
4. Press **Back** to take a new photo.
   If you do not make any selection the picture is saved.

**Camera adjustments**

• Use ←/→ to zoom in and out.
• Use the side buttons +/− to adjust EV/Light sensitivity.

**Note!** Zoom may reduce picture quality.

For more camera settings, see **Camera**, p.38.

**Video camera**

To get sharp videos, wipe the lens clean with a dry cloth.

1. Press **Menu ➔ Camera ➔ Video camera.**
2. Press \( \text{ } \) to start recording.
3. Press \( \text{ } \) to stop recording. Select Yes to save.
4. Press Options:
   - Play
   - Send ➔ Send by MMS to send as picture message. See Create and send picture message (MMS), p.16.
   - Send ➔ Send by Bluetooth to send to a Bluetooth device, see Bluetooth®, p.41.
   - Delete to delete. Press Yes to confirm or No to return.
5. Press Back to return.

**Video camera adjustments**
- Use ± to zoom in and out.
- Use the side buttons +/− to adjust EV/Light sensitivity.

**Note!** Zoom may reduce video quality.

For more video camera settings, see Camera, p.38.

**Picture gallery and Video gallery**

View your saved pictures 📸 or videos 🎥.

1. Press Menu ➔ Camera ➔ Picture gallery or Video gallery.
2. Use ± or the side buttons +/− to select a picture or video.
3. Press Options:
   - View for single view. Press Back to return. Use ± to play and stop the video (video only).
   - Send ➔ Send by MMS to send as picture message. See Create and send picture message (MMS), p.16.
   - Send ➔ Send by Bluetooth to send to a Bluetooth device, see Bluetooth®, p.41.
   - Delete to delete. Press Yes to confirm or No to return.
   - Use (picture only) ➔ Wallpaper to save as display background.
   - Use (picture only) ➔ Phonebook picture to save as phonebook contact.
   - Details to view detailed information about the file, e.g. date, size, copyright.
- **Rename** to rename picture.

4. Press **OK** to confirm.

---

**Connect the phone to a computer**

Connect the phone to a computer and start transferring pictures, music and other file types. All you have to do is connect a USB cable between the phone and computer. From your computer's file explorer, you can drag and drop content between your phone and the computer.

**Note!** You might not be able to transfer some copyright protected material.

**Drag and drop content between phone and a computer**

1. Connect your phone to a computer using a USB cable.
2. Wait until the phone/memory card appears as external disks in the file explorer.
3. Drag and drop selected files between the phone and the computer.

**Note!** When the phone/memory card is connected to the computer, the phone cannot access the memory card. Some functionality and applications in the phone, such as the camera, may not be accessible. You can transfer files using a USB cable on most devices and operating systems supporting a USB Mass Storage interface.

**Disconnect the USB cable safely**

1. Make sure to enable the hardware to be safely removed.
2. Disconnect the USB cable.
**Note!** Do not disconnect the USB cable when transferring content as this may corrupt the content. Computer instructions may vary depending on your operating system. See the documentation of your computer's operating system for more information.

**Settings**

Use the Settings menu to personalise your Doro PhoneEasy® 624.

**General**

**Time & date**

Set the time and date

1. Press **Menu ➔ Settings ➔ General**.
2. Select **Time & date**:
   - **Set time** to enter the time (HH:MM).
   - **Set date** to enter the date (DD/MM/YYYY).
3. Press **OK** to confirm.

Set the time/date format

1. Press **Menu ➔ Settings ➔ General ➔ Time & date**.
2. Select **Set format**:
   - Select **Time format** ➔ **12 hours/24 hours**.
   - Select **Date format** and select the desired date format.
3. Press **OK** to confirm.

Set auto time

To set the phone to automatically update the time and date according to the current time zone, select **On**. Automatic update of date and time does not change the time you have set for the alarm clock or the calendar. They are in local time. Updating may cause some alarms you have set to expire depending on network support and subscription.

1. Press **Menu ➔ Settings ➔ General ➔ Time & date**.
2. Select **Auto time ➔ On/Off** to enable/disable.
3. Press **OK** to confirm.
Language
The default language for the phone menus, messages etc. is determined by the SIM card. You can change this to any other language supported by the phone.

1. Press Menu ➔ Settings ➔ General ➔ Language.
2. Use ▲/▼ to select a language.
3. Press OK to confirm.

Start-up wizard
Use the Start-up wizard to set some basic settings.

1. Press Menu ➔ Settings ➔ General ➔ Start-up wizard.
2. Press Yes to change or No if you don’t want to change.

Block function ➔
You can disable functions to simplify the use of the phone.

1. Press Menu ➔ Settings ➔ General ➔ Block function.
2. Select each function you want to disable and press Off.
3. Press Done to confirm.

Network setup
Your phone automatically selects your (service providers) home network if this is within range. If not within range, you may use another network, provided your network operator has an agreement that allows you to do so. This is called roaming. Contact your service provider for more information.

1. Press Menu ➔ Settings ➔ General ➔ Network setup.
2. Select one of the following options and press OK to confirm:

Select network
• New search to perform a new search if connection is lost.
• Select network to view available network, a list of available network operators is displayed (after a short delay). Select desired operator.
• Network mode to select another network. Select Automatic to select network automatically or Manual to select network manually.

Service selection
Select the type of service for your phone.
• GSM service only
• 3G service only
• Automatic: switch between GSM and 3G for best service.

**IMPORTANT!**
If you set your phone to use GSM only or 3G only, you will not be able to make any calls, including emergency calls, or use other features requiring a network connection, if the selected network is unavailable.

**Network information**
View your current network settings.

**Services**
This menu may contain pre-programmed services from your network provider depending on network support and subscription.

- Press **Menu ➔ Settings ➔ General ➔ Services.**

**Torch**
Set the automatic switch off time for the built in torch. See Torch, p.51.

1. Press **Menu ➔ Settings ➔ General.**
2. Select **Torch:**
   - **1 min** to turn off automatically after 1 min.
   - **2 min** to turn off automatically after 2 min.
   - **No limit** to turn of manually.
3. Press **OK** to confirm.

**Note!** The torch will drain the battery very quickly. Remember to turn off the torch after use.

**Phonebook storage**

1. Press **Menu ➔ Settings ➔ General.**
2. Select **Phonebook storage:**
   - **SIM** to save 1 phone number per contact. Number and length of the phone numbers/contacts that can be stored will vary depending on SIM card/service provider preferences.
   - **Phone** to save 500 contacts with 3 phone numbers each Mobile, Home, Office or Phonebook picture.
3. Press **OK** to confirm.
Phonebook picture
You can change the phonebook view mode.

1. Press Menu ➔ Settings ➔ General.
2. Select Phonebook picture:
   • On to see the contacts associated picture.
   • Off to display only the names of contacts.
3. Press OK to confirm.

Sound

Note! Silent needs to be set to Off to access Tone setup, Volume, Alert type and Extra tone. See Silent, p.26.

Audio setup
If you use a hearing aid or have hearing difficulties when using the telephone in a noisy environment, you can customise the phones audio settings.

1. Press Menu ➔ Settings ➔ Sound.
2. Select Audio setup:
   • Normal for normal hearing in normal conditions.
   • Medium for mild hearing impairment or use in a noisy environment.
   • High for moderate hearing impairment or use in a very noisy environment.
   • HAC mode for use with hearing aid in the T position.
3. Press OK to confirm.

Tone setup

1. Press Menu ➔ Settings ➔ Sound.
2. Select Tone setup ➔ Ringtone.
3. Use ←/→ to select one of the available melodies, the melody will be played.
4. Press OK to confirm or Back to discard changes.
5. Set up the Alarm, Message tone, Opening tone, Closing tone, Keypad tone, Power on and Power off in the same way.
Ringtone volume

1. Press Menu ➔ Settings ➔ Sound ➔ Volume.
2. Use ‹/› to change the ringtone volume.
3. Press OK to confirm.

Silent

1. Press Menu ➔ Settings ➔ Sound.
2. Select Silent ➔ On/Off to enable/disable.
3. Press OK to confirm.

Tip: Press and hold shortcut button # to activate/deactivate Silent mode.

Alert type

Incoming calls can be signalled by a ringtone and/or vibration.

1. Press Menu ➔ Settings ➔ Sound.
2. Select Alert type:
   - Ring only for ringtone only.
   - Vib. only for vibration only.
   - Vib. and ring for vibration and ringtone.
   - Vib. then ring to start with vibration and adds ringtone after a short while.
   - Silent for no sound or vibration, the display light is lit.
3. Press OK to confirm.

Extra tone

Warning and error tones are used to alert you of low battery power, phone and SIM card errors etc.

1. Press Menu ➔ Settings ➔ Sound ➔ Extra tone.
2. Select Warning ➔ On/Off to enable/disable.
3. Select Error ➔ On/Off to enable/disable.
4. Press Done to save.
Display

Main menu
You can select different styles for the main menu.
1. Press Menu ➔ Settings ➔ Display.
2. Select Main menu ➔ Large/List.
3. Press OK to confirm.

Wallpaper
You can select different display backgrounds.
1. Press Menu ➔ Settings ➔ Display ➔ Wallpaper:
   • System to select predefined images.
   • User to select user defined images, see File manager, p.46
2. Use ←/→ to display available wallpapers.
3. Press OK to confirm.

Text size 🏙
You can customise the text size for messages and the phonebook.
1. Press Menu ➔ Settings ➔ Display.
2. Select Text size ➔ Normal/Large.
3. Press OK to confirm.

Idle display
In standby mode the display can show clock only, clock and the service provider, or all information.
1. Press Menu ➔ Settings ➔ Display.
2. Select Idle display ➔ Clock only/Clock & Operator/All info.
3. Press OK to confirm.

Themes 🎯
You can select different themes to personalise the phones text and background.
1. Press Menu ➔ Settings ➔ Display ➔ Themes.
2. Use ←/→ to select a theme.
3. Press OK to confirm.
**LCD backlight**
Select the delay time for the display backlight.

1. Press **Menu ➔ Settings ➔ Display**.
2. Select **LCD backlight**:
   - 15 sec.
   - 30 sec.
   - 1 min
3. Press **OK** to confirm.

**Brightness**
You can customise the phones brightness settings.

1. Press **Menu ➔ Settings ➔ Display ➔ Brightness**.
2. Select **Level 1–Level 3**.
3. Press **OK** to confirm.

**Doro Experience**
Create an Doro Experience® account to get the most out of your phone.
Access the phone using any web browser, [www.doroexperience.com](http://www.doroexperience.com).
Easily view and share your photos or videos.

**Note!** You need to have Internet access to use most of the features in Doro Experience®. Depending on how you use your phone, it can use up a lot of Internet bandwidth really quickly. Before you use your phone, we strongly recommend that you contact your mobile operator about data rates. Using data services while roaming can be costly. Check with your mobile operator for data roaming rates before you use data roaming.

**Create account**
1. Press **Menu ➔ Settings ➔ Doro Experience ➔ Create account**.
2. Your username is automatically set to your phone number/owner number.
   The owner number is supplied by your service provider and is usually set on the SIM card. If not, you can enter the number yourself.
3. Enter password and press ✅.
4. Re-enter the password in the field below and press **OK**.
Note! The username may contain letters (a-z) and numbers (0-9), but (+) is not allowed.
Keep the owner number in a safe place, since it will be needed if you need to reset.

Log in/Log out
1. Press Menu ➔ Settings ➔ Doro Experience ➔ Log in.
2. Enter your phone number as user name.
3. Enter your password and press Log in.

Options
You can select to synchronise your phone with Doro Experience® Manager.
1. Press Menu ➔ Settings ➔ Doro Experience.
2. Select Options:
   • Minimal synchronization to synchronise your contacts, calendar and phone settings.
   • Full synchronization to synchronise the same content as above and photos.
   • More info to view more information.
3. Press OK to confirm.

Sync. intervals
You can select different synchronisation intervals.
1. Press Menu ➔ Settings ➔ Doro Experience.
2. Select Sync. intervals:
   • Manual to synchronise manually. No automatic synchronising.
   • Every 15 minutes to synchronise automatically every 15 minutes.
   • Hourly to synchronise automatically every hour.
   • Daily to synchronise automatically every day.
3. Press OK to confirm.

Tip: You can also synchronise manually by pressing Synchronize now.

Account
1. Press Menu ➔ Settings ➔ Doro Experience.
2. Select Account to view your account information details.
3. Press Back to return.

Weather

Note! You need to have Internet access to use this feature. We recommend that you contact your service provider about data rates.

You can select to view the weather in standby mode. Enter the name of a city you want to view the weather for. See Weather, p.52.

1. Press Menu ➔ Settings ➔ Weather.
2. Select City and enter the name of the city.
3. Use ←/ → to select the city in the list.
4. Select Wallpaper and select On.
5. Press OK to confirm.

Calls

Voice mail
If your subscription includes an answering service, callers can leave a voice mail message when you cannot answer a call. Voice mail is a network service and you may need to subscribe to it first. For more information and for the voice mail number, contact your service provider.

1. Press Menu ➔ Settings ➔ Calls ➔ Voice mail.
2. Select Empty ➔ Add.
4. Press OK to confirm.

To edit or delete an existing entry, select it and press Options ➔ Edit/Delete.

Call voice mail
1. Press Menu ➔ Settings ➔ Calls ➔ Voice mail.
2. Press Options ➔ Call voice mail.
3. Press OK to confirm.

Tip: Press and hold shortcut button 1 to call your voice mail.
If activated in the Messages settings, a reminder signal will be heard after 10 minutes if new voice mail messages have not been listened to.
Speed dial

A, B, 0 and 2–9 can be used for speed dialling. To speed dial an entry from standby, press and hold corresponding button.

1. Press Menu ➔ Settings ➔ Calls ➔ Speed dial.
2. Select A ➔ Add and select an entry from the phonebook.
3. Press OK to confirm.
4. Repeat to add speed dial entries for buttons B, 0, 2–9.

To change a contact, select an existing entry and press Options ➔ Edit/Delete.

You can edit the contact information for the dedicated speed dial buttons A and B.

1. Press corresponding button. Use ⇧/⌥ to highlight the name or the number, then press Edit.
2. Press OK to confirm. Delete with Clear.

Top 10

Set an entry as one of the first 10 contacts listed in the phonebook.

2. Select one of the empty entries and press Add.
3. Use ⇧/⌥ to scroll through the phonebook, or quick search by pressing the key corresponding to the first letter of the entry.
4. Press OK to save the selected entry, or press Back to discard changes.

To delete a top 10 entry, select the entry in the top 10 list and press Options ➔ Delete.

Tip: You can also add an entry from the phonebook. Select the contact and press Options ➔ Top 10.

Call time

During a call, the duration of the call is shown. You can check the duration of your calls.

1. Press Menu ➔ Settings ➔ Calls.
2. Select Call time:
- **Last call** to show the elapsed time of the most recent call.
- **Outgoing calls** to show the elapsed time of all dialled calls.
- **Received calls** to show the elapsed time of all received calls.
- **Reset all ➔ Yes** to reset all.

3. Press **OK** to confirm.

**Answer mode**

1. Press **Menu ➔ Settings ➔ Calls**.
2. Select **Answer mode**:
   - **Open to answer ➔ On** to answer incoming calls by opening the flip.
   - **Any key ➔ On** to be able to answer incoming calls by pressing any button (exemption 📲).

3. Press **OK** to confirm.

**Signal LED**

1. Press **Menu ➔ Settings ➔ Calls ➔ Signal LED**.
2. Select **On** to enable notification light when incoming call and new message.
3. Press **OK** to confirm.

**Call setup**

This menu may vary depending on network support and subscription. Contact your service provider for more information.

**Caller ID**

Display or hide your phone number on the recipient's phone when you call.

1. Press **Menu ➔ Settings ➔ Calls ➔ Call setup**.
2. Select **Caller ID**:
   - **Set by network** to use default setting by the network.
   - **Hide ID** to never show your number.
   - **Send ID** to always show your number

3. Press **OK** to confirm.

**Call waiting**
You can handle more than one call at a time. An alert tone will be heard if there is an incoming call while talking. To put the current call on hold and answer the incoming call, press **Options ➔ Answer**.

1. Press **Menu ➔ Settings ➔ Calls ➔ Call setup**.
2. Select **Call waiting**:
   - **Activate** to enable call waiting.
   - **Deactivate** to disable call waiting.
   - **Query status** to display if call waiting is active or not.
3. Press **OK** to confirm.

**Call divert**

You can divert calls to an answering service or to another phone number. Set up which calls should be diverted. Select a condition and press **OK**, then select **Activate**, **Deactivate** or **Query status** (see Call waiting, p.32) for each.

1. Press **Menu ➔ Settings ➔ Calls ➔ Call setup**.
2. Select **Call divert**:
   - **Voice calls** to divert all voice calls.
   - **Unreachable** to divert incoming calls if the phone is turned off or out of range.
   - **No reply** to divert incoming calls if unanswered.
   - **If busy** to divert incoming calls if the line is busy.
   - **Cancel diverts** no call divert.
3. Press **OK** to confirm.

**Call barring**

Your phone can be restricted to disallow certain types of calls.

**Note!** A password is needed to apply Call barring. Contact your service provider to get the password.

1. Press **Menu ➔ Settings ➔ Calls**.
2. Select **Call setup ➔ Call barring**.
3. Select **Outgoing calls**:
   - **All calls** to answer incoming calls but not dial out.
   - **Internat.calls** unable to call international numbers.
- **Int. except home** unable to call international numbers except to the country associated with the SIM card.

4. Press **OK** to confirm.

5. Select **Incoming calls:**
   - **All calls** to dial out but not receive incoming calls.
   - **When roaming** unable to receive incoming calls while roaming (operating in other networks).

6. Press **OK** to confirm.

7. Select **Cancel all** to cancel all call barring (password needed). Press **OK** to confirm.

**Messages**

**Predictive text**

1. Press **Menu → Settings → Messages → Predictive text.**
2. Select **On** to enable Predictive text/eZiType™, see **Entering text**, p.5.
3. Press **OK** to confirm.

**Writing language**

1. Press **Menu → Settings → Messages → Writing language.**
2. Use ←/→ to select a language.
3. Press **OK** to confirm.

**Write speed**

You can change the speed at which keypad characters repeat (before the cursor moves onto the next character).

1. Press **Menu → Settings → Messages → Write speed.**
2. Select **Slow**, **Normal** or **Fast**.
3. Press **OK** to confirm.

**SMS settings**

**Memory status**

1. Press **Menu → Settings → Messages → SMS settings.**
2. Select **Memory status** to display the memory space used on the SIM card and in the phone memory. Phone memory can store up to 200 messages.
3. Press **Back** to return.

**Storage**

1. Press **Menu ➔ Settings ➔ Messages ➔ SMS settings.**
2. Select **Storage:**
   - **SIM** (default) to store messages on the SIM card.
   - **Phone** to store messages in the phone memory.
3. Press **OK** to confirm.

**SMS centre**

The SMS centre number is needed to use the message function. The number to your service centre is supplied by your service provider and is usually set on the SIM card. If the service centre number is saved on the SIM card it is shown. If not, you can enter the number yourself. Contact your service provider for more information.

1. Press **Menu ➔ Settings ➔ Messages ➔ SMS settings.**
2. Select **SMS centre ➔ Edit.**
3. Enter the service centre number. Press **Clear** to delete.
4. Press **OK** to confirm.

**Cell broadcast**

You can receive messages on various topics from your service provider, such as weather or traffic conditions in a particular region. For available channels and relevant channel settings, contact your service provider. Cell broadcast messages cannot be received when the device is roaming.

1. Press **Menu ➔ Settings ➔ Messages ➔ SMS settings.**
2. Select **Cell broadcast:**
   - **Function on/off** to turn information **On/Off.**
   - **Read messages** to read the message.
   - **Languages** to select language **On/Off.**
   - **Channel settings** to select from which channels to receive/subscribe messages. Use the options **Subscribe, Cancel subscription, Add, Edit and Delete** to define your channels.
3. Press **OK** to confirm.

**MMS settings**

**Memory status**
1. Press Menu ➔ Settings ➔ Messages ➔ MMS settings.
2. Select Memory status to display the memory space used in the phone memory.
3. Press Back to return.

**Storage**

Picture messages are saved by default in the phone memory. When the memory becomes full you will need to either delete a picture message (see Inbox, Outbox and Sent, p.17) or select to save your picture messages on the memory card. When the memory is full you will see a message when you try to send or receive a picture message.

**Note!** Make sure to insert a compatible memory card before saving on it (see Install the SIM card, memory card and the battery, p.1).

1. Press Menu ➔ Settings ➔ Messages ➔ MMS settings.
2. Select Storage:
   - Phone to store in the phone memory.
   - Memory card (memory card only appears if you have inserted a card) to store picture messages on the memory card.
3. Press OK to confirm.

**MMS profile**

These settings are needed to use the picture messages function. The settings for picture messages is supplied by your service provider and can be sent to you automatically.

1. Press Menu ➔ Settings ➔ Messages ➔ MMS settings ➔ MMS profile.
2. Select your service provider and press Options ➔ Activate.

Follow the steps below if your service provider is not in the list. Contact your service provider for correct settings.

1. Press Menu ➔ Settings ➔ Messages ➔ MMS settings.
2. Select MMS profile ➔ Add/Edit and enter the following settings for your service provider:
   - Account name to add account name.
   - APN to add APN (Access Point Name).
   - User name to add user name.
• **Password** to add password.
• **Homepage** to add homepage.
• **Connection type** to use the side buttons +/- to select connection enter **HTTP** or **WAP**.
• **Proxy address** to add proxy address.
• **Proxy port** to add proxy port.
• **User name** to add proxy user name.
• **Password** to add proxy password.

3. Press **OK** to confirm.
4. Press **Yes** to save or **No** to exit without saving.
5. Select your new profile and press **Options ➔ Activate**.
6. Press **OK** to confirm.

You can also activate/modify an MMS profile by selecting one existing and press **Options ➔ Activate/Edit/Delete**.

**Note!** Some service providers require you to send a picture message before you will be able to receive one. Send a picture message with text only to activate the service. Some service providers require that you contact them before enabling picture message for your account. Contact your service provider’s Customer Services. Press 🔄 during set up to exit without saving.

**Reminder 🔄**
The text message reminder alerts you once if you haven't checked your text message or listened to your voice mail within 10 minutes from receipt. If the notification envelope is removed by pressing 🔄, no reminder will be heard.

1. Press **Menu ➔ Settings ➔ Messages ➔ Reminder**.
2. Select **On/Off** to enable/disable.
3. Press **OK** to confirm.

**Vibration 🔄**
The text message vibration alert is several short vibrations that continues for **Short** (4 seconds) or **Long** (12 seconds).

1. Press **Menu ➔ Settings ➔ Messages**.
2. Select **Vibration**: 
• **Short** (4 seconds)
• **Long** (12 seconds)
3. Press **OK** to confirm.

**Note!** If Alert type is set to Ring only the phone will not vibrate.

**Delivery report**
You can select if you want the phone to notify you when your text message or picture message has reached the receiver.

1. Press **Menu ➔ Settings ➔ Messages.**
2. Select **Delivery report ➔ On/Off** to enable/disable.
3. Press **OK** to confirm.

**Note!** If you choose **Delivery report=On**, some operators will charge you for that message.

**Delete**
1. Press **Menu ➔ Settings ➔ Messages.**
2. Select **Inbox/Outbox/Sent/Delete all ➔ Yes** to delete all messages.

**Camera**
1. Press **Menu ➔ Settings ➔ Camera:**
   • **EV information:** EV/Light sensitivity can be adjusted by pushing volume keys up & down when in camera mode.
   • **Browse style** to change view. Select Large, List or Medium.
   • **Sort by** to sort pictures and videos by Name or Time.
   • **Storage** to save pictures and videos on Phone or Memory card.
   • **Delete all** to delete all saved pictures and videos.
   • **Flash** to set as Auto, Off, On or Red-eye reduction.
   • **Image size** to set as Small (lowest quality), 1 MP or 2 MP (highest quality).
   • **Video camera ➔ Quality** to set as High or Low.
   • **Video camera ➔ Record time** to set as No limit or 1 min.
   • **Shutter sound ➔ Off/Low/High.**
2. Press **OK** to confirm.
Note! With higher quality, less pictures or videos can be stored in the internal memory.

**Assistance**
Change settings for the assistance button function.

**Activation**
Select how to activate the assistance function using the assistance button.

1. Press **Menu ➔ Settings ➔ Assistance**.
2. Select **Activation**:
   - **On Normal** to activate by pressing and holding the button for approximately 3 seconds, or press it twice within 1 second.
   - **On (3)** to activate by pressing the button 3 times within 1 second.
   - **Off** to disable the assistance button.
3. Press **OK** to confirm.

**Number list**
Select numbers to the list that will be called when the assistance button is pressed.

1. Press **Menu ➔ Settings ➔ Assistance ➔ Number list**.
2. Select **Empty ➔ Add**.
3. Select **Phonebook** to add a contact from the phonebook.
   Alternatively, press **Manual** to add names/numbers manually. See Phonebook, p.12.
4. Press **OK** to confirm.
5. Repeat until you have 5 contacts (maximum).

To edit or delete an existing entry, select it and press **Options ➔ Edit/Delete**.

**SMS**
A text message can be sent to the contacts in the numbers list when the assistance button is pressed.

**Activation**
1. Press **Menu ➔ Settings ➔ Assistance ➔ SMS**.
2. Select **Activation**:
   - **On** the phone sends a text message before dialling.
   - **Off** the phone dials without sending a text message first.
3. Press **OK** to confirm.

**Message**
1. Press **Menu ➔ Settings ➔ Assistance ➔ SMS**.
2. Select **Message ➔ Edit** to write the message.
3. Press **OK** to confirm.

**Note!** You **must** write a message if you activate the SMS function.

**Confirm with "0"**
When the assistance function is activated the phone dials the first number on the list. If the call is not answered within 25 seconds, the next number is dialled. Dialling is repeated 3 times or until the call is answered, or until 🔄 is pressed by the user.

You can enable the Confirm with "0" function. If the receiver doesn’t press 🔄 within 60 seconds the call will be disconnected and the next number in the sequence will be called. If the receiver presses 🔄 within 60 seconds, the call is confirmed and no further call attempts will be made (assistance sequence interrupted). To enable set the function as **On**.

**Signal type**
Select the notification signal type for the assistance sequence.
1. Press **Menu ➔ Settings ➔ Assistance**.
2. Select **Signal type**:
   - **High** to use loud signals (default).
   - **Low** to use one low signal.
   - **Silent** no sound indication, like a normal call.
3. Press **OK** to confirm.

**Alarm info**
Please read the important safety information before enabling the assistance function:
1. Press Menu ➔ Settings ➔ Assistance ➔ Alarm info:
   • *Be careful about including numbers with automatic answering in the call list, as the alarm sequence stops once the call is answered.*

2. Press Back to return.

**Note!** This information is not applicable if **Confirm with "0"** is set to **On**.

### Connectivity

**Bluetooth®**

#### IMPORTANT!

When you are not using Bluetooth connectivity, select **Function on/off ➔ Off** or select **Visibility ➔ Off**. Do not pair with an unknown device.

**Function on/off**

1. Press Menu ➔ Settings ➔ Connectivity ➔ Bluetooth.

2. Select **Function on/off ➔ On/Off** to enable/disable Bluetooth.

3. Press OK to confirm.

**Visibility**

1. Press Menu ➔ Settings ➔ Connectivity ➔ Bluetooth.

2. Select **Visibility ➔ On/Off** to make your phone visible/invisible to other devices.

3. Press OK to confirm.

**Note!** To prevent other devices from finding your device, select **Off**. Even if you select **Off**, paired devices can still detect your device.

**Device name**

1. Press Menu ➔ Settings ➔ Connectivity ➔ Bluetooth ➔ Device name.

2. Enter the name your phone should appear with for other Bluetooth devices.

3. Press Done to confirm.

**Search device**

Search for available Bluetooth audio devices. If Bluetooth is not enabled you can enable it by pressing **Yes**.
1. Press **Menu ➔ Settings ➔ Connectivity ➔ Bluetooth ➔ Search device.**
2. Select from the list of devices and press **Bond** to connect.
3. When connecting to another Bluetooth device you need a shared password. Enter the password and press **OK.**

**My device**
Add new devices or view saved.
1. Press **Menu ➔ Settings ➔ Connectivity ➔ Bluetooth ➔ My device.**
2. Select device from the list and press **Options:**
   - **Connect/Disconnect** to connect/disconnect with the selected device. This may require a profile, usually a headset.
   - **Set default** to set the connected device as default.
   - **Rename** to change the name of the device.
   - **Delete** to delete the device from the list.
   - **Delete all** to delete all devices from the list.
3. Press **OK** to confirm.

**Audio path**
1. Press **Menu ➔ Settings ➔ Connectivity ➔ Bluetooth.**
2. Select **Audio path:**
   - **Phone** to answer incoming calls with the phone
   - **Forward BT** to forward incoming calls to the Bluetooth device.
3. Press **OK** to confirm.

**Internet profile**
The Internet settings are used by services that communicates using Internet. The Internet settings for most major service providers are already inserted from start. Another way is to ask your service provider to send the settings directly to your phone.

Follow the steps below if your service provider profile is not in the list. Contact your service provider for correct settings.
1. Press **Menu ➔ Settings ➔ Connectivity ➔ Internet profile.**
2. Use ↑/↓ to select a profile.
3. Press **Options ➔ Edit** to enter settings for your service provider.
- **Account name** to enter the account name.
- **APN** to enter the APN address.
- **User name** to enter user name.
- **Password** to enter password
- **Homepage** to enter password
- **Connection type** select HTTP/WAP.
- **Proxy address** to enter proxy address.
- **Proxy port** to enter proxy port.
- **User name** to enter user name.
- **Password** to enter password.

4. Press **OK**, and press **Yes** to save or **No** to return.
5. Select your new profile and press **Options ➔ Activate**.

You can also activate/modify a profile by selecting one and press **Options ➔ Activate/Edit/Delete**.

### Data roaming

Your phone automatically selects your (service providers) home network if within range. If not within range, you can use another network, provided your network operator has an agreement that allows you to do so. This is called roaming. Contact your service provider for more information.

**Note!** Using data services while roaming can be costly. Contact your service provider for data roaming rates before you use data roaming.

1. Press **Menu ➔ Settings ➔ Connectivity ➔ Data roaming**.
2. Select **On/Off** to enable/disable.
3. Press **OK** to confirm.

### Security

**SIM lock**

The SIM card is protected with a PIN code (Personal Identification Number). The phone can be set to ask for the PIN code on startup.

1. Press **Menu ➔ Settings ➔ Security**.
2. Select **SIM lock**:
   - **On** to activate PIN code, you need to enter the PIN code every time the phone is started.
• **Off** to deactivate PIN code. Warning, if SIM card is lost/stolen it is unprotected.

• **Automatic** to not enter the PIN code when the phone is started, the phone remembers it automatically. If the SIM card is moved to another phone (lost/stolen), the PIN code needs to be entered to unlock.

3. Press **OK** to confirm.

**Note!** You need to enter the current PIN code to disable/enable SIM lock.

**Phone lock**

1. Press **Menu ➔ Settings ➔ Security ➔ Phone lock.**
2. Select **On/Off** to enable/disable.
3. Press **OK** to confirm.

**Note!** You need to input the current phone code to disable/enable Phone lock. The default phone code is **1234**.

**Remote configuration**

Allow persons that you trust, usually a family member or friend, to send information to your Doro PhoneEasy® 624. You can receive phonebook contacts and contacts for speed dial keys, calendar tasks and settings for the assistance button. When activated, you don’t have to do anything, it’s the other person that sends information to you.

**Activation**

1. Press **Menu ➔ Settings ➔ Security.**
2. Select **Remote config ➔ Activation.**
3. Select **On/Off** to enable/disable.
4. Press **OK** to confirm.

**Number list**

You need to add the name and number of the people who are allowed to send information from their phone to your Doro PhoneEasy® 624.

1. Press **Menu ➔ Settings ➔ Security ➔ Remote config.**
2. Select **Number list ➔ Empty ➔ Add.**
3. Select **Phonebook** to add a contact from it. Alternatively, press **Manual.**
4. Press 
5. Enter the number and press **OK** to confirm.
6. Repeat until you have 5 contacts (maximum).
To edit or delete an existing entry, select it and press **Options ➔ View/Edit/Delete**.

**Fixed dial (FDN)**
You can limit calls to certain numbers saved on the SIM card. The list of allowed numbers is protected by your PIN2-code.

1. Press **Menu ➔ Settings ➔ Security**.
2. Select **Fixed dial**:
   - **Mode ➔ On/Off** to enable/disable.
   - **Fixed numbers ➔ Add** and enter the first allowed number. Alternatively, select an entry and press **Options ➔ Add/Edit/Delete**.
3. If needed, enter PIN2 and press **OK** to confirm.

**Note!** You can save parts of phone numbers. For example, if you save 01234, allows calls to all numbers starting with 01234. It is possible to place an SOS call by entering the main local emergency number followed by even when fixed dial is activated. When fixed dial is activated you are not allowed to view or manage any phone numbers saved on the SIM card. You are not able to send any text messages either.

**Passwords (change your passwords)**
To change the **PIN, PIN2** or the **Phone code** passwords:

1. Press **Menu ➔ Settings ➔ Security ➔ Passwords**.
2. Enter the current code and confirm with **OK**.
3. Enter a new code and confirm with **OK**.
4. Enter the new code again and confirm with **OK**.

**Reset settings**

1. Press **Menu ➔ Settings ➔ Security**.
2. Select **Reset settings** to reset the phone settings. All the changes that you have made to the phone settings will be reset to default settings.
3. Enter the phone password and press OK to reset.

**Reset all**
1. Press **Menu ➔ Settings ➔ Security**.
2. Select **Reset all** to delete phone settings and content such as contacts, number lists and messages (SIM memory is not affected).
3. Enter the phone password and press OK to reset.

**Note!** The default phone code is **1234**.

**File manager**
Manage the contents and properties of files. You can open, delete, move, copy and rename files.

1. Press **Menu ➔ Settings ➔ File manager**.
2. Select **Phone/Memory card ➔ Open**.
3. Select a folder, eg **Photos** and press **Open**.
4. Select a file and press **Options**:
   - **Play** (audio/video/music), press ☐ to Play or ☐ to Stop.
   - **View** (photos/images) for single view.
   - **Send ➔ Send by MMS** to send as picture message (Create and send picture message (MMS), p.16)/**Send by Bluetooth** to send to a Bluetooth device (Bluetooth®, p.41).
   - **Details** to view detailed information about the file, e.g. date, size, copyright protection.
   - **Use ➔ Wallpaper** to save as display background/Phonebook picture to be used with a phonebook contact.
   - **Rename** to rename the file.
   - **Delete** to delete the file.
   - **Delete all** to delete all files in selected folder.
   - **Sort by ➔ Name/Time**.
   - **Copy/Move ➔ Phone/Memory card ➔ Options ➔ Open**. Select a folder, eg **Photos** and press **Options ➔ Paste**.
5. Press **OK** to confirm.

**Supported formats:**

- Picture format: BMP/GIF/JPG/PNG. Photos taken with the built in camera are saved as JPG.
Audio format: WAV/AMR/MIDI/MP3/AAC/AAC+. Recordings made with the built in sound recorder are saved as AMR.

Video format: MP4/3GPP.

**Additional functions**

**Organizer**

The 🗓️ Organizer menu contains:

<table>
<thead>
<tr>
<th>🕛 Alarm</th>
<th>💡 Daily reminder</th>
</tr>
</thead>
<tbody>
<tr>
<td>📅 Calendar</td>
<td>📄 Notes</td>
</tr>
</tbody>
</table>

**Alarm**

1. Press **Menu ➔ Organizer ➔ Alarm ➔ On**.
2. Enter the alarm time using the keypad.
3. Press **OK** to confirm.
4. For a single occurrence, select **Single**.
   For a repeated alarm, select **Repeated**. Scroll through the list of days and press **On/Off** to enable/disable the alarm for each day.

To edit an alarm, press **Edit**.

To stop the alarm, press **Off**.

**Note!** The alarm will work even when the phone is switched off. Do not press **Yes** to power on if wireless phone use is prohibited or when it may cause interference or danger.

When the alarm goes off a signal will sound. Press **Stop** to turn off the alarm or press **Snooze** to repeat the alarm after 9 minutes.

**Calendar**

**View**

1. Press **Menu ➔ Organizer ➔ Calendar**.
2. Press **Options ➔ View** to show tasks for the selected date.
3. Press **OK** to confirm.

**Add task**

1. Press **Menu ➔ Organizer ➔ Calendar ➔ Add task**.
2. Enter date for the task, then press OK.
3. Enter time for the task, then press OK.
4. Enter subject.
5. Press OK to confirm.

Jump to date
1. Press Menu ➔ Organizer ➔ Calendar ➔ Jump to date.
2. Enter the date.
3. Press OK to confirm.

View all
1. Press Menu ➔ Organizer ➔ Calendar.
2. Select a task and press Options ➔ View all.
3. Press Options:
   • Edit to edit selected task.
   • Delete to delete selected task.
   • Delete all to delete all tasks.
4. Press OK to confirm.

Note! The calendar will work even when the phone is switched off. Do not press Yes to power on if wireless phone use is prohibited or when it may cause interference or danger.

Daily reminder
1. Press Menu ➔ Organizer ➔ Daily reminder ➔ Add.
2. Enter time for the task, then press OK.
3. Enter subject.
4. Press OK to save.

Note! The reminder will work even when the phone is switched off. Do not press Yes to power on if wireless phone use is prohibited or when it may cause interference or danger.

When the alarm goes off a signal will sound. Press Stop to turn off the alarm or press Snooze to repeat the alarm after 9 minutes.

Options
1. Press Menu ➔ Organizer ➔ Daily reminder.
2. Select a reminder, then press Options
- **Skip reminder** to skip reminder.
- **Activate reminder** to activate reminder.
- **Add** to add new reminder.
- **Edit** to edit selected reminder.
- **Delete** to delete selected reminder.
- **Delete all** to delete all reminders.

3. Press **OK** to confirm.

**Note!** The reminder will work even when the phone is switched off. Do not press **Yes** to power on if wireless phone use is prohibited or when it may cause interference or danger.

**Notes**
1. Press **Menu ➔ Organizer ➔ Notes.**
2. Select **Add** to enter your note using the keypad.
3. Press **OK** to save.

**Options**
1. Press **Menu ➔ Organizer ➔ Notes.**
2. Select a note, then press **Options:**
   - **Add** to add new note.
   - **Edit** to edit selected note.
   - **Delete** to delete selected note.
   - **Delete all** to delete all notes.
3. Press **OK** to confirm.

**More**
The **More** menu contains:

<table>
<thead>
<tr>
<th>FM radio</th>
<th>Games</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calculator</td>
<td>Torch</td>
</tr>
</tbody>
</table>

**FM radio**
The FM radio has a frequency range from 87.5 to 108.0 MHz and 9 preset channels.
Turning the radio on

1. Connect the headset to the headset socket 🎧.
2. Press Menu ➔ More ➔ FM radio. The radio is turned on. The tuned frequency is displayed.
3. Select channel using ← or →. Use the side keys +/− to adjust the volume.

Tip: Press ↵ to return to standby mode. The radio will continue to play.

Volume

2. Press Options ➔ Volume.
3. Use ← or → or the side buttons +/− to adjust the volume.
4. Press OK to confirm.

Save frequency

1. Press Menu ➔ More ➔ FM radio ➔ Options ➔ Save frequency.
2. Enter a name for the new channel, see Entering text 📝, p.5.
3. Press Save.

Switch off

• Press Menu ➔ More ➔ FM radio ➔ Options ➔ Switch off.

Tip: Disconnecting the headset will also turn off the radio.

Loudspeaker

2. Press Options ➔ Loudspeaker ➔ On.
3. Use the side buttons +/− to adjust the sound volume.
4. To turn off, select Off.

Channel list (editing the channel list)

1. Press Menu ➔ More ➔ FM radio ➔ Options ➔ Channel list.
2. Select the channel you wish to edit and press Options:
   • Play to play the selected channel.
   • Delete to delete the channel. Press Yes to confirm or No to return to the channel list.
Edit to edit the channel name, then press \( \leftarrow \) to edit the frequency, use \#\) to enter the decimal point. Press Save when done.

3. Press OK to confirm.

**Manual input (changing search mode)**

1. Press Menu \( \rightarrow \) More \( \rightarrow \) FM radio \( \rightarrow \) Options.
2. Select Manual input:
   - Fine tune to tune manually with \( \downarrow \) or \( \uparrow \).
   - Auto search to use automatic station search with \( \downarrow \) or \( \uparrow \).
3. Press OK to confirm.

**Auto save**

*Note!* This will overwrite all previously saved channels!

1. Press Menu \( \rightarrow \) More \( \rightarrow \) FM radio \( \rightarrow \) Options.
2. Select Auto save to automatically install available radio stations in channels \([1-9]\).
3. Press OK to confirm.

**Calculator**

The calculator can perform basic mathematical operations.

1. Press Menu \( \rightarrow \) More \( \rightarrow \) Calculator.
2. Enter the first number. Use \#\) to enter decimal points.
3. Use the arrow buttons to select an operation (+, -, x, ÷) and press OK.
4. Enter the next number and press OK.
5. Repeat steps 2–4 as necessary. Select = and press OK to calculate the result.

**Torch**

1. Press Menu \( \rightarrow \) More \( \rightarrow \) Torch.
2. Press Off to turn off.

*Note!* See Torch, p.24 to set the automatic switch off time.

**Games**

1. Press Menu \( \rightarrow \) More \( \rightarrow \) Games.
2. Select Tetris/Boxman:
• **Continue** to continue game.
• **Restart level** to restart game at the same level as before.
• **Start game** to start a new game.
• **Game level** to select difficulty level.
• **Best grades** to view your best results. Press **Back** to return or **Reset** to reset the scores.
• **Help** to view instructions for the game. Press **Back** to return.
• **Settings ➔ Sound effect** to enable/disable by using the side buttons +/- to select **On/Off**.
• **Settings ➔ Volume** to adjust the sound volume using the side buttons +/-.

3. Press **OK** to confirm

**Status**

Scroll through the 📊 status list to get further information about the icons shown on top of your display. Icons shown on the display varies depending on your phone status.

1. Press **Menu ➔ Status**.
2. Use 🜃 or 🛢 to scroll the list.
3. Press **Back** to return to standby mode.

**Weather**

**Note!** You need to have Internet access to use this feature. We recommend that you contact your service provider about data rates.

View the ☀️/weather for your chosen city.

1. Press **Menu ➔ Weather**.
2. Press **Back** to return to standby mode.

**Note!** In order to see the weather, you must first select a city. See Weather, p.30

**Instructions for the REMOTE USER**

**Send remote control commands by text message**

1. Make sure activation is set to **On** and that the remote user is saved in the **Number list** on the Doro PhoneEasy® 624.

**Note!** Text message format must be *#Command#, otherwise the text message cannot be identified as a remote control command.

- Parameters are the content you want to send.
- Use # sign to separate two parameters.
- In tables P = Parameters.

**Save a new contact in the phonebook**
All contacts sent to Doro PhoneEasy® 624 by remote configuration are stored in the phone (even if storage is set to SIM). 3 phone numbers for each contact ☎️ Mobile, 🏠 Home or 📷 Office can be sent.

<table>
<thead>
<tr>
<th>Command</th>
<th>P 1</th>
<th>P 2</th>
<th>P 3</th>
<th>P 4</th>
</tr>
</thead>
<tbody>
<tr>
<td>phonebook</td>
<td>name max. length= 20</td>
<td>mobile max. length= 40</td>
<td>home</td>
<td>office</td>
</tr>
</tbody>
</table>

**Example:** Send Jeff Jackson’s mobile number, home number and his office number to Doro PhoneEasy® 624.
- *#phonebook#Jeff Jackson#0700393939#0462805011#0462805083#

The number is saved in the Doro PhoneEasy® 624 phonebook as:

- Jeff Jackson
  - 0700393939
  - 0462805011
  - 0462805083

**Note!** Only use numerals for parameters 2, 3 and 4. If you use letters in these parameters it will be stored as empty/blank in the phonebook. Contacts already saved in the phonebook, will not be replaced. They will be duplicated. This is to avoid unintentional removal of contacts from the phonebook.
Tip: When storing international numbers, always use + before the country code for best operation. Enter the phone number including the area code.

Set the assistance function

</table>

Example: Set Jeff Jackson’s mobile number in memory key A in Doro PhoneEasy® 624 and Martha Thomson in memory key B.

- *#memorykey#a#Jeff Jackson#0700393939#
- *#memorykey#b#Martha Thomson#0768991014#

Add task to calendar

<table>
<thead>
<tr>
<th>Command</th>
<th>P 1</th>
<th>P 2</th>
<th>P 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>task</td>
<td>yyyyymmdd Date</td>
<td>hhmm Time</td>
<td>note</td>
</tr>
</tbody>
</table>

| note description of task. max. length = 35 |

Example: Send a new calendar task to Doro PhoneEasy® 624. The task text should be: dentist appointment in December 1, 2010 at 10:30.

- *#task#20101201#1030#dentist appointment#

Troubleshooting

Phone cannot be switched on

<table>
<thead>
<tr>
<th>Battery charge low</th>
<th>Connect the power adapter and charge the battery for 3 hours. Full battery capacity is reached after the battery has been charged 3–4 times.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Battery incorrectly installed</td>
<td>Check the installation of the battery.</td>
</tr>
</tbody>
</table>
### Failure to charge the battery

<table>
<thead>
<tr>
<th>Issue</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Battery or charger damaged</td>
<td>Check the battery and charger.</td>
</tr>
<tr>
<td>Battery should only be charged in temperatures between 0 °C and 40 °C</td>
<td>Improve the charging environment.</td>
</tr>
<tr>
<td>Charger incorrectly connected to phone or power socket</td>
<td>Check the charger connections.</td>
</tr>
</tbody>
</table>

### Standby time decreases

<table>
<thead>
<tr>
<th>Issue</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Battery charge capacity too low</td>
<td>Install a new battery.</td>
</tr>
<tr>
<td>Too far from base station, phone is constantly searching for signal</td>
<td>Searching the network consumes battery power. Find a place with a stronger signal, or temporarily turn off the phone.</td>
</tr>
</tbody>
</table>

### Failure to place or receive calls

<table>
<thead>
<tr>
<th>Issue</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Call barring activated</td>
<td>Deactivate call barring. If this does not solve the problem, contact your service provider.</td>
</tr>
</tbody>
</table>

### PIN code not accepted

<table>
<thead>
<tr>
<th>Issue</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wrong PIN code entered too many times</td>
<td>Enter the PUK code to change the PIN code, or contact your service provider.</td>
</tr>
</tbody>
</table>

### SIM card error

<table>
<thead>
<tr>
<th>Issue</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>SIM card damaged</td>
<td>Check the condition of the SIM card. If it is damaged, contact your service provider.</td>
</tr>
<tr>
<td>SIM card incorrectly installed</td>
<td>Check the installation of the SIM card. Remove the card and reinstall it.</td>
</tr>
<tr>
<td>SIM card dirty or damp</td>
<td>Wipe the contact surfaces of the SIM card with a clean cloth.</td>
</tr>
</tbody>
</table>

### Failure to connect to network

<table>
<thead>
<tr>
<th>Issue</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>SIM card invalid</td>
<td>Contact your service provider.</td>
</tr>
<tr>
<td>No coverage of GSM service</td>
<td>Contact your service provider.</td>
</tr>
</tbody>
</table>
### Weak signal

<table>
<thead>
<tr>
<th>Issue</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Too far from base station</td>
<td>Try again from another location.</td>
</tr>
<tr>
<td>Network congestion</td>
<td>Try calling at a later time.</td>
</tr>
</tbody>
</table>

### Echo or noise

<table>
<thead>
<tr>
<th>Issue</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Regional problem from bad network relay</td>
<td>Hang up and redial. This may switch to another network relay.</td>
</tr>
</tbody>
</table>

### Failure to add a contact

<table>
<thead>
<tr>
<th>Issue</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phonebook memory full</td>
<td>Delete contacts to free up memory.</td>
</tr>
</tbody>
</table>

### Failure to set a function

<table>
<thead>
<tr>
<th>Issue</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Function not supported or subscribed from network</td>
<td>Contact your service provider.</td>
</tr>
</tbody>
</table>

### Unable to send or receive Picture Messages / MMS with the SIM card

<table>
<thead>
<tr>
<th>Issue</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>The MMS profile is not set automatically and it is not possible to send or receive MMS</td>
<td>For some operators the MMS profile has to be selected manually. Activate the correct profile to suit your SIM card or network used.</td>
</tr>
</tbody>
</table>

### Failure to send or download MMS

<table>
<thead>
<tr>
<th>Issue</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phone memory is full and it is not possible to send or download MMS</td>
<td>Delete received MMS or select to set the default storage for MMS to be saved on a memory card (not included).</td>
</tr>
<tr>
<td>Incorrect MMS profile selected.</td>
<td>For some service providers the MMS profile has to be selected manually.</td>
</tr>
</tbody>
</table>

### Safety instructions

**CAUTION**

The unit and the accessories can contain small parts. Keep all of the equipment out of the reach of small children.
The mains adapter is the disconnect device between the product and mains power.
The mains socket outlet must be close to the equipment and easily accessible.
Network services and costs
Your device is approved for use on the WCDMA 900/2100 MHz, GSM 900/1800/1900 MHz networks. To use the device, you need a subscription with a service provider.

Using network services may result in traffic costs. Some product features require support from the network, and you may need to subscribe to them.

Operating environment
Follow the rules and laws that apply wherever you are, and always turn off the unit whenever its use is prohibited or can cause interference or hazards. Only use the unit in its normal user position.

This unit complies with guidelines for radiation when it is used either in a normal position against your ear, or when it is at least 1.5 cm from your body. If the unit is carried close to your body in a case, belt holder or other holder, these holders should not contain any metal, and the product should be placed at the distance from your body specified above. Make sure that the distance instructions above are followed until the transfer is complete.

Parts of the unit are magnetic. The unit can attract metal objects. Do not keep credit cards or other magnetic media near the unit. There is a risk that information stored on them can be erased.

Medical units
The use of equipment that transmits radio signals, for example, mobile phones, can interfere with insufficiently protected medical equipment. Consult a doctor or the manufacturer of the equipment to determine if it has adequate protection against external radio signals, or if you have any questions. If notices have been put up at health care facilities instructing you to turn off the unit while you are there, you should comply. Hospitals and other health care facilities sometimes use equipment that can be sensitive to external radio signals.

Implanted medical devices
To avoid potential interference, manufacturers of implanted medical devices recommend a minimum separation of 15.3 cm between a wireless device and the medical device. Persons who have such devices should:

• Always keep the wireless device more than 15.3 cm from the medical device.
• Should not carry the phone in a breast pocket.
• Hold the wireless device to the ear opposite the medical device.

If you have any reason to suspect that interference is taking place, turn the phone off immediately. If you have any questions about using your wireless device with an implanted medical device, consult your health care provider.

Areas with explosion risk
Always turn off the unit when you are in an area where there is a risk of explosion. Follow all signs and instructions. There is a risk of explosion in places that include areas
where you are normally requested to turn off your car engine. In these areas, sparks can cause explosion or fire which can lead to personal injury or even death.

Turn off the unit at filling stations, and any other place that has fuel pumps and auto repair facilities.

Follow the restrictions that apply to the use of radio equipment near places where fuel is stored and sold, chemical factories and places where blasting is in progress.

Areas with risk for explosion are often – but not always – clearly marked. This also applies to below decks on ships; the transport or storage of chemicals; vehicles that use liquid fuel (such as propane or butane); areas where the air contains chemicals or particles, such as grain, dust or metal powder.

**Li-ion battery**

This product contains a Li-ion battery. There is a risk of fire and burns if the battery pack is handled improperly.

<table>
<thead>
<tr>
<th><strong>WARNING</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Danger of explosion if battery is incorrectly replaced. To reduce risk of fire or burns, do not disassemble, crush, puncture, short external contacts, expose to temperature above 60 °C (140 °F), or dispose of in fire or water. Recycle or dispose of used batteries according to the local regulations or reference guide supplied with your product.</td>
</tr>
</tbody>
</table>

**Protect your hearing**

This device has been tested to comply with the Sound Pressure Level requirement laid down in the applicable EN 50332-1 and/or EN 50332-2 standards.

<table>
<thead>
<tr>
<th><strong>WARNING</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Excessive exposure to loud sounds can cause hearing damage. Exposure to loud sounds while driving may distract your attention and cause an accident. Listen to a headset at a moderate level, and do not hold the device near your ear when the loudspeaker is in use.</td>
</tr>
</tbody>
</table>

**Emergency calls**

<table>
<thead>
<tr>
<th><strong>IMPORTANT!</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Mobile phones use radio signals, the mobile phone network, the terrestrial network and user-programmed functions. This means that connection cannot be guaranteed in all circumstances. Therefore, never rely only on a mobile phone for very important calls such as medical emergencies.</td>
</tr>
</tbody>
</table>
Vehicles

Radio signals can affect electronic systems in motor vehicles (for example, electronic fuel injection, ABS brakes, automatic cruise control, air bag systems) that have been incorrectly installed or are inadequately protected. Contact the manufacturer or its representative for more information about your vehicle or any additional equipment.

Do not keep or transport flammable liquids, gases or explosives together with the unit or its accessories. For vehicles equipped with air bags: Remember that air bags fill with air with considerable force.

Do not place objects, including fixed or portable radio equipment in the area above the airbag or the area where it might expand. Serious injuries may be caused if the mobile phone equipment is incorrectly installed and the airbag fills with air.

It is prohibited to use the unit in flight. Turn off the unit before you board a plane. Using wireless telecom units inside a plane can pose risks to air safety and interfere with telecommunications. It may also be illegal.

Care and maintenance

Your unit is a technically advanced product and should be treated with the greatest care. Negligence may void the warranty.

- Protect the unit from moisture. Rain/snowfall, moisture and all types of liquid can contain substances that corrode the electronic circuits. If the unit gets wet, you should remove the battery and allow the unit to dry completely before you replace it.
- Do not use or keep the unit in dusty, dirty environments. The unit’s moving parts and electronic components can be damaged.
- Do not keep the unit in warm places. High temperatures can reduce the lifespan for electronic equipment, damage batteries and distort or melt certain plastics.
- Do not keep the unit in cold places. When the unit warms up to normal temperature, condensation can form on the inside which can damage the electronic circuits.
- Do not try to open the unit in any other way than that which is indicated here.
- Do not drop the unit. Do not knock or shake it either. If it is treated roughly the circuits and precision mechanics can be broken.
- Do not use strong chemicals to clean the unit.

The advice applies to the unit, battery, mains adapter and other accessories. If the phone is not working as it should, please contact the place of purchase for service. Don’t forget the receipt or a copy of the invoice.

Warranty

This product is guaranteed for a period of 12 months from the date of purchase. In the unlikely event of a fault occurring during this period, please contact the place of purchase. Proof of purchase is required for any service or support needed during the guarantee period.
This guarantee will not apply to a fault caused by an accident or a similar incident or damage, liquid ingress, negligence, abnormal usage, non-maintenance or any other circumstances on the user’s part. Furthermore, this guarantee will not apply to any fault caused by a thunderstorm or any other voltage fluctuations. As a matter of precaution, we recommend disconnecting the charger during a thunderstorm.

Batteries are consumables and are not included in any guarantee.

This guarantee does not apply if batteries other than DORO original batteries are used.

**Hearing aid**

This device should work with most hearing aid equipment in the market. However, full compatibility with all equipment can not be promised.

**Specific Absorption Rate (SAR)**

This device meets applicable international safety requirements for exposure to radio waves. The highest SAR value under the ICNIRP guidelines for use of the device at the ear is 0.482 W/kg measured over 10 g tissue.

The maximum limit according to ICNIRP is 2.0 W/kg measured over 10 g tissue.

**Declaration of Conformity**

Doro hereby declares that Doro PhoneEasy® 624 conforms to the essential requirements and other relevant regulations contained in the Directives 1999/5/EC (R&TTE) and 2011/65/EC (RoHS). A copy of the Declaration of Conformity is available at [www.doro.com/dofc](http://www.doro.com/dofc).
