Note! All illustrations are for illustrative purposes only and may not accurately depict the actual device. The items supplied with your phone may vary depending on the software and accessories available in your region or offered by your service provider. You can obtain additional accessories from your local Doro dealer. The supplied accessories provide the best performance with your phone.

1. 10 STARTED SIM card, memory card and battery

Remove the battery cover
Be careful not to damage your fingernails when you remove the battery cover. Do not bend or twist the battery cover excessively as it may be damaged.

Insert SIM card (required)
Remove the battery if it is already installed. There are two SIM card slots, SIM1 and SIM2. If you are to use only one SIM card, we recommend to use SIM1 slot.
Slide the card under the metal part, with the gold-coloured circuit board facing down. The cut-off corner of the card helps to you place the card, correct placement is indicated in the compartment.

Insert SD card (optional)
Press the card’s lid carefully towards the assistance button until it “clicks”. Lift the lid to an upright position. Make sure the card’s contacts are facing downwards. Fold down the lid and carefully push it down, sliding it back in place.

Note! The circuit boards (metal part) on the cards must not be scratched or bent. Try not to touch the circuits with your fingers.

Insert the battery
Insert the battery by sliding it into the battery compartment with the circuits facing down to the right. Replace the battery cover.

Charge the phone
CAUTION
Only use batteries, charger and accessories that have been approved for use with this particular model. Connecting other accessories may be dangerous and may invalidate the phone’s type approval and guarantee.

When the battery is running low is displayed and a warning signal is heard.

Connect the mains adapter to the wall socket and to the charging socket .
Tip: Don’t forget to remove the protective plastic film from the display.

2. GET TO KNOW YOUR PHONE

Turn the phone on and off
1. Press and hold the on the phone to turn it on/off. Confirm with Yes to power off.
2. If the SIM card is valid but protected with a PIN code (Personal Identification Number), Input SIM1 PIN is displayed. Enter the PIN code and press OK. Delete with Clear.

Note! If PIN and PUK codes were not provided with your SIM card, please contact your service provider.

Trials remain: If shows the number of PIN attempts left. When no more attempts remain, PIN blocked is displayed. The SIM card must now be unlocked with the PUK code (Personal Unblocking Key).
1. Enter the PUK code and confirm with OK.
2. Enter a new PIN code and confirm with OK.
3. Re-enter the new PIN code and confirm with OK.

Start-up wizard
When starting the telephone for the first time, you can use the start-up wizard to set some basic settings.
Tip: You can run the start-up wizard later if you want.
