User Guide
Care and safety

Guidelines

Road safety comes first. We strongly recommend not to use your device when driving or operating any type of vehicle.

This device should only be used in environments with ambient temperatures between 5°C (41°F) and 35°C (95°F).

Turn off your device in restricted areas where the use of mobile devices is prohibited. Always obey rules and regulations when in restricted areas, such as, in aircraft, movie theater, in hospitals or near medical equipment, near gas or fuel, construction sites, blasting sites and other areas.

Use only AC adapters and cables approved by ASUS for use with this device. Refer to the rating label on the bottom of your device and ensure that your power adapter complies with this rating.

Do not use damaged power cables, accessories, and other peripherals with your device.

Keep your device dry. Do not use or expose your device near liquids, rain, or moisture.

You can put your device through x-ray machines (such as those used in conveyor belts for airport security), but do not expose the device to magnetic detectors and wands.

The device screen is made of glass. If the glass gets broken, stop using the device and do not touch the broken glass parts. Immediately send device for repair to ASUS-qualified service personnel.

Do not listen at high volume levels for long periods to prevent possible hearing damage.

Disconnect the AC power before cleaning your device. Use only a clean cellulose sponge or chamois cloth when cleaning your device screen.

Send device for repair to ASUS-qualified service personnel only.
Proper disposal

Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

DO NOT throw the battery in municipal waste. The symbol of the crossed out wheeled bin indicates that the battery should not be placed in municipal waste.

DO NOT throw this product in municipal waste. This product has been designed to enable proper reuse of parts and recycling. The symbol of the crossed out wheeled bin indicates that the product (electrical, electronic equipment and mercury-containing button cell battery) should not be placed in municipal waste. Check local regulations for disposal of electronic products.

DO NOT throw this product in fire. DO NOT short circuit the contacts. DO NOT disassemble this product.

Welcome!

Explore the intuitive simplicity of ASUS Zen UI 2.0!

ASUS Zen UI 2.0 is a charming and intuitive interface exclusively for ASUS Phones. It provides you with special apps, which are integrated in or with other apps, to fit your unique individual needs and make your life easier while letting you have fun with your ASUS Phone.

### ASUS Support
Find answers from FAQs (Frequently Asked Questions) or provide your feedbacks in the user forum.

### Camera
With PixelMaster technology, capture those precious moments in vivid and high-quality photos and videos.

### Do It Later
Get hold and act on your important emails, SMS messages, interesting websites, or other important tasks when it is more convenient for you to do so.

### What’s Next
View meeting details, emails, and other event alerts or notifications at a glance right from your Home screen, Lock Screen, or What’s Next app.

### ZenLink
Get maximum productivity from ZenLink, which comprises of Remote Link, Share Link, and PC Link apps. Use any of these apps to connect with other devices for sharing and receiving files.

**NOTE:** Availability of the ZenLink apps vary with ASUS Phone models.

**NOTE:** Availability of ASUS Zen UI 2.0 apps vary per region and ASUS Phone model. Tap from your Home screen to check the apps available on your ASUS Phone.
Get your ASUS Phone ready!

Parts and features
Take a hold of your device and have it running in a jiffy.

NOTES:
- Remove the rear cover to display the micro SIM and microSD card slots.
- The micro SIM card slot supports WCDMA, DC-HSPA, GSM/EDGE, and FDD-LTE network bands.
  The microSD card slot supports microSD and microSDHC card formats.

IMPORTANT!
- We do not recommend using a screen protector as it can interfere with the proximity sensor. If you want to use a screen protector, ensure that it does not block the proximity sensor.
- Keep the device, particularly the touch screen, dry all the time. Water or other liquids can cause the touch screen to malfunction.
- Ensure that the Micro-SIM/memory card compartment cover is always closed when operating or carrying the device.
Installing a micro-SIM card

A micro-subscriber identity module (micro-SIM) card stores information, such as your mobile phone number, contacts, messages and other data that gives you access to a mobile network.

Your ASUS Phone comes with two micro-SIM card slots that allows you to setup and use two mobile network services without having to carry two mobile devices at the same time.

**CAUTION!**
- This device is designed for use with a mobile carrier-approved micro-SIM card only.
- We do not recommend the use of trimmed SIM cards in the micro-SIM card slot.
- Turn off your device before inserting a micro-SIM card.
- Be extra careful when handling a micro-SIM card. ASUS is not responsible for any loss or damage incurred to your micro-SIM card.
- Do not insert a memory card into the micro-SIM card slot! If a memory card happens to be inserted into the micro-SIM slot, send your device to an ASUS-qualified service personnel.

To install a micro-SIM card:

1. Turn off your device.
2. Locate the groove at the bottom of your ASUS Phone.

**CAUTION!** Be careful when you pry open the cover.

3. Pry the cover loose and then pull the rear cover off.

**CAUTION!** Be careful when you pry open the cover.

**WARNING!**
- DO NOT use tools like screwdrivers to remove the rear cover.
- DO NOT pry the micro USB port

4. Insert the micro SIM card into the micro SIM card slot.
5. Put the rear cover back in place.

**CAUTION!** Do not use sharp tools or solvent on your device to avoid scratches on it.
Removing a Micro-SIM card

**CAUTION:** Be extra careful when handling a micro-SIM card. ASUS is not responsible for any loss or damage incurred to your micro-SIM card.

To remove a micro-SIM card:

1. Turn off your device.

2. Locate the groove at the bottom of your ASUS Phone.

   **CAUTION!** Be careful when you pry open the cover.

3. Pry the cover loose and then pull the rear cover off.

   **CAUTION!** Be careful when you pry open the cover.

   **WARNING!**
   - **DO NOT** use tools like screwdrivers to remove the rear cover.
   - **DO NOT** pry the micro USB port.

4. Remove the micro-SIM card from the micro-SIM card slot.

5. Put the rear cover back in place.
Installing a memory card

Your ASUS Phone supports a microSD™ and microSDHC™ memory card with up to 128 GB capacity.

**NOTE:** Some memory cards may not be compatible with your ASUS Phone. Ensure that you use only compatible memory cards to prevent loss of data, damage to your device or memory card, or both.

<table>
<thead>
<tr>
<th>CAUTION!</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Be extra careful when handling a memory card. ASUS is not responsible for any data loss or damage incurred to your memory card.</td>
</tr>
<tr>
<td>• Do not insert a micro-SIM card into the memory card slot! If a micro-SIM card happens to be inserted into the memory card slot, bring your device to an ASUS-qualified service personnel.</td>
</tr>
</tbody>
</table>

To install a memory card:

1. Turn off your device.

2. Locate the groove at the bottom of your ASUS Phone.

   **CAUTION!** Be careful when you pry open the cover.

3. Pry the cover loose and then pull the rear cover off.

   **CAUTION!** Be careful when you pry open the cover.

   **WARNING!**
   - **DO NOT** use tools like screwdrivers to remove the rear cover.
   - **DO NOT** pry the micro USB port.

4. Insert the microSD card into microSD card slot.

5. Put the rear cover back in place.

   **CAUTION!** Do not use sharp tools or solvent on your device to protect it from scratches.
Removing a memory card

**CAUTION!**
- Be extra careful when handling a memory card. ASUS is not responsible for any data loss or damage incurred to your memory card.
- Eject the memory card properly to safely remove it from device. To eject the memory card, go to **Home > All Apps > Settings > Storage > Unmount external storage.**

To remove a memory card:

1. Turn off your device.

2. Locate the groove at the bottom of your ASUS Phone.
   
   **CAUTION!** Be careful when you pry open the cover.

3. Pry the cover loose and then pull the rear cover off.
   
   **CAUTION!** Be careful when you pry open the cover.

**WARNING!**
- **DO NOT** use tools like screwdrivers to remove the rear cover.
- **DO NOT** pry the micro USB port.

4. Remove the microSD card from the microSD card slot.

5. Put the rear cover back in place.
   
   **CAUTION!** Do not use sharp tools or solvent on your device to protect it from scratches.
Charging your ASUS Phone

Your ASUS Phone comes partially charged but you must charge it fully before using it for the first time. Read the following important notices and cautions before charging your device.

**IMPORTANT!**
- Use only the bundled AC power adapter and micro-USB cable to charge your ASUS Phone. Using a different AC power adapter and cable may damage your device.
- Peel off the protective film on the AC power adapter and micro-USB cable before using it with your device.
- Ensure to plug the AC power adapter to a compatible power outlet. You can plug the AC power adapter to any compatible 100–240 V outlet.
- The output voltage of the AC power adapter for this device is +9V=2A, 18W.
- When using your ASUS Phone while plugged-in to a power outlet, the power outlet must be near your device and easily accessible.
- To conserve electricity, unplug the AC power adapter from the power outlet when not in use.
- Do not place heavy objects on top of your ASUS Phone.

**CAUTION!**
- While charging, your ASUS Phone can become warm. This is normal, however, if your device becomes unusually hot, disconnect the micro-USB cable from your device and send the device, including the AC power adapter and cable to an ASUS-qualified service personnel.
- To prevent any damage to your ASUS Phone, AC adapter, or micro-USB cable. Ensure that the micro-USB cable, AC adapter, and your device are connected properly before charging.

To charge your ASUS Phone:

1. Connect the micro USB cable to the power adapter.
2. Connect the micro USB cable to your ASUS Phone.
3. Plug the AC power adapter to a grounded power outlet.
IMPORTANT!

- When using your ASUS Phone while it is plugged to a power outlet, the grounded power outlet must be near to the unit and easily accessible.

- When charging your ASUS Phone through your computer, ensure that you plug the micro USB cable to your computer’s USB 2.0 / USB 3.0 port.

- Avoid charging your ASUS Phone in an environment with ambient temperature of above 35°C (95°F).

- Charge your ASUS Phone for eight (8) hours before using it in battery mode for the first time.

- The status of battery charge is indicated by the following icons:

  ![Battery Status Icons](image)

NOTES:

- Use only the power adapter that came with your device. Using a different power adapter may damage your device.

- Using the bundled power adapter and ASUS Phone signal cable to connect your ASUS Phone to a power outlet is the best way to charge your ASUS Phone.

- The input voltage range between the wall outlet and this adapter is AC 100V - 240V. The output voltage of the device is +9V=2A, 18W.

4. When fully-charged, disconnect the USB cable from your ASUS Phone first before unplugging the AC power adapter from the power outlet.

NOTES:

- You can use your device while charging but it may take longer to fully charge the device.

- Charging your device via USB port of a computer may take longer to fully charge the device.

- If your computer does not provide enough power for charging via USB port, charge your ASUS Phone using the AC power adapter plugged to a power outlet instead.
Turning your ASUS Phone on or off

Turning your device on
To turn your device on, press and hold the power button until your device vibrates and starts up.

Turning your device off
To turn your device off:

1. If your screen is turned off, press the power button to turn it on. If your screen is locked, unlock the device screen.

2. Press and hold the power button, then when prompted, tap **Power off** then tap **OK**.

Sleep mode
To put your device in sleep mode, press the power button once until the screen turns off.
Starting for the first time

When you turn your ASUS Phone on for the first time, Setup Wizard will guide you through the setup process. Follow the onscreen instructions to select your language, select input methods, set up your mobile network and Wi-Fi, sync accounts, and configure your location services.

You can also transfer your data, such as your contacts and other relevant info, from your old mobile device to your ASUS Phone via the Data Transfer app.

NOTE: You can use the Data Transfer app any time at your convenience. From the Home screen tap 

> Data Transfer. For more details, see Data Transfer.

Use your Google or ASUS account to set up your device, if you do not have a Google or ASUS account yet, go ahead and create one.

Google Account

Using a Google Account allows you to fully utilize these Android OS features:

• Organize and see all your information from anywhere.

• Automatically backup all your data.

• Leverage Google services conveniently from anywhere.

ASUS Account

Having an ASUS Account gets you to enjoy the following perks:

• Personalized ASUS support service and warranty extension for registered products.

• Free 5 GB of Cloud storage space.

• Receive the latest device and firmware updates.

NOTE: You can also use the Setup Wizard to reconfigure your device, any time at your convenience. From the Home screen tap 

> Setup Wizard.
Battery power conservation tips

The battery charge is the lifeline of your ASUS Phone. Here are some battery power conservation tips that helps preserve the power of your ASUS Phone battery.

– Close all running apps that are not in use.
– When not in use, press the power button to put the device in sleep mode.
– Activate Smart Saving in Power Saver app.
– Set audio to Smart Mode.
– Decrease brightness of display.
– Keep the speaker volume to a low level.
– Disable Wi-Fi feature.
– Disable Bluetooth feature.
– Disable the screen auto-rotate feature.
– Disable all auto-sync features in your device.
Using the touchscreen
Use these gestures on the touchscreen to launch apps, access some settings, and navigate your ASUS Phone.

Launching apps or selecting items
Do any of the following:

- To launch an app, simply tap on it.
- To select an item such as in File Manager app, simply tap on it.

Moving or deleting items
Do any of the following:

- To move an app or widget, tap and hold then drag it to the location where you want it to be.
- To delete an app or widget from the Home screen, tap and hold then drag it up to Remove.
Moving through pages or screens

Do any of the following:

• Swipe your finger to the left or to the right to switch between screens or to flip through a Gallery of images.

• Scroll your finger up or down to go through web pages or list of items.

Zooming in

Spread apart your two fingers on the touch panel to zoom in an image in Gallery or Maps, or zoom in a web page.
Zooming out

Bring together your two fingers on the touch panel to zoom out an image in Gallery or Maps, or zoom out of a web page.

NOTE: You may not be able to zoom in/out of some web pages as these pages may have been designed specifically to fit your mobile screen.
There’s no place like Home

Zen Home features

Home screen
Get reminders of important events, app and system updates, weather forecasts, and text messages from people who really matter to you, right from your Home screen.

Swipe the Home screen to the left or right to display the extended Home screen.

NOTE: To add more pages to your Home screen, see Extended Home screen.
Understanding notification icons

These icons are shown on the status bar and will guide you of the current status of your ASUS Phone.

Quick settings

The Quick settings panel provides a one-tap access to some of the wireless features and settings of your ASUS Phone. Each of these features are represented by a button.

To launch the Quick settings panel, swipe down twice from the top of your screen.

**NOTE:** A blue button indicates that the feature is currently enabled while a gray button indicates a disabled feature. The green buttons refer to individual utilities that you can quickly access via the Quick Settings Notification Panel.
Adding or removing buttons

To add or remove existing buttons from the ASUS Quick Settings notification panel:

1. Launch Quick settings then tap ．

2. Tap the box beside the feature to add or remove it from the ASUS Quick Setting Notification Panel.

   NOTE: A checked box indicates that the feature’s button is accessible via the ASUS Quick Settings Notification Panel while an unchecked box means the opposite.

3. Tap ← to go back and view the current ASUS Quick Settings notification panel.

System notifications

From System notifications, you can see the latest updates done and system changes made on your ASUS Phone. Most of these changes are data and system-related.

To launch the System notifications panel, swipe down from the top of your screen.
Personalizing your Home screen

Stamp your own personality on your Home screen. Select an attractive design as your wallpaper, add shortcuts for quick access to your favorite apps, and add widgets for a quick review of important info. You can also add more pages so you can add and quickly access or view more apps or widgets on your Home screen.

To launch the Manage Home screen:

- Tap and hold an empty area on your Home screen
- Swipe up from the bottom of your Home screen

App & Widgets

App shortcuts make it easier to quickly-access your often-used or favorite apps from your Home screen. You can add, remove, or group your apps into one folder.

You can put widgets, which are small dynamic apps, on your Home screen. Widgets provide you with quick-views of the weather forecast, calendar events information, battery status, and more.

Adding app shortcuts or widgets

To add an app shortcut or a widget:

1. Tap and hold an empty area on your Home screen and select **Apps & Widgets**.

2. From the All Apps list or the Widgets screen, tap and hold an app or a widget, then drag it to an empty area on your Home screen.

Removing app shortcuts or widgets

From your Home screen, tap and hold an app or widget, then drag it to **Remove** on top of your screen. The app that you’ve removed from your Home screen will remain in the All Apps screen.
Grouping your app shortcuts in a folder
Create folders to organize your app shortcuts on your Home screen.

1. On your Home screen, tap and drag an app onto another app and a folder will appear with an automatically assigned name.

2. If you want to change the folder name, tap the folder and tap the folder name to assign a new name to this folder.

Wallpapers
Let your apps, icons, and other Zen elements sit on an attractively designed wallpaper. You may add a translucent background tint to your wallpaper for readability and clarity. You can also select an animated wallpaper to make your screen come alive.

Applying wallpaper and background tint
To apply wallpaper and background tint:

1. Tap and hold an empty area on your Home screen and select Wallpapers.

2. Select where you want your wallpaper: on your Home screen, Lock screen, or Home screen and lock screen. If you do not want to add a background tint to your wallpaper, skip to step 5.

3. Tick Background tint, then adjust the transparency level.

4. Tap 💨 then select a color.

5. Select a wallpaper, then tap Apply.

**NOTE:** Apply a background tint to your Home screen, or Home screen and lock screen.
Applying an animated wallpaper

To apply an animated wallpaper:

1. Tap and hold an empty area on your Home screen and select **Wallpapers**.

2. Select where you want your wallpaper: on your **Home screen**, or **Home Screen and lock screen**.

3. Select an animated wallpaper, then tap **Apply**.

   NOTE: You can also set up your wallpaper settings from **Settings > Display**.

Extended Home screen

Extending your Home screen

You can add more pages to extend your Home screen and put more app shortcuts and widgets on it.

1. Tap and hold an empty area on your Home screen and select **Edit pages**.

2. Tap + to add a new page. If you wish to delete an extended Home screen, select then drag and drop it into 🔥.

Easy Mode

Navigate your ASUS Phone better with Easy Mode, an intuitive interface with large icons, buttons, and font size for better readability and easier user experience. You can also quickly do your core tasks such as making calls, sending messages, and more in Easy Mode.

Enabling Easy Mode

To enable Easy Mode:

1. Launch the Settings screen by doing any of the following:
   - Launch Quick settings then tap 🔄.
   - Tap 🎥 > **Settings**.

2. Scroll down the **Settings** screen and select **Easy Mode**.

3. Slide Easy Mode to **ON**.
Adding shortcuts
In Easy Mode, you can add up to thirty-six (36) app shortcuts on the Home screen.

1. Swipe to the right of the Home screen, then tap +.

2. From the All apps screen, select the app that you want to add to the list.

Removing shortcuts
Do the following:

1. Tap .

2. Select the app or apps that you want to remove from the list, then tap Delete.
**Adding contacts**

In Easy Mode, you can add your frequently contacts on the Home screen.

1. Swipe to the left of the Home screen, then tap ![Add contacts](image).
2. From the Contacts screen, select the contact that you want to add to the list.

**Removing contacts**

Do the following:

1. Swipe to the left of the Home screen, then tap **Edit contacts**.
2. Select the contact or contacts that you want to remove from the list, then tap **Delete**.

**Disabling Easy Mode**

To disable Easy Mode:

1. Swipe down from the top of your screen then tap ![Settings](image).
2. Select **Easy Mode** from the **Settings** screen.
3. Slide Easy Mode to **OFF**.
Setting up the date and time

By default, the date and time displayed on your Home screen automatically syncs with your mobile provider’s settings.

To change the date and time settings:

1. Launch the Settings screen by doing any of the following:
   - Launch Quick settings then tap  
   - Tap  > Settings.
2. Scroll down the Settings screen and select Date & time.
3. Deselect Automatic date & time and Automatic time zone.
4. Select the time zone and manually set the date and time.
5. You can opt to use the 24-hour format, if you prefer.
6. Select the date format that you want to display.

**NOTE:** See also Clock.

Setting up your ringtone and alert sounds

Set up the sound for your phone ringtone, notifications such as text messages, emails, and event alerts. You can also choose to enable or disable the dial pad touch tones, touch sounds, screen lock sound, or you can choose to have your ASUS Phone vibrate when you tap on it.

To set up the sound settings:

1. Launch the Settings screen by doing any of the following:
   - Launch Quick settings then tap  
   - Tap  > Settings.
2. Scroll down the Settings screen and select Sound & notification.
3. Set up your preferred sound settings.
Lock Screen

By default, the lock screen appears after turning on your device and while waking it up from sleep mode. From the lock screen, you can proceed to your device's Android® system by swiping on your touch screen panel.

Your device's lock screen can also be customized to regulate access to your mobile data and apps.

Customizing your lock screen

If you want to change your lock screen settings from the default Swipe option, refer to the following steps:

1. Launch Quick settings then tap .
2. Scroll down the Settings screen and select Lock screen.
3. In the next screen, tap Screen lock.
4. Tap the screen lock option you would like to use.

**NOTE:** For more details, see Securing your ASUS Phone.
Customizing the quick access buttons

By default, your lock screen includes quick access buttons for these apps: Phone, Messaging, and Camera. Change this default settings and customize these buttons to launch other apps on the lock screen using the following steps:

1. Launch Quick settings then tap  

2. Scroll down the **Settings** screen and select **Lock screen**.

3. Under **Display**, slide the bar from **OFF** to **ON** beside **Customized quick access** to enable this feature.

4. Under the **Customized quick access** screen, select which button you would like to customize.

5. Tap the app you would like to preset on the quick access button you chose to configure.

**NOTE:** Scroll up or down to view the current list of apps you can preset.

6. Hold and drag a quick access button to rearrange its order.
Work hard, play harder

Browser

Your browser’s state-of-the-art Chromium-based engine lets you surf the Internet at a fast loading speed. Its clean and intuitive Zen interface powered by text-reflow technology optimizes web contents to better fit the screen of your ASUS Phone. With its magazine view mode via its Smart Reader feature, you can pleasurably read your favorite web contents online or offline without any distracting items such as banner ads. You can also mark an interesting page as a read later task, which you can retrieve from the Do It Later app and read at your convenient pace.

IMPORTANT! Before doing any Internet surfing or Internet-related activities, ensure that your ASUS Phone is connected to a Wi-Fi or mobile network. For more details, see Staying connected.

Launching the Browser app

From your Home screen, do any of the following to launch the Browser app:

- Tap 🌐
- Tap 🌐 > Browser.
Sharing pages
Share interesting pages from your ASUS Phone to others via an email account, cloud storage account, Bluetooth, or other ASUS Phone apps.

1. Launch the browser.
2. From a web page, tap $\rightarrow$ Share link.
3. Tap the account or app that you want to use as medium in sharing the page.

Reading the pages later
When there’s an interesting piece of information online yet you don’t currently have the time to read it, you can mark it as a read later task. You can retrieve and read this page at a convenient time from the Do It Later app.

1. To mark as a read later task, from the page, tap $\rightarrow$ Read later.
2. To retrieve the page, tap ASUS $\rightarrow$ Do It Later from the Home screen.

   **NOTE:** For details on browsing read-later pages, see Catching up on my online reading now.

Adding a new tab
Hide the current website and open a new window to continue surfing or browsing another website.

1. From the current page, tap $\rightarrow$ New tab.
2. Enter the URL address in the URL field and continue enjoying browsing the Internet from your ASUS Phone.
3. If you want to do add another tab, follow step 1 again.

**NOTES:**
- Opening many websites in your browser slows down its loading performance.
- If Internet connection slows down, try clearing the cache. For details, refer to the section Clearing the browser cache.
**Bookmarking pages**

Bookmark your favorite pages or websites so you can go back and browse them again.

To bookmark a page:

From the page, tap > **Save to bookmarks**. The next time you open your browser, you can quickly tap on your bookmarked page.

**Smartly read online**

Your ASUS Phone automatically enables the Smart Reader Mode on pages that contain a lot of items that you may find unnecessary or distracting such as banner ads, icons, or menu items. You can remove these items and read only the main contents of the page.

**NOTE:** Smart Reader Mode supports Wikipedia, CNN, ESPN, BCC, and NY Times sites.

To use the Smart Reader Mode:

- Tap the Smart Reader Mode icon to automatically remove any unnecessary or distracting items and show only the main contents of the page.

- From the Smart Reader Mode page, do any of the following:
  - Tap to show your Reader’s List or saved pages.
  - Tap to launch the Marker tool and select your preferred color, then swipe over the text that you want to highlight.
  - Bring two fingers together or spread them apart to zoom in/out of a page.
Clearing the browser cache

Clear the browser cache to delete temporary Internet files, websites, and cookies that are temporarily stored in your ASUS Phone. This helps improve the loading performance of your browser.

1. Launch the browser.

2. Tap 📱 > Settings > Privacy & security > Clear cache.

3. Click OK on the confirmation message.

Email

Add Exchange, Gmail, Yahoo! Mail, Outlook.com, POP3/IMAP accounts so you can receive, create, and browse emails right from your device. You can also sync your email contacts from these accounts to your ASUS Phone.

IMPORTANT! Your ASUS Phone must be connected to a Wi-Fi or mobile network so you can add an email account or send and receive emails from added accounts. For more details, see Staying connected.

Setting up email accounts

Set up your existing personal or work email account so you can receive, read, and send emails from your ASUS Phone.

1. From the Home screen, tap Email to launch the Email app.

2. Tap the mail provider you want to set up.

3. Key in your email address and password and tap Next.

   NOTE: Wait while your device automatically checks your incoming and outgoing mail server settings.

4. Configure the Account settings such as inbox checking frequency, sync days, or notification for incoming emails. When done, tap Next.

5. Key in an account name that you want to be displayed in the outgoing messages, then tap Next to log into your inbox.

   NOTE: If you want to set up your work account on your ASUS Phone, ask for the email settings from your network administrator.
Adding email accounts

If you don’t have an existing email account, you can create one so you can receive, read, and send emails right from your ASUS Phone.

1. From the Home screen, tap Email to launch the Email app.

2. Tap > Settings, then add an email account.

3. Tap the mail provider that you want to add.

4. Follow the succeeding instructions to complete setting up your new email account.

   NOTE: You may also refer to steps 3 to 5 in the Setting up email accounts section to complete this setup process.

Setting up a Gmail account

Set up your Gmail account to get into Google-related services and apps as well as receive, send, and browse emails right from your ASUS Phone.

1. Tap Google then tap Gmail.

2. Tap Existing and key in your existing Gmail account and password, then tap .

   NOTES:
   • Tap New if you do not own a Google account.
   • When signing in, you have to wait while your device communicates with Google servers to setup your account.

3. Use your Google account to backup and restore your settings and data. Tap to sign in to your Gmail account.

   IMPORTANT! If you have several email accounts aside from Gmail, use Email app to set up and access all your email accounts.
Emailing invites to events

You can email invites to an event right from your ASUS Phone as well as set an alert notice for the event.

1. From the Home screen, tap Email.

2. Tap ☐ > Meeting invitation.

3. In the Event name field, enter the name of the event.

4. In the Location field, enter the street, town/city/province, country, and zip/postal code of the venue for the event.

5. Turn Countdown to ON. You’ll get a countdown notice on the System notifications panel as to the days left until this event takes place.

   **NOTE:** For details on the System notifications panel, see System notifications.

6. On the Reminders field, select the time that you want to get an alert or reminder about the event.

   **NOTE:** You’ll get an event alert as your What’s Next activity. For more details, see What’s Next.

7. Tap the Guests field and select the contacts you want to send the invites to.

8. Once finished, tap ✔️ to save and exit.

   **NOTE:** You can also email invites from the Calendar app. For details, see Creating events.

Emailing later

When you receive an email, you can set it as email later task and you can reply to this email at a more convenient time from the Do It Later app.

1. From the Home screen, tap Email.

2. Select the email that you want to email later from your inbox.

3. Tap ☐ > Reply Later.

4. To retrieve the email, tap Asus > Do It Later from the Home screen.

   **NOTE:** For details on answering your reply-later emails, see Emailing now.
Calendar

The Calendar app enables you to keep track of important events using your ASUS Phone. Along with creating events you may also set reminders, or create a countdown notice to ensure you don’t forget these important occasions. It also stores the events, such as birthdays and anniversaries, that you’ve set up for your VIP contacts.

Creating events

To create an event:

1. Tap **ASUS > Calendar**.

2. Tap + to start creating a new event.

3. In the New event screen, input all the necessary details of your event.

4. Turn Countdown to **ON**. You’ll get a countdown notice on the System notifications panel as to the days left until this event takes place.

   **NOTE:** For details on the System notifications panel, see **System notifications**.

5. On the **Reminders** field, select the time that you want to get an alert or reminder about the event.

6. Once finished, tap ✔️ to save and exit.

Adding accounts to Calendar

Aside from creating an event logged on your ASUS Phone, you can also use Calendar to create events that get automatically synced with your online accounts. But first, these accounts must be added to Calendar using the following steps:

1. Tap **ASUS > Calendar**.

2. Tap 📚 > **Accounts** > +.

3. Tap the account you want to add.

4. Follow the succeeding onscreen instructions to complete adding the new account to Calendar.
Creating an event from your account

After adding online accounts that you would like to sync with Calendar, you may now use your ASUS Phone to create notifications for those online accounts by following these steps:

1. Tap **ASUS > Calendar**.

2. Tap + to start creating a new event.

3. In the New event screen, tap **My Calendar** to view all the accounts currently synced with the Calendar.

4. Tap the account where you would like to create a new event.

5. In the New event screen, input all the necessary details of your event.

   **NOTE:** Your online account must already be added to Calendar before you can proceed with the following steps. For more details, see [Adding accounts to Calendar](#).

Enabling alert reminders for events

Turn on the alert function from the Calendar app to get alert reminders and notifications for special events such as birthdays, anniversaries, meetings, and other important events that matter you.

1. Tap **ASUS > Calendar**.

2. Tap > **Accounts**.

3. Tap the accounts from which you want to receive alert reminders from.

   **NOTES:**
   
   • For details on setting up event alerts about your VIPs, see [Adding an event to a VIP contact](#).
   • Get alerts or reminders as your [What's Next](#).
What’s Next

Do not miss out on important events, having fun out in the sun, or getting messages/emails/calls from your VIP contacts. Set up your calendar of events, VIP groups, or weather update settings to get alerts and reminders of What’s Next. View your What’s Next alerts from What’s Next widget or app.

Launch the What’s Next app:

• Tap 📅 > What’s Next.

Getting event reminders

To get your What’s Next event reminders and notifications, ensure the following:

• Set up your VIPs’ events info such as birthdays or anniversaries on the Contacts app. For details, see Adding an event to a VIP contact.
• You can email invites to an event and set the reminder time in the Email app. For details, see Emailing invites to events.
• You can set up an event and set the reminder time in the Calendar app. For details, see Creating events.

![What's Next app screenshot](image.png)
Accepting or declining invites to events

Set up your email account in the Email app to send or receive emails such as invites to events. When you accept email invites, the events will be synced with the Calendar app.

**NOTE:** For more details, see Email and Calendar.

**IMPORTANT!** Your ASUS Phone must be connected to a Wi-Fi or mobile network to get emailed invites or event-related alerts. For more details, see Staying connected.

To accept or decline an invite:

1. Tap your email invite to open it.
2. Tap **Yes** to accept or **No** to decline the invite. Your reply will be emailed to the event organizer or host.

![Email Invitation](image.png)
Getting event-related alerts

When you accept an invitation to an event, you’ll get reminders of any changes to the event such as postponement, cancellation, change in event location, or shift in event schedule. These event-related alerts will be posted on What’s Next widget or app.

Start event alert

A few minutes before the event, you’ll get a reminder that the event is about to start. You can call to give the organizer or host a heads up if you’re running late.
Cancelled event alert
You’ll get a cancellation alert when the organizer or host cancels the event.

Rescheduled event alert
You’ll get an alert if the event has been postponed, rescheduled, or moved to another location.
Getting the weather updates

Get real-time AccuWeather® updates, every hour or up to 12 hours, for your current location or for other parts of the world. You can make plans for up to seven (7) days with the 7-day weather forecast or dress appropriately based on AccuWeather RealFeel® temperature. You can also get the real-time UV index or air pollution index, letting you take the necessary protective measures against harmful ultra-violet rays or air pollutants.

1. Before getting the weather updates, ensure the following:
   - Wi-Fi or mobile network is turned on.
   - Turn on the location access from > Settings > Location.

2. Launch the Weather app in any of these two ways:
   - Tap > Weather.
   - From your ASUS Phone’s home screen, tap the weather icon.

3. Tap > Edit then tap +.

4. In the search box, enter the city or area whose weather updates you want search for.

5. Wait for a while your ASUS Phone gets the weather information. The city or area’s weather data will be added to your location list. Tap the city’s or area’s weather data that you want to display on the What’s Next widget on the Home screen.
Do It Later

Get hold of even the most trivial things in your busy life. Even when you’re too busy, reply to your emails, SMS messages, calls, read news online, or add other important to-do tasks at your convenience.

Mark your unread messages or emails, interesting web pages, and missed calls as **Reply Later, Read Later, or Call Later** items. These marked items will be added to your Do It Later tasks, and you can act on these tasks at a convenient time.

**NOTES:**
- Popular third-party apps that support Do It Later include Google Maps, Google Chrome, Google Play, YouTube, and iMDb.
- Not all apps can share and add tasks to Do It Later.

Adding to-do tasks

Create important to-do tasks to organize your work or social activities in your professional or social life.

1. From the Home screen, tap **ASUS > Do It Later**.
2. Tap + then fill in the necessary information.
3. If you want to set the importance level, select **High** in the Importance field.
4. When you’re done, tap ✓.

Prioritizing to-do tasks

Set the importance level of your to-do tasks so you can prioritize and act on them accordingly.

1. From the Home screen, tap **ASUS > Do It Later**.
2. Tap the task that you want to set as a top priority.
3. Under the Importance field in the task screen, select **High**.
4. When you’re done, tap ✓.

**NOTE:** High-priority to-do tasks are marked as ✓ on your Do It Later list. This allows you to quickly determine which to-do tasks need immediate actions.
Calling back now
When you’ve previously set an important call as a call later task, you can retrieve it and call back when you’ve got the time to do so from the Do It Later app.

1. From the Home screen, tap ASUS > Do It Later.
2. Select the call that you want to call back, then tap Call now.
3. When you’re done, tap ✓ to mark the task as completed.

**NOTE:** For details on setting calls as call later tasks, see:
- Setting callbacks for incoming calls
- Setting callbacks for missed calls

Emailing now
You can mark an email as a reply later task and reply to it at a later time from the Do It Later app.

1. From the Home screen, tap ASUS > Do It Later.
2. Select the email that you want to reply now, then tap Reply now.
3. When you’re done, tap ✓ to mark the task as completed.

**NOTE:** For details on setting your emails as reply later tasks, see Emailing later.

Catching up on my online reading now
You can retrieve pages that you’ve previously marked as read later tasks and catch up on your online reading at your convenience from the Do It Later app.

1. From the Home screen, tap ASUS > Do It Later.
2. Select the page or pages that you want to read now, then tap Read now.
3. When you’re done, tap ✓ to mark the task as completed.

**NOTE:** For details on setting pages as read later tasks, see Reading the pages later.
Replying now
When you’ve previously set an SMS message as a reply later task, you can retrieve it and reply to the message when it’s convenient from the Do It Later app.

1. From the Home screen, tap ASUS > Do It Later.
2. Select the SMS message that you want to send a reply to, then tap Reply now.
3. When you’re done, tap to mark the task as completed.

**NOTE:** For details on setting pages as reply later tasks, see Messaging later.

Deleting to-do tasks
You can delete any completed, overdue, or unnecessary to-do tasks from the Do It Later app.

1. From the Home screen, tap ASUS > Do It Later.
2. Swipe the task you want to remove from the list to the left/right.
SuperNote

Turn note-taking into a fun and creative activity that syncs with your mobile data using SuperNote.

This intuitive app allows you to create notes organized per notebook by directly writing or drawing on the touchscreen. While creating notes, you can also add multimedia files from other apps and share them via social networks or your Cloud storage account.

Understanding icons

Depending on your selected input mode, these icons appear as you take down your notes on SuperNote.

- Select this type mode when you want to use the onscreen keyboard to enter your notes.
- Select this write mode when you want to scribble or write your notes.
- Select this draw mode when you want to create drawings or doodles.
- When in write or type mode, tap this icon to select text weight and color.
- When in draw mode, tap this icon to select the drawing tool to use, and the stroke color or size.
- When in draw mode, tap this icon to erase some contents in your notes.
- Tap this icon to take a photo or video, record audio, add timestamp and more to your notes.
- Tap this icon to add a new page to your notebook.
Creating a notebook

To create new files using Supernote, refer to the following steps:

1. Tap ASUS > SuperNote, then tap +.
2. In the pop-up screen, select Blank notebook or Choose a template.
3. Name the file and select Pad or Phone as the page size.
4. Select a template and start writing your notes.

Sharing a notebook on the Cloud

You may share your notebook on the Cloud using the following steps:

1. On the Supernote home screen, tap-and-hold the notebook you would like to share.
2. In the pop-up screen, tap Enable cloud sync.
3. Input your ASUS WebStorage account’s User name and Password details to proceed with syncing your notebook to the Cloud.
4. Once the notebook has been successfully synced to the Cloud, the Cloud icon appears on top of the shared notebook.

Sharing a note to the Cloud

Aside from your notebook, you may also share individual notes from your Supernote to your Cloud storage account. To do this:

1. Launch the notebook that contains the note you want to share.
2. Tap-and-hold the note you want to share.
3. In the pop-up screen, tap Share then select the type of file format you want to share it as.
4. In the next screen, select the Cloud storage account where you would like to share your note.
5. Follow the succeeding instructions to complete sharing your selected note.
File Manager

Using File Manager allows you to easily locate and manage your data on the internal storage of your ASUS Phone and its connected external storage devices.

Accessing the internal storage
To access the internal storage:

1. Tap ASUS > File Manager.
2. Tap ➔ Internal storage to view the contents of your ASUS Phone then tap an item to select.

Accessing the external storage device
To access the external storage device:

1. Insert the microSD card into your ASUS Phone.
2. Tap ASUS > File Manager.
3. Tap ➔ MicroSD to view the contents of your microSD card.

Accessing Cloud Storage

**IMPORTANT!** Ensure that Wi-Fi or mobile network is enabled on your ASUS Phone. For details, see Staying connected.

To access files saved on your cloud storage accounts:

1. Tap ASUS > File Manager.
2. Tap ➔ then tap a cloud storage location under Cloud storage.
The Cloud

Back up your data, sync files among different devices, and share files securely and privately via a Cloud account such as ASUS WebStorage, Drive, OneDrive, and Dropbox.

ASUS WebStorage

Register for or sign in to ASUS WebStorage and get free cloud storage. Automatically upload newly captured photos for instant sharing, sync files among different devices, or share files via your ASUS WebStorage account.

**NOTE:** To enjoy the auto-upload function, enable Instant Upload from **Settings > Instant Upload** in your ASUS WebStorage.

**IMPORTANT!** Ensure that Wi-Fi or mobile network is enabled on your ASUS Phone. For details, see [Staying connected](#).
**Data Transfer**

Transfer your data such as contacts, calendar entries, or SMS messages from your old mobile device to your ASUS Phone via Bluetooth technology.

To use Data Transfer:

1. Pair your old mobile device with your ASUS Phone via Bluetooth.

   **NOTE:** For more details on pairing devices, see [Pairing your ASUS Phone to a Bluetooth device](#).

2. From the All apps screen, tap **Data transfer**.

3. Tap **Transfer Wizard** then follow the onscreen instructions to complete the Data Transfer process.
**ASUS Support**

Find answers from FAQs (Frequently Asked Questions) or directly interact with other Zen UI users to find and share solutions about ZenUI 2.0 apps.

To access ASUS Support:

1. Tap **> ASUS Support**.

2. Tap **ZenUI tips**, then select the app that you want to find answers for.
Call in style

Making calls
Your ASUS Phone offers you many ways to make a call. Call your friends from your contacts list, smart dial to quickly place a call, or enter a speed-dial number to call your frequently-called contact.

**NOTE:** Organize your contacts in the Contacts app. For details, see Managing contacts.

Launching the Phone app
From your Home screen, do any of the following to launch the Phone app:

- Tap ☑️.
- Tap ☑️ > Phone.

Dialing a phone number
Use the Phone app to directly dial a phone number.

1. From the Home screen, tap ☑️ then tap the number keys.
2. Tap the call button to dial the number.

Dialing an extension number
When you need to call an extension number, you can do any of these steps to skip the voice prompts.

Prompting for confirmation of an extension number
You can insert a confirmation prompt for the extension number after dialing the main number.

1. From the Phone app, enter the main number.
2. Tap and hold # to insert a confirmation prompt, which is denoted by a semi-colon (;).
3. Tap the call button to make the call.
4. When prompted, tap Yes to confirm the extension number.
Auto-dialing an extension number
You can insert a short or long pause after dialing the main number, then the extension number is dialed automatically.

1. From the Phone app, enter the main number.

2. Tap and hold * to insert a pause, which is denoted by a comma (,).

   **NOTE:** If you want a longer pause, tap and hold * again.

3. Enter the extension number.

4. Tap the call button to place the call.

5. Tap to end the call.

Smart dialing your contacts
As you enter the first few numbers or letters of your contact’s name, Smart Dial filters through your contacts list or call logs and provide you with possible matches. You can check if the contact you’re trying to reach is on the list of possible matches, then you can quickly place that call.

1. Launch the Phone app then enter the number or name of the contact.

2. From the list of possible matches, tap the contact you wish to call. If the contact is not on list, enter the complete number or name of the contact.

3. Tap the call button to make the call.

Speed dialing your contacts
Assign Speed Dial keys to quickly call your frequently-called contacts with just one tap on a single digit from the Phone app.

   **NOTE:** By default, the digit 1 is reserved for your voicemails. You can retrieve your voicemails by tapping the digit 1, if you’ve subscribed to this service with your mobile service provider.
Creating a speed dial entry
Create speed dial entries from digits 2 to 9 for your frequently-called contacts.

1. From the Phone app, do any of the following:
   - Tap and hold any digits from 2 to 9, then tap OK on the Speed Dial confirmation screen.
   - Tap > Speed dial to launch the Speed Dial screen.
2. Select a contact from your contacts list. This speed dial entry will be saved on the Speed Dial screen.

Deleting a speed dial entry
To delete a speed dial entry:

1. From the Phone app, tap > Speed dial to launch the Speed Dial screen.
2. Tap and hold a speed dial entry, then tap Remove.
3. Tap OK on the confirmation message.

Replacing a speed dial entry
You can replace the contact assigned to a speed dial key with another contact.

1. From the Phone app, tap > Speed dial to launch the Speed Dial screen.
2. Tap and hold a speed dial entry, then tap Replace.
3. Select a contact from your contacts list.
Home dialing
When you’re on a trip abroad, enabling and configuring the Home dialing settings make it easier for you to quickly call home.

NOTE: Using a roaming service will incur additional charges. Inquire from your mobile service provider before using the roaming service.

1. Launch the Settings screen by doing any of the following:
   • Launch Quick settings then tap  
   • Tap  > Settings.
2. Tap Call settings > Home dialing.
3. Tick Home dialing.
4. Tap Home dialing settings, select the settings, then tap OK when done.

   NOTE: For info on other call settings, see Call Settings.

Calling from Contacts app
Use the Contacts app to make a call from your contacts list.

1. Launch the Contacts app.
2. Tap the contact name then tap the number that you wish to dial.
3. Tap the call button to make the call.
4. Tap  to end the call.

   NOTE: To view all contacts from all contact accounts, tap Contacts to display dropdown list then tick all accounts.

Calling your favorite contacts
When you add a contact to your Favorites list, you can quickly call the contact from the Phone app.

1. Launch the Contacts or the Phone app.
2. Tap  to display your Favorites list, then tap your favorite contact whom you want to call.
3. Tap  to end the call.
Receiving calls

The touch screen of your ASUS Phone lights up when there is an incoming call. The display of the incoming call also varies, depending on the status of your ASUS Phone.

Answering calls

There are two ways to answer a call depending on the status of your ASUS Phone:

- If your device is active, tap Answer or to reject a call, tap Decline.

- If your device is locked, drag to answer or to reject the call.

Setting callbacks for incoming calls

When you can’t answer an incoming call from a mobile number right away, you can set it as a call later task. You can retrieve and act on this task at a more convenient time from the Do It Later app.

1. On an incoming call from a mobile number, swipe up from the lower part of the screen.

2. Tap Can’t talk now, will call you later. An SMS message will be sent to your caller.

3. To retrieve the call, tap ASUS > Do It Later from the Home screen.

**NOTE:** For details on giving a callback, see Calling back now.

Managing your call logs

From your call logs, you can call back your missed calls, save calls to your contacts list, block callers, or redial your recently-called number or contact.

Setting callbacks for missed calls

You can set a missed call as a call later task. You can retrieve and do a callback for the missed call from the Do It Later app.

1. From the Phone app, tap to display your call logs.

2. Select a call log, then tap > Call later.

3. To retrieve the call, tap ASUS > Do It Later from the Home screen.

**NOTE:** For details on giving a callback, see Calling back now.
Blocking calls
You can add a number or call from your call log to your block list.

1. From the Phone app, tap 📞 to display your call logs.

2. Select the number that you want to block, tap ▶️ Add to block list, then tap OK.

Saving calls to Contacts
You can add a call/number from your call logs to your contacts list.

1. From the Phone app, tap 📞 to display your call logs.

2. Tap the number that you want to add to your contacts list.

3. Tap ☑️ beside the number.

4. Tap Create new contact to add a new entry to your contacts list.

   Tap Add to existing contact, select a contact, then tap OK if you want to overwrite the contact’s number with this new one.

Redialing your last-called number
To redial your last-called number:

1. From the Phone app, tap 📞 to display your call logs.

2. Tap Call to display your last-called number, then tap Call again to redial the number.

3. Tap ✅ to end the call.
Other call options

During an active call, tap \( \text{\textbullet} \) and tap any of the possible call options for when a call is in progress.

<table>

**IMPORTANT!** Before recording an active call, it is dictated by most local laws to ask permission from the other person or persons on the other line.

**NOTE:** For more details, refer to the section Recording calls.
Managing multiple calls
Your ASUS Phone provides you the convenience of making or taking two calls. You can also set up a conference call that suits for business meetings, party lines, and other group calls.

Answering another call
While you are talking on your ASUS Phone, you can hear a beeping sound, indicating of another incoming call. Tap Answer on the touch screen to receive an incoming call while on an active call.

Switching between calls
To switch between calls, tap on the touch screen.
Setting up a conference call

Your ASUS Phone, together with its GSM capability, can set up a conference call of up to five (5) people. During a call, you can add more contacts and merge all calls into one conference call.

1. Call a contact or dial a number. Wait for the other line to answer your call.

2. When your call is answered, tap 📞 then tap a contact or dial a number that you wish to include in your conference call.

3. Tap ✉️ to put the two calls in a conference call.

4. Tap ✉️ to add another contact, then tap ✉️ to merge the call to the current conference call. Repeat this step if you want to add more contact/s to your conference call.
Managing a conference call
During the conference call, you can separate the contact from the conference group for private conversation, or disconnect a contact from the conference call.

1. From the Conference call screen, tap **Manage conference call** to open a list of contacts in the conference call.

2. To remove a contact from the conference call, tap . To disconnect a contact from the conference call, tap .

3. Tap to go back to the Conference call screen.
Recording calls

Your ASUS Phone allows you to record a conversation for future reference or information.

1. Call a contact or dial a number.

2. Tap 🎤 to record the call.

**IMPORTANT!** Before recording a call, ensure that you ask for permission from the other party or parties.

3. To stop recording, tap 🎤. This 🎤 icon appears on the system notification bar.

4. Swipe down the upper left corner of the screen, then tap **Call recording saved** notification to view the recorded conversation.
Managing contacts

Organize your contacts and easily stay in touch with them via calls, SMS messages, emails, or social networks. Group your contacts as Favorites to quickly get in touch with them, or group them as VIPs to get notified about any upcoming events, missed calls, or unread messages.

You can also sync your contacts with your email or social network accounts, link contacts’ info for easy access in one place, or filter the contacts you want to keep in touch with.

To launch the Contacts app, tap ASUS > Contacts.

Contacts Settings

Select how you would want to display your contacts from the Contacts settings. Such display options include displaying only those contacts with phones, sorting list by first/last name, or viewing contact names as first/last names first. You can also choose which of these tabs to display on your Contacts screen: Favorites, Groups, VIP.

To set up your Contacts settings, tap > Settings from the Contacts app.

Setting up your profile

Make your ASUS Phone truly your own and set up your profile info.

1. Launch the Contacts app then tap Set up my profile or ME.

   **NOTE:** ME appears when you’ve set up your Google account on your ASUS Phone.

2. Fill in your info such as mobile or home number. To add other info, tap Add another field.

3. When you’ve completed your info, tap Done. To view your profile info, swipe down twice from the top right of your screen to launch the Quick settings panel, then tap the owner button.
Adding contacts

Add contacts to your device, corporate, Google, or other email accounts and fill in more important contact information such as contact numbers, email addresses, special events for VIPs, and more.

1. Launch the Contacts app then tap +.

2. Select Device.

   **NOTES:**
   - You can also save the contact to your SIM card or an email account.
   - If you don’t have an email account, tap Add account then create one.

3. Fill in the necessary information such as mobile or home number, email address, or group where you want to put the contact in.

4. After filling in the information and you want to add more contact numbers or email addresses, tap New.

5. If you want to add other contact information, tap Add another field.

6. When you’ve completed the info, tap Done.

Adding an extension number to a contact number

You can add a contact’s extension number to skip the voice prompts when making a call.

1. In the contact’s information screen, enter the contact’s main number and extension number in either of these two ways:
   - Insert a comma (,) after the main number, then enter the contact’s extension number. There’ll be a short pause before the extension number is dialed automatically. To extend the pause, tap Pause to insert another comma.
   - Insert a semi-colon (;) after the main number, then enter the contact’s extension number. When dialing the contact number, you’ll be prompted to confirm the extension number. Tap Yes on the confirmation message.

2. When you’ve completed the info, tap Done.
Customizing your contact’s profile

Edit your contact’s info, add a photo, set a ringtone, or take a photo as a cover for your contact’s profile.

1. Launch the Contacts app then select the contact whose info or profile you want to edit or customize.

2. Make the changes from the contact’s profile page.

   - Tap to edit your contact’s info
   - Tap to add your contact’s profile cover from Gallery or by capturing a photo
   - You can display a Facebook profile cover as the theme cover for a Facebook contact
   - Tap to add your contact’s photo from Gallery or by capturing a photo

Setting up your VIPs

Group your contacts as VIPs to get notified about upcoming anniversaries, birthdays, and other important events. You’ll also get alerts about any unread messages or emails, or any missed calls from your VIPs. You’ll get all these notices as your What’s Next alerts and reminders.

**NOTE:** For more details, see What’s Next.

Setting up your VIP from the contact’s info screen

To set up your VIP from the contact’s info screen:

1. Launch the Contacts app then tap the contact you want to set up as a VIP.

2. Tap to display the contact’s info screen.

3. In your selected contact’s screen, select VIP under the Group field.

4. When finished, tap Done. The contact is added to your VIP list.
Setting up your VIP from the VIP screen

To set up your VIP from the VIP screen:

1. Launch the Contacts app.

2. Tap 📞 > VIP.

3. In the VIP screen, tap 📞.

4. Select the contact or contacts you want to group as VIPS, then tap Add. The contact or contacts are added to your VIP list.

Adding an event to a VIP contact

You can add an event to a VIP contact such as anniversary, birthday, and other important events.

1. Launch the Contacts app, tap the contact you want to add an event detail to, then tap 📞.

2. In the contact’s info screen, tap Add another field > Events.

3. Select the date for the event, then tap Set.

4. Ensure that you select VIP under the Group field. When finished, tap Done.

5. The contact’s special event will appear in your calendar of events. If you want to get an event alert, set the reminder time in the Calendar app.

NOTES:

- Set the reminder time for events in Calendar to get What's Next event alerts or reminders.
- Aside from getting upcoming events reminders, you’ll also get new email/SMS message and missed call notifications from What's Next. For more details, see What's Next.
Marking your favorite contacts
Set your frequently-called contacts as your favorites to be able to call them quickly from the Phone app.

1. From the Home screen, tap Asus > Contacts.

2. Select the contact that you want to mark as a favorite.

3. Tap ✰. The contact is added to your Favorites List in the Phone app.

**NOTES:**
- To view your Favorites list, tap from the Home screen, then tap ✰.
- For more details, refer to the section Calling your favorite contacts.
- You can also set a favorite contact as a VIP. For more details, refer to the section Setting up your VIPs.

Importing contacts
Import your contacts and their respective data from one contact source to your ASUS Phone, email account, or a micro SIM card.

1. Tap Asus > Contacts then tap ✰ > Manage contacts.

2. Tap Import/export then select from the following importing options:
   a. Import from SIM card
   b. Import from storage

3. Select from the following accounts to save the contact:
   a. Email account/s
   b. Device
   c. SIM

4. Tick to select the contacts that you wish to import and when done, tap Import.
Exporting contacts
Export your contacts to any of the storage accounts in your ASUS Phone.

1. Tap Asus > Contacts then tap > Manage contacts.
2. Tap Import/export then select from the following exporting options:
   a. Export to SIM card
   b. Export to storage
3. Tap to select the contacts from the following accounts:
   a. All contacts
   b. Email account/s
   c. Device
   d. SIM card
4. Tick the contacts that you want to export.
5. When done, tap Export.

Managing your block list

Blocking contacts or numbers
Create your list of blocked contacts or numbers to avoid receiving any unwanted calls or messages. Your blocked calls and messages will be saved to the Block List archive.

1. Tap Asus > Contacts then tap > Manage contacts > Block list.
2. Tap , then do any of the following:
   • To block a contact, tap Choose from contacts, then select the contact you want to block from your contacts list.
   • To block a number from the recent call logs, tap Choose from recent call logs, then select the contact you want to block from your contacts list.
   • To block a number, tap Enter a number then enter the number that you want to block.
   • To block a SIP number, tap Enter a SIP number then enter the number that you want to block.
3. When done, tap OK.
Unblocking contacts or numbers
You may remove a blocked contact or number from your list and receive calls or messages from the contact or number again.

1. Tap ASUS > Contacts then tap > Manage contacts > Block list.

2. Tap and hold on the contact or number that you want to unblock then tap Remove from block list.

Social networking with your contacts
Integrating the social network accounts of your contacts makes it easier for you to view their profiles, news, and social feeds. Stay updated with the activities of your contacts in real time.

IMPORTANT! Before you can integrate social network accounts of your contacts, you need to log in to your social network account and sync its settings.

Syncing your social network account
Sync your social network account to add the social network accounts of your contacts to your ASUS Phone.

1. Do any of the following to launch the Settings app:
   - Launch Quick settings then tap 🌒.
   - Tap 📲 > Settings.

2. From the Settings screen, tap your social network account under Accounts section.

3. Tick Contacts to sync the social network accounts of your contacts.

4. Launch the Contacts app to view your contacts list.

5. To view only your contacts with social network accounts, tap Contacts to display then untick the other contact sources, leaving the social network name checked.

6. When done, tap ◀️ or anywhere on the screen.
Linking your contacts’ info

When you add social network or email accounts, data from these accounts automatically sync with the Contacts app. In some instances, some contact info may appear in several places or under different name variations or nicknames in the Contacts app. You can manually link and unify all these info and put them under one place or profile.

1. From the Contacts app, tap the contact whose info you want to link.
2. From the contact’s profile page, tap > Link.
3. From the Link contact screen, tap.
4. Select all the contact profiles that you think should be linked to one profile, then tap Link.
5. When finished, tap Done. You can now view and retrieve all your contact’s info under one profile.

Backup/restore call logs

Have your call logs stored in your ASUS Phone to track the calls that you’ve received, made, or missed. You can also send the saved call logs to your online storage account or email it via the installed email apps in your ASUS Phone.

Creating a call log backup

1. From the Home screen, tap Phone then tap to hide the keypad.
2. Tap then tap Backup call log.
3. Tap Backup call log to device to save the call log backup in your ASUS Phone. To email the call log backup, tap Backup call log to device and send out.
4. Key in a backup file name then tap OK. After the backup is successful, tap OK.

Restoring call log backups

1. From the Home screen, tap Phone then tap to hide the keypad.
2. Tap then tap Restore call log.
3. Select a call log backup that you want to restore, then tap OK.
4. After restoring call log is successful, tap OK. Tap to view the restored call logs.
Call Settings

Configure the settings for your incoming or outgoing calls, call barring, home dialing, and more.

1. Do any of the following to launch the Settings screen:
   - Launch Quick settings then tap 📲.
   - Tap 📞 > Settings.

2. Tap Call settings, then select any of these settings that you want to set up.

<table>
<thead>
<tr>

Send messages and more

Messaging
Messaging lets you send, promptly reply, or reply at a later time to important messages from your contacts in your SIM card installed on your ASUS Phone. You can also email your message threads or conversations to others to keep them in the loop.

Launching the Messaging app
From your Home screen, do any of the following to launch the Messaging app:

• Tap 📩.

• Tap 📱 > Messaging.

Sending messages
1. Launch the Messaging app then tap 📩.

2. In the To field, enter the number or tap 📱 to select a contact from your list.

3. Start composing your message in the Type message field.

4. When you’re done, tap the arrow to send your message.

Replying to messages
1. Tap your message alert from your Home screen or Lock screen.

2. Start composing your reply in the Type message field.

3. When you’re done, tap the arrow to send your message.

Blocking messages
Block spam messages such as sales ad messages, or messages from unwanted senders.

1. From the Home screen, tap 📩.

2. From your list of message threads, select the sender that you don’t want to receive any message from.

3. Tap 📱 > Add to block list.
Forwarding a message thread
You can forward a message thread or conversation to others, and set an alert so you can reply to an important message at a convenient time.

1. From the Home screen, tap 📨.
2. Tap to select a sender image, then tap > Forward SMS conversation.
3. Tap Select All or any of the messages from the thread, then tap Forward.
4. In the To field, tap + to select a contact’s email address or mobile number.
5. When you’re done, tap the arrow to send your message. The conversation will be forwarded as an MMS (Multimedia Messaging Service) message.

NOTES:
• Ensure that you have MMS subscription with your mobile service provider.
• Ensure that data access is enabled on your device. From your Home screen, tap > Settings > More > Cellular networks, then slide Data enabled to ON.
• Mobile data and messaging rates apply when forwarding conversations to others.

Messaging later
You can set an important message as a reply-later task and reply to it later from the Do It Later app.

1. In the message screen, tap 📩.
2. Tap Reply later. The message is added to your Do It Later tasks.
3. To retrieve and reply to the email, tap ASUS > Do It Later from the Home screen.

NOTE: For details on replying to reply-later messages, see Replying now.

Other messaging options
When you are in an active message thread or while composing a message, you can tap and do any of these other options below.

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Add subject</td>
<td>Tap to add the title of your message.</td>
</tr>
<tr>
<td>Insert smiley</td>
<td>Insert a smiley or emoticon into your message.</td>
</tr>
<tr>
<td>Insert text templates</td>
<td>Insert a predefined reply into the body of your message.</td>
</tr>
<tr>
<td>Delete messages</td>
<td>Tap this option and select the messages that you want to delete from the thread.</td>
</tr>
<tr>
<td>Settings</td>
<td>Tap this option to configure the message settings.</td>
</tr>
</tbody>
</table>
Omlet Chat

Omlet Chat is an open messaging and mobile sharing app that lets you chat with friends on the spot. It also allows you to manage your data by storing them securely to your private Cloud accounts.

NOTES:

• Omlet Chat app may only be available in some countries.
• On its first use, you have to visit Play Store to update Omlet Chat. You must have a Google account to update Omlet Chat.

Registering to Omlet Chat

Register to Omlet Chat with any of the following accounts:

• Mobile phone number
• E-mail account
• Gmail account
• Facebook account

Using your mobile phone number

To register using mobile phone number:

1. Tap then tap Omlet Chat.

2. On the Sign Up screen, swipe the screen to the left to read highlighted features of Omlet Chat. If you want to register immediately, tap Skip.

3. Select the country that you are currently located, key in your mobile phone number, then tap Next to receive a text message containing the PIN.

4. Key in the PIN then tap Next.

5. Key in your name then tap Get Started.

6. Tap Okay! Let’s do it! to update your friends from your contacts list. Tap No thanks to add your friends manually to your contacts list.

NOTE: Your Omlet contacts are automatically integrated to your contacts list in Contacts app. Refer to section Viewing your Omlet contacts from Contacts app for more information.
Using your Google™ account

To register using your Google™ account:

1. Tap then tap Omlet Chat.

2. On the Sign Up screen, tap Connect a different account here then tap Google.

3. Tap OK to use the Google account that you registered with your device.

4. Key in your name then tap Get Started.

5. Tap Okay! Let’s do it! to update your friends from your contacts list. Tap No thanks to add your friends manually to your contacts list.

   NOTE: Your Omlet contacts are automatically integrated to your contacts list in Contacts app. Refer to section Viewing your Omlet contacts from Contacts app for more information.

6. Tap to display the Omlet Chat menu.

Using your e-mail account

To register using your e-mail account:

1. Tap then tap Omlet Chat.

2. On the Sign Up screen, tap Connect a different account here then tap Email.

3. Key in your e-mail account then tap Next. Omlet Chat app will send a confirmation email to your e-mail account.

4. From your e-mail account, open the confirmation email from Omlet then tap the link to activate your account.

5. Key in your name then tap Get Started.

6. Tap Okay! Let’s do it! to update your friends from your contacts list. Tap No thanks to add your friends manually to your contacts list.

   NOTE: Your Omlet contacts are automatically integrated to your contacts list in Contacts app. Refer to section Viewing your Omlet contacts from Contacts app for more information.

7. Tap to display the Omlet Chat menu.
Using your Facebook® account
To register using your Facebook account:

1. Tap 📱 then tap Omlet Chat.

2. On the Sign Up screen, tap Connect a different account here then tap Facebook. Omlet Chat app will take you to Facebook screen to log in to your Facebook account.

3. Log in to your Facebook account then tap OK.

4. Key in your name then tap Get Started.

5. Tap Okay! Let’s do it! to update your friends from your contacts list. Tap No thanks to add your friends manually to your contacts list.

   **NOTE:** Your Omlet contacts are automatically integrated to your contacts list in Contacts app. Refer to section Viewing your Omlet contacts from Contacts app for more information.

6. Tap to display the Omlet Chat menu.

Sending Omlet invites
Invite your friends to use Omlet Chat by sending them Omlet invites to their e-mail or Facebook account.

Sending Omlet invites via Facebook
To send an Omlet invite via e-mail:

1. From the Omlet Chat screen, tap to display Omlet Chat menu.

2. Tap Contacts then tap Add/Invite friends.

3. From the Add contacts screen, tap Invite Facebook friends.

4. Log in to your Facebook account then tap OK to let Omlet Chat access your account.

5. Tap + to select the contacts then tap Send.

Sending Omlet invites via e-mail

1. From the Omlet Chat screen, tap to display Omlet Chat menu.

2. Tap Contacts then tap Add/Invite friends.

3. From the Add contacts screen, tap Invite address book friends.

4. Tick to select the contacts, then tap .
Using Omlet chat

Send text and multimedia messages for a fun, creative, and interactive conversation.

To start a conversation:

1. From the Omlet Chat screen, tap ☐ to display Omlet Chat menu then tap Contacts.

2. Tap the contact that you wish to chat then tap ☑️.

Sending a chat message

To send a chat message, key in your message in What’s up field then tap ☀️.

Sending a voice message

To send a voice message, tap and hold ☑️ while saying your message then release ☺️ to send.

Sending a virtual sticker

To send a virtual sticker, tap ☀️ then select from the available virtual stickers.

**NOTE:** You can download more virtual stickers from Sticker Store. To download the virtual stickers, tap ☀️ > ☑️ then tap ☔️.
Using drawer apps
Omlet Chat features these value-added drawer apps, allowing you to share multimedia messages for a more fun and personal touch.

To use these drawer apps, tap from the chat thread then select an app from the drawer app list to send a specific multimedia message.

Swipe up the screen shown above to view these icons:

More apps

More drawer apps
Aside from the default apps in the drawer app list, there are other apps listed in your Omlet Chat app that you can use. Simply tap from the chat thread, then tap to view more drawer apps.

Using other drawer apps
To use other drawer app, tap then tap an app to launch it.

Adding more drawer apps to the drawer app list
Tap to view more apps, then tap and hold an app and tap Pin it!

NOTE: The drawer apps may vary depending on location.
Using Social Hotspot

Social Hotspot is a quick and easy way to chat with your friends in one chat room. With this feature, you can start a group chat or simply join in a group chat without giving out your identification or contact information.

NOTES:
- You need to activate the GPS in your device to use Social Hotspot.
- Social Hotspot feature can detect Omlet Chat users in two (2) kilometer radius and is only active for four (4) hours.

Creating a Social Hotspot

To create a Social Hotspot:

1. From the Omlet Chat screen, tap to display Omlet Chat menu then tap Broadcasts here.

2. Tap Create to create an Omlet ID then tap OK.

3. Tap to go back to Broadcasts here screen. Your device automatically shows your location via Google Maps app.

4. On the upper right corner of the screen, tap .

5. From the Broadcasts here pop-up screen, you can do any of the following:
   - change Chat photo
   - edit Social Hotspot name
   - protect Hotspot

6. When done, tap OK to broadcast your social hotspot.
Joining a Social Hotspot

To join a Social Hotspot:

1. From the Omlet Chat screen, tap to display Omlet Chat menu then tap **Broadcasts here**. Omlet Chat launches the Google Maps app to your screen and shows the active social hotspots.

   **NOTE:** The social hotspots are marked by the icon.

2. Select a hotspot to join by doing any of the following:

   - From the integrated Google Maps screen, tap to show the name of the social hotspot then tap **OK** to join in the conversation.
   - On upper right corner of the screen, tap then tap on the social hotspot that you wish to join and tap **OK**.
On the Social Hotspot screen, you can chat with your friends, send stickers, or share photos with the group.

NOTE: To view shared photos, refer to section Viewing shared photos in Gallery app.
Viewing shared photos in Gallery app

The photos that you and your friends have shared in the Omlet Chat app’s chat room are instantly saved to your device. You can view the shared photos using the Gallery app.

To view the shared photos:

1. Launch the Gallery app.
2. From the Gallery main screen, tap then select **Social Gallery - Omlet**.

Viewing your Omlet contacts from Contacts app

Aside from connecting with your Omlet contacts in Omlet Chat app, you can also view and chat with your Omlet contacts using the Contacts app. The integration of your Omlet contacts to the Contacts app makes it easier for you to look up and chat to your Omlet contacts even without launching Omlet Chat app.

To view Omlet Contacts from Contacts app:

1. Launch the Contacts app by doing any of the following:
   a. From the Home screen, tap **ASUS > Contacts** app.
   b. From the Home screen, tap **Phone** app then tap  📞.
   c. From the All Apps screen, tap **Contacts** app.
2. Tap **Contacts to display** dropdown list to view the contact groups.

3. Untick all contact groups except **Omlet Chat**, then tap anywhere on the screen to display all Omlet contacts.

4. Tap an Omlet contact to select and view the contact details or chat with that contact directly.
Syncing Omlet Chat to Cloud

If you have a Dropbox®, Box®, or Baidu PCS Cloud account, the Omlet Chat app instantly uploads your private conversations and chat logs securely.

Before Omlet Chat app uploads your data, you have to sync your Cloud account to Omlet Chat app first. To do this:

1. From the Omlet Chat menu, tap **Settings**.

2. Tap **Cloud Storage**, then select from the following Cloud services:
   
   a. Dropbox  
   
   b. Box  
   
   c. Baidu PCS  

3. Key in your username and password to log in to your Cloud account. Follow the onscreen instructions to sync your Cloud account with Omlet Chat app.
Fun and entertainment

Using a headset
Have the freedom to do other things while you’re in a call or enjoy listening to your favorite music, using a headset.

Connecting the audio jack
Insert the 3.5mm headset jack into the audio port of your device.

WARNING!
- Do not insert other objects into the audio jack port.
- Do not insert a cable with electric power output into the audio jack port.
- Listening at a high volume for long periods can damage your hearing.

NOTES:
- We highly recommend to use only compatible headsets or the bundled headset with this device.
- Unplugging the audio jack while listening to music, automatically pauses the music played.
- Unplugging the audio jack while watching a video, automatically pauses the video playback.
Music

Music app automatically searches for music files from the internal and external storages on your ASUS Phone. You can organize these music files in a playlist or add them in a queue to play them sequentially. You can also stream music from cloud accounts such as ASUS WebStorage, Dropbox, OneDrive, and Drive.

**IMPORTANT!** Before streaming music from a cloud account, ensure that your ASUS Phone is connected to a Wi-Fi or mobile network. For more details, see [Staying connected](#).

Launching Music

To launch Music, tap 🎵 > Music.

Playing songs

To play a song:

1. From the Music app, tap Music then select Songs. You can also select these other options how you want to browse your music files: Album, Artist, Genres, Composer, or Folder.

2. From your list, tap the song that you want to play. Tap Play All if you want to play all songs.

3. Swipe up from the song title bar to get a full screen of the song that’s currently playing.

![Music app interface with controls](image)

**NOTE:** To add several songs to an existing playlist, see [Adding songs to a playlist](#).
Other playback options

During playback, you can tap and do any of these other options below.

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Add to playlist</strong></td>
<td>Tap to add the song to an existing playlist or create a new one to add the song to it.</td>

</table>

Streaming Cloud music

Register or sign in to a cloud account and stream music from your cloud account to your ASUS Phone.

**IMPORTANT!** Ensure that Wi-Fi or mobile network is enabled on your ASUS Phone. For details, see Staying connected.

Adding a cloud storage account

To add a cloud storage account:

1. From the Music home screen, tap .
2. Under Cloud Music, tap Add cloud service.
3. Select the cloud storage service where you want to play music files from.
4. Follow the succeeding instructions to complete signing in to your cloud storage account.
Streaming music from the cloud
To stream music from your cloud account.

1. From the Music home screen, tap  

2. Under Cloud Music, tap the cloud account where you want to stream music from.

3. Select the song, then tap to play it.

Creating a playlist
Get your favorite songs from different sources such as internal storage, external storage, or cloud accounts and organize them in a playlist.

1. From the Music home screen, tap  

2. Under Playlist, tap My playlist, then tap  

3. Assign a name to your playlist, then tap Save.

Adding songs to a playlist
You can add several songs to your playlist at on time from your local source (internal and external storages) or cloud accounts.

1. From the Music home screen, tap  

2. Under Playlist, tap My playlist, then tap the name of your playlist.

3. Tap Add songs.

4. Tap the music source where you want to get your songs from to add to your playlist.

5. Select how you’d want to browse your music: Album, Artist, Genres, Composer, Songs, or Folder.

6. Select the songs that you’d want to add to your playlist. Tap Select All if you want to add all songs from your music list, album, folder, or from your favorite artists.

NOTE: You can also add a currently-playing song to an existing playlist. For details, see Other playback options.
PlayTo other devices
Use the PlayTo function to stream music from your ASUS Phone to other Miracast or DLNA-enabled devices nearby.

To use PlayTo:

1. From a currently-playing song, tap \( \Rightarrow \) > PlayTo.

2. Tap the device that you want to stream music to. Music from your ASUS Phone will play or stream on the other device.

3. To stop PlayTo, tap \( \Rightarrow \) > Disconnect.

FM Radio
Listen to your favorite local radio stations using your ASUS Phone.

1. Connect the bundled headset with your ASUS Phone.

2. Tap \( \\
\) > FM Radio.
Scanning for local stations
To scan for stations in your area, tap \( \text{C} \) to automatically scan for your local radio stations. The available local stations are displayed on the FM Radio screen.

Tuning to another frequency
Do the following if you want to listen to a specific radio station:

1. From the FM Radio app, tap the current radio station.
2. On the Tune frequency box, enter the channel of your favorite radio station.
3. If you want to add it to your Favorites, tick \textit{Add to favorites}.
4. When done, tap \textbf{OK}. 

![Image of FM Radio app with tuning frequency and favorites options]
Capture moments

Launching the Camera app
Capture images and record videos using your ASUS Phone's Camera app. Refer to any of the steps below to open the Camera app.

From the lock screen
Drag down until the camera app is launched.

From the home screen
Tap .

Using the volume key
While your ASUS Phone is on sleep mode, double-click the volume key to wake it up and immediately launch the Camera app.

NOTE: Before using the volume key to launch the Camera app, enable this function from Settings > Lock screen, then slide Instant camera to ON.
Using Camera for the first time

After launching the Camera for the first time, two consecutive features appear to help you get started: Tutorial and Image locations.

Tutorial

If it is your first time to use your ASUS Phone’s camera, you will encounter the following tutorial screen after launching the Camera app. Refer to the following steps to proceed from this screen.

1. On the Tutorial screen, tap Skip if you want to skip viewing or Start to view the basic tutorial about using Camera.

2. After tapping either of these options, you will then proceed to the Remember Photo Locations screen.

Photo Locations

After going through the Tutorial screen, the Remember Photo Locations screen appears to help you create automatic location tags for your images. Refer to the following steps to proceed from this screen:

1. On the Remember Photo Locations screen, tap No thanks to proceed to the camera screen or Yes to set up location tagging for your captured images.

2. Slide Location to ON to enable the location tagging feature.

3. Tap Agree on the next screen to fully enable the feature and proceed to the Camera screen.
Camera home screen

Your ASUS Phone’s camera is equipped with auto-scene detection and auto-image stabilizer features. It also features a video stabilization function that helps prevent shakiness while video recording.

Tap the icons to start using your camera and explore the image and video features of your ASUS Phone.
Image settings
Adjust the appearance of your captured images by configuring your camera’s settings using the steps below.

**IMPORTANT!** Apply the settings first before taking images.

1. On the camera’s home screen, tap 📷 > 🌐.
2. Scroll down and configure the available options.

Image
Configure the image quality using these options.

Shoot mode
Set your shutter speed to Timer mode or change the Burst speed under this option.

Focus & exposure
Enable Touch auto-exposure or Face detection under this option.
**Video settings**

Adjust the appearance of your recorded videos by configuring your camera’s settings using the steps below.

**IMPORTANT!** Apply the settings first before taking images.

1. On the camera’s home screen, tap 📷 > .
2. Scroll down and configure the available options.

**Image**

Configure the video quality using these options.

![Video settings menu](image)

**Focus & exposure**

Enable **Touch auto-exposure** under this option.
Advanced camera features
Explore new ways of capturing images or videos and make captured extra special moments using the advanced camera features of your ASUS Phone.

IMPORTANT! Apply the settings first before taking images. Available features may vary per model.

Low light
Using PixelMaster, your camera's light sensitivity is increased by up to 400% to enhance noise reduction and boost color contrast by up to 200%. Use this mode to transform any subject into a great photo or video—with or without ample natural lighting.

Capturing Low light photos
1. From the Camera app's home screen, tap > Low light.
2. Tap to start capturing photos.

Capturing Low light videos
1. From the Camera app's home screen, tap > Low light.
2. Tap to start recording a video.

HDR
The High-dynamic-range (HDR) feature allows you to take more detailed images for low-light and highly contrasting scenes. HDR is recommended for use when taking images on brightly lit locations, helping balance out the colors produced on your image.

Capturing HDR photos
1. From the Camera app's home screen, tap > HDR.
2. Tap to start capturing HDR photos.
Panorama
Capture images from various angles using Panorama. Images captured from a wide angle perspective are automatically stitched together using this feature.

Capturing panoramic photos
1. From the Camera app’s home screen, tap > Panorama.
2. Tap then pan your ASUS Phone to the left or right to capture the scenery.
   
   **NOTE:** While panning your ASUS Phone, a timeline of thumbnails appears on the lower part of your screen as it captures the scenery.

3. Tap when finished.

Night
Take well-lit photos even on night time or on low-light situations using the Night feature of your ASUS Phone.

**NOTE:** Keep your hands steady while before and while the ASUS Phone is capturing the image to prevent blurry results.

Capturing Night photos
1. From the Camera app’s home screen, tap > Night.
2. Tap to start capturing Night photos.

Selfie
Take advantage of your rear camera’s high megapixel specs without worrying about pressing the shutter button. Using face-detection, you can set your ASUS Phone to detect up to four faces using the rear camera then automatically capture your selfie or group selfie.

Capturing Selfie photos
1. From the Camera app screen, tap > Selfie.
2. Tap to choose how many people should be included in the photo.
3. Use the rear camera to detect faces and wait for your ASUS Phone to start beeping, counting down until it captures the photo.
4. Tap to save the photo.
Depth of field
Take macro shots with a soft background using the Depth of field. This feature suits close up photos of subjects for a more defined and dramatic result.

Capturing photos with depth of fields
1. From the Camera app screen, tap 📷 > Depth of field.
2. Tap 📷 to start capturing macro photos.

Miniature
Simulate the tilt-shift effect of DSLR lenses via the Miniature feature. Using this feature allows you to focus on specific areas of your subject, adding a bokeh effect that can be used on both photos and video using your ASUS Phone.

Capturing Miniature photos
1. From the Camera app screen, tap 📷 > Miniature.
2. Tap 📷 or 📷 to select your focus area, then use your two fingers to adjust the focus area’s size and position.
3. Tap 📷 or 📷 to increase or decrease the background blur. Tap 📷 or 📷 to increase or decrease saturation.
4. Tap 📷 to capture Miniature photos.

Smart remove
Eliminate unwanted details immediately after capturing the image using the Smart remove feature.

Capturing Smart remove photos
1. From the Camera app screen, tap 📷 > Smart remove.
2. Tap 📷 capturing photos that can be edited using Smart remove.
3. On the captured photo, tap the outline around the detected moving object to delete it.
4. Tap ✔️ to save the photo.
All Smiles
Capture the perfect smile or the wackiest facial expression from a range of photos using the All Smiles feature. This feature lets you take five consecutive photos after pressing the shutter button, automatically detecting faces on the image for comparison.

Capturing All smiles photos
1. From the Camera app’s home screen, tap > All smiles.
2. Tap 📸 to start capturing photos that can be edited using All Smiles.
3. Touch the subject’s face, then select the subject’s best facial expression.
4. Swipe down from the top, then tap ✔️ to save the photo.

Beautification
Have fun during and after taking photos of your family and friends using the Beautification feature of your ASUS Phone. When enabled, this feature allows you to make live beauty enhancements on your subject’s face before you press the shutter button.

Capturing Beautification photos
1. From the Camera app’s home screen, tap > Beautification.
2. Tap 📸 to start capturing the photo.
3. Tap the thumbnail to preview the photo and display the Beautification settings.
4. Tap 📸 and select your preferred Beautification feature, then tap ✔️ to save the photo.

GIF animation
Create GIF (Graphics Interchange Format) images straight from your ASUS Phone’s camera using the GIF animation feature.

Capturing GIF animation photos
1. From the Camera app’s home screen, tap > GIF Animation.
2. Long press 📸 to start capturing burst photo for GIF animation.
3. Make your preferred adjustments to the GIF animation settings.
4. Tap ✔️ when finished.
Time lapse

The time lapse video feature of your ASUS Phone allows you to capture stills for automatic time lapse playback. In effect, events seem to move in a fast-forward manner though they actually occurred and were recorded between long intervals.

Recording Time lapse videos

1. From the Camera app’s home screen, tap > Time lapse.

2. Tap then select the time lapse interval.

3. Tap to start taking Time lapse videos.
Using the Gallery

View images and play videos on your ASUS Phone using the Gallery app. This app also allows you to edit, share, or delete image and video files stored in your ASUS Phone. From Gallery, you can display images in a slideshow or tap to view the selected image or video file.

To launch Gallery, tap **ASUS > Gallery**.

Viewing files from your social network or cloud storage

By default, your Gallery displays all the media files on your ASUS Phone according to their album folders.

To view the media files from other locations accessible via your ASUS Phone:

1. From the main screen, tap ☰.
2. Tap any of the following source locations to view their respective media files.

### NOTES:

- You can download photos to your ASUS Phone from your cloud account and use them as your wallpaper or a contact’s cover image.
- For details on adding cover images to your contacts, see **Customizing your contact’s profile**.
- For details on using photos or images as your wallpaper, see **Wallpapers**.

### IMPORTANT!
Internet connection is required for viewing photos and videos under **Asus HomeCloud**, **Social Gallery - Omlet**, and **My cloud**.
Viewing the photo location

Enable the location access on your ASUS Phone, and get the location details on your photos. Your photos' location details include the area where the photos are taken, as well a map of the location via Google Map or Baidu (in China only).

To view the details of a photo:

1. Turn on the location access from

2. Ensure that you have shared your location to Google Map or Baidu.

3. Launch the Gallery app, and select the photo whose photo details you want to view.

4. Tap the photo then tap ◀️.
Sharing files from the Gallery
1. From the Gallery screen, tap the folder where the files you want to share are located.

2. After opening the folder, tap to activate file selection.

3. Tap the files you want to share. A check mark appears on top of the image you select.

4. Tap then select from the list where you want to share the images.

Deleting files from the Gallery
1. From the Gallery screen, tap the folder where the files you want to delete are located.

2. After opening the folder, tap to activate file selection.

3. Tap the files you want to delete. A check mark appears on top of the image you select.

4. Tap.

Editing images
The Gallery also features its own image editing tools that you can use to enhance images saved on your ASUS Phone.

1. From the Gallery screen, tap the folder where the files are located.

2. After opening the folder, tap the image you want to edit.

3. Once the image is opened, tap it again to show its functions.

4. Tap to open the image editing toolbar.

5. Tap any of the icons on the editing toolbar to apply changes to the image.

Zooming in/out the thumbnails or images
From the Gallery screen or your selected image, spread apart your fingers on the touchscreen panel to zoom out. To zoom in, bring your fingers together on the touchscreen panel.
Posting photos to your Calendar event wall

Enabling this feature in your Gallery allows you to view photos straight from your Calendar events. This way, you can immediately group captured photos according to their specific event name.

1. After taking photos from your ASUS Phone, launch **Gallery**.

2. Tap > **Events wall**.

3. Tap on the upper right corner of the folder containing the photos taken during an event.

4. Select the Calendar event you would like to integrate with the photo folder.

5. The icon appears on the upper right corner of the photo folder indicating that the photos are successfully posted on the event wall.

6. To view the event photos, open the event from the Calendar app, then tap .

**IMPORTANT!**

- This feature is only enabled after setting events on the Calendar. For more details on how to set events, see [Calendar](#).
- Only photos taken with your ASUS Phone's camera on the same date and time as a Calendar event can use this feature.
Using MiniMovie

Turn photos into a creative slideshow using the MiniMovie feature of the Gallery. MiniMovie contains a theme of slideshow presentations which you can immediately apply to selected photos.

To create a MiniMovie from a photo folder:

1. Launch Gallery then tap to select the location of your photo folder.

2. Select the photo folder then tap > Auto MiniMovie.

3. Select the MiniMovie theme you would like to use for your photo slideshow.

4. After selecting a theme, tap to save the slideshow.

5. You can then share the slideshow to social network sites or instant messaging apps such as Facebook, Google Plus, or Omlet Chat.
To create a MiniMovie from a selection of photos:

1. Launch Gallery then tap 📁 to select the location of your photos.

2. Tap ⬤ to activate file selection.

3. After selecting your photos, tap MiniMovie.

4. Select the MiniMovie theme you would like to use for your photo slideshow.

5. After selecting a theme, tap 😔 to save the slideshow. You can access your saved slideshows from ASUS > File Manager > Movies > MiniMovie.

6. You can then share the slideshow to social network sites or instant messaging apps such as Facebook, Google Plus, or Omlet Chat.

**Using PlayTo (on selected models only)**

Play files from your Gallery to a compatible streaming device using PlayTo.

1. From the Gallery screen, tap 📁 or the folder where the file you want to screencast is located.

2. Tap 📁 > PlayTo.

3. In the next screen, select a compatible device to start screencasting your file.
**Staying connected**

**Mobile network**

When there’s no available Wi-Fi network that you can connect to, you can enable your mobile network’s data access for Internet connection.

**Enabling the mobile network**

1. Do any of the following to launch the Settings screen:
   - Launch Quick settings then tap 📲.
   - Tap ☰️ > **Settings**.
2. Tap **More** > **Cellular networks**.
3. Slide **Data enabled** to **ON**, and configure the other mobile network settings, if necessary.

**NOTES:**
- If you access the Internet via your mobile network, additional charges will be incurred depending on your data plan.
- For more details on your mobile network charges/fees and settings, contact your mobile service provider.

**Wi-Fi**

The Wi-Fi technology of your ASUS Phone gets you connected to the wireless world. Update your social media accounts, browse the Internet, or exchange data and messages wirelessly from your ASUS Phone.

**Enabling Wi-Fi**

1. Launch the Settings screen by doing any of the following:
   - Launch Quick settings then tap 📲.
   - Tap ☰️ > **Settings**.
2. Slide the Wi-Fi switch to the right to turn on the Wi-Fi.

**NOTE:** You can also enable the Wi-Fi from Quick Settings screen. Refer to section **Quick Settings** on how to launch Quick Settings screen.
Connecting to a Wi-Fi network

1. On the Settings screen, tap Wi-Fi to display all detected Wi-Fi networks.

2. Tap a network name to connect to it. For a secured network, you may be prompted to key in a password or other security credentials.

**NOTES:**
- Your ASUS Phone automatically reconnects to the network that you connected with previously.
- Turn off the Wi-Fi feature when you’re not using it to help save battery power.

Disabling Wi-Fi

To disable Wi-Fi:

1. Launch the Settings screen by doing any of the following:
   - Launch Quick settings then tap
   - Tap > Settings.
2. Slide the Wi-Fi switch to the left to turn off the Wi-Fi.

**NOTE:** You can also disable the Wi-Fi from Quick Settings screen. See Quick Settings on how to launch Quick Settings screen.

Bluetooth®

Use the Bluetooth feature of your ASUS Phone to send or receive files and stream multimedia files with other smart devices over short distances. With Bluetooth, you can share your media files with your friends’ smart devices, send data for print with a Bluetooth printer, or play music files with a Bluetooth speaker.

Enabling Bluetooth®

1. Do any of the following to launch the Settings screen:
   - Launch Quick settings then tap
   - Tap > Settings.
2. Slide the Bluetooth switch to the right to turn on the Bluetooth.

**NOTE:** You can also enable the Bluetooth from Quick Settings screen. See Quick Settings on how to launch Quick Settings screen.
Pairing your ASUS Phone to a Bluetooth® device

Before using the Bluetooth feature of your ASUS Phone in full scale, you have to pair it first with the Bluetooth device. The ASUS Phone automatically stores the pairing connection of the Bluetooth device.

1. On the Settings screen, tap **Bluetooth** to display all available devices.

   **IMPORTANT!**
   - If the device that you want to pair is not in the list, ensure to enable its Bluetooth feature and is discoverable.
   - See the user guide that came with your device to learn how to enable its Bluetooth and set it to discoverable.

2. Tap **Refresh** to scan for more Bluetooth devices.
3. In the list of available devices, tap the Bluetooth device that you want to pair with.
4. Ensure that the same passkey show on both devices, then tap **Pair**.

   **NOTE:** Turn off the Bluetooth feature when you’re not using it to help save battery power.

Unpairing your ASUS Phone from the Bluetooth® device

1. On the Settings screen, tap **Bluetooth** to display all available and paired devices.

2. In the list of paired devices, tap **Forget** of Bluetooth device that you want to unpair, then tap **FORGET**.
**Tethering**

When Wi-Fi service is not available, you can use your ASUS Phone as a modem or turn it into a Wi-Fi hotspot to get Internet access on your laptop, tablet, and other mobile devices.

**IMPORTANT!** Most mobile service providers may require a data plan for you to be able to use the tethering function. Contact your mobile service provider about availing of this data plan.

**NOTES:**
- Internet access via tethering may be slower than the standard Wi-Fi or mobile connection.
- Only a limited number of mobile devices can tether to your ASUS Phone for Internet access.
- Turn off the tethering feature when you’re not using it to help save battery power.

**Wi-Fi Hotspot**

Turn your ASUS Phone into a Wi-Fi Hotspot to share Internet connection with other devices.

1. Do any of the following to launch the Settings screen:
   - Launch Quick settings then tap 🔍.
   - Tap 🔍 > Settings.

2. Tap More > Tethering > Set up Wi-Fi hotspot.

3. Assign a unique SSID or network name and at least 8-character password for your Wi-Fi hotspot. When done, tap Save.
4. From the Tethering screen, slide **Portable Wi-Fi hotspot** to **ON**.

5. Connect other devices to your ASUS Phone’s hotspot connection the same way you connect to a Wi-Fi network.

**Bluetooth Tethering**

Enable Bluetooth on your ASUS Phone and use it as a modem for Internet access on your Bluetooth-enabled mobile devices such as a laptop or a tablet.

1. Enable Bluetooth on your ASUS Phone and the other device.

2. Pair both devices.

   **NOTE:** For details, see *Pairing your ASUS Phone to a Bluetooth® device*.

3. From the Settings screen, tap **More > Tethering**, then slide **Bluetooth tethering** to **ON**. You can now surf the Internet or do Internet-related activities on your ASUS Phone.
Weather

Get real-time weather updates straight from your ASUS Phone using the weather app. Using Weather, you can also check other weather details from around the world.

Launching the Weather app

From your Home screen, launch the Weather app using either of the following options:

- Tap  > Weather.
- From your ASUS Phone’s home screen, tap the weather icon.
Weather home screen

Set up and get your current location’s weather updates as well as other parts of the world. You can display the weather updates or daily weather forecast on the What’s Next widget or app, and on the Calendar app.

**NOTE:** For more details, see [Getting the weather updates](#)

Tap to search for a city’s weather info

Tap to get the area’s current weather info, refresh the weather info, edit the location list, or configure the weather settings

Swipe up to see other weather information.

Swipe to the left or right to see the weather information of other cities in your location list.
Clock

Customize the time zone settings of your ASUS Phone, set alarms, and use your ASUS Phone as a stop watch using the Clock app.

Launching Clock

Launch the Clock app using either of the following options:

- Tap > Clock.
- From your ASUS Phone’s home screen, tap the digital clock display.

World Clock

Tap to access the world clock settings of your ASUS Phone.
**Alarm clock**

Tap to access the alarm clock settings of your ASUS Phone.

Tap this to delete any of the previously set alarms.

Tap this to access the settings of the alarm clock feature.

Tap this to set a new alarm time.

**Stopwatch**

Tap to use your ASUS Phone as a stopwatch.

Tap this button to start running the stopwatch feature.

Press the "Start" button to make the stopwatch running.
Timer
You may set multiple timer options for your ASUS Phone. To do this, follow the steps below:

Setting the timer

1. Tap 🕒 to access the timer feature of your ASUS Phone.

2. Use the numeric keypad to input your target time then tap start to start the timer.
Knowing ZenLink

Stay connected with the ASUS-exclusive ZenLink for maximum productivity. With these ZenLink apps, you can connect with other devices to share and receive files.

Your ZenLink comprises of the following apps: Share Link, PC Link, and Remote Link.

**NOTE:** Some of these ZenLink apps may not be available in your ASUS Phone.

Share Link

Share and receive files, apps, or media contents with Android mobile devices using Share Link app (for ASUS mobile devices) or SHAREit app (for other mobile devices) via a Wi-Fi hotspot. With this app, you can send or receive files that are larger than 100 MB and lets you share or receive multiple files at the same time. Share Link app sends and receives files faster than using Bluetooth.

Sharing files

1. From your Home screen, tap **ZenLink > Share Link**.

2. Tap **Send file** then select from the options that appear on your screen.
3. Tap the files that you want to send then tap **Done**.

4. After your ASUS Phone detects the other devices, tap the device that you want to share your files with.

![Sharing files](image)

**Receiving files**

To receive files:

1. From your Home screen, tap  then tap **Share Link**.

2. Tap **Receive file** to receive the files from the sender.

---

**PC Link**

Use your computer to access and control your ASUS Phone and its apps via the PC Link. It allows you to control your ASUS Phone using your computer’s keyboard and mouse.

**NOTE:** Before using PC Link, ensure to install PC Link to your computer. Go to [http://pclink.asus.com](http://pclink.asus.com) to download and install PC Link.

**Using PC Link**

To use PC Link:

1. Connect your ASUS Phone to your computer using a USB cable.

2. In your ASUS Phone, a pop-up screen **Allow US debugging** appears. tap **OK** to allow connection between your computer and your ASUS Phone.

3. From your computer’s desktop, launch **PC Link** then click **Connect**.

4. On the PC Link screen, click **OK**. When connected, you can access and control your device using the keyboard for typing and mouse for hand gestures.
Understanding the PC Link settings

- Click this icon to rotate the mirrored ASUS Phone screen on your computer screen.
- Click this icon to minimize or maximize the volume.
- Click this icon to capture a screenshot.
- Click this icon to wake your ASUS Phone or put it to sleep.
- Click this icon to check for PC Link updates and assign a path for your screenshots.
Remote Link

Turn your ASUS Phone into a wireless input device and a presentation tool. Using this app, you can use your ASUS Phone as a touchpad, touchscreen panel, laser pointer for presentations, and Windows® Media Player controller while connected to your computer via bluetooth.

NOTES:
- Before using Remote Link, ensure to install Remote Link to your computer. Go to http://remotelink.asus.com to download Remote Link and install it to your computer.
- Ensure to pair your computer and your ASUS Phone first before using Remote Link.

Using Remote Link

To use Remote Link:

1. From your Home screen, tap ZenLink > Remote Link.

2. Tap Search device then select the device that you want to connect.

Remote Link touch pad

Tap to activate ASUS Smart gesture and navigate your computer.

Slide your finger across this touch pad to navigate your computer.

Tap this button to mimic left-button mouse function.

Tap this button to mimic right-button mouse function.

Move this slider to zoom in/zoom out the screen of your computer.
Remote Link presentation controller

Tap to control the presentation slides on your computer.

Tap and hold this button to activate the laser pointer.

Tap this button to go to next slide.

Tap this button to go back to previous slide.

Remote Link Windows® Media Player controller

Tap to control the Windows® Media player.

Tap this button to go back to previous song/music file.

Tap this button to go to next song/music file.

Move this slider to minimize/maximize the volume.

Move this seeking button to select a part of a song/music file that you want to listen or play.
Remote Link keyboard input

Tap 📤 to use keyboard input. You can also use the microphone icon for voice input.

Key in your message in this field.

Tap this button to key in your message via voice input.

Tap this button to send the message to your computer.
Special Zen Tools

Flashlight
You can turn your ASUS Phone to an instant flashlight by launching your Quick settings panel from any screen or any open app. From the Quick settings panel, simply tap on the Flashlight icon to activate its function.

Tap this to enable the flashlight.
Chapter 10: Zen Everywhere

Flashlight menu options

- Tap this to enable or disable the flashlight mode.
- Tap this to enable or disable the SOS mode.
- Tap any of these icons to toggle between the flashlight’s speed while blinking.
- Tap this to turn on or turn off the light.

Boost

Boost function is to optimize device performance after a device is being used for a period of time. This function will close unused processes that are running in the background in order to retrieve more system memory.
Calculator

One-swipe and a tap is all it takes to launch your Calculator. When you open the Quick settings panel, the Calculator icon is there visibly on top of the list. Tap it to get started with your computations.

Calculator screen
Quick memo

Quick memo is a note-taking tool that gives you the freedom to either scribble or type down important notes you need to remember. After creating notes, you can share them via Share Link and social media sites or turn them into a task inside Do It Later.

Creating a sticky note

You can turn Quick memo notes into a sticky note so you can view them wherever, on your ASUS Phone. To create a sticky note, just tap on the pin icon on the upper right corner of Quick memo after creating your note.
Sound Recorder
Record audio files using your ASUS Phone by enabling the Sound Recorder app.

Launching Sound Recorder
To launch Sound Recorder, tap > Sound Recorder.

[Diagram showing the interface of the Sound Recorder app with labels:
- Tap to customize the Sound Recorder settings
- Tap to view the list of saved audio recording files
- Tap to start audio recording
- During recording, tap this to temporarily stop or pause the recording]
Pausing a recording
During a paused recording, you can choose to resume, delete, or save the recording.

Recording List
From the Recording List, you can play, rename, share, or delete a saved audio recording file.

To view your recording list, tap  from the Sound Recorder main screen.
Audio Wizard

Audio Wizard allows you to customize the sound modes of your ASUS Phone for a clearer audio output that fits actual usage scenarios.

Using Audio Wizard

To use Audio Wizard:

1. Tap **ASUS > Audio Wizard**.

2. In the Audio Wizard window, tap the sound mode you want to activate.

3. Tap **Advanced Effect** to adjust the advanced sound effects.

When enabled, the ASUS Phone auto-switches to the best audio quality for the currently-running ASUS app.
Splendid
ASUS Splendid allows you to easily adjust the display settings. It enriches the color of your screen with its preset screen color modes.

Using Splendid
To use Splendid:

1. From your Home screen, tap **ASUS > Splendid**.

2. Select any of these screen color modes: **Balance**, **Bluelight Filter**, **Vivid**, and **Customized**.

Balance mode
This mode provides a balanced display of color on your ASUS Phone.
**Bluelight Filter mode**

This mode provides a mild paper-like display that reduces eye strain for a comfortable reading experience on your ASUS Phone.

**Vivid mode**

This mode provides a fine-tuned color preset that enriches the screen color of your ASUS Phone.
**Customized mode**
This mode allows you to adjust the screen display based on your preferred color temperature, hue, and saturation.

![Customized mode](image)

**NOTE:** You can also quickly set the Splendid screen mode from the Quick settings panel.

![Quick settings panel](image)
Power Saver

Fully maximize or extend the power of your ASUS Phone even when it is idle or while it stays connected to your network. Smartly customize the power settings for your frequent activities such as reading emails or watching videos.

Setting up Power Saver

Multiple battery modes optimize the power of your ASUS Phone for different usage scenarios.

1. Tap **ASUS > Power Saver** to launch Power Saver.

2. Tap **Battery modes** to select any of these modes:
   - **Performance mode**: Maximizes your ASUS Phone’s performance with no battery savings
   - **Balance mode**: Provides a balance between performance and power of your ASUS Phone.
   - **Smart-saving mode**: Automatically disconnects the network connection when the battery is running low or when your ASUS Phone is asleep or idle to extend the battery life.
   - **Ultra-saving mode**: Disconnects the network connection when your ASUS Phone is idle to fully maximize its battery life.

3. Tap **Auto-switch to Ultra-saving mode** to set up a battery level to trigger Ultra-saving mode.

4. Tap **Auto-switch mode** to schedule auto-switching into a specific battery mode.
There’s more to your Zen

ASUS Cover
Replace the rear cover of your ASUS Phone with this ASUS-exclusive accessory and check important information without opening the cover.

**NOTE:** This accessory may be bundled with your ASUS Phone or purchased separately.

Installing the ASUS Cover
To install the ASUS Cover:

1. Turn off your ASUS Phone.
2. Pry the cover loose from the groove on the bottom-right corner, then pull the rear cover off.

**CAUTION!** Be careful when you pry open the cover.

3. Replace the rear cover with your ASUS Cover.
Configuring the ASUS Cover settings

To configure the ASUS Cover settings:

1. Tap 📱 > Settings > ASUS Cover.

2. Tick the box beside Enable ASUS Cover.
Keeping your device up-to-date

Keep your ASUS Phone in the loop of Android system updates and upgraded apps and features.

Updating your system

1. Tap ⬠ then tap Settings.

2. On the Settings screen, slide down to display other items then tap About.

3. Tap System update then tap Check Update.

**NOTE:** You can preview the last time your ASUS Phone’s system was updated at the Last update check: of the System update window.

Storage

You can store data, apps, or files on your ASUS Phone (internal storage), on an external storage, or on an online storage. You need an internet connection to transfer or download your files on an online storage. Use the bundled USB cable to copy files to or from the computer to your ASUS Phone.

Backup and reset

Back up data, Wi-Fi passwords, and other settings to Google servers using your ASUS Phone.

1. Tap ⬠ then tap Settings > Backup & reset.

2. From the Backup & reset window, you can:
   - **Backup my data:** This feature backs up your data, Wi-Fi passwords, and other settings to Google servers when enabled.
   - **Backup account:** Allows you to specify the account you to be associated when you save your backup.
   - **Automatic restore:** This features facilitates restoration of backed up settings and data when you reinstall an app.
   - **Factory data reset:** Erases all data on phone.
Securing your ASUS Phone
Use the security features of your ASUS Phone to prevent unauthorized calls or access of information.

Unlocking your screen
When the screen is locked, you can open it with the security unlocking options that the ASUS Phone offers you.

1. Tap 🗝️ then tap Settings > Lock screen.

2. Tap Screen lock then select an option to unlock your ASUS Phone.

NOTES:
- Refer to section Unlock screen options for more information.
- To deactivate the unlock screen option that you set, tap None on Choose screen lock screen.

Unlock screen options
Choose from these options to lock your ASUS Phone.

Swipe
Swipe up to unlock your ASUS Phone.

![Swipe up to unlock your ASUS Phone.

---
**PIN**
Key in at least four numbers to set a PIN.

**Pattern**
Slide your finger on the dots and create a pattern.

**IMPORTANT!** Ensure to remember the PIN that you created to unlock your device.

**IMPORTANT!** You can create a pattern with a minimum of four dots. Ensure to remember the pattern that you created to unlock your device.
Password
Key in at least four characters to create a password.

IMPORTANT! Ensure to remember the password that you created to unlock your device.

Configuring the other screen security features
Aside from the mode of screen lock, you can also do the following on the Screen security window:

- **Quick Access:** Slide the Quick Access switch to **ON** to launch apps on the lock screen.

- **Instant camera:** Slide the Instant camera switch to **ON** to launch the Camera app even if your ASUS Phone is in idle mode by pressing the volume button twice.

- **Owner info:** Tap this to edit and key in the information that you want to appear even when your screen is locked.
Setting your ASUS Phone identity

Know your ASUS Phone’s identity such as serial number, IMEI (International Mobile Equipment Identity) number, or model number.

This is important, as when you may lose your ASUS Phone, you can contact your mobile carrier and provide the information to blacklist the unauthorized use of your ASUS Phone.

To display your ASUS Phone’s identity:

1. Tap ☰ ☰ ☰ > Settings.

2. On the Settings screen, slide down to display other items then tap About. The About screen displays the status, legal information, model number, operating system version, hardware, and software information of your ASUS Phone.

3. To see the serial number, SIM contact number, and IMEI of your ASUS Phone, tap Status.
Appendix

Notices

Federal Communications Commission Statement
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The country code selection is for non-US model only and is not available to all US model. Per FCC regulation, all WiFi product marketed in US must fixed to US operation channels only.

CAUTION:
• High-power radars are allocated as primary users (i.e. priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and that these radars could cause interference and/or damage to LE-LAN devices.
• 5GHz product for indoor use only.

Hearing Aid Compatibility Information (HAC)
Your phone is compliant with the FCC Hearing Aid Compatibility requirements.
The FCC has adopted HAC rules for digital wireless phones. These rules require certain phone to be tested and rated under the American National Standard Institute (ANSI) C63.19-2011 hearing aid compatibility standards. The ANSI standard for hearing aid compatibility contains two types of ratings:

M-Ratings: Rating for less radio frequency interference to enable acoustic coupling with hearing aids.

T-Ratings: Rating for inductive coupling with hearing aids in telecoil mode.

Not all phones have been rated, a phone is considered hearing aid compatible under FCC rules if it is rated M3 or M4 for acoustic coupling and T3 or T4 for inductive coupling. These ratings are given on a scale from one to four, where four is the most compatible. Your phone meets the M4/T4 level rating.

However, hearing aid compatibility ratings don't guarantee that interference to your hearing aids won't happen. Results will vary, depending on the level of immunity of your hearing device and the degree of your hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your personal needs.

This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider or the manufacturer of this phone for information on hearing aid compatibility. If you have questions about return or exchange policies, consult your service provider or phone retailer.

Hearing devices may also be rated. Your hearing device manufacturer or hearing health professional may help you find this rating. For more information about FCC Hearing Aid Compatibility, please go to http://www.fcc.gov/cgb/dro.

Canada, Industry Canada (IC) Notices

This device complies with Industry Canada's licence-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) This device may not cause interference; and
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et
(2) l'utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Radio Frequency (RF) Exposure Information

The radiated output power of the Wireless Device is below the Industry Canada (IC) radio frequency exposure limits. The Wireless Device should be used in such a manner such that the potential for human contact during normal operation is minimized. This device has been evaluated for and shown compliant with the IC Specific Absorption Rate (“SAR”) limits when installed in specific host products operated in portable exposure conditions.
Canada’s REL (Radio Equipment List) can be found at the following web address: http://www.ic.gc.ca/app/sitt/reltel/src/hnwRdSrch.do?lang=eng

Additional Canadian information on RF exposure also can be found at the following web address: http://www.ic.gc.ca/eic/site/smt-gst.nsf/eng/sf08792.html

**Informations concernant l’exposition aux fréquences radio (RF)**

La puissance de sortie émise par cet appareil sans fil est inférieure à la limite d'exposition aux fréquences radio d’Industrie Canada (IC). Utilisez l’appareil sans fil de façon à minimiser les contacts humains lors du fonctionnement normal.

Ce périphérique a été évalué et démontré conforme aux limites SAR (Specific Absorption Rate – Taux d'absorption spécifique) d’IC lorsqu'il est installé dans des produits hôtes particuliers qui fonctionnent dans des conditions d'exposition à des appareils portables.

Ce périphérique est homologué pour l’utilisation au Canada. Pour consulter l’entrée correspondant à l’appareil dans la liste d’équipement radio (REL - Radio Equipment List) d’Industrie Canada rendez-vous sur:

Pour des informations supplémentaires concernant l’exposition aux RF au Canada rendez-vous sur:

**Caution**

(i) the device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;

(ii) the maximum antenna gain permitted for devices in the band 5725-5825 MHz shall comply with the e.i.r.p. limits specified for point-to-point and non point-to-point operation as appropriate.

**Avertissement**

Le guide d'utilisation des dispositifs pour réseaux locaux doit inclure des instructions précises sur les restrictions susmentionnées, notamment:

(i) les dispositifs fonctionnant dans la bande 5 150-5 250 MHz sont réservés uniquement pour une utilisation à l’intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux;

(ii) le gain maximal d’antenne permis (pour les dispositifs utilisant la bande 5 725-5 825 MHz) doit se conformer à la limite de p.i.r.e. spécifiée pour l’exploitation point à point et non point à point, selon le cas.

**CAN ICES-3(B)/NMB-3(B)**

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter, except tested built-in radios.

The County Code Selection feature is disabled for products marketed in the US/Canada.
RF Exposure Information (SAR)

This device has been tested and meets applicable limits for Radio Frequency (RF) exposure. Specific Absorption Rate (SAR) refers to the rate at which the body absorbs RF energy. SAR limits are 1.6 Watts per kilogram (over a volume containing a mass of 1 gram of tissue) in countries that follow the United States FCC limit and 2.0 W/kg (averaged over 10 grams of tissue) in countries that follow the Council of the European Union limit. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands.

To reduce exposure to RF energy, use a hands-free accessory or other similar option to keep this device away from your head and body. Carry this device at least 15 mm away from your body to ensure exposure levels remain at or below the as-tested levels. Choose the belt clips, holsters, or other similar body-worn accessories which do not contain metallic components to support operation in this manner. Cases with metal parts may change the RF performance of the device, including its compliance with RF exposure guidelines, in a manner that has not been tested or certified, and use such accessories should be avoided.

The highest FCC SAR values for the device are as follows:

- 0.46 W/Kg (Head)
- 1.16 W/Kg (Body)

The FCC has granted an Equipment Authorization for this device with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this device is on file with the FCC and can be found under the Display Grant section of www.fcc.gov/oet/ea/fccid after searching on FCC ID: MSQZ00XS.

CE RF Exposure Compliance

This device meets the EU requirements (1999/519/EC) on the limitation of exposure of the general public to electromagnetic fields by way of health protection.

For body-worn operation, this device has been tested and meets the ICNIRP guidelines and the European Standard EN 62209-2, for use with dedicated accessories. SAR is measured with this device at a separation of 1.5 cm to the body, while transmitting at the highest certified output power level in all frequency bands of this device. Use of other accessories which contain metals may not ensure compliance with ICNIRP exposure guidelines.

CE Mark Warning

CE 0682
CE marking for devices with wireless LAN/Bluetooth

The highest CE SAR values for this device are as follows:
- 0.343 W/Kg (Head)
- 0.432 W/Kg (Body)

Prevention of Hearing Loss
To prevent possible hearing damage, do not listen at high volume levels for long periods.

For France, headphones/earphones for this device are compliant with the sound pressure level requirement laid down in the applicable EN50332-1:2013 and/or EN50332-2:2013 standard required by French Article L.5232-1.

Laser safety information
CLASS 1 LASER PRODUCT

Power Safety Requirement
Products with electrical current ratings up to 6A and weighing more than 3Kg must use approved power cords greater than or equal to: H05VV-F, 3G, 0.75mm² or H05VV-F, 2G, 0.75mm².

ASUS Recycling/Takeback Services
ASUS recycling and takeback programs come from our commitment to the highest standards for protecting our environment. We believe in providing solutions for you to be able to responsibly recycle our products, batteries, other components as well as the packaging materials. Please go to http://csr.asus.com/english/Takeback.htm for detailed recycling information in different regions.

Coating notice
IMPORTANT! To provide electrical insulation and maintain electrical safety, a coating is applied to insulate the device except on the areas where the I/O ports are located.
Green ASUS notice

ASUS is devoted to creating environment-friendly products and packaging to safeguard consumers’ health while minimizing the impact on the environment. The reduction of the number of the manual pages complies with the reduction of carbon emission.

For the detailed user manual and related information, refer to the user manual included in the ASUS Tablet or visit the ASUS Support Site at http://support.asus.com/.

Regional notice for Singapore

This ASUS product complies with IDA Standards.
