Check your P535 package for the following items:

- ✓ ASUS P535 device
- ✓ Battery
- ✓ AC Adapter
- ✓ Mini-USB cable
- ✓ Headset
- ✓ Stylus
- ✓ Car cell phone charger*
- ✓ Car Kit (PDA holder and windshield suction pedestal)*
- ✓ Protection case
- ✓ Getting Started CD
- ✓ User Manual
- ✓ Quick Start Guide
- ✓ Warranty Card

* optional

**NOTE:**
If any of the above items is damaged or missing, contact your retailer.

**CAUTION:**
- To reduce risk of fire, use only correct battery type. Refer to “Installing the SIM card and battery” section for details.
- Do not attempt to disassemble or service the battery pack.
- Dispose of used batteries properly. Inquire from local authorities for proper disposal of battery.

</table>
Getting your device ready

Before you can start using your device, you need to install a Subscriber Identity Mode (SIM) card and a charged battery. A SIM card contains your phone number, subscriber details, phonebook, and additional phone memory.

Installing the SIM card and battery

1. Remove the battery compartment cover then remove battery.
   
   **NOTE:** To prevent data loss, the device automatically shuts down after you open the battery compartment.

2. Insert the SIM card with its gold contacts facing down and the notched corner oriented to the upper left corner of the slot.

3. Replace the battery into the compartment with its copper contacts properly aligned to the copper conductor on the device.

4. Replace battery compartment cover.

   **CAUTION:** Use only an ASUS qualified battery for this device.

Charging the battery

The bundled battery pack is shipped only partially charged. Make sure to charge the battery at least four hours before using it for the first time.

To charge the battery:

1. Connect the AC adapter plug to the mini-USB connector at the bottom of the device.

2. Connect the AC power plug to a grounded wall socket or power strip.

   **NOTE:**
   * The notification LED turns red and the battery icon appears on the status bar while the battery is charging.
   * If your battery gets totally discharged, recharge it for at least twenty minutes before you can turn it back on.
Powering your device
After charging the battery, you are now ready to use your device.
To power on your device:
1. Press and hold the power button to turn ON the device.
2. Follow the succeeding screen instructions to setup your Windows Mobile-based device.

The Today screen
The Today screen displays information useful to you.

- Tap to open the Start menu
- Tap to setup date, time, and alarm.
- Displays the current network provider and connection status
- Tap to set user information
- Tap to open messages
- Tap to setup tasks
- Tap to setup profile
- Tap to read or make appointments
- Tap to sign in Pocket MSN
- Tap to display call history

- Status bar
  - Indicates the battery status
  - Tap to adjust volume
  - Displays the signal status
  - Tap to view connectivity status
  - Displays the Bluetooth® connection status
  - Tap to lock, unlock, or change My Secrets settings
    (Appears only when My Secrets is enabled.)
  - Tap to change screen orientation
  - Tap to display system CPU, USB setting, LCD brightness, battery, memory, and MiniSD status
  - Tap to change WLAN (IEEE 802.11b/g) settings
  - Tap to change Bluetooth settings
  - Tap to launch Contacts list
ASUS Status icon

The ASUS status icon allows you to easily check and see the current status of the following device components: CPU, USB, LCD Brightness, Battery power, Memory, MiniSD card, and device storage.

To check the status of these components, tap the ASUS Status icon on the Today screen.
Entering information

Using the Input panel

The Input Panel allows you to select various input methods available on your device including: Block Recognizer, Keyboard, Letter Recognizer, and Transcriber.

Tap the Input panel icon to display shortcut menu and select input method.

Input panel methods

Block Recognizer

Keyboard

Letter Recognizer

Transcriber
Sending a message

Your device allows you to send and receive email, SMS, MMS, and MSN messages when connected to a network. The following describes how to compose and send a message.

Composing and sending a message

1. Tap **Start** then **Messaging**.
2. Tap **Menu** > **Go To** then select account:
   • Text Messages
   • Outlook E-mail or
   • MMS
3. Tap **New**.
4. Key in the email address or phone number of one or more recipients, separating them with a semi-colon. To launch Contacts list, tap **To**.
5. Key in your message.
Using Pocket MSN

1. From the Today screen, tap the MSN icon to launch Pocket MSN.
2. Key in the e-mail address and password, then tap Sign In.
   Tap to check Save password box to save password.
3. Follow succeeding screen instructions to setup Pocket MSN.

NOTE:
• To use MSN Messenger, you need a Microsoft .NET Passport. Go to www.passport.com to obtain a Passport.
• GPRS will automatically reconnect when your Pocket MSN status is online.
Synchronizing with Exchange Server

Before you can synchronize your device with an Exchange Server, install the Microsoft®
ActiveSync™ to your computer using the bundled P535 Getting Started CD. Activesync™ is the
software that synchronizes your P535 with a Windows® powered computer. Your P535 comes
with a preinstalled ActiveSync™. To synchronize your device with Exchange Server:

1. From the ActiveSync menu, tap Menu > Add Server Source.

2. In the Server Address field, input the name of the server running Exchange Server then tap Next.

3. Input your name, password, and domain then tap Next.

4. Tap the check boxes to select the data items that you want to synchronize with Exchange Server. To change the available synchronization settings, select a data item then tap Settings. Tap Finish when done.

5. Start the sync process.

NOTE: Refer to the User Manual for details on changing the synchronization schedule.
You can customize the look and feel of your device according to your desired settings.

**Entering owner information**

To update the owner information:

1. Tap **Start > Settings > Personal** then tap the **Owner Information** icon or tap the icon on the Today screen.
2. Key in information.
3. Tap **OK** when done.

**Customizing the Start menu**

To customize the Start menu:

1. Tap **Start > Settings > Personal** tab.
2. Tap the **Menus** icon.
3. Check the items that you want to appear on the menu.
4. Tap **OK** when done.
Setting phone sounds
(ring type, ring tone, and keypad sound)

To setup your phone sounds:

1. Tap **Start** > **Settings** > **Personal** tab.
2. Tap the **Phone** icon.
3. From the Phone screen, tap **Ring type** box to select desired ring type.
   Tap **Ring tone** box to select desired ring type.
   Tap **Keypad** box to select keypad sound.
4. Tap **ok** when done.

Setting theme

To setup theme:

1. Tap **Start** > **Settings** > **Personal** tab > **Today**.
2. Select a theme from the list.
   Tap the **Use this picture as the background check** box if you want to use this picture as device screen background.
3. Tap **ok** when finished.
Setting Date and Time
You can launch the Date and Time screen directly from the Today screen.
To edit date and time:
1. Tap the clock icon on the Today screen.
2. Select the correct time zone and change the date or time.

NOTE:
During synchronization, the date and time on your device is updated with the date and time on your computer.

Setting Profile
To change your device profile:
1. Tap Start > Settings > Personal tab then tap Profile icon.
2. Adjust current Sound and Notifications settings.
Using WLAN (IEEE 802.11b/g)

To activate WLAN in your device:

1. Tap Start > Settings > Connections tab then tap the Wi-Fi Manager icon.
2. From the Wi-Fi Manager screen, tap Menu then Turn Wi-Fi On.

You can also turn Wi-Fi ON or OFF from the Today screen.

1. Tap the Wi-Fi icon on the status bar.
2. From the pop-up callout, tap Turn on Wi-Fi.

**IMPORTANT:**
- When WLAN is used simultaneously with the GPRS, the latter will get signal priority. We recommend not to use WLAN and GPRS at the same time.
- We recommend not to use WLAN and the Bluetooth function at the same time. It may cause disturbance in data transmission since both use the same wireless channel.
- The WLAN and USB connections cannot be used at the same time.
- When the battery power is less than 20% the device prompts a warning message whether to continue using WiFi or not. Tap “Yes” to continue using or “No” to disconnect. We recommend that you plug the power adapter immediately to avoid losing data.

Using Bluetooth™

To activate (turn ON) Bluetooth in your device:

1. Tap Start > Settings > Connections tab then tap the Bluetooth icon.
2. From the Bluetooth screen, tap General tab.
3. Tap Turn on button. The Bluetooth status is displayed above the Turn on/Turn off buttons.
You can also turn Bluetooth ON or OFF from the Today screen. To do this:

1. Find the Bluetooth icon at the bottom right corner of the Today screen.
2. Tap to display shortcut menu then tap Turn Bluetooth ON.
   The Bluetooth icon changes to if Bluetooth is turned Off.

**NOTES:**
The Bluetooth device setup instructions provided in this section may differ with other Bluetooth devices. If the instructions in this guide differ from the documentation that came with your Bluetooth-enabled device, follow the latter.

**Using a Bluetooth-enabled headset**

**Mono headset setup**

1. Make sure that Bluetooth is enabled on your device.
2. Tap on the Today screen then on the shortcut menu tap Bluetooth Manager.
3. From the Bluetooth Manager, tap New.
4. From the Connection Wizard, tap Hands-free/Headset setup then tap Next.
5. Make sure that your headset device is in pairing mode and ready to receive incoming connection requests then tap Next.
6. Tap the name of your Bluetooth-enabled headset device then tap Next.
7. In Passkey, input the alphanumeric passkey of your headset device then tap OK. You can find this in the documentation that came with your headset device.
8. Tap Finish. You are now ready to use your headset device.

**NOTES:**
If the connection between the device and a Bluetooth headset fails, press the device icon then choose “Re-connection”, you do not have to pair the devices again
Stereo headset setup

P535 supports A2DP (Advanced Audio Distribution Profile), which is used by Bluetooth-enabled stereo headsets. Make sure that your stereo headset also supports A2DP.

1. Tap on the Today screen then on the shortcut menu tap Bluetooth Manager.
2. From the Bluetooth manager screen, tap New then select High Quality Audio Setup.
3. Make sure that your stereo headset device is in pairing mode and ready to receive incoming connection requests then tap Next.
4. Tap the name of your stereo headset device then tap Next.
   • If you want to create a shortcut, tap the check box Create a shortcut for this connection then input a connection name.
   • If you want to use a secure connections, tap the check box to Use a secure, encrypted connection.
5. Tap Finish to initiate connection.

IMPORTANT:
To answer a phone call using your stereo headset, make sure that you have mono and stereo connection at the same time.

NOTE:
To use voice commander while using a headset, press the answer button* on the headset then follow given instructions. (*Answer button may not be supported in other headset models.)
Using the GPRS Tool

The GPRS Tool allows you to conveniently select and connect to your GPRS service provider.

To connect via GPRS Tool:

1. Tap **Start > Settings > Connections** tab then tap the **Network Setting** icon.
   
   You can also tap on the status bar then tap **Settings** from the pop-up callout.

2. From the Network Setting screen, select your GPRS provider from the list.

**NOTE:**
- Operators vary in different regions.
- The GPRS and USB connections cannot be used at the same time.
Connecting GPRS
To connect GPRS:

1. Launch any application that connects to the Internet (e.g. Internet Explorer). The device will automatically connect your default GPRS connection. A pop-up callout appears to display the connection status.
2. When connected, you can start browsing the Internet. If you’re using Internet Explorer, the default site will be displayed.

Disconnecting GPRS
To disconnect GPRS:

1. Tap  from the status bar.
2. From the pop-up callout, tap Disconnect.
3. Tap  to exit.

NOTE:
• If your ActiveSync is set to sync with Exchange Server automatically, synchronization will occur after you connect again.
• GPRS will automatically reconnect everytime you launch an application that requires GPRS connection (e.g. Internet Explorer or Pocket MSN).
Replaceable batteries

If an equipment is provided with a replaceable battery and if replacement by an incorrect type could result in an explosion (e.g. with some lithium batteries), the following applies:

- if the battery is placed in an OPERATOR ACCESS AREA, there shall be a marking close to the battery or a statement in both the operating and the servicing instructions;
- if the battery is placed elsewhere in the equipment, there shall be a marking close to the battery or a statement in the servicing instructions.

The marking or statement shall include the following or similar text:

CAUTION

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE.
DISPOSE OF USED BATTERIES ACCORDING THE INSTRUCTIONS
Operator access with a tool

If a TOOL is necessary to gain access to an OPERATOR ACCESS AREA, either all other compartments within that area containing a hazard shall be inaccessible to the OPERATOR by the use of the same TOOL, or such compartments shall be marked to discourage OPERATOR access.

An acceptable marking for an electric shock hazard is (ISO 3864, No. 5036).

Equipment for restricted access locations

For equipment intended only for installation in a RESTRICTED ACCESS LOCATION, the installation instructions shall contain a statement to this effect.
WARNING

The user needs to switch off the device when exposed to areas with potentially explosive atmospheres such as petrol stations, chemical storage depots and blasting operations.
Declarations

We declare that the IMEI codes for this product, **P535**, are unique to each unit and only assigned to this model. The IMEI of each unit is factory set and cannot be altered by the user and that it complies with the relevant IMEI integrity related requirements expressed in the GSM standards.

Should you have any questions or comments regarding this matter, please have our best attention.
