Installing the SIM card and battery

Before you can start using your PadFone, you need to install a Subscriber Identity Module (SIM) card and the battery.

To install the SIM card and battery:

Remove the PadFone back cover

1. Remove the PadFone back cover
2. Open the battery compartment
3. Insert the SIM card into the SIM slot
4. Replace the battery and back cover

---

Before you start using your PadFone, you need to install a Subscriber Identity Module (SIM) card and the battery. Follow these steps to complete the installation:

1. Remove the PadFone back cover by carefully lifting the back panel until it clicks into place. The back cover should now be removed.
2. Open the battery compartment by sliding the battery cover towards the bottom of the device. The battery should now be visible.
3. Insert the SIM card into the SIM slot. Make sure the gold contacts are facing down and the notched corner of the SIM card is aligned with the gold contacts of the SIM slot.
4. Replace the battery by aligning the tabs on the battery with the slots in the battery compartment. Press the battery firmly until it clicks into place.
5. Replace the back cover by aligning the back cover with the device. Press the edges of the back cover firmly until it clicks into place.

Once these steps are completed, you can start using your PadFone. If you encounter any issues during the installation process, please refer to the user manual or contact customer support for assistance.

Charging your PadFone

After installing your SIM card and battery, we strongly recommend that you charge the battery fully before turning your device ON.

To charge your PadFone:

1. Connect the power plug into the USB charger. Ensure that the power plug is attached securely in place.
2. Connect the USB connector into the USB charger’s USB port.
3. Connect the micro USB connector into your PadFone.
4. Insert the power plug into a wall socket.

**CAUTION!** Double-check the connections and ensure that the power plug is securely attached to the AC Adapter to prevent overheating and damage to the cables, adapter, or device.

**NOTICE**

- Use only the power adapter that comes with your device. Using a different power adapter may damage your device.
- Using the provided USB charger and USB cable to connect your PadFone to a power outlet is the best way to charge your PadFone.
- The input voltage range between the wall outlet and this adapter is AC 100V - 240V; the output voltage through the micro-USB cable is DC 5V, 2A.
Turning your PadFone on or off
Press the power key on top of your PadFone to turn the device on or to turn it off.

To turn your PadFone off:

1. Press the power key for about five (5) seconds until the power off menu appears.
2. Touch **Power Off** then touch **OK** to confirm.
