Quick guide

For the complete user guide and other helpful resources, go to www.htc.com/support. Please also read the Safety and regulatory guide that's included in the box. For additional information about your phone, go to windowsphone.com.

Note: Certain Microsoft services/features may not be available in your country or region.

HTC Hub

Get more out of your phone with apps from us. Check out the HTC Hub and see what we have in store for you. The built-in Weather app shows the weather in rich 3D animation for your location or in cities that you select, and provides a forecast for coming days. Apps ranging from fun games to management tools are just a tap away.

These are some of the cool apps that the HTC Hub offers. Some may already be on your phone. If not, don’t worry, you can use the HTC Hub to download the other HTC apps.

Photo Enhancer

Photos need a bit of touch-up? Use one of the available photo enhancements to touch up your photos.

Notes

Note to self – pick up flowers for wife before going to dinner. Use Notes to tack short reminders to yourself.

Stocks

Get updates for the stocks you are following.

Love

He loves me, he loves me not, he loves me!!! See whether that special someone is feeling the same way as you are.

Calculator

Hold the phone upright and you get a basic calculator. Turn your phone to the side and you get a scientific calculator.

Converter

How many pounds are there in a kilo again? Use Converter to convert weight, length, volume, and even currency.

Lists

Forgot to buy the toothpaste again? Make sure you don’t forget next time by using List to jot down the things you need to get from the grocery.

Sound Enhancer

Get that surround sound feeling when you’re watching videos or listening to music.

Connection Setup

Set up your phone’s data connection based on your SIM card or a mobile operator.
For online use, please read this.

To set up your phone, get to know your phone, and make your first call.

---

**Connect to the Internet**

Get online using your phone’s data connection or Wi-Fi.

*Using data connection*

1. On the Start screen, tap the Internet Explorer tile to get online using your phone’s data connection or Wi-Fi.

2. Tap the Wi-Fi networking On/Off switch to turn it on.

3. Tap the Wi-Fi network you want to connect to.

4. If it’s not set up, you can go to Settings > cellular > Connection Setup in the apps list to set up your phone’s data connection.

*Using Wi-Fi*

1. On the Start screen, tap the Wi-Fi networking On/Off switch to turn it on.

2. Tap the Wi-Fi network you want to connect to.

*If your phone is connected to Wi-Fi, tap the Wi-Fi networking On/Off switch to turn it off.*

**Browsing the Web**

1. On the Start screen, tap Internet Explorer to browse the Web, go to a specific website, or search for information online. To view the web page in full screen, tap the browser button on the bottom of the screen.

2. Use finger gestures to browse the Web. Use pinch, spread, tap, and swipe gestures on your touchscreen to navigate. Tap the start button or press the Power button to return to the Start screen.

**Notifications**

1. Open the notifications panel by tapping the top of the screen.

2. Tap the notifications to view and manage notifications.

---

**Get to know your phone**

Get everything in order before you press the POWER button.

1. On the Start screen, tap the People tile.

2. Choose who you want to call.

3. Enter the recipient name.

4. Tap the phone tile.

**Start screen**

This is where it all starts.

1. On the Start screen, tap the People tile.

2. Choose how you want to sort and display the contacts, and then tap the Start here guide that’s included in the box and get their latest updates right inside the People hub.

3. In the People hub, tap import SIM contacts.

4. Tap the Wi-Fi network you want to connect to.

5. Enter your message.

6. Tap send.

---

**Set up your phone**

When you switch on your phone for the first time, you’ll be prompted to select a language in the apps list and your regions, time zone, and your Windows Live ID. Just follow the onscreen instructions and you’ll be up and running in no time.

1. On the Start screen, tap Internet Explorer to get online using your phone’s data connection.

2. Enter the key, and then tap done.

**Keep in contact**

Bring in your contacts and add new ones to your phone.

1. Tap the Start page to view the contacts from your SIM card.

2. Tap a contact’s name.

3. View the contact’s details.

4. Tap the phone tile.

---

**Make your first call**

1. On the Start screen, tap the Phone tile.

2. Tap the Start page to make a call.

3. Tap the Contacts tab.

4. Scroll up or down to see the other tiles.

5. Tap the Tiles tab.

6. Tap the People tab.

---

**Get your contacts**

Keep in contact by bringing in your contacts and setting up your phone.

1. On the Start screen, tap the People tile.

2. Tap a contact’s name.

3. View the contact’s details.

4. Tap the phone tile.

**Troubleshooting**

Want to step by step of your friends' updates on Facebook? Fan them with Facebook to stay on top of the latest updates. To make your first call, tap the phone tile. Once you've added them to your phone, look for their updates right inside the people hub.
