Navigating your phone

• Use your fingertips to lightly touch the screen.
• Use quick flicks of your finger on the touchscreen to swipe up, down, left, and right.
• Use the Volume key to turn the volume on or off, or to adjust the volume.
• Touch the Notifications bar to see new messages, and then swipe down to the full Notifications panel.

Personalize

Customize home screens:

1. From the home screen, press and hold a blank space to access customization options.
2. Tap to rename a folder, tap the folder name, and then choose a new name.
3. To move a widget, shortcut, or app, tap it, and then drag it to a new location.
4. To delete an item, tap and hold it on the home screen, and then drag it to the Recycle Bin icon.
5. Tap to rename a folder, tap the folder name, and then drag it to a new location.
6. Tap to move an app, tap the folder name, and then drag it to a new location.

Calls and voicemail

Make a call:

1. From the home screen, tap Phone.
2. Select an option to make a call.
3. Press and hold the call number or mobile number in the dialer to call.
4. Tap the Add call field to dial another number.
5. Tap to call a number in your contacts.

Check voicemail:

1. From the home screen, tap Phone.
2. Tap and hold the number you want to call.
3. Tap to call a number in your contacts.
4. Tap the Call History folder to call a number.
5. Tap to call a number in your recent calls.
6. Tap to call a voicemail.

Text and picture messaging

Send a text message:

1. From the home screen, tap Messages.
2. Tap an existing message or compose a new message.
3. Tap to enter a contact or number in the dialer.
4. Tap to send the message.
