Welcome to Verizon Wireless. You’re now part of a growing movement that’s about speed, signal and strength. This guide will show you how to set up and use your phone, access special features, and get help.

## Charging Your Phone
Before you turn on your phone, charge it fully.

1. Insert the small end of the USB cable into the USB/Charging Port.
2. Insert the other end into the power adapter, and then plug the power adapter into an electrical outlet.

**WARNING!** Please use only an approved charging accessory to charge your phone. Improper handling of the charging port, as well as the use of an incompatible charger, may cause damage to your device and void the warranty.

## Optional: Insert the microSD Card

1. Open the slot cover with your finger.
2. With the phone facing up, insert a microSD™ card into the bottom slot with its gold contacts facing down as shown below.
3. Close the slot cover and press it until it clicks into place.

**NOTE:** The microSD card is sold separately.

## Optional: Replace the SIM Card

1. Open the slot cover with your finger.
2. With the phone facing up, insert a nano SIM card in the top slot with the Verizon logo facing up and the card’s cut-off corner facing in. Then push it in until it clicks into place.
3. Close the slot cover and press it until it clicks into place.

## Turning On/Off

To turn **ON**, press and hold the Power/Lock key until the phone vibrates.

To turn **OFF**, press and hold the Power/Lock key and tap Power off.

## Home Screen

### Setting Up Your Phone

1. From the Home screen, tap Apps > Settings > Security > Screen lock.
2. Tap Screen lock, and select the kind of screen lock you want to use.
3. Follow the onscreen instructions.

**NOTE:** The Volume/Zoom Key is a programmable key. To change its function, open the Camera app, tap Volume button options.
