Email

Check and send email messages right from your phone.

To read messages, tap the message. To compose a new message, tap New.

Use the Mail app to set up and manage your other email accounts.

1. From the Home screen, tap Mail.

2. On the Choose a mail provider screen, choose the type of email account to set up.

3. On the email account Inbox, press MENU and then tap More > Gmail.

4. Follow the onscreen instructions to finish setting up your email account.

Adding your other email accounts

If you signed into your Google Account when you first set up your phone, you'll be able to send and receive Gmail messages. From the Home screen, just tap Mail.

Check and send email messages right from your phone.

To create a new message, tap New.

Sending an email message

1. From the Home screen, tap Mail.

2. If you have email accounts, select an account to use.

3. Tap New to compose a new email message.

4. Fill in the To, Cc, and Bcc fields.

5. Enter the subject, and then enter your message.

6. Press Send.

Capturing your big moments

Your phone comes with a 5 megapixel camera with auto-focus feature that lets you capture sharp pictures and record high-definition (720p) videos.

Capture your big moments

1. From the Home screen, tap Camera.

2. If you have more than one camera, tap the camera you want to focus on.

3. On the Viewfinder screen, tap the flash button or you can touch another area on the screen that you want to focus on.

4. Frame your subject on the Viewfinder screen.

5. Let the camera auto focus on the center of the screen, or you can touch another area on the screen that you want to focus on.

6. Press and hold the shutter button to capture the image.

7. The camera processes your photo, and then shows it on the Camera screen.

8. Tap the photo to choose the email addresses of contacts to send the photo.

9. Tap Send to send the photo.

Capture your big moments

1. From the Home screen, tap Camera.

2. If you have more than one camera, tap the camera you want to focus on.

3. Tap More > Zoom bar to use the zoom bar so you can zoom in or out for a closer or wider view.

4. Follow the onscreen instructions to finish setting up your camera.

Getting HTC Sync

You can use the HTC Sync software to sync contacts, messages, calendar, and other information between your computer and your phone.

Get HTC Sync

1. Connect your phone to your computer using the USB cable that came with your phone.

2. When the Connect to PC screen appears, tap Disk drive and then tap OK.

3. On your computer, access your phone's storage card which is recognized as a removable disk.

4. Copy HTCSync.exe to your computer.

5. Install the software as required by your computer's operating system to safely remove it.

6. On your computer, double-click HTCSync.exe and follow the onscreen instructions to install HTC Sync.

Battery saving tips

Here are some things you can do to get the most out of a single charge.

Turning off automatic updates

In some apps such as Weather and Stocks, turn off automatic updates:

- Open the Weather app. Press MENU, tap Settings > Wireless & networks, and then clear the check box for automatic update.

- Open the Stocks app. Press MENU, tap Settings > Wireless & networks, and then clear the check box for automatic update.

Turning off wireless functions

Turn off the data connection, Bluetooth, GPS, Wi-Fi, and other wireless functions that are not in use.

- From the Home screen, press MENU, tap Settings > Wireless & networks, and then turn off the data connection.

- From the Home screen, press MENU, tap Settings > Wireless & networks, and then turn off Bluetooth, GPS, Wi-Fi, and other wireless functions.

- From the Home screen, press MENU, tap Settings > Wireless & networks, and then turn off the data connection.

- From the Home screen, press MENU, tap Settings > Wireless & networks, and then turn off Bluetooth, GPS, Wi-Fi, and other wireless functions.

- From the Home screen, press MENU, tap Settings > Wireless & networks, and then turn off automatic updates.

- To be able to turn off automatic updates in applications such as Facebook, you may need to go to www.pcdphones.com. Please also read the Safety and regulatory guide that's included in the box.

- For the complete user guide and other helpful resources, go to www.htc.com/support.
Before you do anything else, please read this.

Know about privacy laws

Some countries have strict laws about how and when you can record phone conversations. It's a good idea to find out what the laws are where you live before you use your phone's recording feature.

Get to know your phone

1. Take out the battery and peel off the thin film.
2. Starting from the small opening at the bottom of the battery compartment to unlock it. Then gently pull the battery out.
3. Insert the battery, contacts end first, and gently press the POWER button.

Make your Home screen

The home screen is highly customizable and allows you to quickly access your favorite widgets, apps, shortcuts, and folders for one-touch access. Besides the main Home screen, you have up to six extra Home panels to add all the things you need. Slide beyond the screen width, giving you lots of room to add networks like Facebook® and Twitter™, and more.

Your phone's settings are where you can find settings for your phone's services, phone settings, and application settings. You can also set up your other email accounts, favorite social networks like Facebook® and Twitter™, and more.

Keep in contact

When you turn on your phone for the first time, just follow the onscreen instructions to set up your phone.

Set up your phone

When you turn on your phone for the first time, just follow the onscreen instructions to set up your phone.

1. From the Home screen, tap Settings > Accounts > Add account > People.
2. Enter the recipient in the To field.
3. To send multiple recipients, tap Add contact. Then enter the contact information in the relevant fields.
4. When done, tap Send.
