HTC FUZE™
Device setup

Insert the SIM card

The SIM card contains your phone number, service details, and phonebook/message memory. Make sure that your device is turned off before you remove the back cover and insert the SIM card, microSD card, and battery.

1. Hold the device with both hands and the front panel facing down.
2. Push the back cover up with your thumbs until it disengages from the device and then slide it up to remove.
3. Locate the SIM card slot, then insert the SIM card with its gold contacts facing down and its cut-off corner facing out the card slot.
4. Slide the SIM card completely into the slot.

Note: To remove the SIM card, remove the battery if it is installed, then slide the SIM card out from the SIM card slot with your thumb.

Insert the battery

Your device comes with a rechargeable Lithium-ion or Lithium-ion polymer battery and is designed to use only manufacturer-specified original batteries and accessories.

1. Align the battery’s exposed copper contacts with the battery connectors inside the battery compartment.
2. Insert the contact’s side of the battery first and then gently push the battery into place.
3. Replace the back cover.

To remove the battery

1. Make sure your device is turned off.
2. Remove the back cover.
3. Lift the protruding grip at the bottom right side of the battery to remove the battery.
Install a microSD card

To have additional storage for your images, videos, music, and files, you can purchase a microSD™ card and install it into your device.

Insert the microSD card into the slot with its gold contacts facing down, then replace the back cover.

Note: To remove the microSD card, press it to eject it from the slot.

Charge the battery

New batteries are shipped partially charged. Before you start using your device, it is recommended that you install and charge the battery. Some batteries perform best after several full charge/discharge cycles.

To charge the battery

• Connect the USB connector of the AC adapter to the PC and to the sync connector on your device, or
• Plug in the AC adapter to an electrical outlet to start charging the battery.

Note: Only the AC adapter and USB sync cable provided with your device must be used to charge the device.

Charging is indicated by a “breathing” white light around the Navigation Control. As the battery is being charged while the power is on, a charging icon also appears in the title bar of the Home screen. After the battery has been fully charged, the Navigation Control LED shows a solid white light and a full battery icon appears in the title bar of the Home screen.

Warning! Do not remove the battery from the device while you are charging it using the AC or car adapter. As a safety precaution, the battery stops charging when it overheats.
Turn on your HTC FUZE™
Press the POWER button to turn on the device.

It may take several minutes for the TouchFLO 3D interface to load during initial setup. Do not press any buttons or turn off the device while TouchFLO 3D is loading.

Sleep Mode
Your device will go to Sleep Mode after 30 seconds or more of inactivity. Sleep Mode suspends your device to a low power state while the display is off in order to save battery power.

You will still be able to receive messages and calls while your device is in Sleep Mode. To wake up your device, press the POWER button again. Incoming calls or messages will also wake up your device from Sleep Mode.

Tip: You can change how long before your device goes into Sleep Mode by touching Start > Settings > System tab > Power > Advanced tab.
Get to know your HTC FUZE™

Start menu
Access more programs and settings.

Time
Adjust the time or set alarms.

Open Call History.

Open Calendar.

Open Contacts.

HOME
Press to return to the Home screen.

TALK/SEND
Press to answer an incoming call or dial a number.

END
Press to end a call or return to the Home screen.

Status Indicators
Page 12

Open the Quick menu.

TouchFLO 3D tabs
Page 17

BACK
Press to return to the previous screen.
Check out the Navigation Control

On the Home screen and in many programs on your device, you can use the Navigation Control for directional control.

Press the directional arrows to navigate up, down, left, and right on the screen. When an item has been selected on the screen, press the ENTER button (the center button) to confirm your selection.

Open the keyboard

Hold the device sideways with the control buttons on your right, then slide the screen panel up to reveal the keyboard.

Tasks screen

The Tasks screen displays when you open the hardware keyboard while on any of the TouchFLO 3D tabs. The Tasks screen lets you quickly start a task such as compose an email or text message, create a new appointment, open the Web browser, and more.
Enter text using the keyboard

1. Press 📀 to open the Start menu.
2. To enter all uppercase letters, press ⚪ CAPS. To change back to all lowercase letters, press 𝐂𝐀𝐏𝐒 again.
3. To enter a number or symbol (labeled at the upper left of each key in blue), press 📤 FN and then press the corresponding key. Press 📤 FN twice to enter all numbers or symbols.
4. To enter a single uppercase letter, press 📤 SHIFT and then press the corresponding key.
5. Press 📊 OK to verify your data entries or exit the program in use.
6. Press 📊 to open Calendar, or press ⚪ FN + 📊 to open AT&T Music in File Explorer.
7. Press 📊 to open Contacts, or press ⚪ FN + 📊 to open text message.
8. Press 📊 to open Messaging, or press ⚪ FN + 📊 to open Instant Messaging.
9. Press 📊 to open MEdia Net, or press ⚪ FN + 📊 to open CV.
10. Press ⚪ + ⚪ to open the Symbol Pad.
11. Press ⚪ + ⚪ to open the Wireless Manager.
12. For directional movement, press the arrow keys: 📄 PGUP, 📄 PGDN, 📄 T9, 📄 WIFI.
13. Press ⚪ + 📊 to enable the T9 predictive text input.
Check device status, make calls, and set up voicemail

Before making a call
Before you make a call, check that your device is receiving a wireless signal and the status of the other icons in the title bar. The title bar contains important status icons that display the current status of your wireless signal, connection type and signal strength, battery power remaining, and any alerts received. Always check to make sure that your device’s phone function is turned on and that your device is receiving a signal before placing a call or using any data service.

Refer to Chapter 1 of the User Manual (on the CD) for a complete list of status icons.

System Status screen
Touch the Title Bar to open the System Status screen. The System Status screen displays larger icons making it easier for you to touch them.

Title Bar Status Icons

- **GPRS available.**
- **EDGE available.**
- **3G available.**
- **Connected to the 3G network.**

- **Maximum signal strength.**
- **No signal.**
- **Phone function is off.**
- **No wireless service.**
Make a phone call
1. From any screen, press the TALK/SEND button ( ) to open the Phone screen.
2. On the Phone screen, touch the desired phone number using the Phone keypad.
Tip: You can also use the slide out keyboard to enter the phone number you wish to dial.
3. Press to make the call.
4. To end the call, touch End Call on the screen or press the END button ( ).

Did you know? Normally, AT&T 3G allows you to maintain your data connection when connected to a voice call.

Tip: When the device is face up and you receive an incoming call, silence the ringer by turning the device over.

Set up your voicemail
From any screen, press the TALK/SEND ( ) button, then touch and hold the 1 key for several seconds. You will be connected to the voicemail system, which will then ask you to:
1. Create your password.
2. Record your name.
3. Record a greeting.

Check your voicemail messages from your device
1. Touch and hold the 1 key.
2. Follow the voice prompts.

Check your voicemail messages from other phones
1. Dial your 10-digit wireless number.
2. Touch the * key when you hear your personal greeting.
3. Enter your personal password.
4. Follow the voice prompts.
Make a Video Share call

Video Share enables you to share live or recorded video during a call.

1. Dial the number and press the TALK/SEND button ( ).
2. When the call is answered, the Video Share button becomes available if both the caller and the called party’s devices are capable of Video Share and are within a 3G coverage area.
3. Touch the Video Share button to invite the called party to view video from your device.
4. “Establishing a video connection” is displayed on your screen, and the called party sees a notification on their device.
5. The called party accepts the connection and will begin receiving live or recorded video.

Receive a Video Share call

1. When you see a notification of video connection on your device, touch Yes.
2. When connected, the calling party will start to stream live or recorded video on your device screen.
3. Touch End Call to end the Video Share call.

Tip: Only the person who initiated the Video Share is charged.

Note: Video Share is a one way video and two way audio connection between two Video Share devices. Both devices must be provisioned for Video Share and be in 3G service areas (a 3G icon must appear by the signal bars prior to a call being placed).

*You need an AT&T rate plan to use Video Share.
The TouchFLO™ 3D

TouchFLO™ 3D gives you touch control over your HTC FUZE™. TouchFLO allows you to use finger gestures to navigate screens and provides a Home screen that lets you access your most important information and most-used applications quickly and easily.

Note: For detailed information about gestures and screen navigation, refer to the User Manual on the Getting Started CD.

TouchFLO 3D: Learn the gestures for TouchFLO 3D

Touch, Hold and Slide
To navigate the Home screen, touch and hold your finger on the active tab, then slide your finger right or left over the tabs. Release when you have selected the desired tab.

Note: Apply some pressure when touching and holding on the active tab to be able to slide over the tabs.

Up/Down Navigation
Inside each tab, to browse through pictures, emails, and more, hold and slide your finger up or down on the item on the screen or press the Navigation Control Up/Down.

Refer to the Navigation Control on page 10 for more information.
TouchFLO 3D: Zooming

To zoom in: Slide your finger clockwise around the Navigation Control or touch the screen twice.

To zoom out: Slide your finger counterclockwise around the Navigation Control or touch the screen twice again.

The following applications allow you to use the Navigation Control for zooming:
- Album
- Camera
- Web browser (Opera® Mobile)
- Word Mobile and Excel Mobile

TouchFLO 3D: G-Sensor

The HTC FUZE™ also comes with a built in G-Sensor (aka motion sensor) that can change the screen orientation based on the position of the device.

Applications or features that use the G-Sensor include:
- Album
- Web browser (Opera® Mobile)
- Teeter game

For example, in the Web browser (Opera® Mobile), go to a Web site to get a full portrait view and then move the device sideways to change the orientation.
TouchFLO 3D Tabs

The TouchFLO 3D tabs gives you instant access to various information and applications such as your favorite contacts, email, text messages, AT&T services, Music Player, and more right on the Home screen.

1. Home. Check the date and time, appointments, and call history. See page 18.
2. People. Call or send a text message or email to your favorite contacts. See page 21.
3. Email. Read, send, and receive emails from up to 4 email accounts. See page 23.
5. AT&T Services. Access AT&T services such as MEdia Net, AT&T Mall, AT&T Music, AT&T GPS, and more. See page 28.
6. Internet. Open Web bookmarks and browse the Internet using the Web browser (Opera® Mobile). See page 35.
8. Weather. Check the current weather conditions and the 5-day weather forecast for up to 10 cities. See page 38.
9. Programs. Add up to 18 program shortcuts to quickly access them. See page 39.
10 Photos and Videos. Visually browse photos and videos that are in your favorite album. See page 40.
11. Settings. Adjust device settings such as ringtone, device profile, Home tab wallpaper, and more. See page 42.
Home

The Home tab summarizes the most important and frequently used items on one screen to help you keep your information organized at a glance.

Displays the date and time and alarm.

Displays the number of missed calls.

Displays your appointments.

Note: For appointments, one all-day appointment and up to two timed appointments can be displayed.

Enter Information

On-screen character input

When you start a program or select a field that requires text or numbers, you can either use the slide out key board or on-screen keyboard for entering characters. Touch the Input Panel icon to toggle between showing and hiding the input panel.

Input Panel icon

Change the date and time

1. Touch the digital time display.
2. On the Time tab, select the correct time zone and change the date or time.
3. Touch OK.

Note: If you visit or communicate with someone in a particular time zone often, you can select it as your visiting time zone.
With the slide out keyboard open and in landscape mode you enter information directly from the keyboard; when in portrait mode with the keyboard closed you can enter characters by touching the keys on the on-screen keyboard.

Add a contact to your device
1. On the Home screen, touch Contacts.
2. Touch New > Outlook Contact.
3. Enter the contact details for the person. You can associate a photo with the contact by touching Select a picture.
4. When you are finished entering the contact details, touch OK.

Copy all SIM card contacts to your device
1. On the Home screen, touch Contacts > Menu > SIM Manager.
2. Touch Menu > Select All.
3. Touch Menu > Save to Contacts.

Tip: A shortcut to enter the number, symbol, or punctuation mark on top of the key is to touch and hold the key until the character appears. For example, to enter “2”, touch and hold the “w” key (Full QWERTY) or the “ty” key (Compact QWERTY).
Schedule an appointment

1. On the Home screen, touch Calendar.
2. Touch Menu > New Appointment.
3. Enter a subject for the appointment.
4. Enter the other appointment details and then touch OK when you are finished.

View your appointments on the Home screen

The Home tab displays your upcoming calendar appointments.

Swipe upward on the screen to display the smaller digital clock and view more appointments.

One all-day appointment and up to two timed appointments can be displayed. Touch this area to create, edit or view an appointment.
Add a favorite in the People tab

1. On the Home screen, slide to the People tab, then touch the Plus icon.
2. On the Select a Contact screen, touch the name of the desired contact.
3. Select a phone number or an email address to associate to the favorite contact. When finished, the People tab displays your favorite contact.

Note: If there is no photo associated with the contact, you will be asked to pick a photo in your device or you can choose to take a photo using the device’s camera.
4. To add another favorite contact, touch the small Plus icon ( ) on the right and repeat steps 2 and 3.
Use the People tab

Flip through the contact pictures and quickly make a call, send a text message, or send an email to a favorite contact.

Touch this icon or the information below the photo to call, send a text message or send an email to your contact.

Touch and hold on the photo strip, then slide up or down to scroll through your favorite contacts.

Touch the contact picture to access detailed contact information.

You can also hold and slide your finger up or down the center screen to flip through your contacts.

Touch to open the contact details, add or remove a contact, or change the contact picture.
Email

The Email tab is where you set up email accounts (up to 4) and send and receive email messages.

Displays the email message.

Create and send a new email.

Displays the email accounts that have been set up in your device.

Open the inbox of the selected email account.

Create a new email, add a new email account, or send and receive email on the selected account.

There are two methods for opening and reading an email. Option 1, from the envelope view you can do the following:

Touch the email on the screen to open and read and reply to the message.

Option 2, you can open your inbox, and then from the inbox, touch the email to open and read it.
About email
Choose the best email option for you. Your Windows Mobile powered PDA device can connect to:

- **Personal Email Accounts**  Personal email syncs email directly with your internet service provider (ISP) like Yahoo!, AOL or Hotmail to your Windows Mobile powered PDA device. To set up a personal email account on your HTC FUZE™, you can use Xpress Mail. Xpress Mail offers automated setup and synchronization so that changes and deletions on your HTC FUZE™ also appear in your ISP email account.

- **Corporate Email Accounts**  Corporate email accounts from Microsoft® Exchange Server, IBM Lotus Domino, or Novell GroupWise are typically managed by an IT organization. To set up wireless corporate email synchronization on your HTC FUZE™, you can use self service set up with Xpress Mail or IT Managed set up with Microsoft® Direct Push, BlackBerry Connect or Good Mobile Messaging.

Set up a personal email with Xpress Mail

1. On the Home screen, slide to the AT&T tab, touch the Messaging icon , then touch Xpress Mail.
2. Touch Install Now to launch the Xpress Mail download site.
3. Touch Install Now on the download page.
4. Select the Open after download option, then touch Yes to continue. Xpress Mail is downloaded and installed on your device.
5. When prompted to restart the device, touch OK.
6. After the device restarts, touch Xpress Mail Settings, then touch OK to accept the license agreement.
7. Confirm your 10 digit mobile (cell) number (numbers only) and touch Next.
8. Select Portal or ISP and touch Next.
9. Choose your provider and touch Next. (If your email provider is not listed, touch More to view an additional list of personal email providers.) Touch Accept when prompted to agree to the ISP terms of use, if applicable.
10. Enter your User Name and Password and touch Next to continue.
11. Touch Register and wait for the registration process to complete.

12. When the process is complete, touch OK when the message appears telling you the device has been successfully registered.

Your device will automatically display the Xpress Mail Settings screen where you can change your email settings and preferences. Touch Inbox to view your messages.

Send and receive personal email

1. On the Home screen, slide to the Email tab, touch an email account icon, then touch Inbox.

2. Touch Menu > Send/Receive to download your emails.

3. To compose a new email, touch Menu > New.

4. When you are finished composing your message, touch Send.

Corporate email setup with Xpress Mail

To set up self service corporate wireless email and calendar on your device, use Xpress Mail. Auto-push email from corporate accounts including Microsoft® Exchange and IBM Lotus Domino. Simply go to http://xpressmailpe.wireless.att.com to register and install “redirector” software on your PC. This computer must remain on and connected to the corporate network in order for corporate email to be redirected to the device. To set up Xpress Mail for corporate email, you will need a work email address, the type of mail server your company runs (Microsoft® Exchange, Lotus Notes or IMAP) and the computer you use to access your corporate email (must be connected to the Internet).

To set up Xpress Mail for corporate email and calendar:

2. Follow the instructions to install and connect Xpress Mail to your corporate email account.

3. You will receive a notification message confirming that your software is installed and you are now connected to Xpress Mail.

4. Set up access to your corporate email from your device.
Set up IT managed corporate email

To set up IT managed corporate wireless email on your HTC FUZE™, you will need a PIN or server address from your corporate IT organization. Contact your IT administrator for more information about Microsoft® Direct Push, BlackBerry Connect or Good Mobile Messaging support for the HTC FUZE™.

**Microsoft® Direct Push** provides wireless access to your corporate email, contacts, calendar and tasks for Microsoft® Exchange Server. Contact your IT administrator for set up instructions. Activate a “PDA Enterprise for Microsoft” data plan on your AT&T account before using Microsoft® Direct Push.

**BlackBerry® Connect for Windows Mobile®** provides access to BlackBerry wireless push email and more, including BlackBerry Enterprise Server™ for corporate email and BlackBerry Internet Service™ for personal/ISP email. You will need to have a PDA Enterprise for BlackBerry Connect data plan provisioned on your wireless service. To learn more, please visit att.com/blackberry.

**Good Mobile Messaging** provides your corporate email, calendar, contacts, tasks and notes for Microsoft® Exchange Server and Lotus Domino. Visit get.good.com to check availability of Good Mobile Messaging for your HTC FUZE™.

You will need a PIN in order to download and install. If you do not have a PIN, check with your IT administrator. Activate a “PDA Enterprise for Good” data plan on your AT&T account before using Good Mobile Messaging.

Synchronize information

If you are using Windows® XP or other compatible Windows systems, install Microsoft ActiveSync 4.5 or later to sync information with your computer. If you have Windows Vista®, you can use Microsoft Windows Mobile® Device Center to easily sync with your computer.

Tip: The Getting Started CD contains Windows Mobile Device Center and Microsoft ActiveSync 4.5 or later, that you can install on your PC.

After you have installed Microsoft ActiveSync or Windows Mobile Device Center to your PC and set up all items or information you want to synchronize, connect the device to your PC using the USB sync cable.

On the Home screen, slide to the Programs tab, then touch the ActiveSync icon to begin synchronization.

For detailed information on how to use these applications to synchronize information between your device and your PC, consult the User Manual in the Getting Started CD.
Text Messages

On the Messages tab, you can read text messages as they arrive and create a new text message. You can also view the text of received multimedia messages on this tab.

Compose and send a text message

1. Touch the New Message icon.
2. Enter the mobile phone number of one or more recipients, separating them with a semicolon. To access mobile phone numbers from Contacts, touch To.
3. Enter your message.
   - To quickly add common messages, touch Menu > My Text and touch a desired message.
   - To check the spelling, touch Menu > Spell Check.
4. Touch Send.

When there is a message, you can do the following:

To flip through received text and multimedia messages, hold and slide upward or downward on the screen.

Touch the message on the screen to read and reply to the message.
The AT&T tab is your portal to AT&T features and services that are available for your device.

Displays the available applications. Refer to the table below.

Go to the Programs tab.

Go to the Home tab.

AT&T Services

**AT&T GPS** Opens a link to the AT&T Navigator download site. When you have downloaded and installed the AT&T Navigator, touch this icon to launch the program. See page 31.

**Tools** Opens the Tools folder where you can find value-added applications for your device.

**CV** Opens the browser to the CV Web site where you can select and watch streaming video clips on-demand. See page 33.

**Games and Apps** Opens the Games & Apps folder where you can find games and other applications for your device.

**Push to Talk** Launches the Push to Talk function that allows you to instantly talk to your PTT contacts. See page 33.

**MEdia Net Home** Opens the browser to the MEdia Net home page where you can access various information. See page 29.

**AT&T Mall** Opens the AT&T Mall screen where you can access the Web to shop online for games, ringtones, graphics, multimedia, goodies and other applications. See page 29.

**AT&T Music** Opens the AT&T Music screen where you can log on to XM radio, or shop for music, songs, music videos, streaming media, or open the music player. See page 30.

**Messaging** Opens the Messaging screen where you can send and receive email, multimedia, and text messages, or use Instant Messaging to chat online. See page 30.

For detailed information on how to use AT&T features and services, refer to User Manual in the Getting Started CD.
Use MEdia Net to access the Web and shop online

Access the Web on your device using MEdia Net ( ) from AT&T as your default home page. You can customize your MEdia Net page with your favorite content.

To browse the Web with MEdia Net

1. On the Home screen, slide to the AT&T tab, then touch the MEdia Net icon ( ).
2. Scroll and touch the content you want to browse.
3. Touch Edit to customize your MEdia Net Home page for quicker access.

Tip: Refer to the TouchFLO 3D topic on page 15 to learn how to use finger gestures to zoom in and out and navigate the Web page.

Note: If you do not have a data plan associated with your device go to wireless.att.com/support or call 611 from your wireless device (1-800-888-7600 from a landline) to add, upgrade, or change your data plan.

To browse other Web sites

1. On the Home screen, slide to the AT&T tab, then touch the MEdia Net icon ( ).
2. In the address bar that appears at the top of the screen, enter the address (URL) of the Web site, then touch the arrow or press the ENTER button.
3. To bookmark a Web page, touch Menu > Add to Favorites.

Shop via AT&T Mall

AT&T Mall is your launch pad for shopping for several types of content for your device, like applications, games, graphics, ringtones and other multimedia content.

Access AT&T Mall

1. On the Home screen, slide to the AT&T tab, then touch the AT&T Mall icon ( ).
2. Touch the icon on the screen for the type of content you are interested in.

Note: On your device, you can look up information on the Web while you’re on a call.
AT&T Music

AT&T Music (🎵) provides the ultimate music experience with just a touch of a button. Listen to your favorite music, watch the latest video, and stay in the know with music, news and more.

- Transfer and listen to your music with the integrated Music Player.
- Purchase and load tracks from digital music stores like Napster® to your device.
- Personalize with ringtones and Answer Tones™ under Shop Music.
- Instantly ID the title and artist of a song with Music ID.
- Stream dozens of commercial free XM music stations with XM Radio.

Open AT&T Music

On the Home screen, slide to the AT&T tab, and then touch the AT&T Music icon (🎵). Highlight the application you wish to choose and press ENTER.

Use Instant Messaging

If you use an instant messaging (IM) (💬) service, such as Yahoo!® Messenger, AOL® Instant Messenger™, or Windows Live™ Messenger, you can experience the convenience and fun of IM on the go with your device.

Open Instant Messaging and sign-in

1. On the Home screen, slide to the AT&T tab, then touch the Messaging icon (✉️), and then touch Instant Messaging.
2. Touch the IM service icon (💬).
3. Enter your screen name (AOL® Instant Messenger™), email address (Windows Live™ Messenger), or Yahoo! ID (Yahoo!® Messenger) and password, then touch Sign In.
Add an IM contact
1. Touch the group that you want to add the contact to.
2. From the IM main screen, touch Menu > Add Contact.
3. Type in the ID and nickname of the contact you want to add, and then touch Add.

Send a message
1. Touch the desired IM contact to send a message to.
2. Slide the hardware keyboard, then compose your message.
3. Touch Send.

AT&T Navigator
Turn your HTC FUZE™ into a GPS navigation system.

Download and install AT&T Navigator
1. On the Home screen, slide to the AT&T tab, then touch the AT&T Navigator icon ( ), and then touch Get AT&T Navigator.

Note: If downloading AT&T Navigator via the Web browser, enter http://att.telenav.com/nav on the address bar, then touch Enter.

2. When a dialog box opens, select the Open file after download option, then touch Yes to download the file.

3. If an “Unknown Publisher” prompt appears, touch Yes to continue.

4. Once AT&T Navigator has installed successfully, touch OK to restart the HTC FUZE™.

Note: If you don’t already have an AT&T Navigator account, AT&T Maps is installed with the option to upgrade to AT&T Navigator. AT&T Maps does not use the GPS capabilities of the HTC FUZE™.
Start AT&T Navigator

1. On the Home screen, slide to the AT&T tab, then touch the AT&T Navigator icon ( ), and then touch AT&T Navigator.
2. Enter your mobile phone number, first and last name, then touch Login.
3. On the warning screen, touch Go.
4. When offered to take a brief tour of the AT&T Navigator features, touch Yes. Otherwise, touch No.
5. AT&T Navigator is now ready to use. Select the AT&T Navigator feature you would like to use.

Generate a Route

1. Select the Drive To option.
2. Select the Address option and choose the Type In Address Option.
3. Enter the address for your desired destination.
4. AT&T GPS will attempt to validate the address and prompt you to confirm the address.
5. Once the address for your destination is confirmed, touch OK to generate your route.

Note: You must be outdoors to establish a GPS connection. Eligible wireless service plan required.
CV

CV (CV) brings you streaming video clips on-demand from the most popular networks, trusted news sources, entertainment, sports, music and cable providers. With CV, there are thousands of videos to watch - anytime, anyplace for any reason.

Open CV

1. On the Home screen, slide to the AT&T tab, then touch the CV icon (CV).
2. When connected, select a category, find your favorite show, then touch PLAY.

Push to Talk

Push to Talk (PTT) (P) is a communication service that allows you to use your device for instant communication with one or many contacts simply by pressing the PTT button.

Set up Push to Talk

The first step in using the Push to Talk (PTT) service is initializing the device.

1. Press the PTT button on the left panel of the device.
2. Touch Yes when prompted to initialize PTT.
3. Type a name that is up to 20 characters (this will be your PTT user name) and touch OK. You will receive a notification when the PTT service is initialized successfully.

Once the initialization process is completed (it may take several minutes), a message box will appear and then the “Available” icon (😊) will appear in the title bar.

Note: For Push to Talk calling, AT&T recommends adding the Push to Talk feature to your account, so that you are not charged on a pay per use basis.
Add a Push to Talk contact

After initializing PTT, you must add individuals or groups to your PTT contact list before you can place a PTT call. Individuals and group members must subscribe to the AT&T PTT service.

1. On the Home screen, slide to the AT&T tab, then touch the PTT icon (P).
2. On the PTT Menu screen, touch Add Contacts.
3. You may now enter the new contact’s name and mobile phone number. Enter the number, then touch OK.
4. The device will now send the invitation to your new contact. You will see an icon while the invitation is in progress.

Make a Push to Talk call

The Push to Talk feature allows you to talk to friends who have the same feature on their devices.

1. Press the PTT button located on the left side of the device.
2. The PTT Contacts Screen will appear. Use the Navigation Control buttons to highlight the contact you would like to call.
3. Press and hold the PTT button to establish a connection.
4. A moment later, your device will sound a beep. You may begin talking. When the connection is established, your screen will change to include a timer for the duration of your connection.
5. Press and hold the PTT button while speaking and release it when you are not.
6. To end a PTT call session, touch END on the screen. You will be automatically disconnected if the call has no activity for 30 seconds.

Receive a Push to Talk call

You will be notified by a ring when you receive a Push to Talk call.

1. Press the PTT button located on the left side of the device, then begin talking to the other party.
2. Release the PTT button when you are finished speaking.
The internet tab is the quickest method to access the internet. On the Internet tab, you can open the Web browser (Opera® Mobile) and browse the Web. You can also access the internet using the MEdia Net shortcut on the AT&T Service tab (see page 29).

Open all bookmarks.

Open the Web browser (Opera® Mobile).

Hold and slide your finger upward to scroll down the screen and access more Web favorites.

Touch a bookmarked item to open it in the Web browser (Opera® Mobile).

While in the Web browser (Opera® Mobile)

Use finger gestures to pan and zoom on the Web page.

You can also use Navigation Control to zoom in or out of the Web page.

Refer to the TouchFLO 3D topic on page 15 to learn how to use finger gestures to navigate the Web page.
Add your favorite Web site as a bookmark

Create a bookmark for Web sites that you frequently visit. This lets you access that Web site faster in the future.

1. On the Home screen, slide to the Internet tab, then touch the globe on the screen.
2. Touch the URL field and then enter the URL of the Web site you want to add as a bookmark. Touch 
3. At the bottom of the screen, touch 
4. In the Bookmarks screen, touch 
5. Enter the name for the bookmark and select the folder where you want to save the bookmark.
6. Touch 

Tip: You can also use the hardware keyboard to enter name of the Web site.
Music Player

The Music Player tab allows you to visually browse through music albums and play music.

Transfer music

To play a song, first copy some music files to your device. To copy the songs to your device, you will need the following:

- Music on your PC in one of these formats: MP3, WMA, AAC.
- A microSD™ card is preferable to copy songs to your device for extra storage (1GB or larger is recommended).
- Windows Mobile® Device Center or Microsoft® ActiveSync® software loaded onto your PC. During the setup process, choose Connect without setting up your device for Windows Mobile Device Center or click Cancel when the Sync Setup Wizard opens for ActiveSync.
- Windows Media® Player 11.

You are now ready to transfer music to your device.

1. Connect the device to the PC using the USB sync cable.
2. On the PC, open Windows Media Player 11 and click on the Sync tab.
3. Drag the audio files you want to load on your device to the Sync list. (You can load MP3, WMA, and AAC music files from your PC.)
4. Click Start Sync to start loading the music files on to your device.

For more information on how to create playlists and play music in the music library, refer to the User Manual in the Getting Started CD.
Weather

You can check your local weather as well as the weather for cities around the globe on the Weather tab. You can monitor up to 10 cities on the Weather tab.

**Displays the current temperature.**

**Displays the current weather conditions.**

**See five day weather forecast of the week.**

**Display the time the Weather page was updated.**

**Change the temperature scale or add a new location.**

**Touch here to download the latest weather information.**

**To switch between cities, hold and slide your finger upward/downward.**

**Add a new location**

1. Touch Menu > Add Location.
2. On the Select Country screen, slide your finger up or down the screen or use the Quick Scroll bar to scroll through the list of countries and then touch a country to select it.
3. On the Select City screen, slide your finger up or down the screen or use the Quick Scroll bar to scroll through the list of cities and then touch a city to select it.

**Quick Scroll bar**

**You can also touch the Up/Down arrow to switch between cities.**
You can add up to 18 program shortcuts on the Programs tab. You can add, delete or replace any of the shortcuts you have added to customize your tab.

- Displays the program shortcuts.
- Access the complete list of programs on your device.
- Touch an empty slot to add a favorite program.
- To view more program shortcuts, hold and slide your finger upward/downward on the screen.
- Touch a program icon to open the corresponding program.
- Open the corresponding program.
- Remove programs from the Programs tab.

Tip: To replace a slot with another program, you must delete the occupying program shortcut first and then add your desired program.
Photos and Videos

Quickly browse your photos and video clips that are in your device or storage card. View your photos in full screen or as a slideshow.

Displays the photo or video clip.

Open Album to view all your photos and videos.

To flip through photos and videos, hold and slide upward or downward on the center of the screen.

Touch the photo or video on the screen to view or play it in full screen.

While viewing your photos in full screen mode, you can use finger gestures or the Navigation Control to browse, pan, and zoom your photos. Refer to the TouchFLO 3D section on page 15.

Take a picture of your contact

1. Slide to the Photos and Videos tab, then touch  
2. Frame your contact on the screen, touch the ENTER button to activate auto-focus, then press it to take the shot.
3. You can now associate the picture to the contact and add the contact in the People tab. Refer to the People tab in page 21 for more information.
Use the camera and send a Multimedia Message (MMS)
You can use your device’s camera to capture photos and videos, then send these as multimedia messages.

Take and send a picture
1. Slide to the Photos and Videos tab, then touch 📷.
2. Touch the ENTER button to activate auto-focus, then press it to take the shot.
3. In the Review screen, touch 📷, select Send via MMS, then touch Send.
4. In To: , enter the phone number of your message recipient. To add mobile phone numbers from Contacts, touch To.
5. Enter the message subject, then compose the multimedia message.
6. Touch Send.

Capture and send a video
1. Slide to the Photos and Videos tab, then touch 📹.
2. Touch the ENTER button to activate auto-focus, then press it to start recording. To stop recording, press the ENTER button again.
3. In the Review screen, touch 📷, select Send via MMS, then touch Send.
4. In To: , enter the phone number of your message recipient. To add mobile phone numbers from Contacts, touch To.
5. Enter the message subject, then compose the multimedia message.
6. Touch Send.
The Settings tab lets you access the most frequently used device settings so that you can customize your device quickly.

**Personalize your device ringtone**
1. On the Home screen, slide to the Settings tab and then touch Sound.
2. Scroll down and then touch Ringtone.
3. Select the ringtone you want to use.
4. Touch Done.

Tip: You can use *.wav, *.mid, *.mp3, *.wma, or other types of sound files that you downloaded from the Internet or copied from your computer as ringtones.

You can also purchase ringtones from the AT&T Mall. On the Home screen, slide to the AT&T tab, then touch the AT&T Mall icon. Select Shop Tones.

**Change the Home tab wallpaper**
1. On the Home screen, slide to the Settings tab and then touch Wallpaper.
2. Locate the image file that you want to use as the wallpaper.
3. Touch the image file.

Note: For complete information on how to configure or adjust the device settings, refer to the User Manual in the Getting Started CD.
Connect a Bluetooth headset

1. On the Home screen, slide to the Settings tab and then touch Menu > Bluetooth Devices > Mode tab.
2. Select the Turn on Bluetooth and Make this device visible to other devices check boxes.
3. Touch OK. The title bar will show 📡 to indicate that the device is in visible mode.

Note: 📡 is displayed on the title bar when Bluetooth is only turned on.
4. Turn on and make visible the Bluetooth headset and place it within close range. Refer to the headset’s documentation to learn how to set it to visible mode.
5. On the Bluetooth screen of your device, touch the Devices tab, then touch Add new device. The device will search for Bluetooth devices which are within range.
6. When detected, touch the name of the Bluetooth headset, then touch Next. The device will automatically pair the device with the Bluetooth headset. The 📡 icon will show on the title bar.

Note: Windows Mobile will automatically try one of the preconfigured passcodes (0000, 8888) to pair the Bluetooth headset with the device. If this fails, you have to enter the passcode delivered with your headset manually.

Tip: You can use a Bluetooth headset to listen to music on your device.

Connect to Wi-Fi

1. On the Home screen, slide to the Settings tab, then touch Communications.
2. Touch the Wi-Fi button to turn the wireless function on or off.
3. The network names of the detected Wi-Fi networks will be displayed on a pop-up message window. Select the desired Wi-Fi network, then touch OK.
4. On the next pop-up message window, select The Internet to connect your device to the Internet. Otherwise, touch Work to connect your device to a private network.
5. Enter the security key, then touch Connect.

Note: The proxy server must be turned off in order to connect to a Wi-Fi network. To change the proxy server setting, touch Start > Settings > Connections tab > Connections, then clear the This network uses a proxy server to connect to the Internet check box. Wi-Fi networks are self-discoverable, which means no additional steps are required for your device to connect to a Wi-Fi network. It may be necessary to provide a username and password for secured wireless networks.
Frequently Asked Questions

How long should it take to charge my battery?
Your battery can take up to 3 hours to fully charge using the AC charger. It will take much longer using the USB cable.

Why won’t my device power on?
Your battery may be drained or is not seated correctly. Try removing and reinserting the battery. If no success, try charging the device using the AC charger. The LED ring around the Navigation Control shows a “breathing” white light when the battery is being charged.

When I try to download a lot of songs, I always get timed out and the download stops.
If you are downloading 50 or more songs to your device, it may timeout. To bypass this, touch Start > Settings > Connections tab > USB to PC. Select the Enable advanced network functionality check box and touch OK. You may want to deselect this box if you are getting corporate email, as it may cause issues with VPNs and servers.

What is needed to use the built in GPS on my device?
AT&T supports AT&T Navigator with a monthly subscription but the device is capable of supporting any GPS application.

Which GPS applications are supported by AT&T?
AT&T Navigator is currently the only GPS solution that has been tested and certified for use with this device.

How do I turn on/off Wi-Fi?
Slide to the Settings tab, then touch Communications. Touch Wi-Fi to turn it on or off.

Why can’t I connect to the Internet when using Wi-Fi?
The proxy server must be turned off in order to connect to a wireless network. You can change the proxy server setting by performing the following:
1. Touch Start > Settings > Connections tab > Connections > Set up my proxy server.
2. Make sure that the box “This network uses a proxy server to connect to the Internet” is unchecked.

What is a soft reset and how is it performed?
A soft reset of your device clears all active program memory and shuts down all active programs. To perform a soft reset, use the stylus to press the Reset button.

What is a hard reset and how is it performed?
A hard reset restores the device to its default settings — the way it was when you first purchased it. A hard reset should only be performed after all other troubleshooting options have been exhausted.

To perform a hard reset:
1. Touch Start > Settings > System tab > Clear Storage.
2. Enter “134” in the box, then touch Yes.
OR
1. With the device turned off, press and hold the Volume Down and Enter buttons and then briefly press the Power button.
2. Continue pressing the Volume Down and Enter buttons until you see the Reset message.
3. Press the Volume Up button.
Tips and Tricks

Change the Home tab background:
1. On the Home screen, slide to the Settings tab, then touch Wallpaper.
2. On the Select a Picture screen, touch the desired picture.

Set an MP3 file as your ringtone:
1. Copy the MP3 file to the My Ringtones folder on your device.
2. On the Home screen, slide to the Settings tab and then touch Sound.
3. Scroll down and then touch Ringtone.
4. In the Ringtones list, select the MP3 file as your ringtone.

Assign a picture to a contact:
1. On the Home screen, slide to the People tab and then touch All People.
2. Touch a contact to open his/her contact card.
3. Touch Menu > Edit.
4. Touch Select a picture in the Picture field.
5. Select the desired picture and touch OK.

OR
1. Go to Start > Programs > Tools > Pictures & Videos.
2. Select the picture you want to assign.
3. Touch Menu > Save to Contact.
4. Choose the desired contact.

Assign a ringtone to a contact:
1. On the Home screen, slide to the People tab and then touch All People.
2. Touch a contact to open his/her contact card.
3. Touch Menu > Edit.
4. Scroll down and touch the Ringtone field.
5. Select the desired ringtone.

Modify the date or time settings:
1. Touch the digital clock on the Home tab, then touch the Time tab.
2. Touch Home or Visiting.
3. Select the appropriate time zone and adjust the time or date.

Assign a shortcut button to a program:
1. On the Home screen, slide to the Settings tab, then touch All Settings > Personal tab > Buttons.
2. On the Program Buttons tab, touch a button you want to reassign.
3. In the Assign a program box, touch the program or shortcut command you want to assign to the button.
4. Touch OK.
