Please Read Before Proceeding

THE BATTERY IS NOT CHARGED WHEN YOU TAKE IT OUT OF THE BOX.

DO NOT REMOVE THE BATTERY PACK WHEN THE DEVICE IS CHARGING.

YOUR WARRANTY IS INVALIDATED IF YOU DISASSEMBLE OR ATTEMPT TO
DISASSEMBLE THE DEVICE.

PRIVACY RESTRICTIONS
Some countries require full disclosure of recorded telephone conversations, and
stipulate that you must inform the person with whom you are speaking that the
conversation is being recorded. Always obey the relevant laws and regulations of
your country when using the recording feature of your device.

**Limitation of Damages**

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL HTC OR ITS PROVIDERS BE LIABLE TO USER OR ANY THIRD PARTY FOR ANY INDIRECT, SPECIAL, CONSEQUENTIAL, INCIDENTAL OR PUNITIVE DAMAGES OF ANY KIND, IN CONTRACT OR TORT, INCLUDING, BUT NOT LIMITED TO, INJURY, LOSS OF REVENUE, LOSS OF GOODWILL, LOSS OF BUSINESS OPPORTUNITY, LOSS OF DATA, AND/OR LOSS OF PROFITS ARISING OUT OF, OR RELATED TO, IN ANY MANNER, OR THE DELIVERY, PERFORMANCE OR NONPERFORMANCE OF OBLIGATIONS, OR USE OF THE WEATHER INFORMATION, DATA OR DOCUMENTATION HEREUNDER REGARDLESS OF THE FORESEEABILITY THEREOF.
Important Health Information and Safety Precautions

When using this product, the safety precautions below must be taken to avoid possible legal liabilities and damages.

Retain and follow all product safety and operating instructions. Observe all warnings in the operating instructions on the product.

To reduce the risk of bodily injury, electric shock, fire, and damage to the equipment, observe the following precautions.

**ELECTRICAL SAFETY**

This product is intended for use when supplied with power from the designated battery or power supply unit. Other usage may be dangerous and will invalidate any approval given to this product.

**SAFETY PRECAUTIONS FOR PROPER GROUNDING INSTALLATION**

**CAUTION:** Connecting to an improperly grounded equipment can result in an electric shock to your device.

This product equipped with a USB Cable for connecting with desktop or notebook computer. Be sure your computer is properly grounded (earthed) before connecting this product to the computer. The power supply cord of a desktop or notebook computer has an equipment-grounding conductor and a grounding plug. The plug must be plugged into an appropriate outlet which is properly installed and grounded in accordance with all local codes and ordinances.

**SAFETY PRECAUTIONS FOR POWER SUPPLY UNIT**

- **Use the correct external power source**
  A product should be operated only from the type of power source indicated on the electrical ratings label. If you are not sure of the type of power source required, consult your authorized service provider or local power company. For a product that operates from battery power or other sources, refer to the operating instructions that are included with the product.
This product should be operated only with the following designated power supply unit(s).

**AC Adapter**
- Phihong, Models PSAA05A-050, PSAA05C-050, PSAA05E-050, PSAA05K-050 and PSAA05S-050.
- HTC, Model TC P300

**Car Adapter**
Phihong, Model CLA05D-050

- **Handle battery packs carefully**
  This product contains a Li-ion polymer battery. There is a risk of fire and burns if the battery pack is handled improperly. Do not attempt to open or service the battery pack. Do not disassemble, crush, puncture, short external contacts or circuits, dispose of in fire or water, or expose a battery pack to temperatures higher than 60°C (140°F).

**WARNING:** Danger of explosion if battery is incorrectly replaced. To reduce risk of fire or burns, do not disassemble, crush, puncture, short external contacts, expose to temperature above 60°C (140°F), or dispose of in fire or water. Replace only with specified batteries. Recycle or dispose of used batteries according to the local regulations or reference guide supplied with your product.

**NOTE**  This product should be operated only with the following designated Battery Pack(s). HTC, Model SAPP160
• **Take extra precautions**
  
  • Keep the battery or device dry and away from water or any liquid as it may cause a short circuit.
  
  • Keep metal objects away so they don’t come in contact with the battery or its connectors as it may lead to short circuit during operation.
  
  • The phone should be only connected to products that bear the USB-IF logo or have completed the USB-IF compliance program.
  
  • Do not use a battery that appears damaged, deformed, or discolored, or the one that has any rust on its casing, overheats, or emits a foul odour.
  
  • Always keep the battery out of the reach of babies and small children, to avoid swallowing of the battery. Consult the doctor immediately if the battery is swallowed.
  
  • If the battery leaks:
    
    • Do not allow the leaking fluid to come in contact with skin or clothing. If already in contact, flush the affected area immediately with clean water and seek medical advice.
    
    • Do not allow the leaking fluid to come in contact with eyes. If already in contact, **DO NOT** rub; rinse with clean water immediately and seek medical advice.
    
    • Take extra precautions to keep a leaking battery away from fire as there is a danger of ignition or explosion.
  
  **SAFETY PRECAUTIONS FOR DIRECT SUNLIGHT**

Keep this product away from excessive moisture and extreme temperatures. Do not leave the product or its battery inside a vehicle or in places where the temperature may exceed 60°C (140°F), such as on a car dashboard, window sill, or behind a glass that is exposed to direct sunlight or strong ultraviolet light for extended periods of time. This may damage the product, overheat the battery, or pose a risk to the vehicle.
PREVENTION OF HEARING LOSS

**CAUTION:** Permanent hearing loss may occur if earphones or headphones are used at high volume for prolonged periods of time.

**NOTE:** For France, Earphone (listed below) for this device have been tested to comply with the Sound Pressure Level requirement laid down in the applicable NF EN 50332-1:2000 and/or NF EN 50332-2:2003 standards as required by French Article L. 5232-1.
- Earphone, manufactured by Cotron, Model HS S200.

SAFETY IN AIRCRAFT
Due to the possible interference caused by this product to an aircraft’s navigation system and its communications network, using this device’s phone function on board an airplane is against the law in most countries. If you want to use this device when on board an aircraft, remember to turn off your phone by switching to Airplane Mode.

ENVIRONMENT RESTRICTIONS
Do not use this product in gas stations, fuel depots, chemical plants or where blasting operations are in progress, or in potentially explosive atmospheres such as fuelling areas, fuel storehouses, below deck on boats, chemical plants, fuel or chemical transfer or storage facilities, and areas where the air contains chemicals or particles, such as grain, dust, or metal powders. Please be aware that sparks in such areas could cause an explosion or fire resulting in bodily injury or even death.

EXPLOSIVE ATMOSPHERES
When in any area with a potentially explosive atmosphere or where flammable materials exist, the product should be turned off and the user should obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death. Users are advised not to use the equipment at refueling points such as service or gas stations, and are reminded of the need to observe restrictions on the use of radio equipment in fuel depots, chemical plants, or where
blasting operations are in progress. Areas with a potentially explosive atmosphere are often, but not always, clearly marked. These include fueling areas, below deck on boats, fuel or chemical transfer or storage facilities, and areas where the air contains chemicals or particles, such as grain, dust, or metal powders.

**ROAD SAFETY**

Vehicle drivers in motion are not permitted to use telephony services with handheld devices, except in the case of emergency. In some countries, using hands-free devices as an alternative is allowed.

**SAFETY PRECAUTIONS FOR RF EXPOSURE**

- Avoid using your phone near metal structures (for example, the steel frame of a building).
- Avoid using your phone near strong electromagnetic sources, such as microwave ovens, sound speakers, TV and radio.
- Use only original manufacturer-approved accessories, or accessories that do not contain any metal.
- Use of non-original manufacturer-approved accessories may violate your local RF exposure guidelines and should be avoided.

**INTERFERENCE WITH MEDICAL EQUIPMENT FUNCTIONS**

This product may cause medical equipment to malfunction. The use of this device is forbidden in most hospitals and medical clinics.

If you use any other personal medical device, consult the manufacturer of your device to determine if they are adequately shielded from external RF energy. Your physician may be able to assist you in obtaining this information.

Turn your phone OFF in health care facilities when any regulations posted in these areas instruct you to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.
HEARING AIDS
Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you may want to consult your service provider, or call the customer service line to discuss alternatives.

NONIONIZING RADIATION
Your device has an internal antenna. This product should be operated in its normal-use position to ensure the radiative performance and safety of the interference. As with other mobile radio transmitting equipment, users are advised that for satisfactory operation of the equipment and for the safety of personnel, it is recommended that no part of the human body be allowed to come too close to the antenna during operation of the equipment.

Use only the supplied integral antenna. Use of unauthorized or modified antennas may impair call quality and damage the phone, causing loss of performance and SAR levels exceeding the recommended limits as well as result in non-compliance with local regulatory requirements in your country.

To assure optimal phone performance and ensure human exposure to RF energy is within the guidelines set forth in the relevant standards, always use your device only in its normal-use position. Contact with the antenna area may impair call quality and cause your device to operate at a higher power level than needed. Avoiding contact with the antenna area when the phone is IN USE optimizes the antenna performance and the battery life.
General Precautions

- **Avoid applying excessive pressure to the device**
  Do not apply excessive pressure on the screen and the device to prevent damaging them and remove the device from your pants’ pocket before sitting down. It is also recommended that you store the device in a protective case and only use your finger when interacting with the touch screen. Cracked display screens due to improper handling are not covered by the warranty.

- **Device getting warm after prolonged use**
  When using your device for prolonged periods of time, such as when you’re talking on the phone, charging the battery or browsing the web, the device may become warm. In most cases, this condition is normal and therefore should not be interpreted as a problem with the device.
• **Heed service markings**
Except as explained elsewhere in the Operating or Service documentation, do not service any product yourself. Service needed on components inside the device should be done by an authorized service technician or provider.

• **Damage requiring service**
Unplug the product from the electrical outlet and refer servicing to an authorized service technician or provider under the following conditions:
  - Liquid has been spilled or an object has fallen onto the product.
  - The product has been exposed to rain or water.
  - The product has been dropped or damaged.
  - There are noticeable signs of overheating.
  - The product does not operate normally when you follow the operating instructions.

• **Avoid hot areas**
The product should be placed away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.

• **Avoid wet areas**
Never use the product in a wet location.

• **Avoid using your device after a dramatic change in temperature**
When you move your device between environments with very different temperature and/or humidity ranges, condensation may form on or within the device. To avoid damaging the device, allow sufficient time for the moisture to evaporate before using the device.

**NOTICE:** When taking the device from low-temperature conditions into a warmer environment or from high-temperature conditions into a cooler environment, allow the device to acclimate to room temperature before turning on power.
• **Avoid pushing objects into product**
  Never push objects of any kind into cabinet slots or other openings in the product. Slots and openings are provided for ventilation. These openings must not be blocked or covered.

• **Mounting accessories**
  Do not use the product on an unstable table, cart, stand, tripod, or bracket. Any mounting of the product should follow the manufacturer’s instructions, and should use a mounting accessory recommended by the manufacturer.

• **Avoid unstable mounting**
  Do not place the product with an unstable base.

• **Use product with approved equipment**
  This product should be used only with personal computers and options identified as suitable for use with your equipment.

• **Adjust the volume**
  Turn down the volume before using headphones or other audio devices.

• **Cleaning**
  Unplug the product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning, but NEVER use water to clean the LCD screen.

The product package includes the following items and accessories:

- Phone
- Battery
- USB cable
- AC adapter
- Pouch
- 2GB microSD™ card
- Quick Start Guide
- Wired stereo headset
1.2 Installing the SIM Card, Battery, and Storage Card

Always turn off your phone before installing or replacing the SIM card, battery, and storage card. You also need to remove the back cover before you can install the SIM card and battery.

To remove the back cover

1. Make sure the phone is turned off.
2. Firmly hold the phone with both hands and the front panel facing down.
3. Push the back cover down with your thumb until it disengages from the phone.
**SIM card**
The SIM card contains your phone number, service details, and phonebook/message memory. Your phone supports both 1.8V and 3V SIM cards.

*Note* Some legacy SIM cards may not function with your phone. You should consult your wireless service provider for a replacement SIM card. There may be fees for this service.

**To install the SIM card**
1. Make sure the phone is turned off.
2. Locate the SIM card slot, then insert the SIM card with its gold contacts facing down and its cut-off corner facing out the card slot.
3. Slide the SIM card completely into the slot.

**To remove the SIM card**
1. Remove the back cover and the battery if it is installed.
2. Locate the groove below the SIM card slot, then push the SIM card out of the slot with your finger.
Battery
Your phone comes with a rechargeable Lithium-ion battery and is designed to use only manufacturer-specified original batteries and accessories. Battery performance depends on many factors, including network configuration, signal strength, the temperature of the environment in which you operate your phone, the features and/or settings you select and use, items attached to connecting ports, and your voice, data, and other program usage patterns.

Battery life estimates (approximations):

Talk time: Up to 400 minutes for WCDMA
Up to 450 minutes for GSM

Standby time: Up to 660 hours for WCDMA
Up to 420 hours for GSM

Note Battery life is subject to network and phone usage.

Warning! To reduce risk of fire or burns:

• Do not attempt to open, disassemble, or service the battery pack.
• Do not crush, puncture, short external contacts, or dispose of in fire or water.
• Do not expose to temperatures above 60°C (140°F).
• Replace only with the battery pack designated for this product.
• Recycle or dispose of used battery as stipulated by local regulations.
To install the battery

1. Align the battery’s exposed copper contacts with the battery connectors inside the battery compartment.
2. Insert the contact side of the battery first then gently push the battery into place.
3. Replace the back cover.

To remove the battery

1. Make sure the phone is turned off.
2. Remove the back cover.
3. The top side of the battery has a protruding grip. Lift the battery from the grip to remove it.
**Storage card**
To store your pictures, music, and applications, install the supplied microSD™ card into your phone.

*Note* You need to install the microSD card before you can use the Camera application.

**To install the storage card**
Insert the microSD card into the slot with its gold contacts facing down.

**To remove the storage card**
Press the storage card to eject it from the slot.

*Note* If you want to remove the storage card while the phone is on, see “To remove the storage card while the phone is on” later in this chapter.
1.3 Charging the Battery

New batteries are not charged when shipped. Before you start using your phone, you need to install and charge the battery. Some batteries perform best after several full charge/discharge cycles.

To charge the battery

1. Plug the USB connector of the AC adapter to the USB connector at the bottom of your phone.

2. Plug in the AC adapter to an electrical outlet to start charging the battery.

Note: Only the AC adapter and USB cable provided with your phone must be used to charge the battery.

Charging is indicated by a solid amber light in the Notification LED. As the battery is being charged while the phone is on, the charging battery icon (🔋) is displayed in the status bar of the Home screen. After the battery has been fully charged, the Notification LED shows a solid green light and a full battery icon (🔋) displays in the status bar of the Home screen.

For more information about the Notification LED, see “Phone Status and Notifications” in this chapter.

Warning!

- Do not remove the battery from the phone while you are charging it using the AC or car adapter.
- As a safety precaution, the battery stops charging when it overheats.
### 1.4 Phone Controls

Press the control buttons on the front panel of your phone to do the following:

<table>
<thead>
<tr>
<th>Button</th>
<th>Function</th>
</tr>
</thead>
</table>
| **CALL**       | • Press to open the Phone screen.  
• When a contact, contact number, or phone number is highlighted on the screen, press to call the contact or phone number.  
• While in a call, press to open the dialpad so you can add another call.  
• If you navigated to another application during a call, press to display the ongoing call on the screen. |
| **HOME**        | • While on any application or screen, press to return to the Home screen.  
• Press and hold to open the recently-used applications window. |
| **MENU**        | Press to open a list of actions that you can do on the current screen or options menu.                                                      |
| **BACK**        | • Press to go back to the previous screen, or to close a dialog box, options menu, the Notifications panel, or onscreen keyboard.  
• Press and hold to return to the main screen of the current application. |
| **SEARCH**      | See “Search button” later in this chapter for details.                                                                                   |
| **END CALL/POWER** | • While in a call, press to hang up.  
• While not on a call, press and hold to open the phone options menu that allows you to lock the screen, turn off, or put your phone in silent mode. |
Search button

Press SEARCH to search information on the current screen or application. For example, while in the Contacts tab, press SEARCH to search contact-related information such as names, phone numbers, or e-mail addresses in your contacts list. Press SEARCH while in Maps to search for places of interest. Press SEARCH while in the Home screen or Browser to launch Google™ search and search information on the web.

In any search bar, enter the information you want to search, then press SEARCH again, or touch on the screen.

1.5 Getting Around Your Phone

There are different ways to navigate around the Home screen, menus and application screens on your phone.

Touch

When you want to type using the onscreen keyboard, select items onscreen such as application and settings icons, or press onscreen buttons, simply touch them with your finger.

Touch and hold

To open the available options for an item (e.g. contact or link in a web page), simply touch and hold the item.
**Swipe or slide**
To swipe or slide means to quickly drag your finger vertically or horizontally across the screen.

**Drag**
Touch and hold your finger with some pressure before you start to drag. While dragging, do not release your finger until you have reached the target position.

**Flick**
Flicking the screen is similar to swiping, except that you need to swipe your finger in light, quicker strokes. This finger gesture is always in a vertical direction, such as when flicking the contacts or message list.

**Rotate**
For most screens, you can automatically change the screen orientation from portrait to landscape by turning the phone sideways. When entering text, you can turn the phone sideways to bring up a bigger keyboard. Refer to Chapter 3 for more details.

*Note*  The Orientation check box in HOME > MENU > Settings > Sound & display needs to be selected for the screen orientation to automatically change.

**Use the Trackball**
Roll or press the TRACKBALL to select or highlight items on the screen. The TRACKBALL also flashes when you receive an incoming call or a notification.
1.6 Getting Started

Once you’ve installed your SIM card, battery, and microSD card, you can turn on your phone and start using it.

**Turn your phone on and off**

**To turn on the phone**
Press the END CALL/POWER button.

**Note** When you turn on the phone for the first time, you will be prompted to sign in to your Google™ Account. For more information on how to set up your phone for the first time, see “Set up your phone for the first time” in this chapter.

**Enter your PIN**
If your SIM card is preset with a PIN (personal identification number), you will be prompted to enter the PIN to proceed. Enter the SIM PIN, then touch OK.

To learn how to enable or disable the SIM PIN, see “Protecting Your Phone” in Chapter 10.

**Note** If you entered the wrong PIN three times, the SIM card will be blocked. If this happens, you can unblock it with the PUK (PIN Unblocking Key) obtained from your wireless service provider. Refer to Chapter 10 to learn how to unblock the SIM card.

**To turn off the phone**

1. Press and hold the END CALL/POWER button for a few seconds.
2. When the **Phone options** options menu appears, touch **Power off**.
3. Touch **OK** when prompted to turn off the phone.
**Set up your phone for the first time**

When you turn on the phone for the first time and after touching the Android image, you will be prompted to sign in to your Google Account. If you decide not to sign in to your Google Account, you can still use the phone but you won’t be able to use Google services such as Google Talk™, Gmail™/Google Mail™, and Android Market™.

**Important** You need to know your Google password to sign in. If you have forgotten your password, refer to “Retrieve your Google password” later in this chapter to learn how to retrieve your password.

**Note** Make sure that your phone has an active data connection (3G/GPRS) before you sign in to your Google Account. See “Phone Status and Notifications” in this chapter to know if your phone has an active data connection. If you do not have an active data connection, press MENU and then touch **APN settings** anytime when going through the initial setup to add APN settings. See “To create a new access point” in Chapter 5 to learn how to set up a data connection

1. Touch **Skip**.

   **Tip** Touch **Begin** to view a tutorial on how to use the onscreen keyboard.

2. Read the setup information on the screen, then touch **Next**.

3. Touch **Sign in**. Enter your user name and password, then touch **Sign in**. After signing in, all emails, contacts, and calendar events on your Google Account will automatically synchronize with your phone.

   **Tips**
   - Touch **Create** if you do not have a Google Account yet. You need a Google Account to use Google services.
   - Touch **Skip** if you prefer to set up an account at a later time and start using your phone.

4. Set up the date and time and then touch **Next**.

5. Touch **Finish setup**.

   **Note** You can still change the operating system language later. To learn how to change the operating system language, see “Language settings” in Chapter 10.
Retrieve your Google Account password
If you forgot your Google Account password, you can retrieve it by doing the following:

1. On your computer, open your browser and go to http://google.com/accounts.
2. On the right side of the page, click **I cannot access my account**.
3. In the **Please select your issue** section, select **I forgot my password**.
4. Click **Reset your password now**, and then follow the procedure on how to recover your password.

Turn off the screen when not in use
To save battery power, the phone automatically turns off the screen when you leave it idle after a certain period of time. You will still be able to receive messages and calls while the phone’s screen is off.

**Tip**
For information on how to adjust the time before the screen turns off, see “Display settings” in Chapter 10.

You can also turn off the screen by pressing the END CALL/POWER button. Pressing any of the control buttons again or incoming calls will turn on your phone screen.

**Note**
If you have set up a screen unlock pattern, you will be prompted to draw the pattern on the screen before it unlocks. For more information on how to create and enable the screen unlock pattern, see “Protecting Your Phone” in Chapter 10.
1.7 Home Screen

The Home screen is your starting point for using the applications on your phone. You can customize the Home screen to display application icons, shortcuts, folders, and widgets according to your preference.

- **Notifications.** See “Phone Status and Notifications” in this chapter for details.
- **Touch and hold this area to display the date.**

**Tip** While in any application, press HOME to go back to the Home screen.
Extended Home screen

The Home screen extends beyond the screen width to provide more space for adding icons, widgets, and more. Press HOME, then slide your finger horizontally across the screen to go to the left or right side of the extended Home screen.

Tip While on an extended Home screen, you can also press HOME to return to the main Home screen.
Customizing the Home screen

To add a Home screen item

1. Press HOME, then touch and hold an empty area on the screen.

2. When the Add to Home options menu opens, select the item you want to add to the Home screen:

   - **Shortcuts.** Add shortcuts such as applications, a bookmarked web page, a favorite contact, a Gmail/Google Mail label, or a music playlist.

     **Tip** To quickly add an application shortcut that is on the Applications tab to the Home screen, touch and hold an application icon. When the phone vibrates, release the icon on an empty area on the Home screen.

   - **Widgets.** Add a clock, music player, a picture frame, the Google search bar, or a calendar that shows upcoming appointments.

   - **Folders.** Add a folder where you can organize Home screen items, a shortcut to all your contacts, contacts with phone numbers, or starred contacts. Add a shortcut to all your contacts, contacts with phone numbers, or starred contacts. Contact details are automatically updated when there are changes in the source.

     For more information on how to create folders, see “To create a folder and add items to it” in this chapter.

   - **Wallpapers.** Change the Home screen wallpaper. For more information about customizing the wallpaper, refer to “To change the Home screen wallpaper” later in this chapter.
To reposition a Home screen item

1. Touch and hold the item on the screen you want to reposition to activate Move mode.

   **Note**  When Move mode is activated, the item magnifies and the phone vibrates.

2. Without lifting your finger, drag the icon to the desired position on the screen, then release it.

   **Note**  To move an item from the Home screen to an extended Home screen, touch and hold the item and then drag it to the left or right edge of the screen until the display shifts to the extended Home screen. Position the item on the screen, then release it.

To remove a Home screen item

1. Touch and hold the item on the screen you want to remove to activate Move mode.

   **Note**  When Move mode is activated, the item magnifies and the phone vibrates.

2. Drag the icon to the Applications tab (The Applications tab changes into ![trash can])

3. When the icon and Application tab turn red, release it.

To change the Home screen wallpaper

1. Press HOME > MENU, and then touch **Wallpaper**.

2. Touch **Pictures** or **Wallpaper gallery**.
   - Touch **Pictures** to use a picture that you have captured using the camera or copied to your phone as a wallpaper. You can crop the picture before setting it as a wallpaper. See “To crop a picture” in Chapter 8 to learn how to crop the picture.
   - Touch **Wallpaper gallery** to use preset wallpapers that came with the phone.

3. Touch **Save** or **Set wallpaper**.
**To create a folder and add items to it**
You can create folders on the Home screen to hold application icons or shortcuts.

1. Press HOME > MENU, and then touch Add > Folders. A new folder appears on the screen.

2. Touch and hold an application icon or a shortcut on the Home screen to activate **Move mode**, then drag it on top of the folder.

To access the items inside a folder, touch the folder to open it and then touch the icon of the application or shortcut you want to open.

**Tip** To delete a folder, follow the same procedure when you want to remove a Home screen item. See “To remove a Home screen item” earlier in this chapter.

**To rename a folder**

1. Touch the folder to open it.

2. Touch and hold the folder’s title bar to open the Rename folder dialog box.

3. Enter the **Folder name** and then touch **OK**.

### 1.8 Phone Status and Notifications

**Status bar**
On top of the phone screen is the status bar. The left side of the status bar displays notification icons while the right side of the status bar displays the phone status.

**Tip** When the status bar is full, touch to display hidden icons/notifications.
**Notification icons**

These are the icons that may appear on the notifications area of the status bar:

<table>
<thead>
<tr>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>@</td>
<td>New email message</td>
</tr>
<tr>
<td>☑</td>

</tr>
</tbody>
</table>
Notifications panel
Notification icons report the arrival of new messages, calendar events, alarms set and ongoing settings such as when call forwarding is on or the current call status. You can open the Notifications panel to open the message, reminder, or event notification and see the wireless service provider name.

To open the Notifications panel
When a new notification icon displays in the status bar, touch and hold the status bar, then slide your finger downward to open the Notifications panel.

If you have several notifications, you can scroll down the screen to view more notifications.

Tip You can also open the Notifications panel on the Home screen by pressing MENU and then touching Notifications.

To close the Notifications panel
Touch and hold the bottom bar of the Notifications panel, then slide your finger up the screen or press BACK.
**Notification LED**

The Notification LED located at the right corner of the earpiece provides information on the phone status or pending notifications.

<table>
<thead>
<tr>
<th>LED Status</th>
<th>Indication</th>
</tr>
</thead>
<tbody>
<tr>
<td>Solid green</td>
<td>Battery is fully charged (when the phone is connected to the AC adapter/computer).</td>
</tr>
<tr>
<td>Solid red</td>
<td>Battery is charging.</td>
</tr>
<tr>
<td>Flashing red</td>
<td>Battery is low.</td>
</tr>
<tr>
<td>Flashing green</td>
<td>You have a pending notification.</td>
</tr>
</tbody>
</table>

**Note**  
The indicators are listed in order of priority. For example, if your phone is connected to a power adapter and is charging the battery, the LED will be solid red and will not switch to a flashing green light even if there is a pending notification.
1.9 Applications

The Applications tab holds all applications on your phone. All applications that you downloaded and installed from Android Market or from the web are also added to the Applications tab.

Important Some applications that are mentioned in the User Manual may not be available on your phone by default. The applications available on the phone depends on the region where you purchased the phone.

To open the Applications tab
Press HOME, then touch . To close the Applications tab, touch .

Tip To open applications quickly, you can add the icons of frequently-used applications to the Home screen or to folders which you have created. For details, see “Customizing the Home screen” earlier in this chapter.

Recently-used applications

To open a recently-used application
1. Press and hold the HOME button to open the recently-used applications window. The window displays the last six applications you have used.

2. Touch an icon in the window to open the related application.
## 1.10 Settings

Control and customize phone settings on the Settings screen.

To open the Settings screen, do one of the following:

- Press HOME > MENU, and then touch **Settings**.
- Press HOME, then open the Applications tab, and then touch **Settings**.

<table>
<thead>
<tr>
<th>Wireless controls</th>
<th>Configure your phone’s wireless connections, such as Wi-Fi and Bluetooth, enable the Airplane mode, or set the options for roaming, networks, and more. See Chapter 6 for details.</th>

</tr>
</tbody>
</table>
1.11 Adjusting the Volume

Adjusting the **Ringer volume** changes the volume level of the phone ring tone, whereas adjusting the **Media volume** changes the volume level of sound notifications and music or video playback. The ringer volume and media volume can be separately adjusted.

**To adjust the Ringer volume**
You can adjust the Ringer volume when you are on the Home screen or any application screens (except during a call or when playing music/video).

1. Press the VOLUME UP or VOLUME DOWN buttons on the left panel of the phone to adjust the ringer volume to your desired level. The Ringer volume window appears on the screen to display the volume levels. While in the lowest ringer volume level, press VOLUME DOWN once to set your phone to Vibrate mode. The phone vibrates and the vibrate mode icon (📱) appears on the status bar.

2. While in Vibrate mode, press VOLUME DOWN once to turn off the sound of your phone. The speaker mute icon (🔇) displays on the status bar.

**Tip** To quickly switch your phone to silent mode, press and hold the END CALL/POWER button, then touch **Silent mode** on the options menu.

You can also adjust the ringer volume on the **Settings** screen. To adjust, press HOME > MENU, and then touch **Settings > Sound & display > Ringer volume**.

**To adjust the media volume**
When playing music or watching video, press the VOLUME UP or VOLUME DOWN buttons on the left panel of the phone to adjust the media volume. The **Music/video volume** window appears on the screen to display the volume level.

You can also adjust the media volume on the **Settings** screen.

1. Press HOME > MENU, and then touch **Settings**.

2. Touch **Sound & display > Media volume**.
3. When the Media volume window appears, move the slider to the left (to lower the volume) or to the right (to increase the volume).

4. Touch OK to close the window.

1.12 Using the Phone’s Storage Card as a USB Drive

To transfer music, pictures, and other files from your computer to your phone’s storage card, you need to set the phone’s storage card as a USB drive.

To set the phone’s storage card as a USB drive

1. Connect the phone to the computer using the USB cable. A notification icon appears in the status bar.

2. Open the Notifications panel. See “To open the Notifications panel” earlier in this chapter to learn how to open the Notifications panel.

3. In the Notifications panel, touch USB connected and then touch Mount.

   Note When you select Mount, the phone will not recognize the storage card when it is connected to a computer. You will not be able to use some of the phone’s applications such as Camera.

To remove the storage card while the phone is on

When you need to remove the storage card while the phone is on, you must unmount the storage card first to prevent corrupting or damaging the storage card.

1. Press HOME > MENU, and then touch Settings.

2. Scroll down the screen, then touch SD card & phone storage.

3. Touch Unmount/eject SD card.

4. Remove the storage card by following the instructions in “To remove the storage card” earlier in this chapter.
50 Phone Basics
Chapter 2
Using Phone Features and Managing Contacts

2.1 Making Calls
2.2 Answering or Rejecting a Call
2.3 Using Call Log
2.4 Adjusting Phone Settings
2.5 Turning the Phone Function On and Off
2.6 Creating and Managing Contacts
2.7 Synchronizing Microsoft Office Outlook Contacts
2.1 Making Calls

Use the phone’s **Dialer** application to make calls.

**Use the Dialer**

Do one of the following to open the **Dialer**:

- Press HOME, then touch **Dialer**.
- Press HOME, open the Applications tab, then touch **Dialer**.
- Press the CALL button.

**To make a call on a the Dialer**

1. If the phone keypad is not open, open it by touching ``` at the bottom of the screen.
2. Begin entering the first few numbers or characters of the contact by touching the keys on the Phone keypad. As you enter numbers or letters, the screen will display matches found based on the phone keys you have touched. The list is based on the contacts you have on your phone and **Call log**.

If you touched a wrong number key, touch ``` to erase each subsequent digit of a number. To erase the entire number, touch and hold ```.

**Note** After entering a few digits and the number you are dialing is not in your contacts, an **Add to Contacts** button will appear above the keypad. Tap it to save the number to your Contacts.
3. Touch ▼ to close the phone keypad and to see if there are more matching numbers or contacts. To browse through the filtered list, flick through the list or slide your finger up or down the list slowly.

4. Touch the contact you want to call to place the call.

   **Note** If the number you want to call does not appear on the screen, continue dialing the number and then press CALL to place the call.

   **Tip** During a call, press the VOLUME UP/DOWN buttons on the left panel of the phone to adjust the in-call volume.

**To make an emergency call**

On the Phone screen, dial the international emergency number for your locale (for example, 000), and press CALL.

**Note** Additional emergency numbers may be included in your SIM card. Contact your wireless service provider for details.
2.2 Answering or Rejecting a Call

When you receive a phone call from someone in Contacts, the Incoming call screen appears and displays the caller ID icon, name, and phone number of the calling party. When you receive a phone call from someone who is not stored in Contacts, only the default caller ID icon and phone number will appear on the Incoming call screen.

**To answer an incoming call**
Press the CALL button.

**To reject an incoming call**
Press the END CALL/POWER button to reject and send the call to your voice mail.
Call Options
When a call is in progress, press MENU to open the call options. Touch the available buttons on the call options menu to put a call on hold, dial another contact for a phone conference, mute the phone microphone, and more.

Note  When the phone is dialing, only the End call and Speaker buttons are enabled. Other buttons are disabled.

To put a call on hold
Press MENU, then touch **Hold** to put the call on hold. When you put a call on hold, the **Hold** button indicator becomes green and the Hold call icon (🔒) appears in the status bar. Touch the **Hold** button again to resume the call.

To mute the microphone during a call
Press MENU, then touch **Mute** to toggle between turning the microphone on or off. When the microphone is turned off, the **Mute** button indicator becomes green and the Mute icon (🔇) appears in the status bar.

Note  If you are using the provided wired headset in a call, you can press the button on the wired headset to mute the microphone. Press the button again to unmute the microphone.
To turn the speakerphone on or off
During a call, press MENU, then touch Speaker to toggle between turning the speakerphone on or off. The Speaker button indicator becomes green and the speakerphone icon ( ) appears in the status bar when the speakerphone is on.

Warning! To avoid damage to your hearing, do not hold your phone against your ear when the speakerphone is turned on.

To transfer the call to a Bluetooth headset
When a Bluetooth headset is paired and connected with your phone, you can receive all incoming calls on the Bluetooth headset for hands-free conversation.

Tip Press MENU, then touch Bluetooth to toggle between using the phone speaker and microphone or the paired Bluetooth device.

Note For more information on how to connect a Bluetooth headset or a Bluetooth car kit to your phone, see “Using Bluetooth” in Chapter 6.

When the Bluetooth headset is disconnected from your phone, do the following to reconnect it and transfer the ongoing call:

1. Make sure that Bluetooth on your phone and on the Bluetooth headset are on. See “Using Bluetooth” in Chapter 6 for details.

2. During a call, press HOME > MENU, then touch Settings.

4. In the Bluetooth devices section, touch and hold the name of the Bluetooth headset that you have previously paired with your phone, then touch Connect on the pop-up window. When connected, the Bluetooth connected icon ( ) appears in the status bar. The call is automatically transferred to the Bluetooth headset.

5. Press CALL to display the ongoing call screen.

To transfer the call back to your phone, on the ongoing call screen, press MENU, then touch Bluetooth.
To end a call
Do one of the following to end the call:

- Press END CALL/POWER.
- Press MENU, then touch End call.
- If you are using the provided wired headset, press and hold the button to end the call.

If the phone number of the person who called is not in your Contacts list, you can choose to save the number after you hang up.

To add a new phone number after a call
You can choose to save the number of the caller if it is not in your Contact list after you hang up.

1. Press CALL.
2. On the Phone screen, touch and hold the received call that you want to save to your contacts list, then touch Add to contacts.
   
   Tip You can also touch + at the right side of the number to add it to your Contacts.

3. When the Contacts screen appears, touch Create new contact. The received call number is automatically added to the Mobile phone field in the Dial number section.

4. Enter other information for the contact, if desired.

5. Scroll down the screen, then touch Save.
2.3 Using Call Log

The Call log tab lists all missed calls (📞), dialed numbers (-call), and received calls (📞).

To use the Call log tab
1. Press CALL > MENU, and then touch Call log.
2. Do one of the following:
   • Touch the name or number in the list to call.
   • Touch and hold a name or number in the list to display the options menu where you can select to call the contact, view the contact information (if the number is stored in your contacts list), edit the number before you redial, and more.
To add a new phone number to Contacts
If the phone number of a person who called is not in your contacts list, you can choose to save the number after you hang up.

1. While on any screen, press the CALL button, then touch the Call log tab.
2. Touch and hold the received call that you want to save to your contacts list, and then touch Add to contacts.
3. When the Contacts screen appears, touch Create new contact. The received call number is automatically added to the Mobile phone field in the Phone numbers section.
4. Enter other information for the contact, if desired.
5. Scroll down the screen, then touch Done.

Note For more information about creating contacts, refer to “Add a new contact” in this chapter.

To check a missed call
You will see the missed call icon in the status bar when you missed a call. To check who the caller was, press the CALL button, then touch the Call log tab. Missed calls are indicated by the missed call icon ( ) on the left side.

Tip You can also touch and hold the status bar, then slide your finger downward on the screen to open the Notifications panel. The missed call number and/or contact name is displayed.

To clear the Call log
Do one of the following:

- To remove a name or number from the Call log tab, touch and hold on the name or number, then touch Remove from call log.
- To clear the entire Call log, press MENU then touch Clear call log.
2.4 Adjusting Phone Settings

You can adjust the phone settings of your phone such as your voice mail number, or enable additional call services from your wireless service provider.

To open the phone settings menu, press HOME > MENU, and then touch Settings > Call settings.

<table>

2.5 Turning the Phone Function On and Off

In many countries, you are required by law to turn off the phone while on board an aircraft. A way to turn off the phone function is to switch your phone to Airplane mode. When you enable Airplane mode, all wireless radios on your phone are turned off, including the phone function, Bluetooth, and Wi-Fi.

To enable or disable Airplane mode
1. Press HOME > MENU, then touch Settings > Wireless controls.
2. Select the Airplane mode check box to enable or disable Airplane mode. When enabled, the Airplane mode icon (✈️) displays in the status bar.
Tip  When you disable Airplane Mode, the phone function is turned back on and the previous state of Bluetooth and Wi-Fi is restored.

2.6 Creating and Managing Contacts

Similar to an online address book, the Contacts application gives you quick and easy access to the people you want to reach. You can view and create contacts on your phone and sync with your Gmail/Google Mail contacts on the web. You can also import contacts stored on your SIM card, a Microsoft Exchange ActiveSync account, and Microsoft® Office Outlook®.

To open Contacts
Press HOME and then touch Contacts.

Contact sources
You can add contacts to your phone from:

- **Gmail/Google Mail contacts**
  Gmail/Google Mail contacts are imported to your phone after you set up a Google Account.

- **SIM card**
  See “To import contacts from the SIM card” in this chapter for details.

- **Phone contacts**
  See “To add a new contact on the phone” in this chapter for details.

- **Exchange ActiveSync Server**
  See “To import contacts from the Microsoft Exchange ActiveSync Server” in this chapter for details.

- **Outlook contacts**
  See “Synchronizing Microsoft Office Outlook Contacts” in this chapter for details.
Add a new contact

When you open Contacts for the first time, you are presented with options on how you can easily import your contacts into your phone.

Touch to import contacts stored on your SIM card into the phone. Refer to “To import contacts from the SIM card” in this chapter for details.

Touch to create a new contact on the phone.

Note This screen will only appear if you do not have any contacts on the phone.

To add a new contact on the phone

1. In the Contacts tab, touch Create new contact.

   Note If you have contacts already in the phone, press MENU and then touch New contact.

2. Enter the contact’s name and other contact information such as their mobile phone number, home phone number, or email address. Slide your finger up or down to see more labels.

   Note To change a default information label, for example Home email to Work email, touch the information label button, then select another label on the menu. You can also touch Custom on the menu to create another information label that is not in the list.
Touch to add a caller ID icon.

Touch to set what type of contact.

Touch to replace or customize the information label.

Touch to add additional information for the section.

Touch to delete the information.

**Note**  If you want all calls from this contact to go directly to your voicemail, select the *Incoming calls* check box.

3. When finished, press MENU and then touch **Done**.

**To import contacts from the SIM card**

You can add contacts saved on your SIM card to your phone’s contacts list.

1. In the **Contacts** tab, touch **Import SIM contacts**. Wait for the SIM card contacts to load.

   **Note**  If you have contacts already in the phone, press MENU, and then touch **Import contacts**.

2. Do one of the following:
   - To import a contact, touch the contact you want to import. This opens the **New contact** screen where you can edit the contact details before saving.
   - To import all contacts, press MENU, and then touch **Import all**.
To synchronize contacts with a Microsoft Exchange Server
You need to have an Exchange ActiveSync account set up on your phone to synchronize contacts with the Exchange Server.
In the Contacts tab, touch Sync Exchange contacts. If there are already contacts on your phone, check the data synchronization settings to see if your phone is set up to synchronize with the Exchange Server.

1. Press HOME > MENU, and then touch Settings.

2. Touch Data synchronization > Exchange ActiveSync.

3. Select the Contacts check box, then press MENU, and then touch Sync now.

To import contacts from the Exchange Server company directory into Contacts, in the Contacts tab, press MENU and then touch Company directory.

To synchronize contacts from Microsoft Office Outlook
Refer to “Synchronizing Microsoft Outlook Contacts” in this chapter for details.

View your contacts
To view your contacts, press HOME, and then touch Contacts.

Touch to open the contact details screen.

Touch and hold to open the options menu.

Indicates the type of contact.
Notes

• When the contact is imported from your Gmail/Google Mail account, the word Google will appear at the right side of the contact.

• If you synchronized the phone with contacts in a Microsoft Exchange ActiveSync account or imported a contact from the company directory, the word Exchange will appear at the right side of the contact.

• If you synchronized the phone with Microsoft Office Outlook contacts on your computer, imported from the SIM card, or created a contact on the phone, the word Phone will appear at the right side of the contact. See “Synchronizing Microsoft Outlook Contacts” in this chapter for details.

Tip

When you reply to or forward an email message to an email address that is not previously stored in Contacts, the email address is automatically added to your contacts list.

Add favorite contacts

Use the Favorites tab as a way to filter your contacts list.

1. In the contacts list, touch and hold the contact to open the options menu.

2. Touch Add to favorites.

Tip

You can also add a contact to the Favorites tab by touching the star on a contact’s contact details screen.

To remove a contact from the Favorites tab

On the Favorites tab, touch and hold the contact you want to remove and then touch Remove from favorites on the options menu.
Edit and customize your contacts

To edit contact information
You can always make changes to the information you have stored for a contact.

1. In the contacts list, touch and hold the contact whose information you want to edit, then touch Edit contact.

2. Edit the contact information, then touch Save. To ignore all changes you made, touch Discard changes.

To change the contact’s default phone number
The default phone number of a contact appears below the contact’s name in the contacts list. The default phone number is used when you initiate a call or send an SMS/MMS message from the contacts list (by touching and holding a contact). You can change the contact’s default phone number.

1. In the contacts list, touch the contact to open the contact details screen.

2. Touch and hold the phone number you want to use as the contact’s default phone number, then touch Make default number. The default phone number moves on top of the list and is marked with ✔.

3. Press BACK to save your changes.
Communicate with your contacts

From the contacts list, you can quickly call or send a text or multimedia message to a contact’s default phone number.

However, to view all the information you have stored for a contact, and to initiate other types of communication with that contact, open the contact details screen.

To open the contact’s details screen, touch the contact name in the contacts list.

To call a contact

Do one of the following:

• In the contacts list, use the TRACKBALL to navigate to the contact you want to call, then press the CALL button. The contact’s default phone number is dialed.

• To dial a different number for the contact, touch the contact’s name in the contacts list to open the contact details screen, then touch a phone number below the Dial number section.

To send a text or multimedia message to a contact

The contact must have a mobile phone number in their contact details for you to send them a text or multimedia message.

Do one of the following:

• When the contact’s default number is a mobile phone number, touch and hold the contact’s name in the list, then touch Send SMS/MMS on the options menu.
Using Phone Features and Managing Contacts

- Touch the contact in the list to open the contact details screen, then touch **Text mobile**, **Text work**, or another text option.

A compose screen opens for your message.

**Note** For more information about composing and sending text and multimedia messages, see Chapter 5.

**To send an email to a contact**
The contact must have an email address in their contact details for you to send them an email.

1. In the contacts list, touch the contact you want to send the email to.

2. When the contact details screen opens, touch **Email home**, **Email work**, or another email option. A compose screen opens for your new email.

**Note** If you have more than one email account set up on your phone, you will be prompted to select which account to use to send the message.

**Note** For more information about composing and sending email messages, see Chapter 5.

2.7 Synchronizing Microsoft Office Outlook Contacts

HTC Sync lets you synchronize Outlook, Windows Address Book (Outlook Express), or Windows contacts on your PC with your phone.

**Requirement** You need Outlook 2000/2002/2003/2007, Windows Address Book (Outlook Express), or Windows Contacts and Windows XP Service Pack 2 (SP2) or higher or Windows Vista to synchronize contacts.

**Note** If you have a Microsoft Exchange account, you can set up an Exchange email account and synchronize emails, contacts, and calendar items from the Exchange account. To set up a Microsoft Exchange email account, see “Add a Microsoft Exchange ActiveSync account” in Chapter 5 for details.
Install HTC Sync on your PC
You can find the HTC Sync installer on the provided microSD card.

1. Make sure the microSD card is installed on the phone and then connect the phone to the computer using the provided USB cable.
2. Set the phone as a USB drive. To learn how, see “To set the phone’s storage card as a USB drive” in Chapter 1.
3. On the computer, copy HTCSync.exe from the storage card to the computer’s desktop.
4. Double-click HTCSync.exe and then follow the installation instructions on the screen.

Set up HTC Sync
1. On your computer, run HTC Sync.
2. Connect the phone to the computer using the provided USB cable.
   
   **Note** On your phone, check Notifications on the status bar for the icon to know if the phone recognizes HTC Sync.
3. The first time you synchronize the phone, the Synchronization Settings Wizard starts automatically to help you set up HTC Sync.
4. On the **Synchronisation Settings Wizard** screen, click **Next**.
5. Select the PC application you want to synchronize with and then click **Next**.
6. Select the categories you want to synchronize and then click **Next**.
   
   **Note** After clicking **Next**, you may be asked to select additional categories. This page will only appear if any additional categories are supported by the connected phone.
7. Select when to synchronize data and then click **Next**.

8. Check the settings that you have chosen and then click **Finish**.

   **Note**  By default, synchronization will start when you click **Finish**. If you do not want synchronization to start right away, clear the **Start synchronisation when I click Finish** check box.

If you want to have more customization features when setting up HTC Sync, you can use **Manual settings**. To learn how to set up HTC Sync using Manual settings, consult the HTC Sync help on your PC. To learn how to open the help, see “To open HTC Sync help” later in this chapter.

**Synchronize contacts**

When you set up HTC Sync, you were asked to set when you want to synchronize with the PC. Depending on the option you have selected, you may need to manually start synchronization or it will automatically start synchronization when you connect the phone to the PC.
To synchronize contacts

- If you chose I want to synchronise automatically each time I connect my mobile phone or Automatic start of synchronisation, every time mobile phone is connected, follow this procedure:
  1. On your PC, open HTC Sync.
  2. Connect the phone to the PC using the USB cable.
  3. Synchronization will automatically start.

- If you chose I want to start the synchronisation manually or Do not sync automatic, manual start, follow this procedure:
  1. On your PC, open HTC Sync.
  2. Connect the phone to the PC using the USB cable.
  3. On the HTC Sync window, Click Synchronise Now.

- If you chose Schedule automatic synchronisation, follow this procedure:
  1. On your PC, open HTC Sync.
  2. Connect the phone to the PC using the USB cable.
  3. Synchronization will start depending on the date and time you set.

Advanced options
Open the HTC Sync Sync Manager comprehensive help file to learn more about the advanced features of Sync Manager.

To open HTC Sync help
1. On your PC, open HTC Sync.
2. On the HTC Sync window, click Sync Manager.
3. On Sync Manager menu bar, click Help > Sync Manager Help.
72 Using Phone Features and Managing Contacts
Chapter 3
Entering Text

3.1 Using the Onscreen Keyboard
3.2 Entering Numbers and Symbols
3.3 Adjusting Text Input and Keyboard Settings
3.1 Using the Onscreen Keyboard

When you start a program or select a field that requires text or numbers, the onscreen keyboard becomes available. You can choose from three keyboard layouts: **QWERTY**, **Compact QWERTY**, and **Phone keypad**.

**Using the landscape onscreen keyboard**

When entering text, you can choose to use the landscape orientation of the onscreen keyboard, by turning the phone sideways, to use a larger keyboard that lets you type easily using two thumbs.

*Note*  The **Orientation** check box in **HOME > MENU > Settings > Sound & display** needs to be selected for the screen orientation to automatically change.
QWERTY is a keyboard layout similar to a desktop computer keyboard.

- Touch to enter letters or symbols.
- Touch and hold to enter accented letters.
- Touch to enter an uppercase letter.
- Touch twice to turn on Caps Lock.
- Touch to toggle between showing and hiding the keyboard.

Displays the word candidate list when word prediction is turned on. Touch a word to insert it into your text. Touch to see more candidate words.

Touch to delete the previous character.

Touch to create a new line.

Touch to switch to the numeric and symbol keyboard. See “Entering Numbers and Symbols” for details.

Touch to open a menu where you can change the keyboard layout and open the Touch Input Settings. See “Adjusting Text Input and Keyboard Settings” for details.
To enter text using QWERTY

1. Start a program that accepts text input
2. Touch 🔄, and then touch Keyboard types > QWERTY.
3. Start touching keys on the onscreen keyboard as you would on a PC keyboard to enter your text.

Compact QWERTY

Compact QWERTY is a type of keyboard which features 20 keys. With its large, touch-friendly keys and enhanced features such as T9 predictive input, you can enter text faster and more accurately.

- Touch to enter letters or symbols.
- Touch and hold to enter a punctuation mark, symbol, or number that appears on top of a key.
- Touch to delete the previous character.
- Touch to create a new line.
- Touch to switch to the numeric and symbol keyboard. See “Entering Numbers and Symbols” for details.

Displays the word candidate list in T9 mode. Touch a word to insert it into your text. Touch ✔️ to see more candidate words.

Touch to toggle between using Multitap or T9 mode.

- Touch to enter an uppercase letter.
- Touch twice to turn on Caps Lock.

Touch to toggle between showing and hiding the keyboard.

Touch to open a menu where you can change the keyboard layout and open the Touch Input Settings. See “Adjusting Text Input and Keyboard Settings” for details.
To enter text using Compact QWERTY

1. Start a program that accepts text input.
2. Touch ☻, and then touch **Keyboard types > Compact QWERTY**.
3. Start touching keys on the onscreen keyboard to enter your text.

Phone keypad
Phone Keypad is a 12-key onscreen keypad that has a layout similar to mobile phone keypads, plus some additional keys. The Phone Keypad has large keys and enhanced input features such as T9 predictive input, which makes it faster for you to enter text in your messages and documents.

Displays the word candidate list in T9 mode. Touch a word to insert it into your text. Touch ✓ to see more candidate words.

- Touch to toggle between using **Multitap** or **T9** mode.

- Touch to enter an uppercase letter.
- Touch twice to turn on Caps Lock.

Touch to toggle between showing and hiding the keyboard.

Touch to open a menu where you can change the keyboard layout and open the Touch Input Settings. See “Adjusting Text Input and Keyboard Settings” for details.

- Touch to enter letters or symbols.
- Touch and hold to enter a punctuation mark, symbol, or number that appears on top of a key.

Touch to delete the previous character.

Touch to create a new line.

Touch to switch to the numeric and symbol keyboard. See “Entering Numbers and Symbols” for details.
To enter text using Phone Keypad

1. Start a program that accepts text input.
2. Touch \(\rightarrow\), and then touch **Keyboard types > Phone Keypad**.
3. Start touching keys on the onscreen keyboard to enter your text.

### 3.2 Entering Numbers and Symbols

Switch to the numeric and symbol onscreen keyboard to let you easily enter numbers and common symbols such as parentheses, braces, currency signs, punctuation marks, special characters, and more.

To switch to the numeric and symbol onscreen keyboard, touch \(\rightarrow\) on the alphanumeric keyboard.

Touch to switch back to the alphanumeric keyboard.
3.3 Adjusting Text Input and Keyboard Settings

Open the Text input & keyboard settings by doing one of the following:

- On any of the keyboard layouts, touch ✉️ to open the Text input & keyboard settings.
- On the Home screen, press MENU and then touch Settings > Locale & text > Touch input.

Text input & keyboard settings

- **Keyboard types** Touch to select the keyboard layout to use. You can choose from QWERTY, Phone Keypad, or Compact Keyboard.
- **Keyboard language** Touch to select the language layout of the keyboard.
- **Text input** Touch to set text input options when entering text, calibrate the keyboard, and set a sound and/or vibration feedback whenever you touch a key. See “Text input” for details.
- **Tutorial** Touch to learn tips about using the onscreen keyboard.

Text input

- **QWERTY**
  - **Prediction** Select to enable the word prediction feature when using QWERTY.
  - **Spell correction** Select to correct typographical errors by selecting from a list of possible words that reflect the characters of the keys you have touched as well as characters of nearby keys.

Phone keypad & Compact QWERTY

- **Spell correction** Select to correct typographical errors by selecting from a list of possible words that reflect the characters of the keys you have touched as well as characters of nearby keys.
• Word completion When using the Compact QWERTY or Phone keypad, lets you select from a list of possible combinations based on the characters that appear on the keys that you touched.

Other settings

• Sound feedback Select to make a clicking sound whenever you touch a key on the keyboard or an item on the menu.

• Vibrate when typing Select to enable vibration feedback whenever you touch a key on the keyboard or an item on the menu.

Finger touch precision

• Calibration tool Touch to re-calibrate the keyboard touch accuracy. Re-calibrate the keyboard if you feel that the keyboard keys are not responding accurately to your touches.

• Reset calibration Touch to reset the calibration back to factory default.
Chapter 4

Managing Your Time

4.1 Using Calendar
4.2 Using Alarm Clock
4.1 Using Calendar

Use Calendar to create and manage events, meetings, and appointments. Depending on your synchronization settings, the Calendar on your phone stays in sync with your Calendar on the web.

Note For more information about Calendar synchronization, see “Synchronizing Google Apps” in Chapter 10.

Open Calendar
1. Press HOME, then touch the Applications tab to open it.
2. Touch Calendar.

Create events

To create an event
1. On any Calendar view, press MENU and then touch New event to open the Event details screen.
2. Enter the event name using the keyboard.
3. Do one of the following:
   • If there is a time frame for the event, touch the From and To date and time to set them.
   • If it is a special occasion such as a birthday or a whole-day event, set the From and To date, then select the All Day check box.
4. Enter the event location and description.
5. If you have more than one calendar, select the Calendar where you want to save the event.
Note  You can create multiple calendars, such as Personal, Business, or Family, using Calendar on the web. Depending on your synchronization settings, these calendars are added to your phone when you synchronize the Calendar. For more information on how to create calendars, go to http://www.google.com/support/calendar/bin/answer.py?answer=37095&topic=15281.

6. Set the event reminder time in Reminders, then select whether the event is recurring in Repeats.

7. When finished, touch Save.

Tip  To quickly create an event in Day, Week, or Month view, touch and hold an empty time slot, then touch New event. A new Event details screen appears with the selected time slot and date in the From fields.

Calendar views
You can display the Calendar in daily, weekly, monthly, or agenda view. To change the Calendar view, press MENU, then touch Day, Week, Month, or Agenda.
While in a calendar view you can:

- To quickly view the event’s details while in Day or Week view, highlight it using the TRACKBALL. A quick view window appears on the lower part of the screen.
- Touch an event to edit or view details.
- Touch and hold an event to open a window with options for viewing, editing, or deleting that event, or creating a new event.

**Event reminders**

If you have set at least one reminder for an event, the upcoming event icon will appear in the notifications area of the status bar to remind you of the upcoming event.

**To view, dismiss, or snooze the reminder**

1. Touch the status bar, then slide your finger down the screen to open the Notifications panel.
2. Touch the upcoming event name to display the event.
   
   **Note**  If you have other pending event reminders, these events will also appear on the screen.

3. Do one of the following:
   
   • Touch **Snooze all** to snooze all event reminders for five minutes.
   
   • Touch **Dismiss all** to dismiss all event reminders.
   
   • Press BACK to keep the reminders pending in the notifications area of the status bar.

**Synchronize Exchange ActiveSync Calendar**

If you have set up a Microsoft Exchange ActiveSync account on your phone, you can also synchronize Exchange ActiveSync calendar events on your phone. Calendar events on your Exchange ActiveSync will also show in Calendar if you chose to synchronize with the Exchange ActiveSync Server.

To check if Exchange ActiveSync items are set to be synchronized, go to the Home screen and press MENU and then touch **Settings > Data synchronization > Exchange ActiveSync**.
4.2 Using Alarm Clock

Use your phone as an alarm clock. **Alarm Clock** lets you set an unlimited number of alarms.

**To open Alarm Clock**
Press HOME, then touch the Applications tab and then touch **Alarm Clock**.

When you open Alarm Clock for the first time, three alarms are set up by default, ready for you to customize. All three alarms are turned off by default.

**Set an alarm**
1. Touch a default alarm.
2. Touch **Time** to set the alarm time. Adjust the time by touching + or -. Touch **AM** to change to **PM** or vice versa, then touch **Set** when finished.

**Note** The number of hours and minutes left before the alarm goes off briefly displays at the lower part of the screen after you set the alarm time.
3. Touch **Ringtone**, then select the alarm ring tone. The ring tone briefly plays when selected.

   **Note**  Touch **Vibrate** if you want the phone to also vibrate when the alarm goes off.

4. Touch **Repeat** to select the days you want the alarm to sound, then touch **OK**.

   **Note**  By default, the alarm repeat is set to **Never** which means that your alarm will only go off once.

5. Touch **Label** to set a name for the alarm.

6. Press BACK to return to the Alarm Clock screen.

   **Note**  If you need to set more than 3 alarms, you can add more alarms by pressing **MENU** and then touching **Add alarm** while on the Alarm Clock screen.

You can temporarily disable an alarm by clearing the check box (by touching it) of the alarm on the Alarm Clock screen.

**Customize Alarm Clock**
You can change the appearance of the clock displayed on the Alarm Clock screen.

1. On the Alarm Clock screen, touch the clock with your finger to open the clock selection screen. Available clock displays appear at the bottom of the screen.

2. Slide your finger left or right on top of the clock displays to view them.

3. Touch the clock display you want.

   **Note**  To hide the clock display, on the Alarm Clock screen, press **MENU**, then touch **Hide clock**.

   **Note**  To change the date and time format displayed in your alarms, see “Set the date, time zone, and time” in Chapter 10.

**Delete an alarm**

1. On the Alarm Clock screen, touch the alarm you want to delete.

2. On the Set alarm screen, press **MENU** and then touch **Delete alarm**.
Managing Your Time
Chapter 5
Exchanging Messages

5.1 Sending Text and Multimedia Messages
5.2 Using Gmail/Google Mail
5.3 Using Mail
5.4 Using Google Talk
5.1 Sending Text and Multimedia Messages

**Messaging** lets you compose and send text (SMS) and multimedia messages (MMS) to other mobile phones.

**Open Messaging**
Press HOME, then touch the Applications tab, and then touch **Messaging**. The message list appears.

![Message list](image)

If the list of messages does not fit on the screen, you can scroll up the screen to view more messages, or roll the TRACKBALL down.

**Create and send SMS and MMS messages**
You can compose text (SMS) messages of up to 160 characters. If you continue to type after the limit is reached, your message will be delivered as one, but count as more than one message. These are called concatenated messages.

Multimedia messages, also known as MMS, can contain text and a picture, a recorded voice, an audio file, or a picture slideshow.

**Note**  Messaging automatically converts a text message into a multimedia message when you entered an email address in the **To** field, added a message subject, or attached an item.
To create and send a text message

2. Enter the mobile phone number of the message recipient in the **To** field. As you enter the phone number, matching contacts will appear on the screen. Touch a recipient or continue entering the recipient’s phone number.

   Enter a name to look up a contact or touch `12#` to enter a phone number.

   Touch to automatically enter the mobile phone number of the matched contact.

   Note: The phone number only appears if the number was filed under Mobile in Contacts.

3. Touch the text box that contains the text “Type to compose”, and then start composing your message.

   **Note** As you near the 160-character limit, a counter will appear in the top right corner of the text box to tell you how many characters are left. Once you go over that limit, a new message is created but automatically joined into one when received.

4. When done, touch **Send** to send the text message. The send progress is displayed at the right side of the message in the message thread or in the message list.

   **Note** To receive delivery reports and know when a text message is received, in the message list, press **MENU** and then touch **Settings**. In the SMS settings section, select the **Delivery reports** check box.
To create and send a multimedia (MMS) message

2. Enter the mobile phone number or email address of your message recipients in the **To** field. As you enter the phone number or email address, matching contacts will appear on the screen. Touch a recipient or continue entering the recipient’s phone number or email address.

   **Tip** You can add a subject line by pressing **MENU** and then touching **Add subject**.

3. Touch the text box that contains the text “Type to compose”, and then start composing your message.

   **Note** As you near the 160-character limit, a counter will appear in the top right corner of the text box to tell you how much characters are left.

4. Press **MENU** and then touch **Attach**.

5. On the Attach window, select from the following file attachments:

   - **Pictures**. Opens the Gallery application. Touch a picture on the screen to attach it to your message.

   - **Capture picture**. Opens the Camera application. Take a picture of your subject, and then touch **Select this picture** to attach it to your message. For more information about the Camera application, refer to “Using Camera and Camcorder” in Chapter 8.

   - **Videos**. Opens the Gallery application. Touch a video on the screen to attach it to your message.

   - **Capture video**. Opens the Camcorder application. Take a video, and then touch **Select this video** to attach it to your message. For more information about the Video application, refer to “Shoot videos” in Chapter 8.

   - **Audio**. Opens the Select audio menu. Touch an audio file to select, and then touch **OK** to attach the file into your message.
• **Record audio.** Touch to open the message recorder. Touch \( \square \) to start recording your message, and then touch \( \square \) to stop. To listen to your recording, touch \( \square \). Touch **Use this recording** to attach the recording into your message.

![Record your message screen](image)

- **Recording duration**
- **Volume meter**
- **Recording and playback controls**

• **Slideshow.** Touch to open the Edit slideshow screen. Touch **Add slide** to create a new slide. Touch the created slide (for example, Slide 1), touch **Add picture**, and then select the picture you want to add to the slide. You can also navigate to the text box and enter a caption for the picture. Press **MENU** to preview the slide, remove the picture, add a music, add another slide, or change the slide duration or layout. When finished, touch **Done** to attach the slideshow to your message.
Exchanging Messages

**Tip**  
You can create a slideshow of up to ten slides. When editing multiple slides, touch to edit the next slide or touch to return to the previous slide.

**Notes**  
- To view the slideshow, touch the **Preview** button while editing the slideshow, or touch the Play button on the Compose screen.
- To remove or replace a picture or an audio attachment, on the Compose screen, touch the **Remove** button beside the attachment. To remove a slideshow attachment, on the Compose screen, touch **Edit**, press MENU, and then touch **Discard slideshow**.

6. When you are finished composing the multimedia message, touch **Send**. The send progress is displayed at the right side of the message in the message thread or in the message list.

**Note**  
To receive delivery reports and know when a picture message is received, in the message list, press MENU, and then touch **Settings**. Select the **Delivery reports** check box below the MMS settings section.
To save a message as a draft
While composing a text or multimedia message, press BACK to automatically save your message as a draft. To resume composing the message, touch the message in the message list. Continue editing the message, and then touch **Send** to send it.

Receive text and multimedia messages
Depending on your notification settings, the phone will play a ring tone, vibrate, or display the message briefly in the status bar when you receive a new text or multimedia message. To change the notification for new text and multimedia messages, see “Adjust text and multimedia message settings” later in this chapter.

A new message icon (圹) also appears in the notifications area of the status bar to notify you of a new text or multimedia message. To open the message, refer to the next section.

Manage messages and message threads
Text and multimedia messages that are sent to and received from a contact (or a number) are grouped into conversations or message threads. Threaded text or multimedia messages let you see exchanged messages (similar to a chat program) with a contact on the screen. Message threads are listed in order of when you received them, with the latest message on top of the thread.

To open and read a text message
Do one of the following:
- Press HOME, then touch and hold the status bar, and then slide it down to open the Notifications panel. Touch the new message to open and read it.
96 Exchanging Messages

- On the message list, touch the text message or message thread to open and read it.

To return to the message list from a text message thread, press MENU and then touch **All threads**.

**Notes**
- To view the details of a particular message, in the message thread, touch and hold the message to open the options menu, and then touch **View message details**.
- If a message contains a link to a web page, touch the link to open Browser and view the web page.
- If a message contains a phone number, touch the message to open Dialer so you can call the number.

**To open and view a multimedia message**

1. In the message list, touch a multimedia message or message thread to open it.

2. Touch the **Play** button at the right side of a multimedia message to view it.

**Tip**
You can save the file attachment on the multimedia message to the SD card. To save, touch and hold the file and then touch **Copy attached to SD card** on the options menu.

**Notes**
- When **Auto-retrieve** in MMS settings is disabled, only the message header is downloaded. To download the entire message, touch the **Download** button at the right side of the message. Once the message has downloaded, touch the **Play** button to view the message. For details, see “Adjust text and multimedia message settings” later in this chapter.

- If you are concerned about the size of your data downloads, check the multimedia message size before you download it.

**To reply to a text or multimedia message**

1. In the message list, touch a text or multimedia message thread to open it.

2. Use the TRACKBALL to navigate to the text box at bottom of the screen, enter your reply message, and then touch **Send**.
Tip  To reply a text message with a multimedia message, open the text message, press MENU and then touch Add subject, or Attach. The text message is automatically converted into a multimedia message.

To delete a message or a message thread
1. In the message list, touch the message thread that you want to delete.
2. Do one of the following:
   - To delete the entire thread, press MENU and then touch Delete thread. When prompted to confirm, touch OK.
   - To delete a message in a thread, touch and hold the message that you want to delete, and then touch Delete message on the options menu. When prompted to confirm, touch OK.

Note  To delete all messages on the message list, press MENU on the message list and then touch Delete threads.
**Adjust text and multimedia message settings**

In the message list, press MEN and then touch **Settings** to adjust the text or multimedia message settings. You can set the following options:

### SMS settings

<table>
<thead>
<tr>
<th>Feature</th>
<th>Description</th>

</table>
Select ringtone
If you want the phone to ring when a new message arrives, touch this option, and then select a ring tone that is specific to new text and multimedia messages. Note that the ring tone briefly plays when selected.

Vibrate
Select this option if you want the phone to vibrate when a new text or multimedia message arrives.

5.2 Using Gmail/Google Mail
Gmail/Google Mail is Google’s web-based email service. Gmail/Google Mail is configured when you first set up your phone. Depending on your synchronization settings, Gmail/Google Mail on your phone is automatically synchronized with your Gmail/Google Mail account on the web. For more information about synchronization, see Chapter 10.

To open Gmail/Google Mail
Press HOME, then touch the Applications tab, and then touch Gmail/Google Mail.

Folder (or Label) and number of unread email messages.
Checked email. Select one or more emails to apply an action. Note: Batch operations needs to be enabled.
To scroll through the message list:
• Slide your finger up/down on the screen.
• Roll the TRACKBALL up/down.

Starred message. Touch to add or remove the star.
Unread messages are displayed in bold.
Message label.
Actions for checked email(s). This will not show if there is no item selected in the inbox.
The Inbox conversations list (hereinafter referred to as Inbox) is your default Gmail/Google Mail view. All your received emails are delivered to your Inbox.

**To refresh Gmail/Google Mail**
Press MENU and then touch **Refresh** to send or receive new emails and to synchronize your emails with your Gmail/Google Mail account on the web.

**Create and send emails**

**To create and send an email**

1. In the Inbox, press MENU and then touch **Compose**.

2. Enter the message recipient’s email address in the **To** field. If you are sending the email to several recipients, separate the email addresses with a comma. You can add as many message recipients as you want.

   **Note** If you want to send a carbon copy (Cc) or a blind carbon copy (Bcc) of the email to other recipients, press MENU and then touch **Add Cc/Bcc**.

3. Enter the email subject, and then compose your email.

   **Tip** If you want to add a picture attachment, press MENU and then touch **Attach**. Select the picture you want to attach, and then touch **OK**.
4. After composing your email, touch **Send**.

   **Note**   While composing the message, touch **Save as draft** or press the BACK button to save it as a draft. To view your draft email messages, in the Inbox, press MENU and then touch **View labels > Drafts**.

**To add a signature to emails**
You can add a signature to email messages that you send.

   **1.** In the Inbox, press MENU and then touch **Settings > Signature**.

   **2.** Enter your signature in the text box, and then touch **OK**.

    **Tip**   You can create a signature consisting of multiple lines of text. At the end of each line of text, touch ▶️ on the onscreen keyboard to create another line.

**To view your sent messages**
In the Inbox, press MENU and then touch **View labels > Sent**.
Receive and read emails
Depending on your notification settings, the phone plays a ring tone, vibrates, or displays the email message briefly in the status bar when you receive a new email. A new email message (✉️) icon also appears on the notifications area of the status bar to notify you of a new email.

Note For more information on email notification settings, refer to the “Set new email notifications” section later in this chapter.

Gmail/Google Mail groups each message you send with all the responses you receive. This conversation list continues to grow as new replies arrive, so you can always see your messages in context. Conversations are also referred to as message threads. A new message or a change to the subject of a current message will begin a new thread.

To view emails
Do one of the following:

- Press HOME, then touch and hold the status bar, and then slide down your finger on the screen to open the Notifications panel. Touch the new email to view it.
- While in the Inbox, touch the unread email or the conversation with the unread email to view it.
To search for email messages
You can search for a specific email message by sender, word in a subject, or label.

1. In the Inbox, press MENU and then touch Search.
2. Enter the search keyword in the box, and then touch Search.

Reply to or forward emails

1. In the message thread, scroll down to the end of the conversation.
2. Touch Reply, Reply to all, or Forward.
3. Do one of the following:
   • If you selected Reply or Reply all, enter your reply message.
   • If you selected Forward, specify the message recipients.
4. Scroll down to the end of the message, and then touch Send.

Manage conversations and emails

Conversations
In the Inbox, touch and hold the conversation, and then touch:

• **Read** to open the email.
• **Archive** to archive the conversation.

  **Tip** To display your archived messages, in the Inbox, press MENU and then touch View labels > All Mail.

• **Mute** to mute the entire conversation.

  **Tip** If you’re part of a long message conversation that isn’t relevant, you can ‘mute’ the conversation to keep all future additions out of your Inbox.
Exchanging Messages

- **Mark read** or **Mark unread** as desired. Unread messages are displayed in bold in the Inbox.

- **Delete** to delete the conversation.

- **Add star** or **Remove star** to assign a star or remove the star on the conversation.

- **Change labels** to add or change the label of the conversation.

  **Note** You cannot use the phone to create labels; do that on the Gmail/Google Mail web site.

- **Report spam** to report the conversation as spam.

**Email messages**

In the message thread, navigate to the email header or message using the TRACKBALL, press MENU and then touch:

- **Archive** to archive the email message.

  **Tip** To display your archived messages, in the Inbox, press MENU, and then touch **View labels > All Mails**.

- **Add star** or **Remove star** to assign a star or remove the star on the conversation.

- **Mark read** or **Mark unread** as desired. Unread messages or threads with unread messages display in bold in the Inbox.

- **Change labels** to add or change the label of the conversation.

  **Note** You cannot use the phone to create labels; do that on the Gmail/Google Mail web site.

- **Delete** to delete the email message.

- **More >**
  - **Back to Inbox** to return to your Inbox.
  - **Mute** to mute the entire conversation.
Tip If you’re part of a long message conversation that isn’t relevant, you can ‘mute’ the email to keep all future additions out of your Inbox.

- Report spam to report the email message as spam.

Set Gmail/Google Mail settings

1. In the Inbox, press MENU and then touch Settings.

2. Set the following options:
   - Signature Touch to enter a signature that is appended at the end of your emails.
   - Confirm delete Select the check box to show a confirmation box when you delete a conversation.
   - Batch operations Select the check box to show the batch operations feature. The Batch operations feature lets you archive, delete, or apply a label to multiple emails at once.
   - Labels Touch to select which Gmail/Google Mail labels to synchronize.
   - Email notifications Select the check box to show a notification icon on the status bar when you receive a new email.
   - Touch Select ringtone if you want your phone to ring when a new email message arrives. On the ring tone menu, select a ring tone specific to new email messages. The ring tone plays briefly when selected. If you don’t want a ring tone to play when you receive a new email message, touch Silent. Then touch OK to confirm your ringtone selection.
   - Select Vibrate if you want your phone to vibrate when you receive a new email message.
5.3 Using Mail

The Mail application comes with an email wizard that lets you add external POP3 or IMAP email accounts from popular web-based email service providers such as Yahoo!® Mail Plus, AOL, and a Microsoft Exchange ActiveSync account on your phone.

To open Mail
Press HOME, then touch the Applications tab, and then touch Mail.

Add a POP3/IMAP email account

1. Press HOME, then touch the Applications tab, and then touch Mail.

2. On the Choose a mail provider screen, touch Other (POP3/IMAP).
   Note If the account type you want to set up is not in the phone database, you will be asked to enter more details. It is recommended that you get all pertinent information for the email account such as incoming/outgoing server settings before you proceed.

3. Enter the Email address and Password for the email account and then touch Next.

4. Enter the Account name and Your name and then touch Done.
To create another email account
Do one of the following:

- If you are in the Accounts list screen, press MENU, and then touch **New account**
- If you are in the Inbox of an email account, press MENU and then touch **More > New account**.

**Tip** If you are in the Inbox of one of your email accounts and you want to go back to the Accounts list screen, press MENU and then touch **More > Accounts list**.
Add a Microsoft Exchange ActiveSync account

You can only add one Microsoft Exchange ActiveSync account on your phone.

**Requirement**  You can sync with a Microsoft Exchange Server 2003 Service Pack 2 (SP2) or Microsoft Exchange Server 2007.

1. Press HOME, then touch the Applications tab, and then touch Mail.
2. On the Choose a mail provider screen, touch Exchange ActiveSync.
3. Enter the Exchange ActiveSync account details and then touch Next.

**Note**  Your corporate Exchange Server must support auto-detect for the phone to automatically set up the Exchange ActiveSync account. If your corporate Exchange Server does not support auto-detect, you will need to enter your Exchange Server settings after you touch Next. Ask your Exchange Server administrator for details.

4. Select the type of information you want to synchronize and then touch Done.

You can change the types of Exchange ActiveSync information you want to synchronize after setting up the account. To change, press HOME > MENU, and then touch Settings > Data synchronization > Exchange ActiveSync.

To change synchronization settings

You can change synchronization settings after setting up the Exchange ActiveSync Server account.

1. Press HOME > MENU, and then touch Settings > Data synchronization > Exchange ActiveSync.
2. Press MENU and then touch Settings.
3. Change the general settings and mail and calendar settings according to your preference.
4. Press BACK after you are done.
Compose and send emails

1. Press HOME, then touch the Applications tab, and then touch Mail.
2. On the email account Inbox, press MENU and then touch Compose.
   
   **Note** If the current email account is not the account you want to use, press MENU and then touch More > Accounts list to choose a different email account.
3. Enter the message recipient’s email address in the To field. As you enter information, matching contacts will appear on the screen. Touch the recipient or continue entering the email address. If you are sending the email to several recipients, separate the email addresses with a comma. You can add as many message recipients as you want.
   
   **Note** If you want to send a carbon copy (Cc) or a blind carbon copy (Bcc) of the email to other recipients, press MENU and then touch Add recipient.
   
   **Tip** If you have set up an Exchange ActiveSync account, press MENU and then touch Add recipient > To > Company tab to let you add recipients from the Exchange ActiveSync account contacts.
4. Enter the subject, and then compose your message. Touch Send.
   
   **Note** Touch Save as draft to save the message as a draft.

Manage emails on your external email account

To sort messages

1. On the email account Inbox, press MENU, and then touch Sort.
2. Select from the following sort options:
   
   - **Date (Most recent/Oldest)** Sorts email messages by the time you received it.
   - **Subject (A-Z/Z-A)** Alphabetically sort email messages by subject.
   - **Sender (A-Z/Z-A)** Alphabetically sort email messages by sender.
   - **Size (Largest/Smallest)** Sort emails by file size.
3. Touch OK.
To delete a message
1. On the email account Inbox, touch and hold the email you want to delete.
2. On the options menu, touch Delete. When prompted to confirm deletion, touch OK.

Edit or delete an email account
You can edit or delete an external email account on your phone.
1. Press HOME, touch the Applications tab, and then select Mail. The Accounts list screen appears.
   Note If the Account list screen does not open, in the Inbox of the email account, press MENU and then touch More > Accounts list.
2. Do one of the following:
   - To delete, touch and hold the account you want to remove, and then touch Delete account on the options menu. When prompted to confirm deletion, touch OK.
   - To edit, touch and hold the account you want to edit, and then touch Settings on the options menu. See the next section for details.

Adjust email account settings
1. Press HOME, touch the Applications tab, and then touch Mail. The Accounts list screen appears.
   Note If the Account list screen does not open, in the Inbox of the email account, press MENU and then touch More > Accounts list.
2. Touch and hold an email account on the screen, and then touch Settings.
3. Touch one of the following to edit or adjust:
### Account info
Change the email account settings such as the name, email address, password, and description.

### General settings
Set the font size when reading emails and enable/disable the signature. Touch **Signature** to change the signature text.

### Send & receive
Set the maximum email file size limit when receiving and frequency to check for new emails and how many to check for. You can also set to have emails that you send bcc'd to yourself.

### Notification settings
Set email notification settings.

4. Press BACK to save your changes.

## 5.4 Using Google Talk

**Google Talk** is Google’s instant messaging program. It lets you communicate with other people that also use Google Talk.

**Note** The Google Talk account that is set up is based on the Gmail/Google Mail account that you used when you set up the phone.

**Sign in and chat online**

**To open Google Talk**
Press HOME, then touch the Applications tab, and then touch **Google Talk**.
To add a new friend
You can only add people who have a Google Account.

1. In the Friends list, press MENU and then touch Add friend.
2. Enter the Google Talk instant messaging ID or Google email address of the friend you want to add.

   Note When you add a friend with an instant messaging ID and has been saved in your contacts list, matching contacts will display on the screen as you enter information. You can touch the contact or continue entering the IM information.

3. Touch Send invitation.

To view and accept an invitation

1. In the Friends list, press MENU and then touch Invites. All chat invitations you have sent or received are listed on the pending invitations screen.

2. Touch a pending invitation, and then touch Accept or Decline.

   Note When someone you invite to chat accepts your invitation, the pending invitation disappears from the list.
To change your online status and message

1. Touch the online status icon (combatant) beside your name, and then select the status you want on the menu.

2. Touch the text box on the right of your online status icon and then enter your status message using the onscreen keyboard.

3. Touch \( \text{send} \).

To start a chat

1. Do one of the following:
   - Touch a friend in the Friends list.
   - Navigate to a friend using the TRACKBALL, and then press the TRACKBALL.

2. Chat with your friend by entering text using the onscreen keyboard.
   
   **Note** To insert a smiley, press MENU and then touch Insert smiley. Touch a smiley to insert it into your message.

3. After entering your message, touch Send.
To switch between active chats
You can switch between chats if you have more than one chat going.

1. While on a chat screen or in the friends list, press MENU and then touch **Switch chats**.
2. On the panel that opens, touch the friend you want to chat with.

To close a chat
Do one of the following:

- In your Friends list, touch and hold a friend with an active chat and then touch **End chat** on the menu.
- While on a chat screen, press MENU and then touch **End chat**.

Manage your friends
Friends in your friends list is sorted by their online status — active chats, online, busy, and offline. Within the status groupings, friends are listed alphabetically.

By default, only the friends that you frequently communicate with — the most popular — are in the Friends list. If you want to display all your friends, press MENU and then touch **All friends**.

Tip  To switch back to displaying only your most popular friends, press MENU and then touch **Most popular**.

To find a friend
In the Friends list, start entering the name of your friend to filter your list to show only friends with names that match what you have entered.

To block a friend
You can block a friend from sending you messages. When blocked, your friend is also removed from your Friends list.
1. In the Friends list, locate the friend you want to block.

   **Note**  If you cannot see the friend, Press MENU and then touch **All friends**.

2. Touch and hold the friend’s name, and then touch **Block friend**. Your friend is removed from your friends list and is added to the blocked friends list.

   **Note**  To unblock a friend, in the Friends list, press MENU and then touch **Blocked**. In the Blocked friends list, touch the name of the friend you want to unblock, and then touch **OK** when prompted.

---

**To pin a friend**

You can pin a friend to make sure that friend always appears in your **Most popular** friends list.

1. In the Friends list, Touch and hold the friend’s name to open the options menu.

   **Note**  If you cannot see the friend, Press MENU and then touch **All friends**.

2. Touch **Pin friend**.

   **Note**  To unpin a friend, in the Friends list, touch and hold the friend you want to unpin and then touch **Unpin friend** on the options menu.

---

**To show a friend in the Most popular list**

1. In the Friends list, touch and hold the friend’s name to open the options menu.

   **Note**  If you cannot see the friend, Press MENU and then touch **All friends**.

2. Touch **Show friend**.

   **Note**  To keep a friend from appearing in the most popular list, touch **Hide friend** on the menu. If you pinned the friend, the pin will be removed when you hide the friend.
Exchanging Messages

**Mobile indicators**
You can check what type of device your friend is using to chat in Google Talk. In the friends list, check the image that appears to the right of your friend’s name.

Indicates that the friend is using an Android phone.

When you do not see an image, it indicates that your friend signed in last from a computer.

You can also choose to show a mobile indicator. To show:

1. In the Friends list, press MENU and then touch More > Settings.
2. Select the Mobile indicator option, and then press BACK. The mobile indicator icon will display along with your name in other people’s Friends list and will let your friends know what type of mobile device you are using.

**Adjust instant messaging settings**

**To set notifications for new instant messages**
You can set the phone to play a sound, vibrate, or display a notification icon in the status bar each time you receive a new instant message.

1. In the Friends list, press MENU and then touch More > Settings.
2. Do one or all of the following:
   - Select the IM notifications check box to receive a notification (💬) in the status bar when a new instant message arrives.
   - Touch Select ringtone to select the ring tone to use when a new instant message arrives. The ring tone briefly plays when selected. If you don’t want a ring tone to play when you receive a new instant message, select Silent.
• Select the **Vibrate** check box to vibrate your phone when you receive a new instant message.

**To sign in automatically**
You can sign in to your Google Talk account automatically every time you turn on your phone.

1. In the Friends list, press MENU and touch **More > Settings**.
2. Select the **Automatically sign in** check box.
3. Press BACK to save your setting.

**Sign out**
In the friends list, press MENU and then touch **More > Sign out** when you want to sign out from Google Talk.
Exchanging Messages
Chapter 6

Getting Connected

6.1 Connecting to the Internet
6.2 Using Browser
6.3 Using Bluetooth
6.1 Connecting to the Internet

Your phone’s networking capabilities allow you to access the Internet through one of the following connections:

- GPRS/3G/EDGE
- Wi-Fi

**GPRS/3G/EDGE**
Your phone will be automatically configured to use your wireless service provider’s GPRS/3G/EDGE service when you turn on your phone (if the SIM card is inserted) for the first time.

**To check the network connection you are using**
1. Press HOME > MENU and then touch **Settings**.
2. Touch **Wireless Controls > Mobile networks > Network operators** or **Access Point Names**.

**To create a new access point**
When you need to add another GPRS/3G/EDGE connection on your phone, obtain the access point name and settings (including username and password if required) from your wireless service provider.

1. Press HOME > MENU and then touch **Settings**.
2. Touch **Wireless Controls > Mobile networks > Access Point Names**.
3. On the APNs screen, press MENU and then touch **New APN**.
4. In the Edit access point screen, enter the APN settings. Touch the APN setting item to edit it.
5. Press MENU and then touch **Save** when you finish setting up the new APN.
Wi-Fi
Wi-Fi provides wireless Internet access over distances of up to 300 feet (100 meters). To use Wi-Fi on your phone, you need access to a wireless access point or “hotspot”.

Note The availability and range of the Wi-Fi signal depends on the number, infrastructure, and other objects through which the signal passes.

To turn Wi-Fi on and connect to a wireless network
1. Press HOME > MENU, and then touch Settings > Wireless controls.
2. Select the Wi-Fi check box to turn Wi-Fi on. The phone will scan for available wireless networks.
3. Touch Wi-Fi settings. The network names and security settings (Open network or Secured with WEP) of detected Wi-Fi networks are displayed in the Wi-Fi networks section.
4. Touch a Wi-Fi network to connect. When you selected an open network, you will be automatically connected to the network. If you selected a network that is secured with WEP, enter the WEP (security) key and then touch Connect.

Notes • The next time your phone connects to a previously accessed secured wireless network, you will not be prompted to enter the WEP key again, unless you reset your phone to its factory default settings.
• Wi-Fi networks are self-discoverable, which means no additional steps are required for your phone to connect to a Wi-Fi network. It may be necessary to provide a username and password for certain closed wireless networks.
To check the wireless network status
You can check the current wireless connection status from the following:

- **Status bar**
  When your phone is connected to a wireless network, the Wi-Fi icon (_WIFI_) appears in the status bar and tells you the approximate signal strength (number of bands that light up). If **Network notification** in Wi-Fi settings is enabled, this icon ☐ appears in the status bar whenever the phone detects an available wireless network within range.

- **Wi-Fi networks**
  On the Wireless controls screen, touch **Wi-Fi settings**, then touch the wireless network that the phone is currently connected to.

  The Wi-Fi network name, status, speed, signal strength, security information, and IP address are displayed.

**Note**  If you want to remove the wireless network settings on your phone, touch **Forget** on this window. You need to enter the settings again if you want to connect to this wireless network.
To connect to another Wi-Fi network

1. On the Wireless controls screen, touch **Wi-Fi settings**. Detected Wi-Fi networks are displayed in the Wi-Fi networks section.

   **Tip** To manually scan for available Wi-Fi networks, on the Wi-Fi settings screen, press **MENU** and then touch **Scan**.

2. Touch another Wi-Fi network to connect to it.

   **Note** If the wireless network you want to connect to is not in the list of detected networks, scroll down the screen, then touch **Add a Wi-Fi network**. Enter the wireless network settings, then touch **Save**.

### 6.2 Using Browser

Open **Browser** to start surfing the web. Browser is fully optimized and comes with advanced functionalities that let you enjoy Internet browsing on your phone.

**Note** You must have an active data (3G, GPRS), or Wi-Fi connection to access the Internet.

**To open Browser**

Do one of the following:

- Press HOME, then touch **Browser**.
- Press HOME, then touch the Applications tab, and then touch **Browser**.

**Note** Browser automatically opens when you touch a web link in an email or text message.
To go to a web page

1. On the Browser screen, press MENU and then touch **Go to URL**.

2. Enter the web page address using the keyboard. As you enter the address, matching web page addresses will appear on the screen. Touch an address to go directly to that web page or continue entering the web page address.

3. Touch **Go**.

To set your home page

1. Press MENU and then touch **More > Settings > Set home page**.

2. Enter the URL of the web site you want to use as your home page and then touch **OK**.

View web pages

Browser offers a host of features that let you view web pages just like on a desktop computer.

To change the screen orientation

The phone automatically changes the screen orientation depending on how you are holding your phone.

**Note** The **Orientation** check box in **Home > MENU > Settings > Sound & display** needs to be selected for the screen orientation to automatically change.
To navigate on a web page
You can roll the TRACKBALL or slide your finger on the screen in any direction to navigate and view other areas of the web page.

You can also use **scale and scroll** to magnify an area of the web page for easy viewing. To use scale and scroll:

1. On a web page, press the TRACKBALL twice. The web page zooms out to fit the height of the screen and the magnifying window appears.

2. Touch and hold the magnifying window, then drag it to the area of the page that you want to view more closely. You can also roll the TRACKBALL to move the magnifying window on any area of the screen.

3. Release your finger or press the TRACKBALL to magnify the view. The view is magnified using the zoom ratio used when you activated scale and scroll.
Getting Connected

To zoom in or out on a web page
Slide your finger to one direction on the screen to activate the zoom controls.

Touch to zoom out.

Touch to zoom in.

Touch to activate scale and scroll.

Touch to resize the web page to its actual size.

To open a new browser window
Open multiple browser windows to make it easier for you to switch from one web site to another. You can open up to 8 browser windows.

To open a new window, press MENU and then touch **New window** while browsing a web page. A new browser window opens and goes to the home page that is set.

**Note** If you have two or more browser windows opened, press MENU and then touch **Windows** to let you add more browser windows.
To switch between browser windows

1. On a browser window, press MENU and then touch **Windows**.

   - Touch to open a new web page.
   - Touch to display the web page in full screen.
   - Touch to close the web page.

2. On the Current windows screen, touch the browser window you want to view.

   To close a browser window, touch ✗ on the browser window you want to close.

To find text within a web page

1. While viewing a web page, press MENU and then touch **More > Find on page**.

2. Enter the search item. As you enter characters, matching characters will be highlighted in green. Touch the left or right arrow to go to the previous or next matching item.

   Tip: Touch ✗ to close the search bar.
Manage links, history, and downloads

To select links in web pages
Navigate to links on a web page using the TRACKBALL. Links are enclosed in an orange or green box when selected.

<table>
<thead>
<tr>
<th>Link</th>
<th>What to do</th>
</tr>
</thead>
<tbody>
<tr>
<td>Web page address (URLs)</td>
<td>- Touch the link to open the web page.</td>
</tr>
<tr>
<td></td>
<td>- Touch and hold the link to open a menu that allows you to open,</td>
</tr>
<tr>
<td></td>
<td>bookmark, copy to the clipboard, or share the link via email.</td>
</tr>
<tr>
<td>Email address</td>
<td>- Touch to send an email message to the email address.</td>
</tr>
<tr>
<td></td>
<td>- Touch and hold, then touch Copy on the menu to copy the email</td>
</tr>
<tr>
<td></td>
<td>address to the clipboard. You can paste the email address later when</td>
</tr>
<tr>
<td></td>
<td>creating a new contact or sending a new email message.</td>
</tr>
</tbody>
</table>

Browser also recognizes some phone numbers and addresses that allow you to call the phone number or locate the address in Google Maps™. Recognized phone numbers and addresses are highlighted in green when navigated to.
### Link and What to do

<table>
<thead>
<tr>
<th>Link</th>
<th>What to do</th>
</tr>
</thead>
<tbody>
<tr>
<td>Location address</td>
<td>Touch the address to open Google Maps and locate the address.</td>
</tr>
<tr>
<td>Phone number</td>
<td>Touch to open the Phone screen to call the phone number.</td>
</tr>
</tbody>
</table>

**Tip**  When links are too small for touching directly on the screen, highlight it with the TRACKBALL, then either press the TRACKBALL to open the link, or press and hold the TRACKBALL to select an option from the menu.

### To allow download of web applications
Before you can download web applications, you must first enable downloading from the phone settings.

1. Press HOME > MENU, and then touch Settings > Applications.
2. Select the **Unknown sources** check box.
3. When the Attention dialog box opens, touch OK.

**Note**  All downloaded applications are saved to the storage card. Before you download an application from the web, make sure that you have installed a storage card on your phone. For information on how to install a storage card, refer to Chapter 1.

**Warning!**  Applications downloaded from the web can be from unknown sources. To protect your phone and personal data, download applications only from trusted sources such as Android Market. Refer to “Installing Applications from Android Market” in Chapter 9 for details.

### To view your downloads
On a browser screen, press MENU and then touch **More > Downloads**.
Manage bookmarks
You can store as many bookmarks as you want on your phone.

To bookmark a web page
1. On a browser screen, go to the web page you want to bookmark.
2. Press MENU and then touch Bookmarks. The bookmarks screen opens.
3. On the Bookmarks tab, touch Add bookmark on the top of the screen.
4. Edit the bookmark Name if needed and then touch OK.

To open a bookmark
1. On the Browser screen, press MENU and then touch Bookmarks.
2. On the Bookmarks tab, do one of the following:
   • Touch the bookmark you want to open.
   • Touch and hold the bookmark you want to open, then touch Open or Open in new window on the options menu.

To edit a bookmark
1. On the Browser screen, press MENU and then touch Bookmarks.
2. On the Bookmarks tab, touch and hold the bookmark you want to edit.
3. Touch Edit bookmark on the options menu. The edit bookmark dialog box appears.
4. Enter your changes and touch OK.
6.3 Using Bluetooth

Bluetooth is a short-range wireless communications technology that allows Bluetooth devices to exchange information over a distance of about eight meters without requiring a physical connection.

Bluetooth on your phone operates in three different modes:

- **On.** Bluetooth is turned on. Your phone can detect other Bluetooth-enabled devices, but not vice versa.

- **Discoverable.** Bluetooth is turned on, and all other Bluetooth-enabled devices can detect your phone.

- **Off.** Bluetooth is turned off. In this mode, you can neither send nor receive information using Bluetooth.

**Notes**

- By default, Bluetooth is turned off. If you turn it on, then turn off your phone, Bluetooth also turns off. When you turn on your phone again, Bluetooth automatically turns on.

- Turn off Bluetooth when not in use to conserve battery power, or in places where using a wireless device is prohibited, such as on board an aircraft and in hospitals.

**To turn on Bluetooth and make the phone discoverable**

1. Press HOME > MENU, and then touch **Settings**.

2. Touch **Wireless controls**, then select the **Bluetooth** check box to turn on Bluetooth. When on, the Bluetooth (Bluetooth) icon appears in the status bar.

3. Touch **Bluetooth settings**, then select the **Discoverable** check box to make the phone discoverable to other Bluetooth devices that are within range.

**Important**

Your phone will be discoverable for up to two minutes.
To change the phone name
The phone name identifies your phone in a Bluetooth network.

1. Make sure that you have turned Bluetooth on.
2. On the Wireless controls screen, touch Bluetooth settings > Device name.
3. Enter the name for your phone in the dialog box, then touch OK.

To pair and connect a Bluetooth hands-free headset or car kit
You can connect your phone to a Bluetooth hands-free headset or a Bluetooth car kit and use those devices to send and/or receive calls. Before you can use a Bluetooth hands-free headset or car kit, you must pair it first with your phone.

Important The phone supports the following Bluetooth profiles: Headset, Handsfree, A2DP, and AVRCP.

1. Press HOME > MENU, and then touch Settings.
2. Touch Wireless controls > Bluetooth settings and then select the Bluetooth check box. Your phone will start to scan for Bluetooth devices within range and will display all detected devices below the Bluetooth devices section.

Tips
• If you do not find the device in the list, touch Scan for devices to scan again.
• Make sure that the Bluetooth device that you want to pair with is set to discoverable mode. Consult the Bluetooth device’s documentation to learn how to set it to discoverable mode.
3. Touch the hands-free headset or car kit in the list to start pairing.

Note For some Bluetooth devices, you need to enter a passcode to pair with the Bluetooth device. You can try “0000” as the passcode. If that does not work, consult the Bluetooth device’s documentation.

4. The pairing and connection status will appear below the hands-free headset or car kit name in the Bluetooth devices list. When the other Bluetooth hands-free headset or car kit is connected to your phone, the Bluetooth connected icon will appear in the status bar. You can now start using the hands-free headset or car kit to make and/or receive phone calls.
Getting Connected

1. The icon represents that the device is a stereo Bluetooth headset (ADP Bluetooth profile). You need to use a stereo Bluetooth headset (ADP Bluetooth profile) if you want to listen to music through a Bluetooth headset.

2. The icon represents that the device is a mono Bluetooth headset (Headset and Handsfree Bluetooth profiles).

Notes

- Pairing between two Bluetooth devices is a one-time process. Once pairing is created, the devices can recognize the partnership and exchange information without entering a passcode again.
- If you pair with a second headset while connected to the first, the first headset will be disconnected. To switch connection back to the first headset, you must manually select that headset again in the Bluetooth devices list.

To disconnect a Bluetooth hands-free headset or car kit

1. Press HOME > MENU, and then touch Settings.
3. Navigate to the Bluetooth devices section, then touch and hold the connected hands-free headset or car kit.
4. Touch Disconnect.

Touch Unpair if you want the phone to erase all pairing information with the hands-free headset or car kit. You will be prompted to enter the passcode again when you connect to that Bluetooth device.
Chapter 7

Getting Around with Maps

7.1 Using Maps
7.2 Searching for Places of Interest
7.3 Viewing Maps
7.4 Getting Directions
7.5 Finding your friends with Google Latitude
7.1 Using Maps

Maps lets you track your current location, view real-time traffic situations, and receive detailed directions to your destination. It also provides a search tool where you can locate places of interest or an address on a vector or aerial map, or view locations in street level.

Notes
- You need an active data (3G/GPRS) or Wi-Fi connection to use Maps.
- The Maps application does not cover every country or city.

To enable Location source
Before you open Maps and find your location or search for places of interest, you must enable My location sources.

1. Press HOME > MENU and then touch Settings > Location.

2. Select Use wireless networks, Enable GPS satellites, or both.

Note Selecting GPS satellites lets you locate places of interest in street-level. However, this requires a clear view of the sky and more battery power.

To open Maps
Do one of the following:
- Press HOME, then touch Maps.
- Press HOME, touch the Applications tab and then touch Maps.

To find your location on the map
On the Maps screen, press MENU and then touch My Location. Your location is shown on the map as a blinking blue dot.
7.2 Searching for Places of Interest

To search for a place of interest

1. On the Maps screen, press MENU and then touch Search.

2. Enter the place you want to search in the search box. You can enter an address, a city, or type of business or establishment (for example, museums in London).

3. Touch Search.

4. Touch a place in the list to show its location on the map.

Tip As you enter information, a list of all the places which you have searched or visited before appears on the screen. You can also touch an address on the menu to show its location on the map.
Touch to view the location of the previous or the next place in the Search results screen.

Location of one of the places in the Search results list.

Touch the place or touch Show map to show the location of the place on the map.

Touch to edit the search or search for a new place.

Touch to return to the Search results screen.

**Tip**  
On the map, roll the TRACKBALL left or right to view the location of the previous or the next place in the Search results list.

5. Touch the callout on the map to open the location details and options.

Scroll your finger up the screen or roll the TRACKBALL down to view more location options.
7.3 Viewing Maps

While viewing a map, take advantage of the following zoom and navigation techniques.

**To zoom in or out on a map**
Touch the screen to show the zoom controls.

**To navigate on a map**
Roll the TRACKBALL or slide your finger on the screen in any direction to view other areas of the map.
To change a map mode
When viewing a map, you can switch to another map mode. Press MENU and then touch **Map mode**. Select from **Map**, **Satellite**, **Traffic**, or **Street View**.

- **Map mode** This is the default view and displays a map, complete with names of streets, rivers, lakes, mountains, parks, and boundaries.
- **Satellite mode** Maps uses the same satellite data as Google Earth. Satellite images are not real-time. Google Earth acquires the best imagery available, most of which is approximately one to three years old.
• **Traffic mode** (available only in selected areas) Real-time traffic conditions are displayed over roads as color-coded lines. Each color represents how fast the traffic is moving.

• **Street View mode** (available only in selected areas) Provides a street-level view of the location. Blue outlined roads indicate that street view is available on those locations.

While viewing a Street View of a location, press MENU and then touch **Compass mode** to turn Compass mode on. Tilt, pan, or turn your phone to view the area around the selected location.
7.4 Getting Directions

Use Maps to get detailed directions to your destination.

To get directions
1. While viewing a map in any mode (except in Street View), press MENU and then touch **Directions**.

2. Enter the starting point in the first text box, then enter your destination in the second text box.

You can also touch ☐ to open the location source menu and select a starting point and destination address.

3. Touch **Route**. The directions to your destination appears in a list.
Touch to show the directions on a map.

Touch to show the location on a map.

Next turn information

Distance and time to destination.

Touch to change your route.

Touch to show the previous turn on the map.

Next turn

Touch to display the directions in a list.

When you are finished viewing or following the directions, press MENU and then touch **Clear map** to reset the map. Your destination is automatically saved in the Maps history.
7.5 Finding your friends with Google Latitude (Available by Country)

Google Latitude™ user location service lets you and your friends share locations and status messages with each other. It also lets you send instant messages and emails, make phone calls, and get directions to your friends’ locations.

Your location is not shared automatically. You must join Latitude, and then invite your friends to view your location or accept their invitations.

Open Latitude

To join Latitude
1. While viewing a map in any mode (except in Street View), press MENU and then touch Join Latitude.
2. Read the privacy policy. If you agree with it, touch Agree & share.

To open Latitude after joining
While viewing a map in any mode (except in Street View), press MENU and then touch Latitude.

Share your locations
After you join Latitude, you can start sharing your locations with your friends. Only friends that you have explicitly invited or accepted can see your location.
Invite friends

To share your location with friends and request to see their locations

1. In Latitude, press MENU and then touch Add friends.

2. Choose how to add friends:
   - Select from Contacts. Select any number of friends from your Contacts. Friends who already use Latitude have a icon next to their names.
   - Add via email address. Enter an email address.

3. Touch Add friends.

4. Touch OK.
   If your friends already use Latitude, they receive an email request and a notification on Latitude. If they have not yet joined Latitude, they receive an email request that tells them to sign in to Latitude with their Google Account.

Accept an invitation

When you get a sharing request from a friend, you can:

- Accept and share back. You can see your friend’s location, and your friend can see yours.
- Accept, but hide my location. You can see your friend’s location, but they can’t see yours.
- Don’t accept. No location information is shared between you and your friend.

You can change how your location is shared with each friend at any time. Refer to “To share your location with friends and request to see their locations” earlier in this chapter for more details.
Show your friends
You can show your friends using the map view or the list view.

Map view
When you open Google Maps, it shows your friends’ locations. Each friend is represented by a photo icon with an arrow pointing at his or her approximate location. If a friend has opted to enable city-level sharing, his or her icon will not have an arrow and it appears in the middle of the city. Refer to “To share your location with friends and request to see their locations” earlier in this chapter for more details.

To see your friend’s profile and connect with him or her, touch the photo. This will display your friend’s name, then touch the balloon right above his or her icon.

To see other friends, touch either one of the arrow buttons next to the balloon.

List view
To show a list of your friends, in Maps, press MENU and then touch Latitude.

To see a friend’s profile and connect with him or her, select your friend’s name from the list.
Connect with your friends

Touch a friend’s contact details balloon in map view or touch a friend in list view to open the friend’s profile. In the profile screen, you can communicate with your friend and set privacy options.

<table>
<thead>
<tr>
<th>Options</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Show on map</td>
<td>Find a friend’s location on the map.</td>
</tr>
<tr>
<td>Chat using Google Talk</td>
<td>Send an instant message. Google Talk opens a chat window with that friend.</td>
</tr>
<tr>
<td>Send email</td>
<td>Send an email. Gmail/Google Mail opens an email addressed to that friend.</td>
</tr>
<tr>
<td>Directions</td>
<td>Get directions to the friend’s location.</td>
</tr>
<tr>
<td>Hide from this friend</td>
<td>Stop sharing your location with this friend. Your friend cannot see your photo icon on the map. To share your location with this friend again, touch <strong>Unhide</strong> from this friend.</td>
</tr>
<tr>
<td>Share only city level location</td>
<td>Share only the city you are in, not the street-level location. Your friend can see your photo icon in the middle of the city you are in. To share more precise location again, touch <strong>Best available location</strong>.</td>
</tr>
<tr>
<td>Remove</td>
<td>Remove the friend from your list and stop sharing locations with him or her altogether.</td>
</tr>
</tbody>
</table>

Control what you share

You have control over how and when you can be found by your friends. Only the last location sent to Latitude is stored with your Google Account. If you turn off Latitude or are hiding, no location is stored.
To change your public profile

1. In Maps, press MENU, touch Latitude, and then touch your contact details balloon.

2. Set the following options to your preferences.

<table>
<thead>
<tr>
<th>Options</th>
<th>Description</th>
</tr>

</tr>
<tr>
<td>Change your photo</td>
<td>Change the picture, which is also shared across other Google products and features. After you touch Change your photo, you can either take a picture of yourself with the phone or select a picture from Gallery. Refer to “Using Camera and Camcorder” and “Using Gallery” in Chapter 8 for more details.</td>
</tr>
<tr>
<td>Edit privacy setting</td>
<td>Manage how your location is shared with all your friends. Select one of the following options: Detect your location. Let Latitude automatically detect and update your location as you move around. The update frequency is determined by several factors, such as your phone’s battery charge level and how recently your location has changed. Note: You must have My location sources enabled. To learn how to enable My location sources, refer to “Using Maps” in this chapter. Set your location. Manually select a location on the map. Hide your location. Hide your location from all your friends. They will not be able to see your location on their maps. You can also hide your location only to certain individuals. Turn off Latitude. Disable Latitude and stop sharing. Your friends cannot see your location. You can always join Latitude again.</td>
</tr>
</tbody>
</table>
Chapter 8
Camera, Multimedia, and Documents

8.1 Using Camera and Camcorder
8.2 Using Gallery
8.3 Using YouTube
8.4 Using Music
8.5 Viewing PDF Files
8.6 Using Quickoffice
8.1 Using Camera and Camcorder

Use Camera or Camcorder to take and share pictures and videos. Your phone comes with a 3.2 megapixel camera with auto-focus feature that lets you capture sharp pictures and videos.

Before you proceed
You must install a storage card before you use Camera or Camcorder. All pictures or videos that you capture on your phone are stored on the storage card. For more information on how to install a storage card on your phone, refer to Chapter 1.

To open the Camera
Press HOME, touch the Applications tab and then touch Camera if you want to capture photos or Camcorder if you want to shoot videos. The screen automatically switches to landscape orientation when you open Camera or Camcorder.

Tip
You can easily switch to the other capture mode while you are in Camera or Camcorder. Refer to “Capture modes” in this chapter for details.

The camera controls disappear after a few seconds. To show the camera controls again, touch the screen.

To close the Camera
On the Camera screen, press HOME or BACK.
Capture modes
The phone offers three capture modes: Photo, Video, and Contact picture.

To change the capture mode
1. On the Camera screen, press MENU and then touch \%/\%/\%.  
   **Note**  The icon you see will depend on the capture mode you are in.  
2. On the Capture mode options menu, select the capture mode you want to use and then touch **OK**.

Take pictures
1. Switch to the Photo or Contact picture capture mode.  
2. Frame your subject on the screen.  
3. Press the TRACKBALL button. The auto-focus feature is turned on and then automatically takes the shot after focus is set.

   ![Auto-focus indicator](image)

**Tip**  To zoom in, touch the screen to open the camera controls and then scroll the TRACKBALL up or down (landscape orientation) to zoom in and out. You can also touch and slide the Zoom control up and down or touch \+/\- to zoom in and out.
Shoot videos

1. Switch to the **Video** capture mode.

2. Frame your subject on the screen.

3. Press the TRACKBALL button to start capturing video. Press the TRACKBALL again to stop capturing video.

Review screen

After capturing, the review screen lets you save, assign, send, or delete the picture or video by touching a button at the right-side of the screen.
**Icon** | **Function**
--- | ---

![Back Icon](image) | **Back**  Return to the live Camera or Camcorder screen.

![Delete Icon](image) | **Delete**  Delete the captured image or video.

![View Icon](image) | **View**  View the captured image or video in Gallery.

![Send Icon](image) | **Send**  *Photo and Video modes only* Send the captured image or video via email or MMS or set the captured image as your Home screen wallpaper.

![Assign to Contact Icon](image) | **Assign to Contact**  *Contact picture mode only* Assign the photo to a contact.

---

**Camera menu panel**
The Camera menu panel lets you change the capture mode, adjust basic camera settings, and access advanced camera settings.
To open the menu panel
While on the Camera screen, press MENU.

1  Capture mode  Touch to select the capture mode to use.
2  Resolution  Touch to change the resolution (capture size). When using Contact Picture mode, there is only one available resolution.
3  White Balance  Touch to adjust the white balance. White balance enables the camera to capture colors more accurately by adjusting to different lighting conditions. White balance settings include: Auto, Daylight, Cloudy, Incandescent, and Fluorescent.
4  Brightness  Touch to open the Brightness bar so you can adjust the brightness. On the Brightness bar, touch to decrease, or to increase the brightness level. Touch outside the Brightness bar to apply the change.
5  Self-timer (Photo and Contact photo modes only)  Touch to set the self-timer to Off, 2 seconds, or 10 seconds. When you press the TRACKBALL to take the photo, it starts to count down, then takes the shot after the time expires.
6  Advanced  Touch to open the advanced camera settings. See “Advanced settings” for details.
8.2 Using Gallery

**Gallery** lets you view photos and play back videos. For photos, you can also do basic editing tasks, set them as your wallpaper or contact picture, and share to your friends.

**To open Gallery**
- Press HOME, touch the Applications tab and then touch **Gallery**.
- While on the Camera screen, touch the screen to open the onscreen controls and then touch 📷.

If you stored your files in folders (directories) on the storage card, Gallery will display these folders as separate albums. The top left album contains all the pictures in the storage card.

**Note** Depending on the number of pictures stored on the storage card, it may take a while to load all your photos on the screen.
**To close Gallery**
While in the Gallery screen, press HOME or BACK to close the application.

**Note** If you opened Gallery from the Camera application, the screen returns to the Camera screen when you press BACK.

**Work with pictures**
Once you have taken a picture, you can view it or share it with friends.

**To view pictures**
1. On the Gallery screen, touch an album to view the pictures inside the album.
   **Note** If there are no picture albums, slide your finger upward or downward the screen, or roll the TRACKBALL up or down to browse through individual pictures.

2. Touch a thumbnail to view it in full screen. You can also touch and hold the thumbnail, then touch **View** on the options menu to open it.
   **Tip** You can choose to display small or large thumbnails or sort your album and display the latest pictures first or last. On the Gallery screen, press MENU and then touch **Settings**. Navigate to the General settings section, touch **Display size** or **Sort order**, then adjust the settings accordingly.

**To browse through pictures**
When viewing pictures in full screen, do one of the following:

- Touch the left area of the screen to view the previous picture, or touch the right area of the screen to view the next picture.
- Touch the screen to display the scroll arrows. Touch the left arrow to view the previous picture, or touch the right arrow to view the next picture.
- Roll the TRACKBALL left to view the previous picture, or roll it right to view the next picture in the album or in the pictures list.
To zoom in or out on a picture
Touch the screen to activate the zoom control.

To view a picture in landscape orientation
Turn your phone sideways to view the picture in landscape mode. The picture orientation automatically adjusts to how you hold the phone.

Note  The Orientation check box in Home > MENU > Settings > Sound & display needs to be selected for the screen orientation to automatically change.

If you want to rotate the picture and save the rotated state, see “To rotate and save the rotated state” below.
**To rotate and save the rotated state**

1. In the Gallery screen, touch and hold the picture you want to rotate or if you are viewing the picture in full screen, press MENU.

2. In the options menu, touch **Rotate** and then select either **Rotate left** or **Rotate right**.

**Note** The Picture rotates 90 degrees counter-clockwise (Rotate left) or 90 degrees clockwise (Rotate right) each time you touch one of the Rotate options.

**To crop a picture**

1. While viewing a picture in full screen, press MENU and then touch **Crop**. The cropper tool appears.

2. Do one of the following:
   - To adjust the cropper size, touch and hold the edge of the cropper tool. When the cropper arrows appear, drag your finger inward to or outward from the centre of the cropper to resize it.
   - To keep the aspect ratio of the cropper while resizing, touch and hold one of the 4 corners.
   - To move the cropper to another area on the picture, touch and hold inside the cropper, then drag it with your finger to the desired position.
3. Touch **Save** to apply the changes to the picture.

**Note**  
The cropped picture is saved in the storage card as a copy. The original picture remains unedited.

**To send a picture using Mail**
1. While viewing a picture in full screen, press MENU, then touch **Share**.
2. When prompted, touch **HTC Mail** or **Gmail/Google Mail**.
3. The picture is automatically attached to your email. Compose your message, then touch Send. For more information on how to create and send emails, refer to Chapter 5.

**To send a picture using Messaging**
1. While viewing a picture in full screen, press MENU, then touch **Share**.
2. When prompted, touch **Messaging**.
3. The picture is automatically attached to your message. Compose your message, then touch Send. For more information on how to create and send messages, refer to Chapter 5.
**To upload a picture to Picasa**

You need to be signed in to a Google Account to be able to upload pictures to the Picasa™ photo organizing service.

1. While viewing a picture in full screen, press MENU, then touch **Share**.
2. When prompted, touch **Picasa**.
3. Enter a **Caption** for the picture and select the **Album** where you want to upload the picture.
   
   **Tip**  
   Touch ✚ to create a new album where you can upload the picture.
4. Touch **Upload**. You can view the photos online at http://picasaweb.google.com.

**Tip**  
You can view the upload progress by opening the Notifications panel and then touching **Picasa**. Refer to “To open the Notifications panel” in Chapter 1 to learn how to open the Notifications panel.

**Work with videos**

Once you have taken a video, you can view it or share it with friends.

**To watch videos**

1. On the main Gallery screen, touch a video album and then touch the video you want to watch to start playing back the video.
2. Touch the screen to show the playback controls.
To send a video using Mail

1. While viewing videos in a list, touch and hold the video, and then touch Share on the options menu.

2. When prompted, touch HTC Mail or Gmail/Google Mail.

3. The video is automatically attached to your email. Compose your message, then touch Send. For more information on how to create and send emails, refer to Chapter 5.

To send a video using Messaging

1. While viewing videos in a list, touch and hold the video, and then touch Share on the options menu.

2. When prompted, touch Messaging.

3. The picture is automatically attached to your message. Compose your message, then touch Send. For more information on how to create and send messages, refer to Chapter 5.
To share videos on YouTube
You can share your videos by uploading them to YouTube™. Before you do this, you must create a YouTube account and sign in to that account on your phone.

1. While viewing videos in a list, touch and hold the video, and then touch **Share** on the options menu.

2. When prompted, touch **YouTube**.

3. Enter a **Title, Description**, and Tags for your video. Select the **Public** check box if you want to share the video with everyone.

4. Touch **Upload**.

Tip You can view the upload progress by opening the Notifications panel and then touching **YouTube**. Refer to “To open the Notifications panel” in Chapter 1 to learn how to open the Notifications panel.

8.3 Using YouTube

**YouTube** is a free online video streaming service that allows you to view videos that have been uploaded by YouTube members.

Notes  • You do not need a YouTube account to browse and view videos. However, to use all the features of YouTube (such as viewing “My account”), you must create a YouTube account from your computer and sign in to that account from your phone.

• You must have an active data (3G/GPRS/EDGE) or Wi-Fi connection to access YouTube.
To open YouTube
Press HOME, touch the Applications tab and then touch YouTube.
The YouTube screen appears with the videos grouped into categories, such as Featured, Most popular, Most viewed, Top rated, and more.

To close YouTube
While on the YouTube screen, press HOME or BACK to close YouTube.

Watch videos
1. On the YouTube screen, select a video to watch from the available categories. Touch a category to see the available videos for that category.

2. Touch a video to play it.
   
   Note The screen automatically switches to landscape orientation when you play a video.

3. Touch the screen to display the playback controls.
4. Press BACK to stop playback and return to the videos list.

**Search for videos**
1. On the YouTube screen, press MENU and then touch **Search**.
2. Enter a search keyword, then touch 
3. The number of search results appears below the status bar. Scroll through the results and touch a video to watch it.

**To clear the search history**
1. Press MENU and then touch **Settings**.
2. Touch **Clear search history** and then touch **OK** when prompted.

**Share videos**
You can share a video by sending its link to your contacts.

1. Do one of the following:
   - While viewing videos in a list, touch and hold the video, and then touch **Share** on the options menu.
   - While watching a video, press MENU and then touch **Share**.
Note  If you have set up an external email account in addition to your Gmail/Google Mail account, you will be prompted to select the email account to use to send the video link.

A new email message appears with the video link automatically added to the email message.

2. Compose your email then send it. For more information about composing and sending emails, refer to Chapter 5.

8.4 Using Music

Music plays digital audio files from the phone’s storage card. Music supports the following music file formats: **MP3, M4A** (iTunes application AAC, DRM-free), **AMR, WMA (8), MIDI, WAV, OGG Vorbis**.

Since Music only plays audio files saved on the storage card of your phone, you must copy your audio files to the storage card before you open Music.

**To copy music into the storage card**

1. Set the phone’s storage card as a USB drive. See “Using the Phone’s Storage Card as a USB Drive” in Chapter 1 for details.

2. On the computer, navigate to the USB drive and open it.

3. Create a folder on the root folder of the storage card (for example, Music).
   
   Tip  You can also create and use folders to organize your music inside the Music folder you have created.

4. Copy the music into the folder you have created.

5. After copying music, unmount or eject the drive as required by your computer’s operating system to safely remove the phone.

6. Disconnect the phone from the computer.
To open Music
Press HOME, touch the Applications tab, and then touch Music. The Music library screen displays.

Music library
Your music is organized into four categories: Artists, Albums, Songs, and Playlists. Touch a category to view the list within each.

When inside a category, keep touching the screen until you reach the music you want to play. For example, if you touch Artists, you will see a list of artists in alphabetical order. If you touch an artist, the list opens to display the available albums or music. Select an album and the album’s song list displays.
**Play music**

At any level inside a Music library category, touch and hold an item (a song, artist, album, or playlist) to open the options menu, then touch **Play**. The playback screen opens.

**Notes**

- Press the VOLUME UP or VOLUME DOWN button to adjust the playback volume.
- If you are using the wired headset to listen to music, press the button to toggle between playing and pausing playback. Press and hold the button to go to the next track on the playlist.

**Playback screen**

- Touch and hold to rewind the song.
- Touch once to jump to the beginning of the song.
- Touch twice to play the previous song on the album.

**Song information**

- Touch to view the current playlist.
- Touch to turn shuffle on and off. (Shuffle is off when button is gray.)
- Touch to cycle through the repeat modes:
  - Repeat all songs
  - Repeat the current song
  - Don’t repeat
- Touch and hold to fast forward the song.
- Touch once to play the next song on the album.

**Elapsed time**

- Touch to pause or to resume playing the song.
- Touch and drag to jump to any part of the song.

**Progress bar**

- Touch to pause or to resume playing the song.
- Touch and drag to jump to any part of the song.

**Album cover art**

- Touch to turn shuffle on and off. (Shuffle is off when button is gray.)

**Tip**

While on the Music library or playback screen, you can play all songs in your library in random order. Press MENU, then touch **Party shuffle**. The first randomly selected song will play. To turn off Party shuffle, press MENU, then touch **Party shuffle off**.
Use playlists
Use playlists to organize your music files. You can create as many playlists as you want on your phone.

To create a playlist
1. Touch a category on the Music library screen.
2. In the list that appears, use the TRACKBALL to navigate to the artist, album, or song that you want to add in the playlist.
3. Touch and hold the artist, album, or song, then touch Add to playlist on the options menu.
4. In the Add to playlist window, touch New.
   Tip If you want to add the artist, album, or song to an existing playlist, touch the playlist’s name in the Add to playlist options menu.
5. Enter the name for your new playlist and then touch Save.

To manage your playlists
1. Go to the Music library screen and then touch Playlists.
2. Do one of the following:
   • To play the songs in a playlist, touch the playlist name.
   • To delete a playlist, touch and hold the playlist, then touch Delete.
   • To rearrange the songs or remove a song in a playlist, touch Edit on the options menu. Touch and hold before the song you want to move, drag it to its new position, then release.
   • To delete a song in a playlist, touch and hold the song, then touch Remove from playlist.
   • To rename a playlist, touch and hold the playlist, then touch Rename on the options menu. Enter the new playlist name, then touch Save.

Note The Recently added playlist is a system playlist and cannot be deleted or renamed.

To import a playlist

You can create playlists on your computer, then save these on your storage card. Music can access the following playlist formats: **M3U**, **WPL**, and **PLS**.

1. On your computer, open a simple text file for editing.

2. On separate lines, enter all the music file names you want to include in your playlist.

**Notes**

- The names you list in the file should be the names that appear when you view the contents of your storage card through your computer's file system, not the names that appear in the list of songs on your phone.
- Your phone will simplify the names and will not include track numbers or file extensions (for example, .mp3).

3. Save the playlist file using **.m3u** as the file name extension (for example, MyMusic.m3u).

4. Copy the playlist file to the Music folder on the storage card. Follow the instructions in “To copy music into the storage card” section earlier in this chapter.

**Tip**

It is recommended that you create a **Playlist** folder inside your **Music** folder in the storage card to hold all your playlist files.
Set a song as ring tone
You can use songs as your phone ring tone.

1. From the Music library, navigate to the song that you want to use as ring tone.

2. Touch and hold the song, then touch **Use as phone ringtone** on the menu. The song is set as your default incoming call ring tone.

To check if the song was added as a ring tone
1. On the Home screen, press MENU and then touch **Settings**.

2. On the Settings screen, touch **Sound & display > Phone ringtone**. The song should be listed as an option.

Delete music on the storage card
You can delete music files on the storage card.

1. On the Music Library screen, touch **Artists, Album, or Songs**.

2. Touch and hold the artist, album, or song you want to delete, then touch **Delete** on the options menu.

3. When prompted, touch **OK**.
8.5 Viewing PDF Files

Copy PDF files to the storage card of your phone and then use **PDF Viewer** to view them.

**To open a PDF file**

1. On the Home screen, touch the Applications tab and then touch **PDF Viewer**.
2. On the Open file screen, touch the file you want to view.

**To view a PDF file**

Slide your finger on the screen to pan or go through the pages of the PDF file. While viewing a PDF file, press MENU to let you open another PDF file, zoom in, search the file, and more.

Turn your phone sideways (turn to the left) to view the PDF file in landscape mode. The screen orientation automatically adjusts depending on how you hold the phone.
8.6 Using Quickoffice

Quickoffice lets you view Microsoft Office Word and Microsoft Office Excel files on your phone. Quickoffice supports viewing of Microsoft Office 2003 Word (.doc), Excel (.xls), and text (.txt) files.

To view documents and spreadsheets
Make sure you have copied the files to the phone's storage card before you open Quickoffice.

1. On the Home screen, touch the Applications tab, and then touch Quickoffice.
2. Touch Memory card and then touch the file you want to open.
   Tip While on the Memory card screen, press MENU and then touch Sort by to let you sort the list by Name, Type, Size, or Date Modified.
3. Slide your finger on the screen to pan or go through the pages of the file.
4. While viewing a file, you can:
   • Slide your finger on the screen to bring up the zoom controls.
   • For Excel files, press MENU and then touch **Worksheet** to view other worksheets on the file.
   • For Excel and Word files, touch a URL link to open the web page in Browser.
Chapter 9

Using Android Market

9.1 Using Android Market
9.2 Getting Help
9.3 Finding Applications
9.4 Installing an Application
9.5 Managing Applications
9.6 Uninstalling an Application
9.1 Using Android Market

Android Market provides direct access to useful applications and fun games which you can download and install on your phone. Android Market also allows you to send feedback and comments about an application, or flag an application that you find objectionable or incompatible with your phone.

To open Android Market

1. Press HOME, then touch the Applications tab, and then touch Market.
2. When you open Android Market for the first time, the Terms of Service window will appear. Touch Accept to continue.
9.2 Getting Help

If you ever need help or have questions about Android Market, press MENU and touch Help. The Browser will take you to the Android Market Help webpage.

9.3 Finding Applications

The Android Market home page provides several ways to find applications. It showcases featured applications and includes a list of item applications by category, a list of games, a link to search, and a link to My downloads.

Scroll horizontally through the featured items or select a category to browse its contents, then select a subcategory. Within each subcategory you can select to view items sorted By popularity or By date.

<table>
<thead>
<tr>
<th>Lunar Lander</th>
<th>Android Team</th>
</tr>
</thead>
<tbody>
<tr>
<td>Applications</td>
<td></td>
</tr>
<tr>
<td>Games</td>
<td></td>
</tr>
<tr>
<td>Search</td>
<td></td>
</tr>
<tr>
<td>My downloads</td>
<td></td>
</tr>
</tbody>
</table>

Note: All items in a subcategory are listed in each tab; those in the By popularity tab are sorted from most popular to least popular, and those in the By date tab are sorted from newest to oldest.
9.4 Installing an Application

To install and open an application

1. Navigate to the item you want to download, and select it.

2. In the item details screen, read more about the application, including its overall rating, and comments by users. If you scroll down to the About the developer section, you can view more applications by this developer, visit the developer’s website, and send the developer an email message.

   **Important** Press MENU and select **Security permissions** to view the functions and data this item can access on your phone.

   Scroll down to view more of this developer’s applications or to email the developer.

3. On any application details screen, touch **Install**.

   **Important** If the application requires either access to any of your data or control of any functions on your phone, Market tells you what the application can access.

   **Read it carefully!** Be especially cautious with applications that have access to many functions or a significant amount of your data. Once you touch **OK** on this screen, you are responsible for the results of using this item on your phone. Touch **OK** if you agree to the conditions of the application.
4. To check the progress of the download, open the Notifications panel. Most applications are installed within seconds. If you want to stop downloading the item, touch **Cancel download**.

   Download progress appears in the Ongoing section of the notifications window.

   ![Download progress example](image)

   Once downloaded and installed, a notification appears.

5. After the item is downloaded and installed on your phone, the content download icon 🔄 appears in the notification area of the status bar.

6. On the Android Market screen, touch **My downloads**.

7. Touch the installed application in the list, then touch **Open**.

   **Tip** You can also find the icon of the installed application on the Applications tab.
9.5 Managing Applications

From the Android Market Home, touch My downloads to view your downloaded items. From any of the Android Market screens, press MENU and touch My downloads to go to the screen.

9.6 Uninstalling an Application

To uninstall an application
You can uninstall any application that you have downloaded and installed from Android Market.

1. On the My downloads screen, touch the application you want to uninstall, then touch **Uninstall**.
2. When prompted, touch **OK** to remove the application on your phone.
3. Choose the reason for removing the application, then touch **OK**.
Chapter 10

Managing Your Phone

10.1 Changing Basic Settings
10.2 Protecting Your Phone
10.3 Managing Memory
10.4 Synchronizing Google Apps
10.5 Resetting the Phone
10.1 Changing Basic Settings

Set the date, time zone, and time
By default, your phone automatically uses the network-provided date, time zone, and time.

To manually adjust the date, time zone, and time
1. Press HOME > MENU, and then touch Settings.
2. Scroll down the screen, then touch Date & time.
3. Clear the Automatic check box.
4. Touch Set date. On the Change date window, touch or to adjust the date, month, and year, then touch Set when finished.
5. Touch Set time zone, then select the time zone in the list. Scroll down the list to view more time zones.
6. Touch Set time. On the time window, touch or to adjust the hour and minute, then touch AM to change to PM or vice versa. Touch Set when finished.
7. Select the Use 24-hour format check box to toggle between using a 12-hour or a 24-hour format.
8. Touch Select date format then select how you want dates to display on your phone. The selected date format also applies to the date displayed in the Alarm Clock.

Note For details on how to set an alarm, see “Using Alarm Clock” in Chapter 4.
Display settings

To adjust the screen brightness
1. Press HOME > MENU, and then touch Settings.
2. Touch Sound & display, scroll down the screen, then touch Brightness.
3. Drag the brightness slider to the left to decrease or to the right to increase the screen brightness.
4. Touch OK.

To adjust the time before the screen turns off
After a period of inactivity, the phone screen turns off to conserve battery power. You can set the idle time before the screen turns off.
1. Press HOME > MENU, and then touch Settings.
2. Touch Sound & display.
3. Scroll down the screen, then touch Screen timeout.
4. Select the time before the screen turns off, then touch OK.

Tip To turn off the screen quickly, press the END CALL/POWER button.

To prevent the screen orientation from automatically changing
By default, the screen orientation automatically adjusts depending on how you hold the phone.
1. Press HOME > MENU, and then touch Settings.
2. Touch Sound & display.
3. Scroll down the screen, then clear the Orientation check box.

To keep the screen on while charging the phone
You can keep the phone from turning off the screen while you are charging the phone.
1. Press HOME > MENU, and then touch Settings.
2. Touch **Applications > Development** and then select the **Stay awake** check box.

**Ringer settings**

**To change the ring tone**

1. Press HOME > MENU, then touch **Settings**.
2. Touch **Sound & display > Phone ringtone**.
3. Touch the ring tone you want to use, then touch **OK**. The ring tone briefly plays when selected.

**Tip**  
You can use *.wav, *.mid, *.mp3, *.wma, or other types of sound files that you downloaded from the Internet or copied from your computer as ring tones. For a complete list of supported audio file formats for ring tones, see “Specifications” in the Appendix.

**To enable touch tones**

You can set the phone to play a sound when you are using the phone pad and/or touching the screen.

1. Press HOME > MENU, then touch **Settings**.
2. Touch **Sound & display**, then scroll down the screen.
3. Select the **Audible touch tones** and/or **Audible selection** option(s).

**To choose the notification ring tone**

You can select the ring tone to play when your phone receives new notifications.

1. Press HOME > MENU, then touch **Settings**.
2. Touch **Sound & display > Notification ringtone**.
3. Select your preferred notification ring tone in the list and then touch **OK**.
Phone services
Your phone can directly link to the mobile phone network, and enable you to access and change the settings of various phone services for your phone. Phone services may include Call Forwarding, Call Waiting, Voicemail, and more. Contact your wireless service provider to find out about the availability of phone services for your phone.

To access and change the phone services settings
1. Press HOME > MENU, then touch Settings.
2. Touch Call settings.

Note For more information about the phone services on your phone, refer to the “Adjusting Phone Settings” in Chapter 2.

To enable data roaming
Data roaming lets you connect to your wireless service provider’s partner networks and access data services when you are out of your wireless service provider coverage area.

1. Press HOME > MENU, then touch Settings.
2. Touch Wireless controls > Mobile networks.
3. Select the Data roaming option.

Important Accessing data services while roaming may incur significant charges. Inquire the data roaming tariffs with your wireless service provider before enabling data roaming.

Language settings
You can change the operating system language of the phone.

To change the language of the operating system
1. Press HOME > MENU, then touch Settings.
2. Touch Locale & text > Select Locale and then select the language you want to use.
10.2 Protecting Your Phone

Protect your SIM card with a PIN
You can protect your SIM card from unauthorized use by assigning a PIN (personal identification number).

To enable the SIM card PIN
1. Press HOME > MENU, then touch Settings.
2. Touch Security, scroll down the screen, then touch Set up SIM card lock.
3. Select the Lock SIM card option.
4. Enter the default SIM card PIN using the keyboard, then touch OK.
5. To change the SIM card PIN at any time, touch Change PIN code.

Tip Emergency calls can be placed at any time, without requiring a PIN.

To restore a SIM card that has been locked out
If you enter the wrong PIN more times than the maximum number of attempts allowed, your SIM card will become “PUK-locked.” You need a new PUK code to restore access to the device. This code may have been provided by your operator when you received your SIM card.

Touch Emergency Dial and enter the following sequence on the keypad:

* * 0 5 * [PUK code] * [new PIN] * [new PIN] #

For example, if your PUK code is 888888 and you would like to reset the PIN on your SIM card to 7777, enter the following into Emergency Dial: **05*888888*7777*7777#.
Protect your phone with a screen lock
You can further secure your data by locking the screen and/or requiring a screen unlock pattern every time your phone is turned on or every time it wakes up from sleep mode (screen is off).

To lock the screen
Press the END CALL/POWER button. Locking the screen prevents accidental screen touches when the phone is in your bag, purse, or pocket.

Note To unlock the screen, press one of the buttons in front of the phone, and then press MENU.

To create and enable the screen unlock pattern
You can increase the security of your phone by creating a screen unlock pattern. When enabled, you have to draw the correct unlock pattern on the screen to unlock the phone’s control buttons and touch screen.

1. Press HOME > MENU, then touch Settings.
2. Touch Security > Set unlock pattern.
3. Read the information on the screen, then touch Next.
4. Study the example pattern on the screen, then touch Next.
5. Draw the screen unlock pattern by connecting at least four dots in a vertical, horizontal and/or diagonal direction. Lift your finger from the screen when finished.

   Note You must slide your finger on the screen to create the pattern and not touch individual dots.

6. The phone records the pattern. Touch **Continue**.

7. When prompted, draw the screen unlock pattern again, then touch **Confirm**.

   Tip Clear the **Use visible pattern** check box, if you do not want the unlock pattern to display on the screen when you unlock it.

   Note To change your unlock screen pattern, press HOME > MENU, then touch **Settings** > **Security** > **Change unlock pattern**.

When you fail to draw the correct unlock pattern on the screen after five attempts, you will be prompted to wait for 30 seconds before you can try again. If you forgot your screen unlock pattern, touch **Forgot pattern**. You will be prompted to sign in using your Google Account name and password, and create a new screen unlock pattern before the Home screen displays.
10.3 Managing Memory

To see how much phone memory is available for use
1. Press HOME > MENU, then touch Settings.
2. Scroll down the screen, then touch SD card & phone storage. The available phone memory is displayed in the Internal phone storage section.

To see the available storage card space
1. Press HOME > MENU, then touch Settings.
2. Scroll down the screen, then touch SD card & phone storage. The total and available storage card space display in the SD card section.

To clear application cache and data
1. Press HOME > MENU, and then touch Settings > Applications > Manage applications.
2. In the Manage applications list, touch the application whose cache and/or data you want to delete.
   Tip Press MENU to bring up sort and filter options.
3. In the Application info screen, touch Clear data and/or Clear cache.

To uninstall third-party applications
You cannot uninstall applications that are preinstalled on the phone.
1. Press HOME > MENU, and then touch Settings > Applications > Manage applications.
2. On the Manage applications screen, touch the application you want to uninstall.
3. On the Application info screen, touch Uninstall.

To uninstall applications from Android Market, see Chapter 9.
To free up more phone memory or storage card space
If your phone is running low on memory, try the following:
- In Browser, clear all temporary Internet files and Browser history information. See “Browser” in Chapter 6 for more information.
- Uninstall downloaded programs from Android Market you no longer use. See Chapter 9 for details.

10.4 Synchronizing Google Apps

Google Apps on your phone, such as Gmail/Google Mail, Calendar, and Contacts, give you access to the same personal information (emails, events, and contacts) that you add, view, and edit on your computer using Gmail/Google Mail or Calendar. Synchronize the Google Apps you want to keep information up-to-date.

To select which application to synchronize
1. Press HOME > MENU.
2. Touch Settings > Data synchronization > Data synchronization.

Note By default, all personal information in Gmail/Google Mail, Calendar, and Contacts will sync whenever you make a change or receive a new message.
3. Select the Google Apps you want to synchronize.

**Tip** Select *Auto-sync* to automatically synchronize all applications. When *Auto-sync* is disabled, you can synchronize individual applications manually by selecting their respective check boxes.

**To stop synchronization**
During synchronization, press MENU, then touch *Cancel sync* to stop synchronization.
10.5 Resetting the Phone

Resetting the phone deletes all data, including downloaded applications, and resets the phone back to its initial state—the state before you turned on the phone for the first time.

**Important** Make sure to back up important data you have on the phone before you perform a factory data reset.

**To reset the phone**
1. Press HOME > MENU, then touch **Settings**.
2. Scroll down the screen, then touch **SD card & phone storage**.
3. Navigate to the **Internal phone storage** section, then touch **Factory data reset**.
4. On the Factory data reset screen, touch **Reset phone** and then touch **Erase everything**.

**To reset the phone using phone buttons**
1. With the phone turned off, press and hold the HOME and BACK buttons.
2. Briefly press the END CALL/POWER button while continuing to press the HOME and BACK buttons.
3. When you see the screen with the 3 Android images, release the HOME and BACK buttons, and then press the TRACKBALL.

**Tip** If your phone hangs or freezes, remove the battery then wait for a few seconds, and then re-install it. After re-installing the battery, turn on the phone.

### Battery
- Rechargeable Lithium-ion battery
- Capacity: 1340 mAh
- Talk time: Up to 400 minutes for WCDMA
  Up to 450 minutes for GSM
- Standby time: Up to 660 hours for WCDMA
  Up to 420 hours for GSM

(The above are subject to network and phone usage.)

### Expansion Slot
- microSD™ memory card (SD 2.0 compatible)

### AC Adapter
- Voltage range/frequency: 100 - 240V AC, 47/63 Hz
- DC output: 5V and 1A

### Special Features
- Digital Compass, G-Sensor

Note: Specifications are subject to change without prior notice.

## A.2 Regulatory Notices

### Regulatory Agency Identifications

For regulatory identification purposes, this product is assigned a model number of **SAPP100**.

To ensure continued reliable and safe operation of this product, use only the accessories listed below with your **SAPP100**.

The Battery Pack has been assigned a model number of **SAPP160**.

Note: This product is intended for use with a certified Class 2 Limited Power Source, rated 5 Volts DC, maximum 1 Amp power supply unit.

### European Union Notice

Compliance with these directives implies conformity to the following European Norms (in parentheses are the equivalent international standards).

- **EN 60950-1 (IEC 60950-1)**
  Safety of Information Technology Equipment.

- **ETSI EN 300 328**
  Electromagnetic compatibility and Radio spectrum Matters (ERM); Wideband Transmission systems; data transmission equipment operating in the 2.4 GHz ISM band and using spread spectrum modulation techniques.

- **EN 300 440-2 V1.1.2**
  Electromagnetic compatibility and Radio spectrum Matters (ERM); Short range devices; Radio equipment to be used in the 1 GHz to 40 GHz frequency range; Part 2: Harmonized EN under Article 3(2) of the R&TTE Directive.

- **EN 301 489-24**
  Electromagnetic compatibility and Radio spectrum Matters (ERM); Electromagnetic Compatibility (EMC) standard for radio equipment and services; Part 24: Specific conditions for IMT-2000 CDMA direct spread (UTRA) for mobile and portable (UE) radio and ancillary equipment.

- **ETSI EN 301 511**
  Global system for mobile communications (GSM); Harmonized EN for mobile stations in the GSM 900 and GSM 1800 bands, covering essential requirements of article 3.2 of the R&TTE directive (1995/5/EC).

- **ETSI EN 301 489-1**
  Electromagnetic compatibility and Radio spectrum Matters (ERM); Electromagnetic Compatibility (EMC) standard for radio equipment and services; Part 1: Common technical requirements.
• **ETSI EN 301 489-7**
  Electromagnetic compatibility and Radio spectrum Matters (ERM); Electromagnetic Compatibility (EMC) standard for radio equipment and services; Part 7: Specific conditions for mobile and portable radio and ancillary equipment of digital cellular radio telecommunications systems (GSM and DCS).

• **ETSI EN 301 489-17**
  Electromagnetic compatibility and Radio spectrum Matters (ERM); Electromagnetic Compatibility (EMC) standard for radio equipment and services; Part 17: Specific conditions for 2.4 GHz wideband transmission systems.

• **ETSI EN 301 908-1 & -2**

• **EN 62209-1**
  Human exposure to radio frequency fields from hand-held and body-mounted wireless communication devices - Human models, instrumentation, and procedures -- Part 1: Procedure to determine the specific absorption rate (SAR) for hand-held devices used in close proximity to the ear (frequency range of 300 MHz to 3GHz).

• **EN 50392**
  Generic standard to demonstrate the compliance of low power electronic and electrical apparatus with the basic restrictions related to human exposure to electromagnetic fields (10 MHz - 300 GHz) - General public.
- **EN 301 489-3**

  Electromagnetic compatibility and Radio spectrum Matters (ERM); ElectroMagnetic Compatibility (EMC) standard for radio equipment and services; Part 3: Specific conditions for Short-Range Devices (SRD) operating on frequencies between 9 kHz and 40 GHz.

- **EN 50360**

  Product standard to demonstrate the compliance of mobile phones with the basic restrictions related to human exposure to electromagnetic fields (300 MHz – 3 GHz).

This equipment may be operated in:

```
AT  BE  BG  CH  CY  CZ  DE  DK
EE  ES  FI  FR  GB  GR  HU  IE
IT  IS  LI  LT  LU  LV  MT  NL
NO  PL  PT  RO  SE  SI  SK  TR
```

**Safety Precautions for Radio Frequency Exposure**

Use only original manufacturer-approved accessories, or accessories that do not contain any metal.

Use of non-original manufacturer-approved accessories may violate your local Radio Frequency exposure guidelines and should be avoided.
Exposure to Radio Frequency (RF) Signals

Your phone contains a radio transmitter and receiver. The radiated output power is far below the international radio frequency exposure limits. These limits are part of comprehensive guidelines and establish permitted levels of Radio Frequency energy for the general population. The guidelines are based on the safety standards previously set by international standards bodies:

- American National Standards Institute (ANSI) IEEE. C95.1-1992
- International Commission on Non-Ionizing Radiation Protection (ICNIRP) 1996
- Ministry of Health (Canada), Safety Code 6. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The standard incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in usage.

As with other mobile radio transmitting equipment, users are advised that for satisfactory operation of the equipment and for the safety of personnel, it is recommended that no part of the human body be allowed to come too close to the antenna during operation of the equipment.

Your phone has an internal antenna. Use only the supplied integral antenna. Use of unauthorized or modified antennas may impair call quality and damage your phone, causing loss of performance and SAR levels exceeding the recommended limits as well as result in non-compliance with local regulatory requirements in your country.

To assure optimal phone performance and ensure human exposure to Radio Frequency energy is within the guidelines set forth in the relevant standards; always use your phone only in its normal-use position. Do not touch or hold the antenna area unnecessarily when placing or receiving a phone call. Contact with
the antenna area may impair call quality and cause your phone to operate at a higher power level than needed. Avoiding contact with the antenna area when your phone is IN USE optimizes the antenna performance and the battery life. Body-worn measurements were tested for typical body-worn operations with the back of your phone kept 1.5 cm from the body.

**SAR Information**

0.954 W/kg @ 10g (Head)
1.870 W/kg @ 10g (Body)

**Telecommunications & Internet Association (TIA)**

**Safety Information**

**Pacemakers**
The Health Industry Manufacturers Association recommends that a minimum separation of six inches be maintained between a handheld wireless phone and a pacemaker to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research by and recommendations of Wireless Technology Research. Persons with pacemakers:

- Should ALWAYS keep your phone more than six inches from their pacemaker when your phone is turned **on**.
- Should not carry your phone in a breast pocket.
- Should use the ear opposite the pacemaker to minimize the potential for interference. If you have any reason to suspect that interference is taking place, turn your phone **off** immediately.

**Hearing Aids**
Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you may want to consult your wireless service provider, or call the customer service line to discuss alternatives.
**Other Medical Devices**

If you use any other personal medical device, consult the manufacturer of your phone to determine if they are adequately shielded from external Radio Frequency energy. Your physician may be able to assist you in obtaining this information.

Turn the phone off in health care facilities when any regulations posted in these areas instruct you to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external Radio Frequency energy.

**WEEE Notice**

The Directive on Waste Electrical and Electronic Equipment (WEEE), which entered into force as European law on 13th February 2003, resulted in a major change in the treatment of electrical equipment at end-of-life.

The purpose of this Directive is, as a first priority, the prevention of WEEE, and in addition, to promote the reuse, recycling and other forms of recovery of such wastes so as to reduce disposal.

The WEEE logo (shown at the left) on the product or on its box indicates that this product must not be disposed of or dumped with your other household waste. You are liable to dispose of all your electronic or electrical waste equipment by relocating over to the specified collection point for recycling of such hazardous waste. Isolated collection and proper recovery of your electronic and electrical waste equipment at the time of disposal will allow us to help conserving natural resources. Moreover, proper recycling of the electronic and electrical waste equipment will ensure safety of human health and environment. For more information about electronic and electrical waste equipment disposal, recovery, and collection points, please contact your local city centre, household waste disposal service, shop from where you purchased the equipment, or manufacturer of the equipment.
