Email

Check and send email messages right from your phone.

Mail/Gmail

If you signed into your Google Account when you first set up your phone, you'll be able to send and receive Gmail/Google Mail messages. From the Home screen, just tap Email.

If you don't see this screen, press MENU, and then tap Accounts & sync > Add account > Google > Gmail/Google Mail.

Adding your other email accounts

You can add your webmail and other POP3 or IMAP email accounts.

1. From the Home screen, tap Mail.
2. If you have several email accounts, choose the email account.
3. On the email account Inbox, tap More > Settings > New account > Other (POP3/IMAP)
4. Enter the Email address and Password for your email account.
5. Enter the subject, and then enter your message.
6. Tap Send.

Unified inbox for all your email accounts

You can either set up all your email accounts at once, or you can set them up individually. To find out more, see the complete user guide.

Sending an email message

1. Press Home, then tap Mail.
2. If you have several email accounts, choose the account you want to use.
3. Tap Compose mail.
4. Tap To, and then enter all the email addresses of the people you want to send your email to, separating them with a comma.
5. Tap Cc/Bcc if you're sending the email to other people who will not be the final recipients.
6. Tap Subject, and then enter a subject for your email.
7. Tap Body, and then enter your message.
8. Tap Send.

Get HTC Sync

You can use the HTC Sync software to sync contacts, calendars, and pictures between your phone and your computer. Easy HTC Sync has been removed from phones that came with your phone and is in your computer.

1. Connect your phone to your computer using the USB cable that came with your phone.
2. When the Connect to PC screen appears, tap HTC Sync in the notification panel.
3. If you don't see this screen, press HOME, then tap Apps, and then tap HTC Sync.
4. Tap Open sync manager, and then tap OK.
5. If prompted, tap Yes, and then tap OK.
6. Tap Next.
7. Tap Connect to PC, then tap Connect.

HTC Sense.com

With HTC Sense.com, you get to personalize your phone to look and sound the way you want it. And stay closer to important people in your life.

HTC Sense now extends to online. Should you ever lose your phone, you can find your phone right from your computer, and have it ring, lock it, or wipe its contents. At home or in a different country.

Tell us if you'd like to use HTC Sense.com, see the complete user guide.

4. Tap All accounts, and then tap All accounts.

Upgrading services

If you need turn-by-turn GPS navigation and safety information, you can purchase them as add-on services.

1. Press Home, then tap Locations.
2. Press MENU, and then tap Upgrade.

HTC Desire HD Quick guide

HTC Sense now extends to online. Should you ever lose your phone, you can find your phone right from your computer, and have it ring, lock it, or wipe its contents. At home or in a different country.

To find out more about how to use Locations, see the complete user guide.

Locations

Locations is your perfect travel companion, whether you’re going places or finding places. Going places is easier. Find a map and other information about places you want to go to. Search for nearby places of interest, and get directions to where you bought your phone.

1. Press HOME, then tap Locations.
2. Press MENU, and then tap Upgrade.
3. Tap to the tab of the service, and then tap what you want to purchase.

Maps for free

Before you travel to other countries, you can download more country maps to your phone for free. Then, you'll need to use your data connection when you're in the country, but you won’t have to pay data roaming fees.

For free. Then you won't need to worry about extra charges. You can more comfortably type, view, and search your text conversations. Going places is also easier. Find a map and other information about places you want to go to. Search for nearby places of interest, and get directions to where you bought your phone.

Your phone already comes with a map installed. What map you'll have depends on the country you bought your phone in. Your phone comes with Maps for free. Then you won't need to worry about extra charges. You can more comfortably type, view, and search your text conversations. Going places is also easier.

Get to know your phone

Before you do anything else, please read this

Before you do anything else, please read this

- Charge the battery
  - Your phone is charged when the battery icon is green. When the battery icon is amber, your phone is charging. When the battery icon is red, your phone is out of battery power and it must be charged. Turn the phone off before connecting it to a power source.
- Set up everything before you press the POWER button

To get your phone ready for use, follow these steps:

1. **Insert your SIM card and storage card**
   - Ensure that your SIM card and storage card are properly inserted. The SIM card should be inserted in the right slot, and the storage card should be inserted in the left slot.

2. **Inserting your SIM card and storage card**
   - Use a SIM card removal tool to remove the SIM card from the slot. Carefully insert the SIM card into the slot, making sure it is seated securely.

3. **Charge the battery**
   - Use the micro-USB cable and power adapter provided to charge your phone.

To set up everything before you press the POWER button:

1. **Remove the phone from the box**
   - Take the phone out of its packaging and remove any accessories that were included.

2. **Get everything in order**
   - Remove any pre-installed applications or data that you do not want to keep.

3. **Set up your phone**
   - When you turn on your phone for the first time, follow the onscreen instructions to set up your phone.

4. **Keep in contact**
   - Set up your phone's network settings to connect to the internet.
