1 Read Before Proceeding

1.1 Safety Precautions

Please read the safety precautions carefully to ensure the correct use of your mobile phone.

- Do not crash, throw, or puncture your mobile phone. Avoid the falling, squeezing, and bending of your mobile phone.

- Do not use your mobile phone in a moist environment, such as the bathroom. Prevent your mobile phone from being soaked or washed in liquid.

- Do not switch on your mobile phone when it is prohibited to use phones or when the phone may cause interference or danger.

- Do not use your mobile phone while driving.

- Follow any rules or regulations in hospitals and health care facilities. Switch off your mobile phone near medical apparatus.

- Switch off your mobile phone in aircraft. The phone may cause interference to control equipment of the aircraft.

- Switch off your mobile phone near high-precision electronic devices. The phone may affect the performance of these devices.

- Do not attempt to disassemble your mobile phone or its accessories. Only qualified personnel are allowed to service or repair the phone.
1.2 Personal Information and Data Security

The use of some functions or third-party applications on your device could result in your personal information and data being lost or becoming accessible to others. Several measures are recommended to help you protect personal and confidential information.

• Place your device in a safe area to prevent it from unauthorized use.
• Set your device screen to lock and create a password or unlock pattern to open it.
• Periodically back up personal information kept on your memory card, or stored in your device memory. If you change to a different device, be sure to move or delete any personal information on your old device.

• If you are worried about viruses when you receive messages or emails from a stranger, you can delete them without opening them.

• If you use your device to browse the Internet, avoid websites that might pose a security risk to avoid theft of your personal information.

• If you use services such as Bluetooth, set passwords for these services to prevent unauthorized access. When these services are not in use, turn them off.

• Install or upgrade device security software and regularly scan for viruses.

• Be sure to obtain third-party applications from a legitimate source. Downloaded third-party applications should be scanned for viruses.

• Install security software or patches released by Huawei or third-party application providers.

• Some applications require and transmit location information. As a result, a third-party may be able to share your location information.

• Your device may provide detection and diagnostic information to third-party application providers. Third party vendors use this information to improve their products and services.

• If you have concerns about the security of your personal information and data, please contact mobile@huawei.com.

No part of this document may be reproduced or transmitted in any form or by any means without prior written consent of Huawei Technologies Co., Ltd. The product described in this manual may include copyrighted software of Huawei Technologies Co., Ltd. and possible licensors. Customers shall not in any manner reproduce, distribute, modify, decompile, disassemble, decrypt, extract, reverse engineer, lease, assign, or sublicense the said software, unless such restrictions are prohibited by applicable laws or such actions are approved by respective copyright holders.
Trademarks and Permissions

, and Huawei are trademarks or registered trademarks of Huawei Technologies Co., Ltd.
Android is a trademark of Google Inc.
Other trademarks, product, service and company names mentioned are the property of their respective owners.

Notice

Some features of the product and its accessories described herein rely on the software installed, capacities and settings of local network, and therefore may not be activated or may be limited by local network operators or network service providers. Thus the descriptions herein may not match exactly the product or its accessories you purchase.
Huawei Technologies Co., Ltd. reserves the right to change or modify any information or specifications contained in this manual without prior notice and without any liability.

Third-Party Software Statement

Huawei Technologies Co., Ltd. does not own the intellectual property of the third-party software and applications that are delivered with this product. Therefore, Huawei Technologies Co., Ltd. will not provide any warranty of any kind for these third-party software and applications. Neither will Huawei Technologies Co., Ltd. provide support to customers who use these third-party software and applications, nor be responsible or liable for the functions of these third-party software and applications.
Third-party software and applications services may be interrupted or terminated at any time. Huawei Technologies Co., Ltd. does not guarantee that any content or service would be maintained for any period during its availability. Third-party service providers provide content and services through network or transmission tools outside of the control of Huawei Technologies Co., Ltd. To the greatest extent permitted by applicable law, it is explicitly stated that Huawei Technologies Co., Ltd. shall not compensate or be liable for services provided by third-party service providers, or the interruption or termination of third-party contents or services.
Huawei Technologies Co., Ltd. shall not be responsible for the legality, quality, or any other aspects of any software installed on this product, or for any uploaded or downloaded third-party works, such as texts, images, videos, or software. Customers shall bear the risk for any and all effects, including
incompatibility between the software and this product, which result from installing software or uploading or downloading the third-party works. This product uses the open-source Android™ platform. Huawei Technologies Co., Ltd. has made necessary changes to the platform. Therefore, this product may not support all the functions that are supported by the standard Android platform or may be incompatible with third-party software. Huawei Technologies Co., Ltd. shall not be liable for any of such situation.

**DISCLAIMER OF WARRANTIES**

THE CONTENTS OF THIS MANUAL ARE PROVIDED “AS IS”. EXCEPT AS REQUIRED BY APPLICABLE LAWS, NO WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE MADE IN RELATION TO THE ACCURACY, RELIABILITY OR CONTENTS OF THIS MANUAL.

**LIMITATIONS OF LIABILITY**

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL HUAWEI TECHNOLOGIES CO., LTD. BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, OR CONSEQUENTIAL DAMAGES, OR LOST PROFITS, BUSINESS, REVENUE, DATA, GOODWILL OR ANTICIPATED SAVINGS.

THE MAXIMUM LIABILITY (THIS LIMITATION SHALL NOT APPLY TO LIABILITY FOR PERSONAL INJURY TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH A LIMITATION) OF HUAWEI TECHNOLOGIES CO., LTD. ARISING FROM THE USE OF THE PRODUCT DESCRIBED IN THIS DOCUMENT SHALL BE LIMITED TO THE AMOUNT PAID BY CUSTOMERS FOR THE PURCHASE OF THIS PRODUCT.

**Import and Export Regulations**

Customers shall comply with all applicable export or import laws and regulations and be responsible to obtain all necessary governmental permits and licenses in order to export, re-export or import the product mentioned in this manual including the software and technical data therein.
2 Getting Started

2.1 Appearance

2.1.1 Phone at a Glance

⚠️ All the pictures in this guide are for your reference only. Your phone’s actual display features may be different to those described here, depending on its software version.

2.1.2  Key Functions at Your Fingertips

- Press and hold to power on your mobile phone.
- Press and hold to open the **Phone options** menu.
- Press to lock the screen when your mobile phone is active.
- Touch to return to the previous screen or exit the application you are running.
- Touch to hide the keyboard.
- Touch to open the menu on an active screen.
- Touch to return to the Home screen.
- Touch and hold to show the most recently used applications.
- Touch to search your mobile or the web using Google.
2.2 Setting Up Your Mobile Phone

2.2.1 Installing the Battery and the microSD™ Card

1. Remove the battery cover
2. Install the battery
3. Insert the microSD card
4. Install the battery cover

2.2.2 Charging the Battery

Before charging the battery, ensure that it has been properly installed on your phone.

1. Connect the USB cable that came with your mobile phone to the charger.
2. Connect the other end of the USB cable to your mobile phone. Then, to start charging, plug the charger into an electrical outlet.
If you charge your mobile phone while it is powered on, the battery icon on the notification bar indicates the charging status. When the battery icon changes to 🍃, your mobile phone is fully charged.

### 2.2.3 Important Information About the Battery

- If the battery has not been used for a long time, you may not be able to power on your mobile phone immediately after you begin charging the battery. Allow the battery to charge for a few minutes with the phone powered off before attempting to power the phone on.

- As it ages, the battery’s performance will degrade, in particular it will not hold charge as it did when it was new. When the battery life becomes noticeably shorter than usual after being charged properly, replace the battery with a new one of the same type.

- Using data services increases the power consumption of the phone and will therefore reduce the length of time that the phone can be used between battery charges.

- The time required to fully charge the battery depends on the ambient temperature and the age of the battery.

- When the battery power is low, the phone will alert you and display a message. When the battery power is almost exhausted, your phone will power off automatically.

### 2.2.4 Power Saving Tips

The longevity of battery power depends on the network to which you connect, and how you use your mobile phone.

Try the following to conserve battery power:

- When your mobile phone is not in use, turn off the screen backlight.

- Reduce the time it takes for your screen backlight to turn off when your phone is idle.

- Lower the screen brightness.

- Turn off Bluetooth when you are not using it. Only make your phone visible to other Bluetooth devices when you need to establish a Bluetooth connection.

- Turn off Wi-Fi when you are not using it.

- Turn off your phone’s GPS receiver when you are not using it.
• Lower the volume.
• Close power-draining programs, when you do not need them.
• Turn off the data service.

2.3 Power On or Off Your Mobile Phone

2.3.1 Powering On Your Mobile Phone
Press and hold \( \) . The first time you power on your phone, you will be asked to sign in to your account and set up your mobile phone.

2.3.2 Setting Up Your Mobile Phone
The first time you power on your mobile phone, the phone displays a setup wizard to help you set up the phone.
The setup wizard helps you:
• Create or sign in to your account.
• Make some initial decisions about how you want to use your mobile phone.

2.3.3 Powering Off Your Mobile Phone
1. Press and hold \( \) to open the Phone options menu.
2. Touch Power off.
3. Touch OK.

2.4 Using the Touchscreen

2.4.1 Touchscreen Actions
• Touch: Tap the screen with your finger to select an item, confirm a selection, or start an application.
• Touch and hold: Touch an item with your finger and do not release it until the mobile phone responds. For example, to open the options menu for the active screen, touch and hold the screen until the menu appears.
• Flick: Move your finger either vertically or horizontally across the screen.
• **Drag**: Touch and hold the desired item with your finger. To move an item, drag the item to any part of the screen. You can drag an icon to move or delete it.

### 2.4.2 Rotating Your Mobile Phone Screen

The orientation of most screens will change to landscape or portrait view when you rotate your phone sideways.

♂ On the Home screen, touch 📲 > **Settings** > **Display** > **Auto-rotate screen** to disable this function.

### 2.5 Locking and Unlocking the Screen

#### 2.5.1 Locking the Screen

- When your phone is on, press 🅌 to lock the screen. When the screen is locked, you can still receive messages and calls.
- If your phone is idle for a while, the screen will lock automatically.

#### 2.5.2 Unlocking the Screen

1. Press 🐤 to wake up the screen.
2. Drag the lock icon from left to right to unlock the screen.

⚠️ If you have set up a screen unlock pattern, you will be prompted to draw the pattern on the screen to unlock it.

### 2.6.2 Notification Panel

Your mobile phone will notify you when you receive a new message or there is an upcoming event. The notification panel also informs you of alarms and settings. Open the notification panel to see your network operator or to view a message, reminder, or event notification.
**Opening the Notification Panel**

1. When a new notification icon appears on the notification bar, place your finger on the notification bar and flick down to open the notification panel.

2. On the panel, you can:
   - Touch a notification to open the related application.
   - Touch **Clear** to clear all notifications.

**Closing the Notification Panel**

Touch and hold the bottom of the panel. Then flick up to close it.

---

### 2.6.3 Viewing Other Parts of the Home Screen

Flick your finger left or right across the Home screen.

Touch a thumbnail to open the Home screen or its extensions.

Touch and hold the small dots to view thumbnails of the Home screen and its extensions.

---

### 2.6.4 Customizing the Home Screen

**Adding a New Home Screen Item**

1. Touch and hold a blank area on the Home screen until the **Add to Home screen** menu is displayed.

2. Select an item to add it to the Home screen.

**Moving a Home Screen Item**

1. Touch and hold an item on the Home screen until the item expands in size and the mobile phone vibrates.

2. Without lifting your finger, drag the item to the desired position on the screen, and then release it.
Removing a Home Screen Item

1. Touch and hold an item on the Home screen until the item expands and the mobile phone vibrates.
2. Without lifting your finger, drag the item to the trash can. When the item and the trash can turn red, the item is ready to be removed.
3. Release the item to remove it from the Home screen.

2.6.5 Service Shortcuts

1. Open the notification bar.
2. Touch ☑️ at the top of the screen to switch data services on or off.

⚠️ You can also touch ☐️, ☐️, ☐️ or ☐️ to turn the corresponding services on or off.

2.6.6 Changing the Wallpaper

1. On the Home screen, touch ☑️ > Wallpaper.
2. Touch the following menu items to select a picture and set it as the wallpaper:
   • Gallery
   • Live wallpapers
   • Wallpapers

2.7 Using a microSD™ Card

2.7.1 Using the microSD Card as a USB Mass Storage

To transfer all your favorite music and pictures from your PC to your mobile phone’s microSD card, set the microSD card as a USB mass storage.

1. Connect your mobile phone to your PC with the USB cable provided. Your PC will detect the microSD card as a removable storage device.
2. Open the notification bar, and then touch USB connected.
3. Touch Turn on USB storage in the dialog box that opens to confirm that you want to transfer files.

You can now transfer files from your PC to your mobile phone’s microSD card.
When your microSD™ card acts as a USB mass storage, your mobile phone will not use this memory space. Ensure that you follow the correct procedures to disconnect the USB mass storage device (your mobile phone) from the PC when you have finished transferring files.

2.7.2 Removing the microSD Card

2. Scroll down the screen, and then touch Storage > Unmount SD card.
3. Carefully remove the microSD card.

3 Calling

To make a phone call, you can dial a number using the keypad or touch a number saved in your contact list, on a webpage, or in other places. When you are in a call, you can answer other incoming calls or redirect them to your voicemail. You can also set up conference calls with several participants.

3.1 Making a Call

To make a call, you can use the Dialer application, or select a number from Contacts or Call log.

When you are in a call, you can touch 📡 to use other functions. To return to the call screen, flick the notification bar down and touch Current call.

⚠️ Be careful not to block the microphone at the bottom of your phone if you want your voice heard by the other parties in a call.
3.1.1 Making a Call with the Dialer Application

1. On the Home screen, touch 📞 > Dialer to display the dialer.
   
   If you are already working with Contacts or Call log, touch the Dialer tab.

2. Touch the appropriate number keys to enter the phone number.

   Your mobile phone supports the SmartDial function, that is, when you touch numbers on the dialer, the phone automatically searches among your contacts and lists the matching results ordered according to the accuracy of the match. If no contacts match the information entered, the phone will not display any result.

3. Touch 📞 to initiate the call.

   During a call, touch Dialpad to enter other numbers on the dialpad.

3.1.2 Making a Call from Contacts

1. On the Home screen, touch 📞 > Contacts to display the contact list.

   If you are already working with Dialer or Call log, touch the Contacts tab.

2. In the list, touch the contact you want to call.

3. Touch 📞 to dial the phone number.

3.1.3 Making a Call from Call log

1. On the Home screen, touch 📞 > Call log to display the call log.

   If you are already working with Contacts or Dialer, touch the Call log tab.

2. Touch 📞 to the right of the log entry to dial.

   If you touch and hold a log entry, the options menu will open.
3.2 Answering or Rejecting a Call

3.2.1 Answering an Incoming Call

When you receive a phone call, the incoming call screen opens. If you have previously saved the caller’s number in Contacts, the caller’s name and number are displayed. If the caller’s number is not saved in Contacts, the caller’s number is displayed.

Drag 🔄 to the right to answer the call.

3.2.2 Ending a Call

During a call, touch End to hang up.

3.2.3 Rejecting an Incoming Call

Drag 📞 to the left to reject the call.

🔍 You can also drag up the bar at the bottom of the screen to reject a call and send the caller a message.
3.3 Other Operations During a Call

3.3.1 Making a Conference Call
If you receive a new call while you are already in a call, you can add the second call to the call you are in. This feature is known as conference calling. You can also set up a conference call with multiple callers.

⚠️ Contact your network operator to ask if conference calls are supported and, if yes, how many parties can participate.

1. To initiate a conference call, dial the number of the first participant. After you have connected to the first participant, keep the connection open, touch Add call > Add call.
2. Enter the phone number of the next person you want to invite for the conversation and touch ✨, or select someone from your Call log or Contacts. The first participant is automatically placed on hold while you do this.
3. Once you have connected to the second person, touch ☎️ > Merge calls to begin the conference call.
4. To end the conference call and disconnect from everyone, touch End.

3.3.2 Switching Between Calls
If you receive a new call while you are already in a call, you can switch between the two calls.

1. While you are in the first call and the second call comes in, answer the incoming call, and then touch ☎️ > Manage calls.
2. The current call is placed on hold and you are connected to the first call.

3.4 Using the Call log
The Call log contains a list of calls that you have dialed, received, and missed. You can use the call log to find a recently called number quickly or add a number from the call log to your contact list.
3.4.1 Adding an Entry to Contacts

1. If you are already working with Dialer or Contacts, touch the Call log tab.
2. Touch and hold the entry you want to add to your Contacts.
3. Touch Add to contacts in the options menu.
4. Touch Create new contact or scroll through the contact list and touch an existing contact name.

3.5 Using Airplane Mode

Some locations may require you to turn off your phone’s wireless connections. Rather than powering off your phone, you can place it in Airplane mode.

1. Press and hold 📞.
2. Touch Airplane mode in the options menu.

3.6 TTY Operation

3.6.1 Using the TTY Device

The Teletypewriter (TTY) is a typewriting device. By connecting the phone to the TTY device, you can use the TTY functions to send/receive messages. When you use the TTY function, do as follows:

1. Connect the TTY device to the headset jack of the phone and set the phone to the TTY mode.
2. Make or answer calls as normal.
3. When the call is put through, use the TTY device to send or receive the letters.
4. Press the End to end the call.

3.6.2 Setting the TTY Mode

1. Touch ☰ > Settings > Call settings > TTY mode.
2. Select one TTY mode.
   • TTY Off: The standard voice speaking mode and the listening mode.
   • TTY Full: Transmit and receive the TTY characters.
• **TTY HCO**: Transmit TTY characters but receive by listening to the earpiece.
• **TTY VCO**: Receive TTY characters but transmit by speaking into the microphone.

3.7 Setting Hearing Aid Compatibility

Touch ☰ > **Settings** > **Call settings** > **Hearing aids** to set your phone to be compatible with a hearing aid.

4 Contacts

The **Contacts** application enables you to save and manage information such as phone numbers and addresses of your contacts. After you save contact information on your mobile phone, you have easy access to the people with whom you want to communicate.

4.1 Opening the Contacts Application

If you have not yet added any contacts to your mobile phone, **Contacts** displays a message with hints on how to start adding contacts information.

On the Home screen, touch ☰ > **Contacts** to open the **Contacts** application. All of your contacts are displayed alphabetically in a list that you can scroll through.

4.2 Adding a Contact

1. In the contact list, touch ☰ > **Create contact**.
2. If you have more than one account with contacts, touch the account to which you want to add the contact.
3. Enter the contact’s name, and then add detailed information such as phone number and address.
4. When you are finished, touch **Done** to save the contact information.
4.2.1 Adding a Contact to Your Favorites

• Touch and hold the contact you want to add to **Favorites**. Then touch **Add to Favorites**.

• Touch a contact, and then touch the star to the right of the contact’s name. The star turns gold.

4.3 Indexing Contacts

You can index your **Contacts** to quickly find your desired contact.

1. On the Home screen, touch > **Contacts**.

2. Touch or move any letter in the alphabet to list all contacts starting with the letter.

4.4 Searching for a Contact

1. In the contact list, touch > **Search**.

2. Enter the name of the contact you wish to search for. As you type, contacts with matching names appear below the search box.

   🔄 On the contact list screen, you can touch a letter on the right to display contacts starting with the touched letter.

4.5 Editing a Contact

You can make changes to the information you have stored for a contact at any time.

1. In the contacts list, touch and hold the contact whose details you want to edit, and then touch **Edit contact** in the options menu.

2. Touch the category of contact information you wish to change: name, phone number, email address, or any other information you recorded earlier.

3. Make the desired changes to the contact information, and then touch **Done**. To cancel all of your changes, touch **Cancel**.
4.6 Communicating with Your Contacts

From the Contacts or Favorites tab, you can quickly call or send a text (SMS) or multimedia (MMS) message to a contact’s default phone number. You can also open details to view a list of all the ways you can communicate with that contact. This section describes how to communicate with a contact when you view your contacts list.

4.6.1 Using Quick Contact for Android

1. Touch the contact's picture or picture frame (if you have not assigned a picture to the contact) to open Quick Contact for Android.
2. Touch the icon for the way you want to communicate with the contact.

! The icons available depend on the information you have entered for the contact, the applications installed on your phone, and the accounts you have.

4.6.2 Communicating with a Contact

1. In the contacts list, touch the contact that you want to communicate with.
2. On the contact’s details screen, touch the icon to the right of the number to call or send messages.

4.7 Deleting a Contact

1. In the contacts list, touch and hold the contact that you want to delete, and then touch Delete contact in the options menu.
2. Touch OK to confirm that you want to delete the contact.

4.8 Backing Up and Synchronizing Contacts

You can back up contacts from your phone to a microSD™ card, or synchronize phone contacts with a server using your Google account.
4.8.1 Using a microSD™ Card to Back Up Contacts

**Backing Up Contacts**

1. In the contact list, touch \( \text{.manage contacts} \).  
2. Touch **Backup to SD card** in the displayed menu.  
3. Touch **OK** to export your phone contact's information to the installed microSD card.  

You can copy the .vcf files backed up on the microSD card to your computer. The files are stored in the microSD card's **Contact** folder.

**Restoring Contacts**

1. In the contact list, touch \( \text{manage contacts} \).  
2. Touch **Restore from SD card** in the displayed menu.  

If there is more than one .vcf files saved on the microSD card, you can choose to restore one, multiple, or all the of them.

4.8.2 Using a Google Account to Synchronize Contacts

You can synchronize contacts using your Google account. For details, see **Changing an Account’s Synchronization Settings**.

4.9 Managing Groups

4.9.1 Creating a Group

1. On the Home screen, touch \( \text{contacts} \). Then flick the tab bar to the left and touch **Groups**.  
2. In the groups list, touch \( \text{groups} \), and then touch **Create group**.  
3. Enter the name and picture you want to assign to the group, and then set a ringtone for it.  
4. Touch \( \text{add members} \) to add members to the group.  
5. Select the contacts to be added to the group, and then touch **OK**.  
6. When you are finished, touch **Done** to save the group information.
4.9.2 Editing a Group
You can always make changes to the information you have saved for a group.
1. In the groups list, touch and hold the group whose details you want to edit, and then touch Edit group in the options menu.
2. Make the desired changes to the group information, and then touch Done. To cancel all changes you made to the group information, touch Cancel.

4.9.3 Adding a Contact to Your Groups
To add a contact to your groups, you can do any of the following:
• Touch and hold the contact you want to add to Groups. Then touch Add to groups.
• When editing a group, touch , and then touch Add Members to select the contacts you want to add to group.

4.10 Joining and Separating Contacts
You may have duplicate contacts if you import contacts by:
• Adding an account, such as a Gmail account.
• Using the social networking services such as Facebook or Twitter.
• Using other methods, such as exchanging emails.
To avoid duplication, join two or more contacts together to form a single contact.

⚠️ Availability of Facebook or Twitter may vary depending on your country or carrier. Please use them according to local laws and regulations.

4.10.1 Joining Contacts
1. On the Home screen, touch > Contacts.
2. Touch a duplicated contact.
3. Touch Joined Contacts, and then touch Add contact.
4. Select the contact to be joined to combine two duplicate contacts. Two contacts will be joined together and displayed as one contact. Touch the contact to view the joined information. You can see that the contact is joined together by two contacts. You can also combine more than two contacts.
4.10.2 Separating Contacts
If contact information from different sources was joined together in error, you can separate the contacts.

1. On the Home screen, touch 📞 > Contacts.
2. Touch the joint contact to be separated.
3. Touch the option for separating a contact.
4. Select the contact to be separated from the joint contact.
The joint contact is then separated into two contacts displayed separately in Contacts.

4.11 Sending Contacts
You can send contacts as a .vcf file via Bluetooth or Email.

1. In the contacts list, touch 📞.
2. Select contacts that you want to send.
3. Touch Send.
4. Select the way you prefer to send the contacts you have selected, for example Bluetooth or Email.

ℹ️ You can send one contact by another way. Touch and hold a contact, touch Send contact, and then select the way you prefer to send.
5 Using the Onscreen Keyboard

5.1 Displaying the Keyboard
To enter text, use the onscreen keyboard. Some applications open the keyboard automatically. In others, touch a text field to open the keyboard. Touch ☢ to hide the keyboard.

Touch and hold a text field to open the Edit text menu.

5.1.1 Choosing an Input Method
1. Touch and hold a text field until the Edit text menu is displayed.
2. Touch Input method.
3. Select the input method.

5.1.2 Using the Android Keyboard

The keyboard layout may vary slightly depending on the field where you are entering text. The previous figure is provided for your reference only.

On the Home screen, touch 📱 > Settings > Language & keyboard > Android keyboard > Voice input to turn on or turn off voice input.
5.1.3 Using the Swype Keyboard

The keyboard layout may vary slightly depending on the field where you are entering text. The previous figure is provided for your reference only.

Touch once to capitalize the next letter you type.
Touch twice for all caps.
Touch and hold to get helpful tips.
Touch to get swype functions.
Touch to change from text mode to symbol/number mode.
Touch to delete a character to the left of the cursor.
Touch and hold to delete all characters to the left of the cursor.
Touch to insert a space.

To enter a word, just drag your finger over the letters in the word.

I’ll
To capitalize, go above the keypad.
To enter apostrophes in common words drag through the ‘n’.
To enter double letters, circle the letter.

The keyboard layout may vary slightly depending on the field where you are entering text. The previous figure is provided for your reference only.

5.1.4 Using the Landscape Keyboard

If you find the keyboard inconvenient or difficult to use, turn your mobile phone sideways. The screen will display the keyboard in landscape orientation, providing you with a wider keyboard layout.
5.2 Customizing Keyboard Settings

2. In Keyboard settings, select an input method to customize the keyboard settings.

6 Messaging

The Messaging application allows you to exchange text messages (SMS) and multimedia messages (MMS) with anyone using an SMS-or-MMS-capable phone. With the Email application you can read and send emails.

6.1 SMS and MMS

6.1.1 Opening Messaging

Touch ➡ Messaging.

6.1.2 Creating and Sending a Text Message

1. Touch ➡ Messaging ➤ New message.
2. Enter a phone number or a contact's name in the To field, or touch ✉️ to select a contact from Contacts or Groups.

   As you enter the phone number or the contact's name, the phone displays possible matches from your contacts. Select a contact from the list of possible matches or continue entering.

   After you select a contact or finish entering a number, add a comma and you can enter another recipient. You can also touch a previously entered contact again to edit or delete it.

3. Touch the composition text box to start entering your message.

   ❋ While writing a message, you can touch ➡ Insert contact to insert contact information.

4. When you are ready to send the message, touch Send.

Sent and received messages will be displayed in a message thread, grouping together the messages in a conversation.
6.1.3 Creating and Sending a Multimedia Message

You can use multimedia messages to make everyday communications very special. You can record a message and send it as an audio file, sing 'Happy Birthday' and send it to friend, or send a slideshow of photographs of a special event. The possibilities are endless.

1. Touch 📱 > Messaging > New message.
2. Enter a phone number in the To field, or touch 📞 to select a contact from Contacts or Groups.
3. Touch the composition text box to start entering your message.
   - If you want to enter a smiley, touch 😊, and then touch Insert smiley.
4. Touch 📏 > Attach to add a picture, music, or video file.
5. When the message is ready to be sent, touch Send MMS.
   - On the message editing screen, you can also touch 📝, and then select your desired files to add.
   - You can select a media file (music, video or picture) and send it as an attachment in a multimedia message. In File Manager, touch and hold a media file, and then touch Share > Messaging.

Adding a Slideshow
If you want to attach more than one file to your message, use the Slideshow option.

1. On the message editing screen, touch ☰ to display the options panel.
2. Touch Attach > Slideshow, and then select a slide to start editing it.
3. Touch ☰ and then touch More > Add slide to add more slides.
4. Touch Done to finish composing your message and return to the multimedia message screen.
5. To alter your multimedia message, touch the slideshow on the multimedia message screen. When the message is ready to be sent, touch Send.
6.1.4 Opening and Viewing a Multimedia Message
1. In the message list, touch the message thread you wish to view.
2. Touch the multimedia message to view the message.

6.1.5 Replying to a Message
1. In the message list, touch a text or multimedia message thread to open it.
2. Touch the text box to compose your message. Once finished, touch Send.

You can also do the following to reply to a message: Touch ☐️ > Multiselect, select one or more message threads, and touch Reply.

6.1.6 Copying a Text Message to Calendar
1. In the message list, touch a text message thread to open it.
2. Touch and hold one of the messages, and then touch Copy message to.
3. Touch Calendar to save it as an event.
For information about how to use Calendar, see the relevant sections of this guide.

6.1.7 Customizing Message Settings
In the message list, touch ☐️, and then touch Settings to customize the message settings.

6.2 Email
Your mobile phone also puts email at your fingertips. With your phone’s Email application, you can use your email account with Yahoo!, AOL, or other popular email services on your phone.

6.2.1 Adding an Email Account
When using the Email application for the first time, you must configure an email account. The Email setup wizard helps you to configure your account. A number of popular email systems are supported. You can work with the same email service that you use on your PC or you can select another email service.
1. On the Home screen, touch ☐️ > Email.
2. To customize your email settings, follow the onscreen instructions, and then touch **Next**.

3. Enter the account name and the name you want other people to see when they receive an email from you.

4. Touch **Done**.

**Adding Other Email Accounts**

1. After creating your initial email account, touch ☐ on the **Inbox** screen, and then touch **Accounts** to access the accounts screen.

2. Touch ☐ on the accounts screen, and then touch **Add account** to create another email account.

When adding an additional email account, you have the option to use the new account to send all outgoing messages.

**6.2.2 Viewing an Email Message**

1. On the accounts screen, touch the email account you want to use.

2. Access a folder, and then touch the message that you want to view.

**6.2.3 Creating and Sending an Email Message**

1. On the accounts screen, touch the email account you want to use.

2. On the **Inbox** screen, touch ☐, and then touch **Compose** in the options panel.

3. In the **To** field, enter the recipients’ name or email address.

4. Enter the subject of your message and compose the message.

   To send an attachment with the message, touch ☐, and then touch **Add attachment**.

5. When you are finished, touch **Send**.

   If you are not ready to send the message, touch **Save as draft** or touch ☐ to save the message as a draft.
6.2.4 Replying to an Email Message
1. On the accounts screen, touch the email account you want to use.
2. Touch the email message to which you want to reply.
3. Touch **Reply** or **Reply all** to reply to the email message.

6.2.5 Saving an Email Attachment
1. On the accounts screen, touch the email account you want to use.
2. Touch the email message you want to view.
3. Touch **Save** next to the attachment in the email.
4. Select a path for saving the attachment and touch **Save**.

6.2.6 Deleting an Email Account
1. On the accounts screen, touch and hold the email account you want to delete.
2. Touch **Remove account**.
3. Touch **OK**.

6.2.7 Changing Email Account Settings
You can change a number of account settings, including how often you check for emails, how you are notified of a new mail, and details about the servers the account uses to send and receive mails.

⚠️ Your account’s incoming and outgoing settings depend on the kind of email service you are using. You can enter the necessary details manually, although you may need to contact your email service provider to obtain the correct information.

1. Touch **>`Email`.
2. On the accounts screen, touch and hold the email account you want to change.
3. Touch **Account settings**.
4. Change **General settings**, **Notification settings**, or **Server settings**.

33
7 Getting Connected

7.1 Turning on the Data Service

1. Touch  > Settings.
3. Select the Data enabled check box to turn on the data connection.

7.2 Wi-Fi

Wi-Fi gives you wireless access to broadband Internet. To use Wi-Fi on your mobile phone, you must have access to wireless access points (hotspots). Obstacles that block the Wi-Fi signal will reduce its strength.

7.2.1 Turning On Wi-Fi

1. Touch  > Settings.
2. Touch Wireless & networks, and then select the Wi-Fi check box to turn on Wi-Fi.

7.2.2 Connecting to a Wireless Network

1. After turning on Wi-Fi, touch  > Settings.
2. Touch Wireless & networks > Wi-Fi settings. You will see a list of detected Wi-Fi networks in the Wi-Fi networks section.
3. Touch a Wi-Fi network to connect to it.
   - If you select an open network, you will be automatically connected to the network.
   - If you select a network that is secured with Wired Equivalent Privacy (WEP) and connect to it for the first time, enter the password as prompted, and then touch Connect. If you connect to a secured wireless network that you have already used, you will not be prompted to enter the password again unless you have reset your mobile phone to its default settings.

On the Wi-Fi settings screen, touch Add Wi-Fi network to add a new Wi-Fi network.
7.3 Browser

Your mobile phone comes with an Internet browser pre-installed.

7.3.1 Opening the Browser

Touch  > Browser to open the home page.

When known or open Wi-Fi networks and mobile data networks are available at the same time, your phone will preferably select a Wi-Fi network for Internet access.

Touch  to open the browser options menu and perform one of the following operations:

• **New window**: Touch to open a new window.
• **Bookmarks**: Touch to display bookmarks.
• **Windows**: Touch to view thumbnails of open browser windows. You can switch to another browser window or open a new one on this screen.
• **Refresh**: Touch to refresh the current webpage.
• **Forward**: Touch to browse the next web page.
• **More**: Touch to open other menus and perform operations such as searching, selecting text, downloading, or setting options.

7.3.2 Opening a Webpage

1. In a browser window, touch the URL field at the top of the screen.
2. Use the keyboard to enter a webpage address. You can touch  to enter the web page address by voice.
3. As you enter the address, matching webpage addresses will appear on the screen. If you see the address you want, touch it and go directly to that webpage or complete entering your desired webpage.

7.3.3 Setting a Home Page

1. In a browser window, touch .
2. Touch More > Settings > Set home page.
3. Enter the address of the desired home page, and then touch OK.
7.3.4 Managing Bookmarks

You can store as many bookmarks as you want on your mobile phone.

Adding a Bookmark

1. In a browser window, go to the webpage you want to save as a bookmark.
2. Touch 
   , and then touch Bookmarks > Add.
3. Edit the bookmark name and then touch OK.

Opening a Bookmark

1. In a browser window, touch 
   , and then touch Bookmarks.
   On the Bookmarks screen, touch the History tab to view the pages you have visited, or touch the Most visited tab to view the pages you have visited most frequently.
2. Touch the bookmark of the website you want to open.

7.3.5 Customizing Browser Settings

Customize the browser to suit your browsing style. Use Browser to set page content, privacy, and security preferences. In a browser window, touch 
   , and then touch More > Settings.

7.4 Bluetooth™

Your mobile phone has Bluetooth, which allows you to create a wireless connection with other Bluetooth devices so you can share files with your friends, talk hands-free with a Bluetooth headset, or even transfer photos from your phone to your PC.

If you are using Bluetooth, remember to stay within 10 meters (33 feet) of the other Bluetooth devices to which you want to connect. Be aware that obstacles like walls or other electronic equipment may interfere with your Bluetooth connection.
7.4.1 Turning On Bluetooth™

1. Touch  > Settings.
2. Touch Wireless & networks, and then select the Bluetooth check box to turn on Bluetooth. When Bluetooth is turned on, the Bluetooth icon appears in the notification bar.
3. Touch Bluetooth settings, and then select the Discoverable to make your mobile phone visible to other Bluetooth devices.

7.4.2 Pairing with and Connecting to a Bluetooth Device

Your mobile Bluetooth lets you do the following:

- Hands Free Profile (HFP): allows you to use a hands-free Bluetooth device.
- Headset Profile (HSP): allows you to use a mono Bluetooth headset.
- Object Push Profile (OPP): allows you to transfer files over a Bluetooth connection.
- Advanced Audio Distribution Profile (A2DP): allows you to use a stereo Bluetooth headset.
- A/V Remote Control Profile (AVRCP): allows you to control audio playing using a Bluetooth headset remotely.

Before you use Bluetooth, pair your mobile phone with another Bluetooth device as follows:

1. Ensure that the Bluetooth function on your mobile phone is enabled.
3. Touch the device you want to pair your mobile phone with.
4. If required, enter the pairing password to complete the connection.

7.4.3 Sending Files via Bluetooth

With Bluetooth, you can share pictures, videos, or music files with your family and friends. To send files via Bluetooth:

1. Touch and hold the file to be sent in your mobile phone or SD card. The active options menu is displayed.
2. Touch Share, then Bluetooth to select a paired device.
7.4.4 Disconnecting from or Unpairing with a Bluetooth™ Device

2. Navigate to the Bluetooth devices section, and then touch and hold the device to which you are connected.
3. Touch Unpair to disconnect from the device.

8 Entertainment

In addition to being a communication device and personal assistant, your mobile phone also provides you with a multitude of entertainment possibilities. You can take photos, create videos and audio clips, and download and listen to music.

8.1 Taking Photos and Recording Videos

The camera is a combination of camera and camcorder that you can use to shoot and share pictures and videos.

8.1.1 Opening Your Camera

• Touch 📱 > Camera to open the camera. The camera opens in landscape mode, ready to take a picture or record a video.
• Touch ◀ to close the camera.
8.1.2 Taking a Photo

1. Open your camera application and switch it to camera mode.
2. If necessary, change the camera settings. The preview changes as you change the settings.
3. Frame your photo within the photo capture screen.
4. Touch ◼️ to take your photo.

Photos taken are displayed for a moment. You can take another photo or review your photos.

8.1.3 Viewing Your Photos

1. After taking a photo, a thumbnail of the photo you have just taken is shown in the upper right corner of the capture screen. Touch the thumbnail to view it.
2. Touch the onscreen button to do any of the following:
   • Touch Share to send the photo in a message or post it online.
   • Touch Delete to delete the photo.
   • Touch More > Set as to set the photo as a contact icon or the wallpaper.
8.1.4 Recording a Video

1. Open the camera application, and then switch it to camcorder mode.
2. If necessary, change the camcorder settings.
3. Frame the scene with which you want to start your video.
4. Touch \( \textcolor{red}{\circ} \) to start recording a video.
5. Touch \( \textcolor{red}{\square} \) to stop recording.

8.1.5 Viewing Your Videos

1. After recording a video, a thumbnail of the video you have just recorded is shown in the upper right corner of the capture screen. Touch the thumbnail to view it.
2. Touch the onscreen buttons to do any of the following:
   - Touch **Share** to send the video in a message or post it online.
   - Touch **Delete** to delete the video.
     On the video playback screen, touch the controls to fast-forward or rewind or to play or pause the video.
3. If you want to view more videos, flick your finger left or right across the screen.

8.2 Using the Gallery

Your **Gallery** application can automatically search for pictures and videos on your mobile phone and microSD™ card. Use **Gallery** to sort photos and videos into folders, view and edit pictures, watch videos, and set a picture as wallpaper or as a photo for a contact.

8.2.1 Opening the Gallery

On the Home screen, touch \( \textcolor{red}{\square} \) > **Gallery**.
The **Gallery** application categorizes your pictures and videos by storage location and displays these files in folders. Touch a folder to view the pictures or videos inside.
8.2.2 Viewing a Picture

1. In Gallery, touch the folder that contains the pictures you want to view.
2. Touch the picture to view it in full-screen mode.
3. Touch the screen. Then the zoom panel appears. You can zoom in or zoom out on the picture.

The picture viewer supports the automatic rotation function. When you rotate your mobile phone, the picture adjusts itself to the rotation.

8.2.3 Rotating a Picture

1. When viewing a picture, touch ☰ to display the operations panel.
2. Touch More.
3. Select either Rotate Left or Rotate Right. The picture is saved with the new orientation.

8.2.4 Cropping a Picture

1. When viewing a picture, touch ☰ to display the operation panel, and then touch More > Crop.
2. Use the cropping tool to select the portion of the picture to crop.
   - Drag from the inside of the cropping tool to move it.
   - Drag an edge of the cropping tool to resize the image.
   - Drag a corner of the cropping tool to resize the image without changing its length to width ratio.
3. Touch Save to save the cropped picture. Touch Discard to discard the changes.

8.3 Enjoying Music

8.3.1 Copying Music to the microSD™ Card

1. Connect the phone to your computer with a USB cable and mount the microSD card.
2. On the PC, navigate to the USB drive and open it.
3. Create a folder in the root directory of the microSD card (for example, **Music**).

4. Copy the music from your computer to the folder you have created.

5. After copying music, unmount or eject the drive as required by your PC’s operating system to safely remove the mobile phone.

6. Disconnect the mobile phone from the PC.

### 8.3.2 Opening the Media Library

Touch   > **Music** to display the media library. The **Music** application organizes your music files by storage location. It contains four tabs: **Artists**, **Albums**, **Songs** and **Playlists**.

### 8.3.3 Playing Music

1. Touch a category on the music library screen.

2. Touch the song you want to play.

💡 When you are listening to music, touch  , to use another application. Your music continues to play. To return to the music controls, open the notification panel and then touch the song.

### 8.3.4 Adding Music to a Playlist

1. Touch a category on the music library screen.

2. In the list that appears, select the song you want to add to the playlist.

3. Touch and hold the song, and then touch **Add to playlist** in the options menu.
   - Touch **Current playlist** to add the song to an existing playlist.
   - Touch **New playlist** to create a playlist and add the song to it.

### 8.3.5 Playing a Playlist

1. Touch the **Playlists** tab on the music library screen.

2. Touch and hold the playlist you want to play.

3. Touch **Play** to play the playlist.
8.4 Listening to the FM Radio

The FM radio lets you listen to FM radio programs on your mobile phone. Since the FM radio uses the provided wired stereo headset as its antenna, before opening the application, connect the headset to your phone’s the audio jack.

8.4.1 Opening the FM Radio

1. On the Home screen, touch ☰ > FM Radio to open the application.

2. The first time you open FM radio, touch Auto tuning, which automatically scans for available FM channels, saves them as presets, and plays the first FM channel found.

8.4.2 Tuning the FM Radio

Open the FM Radio application, and then do the following:

• Touch ☰ > Inching tuning, and then touch ◀ or ▶ to fine tune the frequency. Touch OK when you are satisfied. After tuning, touch ☰ , and then touch Save channel. Enter the channel name and touch OK. Then select an empty channel to save the new channel to the channel list.

• Touch ☰ > Auto tuning to scan automatically for available FM channels.

9 Google™ Services

⚠️ Availability of Google applications, services, and features may vary according to your country or carrier. Please follow local laws and regulations to use them.

When you turn on your mobile phone for the first time, touch a Google services such as Talk, Gmail™, or Market, and you will be prompted to sign in to your Google account.

⚠️ Ensure that your mobile phone has an active data connection (3G) before you sign in to your Google account.

If you already have a Google account, touch Sign in and enter your username and password.
9.1 Creating a Google™ Account

If you do not have a Google account, you can create one:

1. After reading the setup information, touch **Next**.
2. Touch **Create**.
3. Enter the first name, last name, and username for your Google account, and then touch **Next**. The mobile phone will connect to a Google server to check whether the username is available. If the username you entered is already in use, you will be prompted to choose another one or select one from a list.
4. Enter and confirm your Google account password.
5. Select a security question from the drop-down menu, and then enter the answer.
6. Touch **Create**.
7. When the **Google Terms of Service** screen appears, touch **I agree, Next**.
8. Enter the characters that appear on the screen, and then touch **Next**.

To use another Google account, go to the **Accounts & sync settings** screen, and touch **Add account** to select which type of accounts you want to add.

9.2 Gmail™

**Gmail** is Google’s web-based email service. When you first set up your phone, you may have configured it to use an existing **Gmail** account or create a new account. The first time you open the **Gmail** application on your phone, your **Inbox** will contain the messages from your **Gmail** web account.

9.2.1 Opening Gmail

On the Home screen, touch  > **Gmail**. The **Inbox** mail list appears. Any emails you decide to keep on your mobile phone will go to your **Inbox** folder.

9.2.2 Switching Between Accounts

1. In the mail list, touch  , and then touch **Accounts**.
2. Touch the account that contains the email you want to read.
9.2.3  Creating and Sending an Email

1. In the mail list, touch 📧, and then touch Compose.
2. Enter the message recipient’s email address in the To field. If you are sending the email to several recipients, separate the email addresses with commas. You can add as many message recipients as you want.
   
   If you want to send a copy (Cc) or a blind copy (Bcc) of the email to other recipients, touch 📧, and then touch Add Cc/Bcc.
3. Enter the email subject and write your email.
   
   If you want to add a picture attachment, touch 📧, and then touch Attach to select the picture you want to attach.
4. After writing your email, touch ✉️.

9.2.4  Replying to or Forwarding an Email

1. In the mail list, touch the email that you want to reply to or forward.
2. Touch ⬅️ to reply. You can also touch ⬅️, and then touch Reply, Reply all, or Forward.
3. Do one of the following:
   • If you selected Reply or Reply all, enter your message.
   • If you selected Forward, specify the message recipients and add any additional text you want to include in the forwarded message.
4. Touch ✉️ to send, or touch ✏️ to save as a draft.

9.2.5  Searching for an Email

1. In the mail list, touch 📧, and then touch Search.
2. Enter the search keywords in the box, and then touch 🔍.

9.2.6  Customizing Your Gmail™ Settings

In the mail list, touch 📧, and then touch More > Settings to customizing your Gmail.
9.3 Talk

Talk is Google’s instant messaging service. You can use it to communicate in real time with other people using Talk on a phone or on the web.

9.3.1 Opening Talk

On the Home screen, touch ☰ > Talk to open the application.

⚠️ Your Talk account is based on the Google™ account you set up with your mobile phone.

9.3.2 Adding a Friend

1. In the friends list, touch ☰, and then touch Add friend.
2. Enter the Talk instant messaging ID or Gmail address of the friend you want to add.
3. Touch Send invitation.

9.3.3 Accepting an Invitation

1. If you have invited anyone to chat or if someone else has invited you to chat, this information will appear in the friends list.
2. Touch a pending invitation, and then touch Accept.

9.3.4 Starting a Chat

1. In the friends list, touch a friend's name in the friends list.
2. Use the onscreen keyboard to enter text and chat with your friend.
3. After entering your message, touch Send.

9.3.5 Setting Notifications for New Instant Messages

Whenever you receive an instant message, your mobile phone can play a sound, vibrate, or display an icon. To set up one of these handy notifications, start in the friends list, and then touch ☰. Then touch Settings. Now choose from one of the following:
9.3.6  Signing out of Talk

On the friends list screen, touch \( \equiv \), and then touch **Sign out** to quit **Talk**.

9.4  Maps

**Maps** lets you find your current location, view real-time traffic conditions (depending on availability in your locale), and get detailed directions to various destinations. You can view satellite images, traffic maps, or other kinds of maps of your current or other locations.

9.4.1  Enabling the Location Service

Before you open **Maps** to find your location or search for places of interest, you must enable the location service.

1. On the Home screen, touch \( \equiv \) > **Settings**.
2. Touch **Location & security**.
3. In the **My Location** section, select the **Use wireless networks** check box, the **Use GPS satellites** check box, or both.

9.4.2  Opening Maps

On the Home screen, touch \( \equiv \) > **Maps** to open the application.
9.4.3 Searching for Places of Interest

1. On the map, touch Search, and then touch Search.
2. Enter the place you want to search for in the search box, and then touch the Search icon.
3. Your search results will then be displayed. Touch a place you are interested in and the application will show where it is on the map.

9.4.4 Getting Directions

1. While viewing a map, touch , and then touch Directions.
2. Enter the starting point in the first text box, and then enter your destination in the second text box.
3. Touch the icon for car, public transit, or walking directions.
4. Touch Go. Your directions will appear in a list.
5. Touch a direction item on the list to show it on the map.
6. When you finish viewing or following the directions, touch , and then touch Clear Map to reset the map.

9.5 YouTube™

YouTube is Google’s free online video streaming service for watching, searching for, and uploading videos.

9.5.1 Opening YouTube

On the Home screen, touch > YouTube. You will then see the YouTube screen.

9.5.2 Searching for a Video

1. On the YouTube screen, touch , and then touch Search.
2. Enter a search keyword, and then touch the Search icon.
3. You will see a number of search results displayed below the notification bar. Scroll through the results and touch a video to watch it.
9.5.3 Sharing a Video
From the video list on the YouTube™ screen, select a video clip and touch More > Share.

9.6 Market
Android Market provides direct access to applications and games which you can download and install on your phone.

9.6.1 Opening Market
2. When you open Market for the first time, the Android Market Terms of Service window will appear. Touch Accept to continue.

9.6.2 Searching for Applications
There are a few different ways to find applications on the Market home screen, including:

- Featured applications
- List of games
- Search function
- My apps

9.6.3 Installing an Application
1. In the Market, select a category, and then touch the application you want to download. On the application details screen, you can view more information about the selected application, such as its cost, overall rating, user comments, and similar applications in which you might be interested. You can also scroll down to view information about the application developer, including other applications from the same developer and a link to the developer’s website. In addition, you can send the developer an email.
2. To install the application, touch Download (if it is free) or touch the button with its price (if it is not free), and confirm your download or purchase.
3. To check the progress of a download, open the notification panel. Most applications are installed within seconds. To stop an application from downloading, touch the cross (×).

After the application has been downloaded and installed on your mobile phone, the content download icon appears in the notification bar.

⚠️ If you want to install a non-Market application, touch ☰ > Settings > Applications, and then select the Unknown sources check box to allow installation of the non-Market application.

9.6.4 Uninstalling an Application

2. Touch the application you want to uninstall, and then touch Uninstall.
3. When prompted, touch OK to remove the application from your mobile phone.

10 Synchronizing Information

Some applications on your mobile phone give you access to the same personal information that you can add, view, and edit on your computer. If you add, change, or delete your information in any of these applications on the web, the updated information also appears on your mobile phone. This is made possible through over-the-air data synchronization. The process occurs in the background and does not interfere with use of your mobile phone. When your phone is synchronizing, a data synchronization icon will be shown in the notification bar.

10.1 Managing Your Accounts

You can synchronize contacts, email, and other information on your mobile phone with multiple Google accounts or other kinds of accounts, depending on the applications installed on your mobile phone. For example, you can start by adding your personal Google account, so your personal email, contacts, and calendar are always available. You could then add a work account, so your work-related emails and work contacts are handy. If you like, you may add multiple Google accounts or other accounts.
10.1.1 Adding an Account

When you add an account, the **Contacts** application compares contacts from the newly synchronized account with contacts from your existing mobile phone accounts and attempts to merge duplicates into a single entry in **Contacts**. While it is presented as a single contact entry, the contact data itself is not merged.

1. On the Home screen, touch ⚪️ > **Settings > Accounts & sync**. The screen displays your current synchronization settings and a list of your current accounts.

⚠️ In some cases, you may need to obtain account details from IT support. For example, you may need to know the account’s domain or server address.

2. Touch **Add account**.

3. Touch the kind of account to add.

4. Follow the onscreen steps to enter the required and optional information about the account. Most accounts require a username and password, but the details depend on the kind of account and the configuration of the service to which you are connecting.

5. Configure the account. Depending on the kind of account, you may be asked to configure what kind of data you want to synchronize to the mobile phone, to name the account, and for other details. When you are finished, the account is added to the list on the **Accounts & sync settings** screen.

10.1.2 Removing an Account

You can remove an account, deleting it and all information associated with it from your mobile phone, including email, contacts, settings, and so on. You cannot, however, remove some accounts, such as the first account you signed into on the mobile phone. If you attempt to remove certain accounts, all personal information associated with it will be deleted.

⚠️ You can only remove the first Google Account by resetting the phone to factory defaults.

1. On the **Accounts & sync settings** screen, touch the account to be deleted.

2. Touch **Sign Out**.

3. Confirm that you want to remove the account.
10.2 Customizing Your Account Synchronization

You can configure background data use and synchronization options for all the applications on your phone. You can also configure what kind of data you synchronize for each account.

For some accounts, synchronization is bi-directional; changes that you make to the information on your mobile phone are made to the copy of that information on the web. Some accounts support only one-way synchronization; the information on your mobile phone is read-only.

10.2.1 Configuring General Synchronization Settings

On the Accounts & sync settings screen, do the following:

• Select or clear the Background data check box to control whether applications and services can transmit data when you are not working with them directly (that is, when they are running in the background).

  If you clear this option, Gmail™ stops receiving new mails, Calendar stops synchronizing events, and so on, until you refresh them.

• Select or clear the Auto-sync check box to control whether changes you make to information on the phone or on the web are automatically synchronized with each other.

  For example, when this option is selected, changes that you make in Contacts on the phone are automatically made in Google Contacts on the web.

10.2.2 Changing an Account's Synchronization Settings

1. On the Accounts & sync settings screen, touch the account whose synchronization settings you want to change. The data and synchronization screen opens, displaying a list of the kinds of information the account can synchronize.

2. Selected items are configured to synchronize to your mobile phone.

3. Select or clear the check box of information you want to synchronize with the mobile phone.
11 Using Other Applications

11.1 Calendar

Use Calendar to create and manage events, meetings, and appointments. Depending on your synchronization settings, the calendar on your phone can be synchronized with the internet-based calendar you use.

11.1.1 Opening Calendar

On the Home screen, touch 📅 > Calendar to open the application.

⚠️ When you add a Google Account that includes a calendar service to your phone, you can access Google calendar: Touch ⬇️ , and then touch More > Calendars.

11.1.2 Creating an Event

1. In any calendar view, touch ⬇️ , and then touch New event to open the Event details screen.

⚠️ If you have more than one calendar, select the calendar where you want to save the event.

2. Enter the event name.
   - If there is a time frame for the event, touch From and To to set the beginning and end times of the event.
   - If the event is a special occasion such as a birthday or a day-long activity, set the date for From and To, and then select the All day check box.

3. Enter the location of the event and a description.

4. Specify in Repetition whether the event recurs and, if it does, how frequently, and then set the time for your event reminder in Reminders.

5. Touch Done.

⚠️ To quickly create an event in the day, week, or month view, touch and hold an empty time slot, and then touch New event. A new event details screen will appear with the selected time slot and date in the From and To fields.
11.1.3 Setting an Event Reminder

1. In any calendar view, touch an event to view its details or an event summary.

2. Touch the **Add reminder** button to add a reminder, or touch the reminder’s “-” button to delete an existing reminder.

3. Touch the reminder time, and then, from the list displayed, touch the length of time before the event when you want to be reminded. When the time comes, you will receive a notification about the event.

11.1.4 Setting Synchronization and Display

1. In any calendar view, touch **≡**. Then touch **More > Calendars**. The Calendars screen displays all the calendars you have added or subscribed to for each account that is configured to synchronize events to your phone, organized by account. (Calendars for accounts you have configured not to synchronize Calendar events are not included in the list.)

2. Touch the icon next to a calendar to change whether it is synchronized and whether it is displayed.

   You remain subscribed to Calendars that you configure not to store on the phone and can still work with them with Google Calendar on the web, or using other calendar services.

3. Touch **OK**.

11.1.5 Customizing Calendar Settings

In any calendar view, touch **≡**. Then touch **More > Settings** and choose from the following:

- **Hide declined events**: Select to hide events for which you have declined invitations.

- **Set alerts & notifications**: Touch to set event reminders to alert you, to send you a notification, or to turn off event notifications on your mobile phone.

- **Select ringtone**: Touch to select the ringtone to sound when you receive an event reminder.
• **Vibrate**: Select to vibrate the mobile phone when you receive an event notification.
• **Default reminder time**: Touch to select the default time before an event for event reminders to occur.

### 11.2 Clock

In addition to displaying the date and time, the *Clock* application displays information about the weather and your phone. You can also use *Clock* to turn your mobile phone into an alarm clock.

#### 11.2.1 Opening the Clock

On the Home screen, touch 📝 > *Clock* to open the application.  
*Clock* opens with the date and time displayed on your Home screen wallpaper, along with your local weather and other useful information.

#### 11.2.2 Opening the Alarms

On the *Clock* screen, touch 🕒 to open the *Alarms*.

**Adding an Alarm**

1. On the alarm list screen, touch *Add alarm*.
2. Set the alarm, and then touch *Done*.

**Setting an Alarm**

1. On the alarm list screen, touch one of the alarms on the screen.
2. Touch *Time* to set the time of the alarm.
3. Touch *Repeat* to set the days when you want the alarm to sound.
4. Touch *Ringtone* to select a ringtone for the alarm.
5. Select the *Vibrate* check box to enable the phone to vibrate, in addition to playing the ringtone.
6. Touch *Label* to enter a name for the alarm.
7. Touch *Done*.

**Customizing Alarm Settings**

On the alarm list screen, touch 📉, and then touch *Settings*. 
11.3 File Manager

File Manager is like having a pocket-sized personal assistant (PA), letting you organize, edit, and delete files and folders.

11.3.1 Opening File Manager

On the Home screen, touch 📈 > File Manager to open the application.

11.3.2 Creating a Folder

1. On the File Manager screen, access the directory in which you want to create a new folder.
2. Touch 📁 to open the options panel, and then touch More > New folder.
3. Enter the name of the new folder in the text box.
4. Touch Save.

11.3.3 Moving or Copying a File

1. On the File Manager screen, touch 📁 to show the options panel, and then touch Cut or Copy.
2. Touch the file or folder you want to move or copy. When a file or a folder is selected, a check mark will appear.

   To select or unselect all files, touch 📁 > Select all or Unselect all.
3. Touch 📁 > Done.
4. Select the path where you want the file to be copied or moved. Touch 📁 to open the options panel, and then touch Paste to move or copy the file to the selected path.

11.3.4 Searching for a File

1. On the File Manager screen, touch a folder to access the directory where the file you want is located.
2. Touch 📁 to open the options panel, and then touch Search.
3. Write a key word of the name of your file in the search box.
4. Touch 🕵️ next to the search box. Your mobile phone will start the search.
5. A list of search results will be displayed. Touch a file in the list to open it.
6. Touch **New search** for a new search or touch the back key to return to the file manager screen.

### 11.3.5 Compressing or Extracting Files

Your phone supports compressing and extracting files.

⚠️ You can only compress files and folders into .zip files, but can extract both .zip and .rar files.

#### Compressing Files

1. On the **File Manager** screen, touch , and then touch **Compress**.
2. Select the files or folders you want to compress. When a file is selected, a check mark will appear.
   
   To select or unselect all files, touch > **Select all** or **Unselect all**.
3. Touch > **Done**.
4. Edit the save path and the name of the target file, and then touch **OK** to start compressing the files and folders.

#### Extracting a File

1. Touch and hold a compressed file.
2. Touch **Extract**.
3. Edit the save path for the extracted files.
4. Touch **OK** to start extracting.

### 11.3.6 Viewing Your Memory Status

On the **File Manager** screen, touch to open the options panel, and then touch **More > Memory Status**. The memory management screen will be displayed. This screen allows you to view the memory status and available memory on your mobile phone and microSD™ card.
11.4 Calculator

Use Calculator to solve simple arithmetic problems or use its advanced operators to solve more complex equations.

11.4.1 Opening Calculator

On the Home screen, touch 📲 > Calculator to open the application.

11.4.2 Switching Between Basic and Advanced panel

On the Calculator screen, flick the screen to the right or left to switch between Advanced panel and Basic panel.

11.5 Richpad

Richpad combines text note and paint note functions. In the note list, you can add, edit, and delete notes.

1. Touch 📷 > Richpad to open the application.

2. Touch 📍 , and then touch Add text note or Add paint note to create a note.

   • While you are editing a text note, touch 📏 to change the background, or the font, or to insert an icon.
   
   • While you are editing a paint note, touch the icon in the upper right corner of the screen to draw a picture.

3. Touch the icons at the lower part of the screen to save the note, set a reminder, or discard the note.
12 Managing Your Mobile Phone

To configure your mobile phone, touch ➤ > Settings.

12.1 Setting the Date and Time

⚠️ When your mobile phone is using the date and time settings provided automatically by the network, you cannot manually set the date, time, and time zone.

1. On the Settings screen, touch Date & time.
2. Clear the Automatic check box.
3. Touch Set date. On the set date screen, touch ▲ or ▼ to adjust the date, month, and year, and then touch Set when the configuration is complete.
4. Touch Select time zone, and then select the desired time zone from the list. Scroll the list to view more time zones.
5. Touch Set time. On the set time screen, touch ▲ or ▼ to adjust the hour and minute. Touch Set when the configuration is complete.
6. Select or clear the Use 24-hour format check box to switch between 24-hour and 12-hour formats.
7. Touch Select date format to select how you want the date to display on your mobile phone.

12.2 Setting the Display

12.2.1 Adjusting the Screen Brightness

1. On the Settings screen, touch Display > Brightness.

⚠️ If you want to adjust the screen brightness manually, first clear the Automatic brightness checkbox.
2. Drag the slider left to make the screen darker, or right to make it brighter.
3. Touch OK to save the adjustment.
12.2.2 Adjusting the Time Before the Screen Turns Off

If your mobile phone is idle for several minutes, it will turn off the screen to save battery power. To set a longer or shorter idle time:

1. On the Settings screen, touch Display > Screen timeout.
2. Select the duration you want the screen to be illuminated.

12.3 Setting Ringers

12.3.1 Turning On Silent Mode

1. On the Settings screen, touch Sound.
2. Select the Silent mode check box to silence all sounds except alarms, and music and video media.

12.3.2 Adjusting the Volume

You can adjust the volume while on the Home screen or on most of the application screens (such as the screen displayed during a call or when playing music or videos). Press the Volume keys to adjust volume to the level you desire.

You can also adjust the volume from the settings screen.

2. Drag the slider left to make the volume lower, or right to make it higher.
3. Touch OK to save the adjustment.

12.3.3 Changing the Phone Ringtone

1. On the Settings screen, touch Sound > Phone ringtone.
2. Touch the ringtone you want to use. The ringtone plays when selected.
3. Touch OK.

12.3.4 Changing the Message Ringtone

2. In the message list, touch 📨 > Settings > Select ringtone.
3. Touch the ringtone you want to use. The ringtone plays when selected.
4. Touch OK.
12.3.5  Setting Your Phone to Vibrate for Incoming Calls
1. On the Settings screen, touch Sound.
2. Touch Vibrate, and then select one of the options.

12.4  Setting Phone Services

12.4.1  Customizing Call Settings
Mobile phone service providers offer different services such as call forwarding, call waiting, fixed dialing numbers, and voicemail. You can customize many of these services if they are part of your calling plan.
On the Settings screen, touch Call settings to customize your call functions.

12.4.2  Turning on Data Roaming
2. Select the Data roaming check box.

⚠ Accessing data services while roaming may incur additional charges. Ask your wireless service provider about data roaming fees.

12.4.3  Switching off the Data Service
2. Clear the Data enabled check box.

12.5  Configuring Text-to-Speech
Use the Text-to-Speech settings to configure the Android text-to-speech synthesizer, for applications that can take advantage of this feature.

12.5.1  Installing Voice Data
1. On the Settings screen, touch Voice input & output > Text-to-speech settings > Install voice data.
2. If your mobile phone does not have speech synthesizer data installed, connect to Android Market and let it guide you through the process of downloading and installing the data.
3. Follow the instructions to install the voice data.
12.5.2 Adjusting the Speech Rate

2. Select a speed at which the text is to be spoken.

12.6 Protecting Your Mobile Phone

12.6.1 Protecting Your Mobile Phone with a Screen Lock

To keep your data more secure, lock the screen and/or require a screen unlock pattern every time your mobile phone is turned on or wakes up from sleep mode.

1. On the Settings screen, touch Location & security > Set up screen lock > Pattern.
2. Flick your finger vertically, horizontally or diagonally, connect at least four dots in any order you choose. Lift your finger from the screen when you are finished.
   - You must drag your finger between the dots on the screen to create the pattern, not simply touch individual dots.
3. Your mobile phone will record the pattern. Touch Continue.
4. When prompted, draw the screen unlock pattern again, and then touch Confirm.

To change your unlock screen pattern, touch Location & security > Change screen lock.

12.6.2 Protecting Your Mobile Phone with a Numeric PIN

You can set up a numeric PIN to lock your phone.

1. On the Settings screen, touch Location & security > Set up screen lock > PIN.
2. Enter at least four characters.
3. Touch Continue.
4. Enter the same characters again and touch OK.

To change your PIN, touch Location & security > Change screen lock.
12.6.3 Unlocking Your Mobile Phone If You Forget the Screen Lock Pattern

If you have already created a Google™ account, you can unlock your mobile phone using the following methods.

- After you have entered the wrong sequence five times, a **Forgot pattern?** button will appear. Touch this button to enter the Google account interface. After you have entered your Google account password, you will be able to reset the unlock pattern.
- After you have entered the wrong pattern twenty times, you will be taken directly to the Google account interface. After you have entered your Google account password, you will be able to reset the unlock pattern.

12.7 Managing Applications

12.7.1 Viewing an Installed Application

1. On the **Settings** screen, touch **Applications > Manage applications**.
2. In the applications list, do either of the following:
   - Touch ☐️, and then touch **Sort by size**. Then touch an application to view its details.
   - Touch an application directly to view its details.

12.7.2 Uninstalling an Application

❗ You cannot uninstall the applications that are pre-installed on the system.

1. On the **Settings** screen, touch **Applications > Manage applications**.
2. Touch an application, and then touch **Uninstall**.
12.7.3 Moving an Application to the microSD™ Card

Some applications are designed to be stored on your phone’s USB storage or microSD card (depending on the model of your phone), rather than in its internal storage. Others are designed so you can change where they are stored. You may find it helpful to move large applications off your internal storage, to make more room for other applications that do not offer the option.

1. On the **Settings** screen, touch **Applications > Manage applications**.
2. Touch an application in the list. Then touch **Move to SD card** to move the bulk of the application from the phone’s internal storage.

   The **Storage** section of the application’s details screen shows details about the memory used by the application. If the application can be moved, the **Move to SD card** button is active.

   Touch **Move to phone** to move the application back to the phone’s internal storage.

12.7.4 Ways to Free Up Your Mobile Phone Memory

- Move files and email attachments to the microSD card.
- In **Browser**, clear all temporary Internet files and Browser history information.
- Move applications to the microSD card.
- Uninstall any downloaded programs that you no longer use.
- Reset your mobile phone.

12.8 Resetting Your Mobile Phone

12.8.1 Backing Up My Data

You can use your Google™ account to back up your mobile phone’s settings to Google servers. If you replace your mobile phone, the settings you have backed up will be transferred to the new mobile phone the first time you sign in to your Google account.

1. On the **Settings** screen, touch **Privacy**.
2. Select the **Back up my data** check box.
12.8.2 Restoring Factory Data

If you reset your phone to its factory settings, all of your personal data stored on the phone, including information about your Google account, any other accounts that you have configured, your system and application settings, and any applications you have installed will be erased. Resetting the phone does not erase any system updates you have downloaded. Using the check box provided, you can also select to erase all the data stored on your SD card or on the phone’s internal SD card, which includes files that you have downloaded or copied there, such as music or photos.

1. On the **Settings** screen, touch **Privacy > Factory data reset**.
2. When prompted, touch **Reset phone**, and then touch **Erase everything**.
   The mobile phone resets the settings to the original factory settings, and then restarts.

12.9 Online Update

Your mobile phone has pre-installed the online update function. When there is new software available, the version information appears and prompts you to update. You can also touch **Settings > About phone > System Update** to check whether the new software is available.

When updating:

1. Back up your personal information. All personal information will be removed after the update.
2. Make sure that your microSD™ card has sufficient space to store the new software version.
3. Perform the online update following the onscreen instructions.
13 Appendix

13.1 Warnings and Precautions

This section contains important information pertaining to the operating instructions of your device. It also contains information about how to use the device safely. Read this information carefully before using your device.

Electronic Device
Power off your device if using the device is prohibited. Do not use the device when using the device causes danger or interference with electronic devices.

Medical Device

- Follow rules and regulations set forth by hospitals and health care facilities. Do not use your device when using the device is prohibited.

- Pacemaker manufacturers recommend that a minimum distance of 5.9 inches (15 cm) be maintained between a device and a pacemaker to prevent potential interference with the pacemaker. If you are using a pacemaker, use the device on the opposite side of the pacemaker and do not carry the device in your front pocket.

- Some wireless devices may affect the performance of hearing aids. For any such problems, consult your service provider.

- To ensure that the Hearing Aid Compatibility rating for your device is maintained, secondary transmitters such as Bluetooth and Wi-Fi components must be disabled during a call.

Potentially Explosive Atmosphere
Power off your device in any area with a potentially explosive atmosphere, and comply with all signs and instructions. Areas that may have potentially explosive atmospheres include the areas where you would normally be advised to turn off your vehicle engine. Triggering of sparks in such areas could cause an explosion or a fire, resulting in bodily injuries or even deaths. Do not power on your device at refueling points such as service stations. Comply with restrictions on the use of radio equipment in fuel depots, storage, and distribution areas, and chemical plants. In addition, adhere to restrictions in areas where blasting operations are in progress. Before using the device,
watch out for areas that have potentially explosive atmospheres that are often, but not always, clearly marked. Such locations include areas below the deck on boats, chemical transfer or storage facilities, and areas where the air contains chemicals or particles such as grain, dust, or metal powders. Ask the manufacturers of vehicles using liquefied petroleum gas (such as propane or butane) whether this device can be safely used in their vicinity.

Traffic Security
Observe local laws and regulations while using the device. In addition, if using the device while driving a vehicle, comply with the following guidelines:

• Concentrate on driving. Your first responsibility is to drive safely.
• Do not talk on the device while driving. Use hands-free accessories.
• When you have to make or answer a call, park the vehicle at the road side before using your device.
• RF signals may affect electronic systems of motor vehicles. For more information, consult the vehicle manufacturer.
• In a motor vehicle, do not place the device over the air bag or in the air bag deployment area. Otherwise, the device may hurt you owing to the strong force when the air bag inflates.
• Do not use your device while flying in an aircraft. Power off your device before boarding an aircraft. Using wireless devices in an aircraft may cause danger to the operation of the aircraft and disrupt the wireless telephone network. It may also be considered illegal.

Operating Environment

• Do not use or charge the device in dusty, damp, and dirty places or places with magnetic fields. Otherwise, it may result in a malfunction of the circuit.
• The device complies with the RF specifications when the device is used near your ear or at a distance of 0.59 inch (1.5 cm) from your body. Ensure that the device accessories such as a device case and a device holster are not composed of metal components. Keep your device 0.59 inch (1.5 cm) away from your body to meet the requirement earlier mentioned.
• On a stormy day with thunder, do not use your device when it is being charged, to prevent any danger caused by lightning.
• When you are on a call, do not touch the antenna. Touching the antenna affects the call quality and results in increase in power consumption. As a result, the talk time and the standby time are reduced.

• While using the device, observe the local laws and regulations, and respect others' privacy and legal rights.

• Keep the ambient temperature between 32°F (0°C) and 113°F (45°C) while the device is being charged. Keep the ambient temperature between 32°F (0°C) and 113°F (45°C) for using the device powered by a battery.

**Prevention of Hearing Damage**
Using a headset at high volume can damage your hearing. To reduce the risk of damage to hearing, lower the headset volume to a safe and comfortable level.

**Safety of Children**
Comply with all precautions with regard to children's safety. Letting the child play with your device or its accessories, which may include parts that can be detached from the device, may be dangerous, as it may present a choking hazard. Ensure that small children are kept away from the device and accessories.

**Accessories**
Choose only batteries, chargers, and accessories approved for use with this model by the device manufacturer. The use of any other type of battery, charger, or accessory may invalidate any warranty for the device, may be in violation of local rules or laws, and may be dangerous. Please contact your dealer for information about the availability of approved batteries, chargers, and accessories in your area.

**Battery and Charger**
• Unplug the charger from the electrical plug and the device when not in use.

• The battery can be charged and discharged hundreds of times before it eventually wears out. When the standby time and the talk time are shorter than the normal time, replace the battery.

• Use the AC power supply defined in the specifications of the charger. An improper power voltage may cause a fire or a malfunction of the charger.
• Do not connect two poles of the battery with conductors, such as metal materials, keys, or jewelries. Otherwise, the battery may be short-circuited and may cause injuries and burns on your body.

• If battery electrolyte leaks out, ensure that the electrolyte does not touch your skin and eyes. When the electrolyte touches your skin or splashes into your eyes, wash your eyes with clean water immediately and consult a doctor.

• If there is a case of battery deformation, color change, or abnormal heating while you charge or store the battery, remove the battery immediately and stop using it. Otherwise, it may lead to battery leakage, overheating, explosion, or fire.

• If the power cable is damaged (for example, the cord is exposed or broken), or the plug loosens, stop using the cable at once. Otherwise, it may lead to an electric shock, a short circuit of the charger, or a fire.

• Do not dispose of batteries in fire as they may explode. Batteries may also explode if damaged.

• Do not modify or remanufacture, attempt to insert foreign objects into the battery, immerse or expose to water or other liquids, expose to fire, explosion or other hazard.

• Avoid dropping the device or battery. If the device or battery is dropped, especially on a hard surface, and the user suspects damage, take it to a qualified service center for inspection.

• Improper battery use may result in a fire, explosion or other hazard.

• Promptly dispose of used batteries in accordance with local regulations.

• The device should only be connected to products that bear the USB-IF logo or have completed the USB-IF compliance program.

• Only use the battery with a charging system that has been qualified with the system per this standard, IEEE-Std-1725-2006. Use of an unqualified battery or charger may present a risk of fire, explosion, leakage, or other hazard.

• Replace the battery only with another battery that has been qualified with the system per this standard, IEEE-Std-1725-2006. Use of an unqualified battery may present a risk of fire, explosion, leakage or other hazard.
Cleaning and Maintenance

- The device, battery, and charger are not water-resistant. Keep them dry. Protect the device, battery, and charger from water or vapor. Do not touch the device or the charger with a wet hand. Otherwise, it may lead to a short circuit, a malfunction of the device, and an electric shock to the user.

- Do not place your device, battery, and charger in places where they can get damaged because of collision. Otherwise, it may lead to battery leakage, device malfunction, overheating, fire, or explosion.

- Do not place magnetic storage media such as magnetic cards and floppy disks near the device. Radiation from the device may erase the information stored on them.

- Do not leave your device, battery, and charger in a place with an extreme high or low temperature. Otherwise, they may not function properly and may lead to a fire or an explosion. When the temperature is lower than 32°F (0°C), performance of the battery is affected.

- Do not place sharp metal objects such as pins near the earpiece. The earpiece may attract these objects and hurt you when you are using the device.

- Before you clean or maintain the device, power off the device and disconnect it from the charger.

- Do not use any chemical detergent, powder, or other chemical agents (such as alcohol and benzene) to clean the device and the charger. Otherwise, parts of the device may be damaged or a fire can be caused. You can clean the device and the charger with a piece of damp and soft antistatic cloth.

- Do not dismantle the device or accessories. Otherwise, the warranty on the device and accessories is invalid and the manufacturer is not liable to pay for the damage.

- If the device screen is broken by colliding with hard objects, do not touch or try to remove the broken part. In this case, stop using the device immediately, and then contact an authorized service center in time.

Emergency Call
You can use your device for emergency calls in the service area. The connection, however, cannot be guaranteed in all conditions. You should not rely solely on the device for essential communications.
Certification Information (SAR)

This device meets guidelines for exposure to radio waves. Your device is a low-power radio transmitter and receiver. As recommended by international guidelines, the device is designed not to exceed the limits for exposure to radio waves. These guidelines were developed by the independent scientific organization International Commission on Non-Ionizing Radiation Protection (ICNIRP) and include safety measures designed to ensure safety for all users, regardless of age and health.

The Specific Absorption Rate (SAR) is the unit of measurement for the amount of radio frequency energy absorbed by the body when using a device. The SAR value is determined at the highest certified power level in laboratory conditions, but the actual SAR level of the device when being operated can be well below the value. This is because the device is designed to use the minimum power required to reach the network.

The SAR limit adopted by USA and Canada is 1.6 watts/kilogram (W/kg) averaged over one gram of tissue. The highest SAR value reported to the FCC and IC for this device type when tested for use at the ear is 1.34 W/kg, and when properly worn on the body is 1.02 W/kg.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.
--Increase the separation between the equipment and receiver.
--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
--Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful
interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

⚠️ Changes or modifications made to this device not expressly approved by Huawei Technologies Co., Ltd. may void the FCC authorization to operate this device.

**Hearing Aid Compatibility (HAC) regulations for Mobile phones**

In 2003, the FCC adopted rules to make digital wireless telephones compatible with hearing aids and cochlear implants. Although analog wireless phones do not usually cause interference with hearing aids or cochlear implants, digital wireless phones sometimes do because of electromagnetic energy emitted by the phone's antenna, backlight, or other components. Your phone is compliant with FCC HAC regulations (ANSI C63.19).

While some wireless phones are used near some hearing devices (hearing aids and cochlear implants), users may detect a buzzing, humming, or whining noise. Some hearing devices are more immune than others to this interference noise, and phones also vary in the amount of interference they generate.

The wireless telephone industry has developed a rating system for wireless phones, to assist hearing device users find phones that may be compatible with their hearing devices. Not all phones have been rated. Phones that are rated have the rating on their box or a label located on the box. The ratings are not guarantees. Results will vary depending on the user's hearing device and hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your personal needs.

**M-Ratings:** Phones rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. M4 is the better/higher of the two ratings.

**T-Ratings:** Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device’s telecoil (“T Switch” or “Telephone Switch”) than unrated phones. T4 is the better/higher of the two ratings. (Note that not all hearing devices have telecoils in them.) Hearing devices may also be measured.

Your phone meets the M4/T3 level rating. Hearing devices may also be rated. Your hearing device manufacturer or hearing health professional may help
you find this rating. This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider or the manufacturer of this phone for information on hearing aid compatibility. If you have questions about return or exchange policies, consult your service provider or phone retailer.

13.2 FAQs

How Do I Set a Song As a Phone Ringtone?
In Music, touch and hold the song to be set as ringtone, and then touch Use as phone ringtone.

How Do I Prevent Automatic Change of Screen Orientation When Rotating My Phone?
On the Home screen, touch 🌛 > Settings > Display > Auto-rotate screen to disable the function.

How Do I Set an Unlock Pattern?
On the Home screen, touch 🌛 > Settings > Location & security > Set up screen lock > Pattern.

How Can I Change the Input Method?
Touch and hold the area where you write text and then select the input method you prefer.

How Do I Stop the Song Playing in the Background?
Touch the notification bar, flick downwards to open the notifications panel, touch the music playing notification to go to the music playing screen, and then stop playing the song.
How Do I Return to the Call Screen?
While in a call, if you’re on another screen, you can touch the notification bar, and flick downwards to open the notifications panel. Then touch the current call notification to return to the call screen.

How Do I Create an Application Shortcut on the Home Screen?
Touch and hold an application icon on the application screen until the Home screen is displayed. Then drag the icon to where you want to place it and release your finger.

How Do I Hide the Keyboard?
Touch \( \rightarrow \) to hide the keyboard.

How Do I Forward a Message?
Touch and hold a message, and then touch Forward in the menu that opens.

Why Am I Unable to Use Navigation?
Navigation is unavailable in some countries or regions.
