- **Speakerphone Key**
- **Left Soft Key** (Favorites)
- **Right Soft Key** (Contacts)
- **Camera Key**
- **Menu/OK Key**
- **Power/End Key**
- **microSD™ Port**
- **Headset Jack**
Pack up to 64MB of your favorite music into your phone so you can play your tunes anywhere or store extra pictures and video for easy transfer to your PC.

1. Insert your microSD card into the memory port with the gold contacts facing up.
2. Connect the USB cable from the phone to the PC.
4. Select Yes (1) to confirm that voice calls will be disabled.
5. The PC will recognize the phone as a Removable Disk under My Computer. Drag and drop music files into the Music folder or photos into the DCIM folder.
6. When done, press END. Confirm by selecting Yes (1), then disconnect the cable.

Note: A 64MB microSD card is included.
Playing Music

Muziq looks like a music player, and for good reason. Now you can kick back and chill to your own mixes or buy new tunes through Sprint—all with great stereo sound.

1. With the flip closed, press and hold the Camera Key on the right side of the phone to unlock the external touch controls.
2. Tap to start the player.
3. Tap or to go to the next or previous song. Tap or to view the song list.
4. Tap to pause/play the music. To exit the music player, open the flip and press END twice.

Multitasking
Muziq can multitask (run up to 2 Java apps) while playing music in the background.

1. Press the Music Key on the right side of the phone to send the music player to the background or foreground.
Transmitting Music to FM Radio

Got the ultimate sound system in your car or home? Play Muziq right through your FM radio and see how much power you can get out of this tiny package.

1. With the flip open, press the side Music Key.
2. Once a song is playing, press the Right Soft Key for Menu and select Music Transmitter On (4).
3. Set your radio to 88.1 FM (the phone’s default setting) to listen.
4. To change the transmit frequency, either press the Right Soft Key for Input Freq or use the Navigation Key to find a channel and press the Left Soft Key to transmit.
Say goodbye to cord hassles with Bluetooth connectivity to a headset, speakerphone, portable speakers, or laptop. Great for hands-free talk, music, or exchanging contacts.

1. Set your Bluetooth accessory to pairing mode.*
2. From standby mode, press \( \text{Menu} \), select **Tools (9)**, then **Bluetooth (6)**.
3. Press \( \text{Menu} \) when prompted to turn on Bluetooth. Select **Add New** and press \( \text{Menu} \) to search. The phone will now search for Bluetooth enabled devices (in pairing mode) within range.
4. Once the Bluetooth device has been found, highlight it and press \( \text{Menu} \).
5. Select **Add to Trusted (1)**.
6. Enter the pin code (typically “0000”– 4 zeroes) and press \( \text{Menu} \) to pair.*

* Refer to the user manual of your Bluetooth accessory to activate pairing mode and for the pin code.

**Note:** When using a Bluetooth stereo headset, streaming audio from Sprint TV is not supported.
Snap rich 1.3 megapixel photos or record long video clips so you can savor your favorite moments the instant they happen. Share the best ones immediately with friends.

1. To take a picture, press and hold the **Key. To record a video, short press **, then choose Camcorder (2).
2. Press left or right on the Navigation Key to adjust brightness and up or down for zoom.* Press the Right Soft Key to adjust other camera/camcorder settings. Press the side Music Key to turn on the flash/video light.
3. Press ** to take the picture or start recording. (Press ** again to stop recording.)
4. To send your picture/video, press the Right Soft Key for Options, then Send.

* Camera setting of 1280 x 960 does not support zoom function.

**Note:** To take self-portraits with the flip closed, press and hold the side ** Key once to unlock the phone, and again to activate the camera. Press ** or tap ▶️ to take the picture.
