Press the navigation key up/down/left/right to scroll to a menu feature.

Press the center key to select it.
Certain mobile phone features are dependent on the capabilities and settings of your service provider’s network. Additionally, certain features may not be activated by your service provider, and/or the provider’s network settings may limit the feature’s functionality. Always contact your service provider about feature availability and functionality. All features, functionality, and other product specifications, as well as the information contained in this user’s guide are based upon the latest available information and are believed to be accurate at the time of printing. Motorola reserves the right to change or modify any information or specifications without notice or obligation.

MOTOROLA and the Stylized M Logo are registered in the US Patent & Trademark Office. All other product or service names are the property of their respective owners. The Bluetooth trademarks are owned by their proprietor and used by Motorola, Inc. under license. Java and all other Java-based marks are trademarks or registered trademarks of Sun Microsystems, Inc. in the U.S. and other countries.

Use and Care

To care for your Motorola phone, please keep it away from:

liquids of any kind
Don’t expose your phone to water, rain, extreme humidity, sweat, or other moisture. If it does get wet, don’t try to accelerate drying with the use of an oven or dryer, as this may damage the phone.

dust and dirt
Don’t expose your phone to dust, dirt, sand, food, or other inappropriate materials.

extreme heat or cold
Avoid temperatures below 0°C/32°F or above 45°C/113°F.

cleaning solutions
To clean your phone, use only a dry soft cloth. Don’t use alcohol or other cleaning solutions.

microwaves
Don’t try to dry your phone in a microwave oven.

the ground
Don’t drop your phone.
essentials

about this guide

This guide shows how to locate a menu feature as follows:

Find it: ☰ > ☥️ Recent Calls > Dialed Calls

This means that, from the home screen:

1. Press the menu key ☰ to open the menu.

2. Press the navigation key ⬅️ to scroll to ☥️ Recent Calls, and press the center key ✰ to select it.

3. Press the navigation key ⬅️ to scroll to Dialed Calls, and press the center key ✰ to select it.

symbols

This means a feature is network/subscription dependent and may not be available in all areas. Contact your service provider for more information.

This means a feature requires an optional accessory.
SIM card

**Caution:** Don’t bend or scratch your SIM card. Keep it away from static electricity, water, and dirt.

Your Subscriber Identity Module (SIM) card contains personal information like your phone number and phonebook entries.

1. If necessary, press in the battery door release latch and remove the battery door.

2. Hold the SIM card with the notch in the lower left corner and the gold plate facing down. Slide the SIM card under the metal clip and into the card slot.

battery

**battery use & safety**

- Motorola recommends you always use Motorola-branded batteries and chargers. The warranty does not cover damage caused by non-Motorola batteries and/or chargers.

**Caution:** Use of an unqualified battery or
charger may present a risk of fire, explosion, leakage, or other hazard. Improper battery use, or use of a damaged battery, may result in a fire, explosion, or other hazard.

- Battery usage by children should be supervised.

- **Important:** Motorola mobile devices are designed to work best with qualified batteries. If you see a message on your display such as **Invalid Battery** or **Unable to Charge,** take the following steps:
  - Remove the battery and inspect it to confirm that it bears a Motorola “Original Equipment” hologram;
  - If there is no hologram, the battery is not a qualified battery;
  - If there is a hologram, replace the battery and retry charging it;

- If the message remains, contact a Motorola Authorized Service Center.

- New batteries or batteries stored for a long time may take more time to charge.

- **Charging precautions:** When charging your battery, keep it near room temperature. Never expose batteries to temperatures below 0°C (32°F) or above 45°C (113°F) when charging. Always take your mobile device with you when you leave your vehicle.

- When storing your battery, keep it in a cool, dry place.

- It is normal over time for battery life to decrease, and for the battery to exhibit shorter runtime between charges or require more frequent or longer charging times.

- **Avoid damage to battery and mobile device.** Do not disassemble, open, crush,
bend, deform, puncture, shred, or submerge the battery or mobile device. Avoid dropping the battery or mobile device, especially on a hard surface. If your battery or mobile device has been subjected to such damage, take it to a Motorola Authorized Service Center before using. Do not attempt to dry it with an appliance or heat source, such as a hair dryer or microwave oven.

• **Use care when handling a charged battery**—particularly when placing it inside a pocket, purse, or other container with metal objects. Contact with metal objects (such as jewelry, keys, beaded chains) could complete an electrical circuit (short circuit), causing the battery to become very hot, which could cause damage or injury.

Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center for proper battery disposal.

**Warning:** Never dispose of batteries in a fire because they may explode.

**battery installation**

1
Caution: Do not replace the plastic battery door on your phone with a metal battery door from another MotoRazr™ V3 phone. Your phone is not designed to be used with the metal battery door.

battery charging

New batteries are not fully charged. Plug the travel charger into the mini-USB port on your phone as shown. Plug the other end into an electrical outlet. Your phone might take several seconds to start charging the battery. The display shows Charge Complete when finished.

Note: You can charge your battery by connecting a cable from your phone’s mini-USB port to a USB port on a computer. Both your phone and the computer must be turned on, and your computer must have the correct software drivers installed. Cables and
software drivers are available in Motorola Original data kits, sold separately.

Tip: Motorola batteries have circuitry that protects the battery from damage from overcharging.

turn it on & off

Caution: On power up, the phone may prompt you to enter your SIM card PIN code to unlock the SIM card. If you enter an incorrect PIN code three times before the correct code, your SIM card is disabled and your display shows SIM Blocked. Contact your service provider.

To turn on your phone, press and hold the power key until the keypad or display lights up. If prompted, enter your eight-digit SIM card PIN code and/or four-digit unlock code.

To turn off your phone, press and hold \[\text{ }\] for a few seconds.

make a call

Enter a phone number and press the send key to make a call.

To “hang up,” close the flip or press the end key.

Note: Closing the phone flip doesn’t end a call when the handsfree speaker is turned on (for more information about the handsfree speaker, see page 38).

answer a call

When your phone rings and/or vibrates, just open the phone flip or press the send key to answer.

To “hang up,” close the phone flip or press the end key.
**Note:** Closing the phone flip doesn't end a call when the handsfree speaker is turned on (for more information about the handsfree speaker, see page 38).

**Store a phone number**

You can store a phone number in your Phonebook.

**Note:** You can store a phonebook contact in phone memory or on your SIM card. The storage location for new contacts is determined by your phonebook view. To set the phonebook view, see page 52.

**Note:** Contacts on the SIM card only have a name and number.

1. Enter a phone number in the home screen.

2. Press **Store**.

3. If necessary, select the number type: Mobile Phone Contact, Home Phone Contact, Work Phone Contact, or SIM Contact.

4. Enter a name and other details for the phone number. To edit details, scroll to them and press the center key.

5. Press **Done** to store the number.

To store an email address, see page 53. To edit or delete a phonebook contact, see page 53.
call a stored phone number

**Find it:**  

1. **Scroll to the contact.**  
   
   **Note:** If the contact has *multiple phone numbers*, press → left/right to select the number you want.

2. **Press**  
   
   **to call the contact.**

search the phonebook

To search for a phonebook contact:

**Find it:**  

Press the keypad keys to enter the first letters of the contact you want. The phonebook list jumps to the contact name that begins with the letters you type.

your phone number

From the home screen, press  to see your number.

**Tip:** Want to see your phone number while you’re on a call? Press  > My Tel. Numbers.

To store or edit your name and phone number on your SIM card, press edit while showing your number. If you don’t know your phone number, contact your service provider.
main attractions

You can do much more with your phone than make and receive calls!

photos
take a photo
Press 📷 > 📷 Multimedia > Camera to see the camera viewfinder.

1. Point the camera lens at the photo subject.
2. Press Capture to take a photo.
Press Store to select a storage option: Send in Message, Store Only, Apply as My Icon, Apply as Wallpaper, Apply as Screen Saver, Apply as Phonebook Entry, or Print and Store.

or

Press Discard to delete the photo and return to the active viewfinder.

If you choose to send the photo in a message, see “send a multimedia message” on page 23.

Note: You can’t assign a photo to a phonebook entry stored on the SIM card.

self portrait

When the camera viewfinder is active, you can close the phone flip to show the viewfinder image in the external display. Press the smart key (see illustration on page 2) to take a photo. Open the flip to store or discard the photo.

camera settings

When the camera viewfinder is active, press \ to select camera options:

<table>
<thead>
<tr>
<th>options</th>

multimedia messages

For more messaging features, see page 57.

send a multimedia message

A Multimedia Messaging Service (MMS) message contains pages with text and media objects (including photos, sounds, or videos). You can send the multimedia message to other MMS-capable phones, and to email addresses.

Find it: 📱 > Create Message > New Multimedia Msg

1 Press keypad keys to enter text on the page (for more information about text entry, see page 33).

   To insert a picture, sound, video, voice record, quick note, or contact info on the page, press 📩 > Insert. Select the file type and the file.

   To insert another page in the message, enter text or objects on the current page and press 📩 > Insert > New Page. You can enter more text and objects on the new page.

2 When you finish the message, press 📩 > Message Options to set message options (such as Subject and Priority).

3 When you finish setting message options, press Done.

4 To select message recipients, press Send To. You can:
   • Select one or more entries from your phonebook (press ⬆️ to scroll to an entry, and press the center key ⬇️ to select it).
   • Select [New Number] or [New Email Address] to enter a phone number or email address.

5 To send the message, press Send.

   To cancel or save the message as a Draft, press 📱.
receive a multimedia message

When you receive a multimedia message, your phone plays an alert and the display shows New Message with a message indicator (such as 📬).

Press Read to open the message.

- Pictures and animations show as you read the message.
- Sound files play as you read the message. Use the volume keys to adjust the sound volume.
- Attached files are added to the end of the message. To open an attachment, scroll to the file indicator/file name and press View (image), Play (sound), or Open (phonebook vCard, datebook vCalendar entry, or unknown file type).

Bluetooth® wireless

Your phone supports Bluetooth wireless connections. You can connect your phone with a Bluetooth headset or car kit to make handsfree calls. You can connect your phone with a phone or computer that supports Bluetooth connections to exchange files.

Note: The use of wireless phones while driving may cause distraction. Discontinue a call if you can’t concentrate on driving. Additionally, the use of wireless devices and their accessories may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.

For maximum Bluetooth security, you should always pair Bluetooth devices in a safe, private environment.

turn Bluetooth power on or off

Find it: 📞 > 📦 Bluetooth Link > Setup > Power > On
Note: To extend battery life, use this procedure to set Bluetooth power to Off when not in use. Your phone will not connect to another device until you set Bluetooth power back to On and pair your phone with the device again.

use a headset or handsfree car kit

Before you try to connect your phone to a handsfree device, make sure the device is on and ready in pairing or bonding mode (see the user’s guide for the device). You can connect your phone with only one device at a time.

Find it: Bluetooth Link > Handsfree > [Look For Devices]

Your phone lists the devices it finds within range.

1. Scroll to a device in the list.
2. Press the center key to connect to the device.

The device may request permission to bond with your phone. Select YES to accept. Enter the PIN code 0000 and press OK to create a secure connection with the device.

When your phone is connected, the Bluetooth indicator shows in the home screen, and the external Bluetooth indicator light flashes.

Shortcut: When Bluetooth power is on, your phone can automatically connect to a handsfree device you have used before. Just turn on the device and move it near the phone.

Copy files to another device

You can copy a photo, picture, video, sound file, phonebook entry, datebook event, or bookmark to another phone or computer that supports Bluetooth connections.

Note: You can’t copy some copyrighted objects.
Before you try to copy a file to another device, make sure the receiving device is on and ready in discoverable mode.

1. On your phone, scroll to the object that you want to copy to the other device.

2. Press the Send button, then select:
   - Copy for a photo, picture, video, or sound file.
   - Share Contact > Bluetooth for a phonebook entry.
   - Send > Bluetooth for a datebook event or bookmark.

3. Select a recognized device name, or [Look For Devices] to search for an unrecognized device where you want to copy the object.

Note: Once you connect your phone to a Bluetooth device, that device can start a similar Bluetooth connection with your phone. Your display shows the Bluetooth indicator when there is a Bluetooth connection.

receive files from another device
Before you try to receive a file from another device, make sure your phone’s Bluetooth power is on (see page 24).

1. Send the file from the device.

   If your phone and the sending device don’t recognize each other, place your phone in discoverable mode so the sending device can locate it. Press > Bluetooth Link > Setup > Find Me.

2. Press Accept to accept a file from another device. Your phone notifies you when file transfer is complete, and saves the file.

send files to a printer
You can send a photo, picture, message, phonebook entry, or datebook event from your phone to a printer that supports Bluetooth connections.
**Note:** You can print A4 or US Letter size pages. To print another size, copy the object to a linked computer and print it from there. You can't print Quick Notes, Media Templates, or a phonebook Mailing List.

1. On your phone, scroll to the object that you want to print, then press \(\text{Print}\).
   
   **Tip:** If you see it, you can print it. After you capture a picture in the camera, you can press Store and select Print and Store.

2. If available, choose additional objects or print options.

3. Select a recognized printer name listed in the Printers menu, or [Look For Devices] to search for an unrecognized printer where you want to send the object.
advanced Bluetooth® features

**Note:** A device is recognized after you connect to it once (see page 25).

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

**set Bluetooth options**

| > Bluetooth Link > Setup |

**move picture to device**

**Caution:** Moving a picture deletes the original picture from your phone.

Scroll to the picture, press > Move, select the device name.

**edit properties of recognized device**

Scroll to the device name, press > Edit.
phone updates

Sometimes, we think of ways to make your phone’s software faster or more efficient after you’ve purchased your phone. You can find out if your phone can be updated at: www.hellomoto.com/update

Note: Software updates do not affect your phonebook entries or other personal entries or files. If you receive a software update but choose to install it later, see page 66.
basics

See page 1 for a basic phone diagram.

display

The/home screen/appears when you turn on the phone.

Note: Your home screen may look different, depending on your service provider.

To dial a number from the home screen, press number keys and \( \text{Call} \).

The menu indicator \( \text{Menu} \) shows that you can press \( \text{Menu} \) to open the main menu. Soft key labels show the current soft key functions. For soft key locations, see page 1.

Press \( \text{Menu} \) up, down, left, or right in the home screen to open basic features. You can show or hide icons for these features in the home screen, and change the icons that are shown. For more information about changing icons in the home screen, see page 61.
Status indicators can show at the top of the home screen:

1 **Signal Strength Indicator** – Vertical bars show the strength of the network connection. You can’t make or receive calls when 📞 or 📞 shows.

2 **EDGE/GPRS Indicator** – Shows when your phone is using a high-speed *Enhanced Data for GSM Evolution* (EDGE) or *General Packet Radio Service* (GPRS) network connection. Indicators can include:

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>📊 = EDGE connection</td>
<td>📊 = GPRS connection</td>
</tr>
<tr>
<td>📊 = GPRS PDP context active</td>
<td>📊 = GPRS data available</td>
</tr>
</tbody>
</table>

3 **Data Indicator** – Shows connection status. The Bluetooth™ indicator 📱 shows when your phone is paired with another device. Other indicators can include:

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>📱 = secure data transfer</td>
<td>📱 = unsecure data transfer</td>
</tr>
<tr>
<td>📱 = secure connection</td>
<td>📱 = unsecure connection</td>
</tr>
<tr>
<td>📱 = secure Circuit Switch Data (CSD) call</td>
<td>📱 = unsecure CSD call</td>

</tbody>
</table>

4 **Roam Indicator** – The roam indicator 📱 shows when your phone is seeking or using a network outside your home network.

5 **Active Line Indicator** – Shows 📱 to indicate an active call, or 📱 to indicate

28 94613 5 7
when call forwarding is on. Indicators for dual-line-enabled SIM cards can include:

- \( \mathbb{A} \) = line 1 active
- \( \mathbb{B} \) = line 2 active
- \( \mathbb{C} \) = line 1 call forward on
- \( \mathbb{D} \) = line 2 call forward on

6 **Messaging Presence Indicator** – Shows when instant messaging (IM) is active.

Indicators can include:

- \( \mathbb{E} \) = IM active
- \( \mathbb{F} \) = available for IM
- \( \mathbb{G} \) = busy
- \( \mathbb{H} \) = invisible to IM
- \( \mathbb{I} \) = available for phone calls
- \( \mathbb{J} \) = offline

The Java™ indicator \( \mathbb{K} \) shows when a Java application is active.

7 **Message Indicator** – Shows when you receive a new message. Indicators can include:

- \( \mathbb{L} \) = text message
- \( \mathbb{M} \) = voicemail message
- \( \mathbb{N} \) = voicemail & text message
- \( \mathbb{O} \) = IM message

8 **Ring Style Indicator** – Shows the ring style setting.

- \( \mathbb{P} \) = loud ring
- \( \mathbb{Q} \) = vibrate
- \( \mathbb{R} \) = vibrate then ring
- \( \mathbb{S} \) = silent

9 **Battery Level Indicator** – Vertical bars show the battery charge level. Recharge the battery when your phone shows Low Battery.
text entry
Some features let you enter text.

Press # in a text entry screen to select an entry mode:

<table>
<thead>
<tr>
<th>Entry Modes</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 or 2</td>
<td>Your primary text entry mode can be set to any iTAP® or tap 1 mode. Your secondary text entry mode can be set to any iTAP® or tap 2 mode, or set to None if you don’t want a secondary entry mode.</td>
</tr>
<tr>
<td>3</td>
<td>Numeric mode enters numbers only.</td>
</tr>
<tr>
<td>0</td>
<td>Symbol mode enters symbols only.</td>
</tr>
</tbody>
</table>

To set your primary and secondary text entry modes, press > Entry Setup in a text entry screen and select Primary Setup or Secondary Setup.

Tip: WANT TO SHOUT YOUR MESSAGE? Press 0 in a text entry screen to change text case to no capital letters.
letters (abc), next letter capital (Abc with u, v, l, or z), or all capitals (ABC with U, V, L, or Z).

iTAP® mode

Press # in a text entry screen to switch to iTAP mode. If you don’t see J or P, press  > Entry Setup to set iTAP mode as your primary or secondary text entry mode.

iTAP mode lets you enter words using one keypress per letter. The iTAP software combines your keypresses into common words, and predicts each word as you enter it.

For example, if you press 7 2 6 4 , your display shows:

- If you want a different word (such as Progress), continue pressing keypad keys to enter the remaining characters.
- To enter numbers quickly, press and hold a number key to temporarily switch to numeric
mode. Press the number keys to enter the numbers you want. Enter a space to change back to iTAP mode.

- Press 1 to enter punctuation or other characters.

**tap mode**

Press # in a text entry screen to switch to tap mode. If you don’t see 1 or 2, press > *Entry Setup* to set tap mode as your primary or secondary text entry mode.

To enter text in tap mode, press a keypad key repeatedly to cycle through the letters and number on the key. Repeat this step to enter each letter.

For example, if you press 7 one time, your display shows:

```
After two seconds, character is accepted & cursor moves to next position.
```

Press to enter message recipients.
When you enter three or more characters in a row, your phone may guess the rest of the word. For example, if you enter **Prog** your display might show:

- The first character of every sentence is capitalized. If necessary, press © down to change the character to lowercase before the cursor moves to the next position.
- Press © to move the flashing cursor to enter or edit message text.

- If you don’t want to save your text or text edits, press ✈ to exit without saving.
- **Tap extended mode** cycles through additional special characters and symbols as you repeatedly press a keypad key.

**numeric mode**

Press 2 in a text entry screen until you see 123. Press the number keys to enter the numbers you want.

**symbol mode**

Press 2 in a text entry screen until you see 123. Press a keypad key to show its symbols at the bottom of the display. Scroll to the symbol you want, then press the center key ©.
volume

Press the volume keys to:

- turn off an incoming call alert
- change the earpiece volume during a call
- change the ringer volume from the home screen

Tip: Sometimes silence really is golden. That’s why you can quickly set your ringer to Vibrate or Silent by repeatedly pressing the down volume key in the home screen. To set the ringer from the menu, see page 40.

navigation key

Press the navigation key ⬆️ ⬇️ ⬅️ ➡️ up, down, left, or right to scroll and highlight menu items. When you highlight something, press the center key ⬤ to select it.

smart key

The smart key gives you another way to do things. For example, when you scroll to a menu item, you can press the smart key to select it (instead of pressing the center key ⬤). To change what the smart key does in the home screen, see page 61.
handsfree speaker

You can use your phone's handsfree speaker to make calls without holding the phone to your ear.

During a call, press Speaker to turn the handsfree speaker on or off. Your display shows Spkrphone On until you turn it off or end the call.

Note:

- The use of wireless phones while driving may cause distraction. Discontinue a call if you can't concentrate on driving. Additionally, the use of wireless devices and their accessories may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.

- Closing the phone flip doesn’t end a call when the handsfree speaker is turned on.

codes & passwords

Your phone’s four-digit unlock code is originally set to 1234. The six-digit security code is originally set to 000000. If your phone is still using the original codes, you should change them:

Find it: > > Settings > Security > New Passwords

You can also change your SIM PIN or call barring passwords.
If you forget your unlock code: At the Enter Unlock Code prompt, try entering 1234 or the last four digits of your phone number. If that doesn’t work, press and enter your six-digit security code instead.

If you forget other codes: If you forget your security code, SIM PIN code, PIN2 code, or call barring password, contact your service provider.

lock & unlock phone

You can lock your phone to keep others from using it. To lock or unlock your phone, you need the four-digit unlock code.

To manually lock your phone:

Find it: > > Settings > Security > Phone Lock > Lock Now

To automatically lock your phone whenever you turn it off:

Find it: > > Settings > Security > Phone Lock > Automatic Lock > On

Note: You can make emergency calls on a locked phone (for more information, see page 47). A locked phone still rings or vibrates for incoming calls or messages, but you need to unlock it to answer.
customize

ring style

Each ring style profile uses a different set of ringtones or vibrations for incoming calls and other events. The Silent profile silences your phone until you set another ring style. The profile indicator shows at the top of the home screen:

- ![Ring Tone](/images/-ring-tone.png)
- ![Vibrate](/images/vibrate.png)
- ![Vibe then Ring](/images/vibe-ring.png)
- ![Silent](/images/silent.png)

To choose your profile:

**Find it:** Go to Settings > Ring Styles > Style name

**Tip:** Press and hold # in the home screen to quickly set your ringer to Silent. Press # again to switch back to the original ring style setting.

change alerts in a ring style

You can change the alerts for incoming calls and other events. Your changes are saved in the current ring style profile.

**Note:** You can't set a ringtone for the Silent ring style profile.

**Find it:** Go to Settings > Ring Styles > style name > Detail

1. Scroll to Calls (or Line 1 or Line 2 for dual line phones), then press Change to change it.
2. Scroll to the alert you want, then press the center key.
3  Press Back to save the alert setting.

**time & date**

Your phone uses the time and date for the **Datebook**.

To **synchronize** the time and date with the network:

**Find it:** > Settings > Initial Setup > Time and Date  
> Autoupdate > On

To **manually** set the time and date:

**Find it:** > Settings > Initial Setup > Time and Date  
> Autoupdate > Off, then > time and date

**wallpaper**

Set a photo, picture, or animation as a wallpaper (background) image in your home screen.

**Note:** Your theme also can set the wallpaper (see page 42).

**Find it:** > Settings > Personalize > Wallpaper

<table>
<thead>
<tr>
<th>options</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Picture</td>
<td>Press ▼ up or down to select a picture for your wallpaper image, or <strong>None</strong> for no wallpaper.</td>
</tr>
<tr>
<td>Layout</td>
<td><strong>Select Center</strong> to center the image in the display, <strong>Tile</strong> to repeat the image across the display, or <strong>Fit-to-screen</strong> to stretch the image across the display.</td>
</tr>
</tbody>
</table>

**screen saver**

Set a photo, picture, or animation as a screen saver image. The screen saver shows in the display when the phone flip is open and no activity is detected for a specified time.

customize  41
themes

A phone theme is a group of image and sound files that you can apply to your phone. Most themes include a wallpaper image, screen saver image, and ringtone. Your phone may come with some themes, and you can download more.

To apply a theme:

Find it:  >  Multimedia > Themes > theme

To download a theme, see page 70.

Caution: You can delete the themes stored on your phone. After you delete a theme, you can't recover it.

To delete a theme:

Find it:  >  Multimedia > Themes, scroll to the theme, press > Delete or Delete All

display appearance

To choose a phone skin that sets the look and feel of your phone's display:

Find it:  >  Settings > Personalize > Skin

To set your display brightness:

Find it:  >  Settings > Personalize > Screen Saver

Note: Your theme also can set the screen saver (see next section).

Tip: This feature helps save your screen, but not your battery. To extend battery life, turn off the screen saver.

Find it:  >  Settings > Personalize > Screen Saver

<table>
<thead>
<tr>
<th>options</th>
<th>description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Picture</td>
<td>Press up or down to select an image for your screen saver, or None for no screen saver.</td>
</tr>
<tr>
<td>Delay</td>
<td>Select the length of inactivity before the screen saver shows in the display.</td>
</tr>
</tbody>
</table>
Find it: 🌐 > ☰️ Settings > Initial Setup > Brightness

To save battery life, the **backlight** can turn off when you’re not using your phone. The backlight turns back on when you open the phone flip or press any key. To set how long your phone waits before the backlight turns off:

**Find it:** 🌐 > ☰️ Settings > Initial Setup > Backlight

**Note:** To turn the backlight on or off for Java™ applications, press 🌐 > ☰️ Settings > Java Settings > App Backlight.

To save battery life, the **display** can turn off when you’re not using your phone. The display turns back on when you open the phone flip or press any key. To set how long your phone waits before the display turns off:

**Find it:** 🌐 > ☰️ Settings > Initial Setup > Display Timeout

---

**answer options**

You can use additional methods to answer an incoming call. To activate or deactivate an answer option:

**Find it:** 🌐 > ☰️ Settings > In-Call Setup > Answer Options

<table>
<thead>
<tr>
<th>options</th>
<th>description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Multi-Key</td>
<td>Answer by pressing any key.</td>
</tr>
<tr>
<td>Open to Answer</td>
<td>Answer by opening the phone flip.</td>
</tr>
</tbody>
</table>
calls

To make and answer calls, see page 15.

turn off a call alert
Press the volume keys to turn off the ringer before answering the call.

recent calls
Your phone keeps lists of incoming and outgoing calls, even for calls that didn’t connect. The most recent calls are listed first. The oldest calls are deleted as new calls are added.

Shortcut: Press 📲 from the home screen to see the dialed calls list.

Find it: 📵 > 📵 📵 | Recent Calls

1. Scroll to Received Calls or Dialed Calls, then press the center key.
2. Scroll to a call. A ✓ next to a call means the call connected.
   • To call the number, press 📲.
   • To see call details (like time and date), press View.
To see the Last Calls Menu, press \[ \]. This menu can include:

<table>
<thead>
<tr>
<th>Options</th>
<th>Description</th>
</tr>
</thead>
</table>
| Store            | Create a phonebook entry with the number in the No. field.  
|                  | **Note:** This option appears only when the number is not stored in your phonebook. |
| Delete/ Delete All | Delete one or all entries in the list. |
| Show ID/ Hide ID | Show or hide your caller ID for the next call. |
| Send Message     | Open a new text message with the number in the To field. |
| Add Digits       | Add digits after the number. |
| Attach Number    | Attach a number from the phonebook or recent calls lists. |

**Options**

- **Send Tones**: Send the number to the network as DTMF tones.  
  **Note**: This option appears only during a call.

- **Talk then Fax**: Talk and then send a fax in the same call (for more information, see page 65).

**Redial**

1. Press \[ \] from the home screen to see the dialed calls list.
2. Scroll to the entry you want to call, then press \[ \].

If you hear a busy signal and you see **Call Failed** or **Number Busy**, press \[ \] or Retry to redial the number. When the call goes through, your phone rings.
or vibrates one time, shows Redial Successful, and connects the call.

return a call

Your phone keeps a record of your unanswered calls, and shows X Missed Calls, where X is the number of missed calls.

1 When you see the X Missed Calls message, press View to see the received calls list.
2 Scroll to the call you want to return, then press C.

notepad

The last set of digits entered on the keypad are stored in notepad memory. This can be the last phone number you called, or a number that you “jot down” during a call for later use. To see the number stored in the notepad:

Find it:  >  Recent Calls > Notepad

- To call the number, press C.
- To create a phonebook entry with the number in the No. field, press Store.
- To open the Dialing Menu to attach a number or insert a special character, press C.

hold or mute a call

To put all active calls on hold, press  >  Hold.
To put all active calls on mute, press Mute (if available), or press  >  Mute.

call waiting

When you’re on a call, you’ll hear an alert if you receive a second call.
Press C to answer the new call.
• To switch between calls, press **Switch**.
• To connect the two calls, press **Link**.
• To end the call on hold, press **End Call On Hold**.

To turn the call waiting feature on or off:

**Find it:** atel  >  **Settings**  >  **In-Call Setup**  >  **Call Waiting**

---

**caller ID**

*Calling line identification* (caller ID) shows the phone number for an incoming call in your external and internal displays.

Your phone shows the caller’s name and picture when they’re stored in your phonebook, or **Incoming Call** when caller ID information is not available.

**Tip:** You can set your phone to play a different ringer ID for an entry stored in your phonebook (for more information, see page 53).

To show or hide **your phone number** for the next outgoing call, enter digits in the display, then:

**Find it:** atel  >  Hide ID/Show ID

---

**emergency calls**

Your service provider programs one or more emergency phone numbers, such as 911 or 112, that
you can call under any circumstances, even when your phone is locked or the SIM card is not inserted.

**Note:** Emergency numbers vary by country. Your phone’s preprogrammed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues.

1. Press the keypad keys to dial the emergency number.
2. Press 9 to call the emergency number.

### international calls

If your phone service includes international dialing, press and hold 0 to insert your local international access code (indicated by +). Then, press the keypad keys to dial the country code and phone number.

### 1-touch dial

To call phonebook numbers with assigned speed dial numbers 1 through 9, press and hold the single-digit speed dial number for one second.

**Tip:** To call phonebook numbers with speed dial numbers 10 and above, see “speed dial” on page 50.

You can set 1-touch dial to call the contacts in your phone’s memory phonebook, your SIM card’s phonebook, or your fixed dial list:

**Find it:**  >  > Initial Setup > 1 Touch Dial
> Phone, SIM, or Fixed Dial

To add a new number to the phonebook, see page 16. To edit the speed dial number for a phonebook contact, press  >  Phonebook > contact, then press  > Edit > Speed No.
Voicemail

Your network stores the voicemail messages you receive. To listen to your messages, call your voicemail number.

Note: Your service provider may include additional information about using this feature.

When you receive a voicemail message, your phone shows the voicemail message indicator \( \text{\hspace{0.5em}}_{\text{ voicemail }} \) and New Voicemail.

To check voicemail messages:

Find it: \( \text{Menu} > \text{Voicemail} \)

Your phone may prompt you to store your voicemail phone number. If you don't know your voicemail number, contact your service provider.

Note: You can't store a \( \text{p} \) (pause), \( \text{w} \) (wait), or \( \text{n} \) (number) character in this number. If you want to store a voicemail number with these characters, create a phonebook entry for it. Then, you can use the entry to call your voicemail.

other features—phonebook
features

**add new contact**

Press Phonebook > New Phone Contact or New SIM Contact.

Contacts stored in phone memory can contain multiple phone numbers, email addresses, personal information and settings. Contacts stored on the SIM card can contain only a name and number. To set the contact storage location, see the previous feature description for set phonebook view.

**send message to contact**

Press Phonebook > contact, press Send Message.

**edit or delete a contact**

Press Phonebook > contact, press Edit, Delete, or other options.

---

features

**set ringer ID for contact**

Assign a distinctive ringtone (ringer ID) to a contact:

Press Phonebook > contact, press Edit > Ringer ID > ringer name.

**Note:** The Ringer ID option isn’t available for contacts stored on the SIM card.

**set picture ID for contact**

Assign a photo or picture to show in the display when you receive a call from a contact:

Press Phonebook > contact, press Edit > Picture > ringer name.

**Note:** The Picture option isn’t available for contacts stored on the SIM card.

other features—phonebook 53
features

show contact photos
Show contacts with picture ID photos, or as a text list:

> > Phonebook > > View by > List or Picture

assign contact to category

> > Phonebook > contact > Edit > Category > category name

Note: The Category option isn’t available for contacts stored on the SIM card.

features

set category view
Press > > Phonebook, press * and # to scroll through category views.

You can show All contacts, contacts in a predefined category (Business, Personal, General, VIPs), or contacts in a category you create.

Note: The Category option isn’t available for contacts stored on the SIM card.

create new category

> > Phonebook > Categories > New

Note: The Categories option isn’t available for contacts stored on the SIM card.
set category ringer ID

Set a distinctive ring alert (ringer ID) to sound when you receive calls from contacts in a specific category:

Press \( \text{Menu} > \text{Phonebook}, \text{press} \text{Menu} > \text{Categories}, \text{scroll to the category, } \text{press Menu} > \text{Edit} > \text{Ringer ID} \)

**Note:** The Categories option isn’t available for contacts stored on the SIM card.

To activate ringer IDs:

\( \text{Menu} > \text{Settings} > \text{Ring Styles} > \text{style Detail} \)

\(\text{Ringer IDs} > \text{On} \)

---

create group mailing list

\(\text{Menu} > \text{Phonebook, press Menu} > \text{New Mailing List} \)

You can select the list name as an address for picture messages.

**Note:** A Mailing List can’t include contacts stored on the SIM card.

copy a contact

Copy a contact from the phone to the SIM card, or from the SIM card to the phone:

\(\text{Menu} > \text{Phonebook} > \text{contact, press Menu} > \text{Copy} > \text{To SIM or To Phone} \)
### Features

#### Copy Multiple Contacts

Copy multiple contacts between the phone and SIM card:

- Phonebook > Copy > Multiple to SIM or Multiple to Phone, select entries, press Done, press Yes to confirm.

#### Send Contact to Another Device

Send a contact or contact number to another phone, computer, or device:

- Phonebook > contact, press Share Contact or Share Number

call times & costs

Network connection time is the elapsed time from the moment you connect to your service provider's network to the moment you end the call by pressing \( \text{ } \). This time includes busy signals and ringing.

The amount of network connection time you track on your resettable timer may not equal the amount of time for which you are billed by your service provider. For billing information, contact your service provider.

**features**

**receive data or fax**
Connect your phone to the device, then answer the call through the device application.

**talk then fax**
Connect your phone to the device, enter fax number, press TALK then FAX, then press OK to make the call.

---

**features**

**use sync**
You can call an Internet server and synchronize your phonebook and datebook entries with the server.

To set up an Internet sync partner, press > > Settings > Connection > Sync > [New Entry]. Enter the server details, including the server URL (you can omit http://) and Data Paths (the folders below the URL where your data is stored).

To synchronize files with an Internet sync partner, press > > Settings > Connection > Sync > sync partner.
### network

**features**

**network settings**

See network information and adjust network settings:

- $\rightarrow$ > Settings > Network

**software update**

Your service provider can send updated phone software over the air to your phone. When your phone receives a software update, you can choose to install it immediately, or defer installation until later. To install a deferred software update:

- $\rightarrow$ > Settings > Phone Status > Software Update
  > Install Now

### personal organizer

**features**

**set alarm**

- $\rightarrow$ > Tools > Alarm Clock > [New Alarm]

**turn off alarm**

When the display shows an alarm:

- To turn off the alarm, press *Disable* or $\rightarrow$.
- To set an eight minute delay, press *Snooze*.

**add new datebook event**

- $\rightarrow$ > Tools > Datebook, scroll to the day, press the center key $\bullet$, press $\rightarrow$ > New.

**see datebook event**

See or edit event details:

- $\rightarrow$ > Tools > Datebook, scroll to the day, press the center key $\bullet$, scroll to the event, press *View*. 
datebook event reminder
When the display shows an event reminder:
To see reminder details, press View.
To close the reminder, press Exit.

send datebook event to another device
Send a datebook event to another phone or computer that supports Bluetooth™ connections:

> Tools > Datebook, scroll to the day, press the center key, scroll to the event, press > Send
For more information about Bluetooth connections, see page 24.

create voice record
Press and hold the voice key, speak into the phone, release voice key.

Note: Recording of phone calls is subject to varying State and Federal laws regarding privacy and recording of phone conversations. Always obey the laws and regulations on the use of this feature.

play voice record
Play back a voice record:

> Tools > Voice Records > voice record

service & repairs

If you have questions or need assistance, we’re here to help.

Go to www.motorola.com/consumer/support where you can select from a number of customer care options.
You can also contact the Motorola Customer Support Center at 1-800-331-6456 (United States),
1-888-390-6456 (TTY/TDD United States for hearing impaired), or 1-800-461-4575 (Canada).
Specific Absorption Rate Data

This model wireless phone meets the government’s requirements for exposure to radio waves.

Your wireless phone is a radio transmitter and receiver. It is designed and manufactured not to exceed limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission (FCC) of the U.S. Government and by the Canadian regulatory authorities. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age or health.

The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC and by the Canadian regulatory authorities is 1.6 W/kg. Tests for SAR are conducted using standard operating positions accepted by the FCC and by Industry Canada with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station, the lower the power output.

Before a phone model is available for sale to the public in the U.S. and Canada, it must be tested and certified to the FCC and Industry Canada that it does not exceed the limit established by each government for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) reported to the FCC and available for review by Industry Canada. The highest SAR value for this model phone when tested for use at the ear is 0.54 W/kg, and when worn on the body, as described in this user guide, is 0.34 W/kg. The SAR value for this product in its data transmission mode (body-worn use) is 0.18 W/kg. (Body-worn measurements differ among phone models, depending upon available accessories and regulatory requirements). 2

While there may be differences between the SAR levels of various phones and at various positions, they all meet the governmental requirements for safe exposure. Please note that improvements to this product model could cause differences in the SAR value for later products; in all cases, products are designed to be within the guidelines.
Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications & Internet Association (CTIA) Web site:

http://www.phonefacts.net

or the Canadian Wireless Telecommunications Association (CWTA) Web site:

http://www.cwta.ca

1. In the United States and Canada, the SAR limit for mobile phones used by the public is 1.6 watts/kg (W/kg) averaged over one gram of tissue. The standard incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in measurements.

2. The SAR information includes the Motorola testing protocol, assessment procedure, and measurement uncertainty range for this product.
Hereby, Motorola declares that this product is in compliance with:

- The essential requirements and other relevant provisions of Directive 1999/5/EC
- All other relevant EU Directives

The above gives an example of a typical Product Approval Number. You can view your product’s Declaration of Conformity (DoC) to Directive 1999/5/EC (to R&TTE Directive) at www.motorola.com/rtte. To find your DoC, enter the product Approval Number from your product’s label in the “Search” bar on the Web site.

EU Conformance
Safety Information

This section contains important information on the safe and efficient operation of your mobile device. Read this information before using your mobile device.

Exposure to Radio Frequency (RF) Energy

Your mobile device contains a transmitter and receiver. When it is ON, it receives and transmits RF energy. When you communicate with your mobile device, the system handling your call controls the power level at which your mobile device transmits.

Your Motorola mobile device is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

Operational Precautions

For optimal mobile device performance and to be sure that human exposure to RF energy does not exceed the guidelines set forth in the relevant standards, always follow these instructions and precautions.

External Antenna Care

If your mobile device has an external antenna, use only a Motorola-supplied or approved replacement antenna. Use of unauthorized antennas, modifications, or attachments could damage the mobile device and/or may result in your device not complying with local regulatory requirements in your country.

DO NOT hold the external antenna when the mobile device is IN USE. Holding the external antenna affects call quality and may cause the mobile device to operate at a higher power level than needed.

Product Operation

When placing or receiving a phone call, hold your mobile device just like you would a landline phone.

If you wear the mobile device on your body, always place the mobile device in a Motorola-supplied or approved clip, holder, holster, case, or body harness. If you do not use a body-worn accessory supplied or approved by Motorola—or if you hang your mobile device from a lanyard around your neck—keep the mobile
device and its antenna at least 2.5 centimeters (1 inch) from your body when transmitting.
When using any data feature of the mobile device, with or without an accessory cable, position the mobile device and its antenna at least 2.5 centimeters (1 inch) from your body.
Using accessories not supplied or approved by Motorola may cause your mobile device to exceed RF energy exposure guidelines. For a list of Motorola-supplied or approved accessories, visit our Web site at: www.motorola.com

RF Energy Interference/Compatibility
Nearly every electronic device is subject to RF energy interference from external sources if inadequately shielded, designed, or otherwise configured for RF energy compatibility. In some circumstances your mobile device may cause interference with other devices.

Follow Instructions to Avoid Interference Problems
Turn off your mobile device in any location where posted notices instruct you to do so.
In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Implantable Medical Devices
If you have an implantable medical device, such as a pacemaker or defibrillator, consult your physician before using this mobile device.
Persons with implantable medical devices should observe the following precautions:
- ALWAYS keep the mobile device more than 20 centimeters (8 inches) from the implantable medical device when the mobile device is turned ON.
- DO NOT carry the mobile device in the breast pocket.
- Use the ear opposite the implantable medical device to minimize the potential for interference.
- Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking place.
Read and follow the directions from the manufacturer of your implantable medical device. If you have any questions about using your mobile device with your implantable medical device, consult your health care provider.

Driving Precautions
Check the laws and regulations on the use of mobile devices in the area where you drive. Always obey them.
When using your mobile device while driving, please:
Safety Information

- Give full attention to driving and to the road. Using a mobile device may be distracting. Discontinue use if you can’t concentrate on driving.
- Use handsfree operation, if available.
- Pull off the road and park before making or answering a call if driving conditions so require.
- Do not place a mobile device in the airbag deployment area.

Responsible driving practices can be found in the “Smart Practices While Driving” section in this user’s guide and/or at the Motorola Web site: www.motorola.com/callsmart.

Note: The use of wireless phones while driving may cause distraction. Discontinue a call if you can’t concentrate on driving. Additionally, the use of wireless devices and their accessories may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.

Operational Warnings
Obey all posted signs when using mobile devices in public areas.

Potentially Explosive Atmospheres
Areas with potentially explosive atmospheres are often but not always posted and can include fueling areas such as below decks on boats, fuel or chemical transfer or storage facilities, or areas where the air contains chemicals or particles, such as grain dust, or metal powders.

When you are in such an area, turn off your mobile device, and do not remove, install, or charge batteries. In such areas, sparks can occur and cause an explosion or fire.

Symbol Key
Your battery, charger, or mobile device may contain symbols, defined as follows:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>!</td>
<td>Important safety information follows.</td>
</tr>
<tr>
<td>⚠️</td>
<td>Do not dispose of your battery or mobile device in a fire.</td>
</tr>
<tr>
<td>🔄</td>
<td>Your battery or mobile device may require recycling in accordance with local laws. Contact your local regulatory authorities for more information.</td>
</tr>
<tr>
<td>🚫</td>
<td>Do not throw your battery or mobile device in the trash.</td>
</tr>
<tr>
<td>Li Ion BATT ⚠️</td>
<td>Your mobile device contains an internal lithium ion battery.</td>
</tr>
<tr>
<td>🌧️</td>
<td>Do not let your battery, charger, or mobile device get wet.</td>
</tr>
</tbody>
</table>
Safety Information

Batteries and Chargers
Caution: Improper treatment or use of batteries may present a danger of fire, explosion, leakage, or other hazard. For more information, see the “Battery Use & Battery Safety” section in this user’s guide.

Choking Hazards
Your mobile device or its accessories may include detachable parts, which may present a choking hazard to small children. Keep your mobile device and its accessories away from small children.

Glass Parts
Some parts of your mobile device may be made of glass. This glass could break if the product is dropped on a hard surface or receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by a qualified service center.

Seizures/Blackouts
Some people may be susceptible to epileptic seizures or blackouts when exposed to flashing lights, such as when playing video games. These may occur even if a person has never had a previous seizure or blackout.

If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult with your physician before playing video games or enabling a flashing-lights feature (if available) on your mobile device.

Discontinue use and consult a physician if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. It is a good idea to hold the screen away from your eyes, leave the lights on in the room, take a 15-minute break every hour, and stop use if you are very tired.

Caution About High Volume Usage
Listening at full volume to music or voice through a headset may damage your hearing.

Repetitive Motion
When you repetitively perform actions such as pressing keys or entering finger-written characters, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body.

Symbol Definition

- Listening at full volume to music or voice through a headset may damage your hearing.
your body. If you continue to have discomfort during or after such use, stop use and see a physician.

Industry Canada Notice to Users

Operation is subject to the following two conditions: (1) This device may not cause interference and (2) This device must accept any interference, including interference that may cause undesired operation of the device. See RSS-GEN 7.1.5.

FCC Notice to Users

The following statement applies to all products that have received FCC approval. Applicable products bear the FCC logo, and/or an FCC ID in the format FCC-ID:xxxxxx on the product label.

Motorola has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user’s authority to operate the equipment. See 47 CFR Sec. 15.21.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. See 47 CFR Sec. 15.19(3).

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Motorola Limited Warranty for the United States and Canada

What Does this Warranty Cover?
Subject to the exclusions contained below, Motorola, Inc. warrants its telephones, pagers, messaging devices, and consumer and professional two-way radios (excluding commercial, government or industrial radios) that operate via Family Radio Service or General Mobile Radio Service, Motorola-branded or certified accessories sold for use with these Products (“Accessories”) and Motorola software contained on CD-ROMs or other tangible media and sold for use with these Products (“Software”) to be free from defects in materials and workmanship under normal consumer usage for the period(s) outlined below. This limited warranty is a consumer’s exclusive remedy, and applies as follows to new Motorola Products, Accessories and Software purchased by consumers in the United States or Canada, which are accompanied by this written warranty:

<table>
<thead>
<tr>
<th>Products Covered</th>
<th>Length of Coverage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Products and Accessories as defined above, unless otherwise provided for below.</td>
<td>One (1) year from the date of purchase by the first consumer purchaser of the product unless otherwise provided for below.</td>
</tr>
</tbody>
</table>
Warranty Exclusions

Normal Wear and Tear. Periodic maintenance, repair and replacement of parts due to normal wear and tear are excluded from coverage.

Batteries. Only batteries whose fully charged capacity falls below 80% of their rated capacity and batteries that leak are covered by this limited warranty.

Abuse & Misuse. Defects or damage that result from:
(a) improper operation, storage, misuse or abuse, accident or neglect, such as physical damage (cracks, scratches, etc.) to the surface of the product resulting from misuse; (b) contact with liquid, water, rain, extreme humidity or heavy perspiration, sand, dirt or the like, extreme heat, or food; (c) use of the Products or Accessories for commercial purposes or subjecting the Product or Accessory to abnormal usage or conditions; or (d) other acts which are not the fault of Motorola, are excluded from coverage.

Use of Non-Motorola Products and Accessories. Defects or damage that result from the use of Non-Motorola branded or certified Products, Accessories, Software or other peripheral equipment are excluded from coverage.

Unauthorized Service or Modification. Defects or damages resulting from service, testing, adjustment, installation, maintenance, alteration, or modification in any way by someone other than Motorola, or its authorized service centers, are excluded from coverage.

Altered Products. Products or Accessories with (a) serial numbers or date tags that have been removed, altered or obliterated; (b) broken seals or that show evidence of tampering; (c) mismatched board serial numbers; or (d) nonconforming or non-Motorola housings, or parts, are excluded from coverage.

</thead>
<tbody>
<tr>
<td>Software</td>
<td>Ninety (90) days from the date of purchase.</td>
</tr>
<tr>
<td>Software Embodied in Physical Media</td>
<td></td>
</tr>
<tr>
<td>Software NOT Embodied in Physical Media</td>
<td></td>
</tr>
</tbody>
</table>

Software Exclusions
Software Embodied in Physical Media. No warranty is made that the software will meet your requirements or will work in combination with any hardware or software applications provided by third parties, that the operation of the software products will be uninterrupted or error free, or that all defects in the software products will be corrected.

Software NOT Embodied in Physical Media. Software that is not embodied in physical media (e.g. software that is downloaded from the internet), is provided “as is” and without warranty.

Who Is Covered?
This warranty extends only to the first consumer purchaser, and is not transferable.

What Will Motorola Do?
Motorola, at its option, will at no charge repair, replace or refund the purchase price of any Products, Accessories or Software that does not conform to this warranty. We may use functionally equivalent reconditioned/refurbished/pre-owned or new Products, Accessories or parts. No data, software or applications added to your Product, Accessory or Software, including but not limited to personal contacts, games and ringer tones, will be reinstalled. To avoid losing such data, software and applications please create a back up prior to requesting service.

How to Obtain Warranty Service or Other Information

You will receive instructions on how to ship the Products, Accessories or Software, at your expense, to a Motorola Authorized Repair Center. To obtain service, you must include: (a) a copy of your receipt, bill of sale or other comparable proof of purchase; (b) a written description of the problem; (c) the name of your service provider, if applicable; (d) the name and location of the installation facility (if applicable) and, most importantly; (e) your address and telephone number.

What Other Limitations Are There?

ANY IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY, OTHERWISE THE REPAIR, REPLACEMENT, OR REFUND AS PROVIDED UNDER THIS EXPRESS LIMITED WARRANTY IS THE EXCLUSIVE REMEDY OF THE CONSUMER, AND IS PROVIDED IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED. IN NO EVENT SHALL MOTOROLA BE LIABLE, WHETHER IN CONTRACT OR TORT (INCLUDING NEGLIGENCE) FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT, ACCESSORY OR SOFTWARE, OR FOR ANY INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES OF ANY KIND, OR LOSS OF REVENUE OR PROFITS, LOSS OF BUSINESS, LOSS OF INFORMATION OR DATA, SOFTWARE OR APPLICATIONS OR OTHER FINANCIAL LOSS ARISING OUT OF OR IN CONNECTION WITH THE ABILITY OR INABILITY TO USE THE PRODUCTS, ACCESSORIES OR SOFTWARE TO THE FULL EXTENT THESE DAMAGES MAY BE DISCLAIMED BY LAW.

Some states and jurisdictions do not allow the limitation or exclusion of incidental or consequential damages, or limitation on the length of an implied warranty, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state or from one jurisdiction to another.

Laws in the United States and other countries preserve for Motorola certain exclusive rights for copyrighted Motorola software such as the exclusive rights to reproduce and distribute copies of the Motorola software. Motorola software may only be copied into, used in, and redistributed with, the Products associated with such Motorola software. No other use, including without limitation disassembly of such Motorola software or exercise of the exclusive rights reserved for Motorola, is permitted.
Some Motorola phones are measured for compatibility with hearing aids. If the box for your particular model has "Rated for Hearing Aids" printed on it, the following explanation applies.

When some mobile phones are used near some hearing devices (hearing aids and cochlear implants), users may detect a buzzing, humming, or whining noise. Some hearing devices are more immune than others to this interference noise, and phones also vary in the amount of interference they generate.

The wireless telephone industry has developed ratings for some of their mobile phones, to assist hearing device users in finding phones that may be compatible with their hearing devices. Not all phones have been rated. Phones that are rated have the rating on their box or a label on the box.

The ratings are not guarantees. Results will vary depending on the user’s hearing device and hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your personal needs.

**M-Ratings:** Phones rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. M4 is the better/higher of the two ratings.

**T-Ratings:** Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device’s telecoil ("T Switch" or "Telephone Switch") than unrated phones. T4 is the better/higher of the two ratings. (Note that not all hearing devices have telecoils in them.)

Hearing devices may also be measured for immunity to this type of interference. Your hearing device manufacturer or hearing health professional may help you find results for your hearing device. The more immune your hearing aid is, the less likely you are to experience interference noise from mobile phones.
Information from the World Health Organization

Present scientific information does not indicate the need for any special precautions for the use of mobile phones. If you are concerned, you may want to limit your own or your children’s RF exposure by limiting the length of calls or by using handsfree devices to keep mobile phones away from your head and body.

Product Registration

Online Product Registration: direct.motorola.com/hellomoto/Motosupport/source/registration.asp
Product registration is an important step toward enjoying your new Motorola product. Registering helps us facilitate warranty service, and permits us to contact you should your product require an update or other service. Registration is for U.S. residents only and is not required for warranty coverage.
Please retain your original dated sales receipt for your records. For warranty service of your Motorola Personal Communications Product you will need to provide a copy of your dated sales receipt to confirm warranty status.
Thank you for choosing a Motorola product.
Export Law Assurances

This product is controlled under the export regulations of the United States of America and Canada. The Governments of the United States of America and Canada may restrict the exportation or re-exportation of this product to certain destinations. For further information contact the U.S. Department of Commerce or the Canadian Department of Foreign Affairs and International Trade.

Caring for the Environment by Recycling

This symbol on a Motorola product means the product should not be disposed of with household waste.

Disposal of your Mobile Device and Accessories

Please do not dispose of mobile devices or electrical accessories (such as chargers, headsets, or batteries) with your household waste. These items should be disposed of in accordance with the national collection and recycling schemes operated by your local or regional authority. Alternatively, you may return unwanted mobile devices and electrical accessories to any Motorola Approved Service Center in your region. Details of Motorola approved national recycling schemes, and further information on Motorola recycling activities can be found at www.motorola.com/recycling.

Disposal of your Mobile Device Packaging and User's Guide

Product packaging and user's guides should only be disposed of in accordance with national collection and recycling requirements. Please contact your regional authorities for more details.
California Perchlorate Label

Some mobile phones use an internal, permanent backup battery on the printed circuit board that may contain very small amounts of perchlorate. In such cases, California law requires the following label:

“Perchlorate Material – special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate.”

There is no special handling required by consumers.

Privacy and Data Security

Motorola understands that privacy and data security are important to everyone. Because some features of your mobile device may affect your privacy or data security, please follow these recommendations to enhance protection of your information:

- **Monitor access**—Keep your mobile device with you and do not leave it where others may have unmonitored access. Lock your device’s keypad where this feature is available.
- **Keep software up to date**—If Motorola or a software/application vendor releases a patch or software fix for your mobile device which updates the device’s security, install it as soon as possible.
- **Erase before recycling**—Delete personal information or data from your mobile device prior to disposing of it or turning it in for recycling. For step-by-step instructions on how to delete all personal information from your device, see the section entitled “master clear” or “delete data” in this user’s guide.

**Note:** For information on backing up your mobile device data before erasing it, go to www.motorola.com and then navigate to the “downloads” section of the consumer Web page for “Motorola Backup” or “Motorola Phone Tools.”

- **Understanding AGPS**—In order to comply with emergency caller location requirements of the FCC, certain Motorola mobile devices incorporate Assisted Global Positioning System (AGPS) technology. AGPS technology also can be used in non-emergency applications to track and monitor a user’s location—for example, to provide
driving directions. Users who prefer not to permit such tracking and monitoring should avoid using such applications.

If you have further questions regarding how use of your mobile device may impact your privacy or data security, please contact Motorola at privacy@motorola.com, or contact your service provider.

Smart Practices While Driving

Drive Safe, Call Smart™
Check the laws and regulations on the use of mobile devices and their accessories in the areas where you drive. Always obey them. The use of these devices may be prohibited or restricted in certain areas. Go to www.motorola.com/callsmart for more information.

Your mobile device lets you communicate by voice and data—at almost anywhere, anytime, wherever wireless service is available and safe conditions allow. When driving a car, driving is your first responsibility. If you choose to use your mobile device while driving, remember the following tips:

• Get to know your Motorola mobile device and its features such as speed dial and redial. If available, these features help you to place your call without taking your attention off the road.

• When available, use a handsfree device. If possible, add an additional layer of convenience to your mobile device with one of the many Motorola Original handsfree accessories available today.

• Position your mobile device within easy reach. Be able to access your mobile device without removing your eyes from the road. If you receive an incoming call at an inconvenient time, if possible, let your voice mail answer it for you.

• Let the person you are speaking with know you are driving; if necessary, suspend the call in heavy traffic or hazardous weather conditions. Rain, sleet, snow, ice, and even heavy traffic can be hazardous.

• Do not take notes or look up phone numbers while driving. Jotting down a “to do” list or going through your address book takes attention away from your primary responsibility—driving safely.
• Dial sensibly and assess the traffic; if possible, place calls when your car is not moving or before pulling into traffic. If you must make a call while moving, dial only a few numbers, check the road and your mirrors, then continue.

• Do not engage in stressful or emotional conversations that may be distracting. Make people you are talking with aware you are driving and suspend conversations that can divert your attention away from the road.

• Use your mobile device to call for help. Dial 911 or other local emergency number in the case of fire, traffic accident, or medical emergencies.*

• Use your mobile device to help others in emergencies. If you see an auto accident, crime in progress, or other serious emergency where lives are in danger, call 911 or other local emergency number, as you would want others to do for you.*

• Call roadside assistance or a special non-emergency wireless assistance number when necessary. If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen, call roadside assistance or other special non-emergency wireless number.*
