Congratulations!

Congratulations on your purchase of the cool MOTORAZR™ V3s mobile phone.

Whether you’re a talker, a texter, or an aspiring photographer, the V3s does it all.

We’ve crammed all the main features of your phone into this handy guide—you can even take the guide with you.

If you’d like even more information about how to use your new MOTORAZR V3s mobile phone, visit www.motorola.com/support/V3s.

So, let’s go.

Note: Your phone may not appear exactly as the images in this manual. However, all key locations, sequences, and functions are the same.
Your Phone Basics

You may have mastered these already, but here are a few essential basics:

**Turn it on & off**
Press and hold the power/end key for a few seconds to turn the phone on/off.

**Menu navigation**
- Press the center key to open the Main Menu.
- Press the navigation key up, down, right or left to highlight a menu option.
- Press or select (left soft key) to select the highlighted option.

**Customize**

Add your personal touch.

**Create shortcuts**
Choose the features you want to access with a single key press from the home screen—this is really handy:

- Press 

**Set your screen saver and wallpaper**
Change the wallpaper and screen saver images to ones that make you smile:

- Press 

**Set your display theme**
Set your phone’s look and feel to mirror your mood:

- Press 

---

**Smart/speakerphone key**
Make a selection or turn the handsfree speaker on/off.

**Volume keys**
Increase/decrease ring volume & call volume.

**Camera key**
Capture the moment.

**Send/answer key**
Make & answer calls. Press from the home screen to see a list of recently dialed calls.

**USB connector**
Charge & connect to a PC.

**Soft keys**
Perform the functions shown at the bottom of the screen.

**Center key**
Select a highlighted option or open the main menu from the home screen.

**Power/end key**
Press & hold to turn the phone on/off, or press & release to end a call.

**Navigation key**
Scroll through lists & menus.
A few shortcuts we think you’ll find really useful:

**voicemail**
Press and hold 1. (If your voicemail number is not pre-programmed, press 1, then Store.) Give your service provider a call if you don’t know the number.

**recent calls**
Quickly see your call history by pressing • > Recent Calls. You can then choose to access your Received or Dialed calls or your Call Times.

**your phone number**
See your own phone number by pressing CLR followed by #.

**camera**
Press (from the home screen.

**lock/unlock keys**
Prevent accidental calls by pressing • followed by *.

---

Yes, your phone makes calls too! And it’s very good at it.

**make a call**
Enter a number and press @.

**answer a call**
When your phone rings or vibrates, press @.

**end a call**
Press @.

---

**select a ringtone**
Express yourself—choose your own ringtone for incoming calls.

**First**—
Set Style to Loud, Soft, or Vibe then Ring:
• > Extras > Alert Styles > Style

**Next**—
Change the style Detail setting:
• > Extras > Alert Styles > style Detail
1. Scroll to Calls and press Change.
2. Scroll to a ringtone and press Select.

**change ring volume**
Sometimes you want to hear your ringtone in all its glory, and sometimes you don’t.
• > Extras > Alert Styles > style Detail > Ring Volume
Press • up or down to raise or lower ringer volume, then press Ok. (You can’t change the volume when the alert style is set to Silent.)

---

**phonebook**
Made a new friend? Urgently need to contact someone? No problem—saving and calling your contacts is effortless.

**save contact**
1. Enter the number on the home screen and press Store.
2. Enter the contact details.
3. Press Done when you’re finished.

**call a contact**
1. Press • to open the main menu, then select Contacts.
2. Scroll through the list to highlight the contact’s number.
3. Press @.
emergency calls

To call an emergency number, enter the emergency number and press 0.

Your service provider programs emergency phone numbers, (such as 112 or 911), that you can call under any circumstances, even when your phone is locked. Emergency numbers vary by country. Your phone’s pre-programmed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues.

redial a number

1. From the home screen, press 0 to see a list of recently dialed calls.
2. Scroll to the entry you want to call and press 0.

messages

Here are a few basics to get you going:

send a message

1. Select the message type: New Short Message, New MMS Message, * or MMS Templates *.
2. Enter your message. If this is an MMS message, press Options, select Insert, then insert a Picture, Voice Record, or Sound.
3. Press Send To.
4. Scroll to a contact and press 0, or select [New Number] or [New Email Address] *, enter the information, and press Ok.
5. Press Send to send the message.

read a message

When you receive a message, your phone shows 1 New message. Press Read to open the message. Reply by pressing Reply.

* Feature is network/subscription dependent and may not be available in all areas. Contact your service provider for more information.

camera

Connect with photos ...

Your phone’s camera lens is on the back of the phone when the flip is open. To get the sharpest photos, wipe the lens clean with a dry cloth before you take a photo.

take photo

1. From the home screen, press the camera key 0.

Tip: You can also activate your phone’s camera by pressing 0 > Media Gallery > Camera.

Your phone displays the active viewfinder image:

Bluetooth® connections

No wires to tie you down.

You can connect your phone to an optional Bluetooth headset or car kit for handsfree use. See your phone’s user guide for more information on Bluetooth connections.

turn Bluetooth power on/off

2. Scroll to On and press Select.

place phone in discoverable mode

Allow an unknown Bluetooth device to discover your phone.

If the device asks permission to bond to your phone, press YES and enter the device’s PIN code to create a secure connection.

Note: The PIN code is typically set to 0000. See the instructions that came with the device for the device’s PIN code and other information.
Point the camera lens at the subject. Press up and down to select and adjust Zoom, Style, or Lighting Conditions. Press Options to select Go To Pictures, Auto-Timed Capture, Capture Title, Camera Setup, or View Free Space. Press the camera key to take the photo. Press Options to open the Store Options menu. Then select Store Only, Apply as Wallpaper, Apply as Screen Saver, or Apply as Phonebook Entry.

Tip: To take a self-portrait, activate the camera, close the flip, point the lens at yourself, center yourself in the external display, and press the smart/speakerphone key. (Hold the phone at least 18 inches away.)

This is a standard main menu layout. Your phone’s menu may be a little different.

* Network Dependent

The home screen displays when you turn on the phone. Status indicators appear across the top of the home screen:

Signal Strength
Coverage
Roam
Message
Battery Level
Ring Alert
AGPS Service

Note: Your phone’s home screen may be different than the one shown.
See your phone’s user guide for a complete listing of status indicators.

pair with headset, handsfree device, or computer
Before you try to connect with another Bluetooth device, make sure your phone’s Bluetooth power is On and the other device is in pairing or bonding mode. (See the other device’s user guide.)

1. > Settings > Connection > Bluetooth Link > Handsfree > [Look For Devices]

Your phone lists the devices it finds within its range. If it is already connected to a device, it identifies that device in the list with a (in-use indicator).

1. Scroll to a device in the list and press to connect to the device.

2. If the device asks permission to bond with your phone, press YES and enter the device’s PIN code to create a secure connection.

When the connection is made, your phone shows (Bluetooth) indicator or a Bluetooth message in the home screen.
battery use & safety

IMPORTANT: HANDLE AND STORE BATTERIES PROPERLY TO AVOID INJURY OR DAMAGE. Most battery issues arise from improper handling of batteries, and particularly from the continued use of damaged batteries.

DON'Ts

• Don't disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery.
• Don't let the phone or battery come in contact with water. Water can get into the phone’s circuits, leading to corrosion. If the phone and/or battery get wet, have them checked by your carrier or contact Motorola even if they appear to be working properly.
• Don't allow the battery to touch metal objects. If metal objects, such as jewelry, are in prolonged contact with the battery contact points, the battery could become very hot.
• Don’t place your battery near a heat source. Excessive heat can damage the phone or the battery. High temperatures can cause the battery to swell, leak, or malfunction. Therefore:
  • Do not dry a wet or damp battery with an appliance or heat source, such as a hair dryer or microwave oven.
• Avoid leaving your phone in your car in high temperatures.

DOs

• Do avoid dropping the battery or phone. Dropping these items, especially on a hard surface, can potentially cause damage.
• Do contact your service provider or Motorola if your phone or battery has been damaged from dropping or high temperatures.

IMPORTANT: USE MOTOROLA ORIGINAL PRODUCTS FOR QUALITY ASSURANCE AND SAFEGUARDS. To aid consumers in identifying authentic Motorola batteries from non-original or counterfeit batteries (that may not have adequate safety protection), Motorola provides holograms on its batteries. Consumers should confirm that any battery they purchase has a “Motorola Original” hologram.

Motorola recommends you always use Motorola-branded batteries and chargers. Motorola mobile devices are designed to work with Motorola batteries. If you see a message on the small print indicating an issue with your battery, follow the steps:

1. If there is a hologram, replace the battery and retry charging it;
2. If there is no hologram, the battery is not a Motorola battery;
3. Remove the battery and inspect it to confirm that it has a “Motorola Original” hologram;
4. If there is no hologram, the battery is not a Motorola battery;
5. If there is a hologram, replace the battery and retry charging it;
6. If the message remains, contact a Motorola Authorized Service Center.

Important: Motorola’s warranty does not cover damage to the phone caused by non-Motorola batteries and/or chargers.

Warning: Use of a non-Motorola battery or charger may present a risk of fire, explosion, leakage, or other hazard.

PROPER AND SAFE BATTERY DISPOSAL AND RECYCLING

Proper battery disposal is not only important for safety, it benefits the environment. Consumers may recycle their used batteries in many retail or service provider locations. Additional information on proper disposal and recycling may be found on the Web:

• www.motorola.com/recycling
• www.rbrc.org/call2recycle/ (in English only)

Disposal: Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center or national recycling organizations for more information on how to dispose of batteries.

Warning: Never dispose of batteries in a fire because they may explode.

service & repairs

If you have questions or need assistance, we’re here to help.
Go to www.motorola.com/consumer/support, where you can select from a number of customer care options. You can also contact the Motorola Customer Support Center at 1-800-341-1769 (United States), 1-888-390-6456 (TTY/TDD United States for hearing impaired), or 1-800-461-4575 (Canada).

Specific Absorption Rate Data

This model wireless phone meets the government’s requirements for exposure to radio waves.

Your wireless phone is a radio transmitter and receiver. It is designed and manufactured not to exceed limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission (FCC) of the U.S. Government and by the Canadian regulatory authorities. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age or health.

The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC and by the Canadian regulatory authorities is 1.6 watts/kg. Tests for SAR are conducted using standard operating positions accepted by the FCC and by Industry Canada with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station, the lower the power output.

Before a phone model is available for sale to the public in the U.S. and Canada, it must be tested and certified to the FCC and Industry Canada that it does not exceed the limit established by each government for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) reported to the FCC and available for review by Industry Canada. The highest SAR value for this model phone when tested for use at the ear is 1.4 W/kg, and when worn on the body, as described in this user guide, is 0.77 W/kg. (Body-worn measurements differ among phone models, depending upon available accessories and regulatory requirements).

While there may be differences between the SAR levels of various phones and at various positions, they all meet the governmental requirements for safe exposure. Please note that improvements to this product model could cause differences in the SAR value for later products; in all cases, products are designed to be within the guidelines. Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications & Internet Association (CTIA) Web site: http://www.phonefacts.net or the Canadian Wireless Telecommunications Association (CWTA) Web site: http://www.cwta.ca

Safety and General Information

This section contains important information on the safe and efficient operation of your mobile device. Read this information before using your mobile device.

Exposure to Radio Frequency (RF) Energy

Your mobile device contains a transmitter and receiver. When it is ON, it receives and transmits RF energy. When you communicate with your mobile device, the system handling your call controls the power level at which your mobile device transmits. Your Motorola mobile device is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

Operational Precautions

For optimal mobile device performance, and to be sure that human exposure to RF energy does not exceed the guidelines set forth in the relevant standards, always follow these instructions and precautions.

Product Operation

When placing or receiving a phone call, hold your mobile device just like you would a landline phone.

If you wear the mobile device on your body, always place the mobile device in a Motorola-supplied or approved clip, holder, holster, case, or body harness. If you do not use a body-worn accessory supplied or approved by Motorola, keep the mobile device and its antenna at least 2.5 centimeters (1 inch) from your body when transmitting.

Using accessories not supplied or approved by Motorola may cause your mobile device to exceed RF energy exposure guidelines. For a list of Motorola-supplied or approved accessories, visit our Web site at: www.motorola.com.

RF Energy Interference/Compatibility

Nearly every electronic device is subject to RF energy interference from external sources if inadequately shielded, designed, or otherwise configured for RF energy compatibility. In some circumstances your mobile device may cause interference with other devices.

Follow Instructions to Avoid Interference Problems

Turn off your mobile device in any location where posted notices instruct you to do so.

In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Implantable Medical Devices

If you have an implantable medical device, such as a pacemaker or defibrillator, consult your physician before using this mobile device.

Persons with implantable medical devices should observe the following precautions:

http://www.motorola.com
- ALWAYS keep the mobile device more than 20 centimeters (8 inches) from the implantable medical device when the mobile device is turned ON.
- DO NOT carry the mobile device in the breast pocket.
- Use the ear opposite the implantable medical device to minimize the potential for interference.
- Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking place.

Read and follow the directions from the manufacturer of your implantable medical device. If you have any questions about using your mobile device with your implantable medical device, consult your healthcare provider.

Driving Precautions
The use of wireless phones while driving may cause distraction. Discontinue a call if you can’t concentrate on driving.
Additionally, the use of wireless devices and their accessories may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.
Responsible driving practices can be found in the “Smart Practices While Driving” section in this guide (or separate guide).

Operational Warnings
Obey all posted signs when using mobile devices in public areas.

Potentially Explosive Atmospheres
Areas with potentially explosive atmospheres are often, but not always, posted and can include fueling areas, such as below decks on boats, fuel or chemical transfer or storage facilities, or areas where the air contains chemicals or particles, such as grain dust, or metal powders.
When you are in such an area, turn off your mobile device, and do not remove, install, or charge batteries. In such areas, sparks can occur and cause an explosion or fire.

Symbol Key
Your battery, charger, or mobile device may contain symbols, defined as follows:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>!</td>
<td>Important safety information follows.</td>
</tr>
<tr>
<td>❌</td>
<td>Do not dispose of your battery or mobile device in a fire.</td>
</tr>
<tr>
<td>🔄</td>
<td>Your battery or mobile device may require recycling in accordance with local laws. Contact your local regulatory authorities for more information.</td>
</tr>
<tr>
<td>⚧</td>
<td>Do not throw your battery or mobile device in the trash.</td>
</tr>
<tr>
<td>⚠️</td>
<td>Do not let your battery, charger, or mobile device get wet.</td>
</tr>
<tr>
<td>🎧</td>
<td>Listening at full volume to music or voice through a headset may damage your hearing.</td>
</tr>
</tbody>
</table>

Batteries & Chargers
Caution: Improper treatment or use of batteries may present a danger of fire, explosion, leakage, or other hazard. For more information, see the “battery use & safety” section in the user’s guide.

Keep Your Mobile Device and Its Accessories Away From Small Children
These products are not toys and may be hazardous to children. For example:
- A choking hazard may exist for small, detachable parts.
- Improper use could result in loud sounds, possibly causing hearing injury.
- Improperly handled batteries could overheat and cause a burn.

Glass Parts
Some parts of your mobile device may be made of glass. This glass could break if the product is dropped on a hard surface or receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by a qualified service center.

Seizures/Blackouts
Some people may be susceptible to epileptic seizures or blackouts when exposed to flashing lights, such as when playing video games. These may occur even if a person has never had a previous seizure or blackout.
If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult with your physician before playing video games or enabling a flashing-lights feature (if available) on your mobile device.
Discontinue use and consult a physician if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. It is always a good idea to hold the screen away from your eyes, leave the lights on in the room, take a 15-minute break every hour, and stop use if you are very tired.

Caution About High Volume Usage
Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the volume sound level, the less time is required before your hearing could be affected. To protect your hearing:

- Limit the amount of time you use headsets or headphones at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you can’t hear people speaking near you.

If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears, or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked.
For more information about hearing, see our Web site at www.motorola.com/hearingsafety (in English only).

Repetitive Motion
When you repetitively perform actions such as pressing keys or entering finger-written characters, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. If you continue to have discomfort during or after such use, stop use and see a physician.
Mar0108

Industry Canada Notice to Users
Operation is subject to the following two conditions: (1) This device may not cause interference and (2) This device must accept any interference, including interference that may cause undesired operation of the device. See RSS-GEN 7.1.5.

FCC Notice to Users
The following statement applies to all products that have received FCC approval.
Applicable products bear the FCC logo, and/or an FCC ID in the format “FCC-ID:xxxxxx” on the product label.
Motorola has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user’s authority to operate the equipment. See 47 CFR Sec. 15.21.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. See 47 CFR Sec. 15.19(3).
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Motorola Limited Warranty for the United States and Canada
What Does this Warranty Cover?
Subject to the exclusions contained below, Motorola, Inc. warrants its telephones, pagers, messaging devices, and consumer and professional two-way radios (excluding commercial, government or industrial radios) that operate via Family Radio Service or General Mobile Radio Service, Motorola-branded or certified accessories sold for use with these Products (“Accessories”) and Motorola software contained on CD-ROMs or other tangible media and sold for use with these Products (“Software”) to be free from defects in materials and workmanship in normal use, for the period of time as stated below, under normal and noncommercial use, when shipped with the above listed Products, to the original retail purchaser of such Product(s), Accessory or Software. This limited warranty is not transferable and is available only to consumers who are end users and are not engaged in commercial, professional, reseller, rental, or other non-consumer activity.

What Will Motorola Do?
Motorola, at its option, will either (1) repair the defective product(s) or Accessory or Software through a network of service centers, (2) replace it with a product(s) or Accessory or Software of equal or greater value, or (3) refund the purchase price of the product(s), Accessory or Software.
Motorola may use either new or reconditioned parts when repairing any Product, Accessory or Software. Repair or replacement of parts under this limited warranty will be the limits of this limited warranty. This limited warranty does not cover products, Accessory or Software that have been subject to abuse, accidental damage, improper maintenance, or modification, or consumables, such as fuses or batteries. This limited warranty is void if the factory applied serial number has been altered or removed from the Product, Accessory or Software.

Who is Covered?
This limited warranty is only valid to the original retail purchaser of the Product, Accessory or Software. Proof of purchase is required to obtain warranty service. If more than one owner succeeds in ownership of the Product, Accessory or Software during the terms of this limited warranty, each succeeding owner must obtain warranty service within the term of this limited warranty for the original owner in order to qualify for warranty service for that original owner.

What Does the Limited Warranty Cover?
This limited warranty covers defects in materials and workmanship in your Product, Accessory or Software. This limited warranty also covers any defects in workmanship and materials in software written by Motorola in the course of performing service and support for your Product that is provided to you by Motorola. This limited warranty is invalid if the factory applied serial number on the Product has been removed or defaced.

What Is Not Covered?
This warranty does not cover normal wear and tear. This limited warranty does not cover damage caused by: use of the Product, Accessory or Software in anything other than its normal, customary and intended manner; accident, acts of God, misuse, abuse, neglect, contamination, improper installation, operation, maintenance or modification; improper or unauthorized repair, replacement, alteration, or modification of the Product, Accessory or Software; damage caused by software,Memory, or other program material; or any third party products, including accessories not furnished by Motorola. This limited warranty also does not cover: (a) defects or damages attributable to acts of God, such as power surges, or (b) any problems that are not due to a defect in materials or workmanship. Coverage for the above items is available at Motorola’s commercially available extended warranty program. Additional information is available by contacting Motorola directly.

How to Obtain Warranty Service?
To obtain warranty service, you should contact Motorola or an authorized service provider. To locate a service provider near you, you can visit our Web site at www.motorola.com, or you may call 1-800-448-9284. If you choose to contact Motorola, please have your proof of purchase available and call from a telephone located near the defective Product, Accessory or Software so that the service representative can assist you with the proper handling of the defective Product, Accessory or Software. When shipping the Product, Accessory or Software, please use a shipping method with a tracking or delivery confirmation. Motorola will not accept responsibility for items lost in transit.

What Other Limitations Are There?
ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE APPLY TO THIS PRODUCT FOR NO LONGER THAN THE PERIOD OF TIME STATED ABOVE AND NO IMPLIED WARRANTIES APPLY AFTER THIS PERIOD. SOME STATES OR PROVINCES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE OR PROVINCE TO PROVINCE.

How Does State Law Relate to This Warranty?
This warranty gives you specific legal rights, and you may also have other rights which vary from state to state or province to province. Motorola’s obligations under this Limited Warranty are subject to the exclusion of consequential and incidental damages. Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so this limitation may not apply to you.

### Exclusions

- **Normal Wear and Tear.** Periodic maintenance, repair and replacement of parts due to normal wear and tear are excluded from coverage.
- **Batteries.** Only batteries whose fully charged capacity falls below 80% of their rated capacity and batteries that leak are covered by this limited warranty.
- **Abuse & Misuse.** Defects or damage that result from: (a) improper operation, storage, misuse or abuse, accident or neglect, such as physical damage (cracks, scratches, etc.) to the surface of the product resulting from misuse; (b) contact with liquid, water, rain, extreme humidity or heavy perspiration, sand, dirt or the like, extreme heat, or food; (c) use of the Products or Accessories for commercial purposes or subjecting the Product or Accessory to abnormal usage or conditions; or (d) other acts which are not the fault of Motorola, are excluded from coverage.
- **Use of Non-Motorola Products and Accessories.** Defects or damage that result from the use of Non-Motorola branded or certified Products, Accessories, Software or other peripheral equipment are excluded from coverage.
- **Unauthorized Service or Modification.** Defects or damages resulting from service, testing, adjustment, installation, maintenance, alteration, or modification in any way by someone other than Motorola, or its authorized service centers, are excluded from coverage.
- **Altered Products.** Products or Accessories with (a) serial numbers or date tags that have been removed, altered or obliterated; (b) broken seals or that show evidence of tampering; (c) mismatched board serial numbers; or (d) nonconforming or non-Motorola housings, or parts, are excluded from coverage.
- **Communication Services.** Defects, damages, or the failure of Products, Accessories or Software due to any communication service or signal you may subscribe to or use with the product are excluded from coverage.

### Software

<table>
<thead>
<tr>
<th>Software</th>
<th>Length of Coverage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Software. Applies only to physical defects in the media that embodies the copy of the software (e.g. CD-ROM, or floppy disk).</td>
<td>Ninety (90) days from the date of purchase.</td>
</tr>
</tbody>
</table>

### Exclusions

- **Software Embodied in Physical Media.** No warranty is made that the software will meet your requirements or will work in combination with any hardware or software applications provided by third parties, that the operation of the software products will be uninterrupted or error free, or that all defects in the software products will be corrected.
- **Software NOT Embodied in Physical Media.** Software that is not embodied in physical media (e.g. software that is downloaded from the internet), is provided “as is” and without warranty.

### Who Is Covered?

This warranty extends only to the first consumer purchaser, and is not transferable.

### What Will Motorola Do?

Motorola, at its option, will at no charge repair, replace or refund the purchase price of any Products, Accessories or Software that does not conform to this warranty. We may use functionally equivalent reconditioned/refurbished/pre-owned or new Products, Accessories or parts. No data, software or applications added to your Product, Accessory or Software, including but not limited to personal contacts, games and ringer tones, will be reinstalled. To avoid losing such data, software and applications please create a back up prior to requesting service.

### How to Obtain Warranty Service or Other Information

**USA**
- Phones: 1-800-331-6456
- Pagers: 1-800-548-9854
- Two-Way Radios and Messaging Devices: 1-800-353-2729

**Canada**
- All Products: 1-800-461-4575
- TTY: 1-888-390-6465

For Accessories and Software, please call the telephone number designated above for the product with which they are used.

You will receive instructions on how to ship the Products, Accessories or Software, at your expense, to a Motorola Authorized Repair Center. To obtain service, you must include: (a) a copy of your receipt, bill of sale or other comparable proof of purchase; (b) a written description of the problem; (c) the name of your service provider, if applicable; (d) the name and location of the installation facility (if applicable) and, most importantly; (e) your address and telephone number.

### What Other Limitations Are There?

ANY IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY, OTHERWISE THE REPAIR, REPLACEMENT, OR REFUND AS PROVIDED UNDER THIS EXPRESS LIMITED WARRANTY IS THE EXCLUSIVE REMEDY OF THE CONSUMER, AND IS PROVIDED IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED. IN NO EVENT SHALL MOTOROLA BE LIABLE, WHETHER IN CONTRACT OR TORT (INCLUDING NEGLIGENCE) FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT, ACCESSORY OR SOFTWARE, OR FOR ANY INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES OF ANY KIND, OR LOSS OF REVENUE OR PROFITS, LOSS OF BUSINESS, LOSS OF INFORMATION OR DATA, SOFTWARE OR APPLICATIONS OR OTHER FINANCIAL LOSS ARISING OUT OF OR IN CONNECTION WITH THE ABILITY OR INABILITY TO USE THE PRODUCTS, ACCESSORIES OR SOFTWARE TO THE FULL EXTENT THESE DAMAGES MAY BE DISCLAIMED BY LAW.

Some states and jurisdictions do not allow the limitation or exclusion of incidental or consequential damages, or limitation on the length of an implied warranty, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state or from one jurisdiction to another.

Laws in the United States and other countries preserve for Motorola certain exclusive rights for copyrighted Motorola software such as the exclusive rights to reproduce and distribute copies of the Motorola software. Motorola software may only be copied into, used in, and redistributed with, the Products associated with such Motorola software. No other use, including without limitation disassembly of such Motorola software or exercise of the exclusive rights reserved for Motorola, is permitted.

### Hearing Aid Compatibility with Mobile Phones

Some Motorola phones are measured for compatibility with hearing aids. If the box for your particular model has “Rated for Hearing Aids” printed on it, the following explanation applies.

The wireless telephone industry has developed ratings for some of their mobile phones, to assist hearing device manufacturer or hearing health professional may help you find results for your hearing needs. T-Ratings: Phones rated T3 or T4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. T4 is the better/higher of the two ratings. M-Ratings: Phones rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. M4 is the better/higher of the two ratings.
device. The more immune your hearing aid is, the less likely you are to experience interference noise from mobile phones.

Information from the World Health Organization
Present scientific information does not indicate the need for any special precautions for the use of mobile phones. If you are concerned, you may want to limit your own or your children’s RF exposure by limiting the length of calls or by using handsfree devices to keep mobile phones away from your head and body.

Product Registration
Online Product Registration:
direct.motorola.com/hellomoto/ Motosupport/source/registration.asp
Product registration is an important step toward enjoying your new Motorola product. Registering helps us facilitate warranty service, and permits us to contact you should your product require an update or other service. Registration is for U.S. residents only and is not required for warranty coverage.

Please retain your original dated sales receipt for your records. For warranty service of your Motorola Personal Communications Product you will need to provide a copy of your dated sales receipt to confirm warranty status.
Thank you for choosing a Motorola product.

Export Law Assurances
This product is controlled under the export regulations of the United States of America and Canada. The Governments of the United States of America and Canada may restrict the exportation or re-exportation of this product to certain destinations. For further information contact the U.S. Department of Commerce or the Canadian Department of Foreign Affairs and International Trade.

Caring for the Environment by Recycling
This symbol on a Motorola product means the product should not be disposed of with household waste.

Disposal of your Mobile Device and Accessories
Please do not dispose of mobile devices or electrical accessories (such as chargers, headsets, or batteries) with your household waste. These items should be disposed of in accordance with the national collection and recycling schemes operated by your local or regional authority. Alternatively, you may return unwanted mobile devices and electrical accessories to any Motorola Approved Service Center in your region. Details of Motorola approved national recycling schemes, and further information on Motorola recycling activities can be found at: www.motorola.com/recycling

Disposal of your Mobile Device Packaging and User’s Guide
Product packaging and user’s guides should only be disposed of in accordance with national collection and recycling requirements. Please contact your regional authorities for more details.

California Perchlorate Label
Some mobile phones use an internal, permanent backup battery on the printed circuit board that may contain very small amounts of perchlorate. In such cases, California law requires the following label:
“Perchlorate Material – special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate.”
There is no special handling required by consumers.

Privacy and Data Security
Motorola understands that privacy and data security are important to everyone. Because some features of your mobile device may affect your privacy or data security, please follow these recommendations to enhance protection of your information:

• Monitor access—Keep your mobile device with you and do not leave it where others may have unmonitored access. Lock your device’s keypad where this feature is available.
• Keep software up to date—If Motorola or a software/application vendor releases a patch or software fix for your mobile device that updates the device’s security, install it as soon as possible.
• Erase before recycling—Delete personal information or data from your mobile device prior to disposing of it or turning it in for recycling. For step-by-step instructions on how to delete all personal information from your device, see the section entitled “master clear” or “delete data” in the user’s guide.

For information on backing up your mobile device data before erasing it, go to www.motorola.com and then navigate to the “downloads” section of the consumer Web page for “Motorola Backup” or “Motorola Phone Tools.”

• Understanding AGPS—To provide location information for emergency calls, certain Motorola mobile devices incorporate Assisted Global Positioning System (AGPS) technology. AGPS technology also can be used in non-emergency applications to track and monitor a user’s location—for example, to provide driving directions. Users who prefer not to permit such tracking and monitoring should avoid using such applications.

If you have further questions regarding how the use of your mobile device may impact your privacy or data security, please contact Motorola at privacy@motorola.com or contact your service provider.

Smart Practices While Driving
Drive Safe, Call Smart
Check the laws and regulations on the use of mobile devices and their accessories in the areas where you drive. Always obey them. The use of these devices may be prohibited or restricted in certain areas—for example, handsfree use only. Go to www.motorola.com/callsmart (in English only) for more information.

Your mobile device lets you communicate by voice and data—almost anywhere, anytime, wherever wireless service is available and safe conditions allow. When driving a car, driving is your first responsibility. If you choose to use your mobile device while driving, remember the following tips:

• Get to know your Motorola mobile device and its features such as speed dial and redial. If available, these features help you to place your call without taking your attention off the road.
• When available, use a handsfree device. If possible, add an additional layer of convenience to your mobile device with one of the many Motorola Original handsfree accessories available today.
• Position your mobile device within easy reach. Be able to access your mobile device without removing your eyes from the road. If you receive an incoming call at an inconvenient time, if possible, let your voicemail answer it for you.
• Let the person you are speaking with know you are driving; if necessary, suspend the call in heavy traffic or hazardous weather conditions. Rain, sleet, snow, ice, and even heavy traffic can be hazardous.
• Do not take notes or look up phone numbers while driving. Jotting down a “to do” list or going through your address book takes attention away from your primary responsibility—driving safely.
• Dial sensibly and assess the traffic; if possible, place calls when your car is not moving or before pulling into traffic. If you must make a call while moving, dial only a few numbers, check the road and your mirrors, then continue.
• Do not engage in stressful or emotional conversations that may be distracting. Make people you are talking with aware you are driving and suspend conversations that can divert your attention away from the road.
• Use your mobile device to call for help. Dial 911 or other local emergency number in the case of fire, traffic accident, or medical emergencies.*
• Use your mobile device to help others in emergencies. If you see an auto accident, crime in progress, or other serious emergency where lives are in danger, call 911 or other local emergency number, as you would want others to do for you.*
• Call roadside assistance or a special non-emergency wireless assistance number when necessary. If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen, call roadside assistance or other special non-emergency wireless number.*

* Whenever wireless phone service is available.
Note: Do not ship your phone to the above address. If you need to return your phone for repairs, replacement, or warranty service, please contact the Motorola Customer Support Center at:
1-800-331-6456 (United States)
1-888-390-6456 (TTY/TDD United States for hearing impaired)
1-800-461-4575 (Canada)

Certain mobile phone features are dependent on the capabilities and settings of your service provider's network. Additionally, certain features may not be activated by your service provider, and/or the provider's network settings may limit the feature's functionality. Always contact your service provider about feature availability and functionality. All features, functionality, and other product specifications, as well as the information contained in this user's guide are based upon the latest available information and are believed to be accurate at the time of printing. Motorola reserves the right to change or modify any information or specifications without notice or obligation.
