welcome

Work Remotely – With Microsoft® Windows® Mobile, keep on top of work e-mail and edit documents with Documents To Go® from wherever you are in the world.

Freedom from Wires – Your life just got a little less wired with Bluetooth® wireless technology.

My Phone, My Way – Customize your home screen with personal pictures, change wallpapers, use your favorite song as your ringtone.

Anytime Entertainment – Transfer video and music files from your computer to your phone and instantly a media library is available anytime.

Help & QuickStart Tour – On-phone help is available anytime. Just press Start > Help. For even more information, go to http://www.motorola.com/support/q9c.

Note: Before using your phone for the first time, be sure to review the important safety information in the user’s guide. Periodically review this information so you remember how to safely use your phone.

get started

battery

battery use & safety

IMPORTANT: HANDLE AND STORE BATTERIES PROPERLY TO AVOID INJURY OR DAMAGE. Most battery issues arise from improper handling of batteries, and particularly from the continued use of damaged batteries.

DON'Ts

- Don’t disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery.
- Don’t let the phone or battery come in contact with water. Water can get into the phone’s circuits, leading to corrosion. If the phone and/or battery get wet, have them checked by your carrier or contact Motorola even if they appear to be working properly.
- Don’t allow the battery to touch metal objects. If metal objects, such as jewelry, stay in prolonged contact with the battery contact points, the battery could become very hot.
get started

• Don’t place your battery near a heat source. Excessive heat can damage the phone or the battery. High temperatures can cause the battery to swell, leak, or malfunction. Therefore:
  • Do not dry a wet or damp battery with an appliance or heat source, such as a hair dryer or microwave oven.
  • Avoid leaving your phone in your car in high temperatures.

DOs

• Do avoid dropping the battery or phone. Dropping these items, especially on a hard surface, can potentially cause damage.
• Do contact your service provider or Motorola if your phone or battery has been damaged from dropping or high temperatures.

IMPORTANT: USE MOTOROLA ORIGINAL PRODUCTS FOR QUALITY ASSURANCE AND SAFEGUARDS. To aid consumers in identifying authentic Motorola batteries from non-original or counterfeit batteries (that may not have adequate safety protection), Motorola provides holograms on its batteries. Consumers should confirm that any battery they purchase has a “Motorola Original” hologram.

Motorola recommends you always use Motorola-branded batteries and chargers. Motorola mobile devices are designed to work with Motorola batteries. If you see a message on your display such as Invalid Battery or Unable to Charge, take the following steps:
  • Remove the battery and inspect it to confirm that it has a “Motorola Original” hologram;
  • If there is no hologram, the battery is not a Motorola battery;
  • If there is a hologram, replace the battery and retry charging it;
  • If the message remains, contact a Motorola Authorized Service Center.

Important: Motorola’s warranty does not cover damage to the phone caused by non-Motorola batteries and/or chargers.

Warning: Use of a non-Motorola battery or charger may present a risk of fire, explosion, leakage, or other hazard.

PROPER AND SAFE BATTERY DISPOSAL AND RECYCLING

Proper battery disposal is not only important for safety, it benefits the environment. Consumers may recycle their used batteries in many retail or service provider locations. Additional information on proper disposal and recycling may be found on the Web:
  • www.motorola.com/recycling
  • www.rbrc.org/call2recycle/ (in English only)

Disposal: Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center or national recycling organizations for more information on how to dispose of batteries.

Warning: Never dispose of batteries in a fire because they may explode.

battery installation
battery charging

New batteries are not fully charged. Plug the battery charger into your phone and an electrical outlet. It might take several seconds to start charging. When finished, your phone plays an alert and displays a full battery icon and Charge Complete.

Tip: Motorola batteries have circuitry that protects the battery from damage from overcharging.

If your battery is completely drained, you cannot use a USB cable plugged into a computer to charge your battery. You must use a wall charger or car charger. If your battery has some charge left, you can charge it by using a USB cable plugged into a computer. Note that some USB ports charge faster than others.

conserve battery charge

Using certain features can quickly deplete your battery's charge. These features can include downloading music, using the camera, replaying video clips, and using Bluetooth® wireless connections.

You can conserve your battery's charge:

• Reduce the backlight timeout (see your User's Guide). When the backlight is off, the display is visible but dim.

• Close unused programs using the task manager (see your User's Guide).

• Extend the interval between automatically sending and receiving e-mail (see your User's Guide).

• If you have more than one e-mail account set up, choose only one account to automatically send and receive messages.

• Turn off Bluetooth power when you are not using it (see your User's Guide).

• Adjust the WiFi power settings by pressing Start > Settings > Connections > WiFi power settings.

turn it on & off

To turn on your phone, press and release O. 

Tip: If your phone does not turn on, take your battery out, put it back in, and try again.

To turn off your phone, press and hold O for three seconds, then release it.

make a call

From the home screen, enter a phone number and press O to make a call.

Note: To voice dial, press and hold the speaker key (A). When prompted, say “Call,” followed by a number or contact name. Use the on-screen prompts or see your User’s Guide for details.

store a phone number

Find it: Contacts > New

Enter a name and other details for the phone number and press Done.

Tip: While entering the number, you can tell your phone to pause and then dial more digits (for example, for a
get started

voicemail password or PIN). Press Menu > Insert Pause to insert a 2-second pause (shows as a p) or press Menu > Insert Wait to tell your phone to prompt you before dialing the remaining digits (shows as a w).

Tip: If you get a call or message from someone who isn’t in your contacts, you can add them to your contacts from Call History by pressing Save.

call a stored number

1. Press Contacts and scroll to the number.
2. Press [0].

Your phone calls the contact’s default number.

Tip: If you stored more than one number for a contact, select the contact to see the other numbers.

see your phone number

To view your phone number, press Start > Settings > Phone Settings > My Telephone Number.

get started

3. Put the memory slot cover back in place and push to close it. The cover clicks into place.

The memory card icon (✓) appears at the top of your phone’s display when you have correctly inserted your memory card. (The icon won’t appear if you are using a wired headset or Bluetooth headset, but you can still access the content on your memory card.)

Caution: Don’t bend or scratch your memory card. Keep it away from static electricity, water, and dirt.

Note: Your phone supports miniSD cards up to 32 GB (as they become available). Currently, you can purchase 8 GB memory cards. To save memory space on your phone, move media files (pictures, videos, music) to a memory card as often as possible.

get started

insert memory card

You can use an optional removable miniSD memory card with your phone to store content, such as music, pictures, videos, applications, and files.

Caution: Do not remove your memory card while your phone is using or writing files on it.

To insert a miniSD memory card:

1. Open the card slot cover on the side of the phone. (The cover stays attached to the phone.)

2. Insert the memory card into the slot with the metal contacts facing down. Press the card until it clicks into place.

e-mail & messages

set up e-mail

E-mail service depends on your e-mail provider. If you have problems setting up e-mail or synchronizing, please visit www.motorola.com/support/q9c or call the Motorola Customer Support Center at 1-800-657-7576 (United States and Canada) or 1-888-390-6456 (TTY/TDD United States for hearing impaired).

set up personal e-mail

Note: These steps vary depending on your e-mail provider. For example, for Gmail, you need to enable POP. If your e-mail provider does not provide IMAP or POP access, you can still use the Web browser to access e-mail.

2. Enter your e-mail address and press Next.

or

Skip to step 4 if your phone finds your account settings and automatically fills in these screens.
**e-mail & messages**

If your phone cannot find your settings, ask your e-mail provider for your settings. Then complete these steps.

3 In Your e-mail provider, select Other (POP/IMAP), then press Next.
4 Enter the name you want others to see when you send them a message and the name of this account as you want it to appear on your phone.
5 Enter your e-mail user name and password, then press Next.
6 Press Finish > Yes to download e-mail now.

---

**set up work e-mail**

Note: These steps set up Microsoft® Exchange server e-mail. You will need to know your server address, user or account name, and password, domain (if necessary), incoming and outgoing server names. To get this information, contact the e-mail administrator for your enterprise or company.

1 Press Start > ActiveSync, then press Menu > Add Server Source.
2 Enter the Exchange Server Address (if necessary, check This server requires an encrypted (SSL) connection), then press Next.
3 Enter your User Name and Password (if necessary, enter the server’s Domain), then press Next.
4 Choose if you want to synchronize Contacts, Calendar, Email, and Tasks, then press Finish.
5 Press Sync to synchronize with the Exchange server.

Tip: To change how often your phone checks for e-mail, press Start > ActiveSync, then press Menu > Schedule. To conserve battery life, choose a longer interval.

---

**read e-mail**

When you receive a message your phone plays an alert and shows 回.

On the home screen, press Start > Messaging > (e-mail account).

If you don’t see a list of messages, press Menu > Folders > Inbox. To return to the folder list, press Folders.

Shortcut: Press and hold these keys when you have a message or inbox open:

<table>
<thead>
<tr>
<th>key</th>
<th>function</th>
<th>key</th>
<th>function</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>list shortcuts</td>
<td>5</td>
<td>move</td>
</tr>
<tr>
<td>1</td>
<td>reply all</td>
<td>6</td>
<td>forward</td>
</tr>
<tr>
<td>2</td>
<td>reply</td>
<td>7</td>
<td>delete</td>
</tr>
<tr>
<td>3</td>
<td>mark read/unread</td>
<td>8</td>
<td>download</td>
</tr>
<tr>
<td>4</td>
<td>flag message</td>
<td>9</td>
<td>send/receive</td>
</tr>
</tbody>
</table>

---

**send e-mail**

After you set up your e-mail, press Start > Messaging > e-mail account, then press Menu > New. You can type and send an e-mail just like on your PC.

Tip: To add a picture, voice note, or file to an e-mail message, open the message area and press Menu > Insert > Picture, Voice Note, or File.
e-mail & messages

enter text
You can enter text and numbers using the keypad. An indicator at the top right of the display shows the current entry mode.

Press the function key to switch the entry mode.

Flashing cursor shows where you are typing.

Press the function (H) or caps key (k) in a text entry screen to select an entry mode:

**function key entry modes**

Alt  Press (H) once to enter the upper symbol or number on the next key pressed (such as !), then return to the previous entry mode.

ALT  Press (H) twice to enter the upper symbols and numbers on the keys until you move to a new field.

**caps key entry modes**

abc  Enter all lowercase letters (such as q).

Rbc  Press (H) once to enter the first letter of a sentence in uppercase.

bbc  Press (H) twice to enter all uppercase letters (all caps). Press (H) again to toggle back to all lowercase letters.

Flashing cursor shows where you are typing.

Use these text entry keys:

**text entry**

<table>
<thead>
<tr>
<th>delete</th>
<th>Press (H) once to delete one character. Press and hold (H) to delete a whole line of text.</th>
</tr>
</thead>
<tbody>
<tr>
<td>start a new line</td>
<td>Press (H).</td>
</tr>
<tr>
<td>enter symbols, etc.</td>
<td>Press (H) and then (I).</td>
</tr>
</tbody>
</table>

**text prediction**
As you enter letters, your phone might try to predict the word. For instance, when you enter “prog,” it might predict “program.” To select a prediction, press (O) down to highlight your selection and then press (H). To enter a space instead of using the predicted text, press the space bar.

To turn off text prediction, press Start > Settings > Text Input Settings and uncheck Suggest words when typing.

e-mail & messages

calls

check voicemail
Your network stores your voicemail messages. When you receive a voicemail message, your phone shows the new voicemail indicator at the top of the screen and updates the number of voicemail messages you have on the home screen.

To check voicemail messages, press and hold (1).

set speed dial numbers
You can use speed dial to quickly call contacts or to access features like e-mail and Bluetooth® Manager.

Note: Speed dial 1 is reserved for calling voicemail.

**set speed dial for contacts**

1 From the home screen, press Contacts, scroll to a contact, and press (H).

2 Select either the phone number or e-mail address and press Menu > Add to Speed Dial.

3 For Keypad Assignment, select a speed dial number and press Done.
calls

To delete a speed dial entry, press Start > Speed Dial, scroll to the entry, then press Menu > Delete.

set speed dial for phone features

When your phone’s Start menu is in grid or list format, you can set a speed dial shortcut to open an application on your phone.

Note: You can’t set shortcuts if you change to the circular view, but you can still use them if you already set them.

1. Press Start.
2. Scroll to the icon of an application you want and press Menu > Add to Speed Dial.
3. For Keypad Assignment, select a speed dial number.
   Note: Speed dial 1 is reserved for calling your voicemail.
4. Press Done.

To delete a shortcut, press Start > Speed Dial, scroll to the shortcut, then press > Menu > Delete. Your service provider might add a Voicemail shortcut that you cannot delete.

media player

Your phone uses Windows® Media Player Mobile to play Windows Media Audio (WMA), Windows Media Video (WMV), MP3, AAC, and WAV files.

1. Press Start > Windows Media.
2. Select a category or file in the Library and press Play.

media player controls

Play or pause
Press • .

Update file list (if you load new files)
Press Menu > Update Library.

Skip to next or previous file
Press • right or left.

Change volume
Press • up or down or scroll the thumb wheel up or down. To mute or unmute, press the space bar.

Switch to full screen video
Press 0.

Fast forward or rewind
Press and hold • left or right.

set media player controls

You can set up keys to control the media player.

1. From the media player, press Menu and select Options.
2. Select Buttons.
3. Scroll to a media player action.
4. Press Menu and choose Assign, Reset, or None.
5. After you assign keys to the media player controls, press OK and Done.
load media files

**Note:** You must have Microsoft® ActiveSync 4.5 or later installed on your Windows XP PC or Windows Mobile Device Center installed on your Windows Vista PC (see your User’s Guide). These programs are on a CD that came with your phone, or you can download them: [www.microsoft.com/windowsmobile](http://www.microsoft.com/windowsmobile).

1. Connect the phone to your PC:
   - To use a **Bluetooth® connection**, turn Bluetooth on: Press Start > Bluetooth > Bluetooth Manager > Settings, then toggle Status to Bluetooth ON. The Bluetooth indicator appears on the home screen. You might need to configure Bluetooth settings on your PC.

2. In ActiveSync on your computer (or Windows Mobile Device Center on Windows Vista), select Explore and double-click My Windows Mobile device.

3. Find the files on your computer you would like to copy to your device and paste or drag them into the folder on your phone where you want them, such as My Documents.

4. Your files are now available on your phone. In the media player, press Menu > Update Library to see the files.

---

**customize**

**personlize your Q**

**Note:** For even more ways to personalize your phone, see your User’s Guide.

**customize home screen**

To customize your home screen, press Start > Personalize My Q > HomeScreen Settings.

You can change these settings:

<table>
<thead>
<tr>
<th>options</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Home screen layout</strong></td>
<td>Select a layout for the home screen from various predefined schemes that you can customize further.</td>
</tr>
<tr>
<td><strong>Color scheme</strong></td>
<td>Select a color scheme for the display.</td>
</tr>
<tr>
<td><strong>Background image</strong></td>
<td>Select a picture for your wallpaper image, or None for no wallpaper.</td>
</tr>
<tr>
<td><strong>Time out</strong></td>
<td>Select the time interval before the display will go inactive or Never.</td>
</tr>
</tbody>
</table>

**change background image**

**Note:** The image file must be a GIF, JPG, or BMP.

1. Copy the image file you want from your computer to your phone. (See your User’s Guide for details.)

2. On your phone, press Start > Pictures & Videos.

3. Scroll to the picture you want and press .

4. Press Menu > Use as Home Screen.

   For some pictures you can crop the area and adjust the transparency.

5. Press Finish.

**customize start menu**

To customize your start menu, press Start > Personalize My Q > Start Menu View.

**set home screen right soft key**

Customize the right soft key as a shortcut to your favorite feature by pressing Start > Personalize My Q > Home Screen Right Soft Key.

Press Menu to select a feature and enter a label for your new right soft key function.
customize

set home screen shortcuts
Customize the shortcut across the top of your home screen by pressing Start > Personalize My Q > Home Screen Shortcuts.
Choose the size of the icons, whether to display text labels, or create shortcuts to features you use most.

flight mode
When network access is prohibited, such as on flights and in hospitals, you can turn off your phone's network and Bluetooth services to safely use your address book, games, camera, and music.

1. Press and hold X until the Quick List appears and select Wireless Manager.
2. Select All.
Your phone turns network and Bluetooth services off and shows Off under each in Wireless Manager.
3. Press Done.
