USER’S GUIDE
CONGRATULATIONS

DROID RAZR™

Introducing the powerful smartphone in a RAZR slim design! DROID RAZR has tons of advanced features for everything you want to do—video, web browsing, multimedia, and more.

- A blistering fast dual-core 1.2 GHz processor lets you download web pages in under a second, and makes multi-tasking a snap.
- Use MotoCast to stream or download music, videos, and documents to your smartphone, and upload photos and files to your computer.
- Use your 8MP camera to capture life's moments in full 1080p HD video. Your smartphone's 4.3" qHD Super AMOLED Advanced display makes video playback crisper and more vivid than ever before.

Note: Certain apps and features may not be available in all countries.

Caution: Before assembling, charging, or using your phone for the first time, please read the important safety, regulatory and legal information provided with your product.

SAR

This product meets the applicable limit for exposure to radio waves (known as SAR) of 1.6 W/kg (FCC & IC). The limits and guidelines include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The highest SAR values measured for this device are listed in the regulatory information packaged with your product.

MORE

- Answers: Touch > Help Center.
- Updates: Smartphone updates, computer software, user guides, online help, and more at www.motorola.com/mydroidrazr.

Notes:

- All screens in this guide are simulated. Actual displays may vary.
- Instructions to perform tasks in this guide may change depending on the software version on your smartphone.
- Unless specified otherwise, all instructions to perform tasks in this guide assume that you are starting from the home screen.

LET'S GO
let's get you up and running

ASSEMBLE & CHARGE

1. Micro SIM in.
2. microSD in.
3. Charge up.

Note: Pull down the access door to insert the micro SIM and microSD cards.

Note: This product uses a non-removable battery. The battery should only be replaced by a Motorola-approved service facility. Any attempt to remove or replace your battery may damage the product and void your warranty.

Tip: To save battery life, see “BATTERY TIPS” on page 25.

SET UP & GO

1. Turn on.
2. Select a language.
3. Create account, or log in.
4. Add accounts.

Note: This phone supports apps and services that use a lot of data, so make sure your data plan meets your needs. Contact Verizon Wireless® for details.
Let’s go

WELCOME HOME TO MOTOROLA ANDROID
Switching from an Apple™ or Blackberry phone? Get all your important information set up on your new Motorola Android smartphone in a few easy steps. The Welcome Home To Motorola Android application transfers contacts, email addresses, calendar meetings, events, tasks, music, playlists, photos, and videos from your old phone to your new Motorola smartphone.

To migrate data from your old phone to your Motorola smartphone:

1. Use your computer browser to navigate to www.markspace.com/welcomehome/, and download the free Microsoft™ Windows™ or Apple™ Macintosh™ version of the Welcome Home To Motorola application to your computer.
2. Install and run the application on your computer.
3. Follow the application instructions on your computer to transfer data from your old phone to your Motorola smartphone.

The Welcome Home To Motorola application will prompt you to connect your old phone to the computer with a USB cable, and backup the data you want to transfer.

Next, you will be instructed to install the Welcome Home: Motorola Android app on your Motorola smartphone, connect the smartphone to your computer with a USB cable, then transfer and unpack the data onto the Motorola smartphone.

WI-FI CONNECT
If you want to use a Wi-Fi network for even faster Internet access, touch the status bar at the top of the home screen and drag it down. Touch the Wi-Fi networks available notification to select a preferred network.

You can also touch Menu ( ) > Settings > Wireless & networks > Wi-Fi settings to search for and connect to wireless networks. There’s more in “WI-FI NETWORKS” on page 42.

WI-FI ENHANCED CONNECTIVITY
Wi-Fi Enhanced Connectivity offers a seamless transition between connections when you switch from the Verizon network to a Wi-Fi network.

When you launch an Internet-capable app like the browser, your smartphone scans for available Wi-Fi networks even when Wi-Fi is turned off, and prompts you to connect to an available Wi-Fi network. If you have a usage-based data plan, you can save on your subscribed monthly data allowance by using a Wi-Fi connection rather than the Verizon network.
Cool Content & More
Browse and download thousands of the coolest apps on the planet from Android Market™.

Download new apps with “Browse & Install Apps” on page 11. Your smartphone comes with a microSD memory card installed—you can load it up with photos, videos, and music from your computer (see “Memory Card” on page 45).

Touchscreen & Keys

A few essentials

Touchscreen on/off
Your touchscreen is on when you need it and off when you don’t.

- When you hold the smartphone to your ear during calls, your touchscreen sleeps to prevent accidental touches.
- To make your touchscreen sleep or wake up, just press Power [O].
- To change how long your smartphone waits before the screen goes to sleep automatically, touch Menu [Emergent] > Settings > Display > Screen timeout.
- To make the screen lock when it goes to sleep, see “Screen Lock” on page 53. To unlock the screen, press Power [O], then drag [ ] to the right.

Note: Your touchscreen might stay dark if the sensor just above it is covered. Don’t use covers or screen protectors (even clear ones) that cover this sensor.
TOUCH TIPS
It’s all in the touch:

- Touch: Choose an icon or option.
- Touch & Hold: Show options.
- Drag: Scroll or move slowly.
- Flick: Scroll or move quickly.
- Zoom: Slide fingers apart or together to zoom in or out on Google Maps™, web pages, or photos.

KEY TIPS
MENU, HOME, BACK, & SEARCH
Touch Home to close any menu or app and return to the home screen. In the home screen, touch and hold Home to show the most recent apps used, then touch an app to open it.

Touch Menu to open menu options.
Touch Back to go back.
Touch Search for text search, or touch and hold for voice search.

POWER KEY MENU
Press and hold Power to open the power key menu, where you can turn off your smartphone (Power off), turn off all wireless connections and put the phone into low-power Sleep mode, or turn Airplane mode or Silent mode on and off.
ADJUST VOLUME
Press the volume keys to change ring volume (in the home screen) or earpiece volume (during a call).
When playing music or video files, press the volume keys to adjust media volume.

ROTATE THE SCREEN
When you turn your smartphone, the touchscreen can rotate to stay right-side up:
Find it: Menu > Settings > Display > Auto-rotate screen

QUICK TIPS
If you’re not sure what to do next, try one of these:

<table>
<thead>
<tr>
<th>To...</th>
<th>Touch the message, contact, or item.</th>
</tr>
</thead>
</table>
| Get the details—Open a text message, see details for a contact, or open items in other lists. | Touch Menu.
| See screen menu—Open a menu for the current screen. | Touch & hold the item.
| See item options—Open an options menu (if available) for an item on the screen. | Touch Home.
| Start again—Go back to the home screen. | Press Power.
| Wake up your smartphone—Turn on a sleeping touchscreen. | Press and hold both Power and the down volume key for up to 10 seconds.
| Reboot an unresponsive smartphone—Turn your smartphone off then back on. |
HOME SCREEN
quick access to the things you need most

QUICK START: HOME SCREEN
The home screen gives you all your latest information in one place. It’s what you see when you turn on the smartphone or touch Home  from a menu. It’s basically like this:

Note: Your home screen might look a little different. The home screen extends left and right to give you more room for adding shortcuts, widgets, and more. Flick the home screen left and right to see more panels or to add widgets or shortcuts.

Tip: From the home screen, touch Home  to see thumbnails of the five home screen panels. Touch a thumbnail to go to the panel.

USE & CHANGE YOUR HOME SCREEN
On your home screen, shortcuts are icons that open your favorite apps, web bookmarks, contacts, mail labels, or music playlists. Widgets show you news, weather, messages, and other updates.

To see other panels of shortcuts and widgets, flick the home screen left or right. Or, touch Home  and touch a thumbnail to go to the panel.

- To open something, touch it. Touch Home  to return to the home screen.

Tip: When you open a widget, touch Menu  to see any options or settings (you can choose accounts for

---

Phone Status Bar
Notifications
Flick left or right to see more panels of widgets & shortcuts.
Shortcuts
Touch to open.
Open the app menu.
Calendar, Social Networking, Social Status, or Universal Inbox widgets).

There’s more about social networking widgets in “YOUR SOCIAL NETWORKING ACCOUNT” on page 24.

- To **resize** widgets, touch and hold a corner until you feel a vibration, then drag.
- To **add** something or change your wallpaper, touch and hold an empty spot until you see the Add to Home menu.

You can add a folder to organize your shortcuts.

- To **move or delete** something, touch and hold it until you feel a vibration, then drag it to another spot, another panel, or the trash at the top of the screen.

Shortcuts in the dock row at the bottom of the home screen always appear in all panel views. You can change the dock shortcuts (except the app menu icon). Touch and hold a dock shortcut, then select the shortcut you want to replace it.

**SEARCH**

Touch Search , then use the window that appears.

**SMARTPHONE STATUS & NOTIFICATIONS**

Icons at the top of the screen notify you about messages and smartphone status. To see your notifications, touch the status bar and drag it down. Touch a notification to select it.

To dismiss a single notification, touch . To dismiss all notifications, touch .

**Tip:** To see today’s date, touch the status bar at the top of the screen.
Home screen

Tip: Blue connection status icons (network, data, Wi-Fi) appear when your smartphone is synced with your Google™ account. White connection status icons appear when your smartphone is not communicating with the Google servers.

Note: Applications you download from Android Market™ may show other icons in the status bar to alert you to specific events.

</table>
**APPS & UPDATES**
get the app you want

**QUICK START: APPS & UPDATES**
You can find all of your apps in one place. From the home screen, touch 📺 to open the app menu. To see all of your apps, flick left and right.

From the app menu, touch 📸 to view or create app groups.

- **Open the app groups menu.**
- **Find new apps on Android Market™.**
- **Create a new app group.**
- **Choose which app group you want to see.**

To close the app menu, touch Home 🏠 or Back 🖼️.

**BROWSE & INSTALL APPS**
Get all the fun games and cool apps you want! Android Market™ provides direct access to apps, games, books, and movies that you can download and install on your smartphone.

**Find it: 📸 > Market**

Scroll to and touch the app you want to install. Then, touch Install (if app is free) or Buy.

New apps that you install are added to the app menu.

**Tip:** Choose your apps and updates carefully, from trusted sites like Market, as some may impact your phone’s performance—see “CHOSE CAREFULLY” on page 12.

**Note:** When installing an app, make sure you read the alerts that tell you what information the app will access. If you don’t want the app to have access to this information, cancel the installation.

**RECENT APPS**
Your smartphone remembers the apps that you used most recently. From the home screen, touch and hold Home 🏠 to show the most recent apps used. From the app menu, touch 📸 > Recent.
**MANAGE & RESTORE APPS**

From the home screen, touch Menu > Manage apps.

Touch an app in the list, then touch **Uninstall** (for apps you downloaded), **Clear cache**, or other options.

To reinstall apps from Android Market, touch > Market, then touch Menu > My apps. Previously installed apps are listed and available for download.

**CHOOSE CAREFULLY**

Apps are great. There’s something for everyone. Play, communicate, work, or have fun. But remember, choose your apps carefully. Here are a few tips:

- To help prevent spyware, phishing, or viruses from affecting your phone or privacy, use apps from trusted sites, like Market.

- In Market, check the apps’ ratings and comments before installing.

- If you doubt the safety of an app, don’t install it.

- Like all apps, downloaded apps will use up memory, data, battery, and processing power—some more than others. For example, a simple battery level widget will use less than a streaming music player app. After installing an app, if you’re not happy with how much memory, data, battery or processing power it’s using, uninstall it. You can always install it again later.

- Just like web browsing, you may want to monitor children’s access to apps to help prevent exposure to inappropriate content.

- Certain apps may not provide completely accurate information. Take care, especially when it comes to personal health.

**IMPORTANT CUSTOMER INFORMATION**

Please be advised that many services and applications offered through this unique device are provided by Google™ and various application developers. If you use, link to, or download a Google service, or an application such as a non-Verizon Wireless location based GPS-type service, chat room, marketplace or social network from this device, you should carefully review the terms of such service or application. If you use any of these non-Verizon Wireless services or applications, personal information you submit may be read, collected, or used by the service or application provider and/or other users of those forums.

Motorola Mobility, Inc. and Verizon Wireless are not responsible for your use of those applications or information you choose to submit or share with others. Specific terms and conditions, terms of use, and privacy policies apply to those applications and services. Please review carefully any and all terms and conditions.
applicable to those applications and services including those related to any location-based services for any particular privacy policies, risks or waivers.

Your Verizon Wireless customer agreement terms and conditions and certain other specifically identified terms govern your use of any Verizon Wireless products and services.

**UPDATE MY SMARTPHONE**

You can check, download, and install smartphone software updates using your smartphone, or using your computer:

- **Using your smartphone:**
  
  You may get an automatic notification of an available update on your smartphone. Simply follow the instructions to download and install.

  To manually check for updates, touch Menu > Settings > About phone > System updates.

  Your smartphone downloads any updates over your mobile network. Remember, these updates can be quite large (25MB or more) and may not be available in all countries. If you don’t have an unlimited data plan, or mobile network updates are not available in your country, you can update using a computer.

- **Using your computer:**
  
  On your computer, go to www.motorola.com/mydroidrazr and check the "Software" links. If an update is available, follow the installation instructions.
CALLS
it’s good to talk

QUICK START: CALLS

DIALING OPTIONS
From the home screen, touch \( \text{Phone} \).

Recent Calls List
Touch an entry to call.

Return Call
Delete digits you entered.

Add Number To Contacts
Enter a phone number & touch here to call it.

Call
Voice Dial

Tip: Search for contacts right from the dialpad! For example, to find Jeff in your contacts list, touch 5-3-3-3. Matching contacts appear above the number field.

IN-CALL OPTIONS

To use a Bluetooth™ device, touch Bluetooth. (The device must be turned on and previously paired—see "CONNECT NEW DEVICES" on page 43.)
**Tip:** You can touch Home (2) or Back (2) to leave the active call display. To reopen it, touch Home (2) > (1) Phone.

**Note:** Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.

### MAKE & ANSWER CALLS

To make a call, touch (1) Phone, enter a number, then touch (1).

**Tip:** If the screen is locked, drag (3) to the right first.

To answer a call when the screen is active, touch (3). When the screen is locked, answer by dragging (4) to the right.

To ignore a call when the screen is active, touch (5) Ignore. When the screen is locked, ignore the call by dragging (6) to the left. Your smartphone gives you the option to send a text message to the caller. Select a message and touch Ok to send it, or touch Cancel to exit without sending a message.

### FREQUENT CALLS

Find it: (1) Phone > Favorites

- To call a number, touch (7) next to the entry.
- To send a text message, create a contact, view a contact, or other options, touch and hold an entry.
- To add a contact to Favorites, touch the contact, then touch the star next to the contact’s name. The star turns green.

**Tip:** To silence an incoming call alert, press Power (8) or the volume keys.

**Note:** When you hold the smartphone to your ear, the display goes dark to prevent accidental touches. When you move the smartphone away from your ear, the display lights up again.

### RECENT CALLS

Find it: (1) Phone > Recent

- To select a call list, touch (9) and select All calls, Missed calls, Incoming calls, or Outgoing calls.
- To call a number, touch (10) next to the entry.
- To send a text message, create a contact, view a contact, or other options, touch and hold an entry.
- To clear the list, touch Menu (11) > Clear list.
CONFERENCE CALLS
To start a conference call, call the first number. After the call connects, touch Add call. Dial the next number, or select it from contacts or favorites. When the next number answers, touch Merge.

YOUR PHONE NUMBER
Find it: Menu > Settings > About phone > Status > My Phone number

TTY MODE
Your smartphone can use an optional teletypewriter (TTY) device, for people who are hard of hearing or have a speech impairment.
1 Plug the TTY device into the smartphone’s headset jack.
2 Touch Menu > Settings > Call settings > TTY mode, and choose a TTY setting.

EMERGENCY CALLS
Note: Your service provider programs one or more emergency phone numbers that you can call under any circumstances, even when your phone is locked. Emergency numbers vary by country. Your pre-programmed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues.
1 Touch Phone (if your smartphone is locked, touch Emergency Call).
2 Enter the emergency number.
3 Touch to call the emergency number.

Note: Your phone can use location based services (GPS and AGPS) to help emergency services find you. See “LOCATION SERVICES” on page 60.

COOL DOWN
In very limited circumstances, such as where your phone has been exposed to extreme heat, you may see “Cool Down” messages. To avoid possible damage to your battery and phone, you should follow these instructions until the phone is within its recommended temperature range. When your phone is in “Cool Down” mode, only emergency calls can be made.
CONTACTS
contacts like you’ve never had before

QUICK START: CONTACTS
Find it: > Contacts

Tip: To search the list, touch \( \text{Q} \) to open a touchscreen keypad, then type a name. When you flick or drag the list, a scroll bar appears that you can drag to move the list faster.

TRANSFER CONTACTS
Get all your contacts, all in one place. Here’s a few helpful hints:

- Use Gmail™
  All your Gmail contacts will automatically get synced to your phone. Various computer applications for mobile phones and email accounts allow you to export your contacts as a “CSV” file. You can then use Gmail to import the file. For more details, go to www.motorola.com/transfercontacts or log in to your Gmail account on your computer and select “Help”.

- More
  There are other methods and tools to help you at www.motorola.com/transfercontacts.

LINK CONTACTS
You might have two or more contacts for the same person, maybe a Gmail contact who is also stored on your phone, or one friend with two email addresses. To combine these contacts:

Find it: > Contacts

Touch a contact to open it, touch Menu \( \text{E} \) > Edit contact, touch Menu \( \text{E} \) > Join, touch the second contact, then touch Save.
CALL OR EMAIL CONTACTS
Find it: > Contacts
• To view contact information, touch the contact.
• To call, text, send an email, or see other options, touch and hold the contact.
• To add a contact to Favorites, touch the contact, then touch the star next to the contact’s name. The star turns green.

VIEW & USE CONTACTS
When you set up a social networking account (see “SOCIAL NETWORKING” on page 24), you’ll know what everybody’s up to and when. Every time you pick up a call, check a message, or look up a friend’s contact info, you’ll see their name and number, but you can see their social network status and smiling face, too.

Find it: > Contacts
• To find a contact, touch in the Contacts screen and type the contact name. Touch a contact to open its details. While viewing details, you can start a call or message by touching icons next to the phone number, email address, or social network. To see your interactions with the person, touch Contact History.
• To change which group of contacts is shown (All, Facebook, and so on) touch the filter name at the top.

CREATE CONTACTS
Find it: > Contacts

• To change how you view the list of contacts, touch Menu > Display options.

Find it: > Contacts

Touch any entry area to open the touchscreen keypad. When you’re finished, touch Save.
Where are contacts saved? Your smartphone saves new contacts in its memory and on the Google Server or Backup Assistant™, if you have a subscription. It also updates your social networking account.

EDIT OR DELETE CONTACTS
Find it: Settings > Contacts
Touch the contact, then touch Menu > Edit contact or Delete contact.

SYNCHRONIZE CONTACTS
When you change one of your contacts, your smartphone automatically updates your other social networking accounts. When you change a social networking friend, your smartphone updates your contacts.

PERSONALIZE CONTACTS
Find it: Settings > Contacts
Add a photo: Touch the contact, touch Menu > Edit contact, then touch .
Set a ringtone: Touch the contact, then touch Menu > Options > Ringtone.

GROUPS
Find it: Settings > Contacts > group name
You can put your contacts into groups that you create (like “friends,” “family,” or “work”). Then, you can find contacts faster by showing one group at a time.
To create a new group, touch Settings > Contacts, then touch Menu > New group.
MESSAGING
sometimes it’s best to text, or IM, or email . . .

QUICK START: MESSAGING
Find it: 📱 > Messaging > Universal Inbox

Tip: To see more messages, flick or drag up.

READ & REPLY TO MESSAGES
Find it: 📱 > Messaging > Universal Inbox

To show only one type of message, touch a message type instead of Universal Inbox.
• To open a text message or social networking message and all of its replies, touch it.
• To respond to a text message, just open it and enter your response in the text box at the bottom.
  For email, touch ✉️ to choose a reply option.
• To forward an email message, open it and touch ✉️ > Forward.
• To open options, touch and hold a message.

CREATE MESSAGES
Find it: 📱 > Messaging > ✉️

Choose a message type, such as Text Message or Facebook. Then, enter the recipient and message. In text messages and emails, touch Menu ☰️ for options like Insert... or Attach Files.

SEND & RECEIVE ATTACHMENTS
To send a file in a message, open a new message and touch Menu ☰️ > Insert.

When you receive a message with an attachment, open the message and touch the file name to download it. Then, touch the name again to open it. Some file formats can be converted to HTML for faster viewing, and your smartphone will show Get HTML version.

Note: Universal Inbox shows all of your messages together—text, email, and social networking messages.
While viewing the attachment, touch it to save it, share it, and more.

Tip: To send and receive large attachments faster, use a Wi-Fi connection (see “Wi-Fi Networks” on page 42).

**SET UP MESSAGING**

To add email accounts, touch > > My Accounts > Add account.

- **Corporate Sync** is for Exchange server work email accounts. Enter details from your IT administrator.
  
  Tip: You might need to enter your domain name with your user name (like domain/username).

- **Email Accounts** is for most personal email accounts. For account details, contact the account provider.

To change your settings, touch > > Messaging, then touch:

- **Manage accounts** to add or remove an account.
- **Edit Universal Inbox** to choose which accounts show messages in the Universal Inbox.
- **Messaging settings** to set the notification for each account type (along with other preferences, for email).

Tip: For social network accounts, see “Add Accounts” on page 24.

**EMAIL**

The first time you turned on your smartphone (see “Set up & go” on page 3), you probably logged in to your Gmail™ account. You can add any other email account that you set up.

To add other email accounts to your Messages widget and Universal Inbox, touch > > My Accounts > Add account > Email Accounts.

**INSTANT MESSAGES**

To send and receive instant messages, you can use Google Talk™.

Find it: > > Talk

Alternatively, you can touch > > IM to set up another instant messaging account, or download an instant messaging app from Android Market™.

**VOICEMAIL**

When you have a new voicemail, ♯ appears at the top of the screen. Drag down the status bar and touch the New voicemail notification to listen to your voicemail message.

If you need to change your voicemail number, in the home screen touch Menu ( ) > Settings > Call settings > Voicemail settings.
**TEXT ENTRY**

*keys when you need them*

**TOUCHSCREEN KEYPAD**

You can open a keypad on your screen by touching a text box. To close the keypad, touch Back.

**INPUT METHODS**

To select an input method, touch and hold a text entry area on the screen to open the *Edit text* menu. Touch *Input method*, then touch the method you want.

---

**SWYPE™ TEXT ENTRY**

Enter words with one continuous motion. Just drag your finger over the letters in the word.

To enter a word, just trace a path through the letters. To capitalize, go above the keypad. For double letters, circle the letter.

**Tips:**

- To enter apostrophes in common words (like “I’ll”), drag through the n as though it was an apostrophe.
- To enter other punctuation, numbers, or symbols, touch Symbols.
- To correct a word, double-tap it. Swype shows a small menu of other word options. Swype might also show a menu if it can’t guess your word.
- If Swype doesn’t know a word, you can still touch the letter keys to enter it. Swype remembers, so next time you can just drag over the letters.
**MULTI-TOUCH KEYBOARD**

Enter text a letter at a time. As you type, your smartphone suggests words from your dictionary and chosen language. The smartphone also automatically enters apostrophes in some words, like “dont.” To add a word to your dictionary, touch and hold the word, then select Add “word” to dictionary.

**Typing tips**

<table>
<thead>
<tr>
<th>To...</th>
<th>Touch Shift ()</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enter one capital letter</td>
<td></td>
</tr>
<tr>
<td>Enter only capital letters, until you touch Shift () again</td>
<td>Touch Shift () twice. Touch again to revert to lowercase.</td>
</tr>
<tr>
<td>Move the text entry cursor</td>
<td>Touch the text where you want the cursor to go.</td>
</tr>
<tr>
<td>Select text</td>
<td>Touch and hold text, then touch Select text or Select all.</td>
</tr>
<tr>
<td>Cut or Copy selected text</td>
<td>Touch and hold text, then touch Cut or Copy.</td>
</tr>
</tbody>
</table>

**Text input settings**

Find it: Menu (≡) > Settings > Language & keyboard

- To edit your dictionary, touch User dictionary.
- To change the language and the style for your touchscreen keypad, touch Select locale.
- To change input method and settings, touch Swype or Multi-touch keyboard.

**Paste** cut or copied text at cursor location

Touch and hold location to paste, then touch Paste.

**Delete** character to left of cursor

Touch Delete () (hold to delete more).
SOCIAL NETWORKING

my life, your life

YOUR SOCIAL NETWORKING ACCOUNT
Integrate and sync all your contacts, emails, and social networking sites. No opening and closing apps and menus. Just touch the Social Networking and Social Status widgets on your home screen.

Tip: Use the gallery to view all of yours and your friends’ online albums. Touch > Gallery.

ADD ACCOUNTS
You can add your Facebook, Twitter, or other accounts to your social networking account. If you don’t have accounts on these sites, visit their websites to set them up.

To set up email accounts, see “SET UP MESSAGING” on page 21.

Find it: > My Accounts > Add account

Add an account by touching it. Then enter your user name and password for that account.

When you sign into social networking accounts, you’ll see your friends and contacts in your Contacts list, and your status and updates can appear in your Social Networking widget.

Twitter messages will always appear as “read” on your smartphone, but your smartphone notifies you when you receive a new message.

Tip: To download updates faster, see “WI-FI NETWORKS” on page 42.

EDIT & DELETE ACCOUNTS
Find it: > My Accounts

Touch an account to edit it or remove it (along with its contacts and messages).

Note: You can’t delete the Google™ account you used or created when you set up your smartphone.
**TIPS & TRICKS**
*a few handy hints*

**GENERAL TIPS**
- Screen brightness changes as your smartphone senses the current lighting conditions.
- To return to the home screen, touch Home  
- To see recently dialed numbers, touch  
  Phone > Recent.
- To sleep/wake your smartphone, press Power  
- To set screen timeout, touch Menu  > Settings > Display > Screen timeout.
- To search, touch Search  . To voice search, touch and hold Search  .
- To automate everyday tasks, touch  > Smart Actions.
- To show the most recent apps you’ve used, touch and hold Home  .
- To change one of the dock shortcuts at the bottom of the home screen, touch and hold the shortcut, then select the shortcut you want to replace it.
- To turn sound on/off, press and hold Power  > Silent mode.
- To turn airplane mode on/off, press and hold Power  > Airplane mode.

**BATTERY TIPS**
Want to extend your battery life? Try these:
- To help minimize battery use, touch  > Smart Actions. Check out the sample rules that enable battery savings: Nighttime Battery Saver, and Battery Extender.
- To turn off background data transfers, touch Menu  > Settings > Data manager > Background data.
- To turn off Bluetooth™ power, touch Menu  > Settings > Wireless & networks > Bluetooth.
- To turn off Wi-Fi power, touch Menu  > Settings > Wireless & networks > Wi-Fi.
WEBTOP APPLICATION
smart mobile computing

QUICK START: WEBTOP
Browse, or use web apps, on a large screen in a full Firefox™ browser. Create and share documents, spreadsheets, and presentations with online tools like Google Docs.

To open the webtop application, connect your smartphone to an HD display or monitor using a dock accessory (sold separately).

CONNECT THE WEBTOP APPLICATION
Connect your smartphone to the Motorola Lapdock™ 100 or Lapdock 500 Pro to automatically launch the webtop application.

Connect your smartphone to an HD display using the HD Dock, HD Station, or Adapter for webtop application, then choose the webtop application from the application menu.

When you’re done using the webtop application, just disconnect your phone from the accessory.

CONTROL THE WEBTOP APPLICATION
To navigate the webtop application display:

- In the Phone window, you can open your phone apps.
- At the bottom of the screen, you’ll see App Shortcuts.
  You can open multiple Firefox browsers.
- At the top right of the screen, you’ll see icons for status and Settings.
  For help in the webtop application, open Settings > Help at the top right of the screen.
**SEND CURRENT WEB PAGE TO PHONE**
When you find an interesting web page in the webtop application, you can send it to your smartphone to view after undocking. In the Firefox browser, select File > Send to phone. If prompted to complete the action, select Browser. The web page opens in your smartphone browser.

**DIGITAL LIVING**
*connect and enjoy*

**MOTOCAST**
Stream or download music, pictures, videos, and documents from your computer directly to your smartphone. MotoCast lets you pull content from your home or work computers at blazing fast 4G LTE speeds, providing secure, nearly instant remote access to your files.

Note: Copyright—do you have the right? Always follow the rules. See “Content Copyright” in your legal and safety information.

**DEVICE SETUP**
To get started, touch > My Accounts > Add account > MotoCast ID, and follow the on-screen instructions to create an account on your smartphone.

**DESKTOP SETUP**
MotoCast can be installed on one or more Microsoft™ Windows™ or Apple™ Macintosh™ computers to stream and download files. Your smartphone contains the application that needs to be installed on your computer. Connect your smartphone to the computer with a USB cable, and follow the on-screen instructions to install the application. When installed, log in to the same account you created on your smartphone.
smartphone, then select which computer files you want to share.

**USE REMOTE FILES**
You can use your smartphone’s Music, Gallery, and Files apps to access the shared files stored on your computer.

**HD VIEWING**
You can create your own HD videos (see “HD VIDEOS” on page 30) to view on your wide screen HDTV or monitor.

1. Connect an HD cable (sold separately) from the HDMI port on your smartphone (see “YOUR SMARTPHONE” on page 2) to an HDMI port on the TV monitor.
2. Adjust the viewable area on the HDMI screen by touching Menu > Settings > HDMI.

**MIRROR MODE**
Connect your smartphone to your HDTV, monitor, or projector so you can view and interact with your smartphone on the big screen. Show off your photos, videos, and downloaded movies. Enjoy the big screen for gaming, movies, the web, and more. Just connect your smartphone to an HDTV or monitor using an HD cable (sold separately). Everything you see on your display will appear on the big screen as well.

**PHOTOS & VIDEOS**
see it, capture it, share it!

**PHOTOS**
**TAKE & SHARE PHOTOS**
Take that family photo, and post it online for everyone to see.

**Find it: 📷 > Camera**
Photos & videos

Note: Photos are stored in your phone’s internal memory, unless you switch it to the microSD memory card. Photo resolution can be set to 8MP or Widescreen (6MP).

Tip: Press the volume keys to zoom in and out on the viewfinder image.

To take the photo, touch the viewfinder screen.
Your phone stores the photo, and shows a thumbnail image of the photo in the corner of the screen. To see the photo you just took, touch the thumbnail. Then:

- To set the photo as a wallpaper, contact photo, or social network photo, touch Menu > Set as.
- To send the photo in a message or post it online, touch . For more info on sharing your photos, see "Share photos & videos" on page 32.
- To upload the photo to an online photo album, touch .
- To print the photo, touch Menu > More > Print.
- To delete the photo, touch Menu > Delete.

Panoramic photos
In the viewfinder, touch Menu > Modes > Panorama to take a wide panoramic photo. The camera auto-captures up to six multiple shots as you move the camera, and joins them together to make one large image.

Camera settings
In the viewfinder, drag the tab in the lower-left corner of the screen (or touch Menu ) to adjust camera settings:

<table>
<thead>
<tr>

| Modes   | Set to Single shot, Panorama, Multi-shot, or Timer. |

Exposure | Select an exposure setting. |
Flash     | Set Flash On, Flash Off, or Auto Flash. |
VIDEOS

RECORD & SHARE VIDEOS
Find it: 📸 > 📹 Camera, then drag the camera switch to the right to select the camcorder.

To record a video, touch 📹 in the viewfinder screen. To stop the video recording, touch 📹 again.

Your phone stores the video, and shows a thumbnail image of the video in the corner of the screen. To see the video you just took, touch the thumbnail. Then:

- To play the video, touch 📹.
- To send the video in a message or post it online, touch 📬. For more info on sharing your video, see "SHARE PHOTOS & VIDEOS" on page 32.
- To upload the video to an online album, touch 📀.
- To delete the video, touch Menu ☰ > Delete.

HD VIDEOS
You can capture HD-quality videos to watch on an HDTV or monitor.

To record an HD quality video, be sure to select the correct Video resolution. From the active camcorder viewfinder screen, touch Menu ☰ > Settings > Video Resolution > HD+ (1080p) or High Definition (720p).

To enhance the video quality, touch Menu ☰ > Audio Scenes or Effects.
**CAMCORDER SETTINGS**

In the viewfinder, drag the tab in the lower-left corner of the screen (or touch Menu) to adjust camcorder settings:

**VIEW PHOTOS & VIDEOS**

Find it: > Gallery

View all of your photos and your friends’ photos/videos from different media sites like Picasa™, Flickr, PhotoBucket, and Facebook™. You can add comments to others’ photos, and see comments that others have posted. You can even view photos stored on your computer with MotoCast.
Note: To see the controls when a video is playing, touch the display.

SHARE PHOTOS & VIDEOS
Find it: > Gallery > photo or video
Touch , then choose how you want to share—like Bluetooth, Email, Text Messaging, or an online album.

MANAGE PHOTOS & VIDEOS
Find it: > Gallery > photo or video
Touch , then select Edit, Delete, Add to album, Set as (photo), or Map (video). Touch More for additional options.
Tip: To copy photos to/from a computer, go to “USB CONNECTION” on page 46.

EDIT PHOTOS & VIDEOS
Find it: > Gallery > photo or video
Touch Menu , then select Edit. You can choose advanced editing features to resize, crop, or change the color.

STREAM & SYNC PHOTOS & VIDEOS
Use MotoCast to stream photos and videos from your computer to your smartphone.
Find it: > Gallery > MotoCast
For more information about using MotoCast, see “MOTOCAST” on page 27.

MUSIC
when music is what you need...

QUICK START: MUSIC
Keep your music with you! You can put music on your phone, or stream music from your computer with MotoCast.
Find it: > Music
To play music stored on your phone or computer, touch "My library." Touch \( \text{to see which MotoCast computers are currently connected, and to choose the content you want to see or hide.} \)

To randomly play all of the songs in a playlist, touch \( \text{to play again.} \)

**Tip:** When a song is playing, you can add it to a playlist by touching "Menu" > "More" > "Add to playlist."

**Tip:** To listen to music during a flight, turn off all your network and wireless connections. Press and hold "Power," then touch "Airplane mode."

**SET UP MUSIC**

**WHAT MUSIC TRANSFER TOOLS DO I NEED?**

**Note:** Copyright—do you have the right? Always follow the rules. See "Content Copyright" in your legal and safety information.

To put music on your computer and then load it on your smartphone, you need:

- Microsoft™ Windows™ computer or Apple™ Macintosh™ computer.
- USB data cable (included with your smartphone).
- microSD memory card (included with your smartphone).

Your smartphone supports removable microSD memory cards up to 32GB capacity. To make sure your memory card is installed, go to "ASSEMBLE & CHARGE" on page 3.

**Tip:** To see the available memory on your memory card, from the home screen touch "Menu" > "Settings" > "Storage."

**WHAT AUDIO FILE FORMATS CAN I PLAY?**

Your smartphone can play many types of files: AAC, AAC+, AAC+ Enhanced, AMR NB, AMR WB, MP3, WAV, WMA v9, and MIDI.
WHAT HEADPHONES CAN I USE?
Your smartphone has a 3.5mm headset jack for wired stereo listening. You can go wireless with Bluetooth™ stereo headphones or speakers (see “BLUETOOTH™ HANDSFREE DEVICES” on page 43).

GET MUSIC
TRANSFER
Transfer music from your computer to your smartphone using a USB cable connection. See “USB CONNECTION” on page 46 to learn how.

STREAM & SYNC
Use MotoCast to stream music, podcasts, and audio files from your computer to your smartphone.
Find it: > Music > Add music to your phone
For more information about using MotoCast, see “MOTOCAST” on page 27.

BUY
Buy MP3 music files that you can install and play on your smartphone.
Find it: > Music > Music store
Tip: You need to have a data connection to the Verizon network to do this (a Wi-Fi connection won’t work).
**MUSIC PLAYER CONTROLS**

<td>Touch Menu ♬ &gt; More &gt; Delete.</td>
</tr>
</tbody>
</table>

**HIDE, WAKE, TURN OFF**

Touch Home (♩) to use another app. Your music continues to play.

When you see ♩ in the status bar, a song is playing. Flick down to see details. Touch the song to return to the music controls.

To turn off your music, touch  

**PLAYLISTS**

To add a song from the music library to a playlist, touch and hold the song, then touch Add to playlist. Choose an existing playlist, or touch Create playlist to create one.

To rename, edit, and delete playlists, touch and hold the playlist in the music library.
WEB
surf the web with your smartphone

QUICK START: BROWSER
Find it: Browser

Touch a link to select it. Touch & hold for more options.

Touch Menu for browser options.

Tip: To zoom, touch the display with two fingers, then move them apart.

CONNECT
Your smartphone uses the mobile phone network (over the air) or a Wi-Fi connection to automatically access the Web.

Note: Your service provider may charge to surf the Web or download data.

If you want to use a Wi-Fi network for faster Internet access, touch the status bar at the top of the home screen and drag it down. Touch the Wi-Fi networks available notification to select a preferred network. For more info, see “WI-FI NETWORKS” on page 42.

Note: If you can’t connect, contact your service provider.

PLAY WEB VIDEOS
The browser features the Adobe™ Flash™ Player, which adds animation, video, and interactivity to web pages.

Touch to begin video playback. Double-tap the video during playback to enlarge it for better viewing.

DOWNLOADS
To download files in your browser, touch a file link or touch and hold a picture to choose Save image.

To see the files you downloaded, touch > Downloads. Touch and hold an item to open it, see details, or remove it from the list.

You can download “APPS & UPDATES” on page 11.
BROWSER OPTIONS
Touch Menu 📈 to see browser options:

YOUTUBE™
Share videos with YouTube users everywhere. You don’t need a YouTube account to browse and view videos.

Find it: 🎥 > YouTube

Note: If you want a YouTube account, go to www.youtube.com. To create an account or sign in, touch Menu 📈 > My account. To Browse or Upload videos, touch Menu 📈.

PERSONALIZE
add your personal touch

Widgets
ADD WIDGETS
1 Touch and hold an empty spot on your home screen.
   Tip: Flick left or right to see other panels.
2 Touch Widgets and choose a widget.

SET UP WIDGETS
You can customize some widgets. Touch a widget to open it, then touch Menu 📈.

Your home screen may already have these widgets:
- Universal Inbox: Change the widget name or choose how long it shows new messages. To add email accounts, “SET UP MESSAGING” on page 21.
- Music: Set this widget to an artist, album, song, playlist, genre, or just touch Menu 📈 > Shuffle all. There’s more about “music” on page 32.
- News: Change the widget name, choose how long it shows new stories, or choose a news source. To choose a source, touch 📈, then choose preset Bundles or Channels, or choose Custom to enter a URL for a Webpage or an RSS feed.
• **Weather**: Change temperature units or add locations. To add locations, touch , enter a city, and touch Search. When you open the weather widget, flick left to see other locations you added.

**SHORTCUTS**
To add shortcuts for apps, bookmarks, and more to the home screen, touch and hold an empty spot on the home screen, touch Shortcuts, and select a shortcut.

**Tip:** To change one of the dock shortcuts at the bottom of the home screen, touch and hold the shortcut, then select the shortcut you want to replace it.

**RINGTONES**
Personalize your ringtones:

**Find it:** Menu > Settings > Sound > Phone ringtone or Notification ringtone

To set your vibrate options:

**Find it:** Menu > Settings > Sound > Vibrate

To set a song as a ringtone:

**Find it:** Menu > Music and play the song, then touch Menu > More > Use as ringtone

**Note:** To choose from thousands more songs, visit verizonwireless.com/ringtones.

**WALLPAPER**
Apply a new wallpaper:

1. Touch and hold an empty spot on your home screen.
2. Touch Wallpapers.
3. Touch Gallery, Live wallpapers, or Wallpapers, and choose a wallpaper.

**SOUNDS**
- To set volume for ringtones, media, and alarms, touch Menu > Settings > Sound > Volume.
- To play dial pad tones, touch Menu > Settings > Sound > Audible touch tones.
- To play sound on a screen selection, touch Menu > Settings > Sound > Audible selection.
- To customize the sound settings for media and videos, touch Menu > Settings > Sound > Media audio effects > Phone speaker.

**DISPLAY SETTINGS**
- To set display brightness, touch Menu > Settings > Display > Brightness.
- To set orientation, touch Menu > Settings > Display > Auto-rotate screen.
• To set animation, touch Menu > Settings > Display > Animation.
  Note: Some apps are designed so that your smartphone can “animate” them by rotating, fading, moving, and stretching one or more images.

LOCATION
where you are, where you’re going

DATE & TIME
Set date, time, time zone, and formats:
Find it: Menu > Settings > Date & time

LANGUAGE & REGION
Set your menu language and region:
Find it: Menu > Settings > Language & keyboard > Select locale

Note: Some apps are designed so that your smartphone can “animate” them by rotating, fading, moving, and stretching one or more images.

GOOGLE MAPS™
Find it: > Maps

Note: The map image you see may be a little different.
Google Maps offers powerful, user-friendly mapping technology and local business information—including business locations, contact information, and driving directions.

For help, touch Menu ➞ More ➞ Help.

Tip: Want to know what’s in your immediate area? Try Google Places™. Touch ➞ Places to see listings for Restaurants, ATMs, Gas Stations, and more based on your current location.

**GOOGLE MAPS™ NAVIGATION**

Google Maps Navigation is an Internet-connected GPS navigation system with voice guidance.

*Find it:* ➞ Navigation

Follow the prompts to speak or type your destination.

For more information, go to www.google.com/mobile/navigation.

**GOOGLE LATITUDE™**

**JOIN LATITUDE**

See where your friends and family are on Google Maps™. Plan to meet up, check that your parents got home safely, or just stay in touch.

Don’t worry, your location is not shared unless you agree to it. You need to join Google Latitude, and then invite your friends to view your location or accept their invitations. When using Google Maps, touch Menu ➞ > Join Latitude. Read the privacy policy and if you agree with it, touch Agree & Share.

**ADD & REMOVE FRIENDS**

*Find it:* ➞ Latitude

To add friends:

1. Touch 📞.
2. Touch Select from Contacts, then touch a contact. Or, touch Add via email address, then enter an email address.
3. Touch Yes to send a sharing request.

If your friends already use Google Latitude, they’ll receive an email request and a notification. If they have not yet joined Google Latitude, they’ll receive an email request that invites them to sign in to Google Latitude with their Google™ account.

To remove friends:

1. Touch Menu ➞ Latitude to show your list of friends, then touch a friend in your list.
2. Touch Remove this friend.
SHARE LOCATION
When you receive a request to share location details you can choose to:

- **Accept and share back**—See your friend’s location, and your friend can see yours.
- **Accept, but hide my location**—See your friend’s location, but they can’t see yours.
- **Don’t accept**—Location information is not shared between you and your friend.

HIDE YOUR LOCATION
To hide your location from a friend, touch Menu > Latitude to show your list of friends. Touch a friend on the list, then touch Sharing options > Hide from this friend.

TURN OFF GOOGLE LATITUDE
Touch Menu > Latitude to show your list of friends, then touch Menu > Settings > Sign out of Latitude.

WIRELESS
lose the wires

QUICK START: WIRELESS
Connect your smartphone to fast Wi-Fi networks or Bluetooth™ devices.

To connect, touch Menu > Settings > Wireless & networks > Wi-Fi settings or Bluetooth settings.
**WI-FI NETWORKS**

**TURN WI-FI POWER ON OR OFF**

Find it: Menu > Settings > Wireless & networks > Wi-Fi

*Note:* To extend battery life, turn off Wi-Fi power when not in use.

**WI-FI SEARCH & CONNECT**

When Wi-Fi is turned on, the Wi-Fi in range indicator appears in the status bar when a network is available. Drag down the status bar and touch the Wi-Fi networks available notification to select and connect to a network.

To search for a network when Wi-Fi is turned off:

1. Touch Menu > Settings > Wireless & networks > Wi-Fi settings.
2. Touch Wi-Fi to turn on and scan. If Wi-Fi power is already on, touch Menu > Scan. Your smartphone lists the networks it finds within range.
   *Tip:* To see your smartphone’s MAC address or other Wi-Fi details, touch Menu > Advanced.
3. Touch a network to connect. If necessary, enter Network SSID, Security, and Wireless password, and touch Connect.

When your smartphone is connected to the network, the Wi-Fi connected indicator appears in the status bar.

*Tip:* When you are in range and Wi-Fi power is on, you will automatically reconnect to available networks you’ve connected to before.

**WI-FI MODES**

For those who like to get a bit more technical, your phone supports the following Wi-Fi modes: 802.11 b, g, n.

**WI-FI HOTSPOT**

You can make your smartphone a Wi-Fi hotspot to provide portable, convenient internet access to other Wi-Fi enabled devices.

*Caution:* This application significantly impacts battery life. You may want to run this application with the charger connected.

*Note:* You need to subscribe to Wi-Fi hotspot service to use this feature. Contact your service provider.

To set up your smartphone as a Wi-Fi hotspot:

1. Turn off Wi-Fi power by touching Menu > Settings > Wireless & networks > Wi-Fi.
2. Touch > Mobile Hotspot > Mobile Hotspot to turn on the hotspot.
3 Touch **Configure Mobile Hotspot** to change hotspot security and configuration settings:

- **Network SSID**—Enter a unique name for your hotspot and touch **Next**.
- **Security**—Select the type of security you want, and touch **Save**. **WEP**, **WPA**, or **WPA2**. Enter a unique password. Other users can access your Wi-Fi hotspot only if they enter the correct password.
  
  **Note**: Keep it secure. To protect your phone and hotspot from unauthorized access, it is strongly recommended that you set up hotspot **Security** (**WPA2** is the most secure), including password.

- **Broadcast Channel**—Select a channel that minimizes potential interference. You may need to try different channels after your hotspot is active for a time.

4 Touch **Save** when the settings are complete.

When your Wi-Fi hotspot is active, other Wi-Fi enabled devices can connect by entering your hotspot's **SSID**, selecting a **Security** type, and entering the correct **Wireless password**.

---

**BLUETOOTH™ HANDSFREE DEVICES**

**TURN BLUETOOTH POWER ON OR OFF**

**Find it**: Menu > **Settings** > **Wireless & networks** > **Bluetooth**

**Note**: To extend battery life, turn off Bluetooth power when not in use.

**CONNECT NEW DEVICES**

**Note**: This feature requires an optional accessory.

To connect with a new device, you need to pair with it. You only need to do this once for each device—to connect again, just turn on the device.

1. Make sure the device you are pairing with is in discoverable mode.

   **Note**: Refer to the guide that came with the device for details.

2. Touch **Menu** > **Settings** > **Wireless & networks** > **Bluetooth settings**.

3. Touch **Bluetooth** to turn on and scan. If Bluetooth power is already on, touch **Scan for devices**.

4. Touch a device to connect.

5. If necessary, touch **OK**, or enter the device passkey (like **0000**) to connect to the device. When the device is connected, the Bluetooth connected indicator appears in the status bar.
**Note:** Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.

**RECONNECT DEVICES**
To automatically reconnect your smartphone with a paired device, simply turn on the device.
To manually reconnect your smartphone with a paired device, touch the device name in the **Bluetooth devices** list.

**DISCONNECT DEVICES**
To automatically disconnect your smartphone from a paired device, simply turn off the device.
To manually disconnect your smartphone from a paired device, touch the device name in the devices list, then touch **OK**.

**CHANGE DEVICE NAME**
Touch Menu > Settings > Wireless & networks > Bluetooth settings > Device name. Enter a name and touch **OK**.

**DLNA™ MEDIA DEVICES**
**Note:** Copyright—do you have the right? Always follow the rules. See “Content Copyright” in your legal and safety information.

Use DLNA Certified computers, TVs, and other devices to play or transfer the video, pictures, and music stored on your smartphone.

1. Make sure your smartphone is connected to a Wi-Fi network that has another DLNA Certified device.
2. Touch ☑ > DLNA.
3. Touch **Play media**, **Copy media to server**, **Copy media to phone**, or **Share media**.
   Your smartphone searches for DLNA devices on your network. To search again, touch Menu ☐ > **Refresh**.
4. Touch a device to connect.
   For more about DLNA devices, visit [www.dlna.org](http://www.dlna.org).

**MOTOPRINT**
Print email, documents, pictures, and contacts directly to shared printers on a Wi-Fi network—no printer drivers necessary. MOTOPRINT automatically discovers networked printers for you. You can even save your favorite printers and geo-tag their location for future use.

**PRINT A DOCUMENT OR FILE**
To print something from the **Email**, **Quickoffice**, or **Gallery** apps, open it and touch Menu ☐ > **Print**.
To print something directly from the MOTOPRINT app, touch ☑ > ☑ MOTOPRINT, then select a document type and follow the on-screen instructions.
ADD A PRINTER
Find it: 📧 > ✉️ MOTOPRINT, touch Menu (≡) > Manage printers, touch Menu (≡) > Add printer

MOTOPRINT HOST
To print to a non-compatible or non-networked printer connected to your Windows™ computer, you need to install free MOTOPRINT Host software on the computer. You can download MOTOPRINT Host at www.motorola.com.
To print something using MOTOPRINT Host:
Find it: 📧 > ✉️ MOTOPRINT, touch Menu (≡) > Manage printers, touch Menu (≡) > Add printer > MOTOPRINT host
Select MOTOPRINT Host running on your computer, then select the printer you want to use.

MEMORY CARD & FILE MANAGEMENT
copy photos, music, and more

DOWNLOAD REMOTE FILES
Use MotoCast to download documents and files from your computer to your smartphone.
Find it: 📑 > 📄 Files > MotoCast Computers
For more information about using MotoCast, see “MotoCast” on page 27.

MEMORY CARD
Note: Your photos, videos, and other files are automatically stored in internal memory on your smartphone. You can set individual applications (camera, camcorder, etc.) to store files on the microSD card.
Tip: To move media stored in internal memory to your memory card, touch Menu (≡) > Settings > Storage > Manage internal storage.

DELETE OR SHARE FILES ON YOUR SMARTPHONE
Find it: 📑 > 📄 Files > Internal phone storage or SD card
Touch a file or folder to open, then touch and hold a file to Delete or Share.
**REMOVE OR FORMAT YOUR MEMORY CARD**

**Note:** Do not remove your memory card while your smartphone is using it or writing files on it.

Before you remove or format your memory card you need to unmount it. Touch Menu > **Settings** > **Storage** > **Unmount SD card**.

To format your memory card, touch **Format SD card**.

**Warning:** All data on your memory card will be deleted.

**USB CONNECTION**

You can connect your smartphone to a computer with a USB cable.

**Note:** The first time you use a USB connection, your computer may indicate that drivers are being installed. Follow any prompts you see to complete the installation. This may take a few minutes.

1. With your smartphone showing the home screen, connect a Motorola micro USB data cable from your smartphone’s micro USB port to a USB port on your computer. Your smartphone should show in the status bar.

   **Note:** Make sure to connect the smartphone to a high power USB port. Typically, these are located directly on your computer.

2. Drag and drop files between your computer and smartphone folders. When you’re done, use “Safely Remove Hardware” before disconnecting the USB cable.

   **Note:** If you’re using a memory card, you can’t use the files on your memory card with your smartphone while it is connected to the computer.
TOOLS
stay on top of things

CALENDAR
Find it: ( ) > Calendar
Your calendar events can be viewed in different ways: Touch ( ) > Agenda, Day, Week, or Month. When you highlight an event, more details appear.
Tip: Add a calendar widget to your home screen by touching and holding an empty space. Then touch Widgets > Calendar.

ADD CALENDAR EVENTS
From any view, touch .
Enter the event start time and other details. You can even set a reminder so you don’t forget about the event. (When you set the reminder time to 0 minutes, it plays at the event start time.)
Tip: Reminders will play only if you’ve selected a notification ringtone (see "RINGTONES" on page 38). When you finish entering event details, touch Save.

MANAGE CALENDAR EVENTS
To edit an event, touch and hold it, then touch Edit event. When you’re done, touch Save.
To delete an event, touch and hold it, then touch Delete event.
To go to today, touch ( ) > Show today.

TASKS
Find it: ( ) > Tasks
To add a task, touch .
Touch an icon to view your tasks by due date, priority, and more.

CALCULATOR
Find it: ( ) > Calculator
To switch between basic and advanced functions, touch Menu ( ) > Advanced panel or Basic panel. To clear history, touch Menu ( ) > Clear history.
**ALARM CLOCK**

Find it: 🕒 > ⏰ Alarm & Timer

To turn on an alarm, touch the check box.

When an alarm sounds, select **Dismiss** to turn it off or touch the screen to snooze for five minutes.

To add an alarm, touch **Menu (≡) > Add alarm**, then enter alarm details.

To enable or disable an alarm, touch the check box.

---

**ACCESSIBILITY**

See, hear, speak, feel, and use. Accessibility features are there for everyone, helping to make things easier.

**Note:** For general information, accessories, and more, visit [www.motorola.com/accessibility](http://www.motorola.com/accessibility).

**VOICE RECOGNITION**

Use your voice—just touch and speak.

- **Dialing and commands**: Touch 📱 > 🗣 Voice Commands. To dial, say “Call” and then a contact name or phone number. Or, say a command from the list shown, like “Send Message” or “Go To”.
- **Search**: Touch and hold Search (🔍), then say what you want to search for, like “Motorola accessories”.
- **Text entry**: Touch a text entry field to open the touchscreen keypad. Touch (👋), then say what you want to type.

**Tip**: Speak naturally, but clearly. Use the microphone in a similar way to a speakerphone, so no need to shout or hold the phone close to your mouth.

To change your voice settings, see “VOICE SETTINGS” on page 49.
**VOICE READOUTS (TALKBACK)**
Your navigation and selections, read out loud.
To turn on voice readouts (similar to TalkBack), touch Menu > Settings > Accessibility. Touch Accessibility to enable the settings, then touch Voice Readouts.
**Note:** You may be asked to download additional “text-to-speech” software (data charges may apply). To use voice readouts:
- **Menus and screens:** In menus and screens, touch an item to highlight it (the item will be read out loud), and double-touch to open it.
  **Note:** Touch a home screen widget or shortcut to open it.
- **Dialer & text entry:** As you type, each number or letter is read out loud.
- **Notification:** When you drag the notifications bar down, all notifications are read out loud.
**Tip:** Navigate through your apps and menus to hear how voice readouts work on your phone.
To change your voice settings, see “VOICE SETTINGS” on page 49.

**CALLER ID**
When you want to hear who’s calling:
- **Read out loud:** Have your caller announced—touch Menu > Settings > Call settings > Caller ID Readout.
- **Ringtones:** Assign a unique ringtone to a contact—touch Contacts, touch a contact, then touch Menu > Options > Ringtone.
To change your voice settings, see “VOICE SETTINGS” on page 49.

**VOICE SETTINGS**
Personalize your voice settings:
- **Voice recognition:** Touch Menu > Settings > Voice input & output > Voice recognizer settings. From here, you can set options like language and censorship.
- **Voice commands:** Touch > Voice Commands > Menu > Settings. From here, you can refine recognition of your voice (Adaptation) and set options like prompts and shortcuts.
- **Text-to-speech:** Touch Menu > Settings > Voice input & output > Text-to-speech settings. From here, you can set options like speed and language.
VOLUME & VIBRATE
Choose volume and vibrate settings that work for you. Touch Menu > Settings > Sound:

- **Volume:** Touch Volume and use the sliders.
  
  Tip: To set separate ring and notification volumes, uncheck **Use incoming call volume for notifications.**
  
- **Vibrate:** Select Vibrate > Always to feel your phone ring.

ZOOM
Get a closer look. Open a magnification window that you can drag around the screen, or slide your fingers apart to zoom in on maps, web pages, and photos.

- **Magnification window:** Touch Menu > Settings > Accessibility. Touch Accessibility to enable the settings, then touch **Zoom Mode.**
  
- **Pinch to zoom:** To zoom in, touch the screen with two fingers and then slide them apart. To zoom out, slide your fingers together.

DISPLAY BRIGHTNESS
Set a brightness level that works for you. Touch Menu > Settings > Display > Brightness. Make sure that **Automatic brightness** is unchecked so you can set your own level.

TOUCHSCREEN & KEYS
All these touch features are great, and sometimes it’s nice to hear or feel your touches too. Touch Menu > Settings > Sound:

- **Touchscreen:** To hear screen touches (click), select Audible selection.
  
- **Keys:** To feel key touches (vibrate), select Haptic feedback.
  
- **Screen lock:** To hear when you lock/unlock the screen (click), select Screen lock sounds.

MESSAGES
From a simple text message to IM, email, and more. Create, send, and receive them all, in one place.

Find it: > Messaging > Universal Inbox

And to make text entry even easier, you can use features like auto-correct, auto-punctuate, and auto-capitalization—touch Menu > Settings > Language & keyboard > Multi-touch keyboard. Of course if you don’t want to type at all, then use your voice—touch on the touchscreen keypad.

HEARING AIDS
To help get a clear sound when using a hearing aid or cochlear implant, your phone may have been rated for use with hearing aids. If your phone’s box has “Rated for
Hearing Aids™ printed on it, then please read the following guidance.

**Note:** Ratings are not a guarantee of compatibility. See “Hearing Aid Compatibility with Mobile Phones” in your legal and safety information. You may also want to consult your hearing health professional, who should be able to help you get the best results.

- **Settings:** Touch Menu > Settings > Call settings > HAC Mode Settings to turn hearing aid compatibility mode on or off. HAC mode optimizes your phone for use with a hearing aid.
- **Call volume:** During a call, press the side volume keys to set a call volume that works for you.
- **Position:** During a call, hold the phone to your ear as normal, and then rotate/move it to get the best position for speaking and listening.

**TTY**

You can use your phone in TTY mode with standard teletype machines. Touch Menu > Settings > Call settings > TTY mode and select the mode you need:

- **TTY Full:** Type and read text on your TTY device.
- **TTY HCO:** Hearing-Carry-Over—type text on your TTY device and listen to voice replies on your phone’s speaker.
- **TTY VCO:** Voice-Carry-Over—speak into your phone and read text replies on your TTY device.

**Note:** You’ll need a cable/adapter to connect your TTY device to the headset jack on your phone. Refer to your TTY device guide for mode and usage information.

**Apps**

Want more? No problem. Android Market™ provides access to thousands of apps, and many provide useful accessibility features.

**Find it:** Menu > Market

Select a category or touch Search to find the app you want.

**Tip:** Choose your apps carefully, from trusted sites like Market, as some may impact your phone’s performance.
MANAGEMENT

stay in control

SMART ACTIONS
Tired of doing the same tasks over and over again? Let smart actions do them for you. You can create rules to do things like automatically dim the touch screen when the battery is low, set your ringer to vibrate at work, and set a different wallpaper at home.

Find it: > Smart Actions
For more information, open the Smart Actions app and touch Menu > Help.

WIRELESS MANAGER
Find it: Menu > Settings > Wireless & networks
Manage all your wireless connections: Wi-Fi, Bluetooth™, airplane mode, & mobile networks.

AIRPLANE MODE
Use airplane mode to turn all your wireless connections off—useful when flying. Press and hold Power > Airplane mode.

Note: When you select airplane mode, all wireless services are disabled. You can then turn Wi-Fi and/or Bluetooth back on, if permitted by your airline. Other wireless voice and data services (such as calls and text messages) remain off in airplane mode. Emergency calls to your region’s emergency number can still be made.

NETWORK
You should not need to change any network settings. Contact your service provider for help.

Touch Menu > Settings > Wireless & networks > Mobile networks to show options for roaming networks, network selection, operator selection, and access point names.
**SECURITY**
help keep your smartphone safe

**QUICK START: SECURITY**
Find it: Menu > Settings > Location & security

- **Screen lock**
  - To prevent accidental touches, you can make the screen lock when it goes to sleep. Touch Menu > Settings > Location & security > Set up screen lock, then select the lock type:
  - **Pattern**—draw a pattern to unlock.
  - **PIN**—enter a numeric PIN to unlock.
  - **Password**—enter a password to unlock.

  **Note:** You can make emergency calls on a locked smartphone (see “EMERGENCY CALLS” on page 16). A locked smartphone still rings, but you need to unlock it to answer.

- **Lock pattern**
  - To set the lock pattern, touch Menu > Settings > Location & security > Change screen lock > Pattern.
  - Follow the instructions to draw your lock pattern.
  - When prompted, draw the pattern to unlock the smartphone.

- **PIN lock**
  - To set a PIN, touch Menu > Settings > Location & security > Change screen lock > PIN.
  - Enter a numeric PIN, then confirm it.
When prompted, enter the PIN to unlock the smartphone.

**PASSWORD LOCK**
To set the password, touch Menu (≡) > Settings > Location & security > Change screen lock > Set password.

Enter a password (up to eight characters), then confirm it.

When prompted, enter the password to unlock the smartphone.

**PERSONALIZE YOUR LOCK SCREEN**
To change your timeout, touch Menu (≡) > Settings > Location & security > Security lock timer. If you don’t touch the screen or press any keys for the amount of time you select, the screen locks automatically.

**LOCK & UNLOCK**
To lock the screen/smartphone:
- Press Power (○).
- Let the screen time out (don’t press anything).
- Switch off the power.

To unlock the screen/smartphone, press Power (○), or touch Home ( ), or switch on the smartphone to view the lock screen.

**FORGOT YOUR PATTERN, PIN, OR PASSWORD?**
If you make five unsuccessful attempts to enter your lock pattern, you can touch Forgot pattern and enter the Gmail user name and password you set up as your main Gmail account when you registered your device. You will then be able to create a new pattern and unlock your device.

If you forget your PIN or password, contact your service provider to have your device factory reset.

**Warning:** A factory reset will delete all data on your smartphone.

**RESET**
To reset your smartphone to factory settings and erase all the data on your smartphone, touch Menu (≡) > Settings > Privacy > Factory data reset > Reset phone.

**Warning:** All data on your smartphone will be deleted. (Nothing on your memory card is deleted.)
REMOTE WIPE A LOST OR STOLEN SMARTPHONE

Don’t you just hate it when your life is on your smartphone and it all goes wrong? Lost, or even worse—stolen! If necessary, you can use your email account on a Microsoft™ Exchange ActiveSync 2007 server to clear the personal data from your smartphone and memory card.

You need to be assigned permissions before you can remote wipe data from your smartphone and memory card. Contact your IT system administrator for the information and permissions you need to perform the remote wipe procedure.

Warning: All downloaded apps and user data on your smartphone and memory card will be deleted.

TROUBLESHOOTING

we’re here to help

CRASH RECOVERY

In the unlikely event that your smartphone stops responding to touches and key presses, try a forced reboot—press and hold both Power (①) and the down volume key for up to 10 seconds.

SERVICE & REPAIRS

If you have questions or need assistance, we’re here to help.

Go to www.motorola.com/repair (United States) or www.motorola.com/support (Canada), where you can select from a number of customer care options. You can also contact the Motorola Customer Support Center at 1-800-734-5870 (United States), 1-888-390-6456 (TTY/TDD United States for hearing impaired), or 1-800-461-4575 (Canada).
Safety, Regulatory & Legal

Battery Use & Safety

The following battery use and safety information applies to all Motorola mobile devices. If your mobile device uses a non-removable main battery (as stated in your product information), details related to handling and replacing your battery should be disregarded—the battery should only be replaced by a Motorola-approved service facility, and any attempt to remove or replace your battery may damage the product.

Important: Handle and store batteries properly to avoid injury or damage. Most battery safety issues arise from improper handling of batteries, and particularly from the continued use of damaged batteries.

DON'Ts

- Don’t disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery.
- Don’t use tools, sharp objects, or excessive force to insert or remove the battery as this can damage the battery.
- Don’t let the mobile device or battery come in contact with liquids.* Liquids can get into the mobile device's circuits, leading to corrosion.
- Don’t allow the battery to touch metal objects. If metal objects, such as jewelry, stay in prolonged contact with the battery contact points, the battery could become very hot.
- Don’t place your mobile device or battery near a heat source.* High temperatures can cause the battery to swell, leak, or malfunction.
- Don’t dry a wet or damp battery with an appliance or heat source, such as a hair dryer or microwave oven.

DOs

- Do avoid leaving your mobile device in your car in high temperatures.*
- Do avoid dropping the mobile device or battery.* Dropping these items, especially on a hard surface, can potentially cause damage.*
- Do contact your service provider or Motorola if your mobile device or battery has been damaged in any of the ways listed here.

* Note: Always make sure that any battery, connector and compartment covers are closed and secure to avoid direct exposure of the battery to any of these conditions, even if your product information states that your mobile device can resist damage from these conditions.

Important: Motorola recommends you always use Motorola-branded batteries and chargers for quality assurance and safeguards. Motorola’s warranty does not cover damage to the mobile device caused by non-Motorola batteries and/or chargers. To help you identify authentic Motorola batteries from non-original or counterfeit batteries (that may not have adequate safety protections), Motorola provides holograms on its batteries. You should confirm that any battery you purchase has a “Motorola Original” hologram. If you see a message on your display such as Invalid Battery or Unable to Charge, take the following steps:

- Remove the battery and inspect it to confirm that it has a “Motorola Original” hologram;
- If there is no hologram, the battery is not a Motorola battery;
- If there is a hologram, replace the battery and try charging it again;
- If the message remains, contact a Motorola authorized service center.

Warning: Use of a non-Motorola battery or charger may present a risk of fire, explosion, leakage, or other hazard.

Proper and safe battery disposal and recycling: Proper battery disposal is not only important for safety, it benefits the environment. You can recycle your used batteries in many retail or service provider locations. Additional information on proper disposal and recycling can be found at www.motorola.com/recycling.

Disposal: Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center or national recycling organizations for more information on how to dispose of batteries.

Warning: Never dispose of batteries in a fire because they may explode.

Battery Charging

Notes for charging your product’s battery:

- During charging, keep your battery and charger near room temperature for efficient battery charging.
- New batteries are not fully charged.
- New batteries or batteries stored for a long time may take more time to charge.
- Motorola batteries and charging systems have circuitry that protects the battery from damage from overcharging.
Third Party Accessories
Use of third party accessories, including but not limited to batteries, chargers, headsets, covers, cases, screen protectors and memory cards, may impact your mobile device’s performance. In some circumstances, third party accessories can be dangerous and may void your mobile device’s warranty. For a list of Motorola accessories, visit www.motorola.com/products.

Driving Precautions
Responsible and safe driving is your primary responsibility when behind the wheel of a vehicle. Using a mobile device or accessory for a call or other application while driving may cause distraction, and may be prohibited or restricted in certain areas—always obey the laws and regulations on the use of these products.

While driving, NEVER:
- Type, read, enter or review texts, emails, or any other written data.
- Surf the web.
- Input navigation information.
- Perform any other functions that divert your attention from driving.

While driving, ALWAYS:
- Keep your eyes on the road.
- Use a handsfree device if available or required by law in your area.
- Enter destination information into a navigation device before driving.
- Use voice activated features (such as voice dial) and speaking features (such as audible directions), if available.
- Obey all local laws and regulations for the use of mobile devices and accessories in the vehicle.
- End your call or other task if you cannot concentrate on driving.

Remember to follow the “Smart Practices While Driving” at www.motorola.com/callsmart (in English only).

Seizures, Blackouts & Eyestrain
To reduce eyestrain and avoid headaches, it is always a good idea to hold the screen a comfortable distance from your eyes, use in a well-lit area, and take frequent breaks.

Some people may be susceptible to seizures or blackouts (even if they have never had one before) when exposed to flashing lights or light patterns, such as when playing video games, or watching videos with flashing-light effects.

Discontinue use and consult a physician if any of the following symptoms occur: seizures, blackout, convulsion, eye or muscle twitching, loss of awareness, or disorientation.

If you or someone in your family has experienced seizures or blackouts, please consult with your physician before using an application that produces flashing-light effects on your mobile device.

Caution About High Volume Usage
Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the volume sound level, the less time is required before your hearing could be affected. To protect your hearing:
- Limit the amount of time you use headphones or headsets at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you can’t hear people speaking near you.

If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears, or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked.

For more information about hearing, see our website at direct.motorola.com/hellomoto/nois/AcousticSafety.asp (in English only).

Repetitive Motion
When you repetitively perform actions such as pressing keys or entering finger-written characters, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. If you continue to have discomfort during or after such use, stop use and seek medical advice.

Children
Keep your mobile device and its accessories away from small children. These products are not toys and may be hazardous to small children. For example:
- A choking hazard may exist for small, detachable parts.
- Improper use could result in loud sounds, possibly causing hearing injury.
- Improperly handled batteries could overheat and cause a burn.

Supervise access for older children. Similar to a computer, if an older child does use your mobile device, you may want to monitor their access to help prevent:
- Exposure to inappropriate apps or content.
- Improper use of apps or content.
- Loss of data.

Safety, Regulatory & Legal 57
Glass Parts
Some parts of your mobile device may be made of glass. This glass could break if the product receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by a qualified service center.

Operational Warnings
Obey all posted signs when using mobile devices in public areas.

Potentially Explosive Areas
Potentially explosive areas are often, but not always, posted and can include blasting areas, fueling stations, fueling areas (such as below-decks on boats), fuel or chemical transfer or storage facilities, or areas where the air contains chemicals or particles, such as grain dust, or metal powders.
When you are in such an area, turn off your mobile device, and do not remove, install, or charge batteries, unless it is a radio product type especially qualified for use in such areas and certified as "Intrinsically Safe" (for example, Factory Mutual, CSA, or UL approved). In such areas, sparks can occur and cause an explosion or fire.

Symbol Key
Your battery, charger, or mobile device may contain symbols, defined as follows:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1.png" alt="Symbol" /></td>
<td>Important safety information follows.</td>
</tr>
<tr>
<td><img src="image2.png" alt="Symbol" /></td>
<td>Do not dispose of your battery or mobile device in a fire.</td>
</tr>
<tr>
<td><img src="image3.png" alt="Symbol" /></td>
<td>Your battery or mobile device may require recycling in accordance with local laws. Contact your local regulatory authorities for more information.</td>
</tr>
</tbody>
</table>

Radio Frequency (RF) Energy
Exposure to RF Energy
Your mobile device contains a transmitter and receiver. When it is ON, it receives and transmits RF energy. When you communicate with your mobile device, the system handling your call controls the power level at which your mobile device transmits.
Your mobile device is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

RF Energy Operational Precautions
For optimal mobile device performance, and to be sure that human exposure to RF energy does not exceed the guidelines set forth in the relevant standards, always follow these instructions and precautions:
- When placing or receiving a phone call, hold your mobile device just like you would a landline phone.
- If you wear the mobile device on your body, always place the mobile device in a Motorola-supplied or approved accessory (e.g. clip, holder, holster, case or armband). If you do not use a body-worn accessory supplied or approved by Motorola, ensure that whatever product is used is free of any metal and that it positions the mobile device at least 2.5 cm (1 inch) away from the body.
- Using accessories not supplied or approved by Motorola may cause your mobile device to exceed RF energy exposure guidelines. For a list of Motorola-supplied or approved accessories, visit our website at: [www.motorola.com](http://www.motorola.com).
RF Energy Interference/Compatibility
Nearly every electronic device is subject to RF energy interference from external sources if inadequately shielded, designed, or otherwise configured for RF energy compatibility. In some circumstances, your mobile device may cause interference with other devices.

Follow Instructions to Avoid Interference Problems
Turn off your mobile device in any location where posted notices instruct you to do so, such as hospitals or health care facilities.
In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Medical Devices
If you have a medical device, including an implantable medical device such as a pacemaker or defibrillator, consult your healthcare provider and the device manufacturer’s directions before using this mobile device.

Persons with implantable medical devices should observe the following precautions:
• ALWAYS keep the mobile device more than 20 centimeters (8 inches) from the implantable medical device when the mobile device is turned ON.
• DO NOT carry the mobile device in the breast pocket.
• Use the ear opposite the implantable medical device to minimize the potential for interference.
• Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking place.

Specific Absorption Rate (FCC & IC)
YOUR MOBILE DEVICE MEETS FCC AND IC LIMITS FOR EXPOSURE TO RADIO WAVES.

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) adopted by the Federal Communications Commission (FCC) and Industry Canada (IC). These limits include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.
The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 1.6 W/kg.

Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the FCC and IC guidelines for your device model are listed below:

<table>
<thead>
<tr>
<th>SAR Mode</th>
<th>Band</th>
<th>SAR Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Head SAR</td>
<td>CDMA 1900, Wi-Fi, Bluetooth</td>
<td>1.45 W/kg</td>
</tr>
<tr>
<td>Body-worn SAR</td>
<td>CDMA 1900, Wi-Fi, Bluetooth</td>
<td>0.71 W/kg</td>
</tr>
</tbody>
</table>

During use, the actual SAR values for your device are usually well below the values stated. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the lower its SAR value.

If you are interested in further reducing your RF exposure then you can easily do so by limiting your usage or simply using a hands-free kit to keep the device away from the head and body. Additional information can be found at www.motorola.com/rfhealth.

European Union Directives Conformance Statement
The following CE compliance information is applicable to Motorola mobile devices that carry one of the following CE marks:

[0168]

Only Indoor Use Allowed in France for Bluetooth and/or Wi-Fi

Hence, Motorola declares that this product is in compliance with:
• The essential requirements and other relevant provisions of Directive 1999/5/EC
• All other relevant EU Directives

For products that support Wi-Fi 802.11a (as defined in your product information). This device is restricted to indoor use when operating in the 5.15 to 5.25 GHz (802.11a) Wi-Fi frequency band.
The following gives an example of a typical Product Approval Number:

![Product Approval Number](Image)

You can view your product's Declaration of Conformity (DoC) to Directive 1999/5/EC (to R&TTE Directive) at www.motorola.com/rtte (in English only). To find your DoC, enter the Product Approval Number from your product’s label in the “Search” bar on the website.

**FCC Notice to Users**

The following statement applies to all products that bear the FCC logo on the product label.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. See 47 CFR Sec. 15.105(b). These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause interference and (2) this device must accept any interference, including interference that may cause undesired operation of the device. See 47 CFR Sec. 15.19(a)(3).

Motorola has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user’s authority to operate the equipment. See 47 CFR Sec. 15.21.

**Software Notices**

Warning against unlocking the bootloader or altering a product’s operating system software: Motorola strongly recommends against altering a product’s operating system, which includes unlocking the bootloader, rooting a device or running any operating software other than the approved versions issued by Motorola and its partners. Such alterations may permanently damage your product, cause your product to be unsafe and/or cause your product to malfunction. In such cases, neither the product nor any damage resulting therefrom will be covered by warranty.

**Important FCC information:** You must not make or enable any changes to the product that will impact its FCC grant of equipment authorization. The FCC grant is based on the product’s emission, modulation, and transmission characteristics, including: power levels, operating frequencies and bandwidths, SAR levels, duty-cycle, transmission modes (e.g., CDMA, GSM), and intended method of using the product (e.g., how the product is held or used in proximity to the body). A change to any of these factors will invalidate the FCC grant. It is illegal to operate a transmitting product without a valid grant.

**Location Services**

The following information is applicable to Motorola mobile devices that provide location based functionality. Location sources can include GPS, AGPS and Wi-Fi.

Your mobile device can use Global Positioning System (GPS) signals for location-based applications. GPS uses satellites controlled by the U.S. government that are subject to changes implemented in accordance with the Department of Defense policy and the Federal Radio Navigation Plan. These changes may affect the performance of location technology on your mobile device.

For products that support Wi-Fi 802.11a (as defined in your product information): This device is restricted to indoor use when operating in the 5.15 to 5.25 GHz (802.11a) Wi-Fi frequency band.

**Industry Canada Notice to Users**

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause interference and (2) this device must accept any interference, including interference that may cause undesired operation of the device. See RSS-GEN 7.1.5. This Class B digital apparatus complies with Canadian ICES-003.
Your mobile device can also use Wi-Fi signals to determine your approximate location, using information from known and available Wi-Fi networks.

Your Location
Location-based information includes information that can be used to determine the approximate location of a mobile device. Mobile devices which are connected to a wireless network transmit location-based information. Devices enabled with location technology also transmit location-based information. Additionally, if you use applications that require location-based information (e.g. driving directions), such applications transmit location-based information. This location-based information may be shared with third parties, including your wireless service provider, applications providers, Motorola, and other third parties providing services.

Emergency Calls
When you make an emergency call, the cellular network may activate the AGPS technology in your mobile device to tell the emergency responders your approximate location. AGPS has limitations and might not work in your area. Therefore:

- Always tell the emergency responder your location to the best of your ability; and
- Remain on the phone for as long as the emergency responder instructs you.

Navigation
The following information is applicable to Motorola mobile devices that provide navigation features.

When using navigation features, note that mapping information, directions and other navigational data may contain inaccurate or incomplete data. In some countries, complete information may not be available. Therefore, you should visually confirm that the navigational instructions are consistent with what you see. All drivers should pay attention to road conditions, closures, traffic, and all other factors that may impact driving. Always obey posted road signs.

Privacy & Data Security
Motorola understands that privacy and data security are important to everyone. Because some features of your mobile device may affect your privacy or data security, please follow these recommendations to enhance protection of your information:

- **Monitor access**—Keep your mobile device with you and do not leave it where others may have unmonitored access. Use your device’s security and lock features, where available.
- **Keep software up to date**—If Motorola or a software/application vendor releases a patch or software fix for your mobile device that updates the device’s security, install it as soon as possible.
- **Secure Personal Information**—Your mobile device can store personal information in various locations including your SIM card, memory card, and phone memory. Be sure to remove or clear all personal information before you recycle, return, or give away your device. You can also backup your personal data to transfer to a new device.

**Note:** For information on how to backup or wipe data from your mobile device, go to [www.motorola.com/support](http://www.motorola.com/support).

- **Online accounts**—Some mobile devices provide a Motorola online account (such as MOTOBLUR). Go to your account for information on how to manage the account, and how to use security features such as remote wipe and device location (where available).
- **Applications and updates**—Choose your apps and updates carefully, and install from trusted sources only. Some apps can impact your phone’s performance and/or have access to private information including account details, call data, location details and network resources.
- **Wireless**—For mobile devices with Wi-Fi features, only connect to trusted Wi-Fi networks. Also, when using your device as a hotspot (where available) use network security. These precautions will help prevent unauthorized access to your device.
- **Location-based information**—Mobile devices enabled with location-based technologies such as GPS, AGPS or Wi-Fi, can transmit location-based information. See “Location Services” for more details.
- **Other information your device may transmit**—Your device may also transmit testing and other diagnostic (including location-based) information, and other non-personal information to Motorola or other third-party servers. This information is used to help improve products and services offered by Motorola.

If you have further questions regarding how the use of your mobile device may impact your privacy or data security, please contact Motorola at privacy@motorola.com, or contact your service provider.
Use & Care

To care for your Motorola mobile device, please observe the following:

- **liquids**
  Don’t expose your mobile device to water, rain, extreme humidity, sweat, or other liquids.

- **drying**
  Don’t try to dry your mobile device using a microwave oven, conventional oven, or dryer, as this may damage the mobile device.

- **extreme heat or cold**
  Don’t store or use your mobile device in temperatures below -10°C (14°F) or above 60°C (140°F). Don’t recharge your mobile device in temperatures below 0°C (32°F) or above 45°C (113°F).

- **dust and dirt**
  Don’t expose your mobile device to dust, dirt, sand, food, or other inappropriate materials.

- **cleaning**
  To clean your mobile device, use only a dry soft cloth. Don’t use alcohol or other cleaning solutions.

- **shock and vibration**
  Don’t drop your mobile device.

- **protection**
  To help protect your mobile device, always make sure that any battery, connector and compartment covers are closed and secure.

Recycling

**Mobile Devices & Accessories**

Please do not dispose of mobile devices or electrical accessories (such as chargers, headsets, or batteries) with your household waste, or in a fire. These items should be disposed of in accordance with the national collection and recycling schemes operated by your local or regional authority. Alternatively, you may return unwanted mobile devices and electrical accessories to any Motorola Approved Service Center in your region. Details of Motorola approved national recycling schemes, and further information on Motorola recycling activities can be found at: www.motorola.com/recycling

**Packaging & Product Guides**

Product packaging and product guides should only be disposed of in accordance with national collection and recycling requirements. Please contact your regional authorities for more details.

**California Perchlorate Label**

Some mobile phones use an internal, permanent backup battery on the printed circuit board that may contain very small amounts of perchlorate. In such cases, California law requires the following label:

Perchlorate Material – special handling may apply when the battery is recycled or disposed of. See www.dtsc.ca.gov/hazardouswaste/perchlorate (in English only). There is no special handling required by consumers.

**Hearing Aid Compatibility with Mobile Phones**

Some Motorola phones are measured for compatibility with hearing aids. If the box for your particular model has “Rated for Hearing Aids” printed on it, the following explanation applies.

When some mobile phones are used near some hearing devices (hearing aids and cochlear implants), users may detect a buzzing, humming, or whining noise. Some hearing devices are more immune than others to this interference noise, and phones also vary in the amount of interference they generate.

The wireless telephone industry has developed ratings for some of their mobile phones, to assist hearing device users in finding phones that may be compatible with their hearing.
devices. Not all phones have been rated. Phones that are rated have the rating on their box or a label on the box. To maintain the published Hearing Aid Compatibility (HAC) rating for this mobile phone, use only the original equipment battery model. This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Contact your service provider or Motorola for information on hearing aid compatibility. If you have questions about return or exchange policies, contact your service provider or phone retailer.

The ratings are not guarantees. Results will vary depending on the user’s hearing device and hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Try out the phone with your hearing device is the best way to evaluate it for your personal needs.

M-Ratings: Phones rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. M4 is the better/higher of the two ratings.

T-Ratings: Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device’s telecoil (“T Switch” or “Telephone Switch”) than unrated phones. T4 is the better/higher of the two ratings. (Note that not all hearing devices have telecoils in them.) Hearing devices may also be measured for immunity to this type of interference. Your hearing device manufacturer or hearing health professional may help you find results for your hearing device. The more immune your hearing aid is, the less likely you are to experience interference noise from mobile phones.

Software Copyright
Motorola products may include copyrighted Motorola and third-party software stored in semiconductor memories or other media. Laws in the United States and other countries preserve for Motorola and third-party software providers certain exclusive rights for copyrighted software, such as the exclusive rights to distribute or reproduce the copyrighted software. Accordingly, any copyrighted software contained in Motorola products may not be modified, reverse-engineered, distributed, or reproduced in any manner to the extent allowed by law. Furthermore, the purchase of Motorola products shall not be deemed to grant either directly or by implication, estoppel, or otherwise, any license under the copyrights, patents, or patent applications of Motorola or any third-party software provider, except for the normal, non-exclusive, royalty-free license to use that arises by operation of law in the sale of a product.

Content Copyright
The unauthorized copying of copyrighted materials is contrary to the provisions of the Copyright Laws of the United States and other countries. This device is intended solely for copying non-copyrighted materials, materials in which you own the copyright, or materials which you are authorized or legally permitted to copy. If you are uncertain about your right to copy any material, please contact your legal advisor.

Open Source Software Information
For instructions on how to obtain a copy of any source code being made publicly available by Motorola related to software used in this Motorola mobile device, you may send your request in writing to the address below. Please make sure that the request includes the model number and the software version number.

MOTOROLA MOBILITY, INC.
553 Management
600 North US Hwy 45
Libertyville, IL 60048
USA

The Motorola website opensource.motorola.com (in English only) also contains information regarding Motorola’s use of open source. Motorola has created the opensource.motorola.com website to serve as a portal for interaction with the software community-at-large. To view additional information regarding licenses, acknowledgments and required copyright notices for open source packages used in this Motorola mobile device, please press Menu Key > Settings > About phone > Legal information > Open source licenses. In addition, this Motorola device may include self-contained applications that present supplemental notices for open source packages used in those applications.

Export Law Assurances
This product is controlled under the export regulations of the United States of America and Canada. The Governments of the United States of America and Canada may restrict the exportation or re-exportation of this product to certain destinations. For further information contact the U.S. Department of Commerce or the Canadian Department of Foreign Affairs and International Trade.
Product Registration

Online Product Registration:
www.motorola.com/us/productregistration (in English only)

Product registration is an important step toward enjoying your new Motorola product. Registering permits us to contact you for product or software updates and allows you to subscribe to updates on new products or special promotions. Registration is not required for warranty coverage. Please retain your original dated sales receipt for your records. For warranty service of your Motorola product you will need to provide a copy of your dated sales receipt to confirm warranty status. Thank you for choosing a Motorola product.

Service & Repairs

If you have questions or need assistance, we’re here to help. Go to www.motorola.com/repair (United States) or www.motorola.com/support (Canada), where you can select from a number of customer care options. You can also contact the Motorola Customer Support Center at 1-800-714-3671 (United States), 1-888-390-6456 (TTY/TDD United States for hearing impaired), or 1-800-461-4575 (Canada).

How to Obtain Service or Other Information

1. Please access and review the online Customer Support section of Motorola’s consumer website prior to requesting warranty service.
2. If the Product is still not functioning properly after making use of this resource, please contact the Warrantor listed at the Motorola website or the contact information for the corresponding location.
3. A representative of Motorola, or of a Motorola Authorized Repair Center, will help determine whether your Product requires service. You may be required to download, or otherwise obtain and accept software updates from Motorola or a Motorola Authorized Repair Center. You are responsible for any applicable carrier service fees incurred while obtaining the required downloads. Complying with the warranty process, repair instructions and accepting such software updates is required in order to receive additional warranty support.
4. If the software update does not fix the problem, you will receive instructions on how to ship the Product to a Motorola Authorized Repair Center or other entity.
5. To obtain warranty service, as permitted by applicable law, you are required to include: (a) a copy of your receipt, bill of sale or other comparable proof of purchase; (b) a written description of the problem; (c) the name of your service provider, if applicable; (d) your address and telephone number. In the event the Product is not covered by the Motorola Limited Warranty, Motorola will inform the consumer of the availability, price and other conditions applicable to the repair of the Product.

To obtain service or other information, please access and review the online Customer Support section of Motorola’s consumer website at www.motorola.com.

Motorola Mobility Inc. Limited Global Warranty Mobile Phones

Note: This Limited Warranty is not applicable in Quebec, Canada. FOR CONSUMERS WHO ARE COVERED BY CONSUMER PROTECTION LAWS OR REGULATIONS IN THEIR COUNTRY OF PURCHASE OR, IF DIFFERENT, THEIR COUNTRY OF RESIDENCE, THE BENEFITS CONFERRED BY THIS LIMITED WARRANTY ARE IN ADDITION TO ALL RIGHTS AND REMEDIES CONVEYED BY SUCH CONSUMER PROTECTION LAWS AND REGULATIONS.

Who is Covered?

This Limited Warranty extends only to the first consumer purchaser of the Product, and is not transferable.

What Does this Limited Warranty Cover?

Motorola Mobility Inc. or its subsidiaries’ warranty obligations are limited to the terms and conditions set forth herein. Subject to the exclusions contained below, Motorola Mobility Inc or its subsidiaries (“Motorola”) warrant this Mobile Phone, and any in-box accessories which accompany such Mobile Phone (“Product”) against defects in materials and workmanship, under normal consumer use, for a period of ONE (1) YEAR from the date of retail purchase by the original end-user purchaser, or the period of time required by the laws of the country where the Product is purchased, whichever is longer (“Warranty Period”). Repairs made under this Limited Warranty are covered for the balance of the original Warranty Period, or 90 days from the date of service, whichever is longer. Any upgrade to the original product will be covered only for the duration of the original Warranty Period.

This Limited Warranty is only available in the country where the Product was purchased. Motorola may provide service outside the country of purchase, to the extent that it is possible and under the terms and conditions of the country of purchase.

This Limited Warranty applies only to new Products which are manufactured by or for Motorola as identified by the “Motorola” trademark, trade name, or logo legally affixed to
What Will Motorola Do?

If a covered defect or damage arises and a valid warranty claim is received within the applicable Warranty Period, Motorola, at its sole option, unless otherwise required by applicable law, will either (1) repair, at no charge, the defect or damage using new, used or reconditioned/refurbished functionally equivalent replacement parts; or (2) exchange the Product with a replacement Product that is new or which has been reconditioned/refurbished or otherwise remanufactured from new or used parts and is functionally equivalent to the original Product; or (3) refund the purchase price of any Products covered by the terms and conditions of this Limited Warranty.

Exclusions (Products and Accessories)

This warranty does not apply to:

(a) Consumable parts, such as batteries or protective coatings designed to diminish over time unless failure has occurred due to a defect in materials or workmanship. As with all batteries, the maximum capacity of the battery will decrease with time and use; this is not a defect. Only defective batteries and batteries that leak are covered by this warranty.

(b) Cosmetic damage, including but not limited to scratches, dents, cracks or other cosmetic damage.

(c) Damage caused by use with non-Motorola products. Defects or damage that result from the use of non-Motorola branded or certified Products, accessories or other peripheral equipment, including without limitation housings, parts, or software, are excluded from coverage.

(d) Damage caused by accident, abuse, misuse, liquid contact, fire, earthquake or other external causes, including but not limited to: (i) improper usage or operation (e.g., operating the Product outside their permitted or intended uses as defined by Motorola, including but not limited to as set forth by Motorola in the Products’ User Manual, Quick Start Guide, Online Tutorials, and other documentation), improper storage (e.g., subjecting the Product to extreme temperatures), abuse or neglect (e.g., broken/bent/bixing clips/fasteners/connections), impact damage (e.g., dropping the Product) (ii) contact with liquids, water, rain, extreme humidity, heavy perspiration or other moisture, sand, food, dirt or similar substances (except for Products sold as resistant to such substances, but only to the extent the damage was not caused by incorrectly securing the phone’s protective elements or subjecting the Product to conditions beyond its stated specifications or limits; (iv) external causes or acts which are not the fault of Motorola, including but not limited to flood, fire, earthquake, tornado or other acts of God, are excluded from coverage.

(e) Unauthorized Service or Modification. Defects or damage resulting from service, testing, adjustment, installation, maintenance, alteration, or modification in any way, including but not limited to tampering with or altering the software, by someone other than Motorola, or its authorized service centers, are excluded from coverage. Notwithstanding the foregoing, any Product which has had its bootloader unlocked, or whose operating system has been altered, including any failed attempts to unlock the bootloader or alter such operating system, is not covered by this warranty, regardless of whether such modifications are authorized, approved, or otherwise sanctioned by Motorola.

(f) A product or part that has been modified in any manner without the written permission of Motorola. Products that have been altered in any manner so as to prevent Motorola from determining whether such Products are covered under the terms of this Limited Warranty are excluded from coverage. The forgoing shall include but not be limited to (i) serial numbers, date tags or other manufacturer coding that has been removed, altered or obliterated; (ii) mismatched or duplicated serial numbers; or (iii) broken seals or other evidence of tampering. Do not open the Product or attempt to repair the Product yourself; such conduct may cause damage that is not covered by this warranty.

(g) Normal wear and tear or otherwise due to the normal aging of the Product.

(h) Defects, damages, or the failure of the Product due to any communication service or network you subscribe to or use with the Products.

(i) All software, including operating system software, third-party software, applications, and all other software of any kind. Software distributed by Motorola is provided “AS IS” and “AS AVAILABLE”, “WITH ALL FAULTS” and without a warranty of any kind. The Limited Warranty does not apply to any non-Motorola product or any software, even if packaged or sold with the Motorola hardware, unless otherwise required by applicable local law.

(j) Products that have been refurbished, reconditioned, or remanufactured, except for Products repaired or replaced pursuant to the terms of this Limited Warranty. If damage is outside the scope of warranty coverage, repair services may be available, but all costs associated with such out-of-warranty repair will be your responsibility.
What Other Limitations are There?

- To the extent permitted by applicable law, this limited warranty and the remedies set forth herein are exclusive and in lieu of all other warranties and remedies, whether express, statutory, implied, oral or written. No oral or written representations made by Motorola or any seller, reseller or distributor of the products, including employees and agents thereof, shall create any additional warranty obligations.

- To the extent permitted by applicable law, Motorola specifically disclaims any and all statutory or implied warranties, including, without limitation, warranties of merchantability, fitness for a particular purpose, noninfringement and all warranties against hidden or latent defects. Where such statutory or implied warranties cannot lawfully be disclaimed, then to the extent permitted by law, all such warranties shall be limited in duration to the duration of the express limited warranty contained herein and the remedies of repair, replacement, or refund as determined by Motorola in its sole discretion shall be the exclusive remedy of the consumer.

- To the extent permitted by applicable law, Motorola does not warrant that the operation of any products or software covered under this limited warranty will meet your requirements, work in combination with any hardware or software applications or third party services, be uninterrupted, error-free, or without risk to, or loss of, any information, data, software, or applications contained therein, or that defects in the products or software will be corrected.

- To the extent permitted by applicable law, in no event shall Motorola be liable, whether in contract, tort or under other legal theory (including negligence), for damages in excess of the purchase price of the products, or for any indirect, incidental, special or consequential damages of any kind, or loss of revenue or profits, loss of business interruption, loss of opportunity, loss of goodwill, loss of reputation, loss of damage to, or corruption of information, data, software or applications including any costs associated with recovering, programming, or reproducing any information, data, software or applications stored on or used with Motorola products, or any failure to maintain the confidentiality of any information or data stored on the products, or other financial loss arising out of or in connection with the ability or inability to use the products.

- Some states or jurisdictions do not allow the limitation or exclusion of incidental or consequential damages, or the exclusion or limitation on the length of an implied warranty, or the limitation or exclusion of damages for personal injuries caused by negligence, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from state or jurisdiction.

Data Backup:

All information, data, software or other applications, including but not limited to personal contacts, address books, pictures, music and games, will be erased during the repair process, and cannot be reinstalled by Motorola. To avoid losing such information, data, software or other applications, please back up your product or warranty service. Remove any confidential, proprietary or personal information and disable any security passwords. You will be responsible for reinstalling all such information, data, software, other applications and passwords. Motorola and/or its authorized service centers are not responsible for the loss of any data, files, content, applications and programs when the product is delivered for warranty service. Your product or a replacement product will be returned to you as your product was configured when originally purchased, subject to applicable software updates. Motorola may install operating system software updates as part of warranty service that may prevent the product from reverting to an earlier version of the operating system software. Third party applications installed on the product may not be compatible or work with the product as a result of the operating system software update. Motorola and its authorized service centers are not responsible for the loss of, or inability to use, such information, data, software or other applications.

Warning Against Unlocking the Bootloader or Altering a Product’s Operating System Software: Motorola strongly recommends against altering a product’s operating system, which includes unlocking the bootloader, rooting a device, or running any operating software other than the approved versions issued by Motorola and its partners. Such alterations may permanently damage your product, cause your product to be unsafe and/or cause your
PRODUCT TO MALFUNCTION. IN SUCH CASES, NEITHER THE PRODUCT NOR ANY DAMAGE RESULTING THEREFROM WILL BE COVERED BY THIS WARRANTY.

IMPORTANT FCC INFORMATION: YOU MUST NOT MAKE OR ENABLE ANY CHANGES TO THE PRODUCT THAT WILL IMPACT ITS FCC GRANT OF EQUIPMENT AUTHORIZATION. THE FCC GRANT IS BASED ON THE PRODUCT'S EMISSION, MODULATION, AND TRANSMISSION CHARACTERISTICS, INCLUDING: POWER LEVELS, OPERATING FREQUENCIES AND BANDWIDTHS, SAR LEVELS, DUTY-CYCLE, TRANSMISSION MODALITIES (E.G., CDMA, GSM), AND INTENDED METHOD OF USING THE PRODUCT (E.G., HOW THE PRODUCT IS HELD OR USED IN PROXIMITY TO THE BODY). A CHANGE TO ANY OF THESE FACTORS WILL INVALIDATE THE FCC GRANT. IT IS ILLEGAL TO OPERATE A TRANSMITTING PRODUCT WITHOUT A VALID GRANT.
