READ THIS FIRST
Here’s what you’ll do:

• Charge and set up your Palm™ Tungsten™ T3 handheld.
• Install Palm™ Desktop software.
• Learn to use your handheld.

Note!
You must install the version of Palm Desktop software included in this package in order to synchronize and to support all the features of your handheld.

Contents

Palm Tungsten T3 handheld

USB HotSync® cradle

Power adapter

Software Installation CD
1 Connect

a. Connect the HotSync® cradle to the computer.*
b. Plug the adapter into an outlet and into the cradle.

* Systems without USB ports require a serial cradle (sold separately).
2 Charge

a. Place your Tungsten T3 handheld in the cradle.

b. Make sure that the indicator light is solid green. This means your handheld is properly seated in the cradle and is being charged.*

c. Charge for at least two full hours.

* Problems? See “Troubleshooting” in the upcoming pages.
3 Set up

a. Remove the handheld from the cradle.
   1. Tilt it forward.
   2. Lift up.

b. Turn on the handheld by pressing the power button.*

c. Remove the stylus.

d. Follow the instructions onscreen.

* Problems? See “Troubleshooting” in the upcoming pages.

Install Palm™ Desktop software on your computer

Windows:
Follow the installation instructions that appear on your computer screen.*

Mac OS X:
Double-click the Palm Desktop Installer icon.*

Tip for upgraders: To switch from Palm Desktop to Microsoft Outlook synchronization, select “Install Microsoft Outlook Conduits” at the end of the installation process. For more information on the upgrade process, go to www.palm.com/support/intl.

* Problems? If installation or the HotSync process did not work, see “Troubleshooting” in the upcoming pages.
Try it! Schedule an appointment on your computer

If you synchronize with Microsoft Outlook, then schedule an appointment in Outlook, not Palm Desktop software.

**Windows:**

a. Double-click the Palm Desktop icon on your computer desktop.

b. In Palm™ Desktop software, click New Event in the lower-left corner.

c. Enter the appointment, and then click OK to save it.

**Mac:**

a. In the Palm folder, double-click the Palm Desktop icon.

b. Create or select a username to identify your information.

c. From the Create menu, select Event.

d. Enter the appointment, and then click OK to save it.
Now schedule an appointment on your handheld

a. Press the Calendar button twice.
b. Slide open the handheld to reveal the Input area.
   If you do not see the Input area, tap the Input icon in the status bar.
c. Tap New.
d. Tap to set the time, and then tap OK.
e. Tap “abc” to display the onscreen keyboard. Tap the keyboard to type.
7 Synchronize information on your handheld and computer

The HotSync® process synchronizes information on your handheld and in the desktop application you chose in step 4 (Palm™ Desktop software or Outlook). After synchronizing, information you enter in your handheld appears in the desktop application, and vice versa.*

a. Place the handheld in the cradle.

b. Press the button on the cradle to begin the HotSync process.*

c. When the HotSync process is complete, check your handheld and desktop application to see both appointments in both places.

* Problems? If the HotSync process did not work, or (Windows only) you cannot find your photos and Voice memos after synchronization, see “Troubleshooting” in the upcoming pages.
TROUBLESHOOTING

The indicator light does not go on

1. Seat your handheld firmly in the cradle.
2. Connect the power adapter securely to the cradle.
3. Make sure that the power adapter is plugged into a working electric outlet.

Your handheld does not turn on when you press the power button, or your handheld does not respond when you tap it

1. Press any application button to see if you can turn on your handheld that way.
2. Perform a soft reset:
   a. Slide open your handheld.
   b. Use the tip of your stylus or an unfolded paper clip (or similar object without a sharp tip) to gently press the reset button inside the hole on the back panel of your handheld.
3. Charge your handheld for another full two hours.
   a. Place your handheld in the cradle.
   b. Make sure the indicator light is on.

For more information, go to www.palm.com/support/intl.
Palm™ Desktop Installer does not automatically appear after you put the CD-ROM into the drive

Windows:
1. Click the Start button.
2. Select Run from the Start menu.
3. Click Browse to locate the drive with the Palm Desktop software CD-ROM.
4. Double-click the autorun.exe file on the Palm Desktop software CD-ROM.

Mac:
1. Double-click the CD-ROM icon on the Mac desktop to open the Palm Desktop software CD-ROM.
2. Double-click the Palm Desktop Installer icon.

For more information, go to www.palm.com/support/intl.
HotSync® process does not begin

Check that the handheld is properly seated in the cradle and that the cradle connector is securely connected to the computer.

Windows:

1. Make sure that the HotSync® Manager icon appears in the Windows system tray. If not:
   a. Click the Start button and select Programs.
   b. Select Palm Desktop, and then select HotSync Manager.
2. Check the connection type:
   a. Click the HotSync Manager icon.
   b. Make sure that a checkmark appears next to Local USB (or Local Serial if you’re using a serial connection). To insert a checkmark, click the menu item.

Mac:

1. Make sure the Transport Monitor of the HotSync Manager is enabled:
   a. Double-click the HotSync Manager icon in the Palm folder.
   b. In the HotSync Controls tab, click Enabled.
2. If you are using a USB cradle:
   a. Disconnect and then reconnect the cradle.
   b. Restart your computer.
3. If you are using a serial cradle (sold separately):
   a. Double-click the HotSync Manager icon in the Palm folder.
   b. Click the Connection Settings tab.
   c. Make sure PalmConnect is selected and that the port selection matches the port to which the HotSync cradle is connected.

For more information, go to www.palm.com/support/intl.
Some third-party applications may not have been upgraded to be compatible with your new Palm™ handheld. If a third-party application is NOT compatible, the following symptoms may occur on your handheld after you perform a HotSync operation:

- Device freeze
- Device freeze or reset when an application is opened
- Slow performance
- Unusual screen display
- Difficulties using handheld features
- Uneven sound quality
- Device reset

For detailed information on issues with third-party-application compatibility, check with the third-party vendor.

For more information, go to www.palm.com/support/intl.
Windows only: Cannot find photos or Voice memos on desktop after synchronization

Photos, Voice memos, and Expense data always appear in Palm Desktop software, even when you choose to synchronize with Microsoft Outlook.

To see this data, double-click the Palm Desktop icon on your computer desktop, and then click the application icon in the launch bar.

Data in Calendar, Contacts, Tasks, and Memos synchronizes with the desktop application you chose during the installation process (Palm Desktop software or Microsoft Outlook).

For more information, go to www.palm.com/support/intl.
Read the **Handbook**

The *Handbook* opens in Adobe Acrobat Reader on your computer. If you do not have Acrobat Reader, you can install it from the Palm™ Desktop software CD-ROM.

**Windows:**
In Palm Desktop software, click Help in the menu bar. Then select the menu item for the *Handbook*.

**Mac:**
Look in the Applications:Palm:Documentation folder, and double-click TungstenT3_Handbook.pdf.
