This product meets applicable national SAR limits of 2.0 W/kg. The specific maximum SAR values can be found in the SAR information section of this manual. When carrying the product or using it while worn on your body, either use an approved accessory such as a pouch or waist pack, or maintain a distance of 1.5 cm from the body to ensure compliance with RF exposure limitations. Note that the components of your device may be transmitting even if you are not making a phone call.

Warning: Prevent electric shock, fire, and explosion
Do not use damaged power cords or plugs, or loose electrical sockets.
Do not touch the power cord with wet hands, or disconnect the charger by pulling on the cord.
Do not bend or damage the power cord.
Do not use your device while charging or your device with wet hands.
Do not short-circuit the charger or the battery.
Do not drop or cause an impact to the charger or the battery.
Do not charge the battery with chargers that are not approved by the manufacturer.

Do not store your device near magnetic fields
• Your device may malfunction or the battery discharge from unusual衽, if your device is near a magnet, if a magnet is held to your device.
• Magnetic stripe cards, including credit cards, phone cards, passports, and boarding passes, may be damaged by magnetic fields.
• Do not use magnetic tags or accessories with magnetic closures.
• Do not charge your device near or in heating mediums, hot cooking equipment, or high pressure containers.
• The battery may leak.
• Your device may be damaged or cause a fire.

Do not drop your device or cause impacts to your device
• Your screen or your device's body may be damaged or may malfunction.
• If dropped or damaged, your device may be damaged or may malfunction.

Do not use your device or applications for a while if the device is exposed to direct sunlight
Prolonged exposure of your skin to an overheated device may cause low temperature burn symptoms, such as red spots and pigmentation.

If your device has a camera flash or light, do not use a flash close to the eyes of people or pets.
Using a flash close to the eyes may cause temporary loss of vision or damage to the eye.

Do not take notes or look up phone numbers.
Jotting down a phone number, address, or other personal information while using a phone's keypad can cause radiation exposure.

Keep your personal and important data safe
• While using your device, be sure to back up important data. Samsung is not responsible for data loss.
• When moving the device, back up all data and then reset your device to prevent misuse of your personal information.
• Carefully read the permissions screen when downloading applications. Be particularly cautious with applications that have access to your contact list, photos, and other personal information.
• If you find any sign of abuse of your personal information, contact your service provider to delete any account or change your account password.
• In the event your device is lost or stolen, change the passwords on your account to protect your personal information.
• If you are concerned about the security of your personal information, contact your service provider to delete any account or change your account password.

Do not use or store your device in dusty, dirty areas
Dust can cause your device to malfunction.

Do not store your device on slopes
If your device falls, it can be damaged.

Do not store your device in hot or cold areas.
Use your device at 20 °C to 50 °C.
• Your device can be damaged if it is stored at a temperature of below 0 °C or above 50 °C.
• Do not expose your device to direct sunlight for extended periods.
• Do not expose your device to temperatures outside the -20 °C to 50 °C range.

Do not handle or store flammable liquids, gases, or explosive substances.
• Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the device, its parts, or accessories.

Do not take notes or look up phone numbers.
Jotting down a phone number, address, or other personal information while using a phone's keypad can cause radiation exposure.

Use caution when using the device while walking or moving.
Always be aware of your surroundings to avoid injury to yourself or others.

Do not carry your device in your back pockets or around your waist.
You can be injured or damage the device if you fall.

Do not disassemble, modify, or repair your device.
Any changes or modifications to your device void your manufacturer’s warranty. For service, take your device to a Samsung Service Centre.

Do not damage or puncture the battery, as this can cause explosion or fire.

Do not post or put stickers on your device.
Paint and stickers can clog memory ports and prevent proper operation. If you are allergic to paint or metal parts of the product, you may experience inflammation, burning, or swelling of the skin. If this happens, stop using the product and consult your physician.

When cleaning your device:
• Use a dry cloth or a cloth with a towel or a rubber.
• Clean the terminals of the battery with a cotton ball or a towel.
• Do not use chemicals or detergents.

Electronic devices in a motor vehicle may malfunction due to the radio frequency of your vehicle.
Electronic devises in your car may malfunction due to radio frequency of your device. Contact the manufacturer for more information.

Comply with all safety warnings and regulations regarding mobile device usage while operating a vehicle
While driving, safely operating the vehicle is your first responsibility. Never use your mobile device while driving, if it is prohibited by law. For your safety and the safety of others, practice good common-sense driving.

• Use a hands-free device.
• Get to know your device and its features, such as speed dial and ringer. These features help you reduce the time needed to place or receive calls while driving.

• Position your device within easy reach. Be able to access your wireless device without removing your eyes from the road. If you receive an incoming call at an inconvenient time, let your voicemail answer for you.

• Do not engage in stressful or emotional conversations that may be distracting. Make phone calls when you are not driving or when you are safely pulled over.

• Check your accounts regularly for unauthorised or suspicious use.

• Do not carry your device in your back pockets or around your waist.

• Do not disassemble, modify, or repair your device.

• Do not use the device if the screen is cracked or broken.

• Do not use the device while operating the vehicle.

• Do not allow children to use your device.

• Do not use the device for any other than its intended use.

Avoid disturbing others when using the device in public.

Install mobile devices and equipment with caution.
Ensure that all mobile device and equipment installed in your vehicle are securely mounted.

Avoid placing your device and accessories near or in an air bag deployment area. Improperly installed wireless equipment can cause malfunctioning when the airbag inflates.

Ensure access to emergency services.
Emergency calls from your device may not be possible in some areas. Note that your mobile device can cause malfunction in certain areas of your vehicle, at the discretion of the mobile device manufacturer.

Installation SIM card and battery
1. Remove the back cover and battery and insert the
SIM cards.
2. Insert the battery and replace the back cover.

Charge the battery
1. Plug a travel adapter.
2. When charging is finished, unplug the travel adapter.

To adjust the volume of a call
While a call is in progress, press the Volume key up or
down to adjust the volume.
If you are using the silent profile, you are not allowed
to change the ringtone.
Select Voice call ringtone.
Select a memory location (if necessary).
Select a ringtone and select Set.
To switch to another profile, select it from the list.

To change a called dialled number
1. In idle mode, press [•] to display a list of recent
calls.
2. Select or to a call type.
3. Scroll up or down to a number or name.
4. Select the number or name to view details of the call
and press [•] to dial the number.

Use widgets
Learn to use widgets on the idle screen.
Some of your widgets connect to web services.
Selecting a web-based widget may incur additional
charges.
Available widgets may vary depending on your
region or service provider.

Instructional icons

Caution: situations that could damage
to your phone or other equipment.
Note: notes, usage tips, or additional
information
Followed by: the order of options or menus
you must select to perform a step; for
example: In Menu mode, select Messages → Create message (represents Messages
followed by Create message)
Square brackets: phone keys; for example: [•] (represents the Power/End key)

Use the touch screen
Learn basic actions to use the touch screen.
To avoid scratching the touch screen, do not use
sharp tools.
Do not allow the touch screen to come in contact
with other electrical devices. Electrostatic
discharges can cause the touch screen to
temper.
Do not allow the touch screen to come in contact
with water. The touch screen may malfunction in
humid conditions or when exposed to water.
For the optimal use of the touch screen, remove the
protection film before using your phone.

Add a new contact
The memory location to save new contacts may
be preset depending on your service provider.
To change the memory location, in Menu mode, select
Contacts → Settings → Save new contact to →
memory location or Save.

To add a new contact
