Starting Up
Switch off your phone before installing or replacing the battery or the SIM card. The microSDHC™ card is optional and can be installed and removed while the phone is turned on. Unmount the microSDHC card before removing it.

1. Place your finger in the slot at the bottom of the back cover to lift and remove the cover.

2. Hold the SIM card with its cut corner oriented as shown and slip it into the card holder.

3. Hold your microSDHC card with the metal contacts facing down and slide it into the microSDHC card slot.

4. Align the connectors on the phone and the battery and slide the battery into the compartment. Then gently press the battery down until it is secured.

5. Align the back cover with the back of the phone and press the cover back into place. Make sure all the tabs are secure and there are no gaps around the cover.

6. Connect the adapter to the charging jack. Ensure that the adapter is inserted with the correct orientation. Do not force the connector into the charging jack.

7. Connect the charger to a standard AC power outlet.

8. Disconnect the charger when the battery is fully charged.
