**PUTTING VIDEOS, MUSIC AND PHOTOS ONTO YOUR ARCHOS**

You can transfer your media files to the ARCHOS by either copying them into the respective folders using Windows Explorer (or the Finder on a Mac), or by using Windows Media® Player or Mac’s iTunes to transfer, copy, move or delete music, music and photo files to your ARCHOS. It will give you the possibility to have the same digital media on your ARCHOS as you have in your Windows Media® Player library.

**Charging and Connecting to a Computer**

When you connect the USB cable to your computer, the ARCHOS will connect as a removable drive. Windows Explorer will show it as ARCHOS [x] (for example For Macintosh® computers, it will also appear as an external hard drive.

**Music Playback**

Opening the music browser will allow you to choose your music by the title, artist, album, or genre (so long as the music files have these tag information in them). If a song has no music tags, then you can find it in the folder named ‘<no artist>’, ‘<no album>’, etc.

- **Volume Indicator**
- **Song Title**
- **Artist Name**
- **Play Mode**
- **Repeat Mode**
- **Previous Song**
- **Next Song**
- **Elapsed Time**
- **Total Song Length**

**Video Playback**

Opening the Video browser will display a list of the video files (and only video files) that have been saved into the Video folder on the ARCHOS.

**FM Radio**

To use the radio, you must have the headphones plugged in as this acts as your antenna. You can create radio presets, save favorites, or record what is currently playing by pausing and holding the Back button and making your selection.

**Photos**

Opening the photo browser will allow you to view the stored photos by name or as an automatic slideshow. Highlight the desired photo file, then press OK to view. Press the left and right buttons to view the next or previous photo. Press the OK button to start a slideshow. Press OK again to stop the slideshow. The speed of the slideshow can be adjusted through the settings. You can make a slide show with music by first playing a song then exiting the music player and starting a slide show while the music continues to play.

CARGA Y CONEXIÓN A UN ORDENADOR

Carga: El dispositivo ARCHOS se cargará automáticamente cuando se conecte a un ordenador que esté encendido (aunque lo desmonte con el ícono de extracción segura).

Conexión: Cuando conecte el cable USB al ordenador, el ARCHOS se conectará como disco duro externo. El Explorador de Windows® lo mostrará como ARCHOS (D: \) por ejemplo. En ordenador Macintosh®, aparecerá también como disco duro externo.

REPRODUCCIÓN DE MÚSICA

Si abre el navegador de música, podrá elegir la música por el nombre, el artista, el álbum, el género o la categoría de la música, en su ordenador. Si vuelve a conectar el ARCHOS con el ordenador, los archivos de música se reproducirán de nuevo en el mismo orden.

Ajustes del reproductor: Haga clic en el botón “Configuración” para cambiar el nombre del dispositivo, la ubicación de los archivos de música, la carpeta de música, etc. Seleccione “Archivo” o “Led” para cambiar el brillo de la pantalla, la retroiluminación [el brillo de la pantalla], la retroiluminación [el brillo de la pantalla]. 

DESCONEXIÓN DEL ARCHOS DE UN ORDENADOR

Una vez finalizadas todas las transferencias de archivos, cierre el Explorador de Windows® y quite el ARCHOS. Haga clic en el ícono “Quitar hardware con seguridad” de la bandeja del sistema, junto al reloj.

FM RADIO

Para escuchar la radio, debe tener los auriculares conectados ya que esto actúa como su antena. Usted puede ver la estación que escucha en la esquina superior izquierda inferior. Para cambiar la estación, pulse el botón de reproducción/parada. Para seleccionar un canal, haga clic en el botón de reproducción/parada.
