3. Plug & Share

Connect your Vado to your computer’s USB port as shown.
In the window that appears, select to launch Vado Central software.

To copy videos to your computer, click Copy.

To share your videos online, select the videos you want and click YouTube™ or Photobucket™.

Note:
• Vado Central software is not available for Mac® systems. To view videos on your Mac, copy the video files to your computer and use QuickTime® for viewing (Xvid plugin required).
• If you choose to reformat your Vado (all the content in your Vado will be deleted, including the built-in software), select the FAT 16 file system.
• Safety and regulatory information can be found in the root directory of your Vado.
