Chapter 1: Introduction

The Avid® S6 Knob Module is an eight channel hardware module that provides four knobs, a display, and associated switches per channel strip.

Module Capabilities and Features

- Eight (8) channel strips, each with:
  - Four (4) touch-sensitive, continuous, dual function encoders (rotate and press functionality) with red, green, and blue LED knob top, 128 x 64 pixel OLED display, and Automation indicators
  - In and Select switches
  - Left, Right, and Back switches
  - 2-pin 12V Power
  - 1 (one) 1000-BaseT (Gigabit) Ethernet RJ45 connector
**System Requirements and Compatibility**

Avid can only assure compatibility and provide support for hardware and software it has tested and approved.

For complete system requirements and a list of qualified computers, operating systems, hard drives, and third-party devices, visit: www.avid.com/compatibility

---

**Registration**

Review the enclosed Registration Information Card and follow the instructions on it to register your purchase online. By registering, you become eligible to receive the following:

- Technical support information
- Software update and upgrade notices
- Hardware warranty information

---

**About www.avid.com**

The Avid website (www.avid.com) is your best online source for information to help you get the most out of your Pro Tools system. The following are just a few of the services and features available.

**Product Registration** Register your purchase online.

**Support and Downloads** Contact Avid Customer Success (technical support); download software updates and the latest online manuals; browse the Compatibility documents for system requirements; search the online Knowledge Base or join the worldwide Pro Tools community on the User Conference.

**Training and Education** Study on your own using courses available online or find out how you can learn in a classroom setting at a certified Pro Tools training center.

**Products and Developers** Learn about Avid products; download demo software or learn about our Development Partners and their plug-ins, applications, and hardware.

**News and Events** Get the latest news from Avid or sign up for a Pro Tools demo.
Connectors for power and Ethernet are located along the side of the module.

The Knob Module is powered by 12 V DC. The power input connector is a 2-conductor Molex.

Gigabit Ethernet RJ45
Chapter 3: S6 Knob Module Overview

This chapter identifies the hardware features on the Knob Module.

The Knob Module is an eight-channel hardware module with four knobs per channel.
Chapter 3: S6 Knob Module Overview

Top Panel

The Knob Module provides eight channel strips, each with four knobs, two switches, a display, and navigation switches.

Channel Strips

Each channel strip provides four Encoder sections. Each Encoder section provides the following controls, displays, and indicators:

- **Encoder (Knob)** Each encoder is a touch-sensitive, continuous, dual-function encoder (rotate and press functionality). The encoder lights in different colors to indicate function and status.
- **OLED Display** Each encoder display is a 128 x 64 pixel OLED display.
- **In and Sel (Select)** Each encoder section includes In and Sel switches. In lights green when enabled; Sel lights yellow.

**◄ (Left), Back, and ► (Right) Switches**

At the bottom of each Knob Module strip are the ► (Left), Back, and ► (Right) navigation switches.

**Navigation switches**

The ◄ and ► switches light yellow when available. Back lights in different colors to indicate page status.

Appendix B: Compliance Information

Environmental Compliance

Disposal of Waste Equipment by Users in the European Union

This symbol on the product or its packaging indicates that this product must not be disposed of with other waste. Instead, it is your responsibility to dispose of your waste equipment by handing it over to a designated collection point for the recycling of waste electrical and electronic equipment. The separate collection and recycling of your waste equipment at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment. For more information about where you can drop off your waste equipment for recycling, please contact your local city recycling office or the dealer from whom you purchased the product.

Proposition 65 Warning

⚠️ This product contains chemicals, including lead, known to the State of California to cause cancer and birth defects or other reproductive harm. Wash hands after handling.

Perchlorate Notice

This product may contain a lithium coin battery. The State of California requires the following disclosure statement: “Perchlorate Material – special handling may apply, See www.dtsc.ca.gov/hazardous waste/perchlorate.”

Recycling Notice
**EMC (Electromagnetic Compliance)**

Avid declares that this product complies with the following standards regulating emissions and immunity:

- FCC Part 15 Class B
- EN 55022 Class B
- AS/NZS CISPR 22 Class B
- CISPR 22 Class B
- EN 55103-1, Class E2 and E3
- EN 55103-2, Class E2 and E3

**FCC Compliance for United States**

<tbody>
<tr>
<td>NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try and correct the interference by one or more of the following measures:</td>
</tr>
<tr>
<td>• Reorient or locate the receiving antenna.</td>
</tr>
<tr>
<td>• Increase the separation between the equipment and receiver.</td>
</tr>
<tr>
<td>• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.</td>
</tr>
<tr>
<td>• Consult the dealer or an experienced radio/TV technician for help.</td>
</tr>
<tr>
<td>Any modifications to the unit, unless expressly approved by Avid, could void the user's authority to operate the equipment.</td>
</tr>
</tbody>
</table>

**Australian Compliance**

N1709

**Canadian Compliance**

This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.

Cet appareil numérique de la classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

**CE Compliance**

(EMC and Safety)

Avid is authorized to apply the CE (Conformité Européenne) mark on this compliant equipment thereby declaring conformity to EMC Directive 2004/108/EC and Low Voltage Directive 2006/95/EC.

Warning

Important Safety Instructions

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this equipment near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other equipment (including amplifiers) that produce heat.
9) Protect power cords from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the equipment.
10) Use only attachments/accessories specified by the manufacturer.
11) For products that are not rack-mountable: Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the equipment. When a cart is used, use caution when moving the cart/equipment combination to avoid injury from tip-over.
12) Unplug this equipment during lightning storms or when unused for long periods of time.
13) Refer all servicing to qualified service personnel. Servicing is required when the equipment has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the equipment, the equipment has been exposed to rain or moisture, does not operate normally, or has been dropped.
15) For products that are a Mains powered device:

The equipment shall not be exposed to dripping or splashing and no objects filled with liquids (such as vases) shall be placed on
the equipment.

**Warning!** To reduce the risk of fire or electric shock, do not expose this equipment to rain or moisture.

Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the
other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your
safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

16) For products containing a lithium battery:

CAUTION! Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

17) For products with a power switch:

It should remain accessible after installation.

18) The equipment shall be used at a maximum ambient temperature of 40° C.

19) This unit is provided with a power supply cord set suitable for 120V AC input only (for U.S.A. and Canada). For other than
U.S.A. and Canada, a qualified person must provide for use with this unit, an appropriate, approved power supply cord set which
is in compliance with the end use country requirements and has a minimum cross-sectional area of 1.0mm2.

20) For products with more than one power cord:

CAUTION: This unit has more than one power supply cord. Disconnect two power supply cords before servicing to avoid electrical
shock.

ATTENTION: Cet appareil comporte plus d’un cordon d’alimentation. Afin de prévenir les chocs électriques, débrancher les deux
cordons d’alimentation avant de faire le dépannage.

21) For products with an operator-accessible fuse:

CAUTION: For continued protection against risk of fire, replace only with same type and rating of fuse.

ATTENTION: Pour ne pas compromettre la protection contre les risques d’incendie, remplacer par un fusible de même type et de
même caractéristiques nominales.
