QuarkCopyDesk® lets you edit text and pictures in articles using a high-powered suite of typographical and image-editing tools. You can use QuarkCopyDesk as a standalone application, as a means of working on articles in QuarkXPress® projects, or as part of a larger editorial workflow system.
System requirements

**System requirements: Mac OS X**

**Software**
- Mac OS X® 10.7.5 (Lion), Mac OS X 10.8.x (Mountain Lion), Mac OS X 10.9.x (Mavericks)

**Hardware**
- Mac® Intel® processor
- 2GB RAM or higher
- 2GB hard disk space

**Optional**
- An Internet connection for activation
- DVD-ROM drive for installation from DVD (not required for installation from download)

**System requirements: Windows**

**Software**
- Microsoft® Windows® 7 (32 and 64 Bit) SP1 or Windows 8 (32 and 64 Bit) or Windows 8.1 (32 and 64 Bit)

**Hardware**
- 2GB RAM or higher
- 2GB hard disk space
- Multi-core processor supporting SSE3 instruction set
SYSTEM REQUIREMENTS

Optional

• An Internet connection for activation
• DVD-ROM drive for installation from DVD (not required for installation from download)
Installing: Mac OS X

To install QuarkCopyDesk:

1 Disable any virus protection software. If you are concerned about a virus infecting your computer, run a virus check on the installer file, then disable your virus detection software.

2 Double-click the installer icon and follow the instructions on the screen.

Performing a silent installation

The silent installation feature lets users install QuarkCopyDesk on their computers over a network without having to follow step-by-step instructions. This feature is useful for large group installations when performing manual installations is cumbersome.

Preparing for silent installation: Mac OS X

To enable Mac OS X users to perform a silent installation on their computers, an administrator must make the following modifications:

1 Copy everything from the disc or disk image that contains the installer to an empty folder on the local hard disk.

2 Using the local copy of the installer, install QuarkCopyDesk on the local hard disk. The installer creates a "QuarkCopyDesk Setup.xml" file in the folder where the installer is located.

3 Share the folder that contains the installer and the "QuarkCopyDesk Setup.xml" file with users who are licensed to install QuarkCopyDesk.

Performing a silent installation: Mac OS X

To perform a silent installation on Mac OS X, an end user must follow these steps:

1 Copy the installer folder that contains the "QuarkCopyDesk Setup.xml" file to your computer.

2 Double-click the QuarkCopyDesk installer icon and follow the instructions on the screen.
Installing: Windows

To install QuarkCopyDesk:

1 Disable any virus protection software. If you are concerned about a virus infecting your computer, run a virus check on the installer file, then disable your virus detection software.

2 Double-click the installer icon and follow the instructions on the screen.

Performing a silent installation

The silent installation feature lets users install QuarkCopyDesk on their computers over a network without having to follow step-by-step instructions. This feature is useful for large group installations when performing manual installations is cumbersome.

Preparing for silent installation: Windows

To enable Windows users to perform a silent installation on their computers, an administrator must make the following modifications:

1 Copy everything from the disc or disk image that contains the installer to an empty folder on the local hard disk.

2 Using the local copy of the installer, install QuarkCopyDesk on the local hard disk. The installer creates a "QuarkCopyDesk Setup.xml" file in the folder where the installer is located.

3 Open the "silent.bat" file in a text editor and make sure the path of the "QuarkCopyDesk Setup.xml" file is in the first line as follows:

   `'[network path of setup.exe file]' /s /v'/qn'

4 Share the folder that contains the installer and the "QuarkCopyDesk Setup.xml" file with users who are licensed to install QuarkCopyDesk.

Silent installation: Windows

To perform a silent installation on Windows, an end user must follow these steps:

1 Navigate to the shared folder that contains the "QuarkCopyDesk Setup.xml" and "silent.bat" files.
2 Double-click the "silent.bat" file and follow the instructions on the screen.

Adding files after installation: Windows

To add files after installation:

1 Double-click the "setup.exe" icon.
   The Setup dialog box displays.
2 Click Next.
   The Program Maintenance screen displays.
   • Click Modify to choose the files to install. You can install new files or remove previously installed files.
   • Click Repair to correct minor issues related to installed files. Use this option if you experience issues with missing or damaged files, shortcuts, or registry entries.
3 Click Next.
   • If you clicked Modify in the previous dialog box, the Custom Setup screen displays. Make the appropriate modifications, then click Next. The Ready to Modify the Program screen displays.
   • If you clicked Repair in the previous dialog box, the Ready to Repair the Program screen displays.
4 Click Install.
5 Click Finish when the system notifies you that the process is complete.
Quark® License Administrator (QLA) is software that manages licensed Quark products. If you purchased an educational site license or a commercial site license, you most likely received a QLA CD-ROM when you purchased QuarkCopyDesk. QLA must be installed on your network before you install QuarkCopyDesk.

If QLA is already installed and you are installing QuarkCopyDesk, the License Server Details dialog box displays after you enter your registration information. Before proceeding, verify that you have the information you need to enter values in the following fields:

- **License Server Host Name or IP Address**: Enter the IP address or server name for the server you have designated as the license server. The license server handles requests from license clients.

- **License Server Port**: Enter the value for the license server port. This number is determined when the QLA software is registered online. The license server port is the port through which license server requests flow.

- **Backup License Server Host Name or IP Address**: Enter the IP address or server name for the server you have designated as the backup license server.

- **Backup License Server Port**: Enter the value for the backup license server port.
Activating

If you have a single-user copy of QuarkCopyDesk, you must activate it. To activate QuarkCopyDesk when you launch it, click **Activate Now** *(Windows)* or **Continue** *(MAC OS X)*.

If you do not want to activate QuarkCopyDesk when you launch it, click **Cancel**. QuarkCopyDesk presents the option to activate it each time you launch the application until you activate it.

If you do not activate QuarkCopyDesk, you can use it for 30 days after installation; after 30 days, the product runs in demonstration mode and must be activated before it will run as a full version.

➡️ If you cannot activate online, see *Contacting Quark* for contact information.
Uninstalling

If the uninstaller detects a running instance of the application, an alert displays. Close the application before you begin to uninstall.

Uninstalling: Mac OS X

To uninstall QuarkCopyDesk, open the "Applications" folder on your hard drive (or the folder in which QuarkCopyDesk was installed) and drag the QuarkCopyDesk folder to the trash.

Uninstalling: Windows

To uninstall QuarkCopyDesk:

1. Choose Start > All Programs > QuarkCopyDesk > Uninstall.
2. Click Yes. The uninstaller gathers the information necessary for uninstalling and then an alert displays to notify you that the contents of the QuarkCopyDesk application folder will be deleted.
3. Click Yes to continue or No to cancel.

You can also uninstall by running the installer again.
Changes in this version

**New Features**
Version 10.1 of QuarkCopyDesk included the following new features and enhancements:

**Modern and Optimized UI**

QuarkCopyDesk on *Mac OS X* is now a native Cocoa app with a user interface that’s tightly integrated with the rest of the operating system including Finder, the Dock, and other Cocoa applications. Users benefit from new OS features and get a thoroughly modern, future-focused application with rapid support for new *Mac OS X* releases and features. What’s more QuarkCopyDesk 10.1 now supports HiDPI/Retina® and you will see a new color theme and a number of enhancements to the workspace including palette docking, Fullscreen view and streamlining of many menus and dialogs.

- Palette docking: You can now dock toolbars and palettes to the screen edges. Docked palettes on screen edges form a group and can be moved around as a group.

  The **Measurements** palette can only be docked horizontally due to its width. All other palettes can be docked vertically to the left and right edges of the screen.

- Palette drag and drop: You can drag and drop palettes and merge them into any palette group.

- Palette window snapping: Docked palettes have snapping functionality allowing you to organize your workspace. In the article window, the resize (+) button can be used to unsnap / snap a window to the palettes. A splitter is added between the window and palette edges so that resizing the palette also resizes the window.

- Palette auto show hide: Palette groups can be set to **Auto Show / Hide**. This feature comes in handy when you need a bigger workspace area and would like to invoke palettes on an as needed basis.

- Resizable dialogs: Many dialogs that used to be static are now resizable.

**Productivity Enhancements**

- *Mac OS X* menu enhancements
  
  1 Many menus have been reordered to better group related menu items.
  
  2 Many context menus are shorter, without the long list of disabled menu items.
• Full Screen view (Mac OS X only): You can switch to Full Screen view like many other native Mac OS X applications. When working across more than one screen, palettes can use one screen and your Article another. The editor can focus on the Article without distractions. Full screen mode also hides the menu bar.

• Measurements palette enhancements (Mac OS X only): As part of Cocoa migration, the following dialogs have been removed on Mac OS X: The Modify dialog, the Character Attributes dialog, and the Paragraph Attributes dialog. All of the functionality has been moved to the enhanced Measurements palette and all shortcuts have been mapped to the Measurements palette.

• Print dialog enhancements (Mac OS X only): The print dialog now shows page previews.

Other New Features

• Added the ability to zoom in up to 8000%.

• Retina ready UI (Mac OS X only): The QuarkCopyDesk UI is ready for Apple computers that have a High Resolution Retina display.

• Native support for more font styles (Mac OS X only): QuarkCopyDesk 10.1 lists all the fonts with the family names properly. If you disable fonts from the Font Book they are also removed from the font list in QuarkCopyDesk 10.1.

• MS Word Filter enhancements: Pictures are now imported from Microsoft Word files and hyperlinks are maintained.

• Mac OS X file extensions (Mac OS X only): All save /export dialogs support saving files with their extensions.

• Highlight missing fonts: You no longer need the Usage palette to find missing fonts. In Preferences, on Windows use the Text Highlighting pane and on Mac OS X use the Color Theme pane, and select a background color for missing fonts.

• Added persistent unicode value to the Glyph palette: the selected character's Unicode value is always visible in the Glyph palette and user doesn't need to rely on the tool tip.

• Send text to IME for reconversion: QuarkCopyDesk 10.1 has added support for IME reconversion (for Japanese, Korean text). It helps the user to modify the confirmed phonetic text back to its raw state. On Windows, it is available under the Utilities menu and contextual menu. On Mac, it is available through the IME menu. The support is also provided through IME shortcuts and keyboard.

• Enable/Disable EA feature: QuarkCopyDesk 10.1 lets layout artists work with East Asian typographical concepts such as vertical story text, hanging characters, punctuation character width handling, phonetic text reading (rubi), font sets, character grids, grouped characters, and intelligent font mapping. These features were previously available only with the East Asian and Global editions of QuarkCopyDesk. Now you can control the UI using a dedicated setting in Preferences.

• Program language settings (Mac OS X only): Older versions of QuarkCopyDesk allowed you to change the Program Language from the Edit menu. On Mac OS X, this option is gone and QuarkCopyDesk automatically launches in the active OS language, if supported.
• Support for Portuguese Reformed hyphenation and spell checking: In preferences you can set an option that allows you to choose to use reformed Portuguese.

• Updated Pantone color libraries: QuarkCopyDesk 10.1 integrates the latest color libraries received from Pantone. This update includes 336 new Pantone colors.

Known and resolved issues

For product documentation, visit the Quark Web site at www.quark.com, euro.quark.com, or japan.quark.com. A list of known and resolved issues is available here Support/Documentation/QuarkCopyDesk.
Contacting Quark

The support portal allows you to log support tickets, track tickets, receive status notifications, chat with a technical support representative, search the Knowledge Base, and access product documentation.

With direct access to documentation across all Quark software - from QuarkXPress and App Studio to Quark Enterprise Solutions - you can find answers to your questions at your convenience. Our support team is also available to help, either through our support portal, or via phone for our maintenance contract customers.

If you are a Quark customer and have a current maintenance or support contract your account has already been created for you using your registered email address. If you do not have a support contract you can purchase a single support incident to get your problem resolved. If you have purchased or registered a supported product, you are eligible for free support for the first 90 days.
