### RF Exposure

#### General Statement on RF Energy

Your mobile device contains a transmitter and a receiver. When it is ON, it receives and transmits RF energy. When you communicate with your device, the system handling your call controls the power level at which your device transmits.

#### Specific Absorption Rate (SAR)

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg and the highest SAR value for this device when tested at the ear was XX W/kg*. As mobile devices offer a range of functions, they can be used in other positions, such as on the body as
As SAR is measured utilizing the device's highest transmitting power, the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum power required to communicate with the network.

* The tests are carried out in accordance with IEC standard PT62209-1.

** Please see body worn operation.

**Body-worn Operation**

Important safety information regarding radio frequency radiation (RF) exposure:

To ensure compliance with RF exposure guidelines the mobile device must be used with a minimum of 15 mm separation from the body.

Failure to observe these instructions could result in your RF exposure exceeding the relevant guideline limits.

**Limiting Exposure to Radio Frequency (RF) Fields**

For individuals concerned about limiting their exposure to RF fields, the World Health Organization (WHO) provides the following advice:

Precautionary measures: Present scientific information does not indicate the need for any special precautions for the use of mobile devices. If individuals are concerned, they might choose to limit their own or their children’s RF exposure by limiting the length of calls, or using ‘hands-free’ devices to keep mobile devices away from the head and body.

Further information on this subject can be obtained online from the WHO fact sheet Nº193 at http://www.who.int/mediacentre/factsheets/fs193/en/

**Regulatory Information**

The following approvals and notices apply in specific regions as noted.

Please find the Declaration of RoHS Compliance, and EC Declaration of Conformity in Appendix.

**Distraction**

**Driving**

Full attention must be given to driving at all times in order to reduce the risk of an accident. Using a mobile device while driving (even with a hands free kit) can cause distraction and lead to an accident. You must comply with local laws and regulations restricting the use of wireless devices while driving.

**Operating Machinery**

Full attention must be given to operating the machinery in order to reduce the risk of an accident.

**Product Handling**

**General Statement on Handling and Use**

You alone are responsible for how you use your mobile device and any consequences of its use.

You must always switch off your mobile device wherever the use of a phone is prohibited. Use of your device is subject to safety measures designed to protect users and their environment.

• Always treat your device and its accessories with care and keep it in a clean and dust-free place.

2 Confidential and Proprietary Information of ZTE CORPORATION
• Do not expose your device or its accessories to open flames or lit tobacco products.
• Do not expose your device or its accessories to liquid, moisture or high humidity.
• Do not drop, throw or try to bend your device or its accessories.
• Do not use harsh chemicals, cleaning solvents, or aerosols to clean the device or its accessories.
• Do not paint your device or its accessories.
• Do not attempt to disassemble your device or its accessories, only authorized personnel should do so.
• Do not expose your device or its accessories to extreme temperatures, minimum - [5] and maximum + [50] degrees Celsius.
• Please check local regulations for disposal of electronic products.
• Do not carry your mobile device in your back pocket as it could break when you sit down.

**Small Children**

Do not leave your mobile device and its accessories within the reach of small children or allow them to play with it.

They could hurt themselves or others, or could accidentally damage the device.

Your mobile device contains small parts with sharp edges that may cause an injury or may become detached and create a choking hazard.

**Demagnetization**

To avoid the risk of demagnetization, do not allow electronic devices or magnetic media close to your device for a long time.

**Electrostatic Discharge (ESD)**

Do not touch the SIM card’s metal connectors.

**Air Bags**

Do not place the device in the area over an air bag or in the air bag deployment area.

Store the device safely before driving your vehicle.

**Seizures/Blackouts**

The device can produce a bright or flashing light.

**Repetitive Motion Injuries**

To minimize the risk of RSI when texting or playing games with your device:

• Do not grip the device too tightly.
• Press the buttons lightly.
• Use the special features which are designed to minimize the times of pressing buttons, such as Message Templates and Predictive Text.
• Take lots of breaks to stretch and relax.

**Emergency Calls**

This mobile device, like any wireless phone, operates using radio signals, which cannot guarantee connection in all conditions. Therefore, you must never rely solely on any wireless device for emergency communications.
Loud Noise
This mobile device is capable of producing loud noises, which may damage your hearing. Turn down the volume before using headphones, Bluetooth stereo headsets or other audio devices.

Device Heating
Your device may become warm during charging and during normal use.

Electrical Safety

Accessories
Use only approved accessories.
Do not connect with incompatible products or accessories.
Take care not to touch or allow metal objects, such as coins or key rings, to contact or short-circuit the battery terminals.

Connection to a Car
Seek professional advice when connecting a mobile device interface to the vehicle electrical system.

Faulty and Damaged Products
Do not attempt to disassemble the device or its accessory.
Only qualified personnel should service or repair the device or its accessory.
If your device or its accessory has been submerged in water, punctured, or subjected to a severe fall, do not use it until you have taken it to be checked at an authorized service center.

Interference

General Statement on Interference
Care must be taken when using the mobile device in close proximity to personal medical devices, such as pacemakers and hearing aids.

Pacemakers
Pacemaker manufacturers recommend that a minimum separation of 15 cm be maintained between a mobile device and a pacemaker to avoid potential interference with the pacemaker. To achieve this, use the mobile device on the opposite ear to your pacemaker and do not carry it in a breast pocket.

Hearing Aids
People with hearing aids or other cochlear implants may experience interfering noises when using wireless devices or when one is nearby.
The level of interference will depend on the type of hearing device and the distance from the interference source, increasing the separation between them may reduce the interference. You may also consult your hearing aid manufacturer to discuss alternatives.

Medical Devices
Please consult your doctor and the device manufacturer to determine if operation of your mobile device may interfere with the operation of your medical device.
Hospitals
Switch off your wireless device when requested to do so in hospitals, clinics or health care facilities. These requests are designed to prevent possible interference with sensitive medical equipment.

Aircraft
Switch off your wireless device whenever you are instructed to do so by airport or airline staff.
Consult the airline staff about the use of wireless devices on board the aircraft, if your device offers a ‘flight mode’ this must be enabled prior to boarding an aircraft.

Interference in Cars
Please note that because of possible interference to electronic equipment, some vehicle manufacturers forbid the use of mobile phones in their vehicles unless a hands-free kit with an external antenna is included in the installation.

Explosive Environments
Petrol Stations and Explosive Atmospheres
In locations with potentially explosive atmospheres, obey all posted signs to turn off wireless devices such as your phone or other radio equipment.
Areas with potentially explosive atmospheres include fuelling areas, below decks on boats, fuel or chemical transfer or storage facilities, areas where the air contains chemicals or particles, such as grain, dust, or metal powders.

Blasting Caps and Areas
Power off your mobile phone or wireless device when in a blasting area or in areas posted power off “two-way radios” or “electronic devices” to avoid interfering with blasting operations.

### Starting Up

**How to slot your SIM/memory card**

Power off your device before installing or replacing the battery, SIM card, and memory card.

1. Remove the battery cover.

2. Hold your SIM card with the cut corner oriented as shown below and then insert it into the card holder properly.
3. Hold your memory card with the cut corner oriented as shown in the following picture and then insert it into the card holder properly.

![Image of memory card insertion]

**Notes:**

microSD logo is a trade mark of SD Card Association.

**How to pop in your battery**

1. Insert the battery by aligning the gold contacts on the battery with the gold contacts in the battery compartment on the device.

![Image of battery insertion]

2. Push down the battery until it clicks into place.

**How to charge your V9**

The new battery is not fully charged. To charge the battery, you need to:

1. Connect the adapter to the charger jack.
2. Connect the charger to a standard AC wall outlet.

**Notes:**
- If the battery is low, there will be a pop-up message on the screen and the indicator light will be red.
- When you charge your device, the indicator light will change according to the battery level:

<table>
<thead>
<tr>
<th>Indicator color</th>
<th>Battery level</th>
</tr>
</thead>
<tbody>
<tr>
<td>Red</td>
<td>Less than 10% of the total battery level</td>
</tr>
<tr>
<td>Orange</td>
<td>More than 10%, but less than 90% of the total battery level</td>
</tr>
<tr>
<td>Green</td>
<td>More than 90% of the total battery level</td>
</tr>
</tbody>
</table>

- If the device is powered on, the icon will appear on the status bar. When charging is completed, the battery indicator appears on the status bar.

3. Disconnect the charger when the battery is fully charged.

**Powering On/Off Your Device**

**How to power on your device**
1. Make sure that your SIM card is in your device and the battery is charged.
2. Press **Power Key** to power on your device.

To power off your device, hold **Power Key** to get the phone options, select **Power off**, and then tap **OK**.

**How to switch your device to sleep mode**

Press **Power Key**.

Sleep Mode suspends your device to a low-power-consumption state while the display is off to save battery power. Your device also goes into Sleep Mode automatically when you leave it idle after a certain period of time.
How to wake up your device from sleep mode

If your device is switched to sleep mode, you need to wake it up:

1. Press **Power Key** to activate your screen display.

2. Drag icon to the right.

**Notes:**

If you have set an unlock pattern for your device (see Device Settings-Security Settings-Protecting Your Device with a Screen Lock-Set the screen unlock pattern), you need to draw the pattern to unlock your screen.

Getting Around Your Device

Using Finger Gestures

You can use finger gestures to control your device. The controls on your touch screen change dynamically depending on the tasks you are performing.

1. Tap the buttons, icons, or applications to select items or to open applications.

2. Hold a certain item to get available options.

3. Slide on the screen, you can scroll up/down. From Home Screen, you can also slide left/right to browse the extended Home Screen.

4. Drag a certain item to move it or to do some other corresponding operations.

**Tips:**

Besides using finger gestures to control your device, you can also switch your device screens (such as text input screen, gallery screen, etc.) between portrait or landscape mode by holding the device upright or sideways.

Home Screen

You can add or remove home items in your Home Screen.
Notifications Displays the reminders and status icons of your device. Flick down to open the notifications panel.

Dots Shows you which part of the Home Screen you are looking at.

Shortcuts & Widgets Tap to start related applications.

Applications Tap to open the main menu.

How to extend the Home Screen

Beyond the screen width, the Home Screen extends to provide more space for adding items. Slide your finger to the left or right to get the extended Home Screen.

Customize the Home Screen Wallpaper

To change the wallpaper
1. Tap Home Key to return to the Home Screen.
2. Tap Menu Key and select Wallpaper.
3. Select the wallpaper you want to use from Gallery, Live wallpapers, or Wallpapers.
4. Tap Save or Set wallpaper.

To add a Home Screen item
1. Tap **Home Key** to return to Home Screen.

2. Slide left or right to find an extended Home Screen where there is space to add an item.

3. Tap **Menu Key** and select **Add**.
   
   You can also tap and hold the blank area of the Home Screen to get the **Add to Home screen** shortcut menu.

4. Select an item type and the item you want to add to Home Screen.

**To remove a Home Screen item**

1. Tap **Home Key** to return to Home Screen.

2. Hold the item you want to delete until the 📣 icon appears on the screen.

3. Drag the item to 📣.

</table>

How to open the notification panel

From the Notifications Panel, you can get the information of calendar events, new messages, and ongoing settings such as call forwarding or the current call status. You can open the message, reminder, event notification etc. from the Notification Panel.

1. Hold the notifications bar until 📲 appears on the top of the Screen.

2. Drag the 📲 downwards.

   Tips:
   You can also open the Notifications Panel from the Home Screen by tapping Menu Key > Notifications.

</tbody>
</table>

How to open recently used applications

1. Hold Home Key from any screen until the following recently used applications interface appears.
2. Tap an application you want to open.
Chapter 3

Phone Calls

Making a Call

Making a Call from Dialer

1. Tap  from the Home Screen.

2. Enter the phone number or the contact name you want to call.
   
   Tap  to erase the wrong entry, hold this key to clear all digits. Your device automatically lists the matching contacts. You can tap  to hide the keypad and to see if there are more matching numbers or contacts.

3. Tap .

Making a Call from Contacts

1. Tap  from the Home Screen.

2. Slide your finger to scroll the contacts list and tap the contact you want to call.
   
   Tips:
   
   You can search for a contact by tapping Menu Key > Search.

3. Tap .

Making a Call from Call History

1. Tap  from the Home Screen to open the Dialer.

2. Tap  to open Call History.
   
   Tips:
   
   You can also open Call History by tapping  > Call log tab from the Home Screen.

3. Tap a recently dialed or received call from the list. You can scroll down the list to see more call history.

4. Tap .

Making a Call from a Text Message

If a text message contains a phone number that you want to call, you can make the call while viewing the
text message.

1. Tap **Home Key >** and tap the message that contains the phone number you want to call.
2. Tap the number.
3. Select the number and tap **Call**.

**Making a Conference Call**

You can create a phone session between yourself and two or more other parties.

**Notes:**

This function is subject to your service operator and the network status.

1. Call the first number.
2. While you are connected to the first number, tap **Menu Key > Add call**.
3. Call the second number.
4. While you are connected to the second number, tap **Menu Key > Merge calls**.
5. To add the third party, tap **Menu Key > Add call**.
6. Dial the number, and when connected, tap **Menu Key > Merge calls**.

**Making an Emergency Call**

1. Enter the emergency number for your location from Dialer.
2. Tap **Call**.

**Notes:**

It is possible to dial emergency numbers when the SIM card is not inserted.

Contact your service provider for the emergency numbers they support.

**Making an International Call**

1. Hold **0** from the Dialer to enter “+”.
2. Enter the full phone number.
   
   For example: +49-123-12345678 in the following format: + country code-area code-phone number.
3. Tap **Call**.
Receiving a Call

Answering an Incoming Call
When there is an incoming call, the V9 will display the information on the screen.

Drag 🔄 to the right to answer the call.

Rejecting an Incoming Call
Drag 🗑️ to the left to reject the call.

Muting a Call
During a call, you can mute your microphone so that the person with whom you are speaking cannot hear you, but you can still hear him or her.
Tap Menu Key > Mute.
When the microphone is turned off, the mute icon 🎤 appears on the screen.

Putting a Call on Hold
During a call, you can use the following methods to put the call on hold.
Tap Menu Key > Hold.
The icon 🎤 will be displayed if a call is on hold.
If you are already on a call and accepted the new call, the first call will be put on hold automatically. You can choose to switch between the two callers by tapping Menu Key > Swap calls.

Turning the Speaker On/Off
The speaker is always on when the headset is not plugged in. When you connect the headset to your device, tap Menu Key > Speaker during a call to turn the speaker on or off.
The speakerphone icon 🎤 appears in the status bar when the speakerphone is on.

Ending a Call
During a call, you can tap Menu Key > End call to end it.

Call Settings
You can adjust the call settings of your phone. To open the call settings menu, press Menu Key > Settings > Call settings from the Home Screen.

Chapter 4

Contacts

Starting to use Contacts

You can add new contacts along with their information. Setting up communication information for the contact will allow you to call the person quickly or browse the contact's information. Contacts are saved in the internal memory or in the SIM card. If you store the information in the SIM card, you can fill the name and a number. If you store the information in the internal memory, you can also fill out more information including Email, Postal address, pictures, Nickname, website, etc.

Tap Home Key > to enter the Contacts Screen.

Contacts Screen

There are four tabs in the Contacts Screen: Call log, Contacts, Favorites, and Groups.

Managing Contacts

Importing/Exporting Contacts

You can import/export contacts from/to your SIM card or microSD card.

Import/export contacts from/to SIM card

1. Tap Menu Key > Import/Export from the Contacts Screen.
2. Select to import or export contacts from/to your SIM card.
   
   Your V9 will automatically read the contacts.
3. Select the contacts you want to import/export.

   Tips:

   • If you want to import/export all contacts, tap Menu Key > Select all.

4. Tap Done.

Import/export contacts from/to memory card

1. Tap Menu Key > Import/Export from the Contacts Screen.
2. Select to import or export contacts from/to microSD card.
   If you want to import contacts from microSD card, you should have vCard files saved in the microSD card. If there is more than one vCard file, you need to select the vCard file.

3. Tap OK.

Creating a Contact
1. Tap Menu Key > New contact from the Contacts Screen.
2. Select the location to save your contact.
3. Enter the name and phone numbers. You can also set the Group, Email addresses, IM addresses, Postal addresses, Organizations etc. if you select to create a phone contact.
4. Tap Done to save the contact.

Adding a Contact to Favorites
1. Select the contact you want to add to Favorites from your Contacts Screen.
2. Hold the contact until a shortcut menu appears.

3. Tap Add to favorites.

Searching for a Contact
1. Tap Menu Key > Search from the Contacts Screen.
2. Input the contact name you want to search for.
   The contacts matched will be listed.

Editing a Contact
1. Select the contact you want to edit from the Contacts Screen.
2. Tap Menu Key > Edit contact.
Tips:
You can also edit a contact by holding it in the Contacts Screen and select **Edit contact** from the pop-up shortcut menu.

3. Edit the contact and tap **Done**.

**Deleting a Contact**

1. Select the contact you want to delete from the Contacts Screen.
2. Tap **Menu Key > Delete contact**.
   
   **Tips:**
   You can also delete a contact by holding it in the Contacts Screen and select **Delete contact** from the pop-up shortcut menu.

3. Tap **OK**.
Chapter 5

Entering Text

Using the On-screen Keyboard

When you enter a field that needs text or numbers, hold the input box and select Input method from the pop-up menu to change input method.

Android Keyboard

Android Keyboard is a keyboard layout similar to a desktop computer keyboard. You can choose to use the landscape orientation of the on-screen keyboard, by turning the V9 sideways.

Tips:

• If you want to use the landscape keyboard, you need to select the Orientation check box in Settings > Sound & display.

• The landscape QWERTY keyboard is not supported in all applications.

TouchPal Keyboard

You can select to use one of the three layouts of TouchPal Keyboard.

• Full QWERTY
12–Key PhonePad

CooTek T+

Tap to enter letters, spaces and commas.

Tap to switch between uppercase and lowercase. Tap twice to lock uppercase input.

Turn on word prediction. Change language.

Tap to enter a period. Hold to open text editing options.

Tap to delete text before the cursor.

Tap to start a new line.

Tap to enter digits, symbols, emoticons and other pre-defined texts.

Tap a key repeatedly until the desired letter appears.

Tap to enter the left letter on the key; tap and flick right to enter the right letter/symbol on the key.
XT9 Text Input

XT9 is a predictive text input mode which displays a word candidate list as you enter the first few characters so you just select the word that you want.

You can tap to enter, as with other input method, or trace to enter, without lifting your finger up.

Entering Text through the On-screen Keyboard

1. Enter a field that needs text or numbers.
2. Tap or hold the letters on the keyboard to enter your text.

Entering Numbers and Symbols

1. Enter a field that needs text or numbers.
2. Tap $\mathbb{123}$ to open the symbol panel.
3. Select the numbers and symbols.

Touch Input Settings

You can configure the touch input settings by tapping Menu Key > Settings > Language & keyboard from Home Screen.

TouchPal

- Basic settings
  - Word prediction: Enables the word prediction function.
  - Key press sound: Enables the sound feedback as you touch on the keyboard.
  - Key press vibration: Enables the vibration feedback as you touch on the keyboard.
  - Mixed language input: Enables the language auto-detection if no more than 3 languages are selected.
  - Select languages: Select the languages that you may use.
Swipe to switch layout: Select to swipe horizontally over the keyboard to switch layout.

Layout in portrait mode: Select Full QWERTY, 12-Key PhonePad, or CooTek T+ to change the keypad layout in portrait mode.

Layout in landscape mode: Select Full QWERTY, 12-Key PhonePad, or CooTek T+ to change the keypad layout in landscape mode.

Prediction & Gestures
- Predict next word: Enables your V9 to predict the next word.
- Correct mistyping: Enables your V9 to correct your mistyping.
- Slide-down symbols: Enables you to input symbols by sliding down on keys.
- Relevant words: Enables you to input relevant words by sliding on candidates.
- Help: View the online user manual for using TouchPal.
- About: View the TouchPal information.

Android keyboard
- Vibrate on keypress: Enables vibration feedback as you touch on the keyboard.
- Sound on keypress: Enables the sound feedback as you touch on the keyboard.
- Auto-capitalization: Select the check box to capitalize the first letter of each sentence automatically.

XT9 Text Input
- Languages and settings: Select input languages. Tap a language to set up keyboard layout, word suggestion settings, key input settings, trace input settings, and handwriting input settings.
- Preferences: Set up keypress vibration, keypress sound, auto-capitalization, and auto-punctuation.
- About: View the XT9 version information.
Chapter 6

Messages

Messaging is where all of your SMS and MMS accounts are located.

To access your message accounts, tap Home Key > Messages.

Exchanging Messages

From Messages, you can receive and send an SMS or MMS.

When you receive a new message, you can open it from the Notifications Panel, or from Messages Screen. Simply tap on the new message to read it.

The device will alert you for the unread message(s) with the icon in the status bar.

Composing an SMS

1. Tap Home Key > Messages.
2. Tap New message.
3. Tap To field and enter the recipient’s number. You can also enter the first letters of the recipient’s name to display a list of matching names stored in Contacts, and then select a recipient from the list.
4. Tap Type to compose field and enter the content of your SMS.
5. Tap Send to send your SMS.

Composing an MMS

1. Tap Home Key > Messages.
2. Tap New message.
3. Tap To field and enter the recipient’s number. You can also enter the first letters of the recipient’s name to display a list of matching names stored in Contacts, and then select a recipient from the list.
4. Tap Menu Key > Add subject to enter the subject of your MMS.
5. Tap Type to compose field and enter the contents of your MMS.
6. Tap Menu Key > Attach to add an attachment to your MMS:
   - Pictures: Select a picture to add to your MMS.
   - Capture picture: Take a photo and add to your MMS.
   - Videos: Select a video clip to attach to your MMS.
   - Capture video: Shoot a video clip and add to your MMS.
   - Audio: Select an audio file to add to your MMS.
   - Record audio: Record an audio file and add to your MMS.
   - Slideshow: Edit a slideshow and add to your MMS.
7. Tap Send to send your MMS.
Tips:

• If you add a subject or an attachment to your SMS, the SMS will be converted to an MMS automatically.
• If you remove the subject and attachment of your MMS, the MMS will be converted to an SMS automatically.

Managing Messages and Messages Threads

SMS and MMS messages which are sent to and received from a contact (or a number) are grouped into message threads in the Messages screen. Threaded messages show you exchanged messages (similar to a chat program) with a specific contact on the screen. Message threads are sorted by the time when you received them, with the latest one on the top.

Reply to a message

1. Tap the message you want to reply to from the Messages Screen.
2. Tap Type to compose and enter the contents of your message.
3. Tap Send.

Delete a message (thread)

1. Tap Menu Key > Delete threads from the Messages Screen.
2. Select the messages or threads you want to delete.
3. Tap Delete.

Notes:
You can also delete a message or thread by opening it from the Messaging Screen and tapping Menu Key > More > Delete thread.

Message Settings

Tap Menu Key > Settings from the Messages Screen. You can configure your message settings.

Storage settings

• Delete old messages: Select to delete old messages as limits are reached.
• Text message limit: Set the maximum number of text messages allowed in a single thread.
• Multimedia message limit: Set the maximum number of multimedia messages allowed in a single thread.

Text message (SMS) settings

• Delivery reports: Request a delivery report for each SMS message you send.
• Manage SIM card messages: Manage the messages saved in your SIM card.
• Service Center: Enables you to view and edit the service center.
Multimedia message (MMS) settings

- **Delivery reports**: Request a delivery report for each MMS message you send.
- **Read reports**: Request a read report for each MMS message you send.
- **Auto retrieve**: Select to retrieve MMS messages automatically.
- **Roaming auto-retrieve**: Select to retrieve MMS messages automatically when you are roaming.

Notifications settings

- **Notifications**: Select to display message notifications in the status bar.
- **Select ringtone**: Select a ringtone for your incoming messages.
- **Vibrate**: Select to make your V9 vibrate when receiving a new message.

**Using Email**

Tap **Home Key > 📧** You can enter the Email Screen to setup your Email account and exchange Emails.

**Creating an Email account**

1. Enter your Email address and password, then tap **Next** when you enter the Email Screen for the first time.

2. Select the type of your account, edit the incoming server settings, and then tap **Next/Next[Check]**.
If you tap Next[Check], your device will check the incoming server settings and finish the setup automatically. If you are notified that setup could not be finished, you might need to correct some settings to finish it. If there is any problem, please contact your mobile service provider and Email service provider.

3. Edit the outgoing server settings and tap Next/Next[Check].
   If you tap Next[Check], your device will check the outgoing server settings and finish the setup automatically.

4. Set the Email checking frequency, select whether to use this account by default or be notified when Email arrives, and then tap Next.

5. Give your account a name and set a name displayed on outgoing message, and then tap Done.

Composing and sending an Email

After creating an Email account, you can compose and send Email messages.

1. Tap Menu Key > Compose from the Email Screen.

2. Tap the To field and enter the recipient’s address.
When you enter the address, the matching addresses saved in your Contacts will be displayed. You can tap the recipient from the list.

Tips:
You can also tap **Menu Key > Add Cc/Bcc** to add recipients.

3. Enter the subject and the content of your Email.
4. Tap **Send**.

**Reply to or Forward an Email**
1. Open the Email you want to reply to or forward from Email Screen.
2. Tap **Reply** or **Menu Key > Forward** to reply to/forward the Email. You can also tap **Reply all** to reply to all recipients of the Email.
3. Enter the contents/recipient of your Email.
4. Tap **Send**.

**Email Settings**
Tap the account you want to set from the Email Screen and tap **Menu Key > Account settings**. You can get the Email settings.

**General settings**
- **Account name**: Set your account name.
- **Your name**: Set the name displayed on outgoing message.
- **Email address**: View or edit the email address.
- **Use signature**: Select to use signature.
- **Signature**: Edit your signature.
- **Email check frequency**: Set the email checking frequency.
- **Power-saving mode**: Enable the email synchronization time intelligent adjustment.
- **Default account**: Select the check box to send email from this account by default.

**Notification settings**
- **Email notifications**: Select to be notified in status bar when Email arrives.
- **Select ringtone**: Select the ringtone for incoming Email notification.
- **Vibrate**: Select to be notified by vibration with ringtones when Email arrives.

**Server settings**
- **Incoming settings**: Set the incoming server settings.
- **Outgoing settings**: Set the outgoing server settings.
Chapter 7

Getting Connected

Connecting to the Internet
Your device’s networking capabilities allow you to access the Internet or your corporate network.

Ways of Connecting to the Internet
You can use the default connection settings to connect to the Internet through your mobile network (GPRS/3G/EDGE), or Wi-Fi.

GPRS/3G/EDGE
Use GPRS/3G/EDGE to connect to the Internet and to send and receive MMS/Email messages on your V9. You will need a data plan to use your wireless service provider’s GPRS/3G/EDGE network. Check with your wireless service provider for GPRS/3G/EDGE rates. If the GPRS/3G/EDGE settings are not pre-configured on your device, contact your operator for the parameters. Do not change the settings as this may cause services to stop working.

Add a new GPRS/3G/EDGE connection

Before you begin, get the following information from your service provider:
• Access Point Name (APN)
• Your user name and password if needed.
• Server IP and the port number if the network uses a proxy server.

2. Tap Menu Key > New APN.
3. Tap Name to enter you APN name (You can name it as you like).
4. Tap APN to enter the APN you want to add.
5. Tap Proxy and Port to enter the Server IP and port if the network uses a proxy server.
6. Tap and enter Username and Password (If there is no User name and Password, leave them blank).
7. Tap and enter APN type if needed.
8. Tap Menu Key > Save to complete.

Note:
If you want to set the APN to default settings, tap Menu Key > Reset to default.

Wi-Fi
Wi-Fi provides wireless Internet access over distances of up to 300 feet (100 meters).
Turn on Wi-Fi

1. Tap Home Key > > Settings > Wireless & networks.
2. Select the Wi-Fi check box to turn Wi-Fi on.

Add a Wi-Fi network

1. Tap Home Key > > Settings > Wireless & networks > Wi-Fi settings.
   The Wi-Fi network names and security settings (open network or secured network) of detected Wi-Fi networks are displayed in the Wi-Fi networks section.
2. Tap a network to connect.
   - If you select an open network, you will be automatically connected to the network.
   - If you select a secured network, you will need to input the wireless password.

Check the Wi-Fi network status

You can check the Wi-Fi network status from the status bar and wireless controls.

1. Check the icon in the status bar.
2. Tap Home Key > > Settings > Wireless & networks > Wi-Fi settings, then tap the wireless network that the device is currently connected to.
   You can check the network status from the pop-up window.

Using Browser

You can use your Browser to browse most of the websites. Some web pages may not be displayed properly as some specific web page technologies, such as Flash, are not supported by the browser. Your V9 will automatically create an EDGE or GPRS/3G connection for you while browsing web pages.
Opening Browser

Tap **Home Key > Browser** to start this function.

Opening Web Pages

In **Browser**, you can open web pages through the following ways.
1. Tap the address bar to enter the website you want to browse, and tap **Go**.
2. Tap **Menu Key > Bookmarks** and select an item to open.
3. Select an item from **Most visited** tab/History tab of Bookmarks Screen.

Browsing Options

When browsing web pages, you can do some operations.
1. Tap **Menu Key > Refresh** to refresh the page.
2. Tap **Menu Key > More > Find on page** to enter the search item to view the search result.
3. Tap **Menu Key > More > Select text** and slide your on the page to select the text you want to copy.
   Your V9 automatically copies the selected text to the clipboard.
4. Tap **Menu Key > More > Share page** to send the page by Bluetooth, Email, Gmail, Messaging, or RoadSync Mail.
5. Tap **Menu Key > More > Page info/Downloads** to view the page or download information.
6. Rotate your device sideways to view the landscape Browser Screen if you select the **Orientation** check box in **Home Key > Settings > Sound & display**.

Open a new browser window

1. Tap **Menu Key > New window** to open a new browser window.
2. Tap the address bar to enter the website you want to browse.

Switch between different browser windows

If you have more than one browser window opened, you can switch between these windows.
1. Tap **Menu Key > Windows** to view all the windows you opened.
2. Tap the page you want to browse.

**Tips:**

You can also tap to close a window.

### Open links in web pages

1. Open a web page that contains a link.

2. Tap a link to open the page.

You can also hold on the link to open the shortcut menu:

- **Open**: Open the web page.
- **Open in new window**: Open the web page in a new window.
- **Bookmark link**: Save the link to your Bookmarks.
- **Save link**: Download the linked web page to your V9.
- **Share link**: Send the link by Bluetooth, Email, Gmail, Messaging, or RoadSync Mail.
- **Copy link URL**: Copy the link to the clipboard.

### Download applications from web pages

1. Open a web page that contains an application link.

2. Tap the link or hold on the link and select **Save link** to download the application to your V9.

**Notes:**

Downloaded applications are saved in your microSD card.
Using Bookmarks

You can save your frequently-used pages as bookmarks on your V9.

Add a new bookmark

1. Open a web page.
2. Tap Menu Key > Bookmarks.
3. Tap Add.
4. Enter a name of the bookmark and tap OK.
   Bookmarks will be sorted by the time with the latest one on the top.

Edit a bookmark

1. Open a Browser window.
2. Tap Menu Key > Bookmarks.
3. Select an item you want to edit and hold on it until the shortcut menu pops up.
4. Select Edit bookmark.
5. Edit the name or location, and then tap OK to save it.

Delete a bookmark

1. Open a Browser window.
2. Tap Menu Key > Bookmarks.
3. Select an item you want to delete and hold on it until the shortcut menu pops up.
4. Select Delete bookmark and tap OK to confirm the deletion.

Browser Settings

You can set the Browser text size, home page etc. by tapping Menu Key > More > Settings from a browser window.

Page content settings

- **Text size**: Adjust the browser text size.
- **Default zoom**: Set the browser default zoom.
- **Open pages in overview**: Select to show overview of newly opened pages.
- **Text encoding**: Select a text encoding type.
- **Block pop-up windows**: Select to block pop-up windows.
- **Load images**: Select to show the images of web pages.
- **Auto-fit pages**: Select to format the web pages to fit the screen.
- **Landscape-only display**: Display the web pages only in landscape screen orientation.
- Enable JavaScript: Select to enable JavaScript.
- Enable plug-ins: Select to enable plug-ins.
- Open in background: Select to open new windows behind the current one.
- Set home page: Select to edit the home page web site.

Privacy settings
- Clear cache: Delete all the cached page contents.
- Clear history: Clear the browser navigation history.
- Accept cookies: Select to allow sites to save and read cookies.
- Clear all cookie data: Clear the browser cookies.
- Remember form data: Select to remember the data you type in forms for later use.
- Clear form data: Clear the saved form data.
- Enable location: Select to allow sites to request access to your location.
- Clear location access: Select to clear access for all websites.

Security settings
- Remember passwords: Select to save usernames and passwords for web sites.
- Clear passwords: Clear the saved passwords.
- Show security warnings: Select to show warnings if there is a problem with a site’s security.

Advanced settings
- Reset to default: Clear all browser data and reset all settings to default.

Bluetooth
Bluetooth is a short-range wireless communication technology. Wireless devices with Bluetooth capabilities can exchange information within a distance of about 10 meters without any physical connection. The Bluetooth devices must be paired before the communication is performed.

Turning on/off Bluetooth
1. Tap Home Key > Settings > Wireless & networks.
2. Select the Bluetooth check box to turn Bluetooth on.
   The icon will be displayed in the status bar. If you want to turn Bluetooth off, clear the Bluetooth check box.

   Notes:
   By default, Bluetooth is turned off. If you turn it on, and then turn off your device, Bluetooth is also turned off. When you turn on your device again, Bluetooth turns on automatically.

Making your device visible
Other devices with Bluetooth capabilities can detect your V9, establish a partnership, or use a Bluetooth service.
1. Tap **Home Key** > **Settings** > **Wireless & networks** > **Bluetooth settings**.
2. Select the **Bluetooth** check box if needed.
3. Select the **Discoverable** check box to make your device visible.

**Change your device name**

1. Tap **Home Key** > **Settings** > **Wireless & networks** > **Bluetooth settings**.
2. Select the **Bluetooth** check box if needed.
3. Tap **Device name**.
4. Enter the name and tap **OK**.

**Pair with another Bluetooth device**

You can pair your device with another device that has Bluetooth capabilities. Once you do this, the two devices must have Bluetooth turned on but do not need to be visible for you to exchange information between them.

1. Tap **Home Key** > **Settings** > **Wireless & networks** > **Bluetooth settings**.
2. Tap **Scan for devices**.  
   Your V9 will display all reachable Bluetooth devices in the **Bluetooth devices** section.
3. Tap the device you want to pair with.
4. If necessary, type your PIN to pair and tap **OK**.

**Tips:**

The same PIN should be entered on the other device.
Chapter 8

Experiencing Multimedia

Camera

Your V9 comes with a 3.2–megapixel camera that lets you capture sharp pictures.

Opening Camera

Tap Home Key > Camera to open the camera.

Notes:

You can switch from the camera to the camcorder quickly: Drag the switch up.

Taking Pictures

Aim the camera at the subject and then tap to take the shot.

• Tap the picture in the right corner of your Camera Screen to view the picture just captured.
• Tap Menu Key > Gallery to view all of your pictures.

Camera Settings

By tapping Menu Key > Settings from the Camera Screen, you can adjust the camera settings.

Camera settings

• White balance: Tap to adjust the white balance. White balance enables the camera to capture colors more accurately by adjusting to the current lighting environment.
• Anti Banding: Select to adjust preview images automatically or for specified AC frequencies, in order to avoid striate previews caused by interference.
• Color effect: Tap to select the picture effect.
• Store location: Select to record location in picture data.
• Select ISO: Tap to set the ISO level to 100, 200, 400, or 800, or set it back to Auto. Higher ISO numbers are better for taking pictures in low light conditions.
• Picture Size: Tap to select the size of your captured pictures.
• Picture quality: Tap to adjust the jpeg quality.
• Focus mode: Select to turn on/off autofocus.
• Sharpness: Tap to adjust the saturation.
• Contrast: Tap to adjust the contrast. Higher contrast ratio enables you to easily see the sharp colors of blue, red or green against any black color.
• Saturation: Tap to adjust the saturation.
Restore to default settings

Restore to default settings: Restore the camera settings to default.

**Camcorder**

Camcorder enables you to shoot video clips.

**Opening Camcorder**

Tap Home Key > Camcorder to open the camcorder.

**Notes:**

You can switch from the camcorder to the camera quickly:

- Drag the switch down.

**Shooting Videos**

1. Tap  to start shooting.

2. Tap  to stop shooting.

**Notes:**

- Tap the picture in the right corner of your Camcorder Screen to view the video clip just shot.
- Tap Menu Key > Gallery to view all of your video clips.

**Video Settings**

By tapping Menu Key > Settings from the Camcorder Screen, you can adjust the video settings.

**Camcorder settings**

- **Video quality:** Select the video quality type.
- **Video Encoder:** Select the video encoder type.
- **Audio Encoder:** Select the audio encoder type.
- **Video duration:** Tap to set the video duration.

**FM Radio**

With the FM Radio, you can search for radio channels, listen to them, and save them on your device. Note that the quality of the radio broadcast depends on the coverage of the radio station in that particular area. The wired headset works as an antenna, so always connect the headset when using the radio. When you receive an incoming call while listening to the radio, the radio will be turned off.
Opening FM Radio

You need to insert a headset to your V9 before opening the FM radio.

Tap Home Key > FM Radio to open the FM radio.

After opening the FM radio, you will see the icon in the status bar.

Listening to FM Radio

1. Tap or to scan for channels automatically.

2. Tap Menu Key > Adjust, and then tap to fine tune the frequency by +/-0.1 MHz manually.

3. Hold on a frequency until a red box appears on the screen, and then drag it to the box to save the frequency.

4. Press Volume Keys to adjust the volume.

5. Tap Menu Key > Sleep to set the FM radio sleep timer.

6. Tap to turn off the FM radio.

Music

You can play digital audio files from your device’s memory card in Music.

Opening Music

You need to copy the audio files you want to play to your memory card first.

1. Tap Home Key > Music to open Music Screen.

2. Select a file to open.

Playing Music

1. Tap Artists/Albums/Songs/Playlists to get the songs you want to play.

2. Tap a song from the list to start playing.
Notes:
Press Volume Keys to adjust the volume.

Creating Playlists
You can create some playlists to organize your music files.
1. Select a music file you want to add to a new playlist.
2. Tap and hold on the file until a shortcut menu pops up.
3. Tap Add to playlist.
4. Tap New.
5. Enter the playlist name and tap Save.
The playlist is created and the file you selected is added to the playlist.

Managing Your Playlists
1. Tap Playlist from the Music Screen to view all playlists.
2. Hold on the playlist you want to play or edit until a shortcut menu pops up.
   i. Tap Play to play the playlist.
   ii. Tap Delete to delete the playlist.
   iii. Tap Rename to edit the playlist name.

Add songs to your playlist
1. Open the folder where the song you want to add to a playlist is.
2. Hold on the song until a shortcut menu pops up.
3. Select Add to playlist.
4. Select a playlist from the list.
Setting a Song as Ringtone

1. Open the folder where the song you want to set as ringtone is.
2. Hold on the song until a shortcut menu pops up.
3. Select **Use as phone ringtone**.

Tips:

You can also set a song as ringtone when you are playing it by tapping **Menu Key > Use as ringtone**.

Videos

You can use **Videos** to play your video files.

Opening Videos

Tap **Home Key > Videos** to open the video player.
Your device will show you all video files saved on your memory card.

Playing Videos

Copy the video file to your memory card before playing it.
1. Tap the video file you want to play from the Videos Screen.
2. Tap on the screen to show the control bar.

Gallery

**Gallery** helps you view pictures and play back videos. For pictures, you can also do some basic editing tasks. For instance, set them as your wallpaper or contact icon, and share with your friends.
**Sound Recorder**

**Sound Recorder** enables you to record your voice memos that you can set as ringtone.

**Opening Sound Recorder**

Tap **Home Key > Sound Recorder** to open the sound recorder.

**Notes:**

You need to install a memory card to use Sound Recorder.

**Record Your Memo**

1. Get the microphone near to your mouth.
2. Tap 🎤 to start recording.
3. Tap 🎤 to stop recording.
4. Tap 🎧 to play back the voice recording.
5. Tap **OK** to save the voice recording, or tap **Discard** to discard the recording.

**Notes:**

You can find your recordings in **Home Key > Music > Playlists > My recordings**. If you want to set a recording as ringtone, hold the recording and select **Use as phone ringtone** from the pop-up shortcut menu.
Chapter 9

Google Applications

Signing In to Your Google Account

Signing in to your Google Account enables you to synchronize Gmail, Calendar, and contacts between your device and the web.

1. Tap a Google application, such as Talk.
2. Read the instructions and tap Next.
3. Tap Sign in if you have a Google account. Enter your user name and password, and then tap Sign in. Tap Create if you do not have a Google account.

Using Gmail

Gmail is Google’s web-based email service. Gmail is configured when you sign in to your Google account. Depending on your synchronization settings, Gmail on your V9 is automatically synchronized with your Gmail account on the web.

Open Gmail

Tap > Gmail.

Creating and sending an email

1. In the Inbox, press Menu Key and then tap Compose.
2. Enter the message recipient’s email address in the To field. If you are sending the email to several recipients, separate the email addresses with a comma. You can add as many message recipients as you want.
3. Enter the email subject, and then compose your email.
4. After composing your email, tap Send.

Using Google Calendar

Tap Home Key > Calendar to use Google Calendar, Google’s time management application. You can use the calendar to schedule appointments, including meetings and other events. Your appointments will be displayed on the screen as are scheduled. All your appointments are synchronised to your Google account, which enables you to share your schedule, get your entire calendar on the go, and receive Email reminder for your upcoming events.

Using Google Talk

Google Talk is Google’s instant messaging program, which enables you to communicate with other people that also use Google Talk.

Opening Google Talk

Tap > Talk.
Adding a new friend
You can only add people who have a Google Account.
1. In the Friends list, press **Menu Key > Add friend**.
2. Enter the Google Talk instant messaging ID or Google email address of the friend you want to add.

Viewing and accepting an invitation
1. In the Friends list, press **Menu Key > Invites**.
   All chat invitations you have sent or received are listed on the pending invitations screen.
2. Tap a pending invitation, and then tap **Accept** or **Decline**.

Changing your online status
1. Tap the online status icon beside your status message, and then select the status you want on the menu.
2. Tap the status message box and then enter your status message using the onscreen keyboard.

Starting a chat
1. Tap a friend in the Friends list.
2. Chat with your friend by entering text using the on-screen keyboard.
3. After entering your message, tap **Send**.
Chapter 10

Settings

Basic Settings

Setting the Time and Date

1. Tap Home Key > Menu Key > Settings > Date & time.
2. Clear the Automatic check box if you want to set time and date by yourself.
3. Configure the time and date settings:
   - Tap Set date. Adjust the date, and tap Set to save it.
   - Tap Select time zone and tap the area where you are.
   - Tap Set time. Adjust the time, and tap Set to save it.
   - Tap the check box behind Use 24-hour format to change the time format.
   - Tap Select date format and select the type you like.

Display Settings

By tapping Home Key > Menu Key > Settings > Sound & display, you can configure the display settings, such as orientation, animation, brightness, screen timeout, and calibration.

Adjust the screen brightness

1. Select Brightness from the Display settings.
2. Adjust the brightness and tap OK.

Adjust the delay before the screen turns off

1. Tap Screen timeout from the Display settings.
2. Select the time from the list.

Switch the screen orientation automatically

You can select to switch your screen orientation to landscape or portrait automatically when rotating your V9.

Select the Orientation check box from the Display settings.

If you want to disable this function, clear the Orientation check box.
Show animation when opening/closing windows

You can select to show an animation when opening or closing windows.
1. Tap Animation in the Display settings.
2. Select the animation type you’d like to use.
   If you want to disable this function, select No animations.

Sound Settings

By tapping Home Key > Menu Key > Settings > Sound & display, you can configure the sound settings, such as ringtones and notifications.

Set the ringtone

1. Tap Phone ringtone from Sound settings.
2. Select the ringtone you want to use from the pop-up list.

Tips:
You can also set an audio file as the ringtone while browsing the music list.
1. Open the songs list by tapping Home Key > Music > Songs.
2. Hold the song you like until the shortcut menu pops up.
3. Select Use as phone ringtone.

Set the default notification ringtone

1. Select Notification ringtone from the Sound & display settings.
2. Scroll the ringtone list and select one to set as the default notification ringtone.
3. Tap OK to save.

Switch your device to silent mode

Select the Silent mode check box from the Sound & display settings.
   The silent icon will appear in the status bar.

Switch your device to vibration mode

Select the Phone vibrate check box from the Sound & display settings.
If you switch your device to silent mode with vibration, the vibration icon will appear in the status bar.
Enable the haptic feedback

You can get the vibration feedback while pressing the soft keys and on certain UI interfaces if you have enabled haptic feedback.

1. Tap **Home Key > > Settings > Sound & display**.
2. Select the **Haptic feedback** check box.

Adjust the ringer volume

If you want to set the ringer volume, make sure your device is not in silent mode.

1. Select **Ringer volume** from the Sound & display settings.
2. Adjust the ringer volume and tap **OK** to save.

---

**Tips:**

You can adjust the ringer volume quickly by pressing **Volume Keys** from any screen.

---

**Notes:**

If you want to adjust the notification volume together with ringer volume, select the **Use incoming call volume for notifications** check box.

Adjust the media volume

You can adjust the media volume for **Music** and **Videos** players.

1. Select **Media volume** from the Sound & display settings.
2. Adjust the media volume and tap **OK** to save.

Enable the touch tones

You can set your V9 to play tones when touching the keys of Dialer.

Select the **Audible touch tones** check box from the Sound & display settings.

Enable the screen selection tones

You can set your V9 to play sound while making a selection by touching the screen.

Select the **Audible selection** check box from the Sound & display settings.
Enable the SD card notifications

You can set your V9 to play sound for microSD card notifications. Select the **SD card notifications** check box from the Sound & display settings.

Enable the music mode settings

You can configure the music mode settings. Clear **Turnoff Music Mode Settings** check box from the Sound & display settings. Then you can tap **Music Mode** to select a music mode from a list. You can also select **Music Video** check box to use music mode when playing MTV.

Language Settings

You can change the system language of your device.

Change the language of your operating system

1. Tap > Settings > Language & keyboard > Select locale.
2. Select a language from the locale list to set it as the system language.

Mobile Network Services

The GSM and WCDMA services are supported by your device. You can configure the network settings according to your phone service.

Enable data roaming

2. Select the **Data roaming** check box to enable data roaming.

Switch the network mode

2. Select **GSM/WCDMA auto**, **WCDMA only**, or **GSM only** to switch the network mode.

Switch the network operators

2. Tap **Search networks** to set the network operator manually, or tap **Select automatically** to set the
network operator automatically.

Set the Access Point Names

You can use the default Access Point Names (APN) to connect to the internet. If you want to add a new APN, please contact your network operator to get detailed information.

2. Tap `Menu Key` > `New APN`.
3. Set the necessary parameters (see `Getting Connected - Connecting to the Internet - GPRS/3G/Edge - Add a new GPRS/3G/EDGE connection.`)
4. Tap `Menu Key` > `Save`.

Security Settings

You can protect your device and SIM card from unauthorized use.

Protecting Your V9 with a Screen Lock

Set the screen unlock pattern

You can protect your V9 from unauthorized use by creating a personal screen unlock pattern.

1. Tap `>` > `Settings` > `Location & security` > `Set unlock pattern`.
2. Read the instructions and tap `Next`.
3. Watch the example pattern and tap `Next`.
4. Draw your own pattern and tap `Continue`.

5. Draw the pattern again and tap `Confirm`. 
Lock the screen

Press **Power Key** to lock the screen.

Unlock the screen with a pattern

1. Press **Power Key**.
2. Draw the pattern you set to unlock the screen.

If you make a mistake, your V9 will ask you to try again.

Protecting Your SIM Card with a PIN

You can set the PIN password to prevent others from using the SIM function. The initial PIN code is provided by your service operator.

1. Tap **Home Key > Settings > Location & security > Set up SIM/RUIM card lock.**
2. Select the **Lock SIM/RUIM card** check box.
3. Enter the PIN and tap **OK**.

Change SIM PIN

Before changing SIM PIN, you need to enable it.

1. Tap **Home Key > Settings > Location & security > Set up SIM/RUIM card lock.**
2. Tap **Change SIM/RUIM PIN.**
3. Enter the PIN and tap **OK**.
4. Enter a new PIN and tap **OK**.
5. Reenter the new PIN and tap **OK**.

### Setting Up Credential Storage
You can select to allow applications to access secure certificates and other credentials.

**Enable secure credentials**

1. Tap **Home Key > Settings > Location & security**.
2. Tap **Set password** to create a password.
3. Select the **Use secure credentials** check box.

**Delete credentials**

1. Tap **Settings > Location & security**.
2. Tap **Clear storage** to clear credentials.

### Managing Memory

#### Managing Your Memory Card

**View the space information**

Tap **Home Key > Settings > SD card, USB Mass Storage & phone storage**. You can view the space information from the **Total space/Available space** in **SD card** section.

**Unmount your memory card**

1. Tap **Home Key > Settings > SD card, USB Mass Storage & phone storage**.
2. Tap **Unmount SD card**.
   - The **icon will appear in the status bar.**
Format your memory card

1.Unmount your memory card.
2. Tap Format SD card.
3. Tap Format SD card to confirm.

Managing Internal Storage

View the phone space information

1. Tap Home Key > > Settings > SD card, USB Mass Storage & phone storage.
2. Scroll down to view the Available space in the Internal phone storage section.
3.

Reset to factory settings

1. Tap Home Key > > Settings > Privacy.
2. Tap Factory data reset.
3. Tap Reset phone.

Application Settings

Managing Applications
You can view and manage the applications installed in your device.

View the applications installed in your device

Tap Home Key > > Settings > Applications > Manage applications.
Your V9 will show you the applications in a list.

Allow the installation of non-Market applications

1. Tap Home Key > > Settings > Applications.
2. Select the Unknown sources check box.

Install an application
You can install an application from the Android Market by selecting the item you want to download and tap Install.
You can also install a non-Marketing application if you have allowed the installation of it. Make sure that you select an application developed for your device and processor type before installing it.

1. Tap **Home Key > Filer**, and open the folder where the application you want to install is.
2. Tap the application to start installation.
3. Read the installation instructions that come with the application and follow it to complete the setup.

**Remove an application**

You can uninstall any application that you have downloaded and installed from Android Market.

1. On the Downloads screen, tap the application you want to uninstall, then tap **Uninstall**.
2. When prompted, tap **OK** to remove the application from your device.
3. Choose the reason for removing the application, then tap **OK**.

**Uninstall third-party applications**

1. Tap **Home Key > Settings > Applications > Manage applications**.
2. Tap on the application you want to remove.
3. Tap **Uninstall**, and tap **OK** to confirm.

**Other Settings**

**Search Settings**

You can manage search settings and history by tapping **Home Key > Settings > Search**.

**Google Search Settings**

- **Show web suggestions**: Select to show suggestions from Google as you type.
- **Search history**: Select to configure search history settings.

**Searchable Items Settings**

Tap **Home Key > Settings > Search > Searchable items**.

When you search for information on your V9, only the searchable items will be searched.

**Speech Synthesis Settings**

You can set the text-to-speech options by tapping **Home Key > Settings > Text-to-speech**. Before you use this function, you should install the voice data.
Chapter 11

Other Applications

Alarming

Set alarms

1. Tap Home Key > Clock > Alarming.
2. Tap the default alarm set to configure it or tap Menu Key > Add alarm to create a new alarm.
3. Select the Alarm check box and edit the items needed, such as Name, Time, Repeat, Snooze, Duration, Vibrate only, Ringtone, Volume, Volume crescendo, and Delay.

Documents To Go

You can use this application suite to open word, excel, powerpoint, or PDF files.
Read the on-screen instructions for detailed information.

Global Time

Global Time is used to view the time of major cities in the world.

Note pad

Note pad is used to take down some memos.

Calculator

Open Calculator

Tap > Calculator.

Calculator function introduction

1. Enter a number.
2. Tap +/-x/÷.
3. Enter another number.
4. Tap =.
5. Tap CLEAR to reset the calculator.

Tips:

Tap Menu > Advanced Panel to use scientific calculation.
Calendar

Tap Home Key > Calendar. You can use the calendar to schedule appointments, including meetings and other events. Your appointments will be displayed on the screen as is scheduled.

SIM Toolkit

SIM Toolkit appears on the screen only if your SIM card provides this function. To use the SIM card services, insert your SIM card into the device first.

Tap Home Key > SIM Toolkit.

Task Manager

You can use Task Manager to view and stop running applications.

Stopwatch

1. Tap Home Key > Stopwatch.
2. Tap Start to start timing.
3. Tap Pause to pause time and tap Resume to continue.
4. Tap Reset to reset the stopwatch.
