Overview

Before Getting Started
1. Insert the SIM card.
2. Insert the microSD card (may already be inserted).
3. Install the battery.
4. Replace the cover.
5. Charge up.

Powering On & Off
1. To power on your device, hold the Power Key.
2. To power off your device, hold the Power Key to get the phone options, select the Power off option, and then tap OK.

Switching Your V9A to Sleep Mode
Sleep Mode suspends your device to a low-power-consumption state while the display is off to save battery power. Your device also goes into Sleep Mode automatically when you leave it idle after a certain period of time.

Press Power Key.

Waking Up Your V9A from Sleep Mode
1. Press the Power Key to activate your screen display.
2. Drag the unlock icon to the right.

Product Safety Information

Read the Safety Information section of this user guide.

- Do not use while re-fuelling.
- Do not use hand-held while driving.
- This device may produce a bright or flashing light.
- For body-worn operation maintain a separation of 0.5 cm.
- Do not dispose of it in a fire.
- Small parts may cause a choking hazard.
- Avoid contact with magnetic media.
- This device may produce a loud sound.
- Avoid extreme temperatures.
- Keep away from pacemakers and other personal medical devices.
- Avoid any contact with liquid, keep it dry.
- Switch off when instructed in hospitals and medical facilities.
- Do not attempt to disassemble.
- Switch off when instructed in aircrafts and airports.
- Do not rely on this device for emergency communications.
- Switch off in explosive environments.

Only use approved accessories.

- RF Exposure
Your device contains a transmitter and a receiver. When it is ON, it receives and transmits RF energy.
When you communicate with your device, the system handling your communication controls the power level at which your device transmits.

Specific Absorption Rate (SAR)
Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.
The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg. The highest SAR value for this device when tested was 1.58 W/kg and complied with this limit.
Limiting exposure to radio frequency (RF) fields

For individuals concerned about limiting their exposure to RF fields, the World
Health Organisation (WHO) provides the following advice:

Precautionary measures: Present scientific information does not indicate the
need for any special precautions for the use of mobile devices. If individuals are
concerned, they might choose to limit their own or their children’s RF exposure by
limiting the length of calls, or using ‘hands-free’ devices to keep mobile devices
away from the head and body.

Further information on this subject can be obtained from the WHO home page

National Restrictions on Wi-Fi Usage

Declaration of RoHS Compliance

To minimize the environmental impact and take more responsibility to the earth we
live in, this document shall serve as formal declaration that the V9A manufactured
by ZTE CORPORATION is in compliance with the Directive 2002/95/EC of the
European Parliament - RoHS (Restriction of Hazardous Substances) with respect to
the following substances:

1. Lead (Pb)
2. Mercury (Hg)
3. Cadmium (Cd)
4. Hexavalent Chromium (Cr (VI))
5. Polybrominated biphenyls (PBB’s)
6. Polybrominated biphenyl ethers (PBDE’s)

(Compliance is evidenced by written declaration from our suppliers, assuring that
any potential trace contamination levels of the substances listed above are below
the maximum level set by EU 2002/95/EC, or are exempt due to their application.)

The V9A manufactured by ZTE CORPORATION, meets the requirements of EU
2002/95/EC.

Disposal of Your Old Appliance

1. When this crossed-out wheeled bin symbol is
attached to a product, it means the product is
covered by the European Directive 2002/96/EC.
2. All electrical and electronic products should be
disposed of separately from the municipal waste
stream via designated collection facilities appointed
by the government or the local authorities.
3. The correct disposal of your old appliance will help
prevent potential negative consequences for the
environment and human health.

For this product's recycling information based on WEEE directive, please
send an e-mail to weee@zte.com.cn.

EC DECLARATION OF CONFORMITY

It is hereby declared that the following designated product:

Product Type: TABLET
Model No.: V9A

Complies with

the essential protection requirements of the Radio and
Telecommunication Terminal Equipment Directive (EC Directive 1999/5/EC) and the

This declaration applies to all electronic handheld terminal that are
manufactured and tested in full compliance with the following standards:
